In lieu of using a settled open feedlot effluent basin as provided in section 459A.302 to meet the open feedlot effluent control requirements of section 459A.401, an open feedlot operation may use an alternative technology system for open feedlot effluent control.

1. The alternative technology system must provide an equivalent level of open feedlot effluent control as would be achieved by using a settled open feedlot effluent basin.

2. The commission shall adopt rules establishing requirements for the construction and operation of alternative technology systems.

SUBCHAPTER IV

EFFLUENT CONTROL

459A.401 Open feedlot effluent control methods.

An open feedlot operation shall provide for the management of open feedlot effluent by using an open feedlot effluent control method as follows:

1. All settleable solids from open feedlot effluent shall be removed prior to discharge into a water of the state.

a. The settleable solids shall be removed by use of a solids settling facility. The construction of a solids settling facility is not required where existing site conditions provide for removal of settleable solids prior to discharge into a water of the state.

b. The removal of settleable solids shall be deemed to have occurred when the velocity of flow of the open feedlot effluent has been reduced to less than point five feet per second for a minimum of five minutes. A solids settling facility shall have sufficient capacity to store settled solids between periods of land application and to provide required flow-velocity reduction for open feedlot effluent flow volumes resulting from a precipitation event of less intensity than a ten-year, one-hour frequency event. A solids settling facility which receives open feedlot effluent shall provide a minimum of one square foot of surface area for each eight cubic feet of open feedlot effluent per hour resulting from a ten-year, one-hour frequency precipitation event.

2. Notwithstanding subsection 1, an open feedlot operation that is a concentrated animal feeding operation shall comply with applicable NPDES permit requirements as provided in the federal Water Pollution Control Act, pursuant to rules that shall be adopted by the commission. Any rules adopted pursuant to this subsection shall be no more stringent than requirements under the federal Act.

3. If the open feedlot operation is designed, constructed, and operated in accordance with the requirements of an open feedlot effluent control system as provided in rules adopted by the commission, the operation shall be deemed to be in compliance with this section, unless a discharge from the operation causes a violation of state water quality standards as provided in chapter 455B, subchapter III.

4. The following shall apply to an open feedlot operation which has an animal unit capacity of one thousand animal units or more:

a. (1) The open feedlot operation shall not discharge open feedlot effluent from an open feedlot operation structure into any waters of the United States, unless the discharge is pursuant to an NPDES permit.

(2) The open feedlot operation shall not be required to be issued an NPDES permit if the operation does not discharge open feedlot effluent into any waters of the United States.

b. The control of open feedlot effluent originating from the open feedlot operation may be accomplished by the use of a solids settling facility, settled open feedlot effluent basin, alternative technology system, or any other open feedlot effluent control structure or practice approved by the department. The department may require the diversion of surface drainage prior to contact with an open feedlot operation structure. Solids shall be settled from open feedlot effluent before the effluent enters a settled open feedlot effluent basin or alternative technology system.

459A.402 Open feedlot effluent control — alternative control practices.

If because of topography or other factors related to the site of an open feedlot operation it is economically or physically impractical to comply with open feedlot effluent control requirements using an open feedlot control method in section 459A.401, the department shall allow the use of other open feedlot effluent control practices if those practices will

459A.403 Solids stockpiling.

A person may stockpile solids, subject to all of the following:

1. *a.* The person shall not stockpile the solids within the following distances:

(1) Four hundred feet from a designated area other than a high-quality water resource.

(2) Eight hundred feet from a high-quality water resource.

b. The person shall not stockpile solids within two hundred feet from a terrace tile inlet or surface tile inlet unless the solids are maintained in a manner that will not allow precipitation-induced runoff to drain from the solids to the terrace tile inlet or surface tile inlet.

c. The person shall not stockpile solids in a grassed waterway or where water pools on the soil surface.

d. The person shall not stockpile solids on land having a slope of more than three percent unless methods, structures, or practices are implemented to contain the stockpiled solids, including but not limited to using hay bales, silt fences, temporary earthen berms, or other effective measures, and to prevent or diminish precipitation-induced runoff from the stockpiled solids.

2. The person must remove the stockpiled solids and apply them in accordance with the provisions of this chapter, including but not limited to section 459A.410, within six months after the solids are stockpiled.

2006 Acts, ch 1088, §5, 6

459A.404 Animal truck wash facility — construction regulations.

1. *a.* An animal truck wash effluent structure shall not be constructed or expanded within one thousand two hundred fifty feet from a residence not owned by the titleholder of the animal truck wash facility, a commercial enterprise, a bona fide religious institution, an educational institution, or a public use area, as those terms are defined in section 459.102, and as provided in rules adopted by the commission pursuant to sections 459.103 and 459A.104.

b. An animal truck wash effluent structure shall not be constructed or expanded within one hundred feet from a public thoroughfare as defined in section 459.102.

c. Paragraph *"a"* does not apply if a residence, educational institution, commercial enterprise, or bona fide religious institution was constructed or expanded, or if the boundaries of the public use area were expanded, after the date that the animal truck wash facility was established. The date the animal truck wash facility was established is the date on which the animal truck wash facility commenced operating. A change in ownership or expansion of the animal truck wash facility shall not change the established date of operation.

d. Paragraph *"a"* or *"b"* does not apply if the titleholder of the land benefiting from the separation distance requirement, including a person so authorized by the titleholder, executes a written waiver with the titleholder of the land where the animal truck wash effluent structure is located. The structure shall be constructed or expanded under such terms and conditions that the parties negotiate. The state or a political subdivision constructing or maintaining the public thoroughfare benefiting from the separation distance requirement may execute a written waiver with the titleholder of the land where the structure is located. The animal truck wash effluent structure shall be constructed or expanded under such terms and conditions that the parties negotiate.

e. Paragraph *"a"* or *"b"* does not apply to a small animal truck wash facility.

f. An unformed animal truck wash effluent structure shall not be constructed or expanded within the following minimum separation distances from any of the following:

(1) One thousand feet from a public shallow well.

(2) Four hundred feet from a public deep well.

(3) Four hundred feet from a private well.

NOT FOR PRINT RELEASE

2. *a.* Any separation distance required for a confinement feeding operation structure and a location or object specified in section 459.310, subsection 1, shall also apply to an animal truck wash effluent structure and that same location or object.

b. Any requirement, qualification, or exception that applies to a separation distance required for a confinement feeding operation structure and a location or object specified in section 459.310, subsections 1 and 3, shall also apply to the separation distance required for an animal truck wash effluent structure and that same location or object. A separation distance requirement shall not apply to any of the following:

(1) An animal truck wash effluent structure and a farm pond or privately owned lake, as defined in section 462A.2.

(2) An animal truck wash effluent structure constructed with a secondary containment barrier in accordance with rules adopted by the commission. The rules shall correspond to rules adopted pursuant to section 459.310, subsection 3.

3. *a.* An animal truck wash effluent structure shall not be constructed or expanded on land that is part of a one hundred year floodplain as designated by rules adopted by the commission pursuant to section 459A.104. The rules shall correspond to rules adopted pursuant to section 459.310, subsections 2 and 4.

b. For purposes of section 459.310, subsection 4, the provisions relating to an unformed manure storage structure shall apply to an unformed animal truck wash effluent structure and the provisions relating to a formed manure storage structure shall apply to a formed animal truck wash effluent structure. However, the requirement in section 459.310, subsection 4, paragraph *"a"*, relating to animal weight capacity or animal unit capacity shall not apply to the replacement of an unformed animal truck wash effluent structure with a formed animal truck wash effluent structure. In addition, the capacity of a replacement animal truck wash effluent structure shall not exceed the amount required to store animal truck wash effluent for any eighteen-month period.

4. A person shall not construct or expand an unformed animal truck wash effluent structure within an agricultural drainage well area as provided in section 460.205.

5. A person shall not construct an unformed animal truck wash effluent structure on karst terrain or on an area that drains into a known sinkhole. However, a person may construct an animal truck wash effluent structure if there is a twenty-five foot vertical separation distance between the bottom of the structure and underlying limestone, dolomite, or other soluble rock as documented in the engineering report submitted to the department pursuant to section 459A.205.

459A.410 Effluent application requirements.

1. Open feedlot effluent or animal truck wash effluent shall be applied in a manner which does not cause surface water or groundwater pollution. Application in accordance with the provisions of state law, including this chapter, rules adopted pursuant to the provisions of state law, including this chapter, and guidelines adopted pursuant to this chapter, shall be deemed as compliance with this section.

2. A separation distance in section 459.314 that applies to the land application of liquid manure from a confinement feeding operation shall also apply to animal truck wash effluent from an animal truck wash effluent structure in accordance with rules adopted by the commission.

3. A person shall not apply animal truck wash effluent on land located within seven hundred fifty feet from a residence not owned by the titleholder of the land in accordance with rules adopted by the commission. This separation distance does not apply to the following:

a. The animal truck wash effluent is injected into the soil or incorporated within the soil not later than twenty-four hours from the original application, as provided by rules adopted by the commission.

UNOFFICIAL VERSION: 2017 YEARLY RELEASE

b. The titleholder of the land benefiting from the separation distance requirement executes a written waiver with the titleholder of the land where the animal truck wash effluent is applied.

c. The animal truck wash effluent is from a small animal truck wash facility or an animal truck wash facility that is part of a small animal feeding operation.

SUBCHAPTER I

GENERAL PROVISIONS

459B.101 Title.

This chapter shall be known and may be cited as the *"Animal Agriculture Compliance Act for Dry Bedded Confinement Feeding Operations"*.

2009 Acts, ch 155, §5, 18

459B.102 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Alluvial aquifer area"* means an area underlaid by sand or gravel aquifers situated beneath floodplains along stream valleys and includes alluvial deposits associated with stream terraces and benches, contiguous wind-blown sand deposits, and glacial outwash deposits.
2. *"Animal"* means cattle or swine.
3. *"Animal unit"* means the same as defined in section 459.102.
4. *"Animal unit capacity"* means the maximum number of animal units which the owner or operator confines in a dry bedded confinement feeding operation at any one time.
5. *"Bedding"* means crop, vegetation, or forage residue or similar materials placed in a dry bedded confinement building for the care of animals.
6. *"Commercial enterprise"* means the same as defined in section 459.102.
7. *"Confinement feeding operation"* means the same as defined in section 459.102.
8. *"Department"* means the department of natural resources.
9. *"Designated area"* means the same as defined in section 459A.102.
10. *"Designated wetland"* means the same as defined in section 459.102.
11. *"Dry bedded confinement feeding operation"* means a confinement feeding operation in which animals are confined to areas which are totally roofed and in which all manure is stored as dry bedded manure.
12. *"Dry bedded confinement feeding operation structure"* means a dry bedded manure confinement feeding operation building or a dry bedded manure storage structure.
13. *"Dry bedded manure"* means manure from animals that meets all of the following requirements:

a. The manure does not flow perceptibly under pressure.

b. The manure is not capable of being transported through a mechanical pumping device designed to move a liquid.

c. The manure contains bedding.

14. *"Dry bedded manure confinement feeding operation building"* or *"building"* means a building used in conjunction with a confinement feeding operation to house animals and in which any manure from the animals is stored as dry bedded manure.

15. *"Dry bedded manure storage structure"* means a covered or uncovered structure, other than a building, used to store dry bedded manure originating from a confinement feeding operation.

16. *"Educational institution"* means the same as defined in section 459.102.

17. *"Grassed waterway"* means the same as defined in section 459A.102.

18. *"High-quality water resource"* means the same as defined in section 459.102.

19. *"Karst terrain"* means the same as defined in section 459.102.

20. *"Major water source"* means the same as defined in section 459.102.

21. *"Manure"* means the same as defined in section 459.102.

22. *"One hundred year floodplain"* means the same as defined in section 459.102.

23. *"Public use area"* means the same as defined in section 459.102.

24. *"Stockpile"* means to store dry bedded manure outside of a dry bedded manure confinement feeding operation building or a dry bedded manure storage structure.

25. *"Water source"* means the same as defined in section 459.102.

2009 Acts, ch 155, §6, 18; 2010 Acts, ch 1069, §59
Referred to in §459.102

459B.103 Special terms.

For purposes of this chapter, all of the following shall apply:

1. Two or more dry bedded confinement feeding operations under common ownership or common management are deemed to be a single dry bedded confinement feeding operation if they are adjacent or utilize a common area or system for dry bedded manure disposal.

2. For purposes of determining whether two or more dry bedded confinement feeding operations are adjacent, all of the following shall apply:

a. At least one dry bedded confinement feeding operation structure must be constructed on or after March 21, 1996.

b. A dry bedded confinement feeding operation structure which is part of one dry bedded confinement feeding operation is separated by less than one thousand two hundred fifty feet from a dry bedded confinement feeding operation structure which is part of the other dry bedded confinement feeding operation.

3. *a.* For purposes of determining whether two or more dry bedded confinement feeding operations are under common ownership, a person must hold an interest in each of the dry bedded confinement feeding operations as any of the following:

(1) A sole proprietor.

(2) A joint tenant or tenant in common.

(3) A holder of a majority equity interest in a business association as defined in section 202B.102, including but not limited to as a shareholder, partner, member, or beneficiary.

b. An interest in the dry bedded confinement feeding operation under paragraph *"a"*, subparagraph (2) or (3) which is held directly or indirectly by the person's spouse or dependent child shall be attributed to the person.

4. For purposes of determining whether two or more dry bedded confinement feeding operations are under common management, a person must have significant control of the management of the day-to-day operations of each of the dry bedded confinement feeding operations. Common management does not include control over a contract livestock facility by a contractor, as defined in section 202.1.

5. In calculating the animal unit capacity of a dry bedded confinement feeding operation, the animal unit capacity shall include the animal unit capacity of all dry bedded manure

confinement feeding operation buildings that are used to house animals in the dry bedded confinement feeding operation.

2009 Acts, ch 155, §7, 18; 2010 Acts, ch 1069, §60

459B.104 General authority — commission and department — purpose — compliance.

1. The environmental protection commission shall establish by rule adopted pursuant to chapter 17A, requirements relating to the construction, including expansion, or operation of dry bedded confinement feeding operations, including related dry bedded manure confinement feeding operation buildings and stockpiles.

2. Any provision referring generally to compliance with the requirements of this chapter as applied to dry bedded confinement feeding operations also includes compliance with requirements in rules adopted by the environmental protection commission pursuant to this section, orders issued by the department as authorized under this chapter, and the terms and conditions applicable to manure management plans required under this chapter.

3. The purpose of this chapter is to provide requirements relating to the construction, including the expansion, and operation of dry bedded confinement feeding operations, and the control of dry bedded manure which shall be construed to supplement applicable provisions of chapter 459. If there is a conflict between the provisions of this chapter and chapter 459, the provisions of this chapter shall prevail.

4. Rules adopted to implement this chapter are not subject to section 17A.7, subsection 2 or 3.

SUBCHAPTER II

DRY BEDDED MANURE STRUCTURES — CONSTRUCTION REQUIREMENTS

459B.201 Construction design standards.

A person constructing a dry bedded confinement feeding operation structure on karst terrain or in an alluvial aquifer area shall comply with all of the following:

1. The person must construct the dry bedded confinement feeding operation structure at a location where there is a vertical separation distance of at least five feet between the bottom of the floor of the dry bedded confinement feeding operation structure and the underlying limestone, dolomite, or other soluble rock in karst terrain or the underlying sand and gravel aquifer in an alluvial aquifer area.

2. The person must construct the dry bedded confinement feeding operation structure with a floor consisting of reinforced concrete at least five inches thick.

2009 Acts, ch 155, §9, 18

459B.202 Distance requirements.

1. Except as provided in subsection 3, the following shall apply:

a. A dry bedded confinement feeding operation structure shall not be constructed closer than five hundred feet away from the surface intake of an agricultural drainage well. A dry bedded confinement feeding operation structure shall not be constructed closer than one thousand feet from a wellhead, cistern of an agricultural drainage well, or known sinkhole.

b. A dry bedded confinement feeding operation structure shall not be constructed if the dry bedded confinement feeding operation structure as constructed is closer than any of the following:

(1) Two hundred feet away from a water source other than a major water source.

(2) One thousand feet away from a major water source.

(3) Two thousand five hundred feet away from a designated wetland.

c. (1) A water source, other than a major water source, shall not be constructed, expanded, or diverted if the water source as constructed, expanded, or diverted is closer than two hundred feet away from a dry bedded confinement feeding operation structure.

UNOFFICIAL VERSION: 2025 REGULAR RELEASE

(2) A major water source shall not be constructed, expanded, or diverted if the major water source as constructed, expanded, or diverted is closer than one thousand feet from a dry bedded confinement feeding operation structure.

(3) A designated wetland shall not be established if the designated wetland is closer than two thousand five hundred feet away from a dry bedded confinement feeding operation structure.

2. A dry bedded confinement feeding operation structure shall not be constructed on land that is part of a one hundred year floodplain.

3. A separation distance required in subsection 1 shall not apply to any of the following:

a. A location or object and a farm pond or privately owned lake, as defined in section 462A.2.

b. A dry bedded confinement feeding operation structure constructed with a secondary containment barrier. The department shall adopt rules providing for the construction and use of a secondary containment barrier.

SUBCHAPTER III

DRY BEDDED MANURE CONTROL

459B.301 Stockpiling — air quality.

A person may stockpile dry bedded manure, subject to this section.

1. Except as provided in subsection 2, a person shall not stockpile dry bedded manure within one thousand two hundred fifty feet from a residence not owned by the titleholder of the land, a commercial enterprise, a bona fide religious institution, an educational institution, or a public use area.

2. A person may stockpile dry bedded manure within a separation distance required between the stockpiled dry bedded manure and an object or location for which separation is required under subsection 1, if any of the following apply:

a. The titleholder of the land benefiting from the separation distance requirement executes a written waiver with the titleholder of the land where the dry bedded manure is stockpiled.

b. The stockpiled dry bedded manure originates from a small animal feeding operation.

2009 Acts, ch 155, §11, 18
Referred to in §459B.402

459B.302 through 459B.304 Reserved.

459B.305 Dry bedded manure control — water quality.

A dry bedded confinement feeding operation shall retain all dry bedded manure produced by the operation between periods of dry bedded manure application. For purposes of this section, dry bedded manure may be retained by stockpiling as provided in this chapter. A dry bedded confinement feeding operation shall not discharge dry bedded manure directly into water of the state or into a tile line that discharges directly into water of the state.

2009 Acts, ch 155, §12, 18

459B.306 Stockpiling — NPDES requirements — water quality.

A person stockpiling dry bedded manure shall comply with applicable requirements of the national pollutant discharge elimination system pursuant to the federal Water Pollution Control Act, 33 U.S.C. ch. 26, as amended, and 40 C.F.R. pts. 122 and 412.

2009 Acts, ch 155, §13, 18

459B.307 Stockpiling — state requirements — water quality.

A person may stockpile dry bedded manure, subject to all of the following:

1. *a.* The person shall not stockpile the dry bedded manure within the following distances

to a designated area unless the dry manure is maintained in a manner that will not allow precipitation-induced runoff to drain from the dry bedded manure to the designated area:

(1) Four hundred feet from a designated area other than a high-quality water resource.

(2) Eight hundred feet from a high-quality water resource.

b. The person shall not stockpile dry bedded manure within two hundred feet from a terrace tile inlet or surface tile inlet unless the dry bedded manure is maintained in a manner that will not allow precipitation-induced runoff to drain from the dry bedded manure to the terrace tile inlet or surface tile inlet.

c. The person shall not stockpile dry bedded manure in a grassed waterway, where water pools on the soil surface, or in any location where surface water will enter the stockpiled dry bedded manure.

d. The person shall not stockpile dry bedded manure on land having a slope of more than three percent unless methods, structures, or practices are implemented to contain the stockpiled dry bedded manure, including but not limited to using hay bales, silt fences, temporary earthen berms, or other effective measures, and to prevent or diminish precipitation-induced runoff from the stockpiled dry bedded manure.

e. The person shall not stockpile dry bedded manure on karst terrain or in an alluvial aquifer area unless the person complies with all of the following:

(1) The person must stockpile the dry bedded manure at a location where there is a vertical separation distance of at least five feet between the bottom of the stockpiled dry manure and the underlying limestone, dolomite, or other soluble rock in karst terrain or the underlying sand and gravel aquifer in an alluvial aquifer area.

(2) The dry bedded manure must be stockpiled on reinforced concrete at least five inches thick.

2. The person shall remove the stockpiled dry bedded manure and apply it in accordance with the provisions of chapter 459, including but not limited to section 459.311, within six months after the dry bedded manure is stockpiled.

2009 Acts, ch 155, §14, 18

459B.308 Manure management plan for a dry bedded confinement feeding operation.

For purposes of a manure management plan for a dry bedded confinement feeding operation, if the application of dry bedded manure is on land other than land owned or rented for crop production by the owner of the dry bedded confinement feeding operation, the plan shall include a copy of each written agreement executed by the owner of the dry bedded confinement feeding operation and the landowner or the person renting the land for crop production where the dry bedded manure may be applied.

ENFORCEMENT

459B.401 General.

The department and the attorney general shall enforce the provisions of this chapter in the same manner as provided in chapter 459, subchapter VI.

2009 Acts, ch 155, §16, 18

459B.402 Violations — civil penalty.

A person who violates section 459B.301 shall be subject to the same penalty as provided in section 459.602, and a person who violates any other provision of this chapter shall be subject to the same penalty as provided in section 459.603. Any collected civil penalty and interest on a civil penalty shall be credited to the Iowa nutrient research fund created in section 466B.46.

SUBCHAPTER I

GENERAL PROVISIONS

460.101 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Agricultural drainage well"* means a vertical opening to an aquifer or permeable substratum which is constructed by any means including but not limited to drilling, driving, digging, boring, augering, jetting, washing, or coring, and which is capable of intercepting or receiving surface or subsurface drainage water from land directly or by a drainage system.

2. *"Agricultural drainage well area"* means an area of land where surface or subsurface water drains into an agricultural drainage well directly or through a drainage system connecting to the agricultural drainage well.

3. *"Alternative drainage system"* means a drainage system constructed as part of a drainage district in order to drain surface or subsurface water from land due to the closing of an agricultural drainage well.

4. *"Book"*, *"list"*, *"record"*, or *"schedule"* kept by a county auditor, assessor, treasurer, recorder, sheriff, or other county officer means the county system as defined in section 445.1.

5. *"Designated agricultural drainage well area"* means an agricultural drainage well area in which there is located an anaerobic lagoon or earthen manure storage basin required to obtain a construction permit by the department of natural resources.

6. *"Division"* means the division of soil conservation and water quality created within the department of agriculture and land stewardship pursuant to section 159.5.

7. *"Drainage district"* means a drainage district established pursuant to chapter 468.

8. *"Drainage system"* means tile lines, laterals, surface inlets, or other improvements which are constructed to facilitate the drainage of land.

9. *"Earthen storage structure"* means an earthen cavity, either covered or uncovered, including but not limited to an anaerobic lagoon or earthen manure storage basin which is used to store manure, sewage, wastewater, industrial waste, or other waste as regulated by the department of natural resources, if stored in a liquid or semiliquid state.

10. *"Land"* means land which is used or which is suitable for use for any purpose, if the land is located within an agricultural drainage well area which includes land used or suitable for use in farming.

11. *"Surface water"* means water occurring on the surface of the ground.

12. *"Surface water intake"* means an artificial opening to a drain tile line which drains into an agricultural drainage well, if the artificial opening allows surface water to enter the drain tile line without filtration through the soil profile.

AGRICULTURAL DRAINAGE WELLS — REGULATION

460.201 Definition.

As used in this subchapter, unless the context otherwise requires, *"department"* means the department of natural resources.

2002 Acts, ch 1137, §68, 71; 2002 Acts, 2nd Ex, ch 1003, §260, 262

460.202 Preventing surface water drainage into agricultural drainage wells.

Not later than December 31, 2001, all of the following shall apply:

1. *a.* An owner of land on which an agricultural drainage well is located shall prevent surface water from draining into the agricultural drainage well. The landowner shall comply with rules, which shall be adopted by the department, in consultation with the division, required to carry out this section. The landowner shall do all of the following:

(1) If the land has a surface water intake emptying into an agricultural drainage well, including a surface water intake located in a road ditch, the landowner shall remove the surface water intake.

(2) If the land has a cistern connecting to an agricultural drainage well, the landowner shall construct and maintain sidewalls surrounding the cistern in order to prevent surface water runoff directly emptying into the agricultural drainage well.

(3) If the land has an agricultural drainage well, the landowner shall ensure that the agricultural drainage well and related drainage system are adequately ventilated in a manner that does not allow surface water to directly drain into the agricultural drainage well.

(4) The landowner shall install a locked cover over the agricultural drainage well or its cistern in order to prevent unauthorized access to the agricultural drainage well or its cistern.

b. This subsection does not require a person to remove a tile line that drains into an agricultural drainage well if the tile line does not have a surface water intake. This subsection also does not prohibit a person from installing a tile line, if the installed tile line does not increase an agricultural drainage well area.

2. An agricultural drainage well shall be inspected to ensure compliance with this section, as required by the county board of supervisors in the county in which the agricultural drainage well is located.

3. The department shall adopt guidelines as necessary to assist counties in performing inspections as provided in this section. The guidelines shall not affect the authority of a county to designate a person to perform inspections.

460.203 Closing of agricultural drainage wells and construction of alternative drainage systems.

1. Not later than December 31, 2001, the owner of land which is within a designated agricultural drainage well area shall close each agricultural drainage well located on the land. The owner shall close the agricultural drainage well in a manner using materials and according to specifications required by rules which shall be adopted by the department in consultation with the division. The department may provide different closing requirements based on classifications established by the department. However, the department's requirements shall ensure that an agricultural drainage well is closed by using sealing materials such as bentonite to permanently seal the agricultural drainage well from contamination by surface or subsurface water drainage.

2. A person owning land affected by the closing of an agricultural drainage well as required pursuant to subsection 1 may construct an alternative drainage system as part of an established or new drainage district as provided in chapter 468. The alternative drainage system shall ensure that surface or subsurface water does not drain into an agricultural drainage well.

460.204 Notice.

1. The department shall provide information regarding landowners registering agricultural drainage wells pursuant to section 460.302 to each county board of supervisors in which an agricultural drainage well is registered.

2. The department shall notify landowners of land on which an agricultural drainage well is located of the deadline for complying with this subchapter. The notice shall be provided by print, electronic media, or other notification process. The department shall provide the notice in cooperation with the county board of supervisors in the county where the agricultural drainage well is located.

3. The department shall mail a special notice to owners of land registering agricultural drainage wells pursuant to section 460.302.

SUBCHAPTER III

AGRICULTURAL DRAINAGE WELLS — REGISTRATION — ALTERNATIVE DRAINAGE SYSTEMS — SINKHOLES

Referred to in §159.6A

460.301 Definition.

As used in this subchapter, unless the context otherwise requires, *"department"* means the department of agriculture and land stewardship.

2002 Acts, ch 1137, §68, 71; 2002 Acts, 2nd Ex, ch 1003, §260, 262

460.302 Agricultural drainage wells.

1. An owner of an agricultural drainage well shall register the well with the department of natural resources by September 30, 1988. The department of agriculture and land stewardship, in cooperation with the department of natural resources, shall adopt rules, pursuant to chapter 17A, which provide for an appeals process for violations of this subsection.

2. An owner of an agricultural drainage well and a landholder whose land is drained by the well or wells of another person shall develop, in consultation with the department of agriculture and land stewardship and the department of natural resources, a plan which proposes alternatives to the use of agricultural drainage wells by July 1, 1998.

a. Financial incentive moneys may be allocated from the financial incentive portion of the agriculture management account of the groundwater protection fund created in section 455E.11 to implement alternatives to agricultural drainage wells.

UNOFFICIAL VERSION 2021 EARLY RELEASE

b. An owner of an agricultural drainage well and a landholder whose land is drained by the well or wells of another person shall not be eligible for financial incentive moneys pursuant to paragraph *"a"* if the owner fails to register the well with the department of natural resources by September 30, 1988, or if the owner fails to develop a plan for alternatives in cooperation with the department of agriculture and land stewardship and the department of natural resources.

3. The department shall:

a. (1) On July 1, 1987, initiate a pilot demonstration and research project concerning elimination of groundwater contamination attributed to the use of agricultural chemicals and agricultural drainage wells. The project shall be established in a location in north central Iowa determined by the department to be the most appropriate. A demonstration project shall also be established in northeast Iowa to study techniques for the cleanup of sinkholes.

(2) The agricultural drainage well pilot project shall be designed to identify the environmental, economic, and social problems presented by continued use or closure of agricultural drainage wells and to monitor possible contamination caused by agriculture land management practices and agricultural chemical use relative to agricultural drainage wells.

b. Develop alternative management practices based upon the findings from the demonstration projects to reduce the infiltration of synthetic organic compounds into the groundwater through agricultural drainage wells and sinkholes.

c. Examine alternatives and the costs of implementation of alternatives to the use of agricultural drainage wells, and examine the legal, technical, and hydrological constraints for integrating alternative drainage systems into existing drainage districts.

4. Financial incentive moneys expended through the use of the financial incentive portion of the agriculture management account may be provided by the department to landowners in the project areas for employing reduced chemical farming practices and land management techniques.

5. The secretary may appoint interagency committees and groups as needed to coordinate the involvement of agencies participating in department sponsored projects. The interagency committees and groups may accept grants and funds from public and private organizations.

6. The department shall publish a report on the status and findings of the pilot demonstration projects on or before July 1, 1989, and each subsequent year of the projects. The department of agriculture and land stewardship shall develop a priority system for the elimination of chemical contamination from agricultural drainage wells and sinkholes. The priority system shall incorporate available information regarding the significance of contamination, the number of registered wells in the area, and the information derived from the report prepared pursuant to this subsection. The highest priority shall be given to agricultural drainage wells for which the above criteria are best met, and the costs of necessary action are at the minimum level.

7. Beginning July 1, 1993, the department shall initiate an ongoing program to meet the goal of eliminating chemical contamination caused by the use of agricultural drainage wells by January 1, 1995, based upon the findings of the report published pursuant to subsection 6.

8. Notwithstanding the prohibitions of section 455B.267, subsection 4, an owner of an agricultural drainage well may make emergency repairs necessitated by damage to the drainage well to minimize surface runoff into the agricultural drainage well, upon the approval of the county board of supervisors or the board's designee of the county in which the agricultural drainage well is located. The approval shall be based upon the following conditions:

a. The well has been registered in accordance with both state and federal law.

b. The applicant will institute management practices including alternative crops, reduced application of chemicals, or other actions which will reduce the level of chemical contamination of the water which drains into the well.

c. The owner submits a written statement that approved emergency repairs are necessary and do not constitute a basis to avoid the eventual closure of the well if closure is later determined to be required. If a county board of supervisors or the board's designee approves the emergency repair of an agricultural drainage well, the county board of supervisors or

UNOFFICIAL VERSION 2021 IOWA CODE RELEASE

the board's designee shall notify the department of natural resources of the approval within thirty days of the approval.

460.303 Agricultural drainage well water quality assistance fund.

1. An agricultural drainage well water quality assistance fund is created in the state treasury under the control of the division. The fund is composed of moneys appropriated by the general assembly, and moneys available to and obtained or accepted by the division from the United States or private sources for placement in the fund.

2. Moneys in the fund are subject to an annual audit by the auditor of state.

3. Moneys in the fund are appropriated to support an agricultural drainage well water quality assistance program as provided in section 460.304. Moneys shall be used to provide financial incentives under the program, and to defray expenses by the division in administering the program. However, not more than one percent of the money in the fund is available to defray administrative expenses. The division may adopt rules pursuant to chapter 17A to administer this section.

4. The division shall not in any manner directly or indirectly pledge the credit of the state.

5. Section 8.33 shall not apply to moneys in the fund. Notwithstanding section 12C.7, moneys earned as income, including as interest, from the fund shall remain in the fund until expended as provided in this section.

460.304 Agricultural drainage well water quality assistance program.

1. The division shall establish an agricultural drainage well water quality assistance program as provided by rules which shall be adopted by the division pursuant to chapter 17A. The program shall be supported from moneys deposited in the agricultural drainage well water quality assistance fund created pursuant to section 460.303.

2. To the extent that moneys are available to support the program, the division shall expend moneys from the fund to do the following:

a. (1) Provide cost-share moneys to persons closing agricultural drainage wells in accordance with the priority system established pursuant to section 460.302. In conjunction with closing agricultural drainage wells, the division shall award cost-share moneys to carry out the following projects:

(a) Construct alternative drainage systems.

(b) Establish water quality practices other than constructing alternative drainage systems, including but not limited to converting land to wetlands.

(2) The amount of moneys allocated in cost-share payments to a person qualifying under the program shall not exceed seventy-five percent of the estimated cost of carrying out the project or seventy-five percent of the actual cost of carrying out the project, whichever is less.

b. Contract with persons to obtain technical assessments in agricultural drainage well areas, including but not limited to areas having a predominance of shallow bedrock or karst terrain as the division determines is necessary to carry out a project.

3. *a.* A person who owns an interest in land within a designated agricultural drainage well area shall not be eligible to participate in the program, if the person is any of the following:

UNOFFICIAL VERSION: 2025 EARLY RELEASE

(1) A party to a pending legal or administrative action, including a contested case proceeding under chapter 17A, relating to an alleged violation involving an animal feeding operation as regulated by the department of natural resources, regardless of whether the pending action is brought by the department or the attorney general.

(2) Is classified as a habitual violator for a violation of state law involving an animal feeding operation as regulated by the department of natural resources.

b. Noncrop acres located within a designated agricultural drainage well area shall not be eligible to benefit from the program.

c. The department of natural resources shall cooperate with the division by providing information necessary to administer this subsection.

4. A person is not eligible to participate in the program for a project described in this section that involves an agricultural drainage well that has not been registered with the department of natural resources pursuant to section 460.302 by January 1, 2019.

460.305 Sinkholes — conservation easement program.

1. The department shall develop and implement a program for the prevention of groundwater contamination through sinkholes. The program shall provide for education of landowners and encourage responsible chemical and land management practices in areas of the state prone to the formation of sinkholes.

2. The program may provide financial incentives for land management practices and the acquisition of conservation easements around sinkholes. The program may also provide financial assistance for the cleanup of wastes dumped into sinkholes.

3. The program shall be coordinated with the groundwater protection programs of the department of natural resources and other local, state, or federal government agencies which could compensate landowners for resource protection measures. The department shall use moneys appropriated for this purpose from the agriculture management account of the groundwater protection fund created in section 455E.11.

SUBCHAPTER I

GENERAL PROVISIONS

461.1 Title.

This chapter shall be known and may be cited as the *"Natural Resources and Outdoor Recreation Act"*.

2010 Acts, ch 1158, §1, 17; 2014 Acts, ch 1092, §98

461.2 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Department"* means the department of agriculture and land stewardship, the department of natural resources, or the department of transportation.

2. *"Fiscal year"* means the state fiscal year effective as provided in section 3.12.

3. *"Initiative"* includes a program, project, practice, strategy, or plan established or administered by an agency that furthers a constitutional purpose as provided in section 461.3.

4. *"Recreational purpose"* includes hunting, trapping, angling, horseback riding, swimming, boating, camping, picnicking, hiking, bird watching, nature study, water skiing, snowmobiling, other summer and winter sports, and viewing or enjoying historical, archaeological, scenic, or scientific sites.

5. *"Trust fund"* means the natural resources and outdoor recreation trust fund created in section 461.31.

6. *"Trust fund moneys"* means moneys originating from the natural resources and outdoor recreation trust fund.

2010 Acts, ch 1158, §2, 17

461.3 Constitutional purpose and implementation.

1. This chapter is created for the constitutional purposes of protecting and enhancing water quality and natural areas in this state, including parks, trails, and fish and wildlife habitat, and conserving agricultural soils in this state.

2. This chapter is intended to implement Article VII, section 10, of the Constitution of the State of Iowa by establishing the natural resources and outdoor recreation trust fund, accounts in the trust fund, and appropriating or allocating trust fund moneys to support initiatives specified in subchapter IV.

2010 Acts, ch 1158, §3, 16
Referred to in §461.2, 461.31

461.4 through 461.10 Reserved.

SUBCHAPTER II

PARTICIPATION

461.11 Departmental consultation.

1. When making decisions regarding the expenditure of trust fund moneys affecting soil and water conservation, the secretary of agriculture shall regularly consult with the soil conservation and water quality committee established in section 161A.4A. When making decisions regarding the expenditure of trust fund moneys affecting natural resources and outdoor recreation, the director of the department of natural resources shall regularly consult with the natural resource commission established pursuant to section 455A.5. When making decisions regarding the expenditure of trust fund moneys affecting trails, the department of transportation shall consult with the state transportation commission as provided in chapter 307A.

2. The heads of each department receiving trust fund moneys shall regularly meet and whenever practicable collaborate in decision making including by adopting rules, establishing funding priorities, and determining when it is beneficial to provide joint funding of initiatives.

2010 Acts, ch 1158, §4, 17; 2024 Acts, ch 1170, §40

461.12 through 461.20 Reserved.

SUBCHAPTER III

ADMINISTRATION

461.21 Audit.

1. The auditor of state or a certified public accounting firm appointed by the auditor of state shall conduct an annual audit of the trust fund and all accounts and transactions of the trust fund and accounts.

2. The auditor of state or the certified public accounting firm appointed by the auditor as provided in subsection 1 shall be paid from trust fund moneys without reducing the percentage of trust fund moneys distributed to the Iowa resources enhancement and protection fund or any one account established pursuant to this chapter.

2010 Acts, ch 1158, §5, 17

461.22 Report.

The three departments shall jointly prepare and submit to the governor and the general assembly not later than January 15 of each year a complete report in an electronic format detailing all of the following:

1. The receipts and expenditures of the trust fund and its accounts, a summary of initiatives supported by trust fund moneys, the results of those expenditures, any

performance goals or measurements, and plans for future short-term or long-term expenditures.

2. Recommendations to the general assembly, including legislation proposed by one or more of the departments.

2010 Acts, ch 1158, §6, 17

461.23 Rules.

The department of revenue, the department of agriculture and land stewardship, the department of natural resources, and department of transportation shall adopt rules separately or jointly as necessary in order to implement and administer this chapter.

2010 Acts, ch 1158, §7, 17

461.24 Public listing.

The department of natural resources, the department of agriculture and land stewardship, and the department of transportation shall cooperate to publish and maintain a public listing of how moneys contained in the natural resources and outdoor recreation trust fund as created in section 461.31 are distributed and spent during the course of each fiscal year. The departments shall designate one of the departments to be responsible for publishing and maintaining the public listing on the internet site operated by that department.

2010 Acts, ch 1158, §8, 17

461.25 through 461.30 Reserved.

SUBCHAPTER IV

NATURAL RESOURCES AND OUTDOOR RECREATION TRUST FUND AND DISTRIBUTIONS TO SUPPORT DEDICATED PURPOSES

Referred to in §461.3

461.31 Natural resources and outdoor recreation trust fund — creation.

1. A natural resources and outdoor recreation trust fund is created within the state treasury.

2. *a.* The trust fund shall be composed of moneys required to be credited to the trust fund by law and moneys accepted by a department for placement in an account established in this subchapter and from any source.

b. Trust fund moneys are exclusively appropriated by law to carry out the constitutional purposes provided in section 461.3.

c. Trust fund moneys shall supplement and not replace moneys appropriated by the general assembly to support the constitutional purposes provided in section 461.3.

d. Trust fund moneys shall only be used to support voluntary initiatives and shall not be used for regulatory efforts, enforcement actions, or litigation.

3. In administering a trust fund account, a department may contract, sue and be sued, and authorize payment for costs, fees, commissions, and other reasonable expenses from the account. However, a department shall not in any manner directly or indirectly pledge the credit of this state.

4. Notwithstanding section 8.33, any unexpended balance in the trust fund or in an account created within the trust fund at the end of each fiscal year shall be retained in the trust fund or the respective account. Notwithstanding section 12C.7, subsection 2, interest or earnings on investments or time deposits of the moneys in the trust fund and its respective accounts shall be credited to the trust fund and its respective accounts. The recapture of awards originating from an account and other repayments to an account shall be retained in that account.

461A.2 Duties in general.

The commission shall investigate places in Iowa rich in natural history, forest reserves, archaeological specimens, and geological deposits; and the means of promoting forestry and maintaining and preserving animal and bird life and the conservation of the natural resources of the state.

[C24, 27, 31, 35, 39, §**1798;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §111.2]
C93, §461A.2

461A.3 Duties as to parks.

1. It shall be the duty of the commission to establish, maintain, improve, and beautify public parks and preserves upon the shores of lakes, streams, or other waters, or at other places within the state which have become historical or which are of scientific interest, or which by reason of their natural scenic beauty or location are adapted therefor. The commission shall have the power to maintain, improve, or beautify state-owned bodies of water, and to provide proper public access to those waters. The commission shall have the power to provide and operate facilities for the proper public use of the areas above described.
2. The commission shall open all roads which pass through the Ledges State Park from September 15 through November 1 of each year.
3. The department shall research and develop recommendations to increase the accessibility of people with disabilities in state parks and public recreation. The department shall provide public information on the department's internet site and in brochures about opportunities for people with disabilities in state parks and public recreation.

1. Honey creek resort state park is established to provide important recreational and economic benefits to the state.

UNOFFICIAL VERSION. OFFICIAL RELEASE

2. Competitive bid laws, including hearings in connection with contracts, shall not apply to either the department's or its agents' contracts involving or benefitting the resort if the contract is carrying out a public or essential governmental function. However, the exemption from competitive bid laws in this section shall not be construed to apply to contracts for the development or construction of facilities at the resort, including but not limited to lodges, campgrounds, cabins, and golf courses.

2019 Acts, ch 46, §5

461A.4 Construction of structures and operation of commercial concessions.

1. *a.* A person shall not construct a structure including but not limited to a pier, wharf, sluice, piling, wall, fence, obstruction, erection, or building upon or over any state-owned or state-managed land or water under the jurisdiction of the commission without first obtaining from the commission a written permit. A permit, in matters relating to or in any manner affecting flood control, shall not be issued without approval of the environmental protection commission of the department. A person shall not construct or maintain a structure beyond the line of private ownership along or upon the shores of state-owned or state-managed waters in a manner to obstruct the passage of pedestrians along the shore between the ordinary high-water mark and the water's edge, except by permission of the commission.

b. The commission shall adopt and enforce rules governing and regulating the construction of a structure as provided in this subsection. The commission may prohibit or restrict its construction, or order the owner to remove the structure, when the commission determines that it is in the best interest of the public. The commission shall comply with the provisions of chapter 17A when issuing an order under this section.

2. A person shall not operate a commercial concession in a park, forest, fish and wildlife area, or recreation area under the jurisdiction of the department without first entering into a written contract with the department. The contract shall state the consideration and other terms under which the concession may be operated. The department may cancel or, in an emergency, suspend a concession contract for the protection of the public health, safety, morals, or welfare.

461A.5 Obstruction removed. Repealed by 2008 Acts, ch 1161, §10.

461A.5A Injunctive relief.

If it appears to the department that a person is violating or about to violate a provision of section 461A.4 or refuses to comply with an order issued by the commission pursuant to section 461A.4, the department may refer the matter to the attorney general, who may bring an action in the district court in any county of the state for an injunction to restrain the person from committing the violation. Upon a proper showing, the court may order a permanent or temporary injunction. The state shall not be required to post a bond.

2008 Acts, ch 1161, §7

461A.5B Penalties.

1. Except as provided in subsection 2, a person who violates a provision of section 461A.4 or of a departmental rule or refuses to comply with an order issued by the commission pursuant to section 461A.4 is guilty of a simple misdemeanor.

2. The state may proceed against a person who violates a provision of section 461A.4 or refuses to comply with an order issued by the commission pursuant to section 461A.4 by initiating an alternative civil enforcement action in lieu of a criminal prosecution. The amount of the civil penalty shall not exceed five thousand dollars. Each day of a violation shall be considered a separate offense. The alternative civil enforcement action may be brought

461A.18 Jurisdiction.

Jurisdiction over all meandered streams and lakes of this state and of state lands bordering thereon, not now used by some other state body for state purposes, is conferred upon the commission. The exercise of this jurisdiction is subject to the approval of the department in matters relating to or in any manner affecting flood control. The commission, with the approval of the executive council, may establish parts of the property into state parks, and when so established all of the provisions of this chapter relative to public parks apply to the property.

461A.25 Leases and easements.

1. The commission may recommend that the executive council lease property under the commission's jurisdiction. All leases shall reserve to the public of the state the right to enter upon the property leased for any lawful purpose. The council may, if it approves the recommendation and the lease to be entered into is for five years or less, execute the lease in behalf of the state and commission. If the recommendation is for a lease in excess of five years, with the exception of agricultural lands specifically dealt with in Article I, section 24 of the Constitution of the State of Iowa, the council shall advertise for bids. If a bid is accepted, the lease shall be let or executed by the council in accordance with the most desirable bid. The lease shall not be executed for a term longer than fifty years. Any such leasehold interest, including any improvements placed on it, shall be listed on the tax rolls as provided in chapters 428 and 443 and assessed and valued as provided in chapter 441; taxes shall be levied on it as provided in chapter 444 and collected as provided in chapter 445; and the leasehold interest is subject to tax sale, redemption, and apportionment of taxes as provided in chapters 446, 447, and 448. The lessee shall discharge and pay all taxes.

2. The commission shall adopt rules providing for granting easements to political subdivisions and utility companies on state land under the jurisdiction of the department. An applicant for an easement shall provide the director with information setting forth the need for the easement, availability of alternatives, and measures proposed to prevent or minimize adverse impacts on the affected property. An easement shall be executed by the director, approved as to form by the attorney general, and if granted for a term longer than five years, approved by the commission.

3. For the purposes of this section, property under the commission's jurisdiction does not include an area of the bed of a lake or river occupied by a dock or other appurtenance or means of access to a dock, including but not limited to boat hoists and boat slips, or occupied by a boat ramp, constructed or installed and maintained under littoral or riparian rights.

the jurisdiction of the commission as in its judgment may be undesirable for conservation purposes, excepting state-owned meandered lands already surveyed and platted at state expense as a conservation plan and project tentatively adopted and now in the process of rehabilitation and development authorized by a special legislative Act. The sale or exchange shall be made upon the terms, conditions, or considerations as the commission may approve, whereupon the secretary of state shall issue a patent therefor in the manner provided by law in other cases. Moneys generated from any such sale from a state park shall be deposited in the state conservation fund created in section 456A.17 and are appropriated to the department to be used exclusively for structure or infrastructure costs at the specific state park from which the moneys were generated. The proceeds of any other such sale or exchange shall become a part of the moneys to be expended under the provisions of this chapter.

2. Upon request by resolution of any city, county, or any legal agency of any city or county, the executive council may, upon majority recommendation of the commission, convey without consideration to such city, county, or legal agency of the city or county, such public lands under the jurisdiction of the commission as in its judgment may be desirable for city or county parks. Conveyance shall be in the name of the state, with the great seal of the state attached and shall contain a provision that when such lands cease to be used as public park by said city or county such lands revert to the state, and such park shall, within one year after such land has reverted to the state, be restored, as nearly as possible, to the condition it was in when acquired by such city, county, or legal agency of the city or county at the expense of such city, county, or legal agency.

3. The state may require that the city, county, or legal agency of the city or county file a notice of intention every three years.

461A.34 Powers in municipalities.

Municipalities, or individuals, or corporations organized only for the purpose of establishing a park, acting separately or in conjunction with each other, may establish parks outside the limits of cities. If a park is established without the support of the public state parks fund, the municipalities, corporations, or persons establishing the park, as the case may be, shall have control of the park independently of the executive council. However, none of the municipalities, individuals, or corporations, acting under the provisions of this section shall establish, maintain, or operate any such park as contemplated in this section for pecuniary profit.

a. A firearm or other weapon authorized for hunting may be used in preserves or parts of preserves designated by the department at the request of the commission.

b. A person may use a bow and arrow with an attached bow fishing reel and ninety-pound minimum line attached to the arrow to take rough fish as provided by rule of the commission.

c. The commission may establish, by rule, the state parks or parts of state parks where firearms may be discharged during special events, festivals and education programs, or a special hunt to control animal populations. The rules governing special hunts to control animal populations shall be applied separately to each designated state park.

2. The use of consumer fireworks or display fireworks, as defined in section 727.2, in state parks and preserves is prohibited except as authorized by a permit issued by the department. The commission shall establish, by rule adopted pursuant to chapter 17A, a fireworks permit system which authorizes the issuance of a limited number of permits to qualified persons to use or display fireworks in selected state parks and preserves.

461A.76 Contracts with local authorities.

1. Notwithstanding anything in chapter 468, subchapter I, parts 1 through 5, to the contrary, county boards of supervisors and trustees having control of any levee or drainage district established thereunder, including joint levee or drainage districts, may enter into contracts and agreements with municipalities or corporations authorized to establish water recreational areas under the provisions of this subchapter. Such contracts or agreements shall be in writing and may be made prior to or after the establishment of a water recreational area. If made prior to the establishment of a water recreational area they may be made conditional upon the final establishment of such area and if conditional upon such final establishment may be entered into prior to the hearing provided for in section 461A.63.

2. Such contracts or agreements may embrace any of the following subjects:

a. For the impoundment of drainage waters to create artificial lakes or ponds.

b. For compensation to drainage districts for drainage improvements destroyed or rendered useless by the establishment of water recreational areas and the structures, waters, or works thereof.

c. For the diversion of waters from established drainage ditches or tile drains to other channels.

d. For sanitary measures and precautions.

e. For the control of water levels in lakes, ponds or impoundments of water to avoid damage to or malfunction of drainage facilities.

f. For the construction of additional drainage facilities promoting the interests of either or both of the contracting parties.

g. For the granting of easements or licenses by one party to the other.

h. For the payment of money by one contracting party to the other in consideration of acts or performance of the other party required by such contract or agreement.

3. When any expenditure of levee or drainage district funds is proposed by the authority contained in this section and where the estimated expenditure will exceed fifty percent of the original total cost of the district and subsequent improvements therein as defined by section 468.126, the same procedure respecting notice and hearing shall be followed as is provided in said section 468.126, for repair proposals where the estimated cost of the repair exceeds fifty percent of the original total cost of the district and subsequent improvements therein.

461C.1 Purpose.

The purpose of this chapter is to encourage private holders of land to make land and water areas available to the public for a recreational purpose and for urban deer control by limiting a holder's liability toward persons entering onto the holder's property for such purposes. The provisions of this chapter shall be construed liberally and broadly in favor of private holders of land to accomplish the purposes of this chapter.

461C.2 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Bicycle"* means the same as defined in section 321.1 except the device may have any number of wheels.

2. *"Charge"* means any consideration, the admission price or fee asked in return for invitation or permission to enter or go upon the land.

3. *"Holder"* means the possessor of a fee interest, a tenant, lessee, occupant or person in control of the premises; provided, however, holder shall not mean the state of Iowa, its political subdivisions, or any public body or any agencies, departments, boards, or commissions thereof.

4. *"Land"* means private land that is one or any combination of the following: abandoned or inactive surface mines; caves; land used for agricultural purposes; marshlands; timber; grasslands; or the privately owned roads, portions of a railroad right-of-way or crossing incorporated into or used as part of a path or trail used for recreational purposes, paths, trails, waters, water courses, exteriors and interiors of buildings, structures, machinery, or equipment appurtenant thereto. *"Land"* includes land that is not open to the general public. *"Land"* also includes private land located in a municipality in connection with and while being used for urban deer control.

5. *"Municipality"* means any city or county in the state.

6. *"Recreational purpose"* means the following or any combination thereof: hunting, trapping, horseback riding, fishing, swimming, boating, camping, picnicking, jogging, walking, hiking, pleasure driving, motorcycling, bicycle riding, all-terrain vehicle riding, nature study, water skiing, snowmobiling, other summer and winter sports, educational activities, and viewing or enjoying historical, archaeological, scenic, or scientific sites while going to and from or actually engaged therein. *"Recreational purpose"* includes the activity of accompanying another person who is engaging in such activities. *"Recreational purpose"* is not limited to active engagement in such activities, but includes entry onto, use of, passage over, and presence on any part of the land in connection with or during the course of such activities.

7. *"Urban deer control"* means deer hunting with a bow and arrow on private land in a municipality, without charge, as authorized by a municipal ordinance, for the purpose of reducing or stabilizing an urban deer population in the municipality. *"Urban deer control"* is not limited to active engagement in the activity of urban deer control but includes entry onto, use of, passage over, and presence on any part of the land in connection with or during the course of such activity.

461C.3 Liability of holder limited.

1. Except as specifically recognized by or provided in section 461C.6, a holder of land does not owe a duty of care to keep the premises safe for entry or use by others for a recreational purpose or urban deer control, or to give any warning of a dangerous condition, use, structure, or activity on such premises to persons entering for such purposes.

2. Except as specifically recognized by or provided in section 461C.6, a holder of land does not owe a duty of care to others solely because the holder is guiding, directing, supervising, or participating in any recreational purpose or urban deer control undertaken by others on the holder's land.

461C.4 Users not invitees or licensees.

Except as specifically recognized by or provided in section 461C.6, a holder of land who either directly or indirectly invites or permits without charge any person to use such property for a recreational purpose or urban deer control does not thereby:

1. Extend any assurance that the premises are safe for any purpose.
2. Confer upon such person the legal status of an invitee or licensee to whom the duty of care is owed.
3. Assume a duty of care to such person solely because the holder is guiding, directing, supervising, or participating in any recreational purpose or urban deer control undertaken by the person on the holder's land.
4. Assume responsibility for or incur liability for any injury to person or property caused by an act or omission of such persons.

461C.5 Duties and liabilities of holder of leased land.

Unless otherwise agreed in writing, the provisions of sections 461C.3 and 461C.4 shall be deemed applicable to the duties and liability of a holder of land leased, or any interest or right therein transferred to, or the subject of any agreement with, the United States or any agency thereof, or the state or any agency or subdivision thereof, for a recreational purpose or urban deer control.

461C.6 When liability lies against holder.

Nothing in this chapter limits in any way any liability which otherwise exists:

1. For willful or malicious failure to guard or warn against a dangerous condition, use, structure, or activity.
2. For injury suffered in any case where the holder of land charges the person or persons who enter or go on the land for the recreational use thereof or for deer hunting, except that in the case of land or any interest or right therein, leased or transferred to, or the subject of any agreement with, the United States or any agency thereof or the state or any agency thereof or subdivision thereof, any consideration received by the holder for such lease, interest, right, or agreement shall not be deemed a charge within the meaning of this section.

461C.7 Construction of law.

Nothing in this chapter shall be construed to:

1. Create a duty of care or ground of liability for injury to persons or property.
2. Relieve any person using the land of another for a recreational purpose or urban deer control from any obligation which the person may have in the absence of this chapter to exercise care in the use of such land and in the person's activities thereon, or from the legal consequences of failure to employ such care.
3. Amend, repeal or modify the common law doctrine of attractive nuisance.

deer with a bow and arrow on private land within the municipality, without charge, for the purpose of urban deer control.

2. The ordinance shall specify all of the following:

a. How a person qualifies to participate in urban deer control.

b. Where urban deer control can occur.

c. Conditions under which urban deer control can be conducted, which are intended to minimize the risk of injury to persons and property.

3. A hunter who participates in urban deer control pursuant to this section shall be otherwise qualified to hunt deer in this state, purchase a hunting license that includes the wildlife habitat fee, and obtain a special deer hunting license valid only for the dates, locations, and type of deer specified on the license. Special deer hunting licenses issued pursuant to this section shall be available only to residents and shall cost the same as deer hunting licenses issued during general deer seasons. The commission may establish procedures for issuing more than one license per person as necessary to achieve the purposes of urban deer control, and the cost of each additional license shall be ten dollars.

4. An urban deer control ordinance is not effective until it has been approved by the department of natural resources.

5. The department of natural resources shall adopt rules in accordance with chapter 17A necessary for the administration of this section.

CHAPTER 462

LANDOWNER LIABILITY TO TRESPASSERS

462.1 Liability of possessors and occupants of land to trespassers.

462.1 Liability of possessors and occupants of land to trespassers.

1. A possessor of any fee, reversionary, or easement interest in real property, including but not limited to an owner, lessee, or other lawful occupant, owes no duty of care to a trespasser except to refrain from willfully or wantonly injuring the trespasser and to use reasonable care to avoid injuring the trespasser after that trespasser's presence becomes known.

2. This section shall not be construed to affect the common law doctrine of attractive nuisance.

3. This section does not create or increase the civil liability of any possessor or occupant of real property and does not affect any immunities from or defenses to civil liability established by another section of the Code or available at common law to which a possessor or occupant of real property may be entitled.

SUBCHAPTER I

GENERAL PROVISIONS

462A.1 Declaration of policy.

It is the policy of this state to promote safety for persons and property in and connected with the use, operation, and equipment of vessels and to promote uniformity of laws relating thereto.

[C97, §2511; C24, 27, 31, §1691; C35, §1703-e1; C39, §**1703.01;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §106.1]

C93, §462A.1

462A.2 Definitions.

As used in this chapter, unless the context clearly requires a different meaning:

1. *"Alcohol concentration"* means the number of grams of alcohol per any of the following:
a. One hundred milliliters of blood.
b. Two hundred ten liters of breath.
c. Sixty-seven milliliters of urine.
2. *"Alcoholic beverage"* includes alcohol, wine, spirits, beer, or any other beverage which contains ethyl alcohol and is fit for human consumption.
3. *"Authorized emergency vessel"* means any vessel which is designated or authorized by the commission for use in law enforcement, search and rescue, and disaster work.
4. *"Boat livery"* means a person who holds a vessel for hire, renting, leasing, or chartering including hotels, motels, or resorts which furnish a vessel to guests as part of the services of the business.
5. *"Certificate"* means a certificate of title.
6. *"Chemical test"* means an analysis of a person's blood, breath, urine, or other bodily substance for the determination of the presence of alcohol, a controlled substance, or a drug.
7. *"Commission"* means the natural resource commission.
8. *"Controlled substance"* means any drug, substance, or compound that is regulated under chapter 124, including any counterfeit substance or simulated controlled substance, as well as any metabolite or derivative of the drug, substance, or compound.
9. *"Cut-off switch"* means an operable factory-installed or dealer-installed emergency cut-off engine stop switch that is installed on a personal watercraft.
10. *"Cut-off switch lanyard"* means the cord used to attach the person of the operator of a personal watercraft to the cut-off switch.
11. *"Dealer"* means a person who engages in whole or in part in the business of buying, selling, or exchanging vessels either outright or on conditional sale, bailment, lease, security interest, or otherwise, and who has an established place of business for sale, trade, and display of vessels. A yacht broker is a dealer.
12. *"Department"* means the department of natural resources.
13. *"Director"* means the director of the department or the director's designee.
14. *"Established place of business"* means the place actually occupied either continuously or at regular periods by a dealer or manufacturer where the dealer's or manufacturer's books and records are kept and a large share of the dealer's or manufacturer's business is transacted.

UNOFFICIAL VERSION. SUBJECT TO EARLY RELEASE

15. *"Farm pond"* means a body of water wholly on the lands of a single owner, or a group of joint owners, which does not have any connection with any public waters and which is less than ten surface acres.

16. *"Inboard"* means a vessel in which the engine is located internally, the propulsion system is rigidly attached to the engine, and the propulsion mechanism is within the confines of the vessel's extreme length and beam.

17. *"Inboard-outdrive"* means a vessel in which the power plant or engine is located inside of the vessel and the propulsion mechanism is located outside of the transom.

18. *"Inflatable vessel"* means a vessel which achieves and maintains its intended shape and buoyancy by inflation.

19. *"Lienholder"* means a person holding a security interest.

20. *"Manufacturer"* means a person engaged in the business of manufacturing or importing new and unused vessels, or new and unused outboard motors, for the purpose of sale or trade.

21. *"Motorboat"* means any vessel propelled by an inboard, inboard-outdrive, or outboard engine, whether or not such engine is the principal source of propulsion.

22. *"Navigable waters"* means all lakes, rivers, and streams that, during a total of six months in one out of every ten years, can support a vessel capable of carrying one or more persons.

23. *"Nonresident"* means every person who is not a resident of this state.

24. *"Operate"* means to navigate or otherwise use a vessel or motorboat. For the purposes of section 462A.12, subsection 2, sections 462A.14, 462A.14A, 462A.14B, 462A.14C, 462A.14D, and 462A.14E, and section 462A.23, subsection 2, paragraph *"b"*, *"operate"*, when used in reference to a motorboat, means the motorboat is powered by a motor which is running, and when used in reference to a sailboat, means the sailboat is either powered by a motor which is running, or the sailboat is under way and has sails hoisted and is not propelled by a motor.

25. *"Operator"* means a person who operates or is in actual physical control of a vessel.

26. *"Owner"* means a person, other than a lienholder, having the property right in or title to a motorboat or vessel. The term includes a person entitled to the use or possession of a vessel or motorboat subject to an interest in another person, reserved or created by agreement and securing payment or performance of an obligation, but the term excludes a lessee under a lease not intended as security.

27. *"Passenger"* means a person carried on board a vessel, including the operator, and anyone towed by a vessel on water skis, surfboards, inner tubes, or similar devices.

28. *"Peace officer"* means:

a. A member of the state patrol.

b. A police officer under civil service as provided in chapter 400.

c. A sheriff.

d. A regular deputy sheriff who has had formal police training.

e. Any other certified law enforcement officer as defined in section 80B.3, who has satisfactorily completed an approved course relating to operating while intoxicated, either at the Iowa law enforcement academy or in a law enforcement training program approved by the department of public safety.

29. *"Person"* means an individual, partnership, firm, corporation, or association.

30. *"Personal watercraft"* means a vessel, less than sixteen feet in length, which is propelled by a water jet pump or similar machinery as its primary source of motor propulsion and is designed to be operated by a person sitting, standing, or kneeling on the vessel rather than being operated by a person sitting, standing, or kneeling inside the vessel.

31. *"Privately owned lake"* means any lake, located within the boundaries of this state and not subject to federal control covering navigation owned by an individual, group of individuals, or a nonprofit corporation and which is not open to the use of the general public but is used exclusively by the owners and their personal guests.

32. *"Proceeds"* includes whatever is received when collateral or proceeds are sold, exchanged, collected, or otherwise disposed of. The term also includes the account arising

2017 LAW TO RELEASE

when the right to payment is earned under a contract right. Money, checks, and the like are *"cash proceeds"*. All other proceeds are *"noncash proceeds"*.

33. *"Sailboard"* means a windsurfing vessel with a mount for a sail, a daggerboard, and a small skeg.

34. *"Sailboat"* means any watercraft operated with a sail.

35. *"Security interest"* means an interest which is reserved or created by an agreement which secures payment or performance of an obligation and is valid against third parties generally.

36. *"Serious injury"* means the same as defined in section 702.18.

37. *"State of principal use"* means the state on whose waters a vessel is used or to be used most during a calendar year.

38. *"Undocumented vessel"* means any vessel which is not required to have, and does not have, a valid marine document issued by the bureau of customs or a foreign government.

39. *"Use"* means to operate, navigate, or employ a vessel. A vessel is in use whenever it is upon the water.

40. *"Vessel"* means every description of watercraft, other than a seaplane, used or capable of being used as a means of transportation on water or ice. Ice boats are watercraft.

41. *"Vessel for hire or commercial vessel"* means a vessel for the use of which a fee of any nature is imposed, including vessels furnished as a part of lodge, hotel, or resort services.

42. *"Wake"* means any movement of water created by a vessel which adversely affects the activities of another person who is involved in activities approved for that area or which may adversely affect the natural features of the shoreline.

43. *"Watercraft"* means any vessel which through the buoyant force of water floats upon the water and is capable of carrying one or more persons.

44. *"Watercraft education certificate"* means a certificate, approved by the commission, which is issued to a qualified applicant who is twelve years of age or older who has successfully completed a watercraft education course approved by the department.

45. *"Waters of this state under the jurisdiction of the commission"* means any navigable waters within the territorial limits of this state, and the marginal river areas adjacent to this state, exempting only farm ponds and privately owned lakes.

46. *"Writing fee"* means the amount paid by the boat owner to the county recorder for handling the transaction.

462A.3 Powers and duties of commission.

1. The commission is vested with the power and is charged with the duty of observing, administering, and enforcing the provisions of this chapter.

2. The commission may adopt and enforce rules under chapter 17A as necessary to carry out this chapter and to protect private and public property and the health, safety, and welfare of the public. In adopting rules, the commission shall give consideration to the various uses to which they may be put by and for public and private purposes, the preservation of each body of water, its bed, waters, ice, banks, and public and private property attached thereto, and the need for uniformity of rules relating to the use, operation, and equipment of vessels and vehicles.

462A.3A Public use of water for navigation purposes.

Water occurring in any river, stream, or creek having definite banks and bed with visible evidence of the flow of water is flowing surface water and is declared to be public waters of the state of Iowa and subject to use by the public for navigation purposes in accordance with law. Land underlying flowing surface water is held subject to a trust for the public use of the water flowing over it. Such use is subject to the same rights, duties, limitations, and regulations as presently apply to meandered streams, or other streams deemed navigable for commercial purposes and to any reasonable use by the owner of the land lying under and next to the flowing surface water.

462A.5 Registration and identification number.

1. The owner of each vessel required to be numbered by this state shall initially register it with the commission through the county recorder of the county in which the owner resides, or, if the owner is a nonresident, the owner shall register it in the county in which such vessel is principally used. Both residents and nonresidents shall subsequently renew registration

every three years with any county recorder. The commission shall develop and maintain an electronic system for the registration of vessels pursuant to this chapter. The commission shall establish forms and procedures as necessary for the registration of all vessels.

a. The owner of the vessel shall file an application for registration with the appropriate county recorder on forms provided by the commission. The application shall be completed and signed by the owner of the vessel and shall be accompanied by the appropriate fee, and the writing fee specified in section 462A.53. Upon applying for registration, the owner shall display a bill of sale, receipt, or other satisfactory proof of ownership as provided by the rules of the commission to the county recorder. If the county recorder is not satisfied as to the ownership of the vessel or that there are no undisclosed security interests in the vessel, the county recorder may register the vessel but shall, as a condition of issuing a registration certificate, require the applicant to follow the procedure provided in section 462A.5A. Upon receipt of the application in approved form accompanied by the required fees, the county recorder shall enter it upon the records of the recorder's office and shall issue to the applicant a pocket-size registration certificate. The certificate shall be executed and delivered to the owner. The county recorder shall maintain an electronic record of each registration certificate issued by the county recorder under this chapter. The registration certificate shall bear the number awarded to the vessel, the passenger capacity of the vessel, and the name and address of the owner. In the use of all vessels except nonpowered sailboats, nonpowered canoes, and commercial vessels, the registration certificate shall be carried either in the vessel or on the person of the operator of the vessel when in use. In the use of nonpowered sailboats, nonpowered canoes, or commercial vessels, the registration certificate may be kept on shore in accordance with rules adopted by the commission. The operator shall exhibit the certificate to a peace officer upon request or, when involved in an occurrence of any nature with another vessel or other personal property, to the owner or operator of the other vessel or personal property.

b. A vessel that has an expired registration certificate from another state may be registered in this state upon proper application, payment of all applicable registration and writing fees, and payment of a penalty of five dollars.

c. On all vessels except nonpowered sailboats the owner shall cause the identification number to be painted on or attached to each side of the bow of the vessel in such size and manner as may be prescribed by the rules of the commission. On nonpowered boats the number may be placed at alternate locations as prescribed by the rules of the commission. All numbers shall be maintained in a legible condition at all times.

d. No number, other than the number awarded to a vessel under the provisions of this chapter or granted reciprocity pursuant to this chapter, shall be painted, attached or otherwise displayed on either side of the bow of such vessel.

e. The owner of each vessel must display and maintain, in a legible manner and in a prominent spot on the exterior of such vessel, other than the bow, the passenger capacity of the vessel which must conform with the passenger capacity designated on the registration certificate.

2. When an agency of the United States government shall have in force an overall system of identification numbering for vessels, the numbering system prescribed by the commission pursuant to this chapter, shall be in conformity therewith.

3. *a.* The registration fees for vessels subject to this chapter are as follows:

(1) For vessels of any length without motor or sail, twelve dollars.

(2) For motorboats or sailboats less than sixteen feet in length, twenty-two dollars and fifty cents.

(3) For motorboats or sailboats sixteen feet or more, but less than twenty-six feet in length, thirty-six dollars.

(4) For motorboats or sailboats twenty-six feet or more, but less than forty feet in length, seventy-five dollars.

(5) For motorboats or sailboats forty feet in length or more, one hundred fifty dollars.

(6) For all personal watercraft, forty-five dollars.

b. Every registration certificate and number issued becomes delinquent at midnight April 30 of the last calendar year of the registration period unless terminated or discontinued in

UNOFFICIAL VERSION 2021 — SUBJECT TO FINAL REVISION

accordance with this chapter. After January 1, 2007, an unregistered vessel and a renewal of registration may be registered for the three-year registration period beginning May 1 of that year. When unregistered vessels are registered after May 1 of the second year of the three-year registration period, such unregistered vessels may be registered for the remainder of the current registration period at two-thirds of the appropriate registration fee. When unregistered vessels are registered after May 1 of the third year of the three-year registration period, such unregistered vessels may be registered for the remainder of the current registration period at one-third of the appropriate registration fee.

c. If an application for renewal is not made before July 1 of the last calendar year of the registration period, the applicant shall be charged a penalty of five dollars.

4. *a.* If a person, after registering a vessel, moves from the address shown on the registration certificate, the person shall, within ten days, notify any county recorder of the new address.

b. If the name of a person who has registered a vessel is changed, the person shall, within ten days, notify any county recorder of the former and new name.

c. No fee shall be paid to any county recorder for making the changes mentioned in this subsection unless the owner requests a new registration certificate showing the change, in which case a fee of one dollar plus a writing fee shall be paid to the recorder.

d. If a registration certificate is lost, mutilated, or becomes illegible, the owner shall immediately make application for and obtain a duplicate registration certificate by furnishing information satisfactory to any county recorder. A fee of one dollar plus a writing fee shall be paid to the county recorder for a duplicate registration certificate.

e. If a vessel, registered under this chapter, is destroyed or abandoned, the destruction or abandonment shall be reported to the county recorder and the registration certificate shall be forwarded to the office of the county recorder within ten days after the destruction or abandonment.

5. All records of the commission and the county recorder, other than those declared by law to be confidential for the use of the commission and the county recorder, shall be open to public inspection during office hours.

6. The owner of each vessel which has a valid marine document issued by the bureau of customs of the United States government or any federal agency successor thereto shall register it every three years with the county recorder in the same manner prescribed for undocumented vessels and shall cause the registration validation decal to be placed on the vessel in the manner prescribed by the rules of the commission. When the vessel bears the identification required in the documentation, it is exempt from the placement of the identification numbers as required on undocumented vessels. The fee for such registration is twenty-five dollars plus a writing fee.

7. If the owner of a currently registered vessel places the vessel in storage, the owner shall return the registration certificate to the county recorder with an affidavit stating that the vessel is placed in storage and the effective date of the storage. The county recorder shall notify the commission of each registered vessel placed in storage. When the owner of a stored vessel desires to renew the vessel's registration, the owner shall apply to the county recorder and pay the registration fees plus a writing fee as provided in subsections 1 and 3 without penalty. No refund of registration fees shall be allowed for a stored vessel.

8. The registration certificate shall indicate if the vessel is subject to the requirement of a certificate of title and the county from which the certificate of title is issued.

462A.5A Filing bond as assurance of ownership.

An applicant for registration of a vessel for which the county recorder is not satisfied as to the ownership of the vessel as provided in section 462A.5, subsection 1, shall file with the department a bond in the form prescribed by the department and executed by the applicant, and also executed by a person authorized to conduct a surety business in this state. The form and amount of the bond shall be established by rule of the department. The bond shall be conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the vessel or person acquiring any security interest in the vessel, and their respective successors in interest, against any expense, loss, or damage, including reasonable attorney fees, by reason of the issuance of the registration certificate of the vessel or on account of any defect in or undisclosed security interest upon the right, title, and interest of the applicant in and to the vessel. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond shall be returned at the end of three years or prior thereto if the vessel is no longer registered in this state and the registration certificate is surrendered to the department, unless the department has been notified of the pendency of an action to recover on the bond.

462A.6 Exemption from registration provisions of this chapter.

A vessel shall not be required to be registered if it is:

1. Covered by a number in full force and effect which has been awarded to it pursuant to a federally approved numbering system of another state if such vessel shall not have been within this state for a period in excess of sixty days within one calendar year.
2. Foreign vessels temporarily using the navigable waters of the United States and of this state.
3. A public vessel of the United States, a state or subdivision thereof which is used for enforcement, search and rescue or official research and studies, but not including vessels used for recreation or commercial purposes.
4. A ship's lifeboat.
5. A type of vessel which has been exempted from registration by the commission after said commission has found that the registration or numbering of such vessel will not materially aid in their identification and such vessel would be exempt from numbering if it were subject to federal law.
6. An air mattress, inner tube, or other toy or beach type item which is being used in a recognized swimming area. In the case of a natural lake or reservoir these beach or swimming areas may be less, but in no case shall exceed three hundred feet from shore.
7. The following nonpower or nonsail vessels:

a. Inflatable vessels, seven feet or less in length.

b. Conventional design canoes and kayak type vessels, thirteen feet or less in length.

462A.6A Exemption from display of registration and capacity numbers.

The following vessels are exempt from displaying a registration number and a passenger capacity number as required in section 462A.5:

1. Authentically constructed native American styled craft including birchbark canoes, dugout canoes, competitive racing shells, reed boats, and skin-covered canoes or boats.
2. Historically styled craft such as keel boats used only during historic recreations or public demonstrations.
3. A vessel which has a valid marine document issued by the United States coast guard and the vessel bears the identification required in the document.

462A.7 Occurrences involving vessels.

1. The operator of a vessel involved in an occurrence that results in personal property damage or the injury or death of a person, shall, so far as possible without serious danger to the operator's own vessel, crew, or passengers, render to other persons affected by the occurrence such assistance as may be practicable and necessary to save them from or minimize any danger caused by the occurrence. The operator shall also give the operator's name, address, and identification of the operator's vessel in writing to any person injured and to the owner of any property damaged in the occurrence.

2. Whenever any vessel is involved in an occurrence that results in personal property damage or the injury or death of a person, except one which results only in property damage not exceeding two thousand dollars, a report of the occurrence shall be filed with the commission. The report shall be filed by the operator of the vessel and shall contain such information as the commission may, by rule, require. The report shall be submitted within forty-eight hours of the occurrence in cases that result in death, disappearance, or personal injuries requiring medical treatment by a licensed health care provider, and within five days of the occurrence in all other cases.

3. Every law enforcement officer who, in the regular course of duty, investigates an occurrence which is required to be reported by this section, shall, after completing such investigation, forward a report of such occurrence to the commission.

4. *a.* All reports shall be in writing. A vessel operator's report shall be without prejudice to the person making the report and shall be for the confidential use of the department. However, upon request the department shall disclose the identities of the persons on board the vessels involved in the occurrence and their addresses. Upon request of a person who made and filed a vessel operator's report, the department shall provide a copy of the vessel operator's report to the requester. A written vessel operator's report filed with the department shall not be admissible in or used in evidence in any civil or criminal action arising out of the facts on which the report is based.

b. All written reports filed by law enforcement officers as required under subsection 3 are confidential to the extent provided in section 22.7, subsection 5, and section 622.11. However, a completed law enforcement officer's report shall be made available by the department or the investigating law enforcement agency to any party to an occurrence involving a vessel, the party's insurance company or its agent, or the party's attorney on written request and payment of a fee.

5. Failure of the operator of any vessel involved in an occurrence to offer assistance and aid to other persons affected by such occurrence, as set forth in this chapter, or to otherwise comply with the requirements of subsection 1, is punishable as follows:

a. In the event of an occurrence resulting only in property damage, the operator is guilty upon conviction of a simple misdemeanor.

b. In the event of an occurrence resulting in an injury to a person, the operator is guilty upon conviction of a serious misdemeanor.

c. In the event of an occurrence resulting in a serious injury to a person, the operator is guilty upon conviction of an aggravated misdemeanor.

462A.9 Classification and required equipment.

1. Vessels subject to the provisions of this chapter shall be divided into four classes as follows:

a. Class I. Less than sixteen feet in length.

b. Class II. Sixteen feet or over and less than twenty-six feet in length.

c. Class III. Twenty-six feet or over and less than forty feet in length.

d. Class IV. Forty feet or over.

2. Every vessel, in all weathers, from sunset to sunrise, shall carry and exhibit the following lights when underway, and during that time shall exhibit no other lights which may be mistaken for those required except that the international lighting system as approved by the United States coast guard will be accepted for use on motorboats on the waters of this state.

a. Every motorboat of classes I and II shall carry the following lights:

(1) A bright white light aft to show all around the horizon.

(2) A combined lantern in the fore part of the vessel and lower than the white light aft, showing green to starboard and red to port, so fixed as to throw the light from right ahead to two points abaft the beam on their respective sides.

b. Every motorboat of classes III and IV shall carry the following lights:

(1) A bright white light in the fore part of the vessel as near the bow as practicable, so constructed as to show an unbroken light over an arc of the horizon of twenty points of the compass, so fixed as to throw the light ten points on each side of the vessel; namely, from right ahead to two points abaft the beam on either side.

(2) A bright white light aft to show all around the horizon and higher than the white light forward.

(3) A green light on the starboard side so constructed as to show an unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side. A red light on the port side, so constructed as to show an unbroken light over an arc of the horizon of ten points of the compass so fixed as to throw the light from right ahead to two points abaft the beam on the port side. The said side lights shall be fitted with inboard screens of sufficient height so set as to prevent these lights from being seen across the bow.

c. Vessels of classes I and II, when propelled by sail alone, shall carry the combined lantern, but not the white light aft prescribed by this section. Vessels of classes III and IV when so propelled, shall carry the colored side lights, suitably screened, but not the white lights required by this section.

d. Every white light required by this section shall be of such character as to be visible at a distance of at least two miles. Every colored light required by this section shall be of such character as to be visible at a distance of at least one mile. The term *"visible"* in this section, when applied to lights, shall mean visible on a dark night with clear atmosphere.

UNOFFICIAL VERSION: NOT FOR SALE

e. When propelled by sail and machinery, such motorboat shall carry the lights required by this section for a motorboat propelled by machinery only.

3. Every vessel shall carry and exhibit such other lights required by the rules and regulations of the commission.

4. Every motorboat of class II, III, or IV shall be provided with an efficient whistle or other sound producing appliance.

5. Every motorboat of class III or IV shall be provided with an efficient bell.

6. Every vessel shall carry at least one life preserver, life belt, ring buoy or other device, of the sort prescribed by the rules of the commission, for each passenger, so placed as to be readily accessible. This does not apply to a vessel which is a racing shell used in the sport of sculling or to a sailboard while used for windsurfing.

7. Every motorboat shall be provided with such number, size and type of fire extinguishers capable of promptly and effectually extinguishing burning gasoline, as may be prescribed by the regulations of the commission. Such fire extinguishers shall, at all times, be kept in condition for immediate and effective use and shall be so placed as to be readily accessible. Vessels powered by outboard motors of ten horsepower or less, need not carry the extinguishers as provided herein.

8. *a.* The provisions of subsections 4, 5, and 7 of this section shall not apply to motorboats while competing in any race conducted pursuant to section 462A.16 or, if such boats are designed and used solely for racing, while engaged in such navigation as is incidental to the tuning up of the boats and engines for the race.

b. The operator of a motorboat, while engaged in such race, must wear a crash helmet and life preserver.

9. Every motorboat shall have the carburetor or carburetors of every engine therein, except outboard motors, using a liquid of a volatile nature as fuel, equipped with such efficient flame arrestor, backfire trap, or other similar device as may be prescribed by the rules and regulations of the commission.

10. Every motorboat, except open boats, using any liquid of a volatile nature as fuel, shall be provided with the means prescribed by the rules of the commission for properly and efficiently ventilating the bilges of the engines and fuel tank compartments so as to remove any explosive or flammable gases.

11. The commission is hereby authorized to make rules and regulations modifying the equipment requirements contained in this section to the extent necessary for the safety of operators and passengers.

12. The commission is hereby authorized to establish such pilot rules as may be necessary for the safe operation of vessels on the waters of this state under the jurisdiction of the commission.

13. An owner of a personal watercraft equipped with a cut-off switch shall maintain the cut-off switch and the accompanying cut-off switch lanyard in an operable, fully functional condition.

14. No person shall operate or give permission for the operation of a vessel which is not equipped as required by this section or modification thereof.

462A.12 Prohibited operation.

1. No person shall operate any vessel, or manipulate any water skis, surfboard or similar device in a careless, reckless or negligent manner so as to endanger the life, limb or property of any person.

2. A person shall not operate any vessel, or manipulate any water skis, surfboard, or similar device while under the influence of an alcoholic beverage, marijuana, a narcotic, hypnotic, or other drug, or any combination of these substances. However, this subsection does not apply to a person operating any vessel or manipulating any water skis, surfboard, or similar device while under the influence of marijuana, or a narcotic, hypnotic, or other drug if the substances were prescribed for the person and have been taken under the prescription and in accordance with the directions of a medical practitioner as defined in chapter 155A, provided there is no evidence of the consumption of alcohol and further provided the medical practitioner has not directed the person to refrain from operating a motor vehicle, any vessel, or from manipulating any water skis, surfboard, or similar device.

3. No person shall place, cause to be placed, throw, or deposit onto or in any of the public waters, ice, or land of this state any cans, bottles, garbage, rubbish, and other debris.

4. No person shall operate on the waters of this state under the jurisdiction of the commission any vessel displaying or reflecting a flashing blue light unless such vessel is an authorized emergency vessel.

5. No person shall operate a vessel and enter into areas in which search and rescue operations are being conducted or an area affected by a natural disaster unless authorized by the officer in charge of the search and rescue or disaster operation. Any person authorized in an area of operation shall operate the person's vessel at a no wake speed and shall keep clear of all other vessels engaged in the search and rescue or disaster operation. A person who must operate a vessel in a disaster area to gain access or egress from the person's home shall be considered an authorized person by the officer in charge.

6. An owner or operator of a vessel propelled by a motor of more than ten horsepower shall not permit any person under twelve years of age to operate the vessel unless accompanied in or on the same vessel by a responsible person of at least eighteen years of age who is experienced in motorboat operation. A person who is twelve years of age or older but less than eighteen years of age shall not operate any vessel propelled by a motor of more than ten horsepower unless the person has successfully completed a department-approved watercraft

UNOFFICIAL VERSION: NOT FOR EARLY RELEASE

education course and obtained a watercraft education certificate or is accompanied in or on the same vessel by a responsible person of at least eighteen years of age who is experienced in motorboat operation. A person required to have a watercraft education certificate shall carry and shall exhibit or make available the certificate upon request of an officer of the department. A violation of this subsection is a simple misdemeanor as provided in section 462A.13. However, a person charged with violating this subsection shall not be convicted if the person produces in court, within a reasonable time, a watercraft education certificate. The cost of a watercraft education certificate, or any duplicate, shall not exceed five dollars.

7. A person shall not operate watercraft in a manner which unreasonably or unnecessarily interferes with other watercraft or with the free and proper navigation of the waters of the state. Anchoring under bridges, in a heavily traveled channel, in a lock chamber, or near the entrance of a lock constitutes such interference if unreasonable under the prevailing circumstances.

8. A person shall not operate a vessel in violation of restrictions as given by state-approved buoys or signs marking an area.

9. A person shall not operate on the waters of this state under the jurisdiction of the commission a vessel equipped with an engine of greater horsepower rating than is designated for the vessel by the federally required capacity plate or by the manufacturer's plate on those vessels not covered by federal regulations.

10. A person shall not leave an unattended vessel tied or moored to a dock which is placed immediately adjacent to a public boat launching ramp or to a dock which is posted for loading and unloading.

11. A person shall not operate a vessel within fifty feet of a diver's flag placed in accordance with the rules of the commission adopted under chapter 17A.

12. A person shall not operate a personal watercraft at any time between sundown and sunup.

13. A person shall not chase or harass animals while operating a personal watercraft or motorboat.

14. A person shall not operate a personal watercraft that is equipped with a cut-off switch, at any time, without first attaching the accompanying cut-off switch lanyard to the operator's person while the engine is running and the personal watercraft is in use.

15. A person shall not operate a vessel on the waters of this state under the jurisdiction of the commission unless every person on board the vessel who is under thirteen years of age is wearing a type I, II, III, or V personal flotation device, including "float coats" that meet this definition, that is approved by the United States coast guard, while the vessel is under way. This subsection does not apply when the person under thirteen years of age is in an enclosed cabin or below deck, or is a passenger on a commercial vessel with a passenger capacity of twenty-five persons or more.

462A.14 Operating a motorboat or sailboat while intoxicated.

1. A person commits the offense of operating a motorboat or sailboat while intoxicated if the person operates a motorboat or sailboat on the navigable waters of this state in any of the following conditions:

a. While under the influence of an alcoholic beverage or other drug or a combination of such substances.

b. While having an alcohol concentration of .08 or more.

c. While any amount of a controlled substance is present in the person, as measured in the person's blood or urine.

2. A person who violates subsection 1 commits:

a. A serious misdemeanor for the first offense, punishable by all of the following:

(1) Imprisonment in the county jail for not less than forty-eight hours, to be served as ordered by the court, less credit for any time the person was confined in a jail or detention facility following arrest. However, the court, in ordering service of the sentence and in its discretion, may accommodate the defendant's work schedule.

(2) Assessment of a fine of one thousand dollars. However, in the discretion of the court, if no personal or property injury has resulted from the defendant's actions, up to five hundred dollars of the fine may be waived. As an alternative to a portion or all of the fine, the court may order the person to perform unpaid community service.

(3) Prohibition of operation of a motorboat or sailboat for one year, pursuant to court order.

(4) Assignment to substance use disorder evaluation and treatment, pursuant to subsection 12, and a course for drinking drivers.

b. An aggravated misdemeanor for a second offense, punishable by all of the following:

(1) Imprisonment in the county jail or community-based correctional facility for not less than seven days.

(2) Assessment of a fine of not less than one thousand five hundred dollars nor more than five thousand dollars.

(3) Prohibition of operation of a motorboat or sailboat for two years, pursuant to court order.

(4) Assignment to substance use disorder evaluation and treatment, pursuant to subsections 12 and 13, and a course for drinking drivers.

c. A class "D" felony for a third offense and each subsequent offense, punishable by all of the following:

(1) Imprisonment in the county jail for a determinate sentence of not more than one year but not less than thirty days, or committed to the custody of the director of the department of corrections. A person convicted of a third or subsequent offense may be committed to the custody of the director of the department of corrections, who shall assign the person to

UNOFFICIAL VERSION: 2017 EARLY RELEASE

a facility pursuant to section 904.513 or the offender may be committed to treatment in the community under the provisions of section 907.13.

(2) Assessment of a fine of not less than two thousand five hundred dollars nor more than seven thousand five hundred dollars.

(3) Prohibition of operation of a motorboat or sailboat for six years, pursuant to court order.

(4) Assignment to substance use disorder evaluation and treatment, pursuant to subsections 12 and 13, and a course for drinking drivers.

d. A class "D" felony for any offense under this section resulting in serious injury to persons other than the defendant, if the court determines that the person who committed the offense caused the serious injury, and shall be imprisoned for a determinate sentence of not more than five years but not less than thirty days, or committed to the custody of the director of the department of corrections, and assessed a fine of not less than two thousand five hundred dollars nor more than seven thousand five hundred dollars. A person convicted of a felony offense may be committed to the custody of the director of the department of corrections, who shall assign the person to a facility pursuant to section 904.513. The court shall also order that the person not operate a motorboat or sailboat for one year in addition to any other period of time the defendant would have been ordered not to operate if no injury had occurred in connection with the violation. The court shall also assign the defendant to substance use disorder evaluation and treatment pursuant to subsections 12 and 13, and a course for drinking drivers.

e. A class "B" felony for any offense under this section resulting in the death of persons other than the defendant, if the court determines that the person who committed the offense caused the death, and shall be imprisoned for a determinate sentence of not more than twenty-five years, or committed to the custody of the director of the department of corrections. A person convicted of a felony offense may be committed to the custody of the director of the department of corrections, who shall assign the person to a facility pursuant to section 904.513. The court shall also order that the person not operate a motorboat or sailboat for six years. The court shall also assign the defendant to substance use disorder evaluation and treatment pursuant to subsections 12 and 13, and a course for drinking drivers.

3. *a.* Notwithstanding the provisions of sections 901.5 and 907.3, the court shall not defer judgment or sentencing, or suspend execution of any mandatory minimum sentence of incarceration applicable to the defendant under subsection 2, and shall not suspend execution of any other part of a sentence not involving incarceration imposed pursuant to subsection 2, if any of the following apply:

(1) If the defendant's alcohol concentration established by the results of an analysis of a specimen of the defendant's blood, breath, or urine withdrawn in accordance with this chapter exceeds .15, regardless of whether or not the alcohol concentration indicated by the chemical test minus the established margin of error inherent in the device or method used to conduct the test equals an alcohol concentration of .15 or more.

(2) If the defendant has previously been convicted of a violation of subsection 1 or a statute in another state substantially corresponding to subsection 1.

(3) If the defendant has previously received a deferred judgment or sentence for a violation of subsection 1 or for a violation of a statute in another state substantially corresponding to subsection 1.

(4) If the defendant refused to consent to testing requested in accordance with section 462A.14A.

(5) If the offense under this section results in bodily injury to a person other than the defendant.

b. A minimum term of imprisonment in a county jail or community-based correctional facility imposed on a person convicted of a second or subsequent offense under subsection 2 shall be served on consecutive days. However, if the sentencing court finds that service of the full minimum term on consecutive days would work an undue hardship on the person, or finds that sufficient jail space is not available and is not reasonably expected to become available within four months after sentencing to incarcerate the person serving the minimum

UNOFFICIAL VERSION 2021 FINAL EDITION

sentence on consecutive days, the court may order the person to serve the minimum term in segments of at least forty-eight hours and to perform a specified number of hours of unpaid community service as deemed appropriate by the sentencing court.

4. In determining if a violation charged is a second or subsequent offense for purposes of criminal sentencing or license or privilege revocation under this section:

a. Any conviction under this section within the previous twelve years shall be counted as a previous offense.

b. Deferred judgments entered pursuant to section 907.3 for violations of this section shall be counted as previous offenses.

c. Convictions or the equivalent of deferred judgments for violations in any other states under statutes substantially corresponding to this section shall be counted as previous offenses. The courts shall judicially notice the statutes of other states which define offenses substantially equivalent to an offense defined in this section and can therefore be considered corresponding statutes. Each previous violation on which conviction or deferral of judgment was entered prior to the date of the violation charged shall be considered and counted as a separate previous offense.

5. A person shall not be convicted and sentenced for more than one violation of this section for actions arising out of the same event or occurrence, even if the event or occurrence involves more than one of the conditions specified in subsection 1. However, a person who refuses a test pursuant to section 462A.14B may be subject to imposition of the penalties under that section in addition to the penalties under this section if the person violates both sections, even though the actions arise out of the same event or occurrence.

6. The clerk of the district court shall immediately certify to the department a true copy of each order entered with respect to deferral of judgment, deferral of sentence, or pronouncement of judgment and sentence for a defendant under this section.

7. *a.* This section does not apply to a person operating a motorboat or sailboat while under the influence of a drug if the substance was prescribed for the person and was taken under the prescription and in accordance with the directions of a medical practitioner as defined in chapter 155A or if the substance was dispensed by a pharmacist without a prescription pursuant to the rules of the board of pharmacy, if there is no evidence of the consumption of alcohol and the medical practitioner or pharmacist had not directed the person to refrain from operating a motor vehicle, or motorboat or sailboat.

b. When charged with a violation of subsection 1, paragraph "*c*", a person may assert, as an affirmative defense, that the controlled substance present in the person's blood or urine was prescribed or dispensed for the person and was taken in accordance with the directions of a practitioner and the labeling directions of the pharmacy, as that person and place of business are defined in section 155A.3.

8. In any prosecution under this section, evidence of the results of analysis of a specimen of the defendant's blood, breath, or urine is admissible upon proof of a proper foundation.

a. The alcohol concentration established by the results of an analysis of a specimen of the defendant's blood, breath, or urine withdrawn within two hours after the defendant was operating or in physical control of a motorboat or sailboat is presumed to be the alcohol concentration at the time of operating or being in physical control of the motorboat or sailboat.

b. The presence of a controlled substance or other drug established by the results of analysis of a specimen of the defendant's blood or urine withdrawn within two hours after the defendant was operating or in physical control of a motorboat or sailboat is presumed to show the presence of such controlled substance or other drug in the defendant at the time of operating or being in physical control of the motorboat or sailboat.

c. The nationally accepted standards for determining detectable levels of controlled substances in the division of criminal investigation's initial laboratory screening test for controlled substances adopted by the department of public safety shall be utilized in prosecutions under this section.

9. *a.* In addition to any fine or penalty imposed under this chapter, the court shall order a defendant convicted of or receiving a deferred judgment for a violation of this section to make restitution for damages resulting directly from the violation, to the victim, pursuant

UNOFFICIAL VERSION. 2021 CODE RELEASE

to chapter 910. An amount paid pursuant to this restitution order shall be credited toward any adverse judgment in a subsequent civil proceeding arising from the same occurrence. However, other than establishing a credit, a restitution proceeding pursuant to this section shall not be given evidentiary or preclusive effect in a subsequent civil proceeding arising from the same occurrence.

b. The court may order restitution paid to any public agency for the costs of the emergency response resulting from the actions constituting a violation of this section, not exceeding five hundred dollars per public agency for each such response. For the purposes of this paragraph, *"emergency response"* means any incident requiring response by fire fighting, law enforcement, ambulance, medical, or other emergency services. A public agency seeking such restitution shall consult with the county attorney regarding the expenses incurred by the public agency, and the county attorney may include the expenses in the statement of pecuniary damages pursuant to section 910.3.

10. In any prosecution under this section, the results of a chemical test shall not be used to prove a violation of subsection 1, paragraph *"b"* or paragraph *"c"*, if the alcohol, controlled substance, or other drug concentration indicated by the chemical test minus the established margin of error inherent in the device or method used to conduct the chemical test does not equal or exceed the level prohibited by subsection 1.

11. This section does not limit the introduction of any competent evidence bearing on the question of whether a person was under the influence of an alcoholic beverage or a controlled substance or other drug, including the results of chemical tests of specimens of blood, breath, or urine obtained more than two hours after the person was operating a motorboat or sailboat.

12. *a.* All substance use disorder evaluations required under this section shall be completed at the defendant's expense.

b. In addition to assignment to substance use disorder evaluation and treatment under this section, the court shall order any defendant convicted under this section to follow the recommendations proposed in the substance use disorder evaluation for appropriate substance use disorder treatment for the defendant. Court-ordered substance use disorder treatment is subject to the periodic reporting requirements of section 125.86.

c. If a defendant is committed by the court to a substance use disorder treatment facility, the administrator of the facility shall report to the court when it is determined that the defendant has received the maximum benefit of treatment at the facility and the defendant shall be released from the facility. The time for which the defendant is committed for treatment shall be credited against the defendant's sentence.

d. The court may prescribe the length of time for the evaluation and treatment or the court may request that the community college or licensed substance use disorder program conducting the course for drinking drivers which the defendant is ordered to attend or the treatment program to which the defendant is committed immediately report to the court when the defendant has received maximum benefit from the course for drinking drivers or treatment program or has recovered from the defendant's addiction, dependency, or tendency to chronically use alcohol or drugs.

e. Upon successfully completing a course for drinking drivers or an ordered substance use disorder treatment program, a court may place the defendant on probation for six months and as a condition of probation, the defendant shall attend a program providing posttreatment services relating to substance use disorder as approved by the court.

f. A defendant committed under this section who does not possess sufficient income or estate to make payment of the costs of the treatment in whole or in part shall be considered a state patient and the costs of treatment shall be paid as provided in section 125.44.

g. A defendant who fails to carry out the order of the court shall be confined in the county jail for twenty days in addition to any other imprisonment ordered by the court or may be ordered to perform unpaid community service work, and shall be placed on probation for one year with a violation of this probation punishable as contempt of court.

h. In addition to any other condition of probation, the defendant shall attend a program providing substance use disorder prevention services or posttreatment services related to substance use disorder as ordered by the court. The defendant shall report to the defendant's probation officer as ordered concerning proof of attendance at the treatment program or

UNOFFICIAL VERSION 2024 EARLY RELEASE

posttreatment program ordered by the court. Failure to attend or complete the program shall be considered a violation of probation and is punishable as contempt of court.

13. *a.* Upon a second or subsequent offense in violation of section 462A.14, the court upon hearing may commit the defendant for inpatient treatment of alcoholism or drug addiction or dependency to any hospital, institution, or community correctional facility in this state providing such treatment. The time for which the defendant is committed for treatment shall be credited against the defendant's sentence.

b. The court may prescribe the length of time for the evaluation and treatment or the court may request that the hospital to which the defendant is committed immediately report to the court when the defendant has received maximum benefit from the program of the hospital or institution or has recovered from the defendant's addiction, dependency, or tendency to chronically abuse alcohol or drugs.

c. A defendant committed under this section who does not possess sufficient income or estate to make payment of the costs of the treatment in whole or in part shall be considered a state patient and the costs of treatment shall be paid as provided in section 125.44.

462A.14A Implied consent to test.

1. A person who operates a motorboat or sailboat on the navigable waters in this state under circumstances which give reasonable grounds to believe that the person has been operating a motorboat or sailboat in violation of section 462A.14 is deemed to have given consent to the withdrawal of specimens of the person's blood, breath, or urine and to a chemical test or tests of the specimens for the purpose of determining the alcohol concentration or presence of controlled substances or other drugs, subject to this section.

2. *a.* If a peace officer has reasonable grounds to believe that any of the following has occurred, the peace officer may request that the motorboat or sailboat operator provide a sample of the operator's breath for a preliminary screening test using a device approved by the commissioner of public safety for that purpose:

(1) The motorboat or sailboat operator may be violating or has violated section 462A.14.

(2) The motorboat or sailboat has been involved in an accident resulting in injury or death.

(3) The motorboat or sailboat operator is or has been operating carelessly or recklessly, in violation of section 462A.12.

b. The results of this preliminary screening test may be used for the purpose of deciding whether an arrest should be made or whether to request a chemical test authorized in this chapter, but shall not be used in any court action except to prove that a chemical test was properly requested of a person pursuant to this section.

3. The withdrawal of the body substances and the test or tests shall be administered at the written request of a peace officer having reasonable grounds to believe that the person was operating a motorboat or sailboat in violation of section 462A.14, and if any of the following conditions exist:

a. A peace officer has lawfully placed the person under arrest for violation of section 462A.14.

b. The motorboat or sailboat has been involved in an occurrence resulting in personal injury or death.

c. The person has refused to take a preliminary breath screening test provided by this chapter.

d. The preliminary breath screening test was administered and it indicated an alcohol concentration equal to or in excess of the level prohibited by section 462A.14.

e. The preliminary breath screening test was administered and it indicated an alcohol concentration of less than the level prohibited under section 462A.14, and the peace officer

UNOFFICIAL VERSION NOT FOR SALE

has reasonable grounds to believe that the person was under the influence of a controlled substance, a drug other than alcohol or a combination of alcohol and another drug.

4. *a.* The peace officer shall determine which of the three substances, breath, blood, or urine, shall be tested.

b. If the peace officer fails to offer a test within two hours after the preliminary screening test is administered or refused, or the arrest is made, whichever occurs first, a test is not required, and there shall be no suspension of motorboat or sailboat operation privileges.

c. Refusal to submit to a chemical test of urine or breath is deemed a refusal to submit, and the peace officer shall inform the person that the person's refusal will result in the suspension of the person's privilege to operate a motorboat or sailboat.

d. Refusal to submit to a chemical test of blood is not deemed a refusal to submit, but in that case, the peace officer shall then determine which one of the other two substances shall be tested and shall offer the test.

e. Notwithstanding paragraphs *"a"* through *"d"*, if the peace officer has reasonable grounds to believe that the person was under the influence of a drug other than alcohol, or a combination of alcohol and another drug, a urine test may be required even after a blood or breath test has been administered.

f. A person who is dead, unconscious, or otherwise in a condition rendering the person incapable of consent or refusal is deemed not to have withdrawn the consent provided by this section, and the test may be given if a licensed physician certifies in advance of the test that the person is dead, unconscious, or otherwise in a condition rendering that person incapable of consent or refusal.

g. A person who has been requested to submit to a chemical test shall be advised by a peace officer of the following:

(1) A refusal to submit to the test is punishable by a mandatory civil penalty of five hundred to two thousand dollars, and suspension of motorboat or sailboat operating privileges for at least a year. In addition, if the person is also convicted of operating a motorboat or sailboat while intoxicated, the person shall be subject to additional penalties.

(2) If the person submits to the test and the results indicate an alcohol concentration equal to or in excess of the level prohibited under section 462A.14 and the person is convicted, the person's motorboat or sailboat operating privileges will be suspended for at least one year and up to six years, depending upon how many previous convictions the person has under this chapter, and whether or not the person has caused serious injury or death, in addition to any sentence and fine imposed for a violation of section 462A.14.

5. Refusal to submit to a test under this section does not prohibit the withdrawal of a specimen for chemical testing if a motorboat or sailboat has been involved in an accident resulting in death or serious bodily injury, if the peace officer has reasonable grounds to believe that the operator of the motorboat or sailboat was violating section 462A.14 at the time of the accident, and the peace officer has obtained, in compliance with chapter 808 or according to the procedure in section 462A.14D, a search warrant permitting the withdrawal of a specimen for chemical testing. The act of any person knowingly resisting or obstructing the withdrawal of a specimen pursuant to a search warrant issued under this section constitutes a contempt punishable by a fine not exceeding one thousand dollars or imprisonment in a county jail not exceeding one year or by both such fine and imprisonment, and further constitutes a refusal to submit, punishable under this section.

6. Only a licensed physician, licensed physician associate as defined in section 148C.1, medical technologist, or registered nurse, acting at the request of a peace officer, may withdraw a specimen of blood for the purpose of determining the alcohol concentration or the presence of a controlled substance or other drugs. However, any peace officer, using devices and methods approved by the commissioner of public safety, may take a specimen of a person's breath or urine for the purpose of determining the alcohol concentration or the presence of drugs. Only new equipment kept under strictly sanitary and sterile conditions shall be used for drawing blood. Medical personnel who use reasonable care and accepted medical practices in withdrawing blood specimens are immune from liability for their actions in complying with requests made of them pursuant to this section.

7. The person may have an independent chemical test or tests administered at the person's

own expense in addition to any administered at the direction of a peace officer. The failure or inability of the person to obtain an independent chemical test or tests does not preclude the admission of evidence of the results of the test or tests administered at the direction of the peace officer. Upon the request of the person who is tested, the results of the test or tests administered at the direction of the peace officer shall be made available to the person.

8. In any prosecution under section 462A.14, evidence of the results of analysis of a specimen of the defendant's blood, breath, or urine is admissible upon proof of a proper foundation. The alcohol concentration established by the results of an analysis of a specimen of the defendant's blood, breath, or urine withdrawn within two hours after the defendant was operating or was otherwise in physical control of a motorboat or sailboat is presumed to be the alcohol concentration at the time of operation or being in physical control of the motorboat or sailboat. If a person refuses to submit to a chemical test, proof of refusal is admissible in any civil or criminal action or proceeding arising out of acts alleged to have been committed while the person was operating a motorboat or sailboat in violation of section 462A.14. This section does not limit the introduction of any competent evidence bearing on the question of whether a person was under the influence of an alcoholic beverage or a controlled substance or other drug, including the results of chemical tests of specimens of blood, breath, or urine obtained more than two hours after the person was operating a motorboat or sailboat.

462A.14B Refusal to submit — penalty.

1. If a person refuses to submit to the chemical testing, a test shall not be given unless the procedure in section 462A.14D is invoked. However, if the person refuses the test, the person shall be punishable by the court according to this section.

2. The court, upon finding that the officer had reasonable ground to believe the person to have been operating a motorboat or sailboat in violation of section 462A.14, that specified conditions existed for chemical testing pursuant to section 462A.14A, and that the person refused to submit to the chemical testing, shall:

a. Order that the person shall not operate a motorboat or sailboat for one year.

b. Impose a mandatory civil penalty as follows:

(1) For a first refusal under this section, five hundred dollars.

(2) For a second refusal under this section, one thousand dollars.

(3) For a third or subsequent refusal under this section, two thousand dollars.

3. If the person does not pay the civil penalty by the time the one-year order not to operate expires, the court shall extend the order not to operate a motorboat or sailboat for an additional year, and may also impose penalties for contempt.

4. The court shall not defer judgment or sentencing, or suspend execution of any order or fine applicable under this section.

5. The penalties imposed by this section shall apply in addition to any penalties imposed under section 462A.14, except that the one-year period under the order not to operate a motorboat or sailboat under this section shall be imposed and run concurrently with any period of time a defendant is ordered not to operate a motorboat or sailboat under section 462A.14.

462A.14C Statement of officer.

1. A person who has been requested to submit to a chemical test shall be advised by a peace officer of the following:

a. A refusal to submit to the test is punishable by a mandatory civil penalty of five hundred to two thousand dollars, and suspension of motorboat or sailboat operating privileges for at least a year. In addition, if the person is also convicted of operating a motorboat or sailboat while intoxicated, the person shall be subject to additional penalties.

b. If the person submits to the test and the results indicate the presence of a controlled

substance or other drug, or an alcohol concentration equal to or in excess of the level prohibited by section 462A.14, the person's privilege to operate a motorboat or sailboat will be prohibited for at least one year, and up to six years.

2. This section does not apply in any case involving a person described in section 462A.14A, subsection 4, paragraph *"f"*.

3. If a person refuses to submit to a chemical test, proof of refusal is admissible in any civil or criminal action or proceeding arising out of acts alleged to have been committed while the person was operating a motorboat or sailboat in violation of section 462A.14.

462A.14D Tests pursuant to warrants.

1. Refusal to consent to a test under section 462A.14A does not prohibit the withdrawal of a specimen for chemical testing pursuant to a search warrant issued in the investigation of a suspected violation of section 462A.14 if all of the following grounds exist:

a. An accident has resulted in a death or personal injury reasonably likely to cause death.

b. There are reasonable grounds to believe that one or more of the persons whose operation of a motorboat or sailboat may have been the proximate cause of the accident was violating section 462A.14 at the time of the accident.

2. Search warrants may be issued under this section in full compliance with chapter 808 or search warrants may be issued under subsection 3.

3. Notwithstanding section 808.3, the issuance of a search warrant under this section may be based upon sworn oral testimony communicated by telephone if the magistrate who is asked to issue the warrant is satisfied that the circumstances make it reasonable to dispense with a written affidavit. The following shall then apply:

a. When a caller applies for the issuance of a warrant under this section and the magistrate becomes aware of the purpose of the call, the magistrate shall place under oath the person applying for the warrant.

b. The person applying for the warrant shall prepare a duplicate warrant and read the duplicate warrant, verbatim, to the magistrate who shall enter, verbatim, what is read to the magistrate on a form that will be considered the original warrant. The magistrate may direct that the warrant be modified.

c. The oral application testimony shall set forth facts and information tending to establish the existence of the grounds for the warrant and shall describe with a reasonable degree of specificity the person or persons whose operation of a motorboat or sailboat is believed to have been the proximate cause of the accident and from whom a specimen is to be withdrawn and the location where the withdrawal of the specimen or specimens is to take place.

d. If a voice recording device is available, the magistrate may record by means of that device all of the call after the magistrate becomes aware of the purpose of the call. Otherwise, the magistrate shall cause a stenographic or longhand memorandum to be made of the oral testimony of the person applying for the warrant.

e. If the magistrate is satisfied from the oral testimony that the grounds for the warrant exist or that there is probable cause to believe that they exist, the magistrate shall order the issuance of the warrant by directing the person applying for the warrant to sign the magistrate's name on the duplicate warrant. The magistrate shall immediately sign the original warrant and enter on its face the exact time when the issuance was ordered.

f. The person who executes the warrant shall enter the time of execution on the face of the duplicate warrant.

g. The magistrate shall cause any record of the call made by means of a voice recording device to be transcribed, shall certify the accuracy of the transcript, and shall file the transcript and the original record with the clerk. If a stenographic or longhand memorandum was made of the oral testimony of the person who applied for the warrant, the magistrate shall file a signed copy with the clerk.

h. The clerk of court shall maintain the original and duplicate warrants along with the record of the telephone call and any transcript or memorandum made of the call in a confidential file until a charge, if any, is filed.

4. *a.* Search warrants issued under this section shall authorize and direct peace officers to secure the withdrawal of blood specimens by medical personnel under section 462A.14A. Reasonable care shall be exercised to ensure the health and safety of the persons from whom specimens are withdrawn in execution of the warrants.

b. If a person from whom a specimen is to be withdrawn objects to the withdrawal of blood, the warrant may be executed as follows:

(1) If the person is capable of giving a specimen of breath, and a direct breath testing instrument is readily available, the warrant may be executed by the withdrawal of a specimen of breath for chemical testing, unless the peace officer has reasonable grounds to believe that the person was under the influence of a controlled substance, a drug other than alcohol, or a combination of alcohol and another drug.

(2) If the testimony in support of the warrant sets forth facts and information that the peace officer has reasonable grounds to believe that the person was under the influence of a controlled substance, a drug other than alcohol, or a combination of alcohol and another drug, a urine sample shall be collected in lieu of a blood sample, if the person is capable of giving a urine sample and the sample can be collected without the need to physically compel the execution of the warrant.

5. The act of any person knowingly resisting or obstructing the withdrawal of a specimen pursuant to a search warrant issued under section 462A.14D constitutes contempt punishable as provided in that section and further constitutes a refusal to submit. Also, if the withdrawal of a specimen is so resisted or obstructed, section 462A.14A applies.

6. Nonsubstantive variances between the contents of the original and duplicate warrants shall not cause a warrant issued under subsection 3 to be considered invalid.

7. Specimens obtained pursuant to warrants issued under this section are not subject to disposition under section 808.9 or chapter 809 or 809A.

8. Subsections 3 through 7 of this section do not apply where a test may be administered under section 462A.14A, subsection 4, paragraph *"f"*.

9. Medical personnel who use reasonable care and accepted medical practices in withdrawing blood specimens are immune from liability for their actions in complying with requests made of them pursuant to search warrants or pursuant to section 462A.14A.

Such ordinances or local law are operative only so long as they are not inconsistent with this chapter or the rules adopted by the commission.

2. Any subdivision of this state may, but only after public notice thereof by publication in a newspaper having a general circulation in such subdivision, make formal application to the commission for special rules and regulations concerning the operation of vessels on any waters within its territorial limits and shall set forth therein the reasons which make such special rules or regulations necessary or appropriate.

3. The commission, upon application of local authorities, may make special rules in conformity with this chapter, concerning the operation of vessels on any waters of this state under the jurisdiction of the commission within the territorial limits of any subdivision of this state. Special rules shall only be adopted upon a finding by the commission that the rules are necessary to carry out the policies and purposes of this chapter due to special conditions with regard to a particular body of water and that the special rules provide greater protection to the public health, safety, and welfare than the rules of general application.

1. A vessel either for hire or offered for hire upon any waters of this state under the jurisdiction of the commission may be inspected at any time by representatives of the commission or by any peace officer who is trained in enforcing, and who in the regular course of duty enforces, boating and navigation laws.

2. Officers appointed by the commission or any peace officer who is trained in enforcing, and who in the regular course of duty enforces, boating and navigation laws shall have the power and authority to determine whether such vessel is safe for the transportation of passengers or cargo and upon what waters it may be used. They may determine and designate the number of passengers or cargo, including crew, that may be carried and determine whether the machinery, equipment, and all appurtenances are such as to make the vessel seaworthy, where used, and such other matters as are pertinent.

3. Private vessels may also be inspected to determine their seaworthiness at any time by representatives of the commission or by any peace officer who is trained in enforcing, and who in the regular course of duty enforces, boating and navigation laws.

1. Any officer appointed by the commission may, for cause, temporarily suspend the registration certificate of any vessel that has been issued under this chapter, and the commission, after a due hearing on the matter at its next session, shall make final determination in the matter.

2. The commission shall forthwith revoke the registration certificate of any vessel and the owner's or operator's privilege to operate a vessel for hire or commercial vessel, upon receiving a record of such owner or operator's conviction of any of the following offenses, when such conviction has become final:

a. Manslaughter resulting from the operation of a vessel.

b. Operating a motorboat or sailboat while intoxicated, or manipulating water skis, a surfboard, or a similar device while in an intoxicated condition or under the influence of a narcotic drug.

c. Failure to stop and render aid as required by this chapter when an occurrence involving a vessel results in the death or personal injury of another.

d. Perjury or the making of a false affidavit or statement under oath to the commission under this chapter relating to the ownership or operation of a vessel.

3. The commission is hereby authorized to suspend the registration certificate of any vessel and the owner's or operator's privilege to operate a vessel for hire or commercial vessel upon a showing by its records that the owner or operator:

a. Has committed an offense for which mandatory revocation of the registration certificate or of the privilege to operate a vessel for hire or commercial vessel is required upon conviction.

b. Is a habitual reckless or negligent operator of a vessel for hire or commercial vessel.

c. Is incompetent to operate a vessel for hire or commercial vessel.

d. Has permitted an unlawful or fraudulent use of such registration certificate.

4. The commission is hereby authorized to suspend or revoke the certificate of registration of a vessel registered under the provisions of this chapter when:

a. It is satisfied that such registration certificate was fraudulently or erroneously obtained.

b. It determines that a registered vessel is unsafe to be operated on waters of the state under the jurisdiction of the commission.

c. A registered vessel has been abandoned or wrecked.

1. A person with a valid class I or class III dock permit, as provided in 571 IAC ch. 16, may construct a roof to protect a hoist or slip if all of the following apply:

UNOFFICIAL VERSION: NOT FOR EARLY RELEASE

a. The roof is constructed with rust-resistant materials.

b. The roof is no more than thirty feet wide.

c. The roof is no more than twenty feet above the normal water elevation surrounding the dock.

d. The roof is built above the boat slip or hoist.

e. The roof is not used for sleeping purposes or habitation by a person.

2. To install a roof on a private dock pursuant to subsection 1, a person must maintain dock liability insurance with minimum per occurrence coverage of at least one million dollars. The owner of the private dock shall be liable for any damages caused by the roof constructed on the private dock.

3. Notwithstanding any other provision of law to the contrary, an association may establish additional restrictions and requirements in the association's rules and regulations regarding the construction of a roof on a private dock. Restrictions and requirements adopted pursuant to the authority granted to an association under this subsection shall only apply to the association's members and the association's members' guests.

4. For purposes of this section, "*association*" means a nonprofit corporation incorporated under chapter 504, named as an association, that manages a community that is located on a subdivision that is adjacent to or abuts a public lake.

462A.31 Artificial lakes.

1. Except as provided in rules adopted under this chapter, a motorboat shall not be permitted on any artificial lake under the jurisdiction of the commission except the following:

a. A motorboat equipped with one or more outboard battery operated electric trolling motors.

UNOFFICIAL VERSION NOT EARLY RELEASE

b. A motorboat equipped with any power unit mounted or carried aboard the vessel may be operated at a no-wake speed on all artificial lakes of more than one hundred acres in size under the custody of the department. However, on lake Macbride, a motorboat with a power unit exceeding ten horsepower may be operated only when permitted by rule and the rule shall not authorize such use during the period beginning on the Friday before Memorial Day and ending on Labor Day inclusively. This paragraph does not limit motorboat horsepower on natural lakes under the custody of the department or limit the department's authority to establish special speed zoning regulations.

2. All privately owned vessels on artificial lakes under the jurisdiction of the commission shall be kept at locations designated by the commission.

3. All privately owned vessels, used on or kept at the artificial lakes under the jurisdiction of the commission, shall be seaworthy for the waters where they are kept and used. All such vessels shall be removed from state property whenever ordered by the commission, and, in any event, shall be removed from such property not later than December 15 of each year.

4. Upon construction of an artificial lake by a political subdivision of this state, the subdivision may, after publication in a newspaper of general circulation in the subdivision, make formal application to the commission for special rules relating to the operation of watercraft on the lake, and shall set forth therein the reasons which make such special rules necessary or appropriate. The commission may promulgate the special rules as provided in this chapter, concerning the operation of watercraft on a lake constructed and maintained by a subdivision of this state. Such special rules may include the following:

a. Zoning by area and time to regulate navigation and other types of activity.

b. Regulating the horsepower, size and type of watercraft.

5. As provided in section 350.5, county conservation boards may make regulations concerning horsepower limits and no-wake speeds on artificial lakes under their jurisdiction, except for state-owned artificial lakes managed by a county conservation board under a management agreement.

a. Any portion of a meandered stream.

b. Any portion of the bed of a nonmeandered stream which has been identified as a navigable stream or river by rule adopted by the department and which is covered by water.

c. Any portion of a stream identified as a trout stream by the department.

2. This section does not prohibit the use of ford crossings of public or private roads or any other ford crossing when used for agricultural purposes, the operation of construction vehicles engaged in lawful construction, repair, or maintenance in a streambed, or the operation of motor vehicles on ice.

3. The department of natural resources shall adopt rules identifying the navigable streams and rivers in which a motor vehicle may be operated. The department may exempt participants of organized special events from this section where the organized special event is approved by a state or local authority.

SUBCHAPTER II

VESSEL REGISTRATION REGULATIONS

462A.35 Special certificate for manufacturer or dealer.

A manufacturer or dealer owning, storing, repairing, or altering a vessel required to be registered under this chapter may operate the vessel for purposes of transporting, testing, demonstrating, or selling the vessel without registering each such vessel, provided that any such vessel displays thereon a special certificate issued to the manufacturer or dealer as provided in this chapter. This special certificate shall not be used for any vessel offered for hire or for any work or service vessels owned by a manufacturer or dealer.

462A.36 Fee for special certificate — minimum requirements for issuance.

1. Any manufacturer or dealer may, upon payment of a fee of fifteen dollars, make application to the commission, upon such forms as the commission prescribes, for a special certificate containing a general distinguishing number and for one or more duplicate special certificates. The applicant shall submit such reasonable proof of the applicant's status as a bona fide manufacturer or dealer as the commission may require.

2. The commission may adopt rules consistent with this chapter establishing minimum requirements for a dealer or manufacturer to be issued a special certificate. In adopting such rules the department shall consider the need to protect persons, property, and the environment, and to promote uniform practices relating to the sale and use of vessels. The commission may also adopt rules providing for the suspension or revocation of a dealer's or manufacturer's special certificate issued pursuant to this section.

462A.67 Inspection deficiency order.

If after performing an inspection the officer determines that the vessel is not properly registered, numbered, or equipped, the officer may issue an inspection deficiency order or citation to the operator of the vessel. The inspection deficiency order may indicate any deficiencies found to exist during the inspection and shall direct the owner or operator of the vessel to properly register or number the vessel or have equipment repairs or replacements made and return a copy of the inspection deficiency order with proof of compliance with the registration, numbering, or equipment requirements to the commission within fourteen days. If such proof is not provided within fourteen days, the owner or operator is in violation of this chapter.

462A.70 Hull identification, capacity plates, warning labels.

1. *Altering or changing numbers on plates.*

a. A person shall not with fraudulent intent, deface, destroy, or alter the hull identification number, capacity plate, or any other plate, warning label, or instrument required by state or federal law on a vessel or component part nor shall a person place or stamp a hull identification number, capacity plate, or any other warning label or instrument upon a vessel or component part except one assigned thereto by state or federal law.

b. This section does not prohibit the restoration of an original hull identification number, capacity plate, or any other original plate, warning label, or instrument required by state or federal law when the restoration is made by the commission nor prevent a manufacturer from placing in the ordinary course of business numbers, plates, or marks upon vessels or component parts.

2. *Test to determine true number or plate.* When it appears that a hull identification number, capacity plate, or any other plate, warning label, or instrument required by state or federal law has been altered, defaced, or tampered with, a peace officer or inspector employed by the commission or any other person acting under the direction of a peace officer or inspector, may apply any recognized process or test to the vessel or part containing such number or plate for the purpose of determining the true number or plate content.

3. *Right of inspection.* Peace officers or examiners employed by the commission may inspect any vessel or component part in possession of any person or found upon the waters of this state under the jurisdiction of the commission or in a public mooring or storage area or enclosure in which vessels or component parts are kept for sale, storage, hire, or repair and to determine vessel or component part identification may board the vessel or enter the public mooring or storage area or enclosure.

4. *Penalty.* A person who is convicted of a violation of any of the provisions of this section or rules adopted under this section by the commission is guilty of a class "D" felony.

SUBCHAPTER III

VESSEL CERTIFICATES OF TITLE

462A.77 Owner's certificate of title — in general.

1. Except as provided in subsection 3, an owner of a vessel seventeen feet or longer in length principally used on the waters of the state and to be numbered pursuant to section 462A.4 shall apply to the county recorder of the county in which the owner resides for a certificate of title for the vessel. The requirement of a certificate of title does not apply to canoes, kayaks, or inflatable vessels regardless of length.

2. Each certificate of title shall contain the information and shall be issued in a form the department prescribes.

3. *a.* A person who, on January 1, 1988, is the owner of a vessel seventeen feet or longer in length with a valid certificate of number issued by the state is not required to file an application for a certificate of title for the vessel. A person who, on or after January 1, 1988,

UNOFFICIAL VERSION: 2027 EARLY RELEASE

purchases a vessel seventeen feet or longer in length which was registered with a valid certificate of number issued by this state before January 1, 1988, shall obtain a certificate of title for the vessel.

b. A person who is the owner of a vessel that is documented with the United States coast guard is not required to file an application for a certificate of title for the vessel and the vessel is exempt from the requirements of section 462A.82, subsections 1 and 2, and section 462A.84.

4. Every owner of a vessel subject to titling under this chapter shall apply to the county recorder for issuance of a certificate of title for the vessel within thirty days after acquisition. The application shall be on forms the department prescribes, and accompanied by the required fee specified in section 462A.78 and the writing fee specified in section 462A.53. The application shall be signed and shall include a certification signed in writing containing substantially the representation that statements made are true and correct to the best of the applicant's knowledge, information, and belief, under penalty of perjury. The application shall contain the date of sale and gross price of the vessel or the fair market value if no sale immediately preceded the transfer, and any additional information the department requires. If the application is made for a vessel last previously registered or titled in another state or foreign country, it shall contain this information and any other information the department requires.

5. If a dealer buys or acquires a used vessel for resale, the dealer may apply for and obtain a certificate of title as provided in this chapter. If a dealer buys or acquires a new vessel for resale, the dealer may apply for a certificate of title in the dealer's name.

6. Every dealer transferring a vessel requiring titling under this chapter shall assign the title to the new owner, or in the case of a new vessel assign the certificate of origin. Within thirty days the dealer shall forward all moneys and applications to the county recorder.

7. The county recorder shall maintain an electronic record of each certificate of title issued by the county recorder under this chapter until the certificate of title has been inactive for five years.

8. A person shall not sell, assign, or transfer a vessel titled by the state without delivering to the purchaser or transferee a certificate of title with an assignment on it showing title in the purchaser or transferee. A person shall not purchase or otherwise acquire a vessel required to be titled by the state without obtaining a certificate of title for it in that person's name.

9. A person who owns a vessel which is not required to have a certificate of title may apply for and receive a certificate of title for the vessel and the vessel shall subsequently be subject to the requirements of this subchapter as though the vessel was required to be titled.

10. The buyer of a vessel sold pursuant to section 578A.7 shall present documentation that such sale was completed in compliance with that section.

462A.78 Fees — surcharge — duplicates.

1. *a.* The county recorder shall charge a five dollar fee to issue a certificate of title, a transfer of title, a duplicate, or a corrected certificate of title.

b. In addition to the fee required under paragraph "*a*", and sections 462A.82 and 462A.84, a surcharge of five dollars shall be required.

2. If a certificate of title is lost, stolen, mutilated, destroyed, or becomes illegible, the first lienholder or, if there is none, the owner named in the certificate, as shown by the county recorder's records, shall within thirty days obtain a duplicate by applying with any county recorder. The applicant shall furnish information the department requires concerning the original certificate and the circumstances of its loss, mutilation, or destruction. Mutilated or illegible certificates shall be returned to the department with the application for a duplicate.

UNOFFICIAL VERSION 2027 EARLY RELEASE

3. The duplicate certificate of title shall be marked plainly "duplicate" across its face, and mailed or delivered to the applicant.

4. If a lost or stolen original certificate of title for which a duplicate has been issued is recovered, the original shall be surrendered promptly to the department for cancellation.

5. The funds collected under subsection 1, paragraph *"a"*, shall be placed in the general fund of the county and used for the expenses of the county conservation board if one exists in that county. Of each surcharge collected as required under subsection 1, paragraph *"b"*, the county recorder shall remit five dollars to the department of revenue for deposit in the general fund of the state.

462A.80 Hull identification number of vessel.

1. Every vessel whose construction began after October 31, 1972, shall have a hull identification number assigned and affixed as required by the federal Boat Safety Act of 1971. The department shall determine the procedures for application and for issuance of the hull identification number for homebuilt boats.

2. A person shall not destroy, remove, alter, cover, or deface the manufacturer's hull identification number, the plate bearing it, or any hull identification number the department assigns to a vessel without the department's permission.

3. A person other than a manufacturer who constructs a vessel or uses an unconventional device as a vessel for navigation shall submit an affidavit which describes the vessel or device to the department. In cooperation with the county recorder, the department shall assign a hull identification number to the vessel or device. The applicant shall cause the number to be carved, burned, stamped, embossed, or otherwise permanently affixed to the outboard side of the transom or, if there is no transom, to the outermost starboard side at the end of the hull that bears the rudder or other steering mechanism, above the waterline of the vessel or device in such a way that alteration, removal, or replacement would be obvious and evident.

462A.82 Transfer or repossession of vessel by operation of law — coast guard documentation of vessel.

1. If ownership of a vessel is transferred by operation of law, such as by inheritance, order in bankruptcy, insolvency, replevin, execution sale, or in compliance with section 578A.7, the transferee, within thirty days after acquiring the right to possession of the vessel by operation of law, shall mail or deliver to the county recorder satisfactory proof of ownership as the county recorder requires, together with an application for a new certificate of title, and the required fee, plus the writing fee specified in section 462A.53. However, if the transferee is the surviving spouse of the deceased owner, the county recorder shall waive the required fees. A title tax is not required on these transactions.

2. If a lienholder repossesses a vessel by operation of law and holds it for resale, the lienholder shall secure a new certificate of title and shall pay the required fee, plus the writing fee specified in section 462A.53.

3. If a vessel is documented with the United States coast guard, the owner shall mail or deliver to the county recorder proof of the documentation and the owner's certificate of title issued pursuant to this chapter is canceled upon the delivery. A title tax is not required on these transactions.

462A.83 Security interest in vessels — exemptions.

This subchapter does not apply to or affect any of the following:

1. A lien given by statute or rule of law to a supplier of services or materials for a vessel.

2. A lien given by statute to the United States, this state, or any political subdivision of this state.

3. A security interest in a vessel created by a manufacturer or dealer who holds the vessel for sale, but a buyer in the ordinary course of trade from the manufacturer or dealer takes free of the security interest.

4. A lien arising out of an attachment of a vessel.

5. A security interest claimed on proceeds if the original security interest did not have to be noted on the certificate of title in order to be perfected.

6. A vessel for which a certificate of title is not required under this chapter.

7. A security interest perfected under chapter 554 before January 1, 1988.

462A.84 Perfection and titles — fees.

1. A security interest created in this state in a vessel required to have a certificate of title is not perfected until the security interest is noted on the certificate of title.

a. To perfect the security interest, an application for security interest must be presented along with the original title. The county recorder shall note the security interest on the face of the title and in the electronic record maintained by the recorder's office.

b. The application fee for a security interest is five dollars. The fees shall be credited to the county general fund.

c. The application shall be accompanied by the writing fee specified in section 462A.53.

2. The certificate of title shall be presented to the county recorder when the application for security interest or for assignment of the security interest is presented and a new or endorsed certificate of title shall be issued to the secured party with the name and address of the secured party upon it.

3. When a security interest is discharged, the secured party shall note the cancellation of

the security interest on the face of the certificate of title and send the title by first class mail to the office of the county recorder where the title was issued, or the secured party shall send a notarized letter by first class mail to the county recorder where the title was issued notifying the county recorder of the cancellation of the security interest. The county recorder shall note the release of the security interest in the county records as evidence of the release of the security interest.

4. If a lien has been released by the lienholder, proof of such release may be presented to the county recorder of any county, and the county recorder shall note the release on the face of the certificate of title and enter the release on the statewide computer system.

evaluations, analysis, justifications, and cost estimates, the proposed acquisition of fee title and conservation easements and other agreements, and the specific design and layout of facilities.

6. *"Prospective protected water area"* means a water area designated by the commission for which an in-depth study for permanent designation as an element of the protected water area system is conducted. Such areas shall possess outstanding cultural and natural resource values such as water conservation, scenic, fish, wetland, forest, prairie, mineral, geological, historic, archaeological, recreation, education, water quality, or flood protection values.

7. *"Protected water area"* means a water area permanently designated by the commission for inclusion in the protected water area system.

8. *"Protected water area system"* means a total comprehensive program that includes the goals and objectives, the state plan, the individual management plans, the prospective protected water areas, the protected water areas, the acquisition of fee title and conservation easements and other agreements, and the administration and management of such areas.

9. *"State plan"* means a long-range comprehensive document that states the goals and objectives of the protected water area system, establishes the procedure and criteria for prospective protected water area designation, provides the format for prospective area analysis, establishes a priority system for prospective area study, recommends potential areas for inclusion into the system, institutes interagency coordination, and outlines general administrative and management needs to develop and administer this system.

10. *"Water area"* means a river, lake, wetland, or other body of water and adjacent lands where the use of those lands affects the integrity of the water resource.

462B.10 Landowner cooperation.

Recognizing that most of the protected water areas may be within privately owned lands, the legislature encourages the commission to cooperate with the landowners within the designated areas in achieving the purposes of this chapter. Likewise, the landowners within the designated areas are encouraged to cooperate with the commission. Commission staff shall meet separately or in small groups with landowners within interim protected water areas during the preparation of the master plan to establish workable and acceptable agreements for the protection of the area and its accompanying resources in a manner consistent with the purposes of this chapter and the interest and concerns of the landowner.

464A.3 Hearing — damages.

After the approval the commission, if it wishes to proceed further with the project, shall, with the consent of the environmental protection commission, fix a date of hearing not less than two weeks from date of approval of the plan. Notice of the day, hour and place of hearing, relative to proposed work, shall be provided by publication at least once a week for two consecutive weeks in some newspaper of general circulation published in the county where the project is located, or in the counties where the water elevations are affected, under the tentative plan approved. The last publication shall not be less than five days prior to the

464A.7 Damages determined.

At the time fixed for hearing and after receipt of the report of the appraisers, the commission shall examine said report, both for and against each claim for damages and compensation and shall determine the amount of damages and compensation due each claimant and may affirm, increase or diminish the amount awarded by the appraisers. After such action, the commission may thereupon adopt a final plan for the project, and proceed with its construction, or it may dismiss the entire proceedings.

464A.11 Water trails and low head dam public hazard statewide plan.

1. The department shall establish a water trails and low head dam public hazard program.

2. In administering the water trails and low head dam public hazard program, the department shall conduct a study of waterways for recreational purposes and develop a statewide plan by March 31, 2010. Elements of the plan shall include but not be limited to:

a. Compiling an inventory of low head dams, including a listing of those low head dams, for the purposes of publicizing hazards through maps and warning signage.

b. Seeking input from the public and experts in various fields, including fisheries, rescue professionals, water recreation, river management, public utilities conservation, and landscape architecture, to be used in the recreation and safety components of the plan.

c. Developing standard recommendations for local communities including signage system and placement guidelines, boating access type, placement and construction guidelines, and volunteer recommendations for communities.

d. Recommending design templates for low head dams to reduce incidents of drowning.

e. With input from stakeholders, developing criteria for prioritizing removal or modification of low head dams.

f. With input from stakeholders, developing criteria for prioritizing development of water trails.

3. The department may contract with a university or private consultant in order to assist with development of the plan.

CHAPTER 465A

OPEN SPACE LANDS

Referred to in §306D.1, 456A.24, 481A.1

This chapter not enacted as a part of this title;
transferred from chapter 111E in Code 1993
Intent that highway scenic routes program
be coordinated with open space program, §306D.1(2)

465A.1 Statement of purpose — intent.
465A.2 Statewide open space acquisition and protection program — objectives and agency duties.
465A.3 Funding sources.
465A.4 Payment in lieu of property taxes.

465A.1 Statement of purpose — intent.

1. The general assembly finds that:

a. Iowa's most significant open space lands are essential to the well-being and quality of life for Iowans and to the economic viability of the state's recreation and tourism industry.

b. Many areas of high national significance in the state have not received adequate public protection to keep them free of visual blight, resource degradation, and negative impacts from inappropriate land use and surrounding development. Some of these areas include national park service and United States fish and wildlife service properties, national landmarks and trails, the Des Moines river greenbelt, the great river road, areas where interstate highways enter the state, cross major rivers, and pass by other areas of national significance, major state park and recreation areas, unique and protected water areas, and significant natural, geological, scenic, historic, and cultural properties of the state.

c. While state and federal funds are generally available for the acquisition and protection of fish and wildlife areas and habitats as well as boating access to public waters, funding programs for public open space acquisition and protection have not been adequate to meet needs.

d. Relative to other midwestern states, Iowa ranks last in the proportion of land acquired and protected for public open space.

2. A program shall be established to:

a. Educate the citizens of the state about the needs and urgency of protecting the state's open spaces.

b. Plan for the protection of the state's significant open space areas.

c. Acquire and protect those properties on a priority basis through a variety of appropriate means.

465A.2 Statewide open space acquisition and protection program — objectives and agency duties.

1. The department of natural resources has the following duties in undertaking programs to meet the objectives stated in section 465A.1.

a. Prepare and conduct new education and awareness programs designed to create greater public understanding of the needs, issues, and opportunities for protecting the state's significant open spaces. The department shall incorporate the recommendations of other state agencies and private sector organizations which have interests in open space protection. The department may enter into contracts with other agencies and the private sector for preparing and conducting these programs.

b. Prepare a statewide, long-range plan for the acquisition and protection of significant open space lands throughout the state as identified in section 465A.1. The department of transportation, the economic development authority, private organizations, county conservation boards, city park and recreation departments, and the federal agencies with

UNOFFICIAL VERSION: 2027 EARLY RELEASE

lands in the state shall be directly involved in preparing the plan. The plan shall include, but is not limited to, the following elements:

(1) Specific acquisition and protection needs and priorities for open space areas based on the following sequence of priorities:

(a) National.

(b) Regional.

(c) Statewide.

(d) Local.

(2) Identification of open space acquisition and protection techniques available or needed to carry out the plan.

(3) Additional education and awareness programs which are needed to encourage the acquisition and protection of areas identified in the plan.

(4) Management needs including maintenance, rehabilitation, and improvements.

(5) Funding levels needed to accomplish the statewide open space programs.

(6) Recommendations as to how federal programs can be modified or developed to assist the state's open space programs.

c. Acquire and protect open space properties as identified by priority in the plan as funding is made available for this purpose. In acquiring and protecting open space, the department shall:

(1) Accept applications for funding assistance from federal agencies, other state agencies, regional organizations, county conservation boards, city park and recreation agencies, and private organizations with an interest in open spaces.

(2) Obtain the maximum efficiency of funds appropriated for this program through the use of acquisition and protection techniques that provide the degree of protection required at the lowest cost.

(3) Encourage the provision of supporting or matching funds; however, the absence of these funds shall not prevent the approval of those projects of clear national importance.

2. The department may enter into contracts with private consultants for preparing all or part of the plan required under subsection 1, paragraph *"b"*. The plan shall be submitted to the general assembly by July 1, 1988. Prior to submission of the plan to the general assembly, the department shall request comments on the proposed plan from state and federal agencies and private organizations with interests in open space protection. The comments shall be submitted to the general assembly.

3. The department may initiate pilot acquisition and protection projects prior to completion of the open space plan if the pilot projects have high national significance as identified in section 1, subsection 2.

1. To achieve the purposes of this chapter, the department, other state agencies, political subdivisions of the state, and private organizations may use funds from the following sources:

a. Appropriations by the general assembly.

b. Private grants and gifts.

c. Federal grants and loans intended for these purposes.

2. The department may enter into agreements with other state agencies, political subdivisions of the state, and private organizations for the purposes of carrying out this natural open space program or specific elements of the program.

465A.4 Payment in lieu of property taxes.

As a part of the budget proposal submitted to the general assembly under section 455A.4, subsection 1, paragraph "c", the director of the department of natural resources shall submit a budget request to pay the property taxes for the next fiscal year on open space property acquired by the department which would otherwise be subject to the levy of property taxes. The assessed value of open space property acquired by the department shall be that determined under section 427.1, subsection 18, and the director may protest the assessed value in the manner provided by law for any property owner to protest an assessment. For the purposes of chapter 257, the assessed value of the open space property acquired by the department shall be included in the valuation base of the school district and the payments made pursuant to this section shall be considered as property tax revenues and not as miscellaneous income. The county treasurer shall certify taxes due to the department. The taxes shall be paid annually from the departmental fund or account from which the open space property acquisition was funded. If the departmental fund or account has no moneys or no longer exists, the taxes shall be paid from funds as otherwise provided by the general assembly. If the total amount of taxes due certified to the department exceeds the amount appropriated, the taxes due shall be reduced proportionately so that the total amount equals the amount appropriated. This section applies to open space property acquired by the department on or after January 1, 1987.

465B.2	Statewide trails development program.	465B.4	Funding.

465B.1 Statement of purpose — intent.

1. The general assembly finds that recreation trails provide a significant benefit for the health and well-being of Iowans and state visitors. Iowa has a national reputation as a place for hiking, walking, and bicycling. The use of recreation trails has a significant influence on Iowa's economy. Iowa's scenic landscapes, many small communities, and existing natural and transportation corridors are ideally suited for new recreation trails to support recreation and tourism activities such as walking, biking, driving for pleasure, horseback riding, boating and canoeing, skiing, snowmobiling, and others.

2. The general assembly finds that a program shall be established to acquire, develop, promote, and manage existing and new recreation trails. The objective of a statewide trails program shall be for the state to acquire and develop two thousand miles of new recreation trails and completion of existing trail projects before the year 2000.

465B.2 Statewide trails development program.

1. The state department of transportation shall undertake the following actions to establish a program to meet the objective stated in section 465B.1:

a. Prepare a long-range plan for the acquisition, development, promotion, and management of recreation trails throughout the state. The plan shall identify needs and opportunities for recreation trails of different kinds having national, statewide, regional, and multicounty importance. Recommendations in the plan shall include but not be limited to:

(1) Specific acquisition needs and opportunities for different types of trails.

(2) Development needs including trail surfacing, restrooms, shelters, parking, and other needed facilities.

(3) Promotional programs which will encourage Iowans and state visitors to increase use of trails.

(4) Management activities including maintenance, enforcement of rules, and replacement needs.

(5) Funding levels needed to accomplish the statewide trails objectives.

(6) Ways in which trails can be more fully incorporated with parks, cultural sites, and natural resource sites.

b. Include, within the plan, recommendations for standards for establishing functional classifications for all types of recreation trails as well as a system for determining jurisdictional control over trails. Levels of jurisdiction may be vested in the state, counties, cities, and private organizations.

2. *a.* The state department of transportation may enter into contracts for the preparation of the trails plan. The department shall involve the department of natural resources and the economic development authority in the preparation of the plan. The recommendations and comments of organizations representing different types of trail users and others with interests in this program shall also be incorporated in the preparation of the trails plan and shall be submitted with the plan to the general assembly. Existing trail projects involving acquisition or development may receive funding prior to the completion of the trails plan.

b. The department shall give priority to funding the acquisition and development of trail portions which will complete segments of existing trails. The department shall give preference to the acquisition of trail routes which use existing or abandoned railroad right-of-ways, river valleys, and natural greenbelts. Multiple recreational use of routes for trails, other forms of transportation, utilities, and other uses compatible with trails shall be given priority.

c. The department may acquire property by negotiated purchase and hold title to property for development of trails. The department may enter into agreements with other state agencies, political subdivisions of the state, and private organizations for the planning, acquisition, development, promotion, management, operations, and maintenance of recreation trails.

3. The department may adopt rules under chapter 17A to carry out a trails program.

4. To recommend acquisition of areas for dedication as preserves subject to approval by the natural resource commission.
5. To recommend dedication as preserves, areas owned by other public agencies, private groups, and individuals.
6. To make surveys and maintain registries and records of preserves and other areas of educational or scientific value and of habitats for rare and endangered species of plants and animals in the state.
7. To promote research and investigations, carry on interpretive programs and publish and disseminate information pertaining to preserves and related areas of educational or scientific value.
8. To promote the establishment and protection of, and advise in the management of, wild parks and other areas of educational or scientific value and otherwise foster and aid in the preservation of natural conditions elsewhere than in preserves.
9. To design and control the use of official state preserve signs and recommend to the state department of transportation locations for state preserve signs.
10. To submit to the governor and the legislature a report before January 15, 1967, and every two years thereafter which shall account for each preserve in the system and make such other reports and recommendations as it may deem necessary.
11. To prepare and recommend a budget, for inclusion as a line item money request in the departmental budget, for appropriation from the state general fund.

465C.9 Articles of dedication.

1. The public agency or private owner shall complete articles of dedication on forms approved by the commission. When the articles of dedication have been approved by the governor, the commission shall record them with the county recorder for the county or counties in which the area is located.
2. The articles of dedication may contain restrictions on development, sale, transfer, method of management, public access, and commercial or other use, and may contain such other provisions as may be necessary to further the purposes of this chapter. The articles may define the respective jurisdictions of the owner or operating agency and the commission. The articles may provide procedures to be applied in case of violation of the dedication. The articles may recognize reversionary rights. The articles may vary in provisions from one preserve to another in accordance with differences in relative conditions.

465C.11 Area held in trust.

1. An area designated as a preserve within the system is hereby declared put to its highest, best, and most important use for public benefit. It shall be held in trust and shall not be alienated except to another public use upon a finding by the commission of imperative and unavoidable public necessity and with the approval of the general assembly by concurrent resolution and the governor. The commission's interest or interests in any area designated as a preserve shall not be taken under the condemnation statutes of this state without such a finding of imperative and unavoidable public necessity by the commission, and with the consent of the general assembly by concurrent resolution and the governor.

2. The commission, with the approval of the governor, may enter into amendments to any articles of dedication upon its finding that such amendment will not permit an impairment, disturbance, or development of the area inconsistent with the purposes of this chapter.

3. Before the commission shall make a finding of imperative and unavoidable public necessity, or shall enter into any amendment to articles of dedication, the commission shall provide notice of such proposal and opportunity for any person to be heard. Such notice shall be published at least once in a newspaper with a general circulation in the county or counties wherein the area directly affected is situated, and mailed within ten days of such published notice to all persons who have requested notice of all such proposed actions. Each notice shall set forth the substance of the proposed action and describe, with or without legal description, the area affected, and shall set forth a place and time not less than sixty days thence for all persons desiring to be heard to have reasonable opportunity to be heard prior to the finding of the commission.

1. Nothing contained in this chapter shall be construed as interfering with the purposes stated in the establishment of or pertaining to any state or local park, preserve, wildlife refuge, or other area or the proper management and development thereof except that any agency administering any area designated as a nature preserve under the system shall be responsible for preserving the natural character of the area in accordance with the articles of dedication.

2. Designation of an area as a preserve within the system shall not void or replace any protected status under law which the area would have were it not so designated.

466.1 Short title.

This chapter shall be known and may be cited as *"Initiative on Improving Our Watershed Attributes (I on IOWA)"*.

2000 Acts, ch 1068, §1

466.2 Legislative goal.

The goal of this chapter is to develop a comprehensive water quality program that will result in water quality improvements while reducing proposed regulatory impacts. The program shall use information, education, monitoring, technical assistance, data gathering and evaluation, incentives, and more efficient issuance of permits. The program is expected to have a menu of initiatives and approaches to appeal to a broad audience of participants and shall be coordinated so that individual initiatives work toward the objective of improved water quality. The departments of agriculture and land stewardship and natural resources shall work cooperatively with federal agencies to obtain waivers and changes in rules and procedures at national and state levels to improve the federal programs' environmental and economic performance for Iowans. State agencies shall collaborate with other state agencies to attain the overall goal of improved water quality. The state department of transportation and the department of natural resources shall collaborate to provide for the preservation of topsoil, erosion control, water impoundment during highway construction and reconstruction, and restoration and management of roadside right-of-way for prairie restoration, wildlife habitat, and erosion control.

2000 Acts, ch 1068, §2

466.3 Iowa clean water award.

An Iowa clean water award is created. The governor and the general assembly shall give the award annually to a city or other political subdivision which has met criteria established by the department of natural resources and the department of agriculture and land stewardship identifying exemplary efforts to improve water quality within its jurisdiction.

2000 Acts, ch 1068, §3

UNOFFICIAL VERSION: 2021 ANNUAL RELEASE

466.4 Conservation buffer strip program.

1. As used in this section, *"conservation buffer strip"* means a riparian buffer, filter strip, waterway, contour buffer strip, shallow water area for wildlife, field border, or any vegetative barrier on private land that meets the criteria established by the United States department of agriculture, natural resources conservation service.

2. *a.* The department of agriculture and land stewardship, in consultation with the department of natural resources, shall establish a program to accelerate the United States department of agriculture's program to install conservation buffer strips in this state.

b. The department of agriculture and land stewardship shall request waivers from the United States department of agriculture to initiate projects that reward landowners maintaining current conservation practices. The goal of the projects is to discourage the destruction of existing conservation buffer strips and to monetarily reward landowners who maintain quality conservation practices. If the waivers are granted, up to twenty-five percent of the program resources shall be committed to establishing projects.

c. The department of agriculture and land stewardship shall request a waiver from the United States department of agriculture for the purpose of establishing that a person who is subject to a twenty-five percent reduction in conservation buffer strip payments due to grazing shall be allowed ninety days to graze animals.

d. The department of natural resources shall establish a prairie seed harvest program to assist in the restoration of prairies and provide for private land stewardship and public resource management through assistance with the implementation of buffer and filter strip practices, and public or private habitat development and management. The department shall carry out these efforts through landowner contacts and cooperation with private and public organizations.

e. The five-year goal of the conservation buffer strip program shall be to meet the objective of water quality improvement by enrolling an additional four hundred seven thousand five hundred acres.

2000 Acts, ch 1068, §4
Referred to in §461.34

466.5 Conservation reserve enhancement program.

1. A conservation reserve enhancement program is established within the department of agriculture and land stewardship to restore or construct wetlands for the purposes of intercepting tile line runoff, reducing nutrient loss, improving water quality, and enhancing agricultural production practices. The program shall be directed primarily, but not exclusively, toward the tile-drained areas of the state.

2. The department of agriculture and land stewardship shall request the assistance of and consult with the United States department of agriculture's natural resources conservation service and farm service agency to implement the conservation reserve enhancement program. The department shall also consult with county boards of supervisors, county conservation boards, drainage district representatives, department of natural resources, and soil and water conservation districts affected by the implementation of the conservation reserve enhancement program. The department shall also collaborate with other public agencies and private organizations to develop wetland habitat and related projects to improve water quality.

3. The department of agriculture and land stewardship shall maintain a record of all wetlands established pursuant to the conservation reserve enhancement program including any conditions that may apply to the landowner's right to remove the wetland after the provisions of the conservation reserve enhancement program contract or easement are concluded.

4. When establishing a wetland under this section, the department of agriculture and land stewardship shall be governed by the following requirements:

a. Wetland construction or restoration shall not damage the value of property in any public or private drainage system without the property owner's consent.

b. Wetland construction or restoration shall improve water quality and provide aesthetic and habitat benefits.

UNOFFICIAL VERSION
PRE-EARLY RELEASE

c. Wetland construction or restoration under this section may be used to mitigate wetland removal by the landowner if it meets the requirements of federal agencies with wetland jurisdictional authorities. Where practicable, priority shall be given to mitigating wetland removal within the same United States geological survey hydrologic unit code 8 watershed, but a watershed confines shall not limit the use of duly authorized wetland mitigation banks.

5. The five-year goal of the conservation reserve enhancement program is the establishment of thirty-two thousand five hundred acres of wetlands.

466.6 Water quality monitoring.

The department of natural resources shall operate water quality monitoring stations for the purpose of gathering information and data to establish benchmarks for water quality in this state.

2000 Acts, ch 1068, §6

466.7 Water quality protection program.

1. The department of agriculture and land stewardship shall implement, in conjunction with the federal government and other entities, a program that provides multiobjective resource protections for flood control, water quality, erosion control, and natural resource conservation.

2. The department of agriculture and land stewardship shall implement a statewide, voluntary farm management demonstration program to demonstrate the effectiveness and adaptability of emerging practices in agronomy that protect water resources and provide other environmental benefits. A demonstration program under this subsection may complement, but shall not duplicate, projects conducted by Iowa state university extension service. The demonstration program shall be designed to concentrate on management techniques in both the livestock and crop genres and shall be offered to farm operators through an educational setting and demonstration projects. The demonstration program shall be offered in conjunction with the community colleges, Iowa state university, and private farmer demonstrations. Continuing education units shall be offered. The educational program shall be offered at no cost to farm operators who file a schedule F with the internal revenue service and do not have permitted livestock facilities or are certified under a manure management plan.

3. The department of agriculture and land stewardship shall provide financial assistance for the establishment of permanent soil and water conservation practices.

4. The department of natural resources shall provide local watershed managers with geographic information system data for their use in developing, monitoring, and displaying results of their watershed work. The local watershed data shall be considered public records and are accessible to the public pursuant to chapter 22.

5. The department of natural resources shall develop a program that provides support to local volunteer management efforts to the different programs concerned with water quality. The department shall assist in coordinating and tracking of the volunteer component of these programs to increase efficiency and avoid duplication of efforts in water quality monitoring and watershed improvement.

6. The department of natural resources shall provide for activities supporting the analysis of water quality monitoring data for trends and for the preparation and presentation of data to the public.

7. The department of natural resources shall contract to assist its staff with the review of national pollutant discharge elimination system permits.

8. The department of natural resources shall expand floodplain protection education to better inform local officials that make decisions with regard to floodplain management.

9. The department of natural resources shall continue the establishment of an effective and efficient method of developing a total maximum daily load program, based on

466.8 On-site wastewater systems assistance program.

1. The department of natural resources shall establish an on-site wastewater systems assistance program for the purpose of providing low-interest loans to homeowners for improving on-site wastewater disposal systems.

2. The environmental protection commission shall adopt rules for carrying out the program including but not limited to criteria for homeowner participation, the methods used to provide loans, and financing terms and limits.

3. The department may make and execute agreements with public or private entities, including lending institutions as defined in section 12.32, as required to administer the program.

4. Assistance provided to homeowners shall not be used to pay the nonfederal share of the cost of any wastewater system projects receiving grants under the federal Clean Water Act, 33 U.S.C. §1381 – 1387.

466.9 On-site wastewater systems assistance fund.

1. An on-site wastewater systems assistance fund is established as a separate fund in the state treasury under the control of the department of natural resources. Moneys in the fund are appropriated to the department of natural resources for the exclusive purpose of supporting and administering the on-site wastewater systems assistance program as established in section 466.8.

2. The fund shall consist of all of the following:

a. Moneys appropriated to the department by the general assembly for deposit in the fund or to carry out the purposes of the on-site wastewater systems assistance program.

b. Moneys provided to the department by the federal government to carry out the purpose of administering the programs, policies, and undertakings authorized in the federal Clean Water Act, 33 U.S.C. §1381 – 1387.

c. Moneys collected by the department pursuant to loan agreements from homeowners receiving loans under the on-site wastewater systems assistance program.

d. Any other moneys obtained or accepted by the department for deposit in the fund.

3. *a.* The fund shall consist of the following accounts:

(1) The financing account which shall be used for the exclusive purpose of providing financing to homeowners for improving on-site wastewater systems under the on-site wastewater systems assistance program.

(2) The administration account which shall be used by the department to defray expenses associated with carrying out the on-site wastewater systems assistance program.

b. Of all moneys deposited into the fund each year, the department shall credit at least ninety-six percent of the moneys to the financing account and any remaining moneys to the administration account.

4. The moneys in the fund are not considered part of the general fund of the state, and in determining a general fund balance shall not be included in the general fund of the state. The moneys in the fund are not subject to section 8.33 and shall not be transferred, used, obligated, appropriated, or otherwise encumbered except as provided in this section. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys deposited in the fund shall be credited to the fund.

UNOFFICIAL VERSION: 2027 EARLY RELEASE

SUBCHAPTER I

SURFACE WATER PROTECTION AND FLOOD MITIGATION

466B.1 Short title.

This chapter shall be known and may be cited as the "*Surface Water Protection and Flood Mitigation Act*".

2008 Acts, ch 1034, §1; 2009 Acts, ch 146, §7

466B.2 Definitions.

For the purposes of this chapter, unless the context otherwise requires:

1. "*Council*" means the water resources coordinating council created in section 466B.3.
2. "*Iowa nutrient reduction strategy*" means the same as defined in section 455B.171.
3. "*Political subdivision*" means any of the following:

a. A city.

b. A county.

c. A soil and water conservation district described in section 161A.5.

d. A benefited recreational lake district or a water quality district or a combined district incorporated as a public entity and organized pursuant to chapter 357E.

e. A rural improvement zone established pursuant to chapter 357H.

4. *"Regional watershed"* means a watershed of hydrologic unit code scale 8.

5. *"Subwatershed"* means a watershed of hydrologic unit code scale 12 or smaller.

6. *"Watershed"* means a geographic area in which surface water is drained by rivers, streams, or other bodies of water.

2008 Acts, ch 1034, §2; 2013 Acts, ch 132, §57; 2016 Acts, ch 1020, §1; 2018 Acts, ch 1152, §9, 10; 2020 Acts, ch 1063, §250

466B.3 Water resources coordinating council.

1. *Council established.* A water resources coordinating council is established within the department of agriculture and land stewardship.

2. *Purpose.* The purpose of the council shall be to preserve and protect Iowa's water resources, and to coordinate the management of those resources in a sustainable and fiscally responsible manner. In the pursuit of this purpose, the council shall use an integrated approach to water resource management, recognizing that insufficiencies exist in current approaches and practices, as well as in funding sources and the utilization of funds. The integrated approach used by the council shall attempt to overcome old categories, labels, and obstacles with the primary goal of managing the state's water resources comprehensively rather than compartmentally.

3. *Accountability.* The success of the council's efforts shall ultimately be measured by the following outcomes:

a. Whether the citizens of Iowa can more easily organize local watershed projects.

b. Whether the citizens of Iowa can more easily access available funds and water quality program resources.

c. Whether the funds, programs, and regulatory efforts coordinated by the council eventually result in a long-term improvement to the quality of surface water in Iowa. To evaluate the progress achieved over time toward the goals of the Iowa nutrient reduction strategy and the United States environmental protection agency gulf hypoxia action plan, the baseline condition shall be calculated for the time period from 1980 to 1996.

d. Whether the potential for flood damage in each watershed in the state has been reduced.

4. *Membership.* The council shall consist of the following members:

a. The director of the department of natural resources or the director's designee.

b. The director of the division of soil conservation and water quality within the department of agriculture and land stewardship or the director's designee.

c. The director of health and human services or the director's designee.

d. The director of the department of homeland security and emergency management or the director's designee.

e. The dean of the college of agriculture and life sciences at Iowa state university or the dean's designee.

f. The dean of the college of public health at the university of Iowa or the dean's designee.

g. The dean of the college of natural sciences at the university of northern Iowa or the dean's designee.

h. The director of transportation or the director's designee.

i. The director of the economic development authority or the director's designee.

j. The director of the Iowa finance authority or the director's designee.

k. The secretary of agriculture, who shall be the chairperson, or the secretary's designee. As the chairperson, and in order to further the coordination efforts of the council, the secretary may invite representatives from any other public agency, private organization, business, citizen group, or nonprofit entity to give public input at council meetings, provided the entity has an interest in the coordinated management of land resources, soil

UNOFFICIAL VERSION 2021 EARLY RELEASE

conservation, flood mitigation, or water quality. The secretary shall also invite and solicit advice from the following:

(1) The director of the Iowa water science center of the United States geological survey or the director's designee.

(2) The state conservationist from the Iowa office of the United States department of agriculture's natural resources conservation service or the state conservationist's designee.

(3) The executive director for Iowa from the United States department of agriculture's farm services agency or the executive director's designee.

(4) The state director for Iowa from the United States department of agriculture's office of rural development or the state director's designee.

(5) The director of region seven of the United States environmental protection agency or the director's designee.

(6) The corps commander from the United States army corps of engineers' Rock Island district or the commander's designee.

l. The dean of the college of engineering at the university of Iowa or the dean's designee.

5. *Meetings and quorum.*

a. The council shall be convened by the secretary of agriculture as necessary.

b. A majority of the members fixed by statute shall constitute a quorum, and any action taken by the council must be adopted by a majority of the voting membership.

6. *Duties and powers.*

a. The council shall engage in the regular coordination of water resource-related functions, including protection strategies, planning, assessment, prioritization, review, concurrence, advocacy, and education.

b. In coordinating water resource-related functions, the council may do all of the following:

(1) Consider the steps necessary to address the planning, management, and implementation of water resource improvement.

(2) Identify ways to facilitate communication and participation among all water resource stakeholders, including owners of land in Iowa whether they are residents or not.

(3) Identify inefficiencies in current programs and recommend ways to eliminate duplicative services.

(4) Improve the availability and management of water resource information.

(5) Provide incentives for, and recognition of, environmental excellence.

(6) Regularly assess and identify measurable improvements in water quality.

(7) Oversee the complete, statewide regional watershed assessment, prioritization, and planning process described in section 466B.5, including a short-term interim program and a long-term comprehensive state water quality and quantity plan updated every five years as provided in sections 466B.5 and 466B.6.

(8) Develop a protocol which identifies high-priority watersheds, including local and community-based subwatersheds, and which appropriately directs resources to those watersheds.

(9) Review best available technologies on a regular basis, so that investments of time and program resources can be prioritized and directed to projects that will best and most effectively improve water quality and reduce flood damage within regional and community subwatersheds.

(10) Review voluntary, performance-based standards for water resource management, land management, and soil conservation.

(11) Develop a protocol for assigning multiagency teams to regional watersheds and local subwatersheds and guide those teams in the coordination of citizen and agency activities within those watersheds.

(12) Engage in dialogue with, and pursue efforts to make cooperative agreements with, other states when a watershed extends beyond borders of this state.

(13) Enter into agreements and make contracts with third parties for the performance of duties imposed by this chapter.

(14) Prepare a memorandum of understanding identifying the roles and responsibilities of council members in the coordination of the implementation of community-based

UNOFFICIAL VERSION
2021 EARLY RELEASE

subwatershed improvement plans. The memorandum shall be a commitment by the agencies participating in council meetings to reach consensus regarding communications with subwatershed planning units.

c. The council shall develop recommendations for policies and funding promoting a watershed management approach to reduce the adverse impact of future flooding on this state's residents, businesses, communities, and soil and water quality. The council shall consider policies and funding options for various strategies to reduce the impact of flooding including but not limited to additional floodplain regulation; wetland protection, restoration, and construction; the promulgation and implementation of statewide storm water management standards; conservation easements and other land management; perennial ground cover and other agricultural conservation practices; pervious pavement, bioswales, and other urban conservation practices; and permanent or temporary water retention structures. In developing recommendations, the council shall consult with hydrological and land use experts, representatives of cities, counties, drainage and levee districts, agricultural interests, and soil and water conservation districts, and other urban and regional planning experts.

Referred to in §466B.2

466B.4 Legislative findings and marketing campaign.

1. *Findings.* The general assembly finds all of the following:

a. Most Iowans desire to have improved water quality throughout the state, but many Iowans do not understand the problems with local water quality.

b. Most Iowans believe that the protection of fish and wildlife benefits all Iowans.

c. The benefits of improving water quality could far outweigh the costs of implementing mechanisms to improve it.

d. Most Iowans look to some level of government for the protection of water resources rather than to themselves and their own actions. However, it is not possible or desirable for state government to take complete control and responsibility for water quality.

e. In addition to the use of Iowa land for agriculture and economic development, the land in watersheds and floodplains should be managed to reduce flooding, reduce flood damage, ameliorate the effects of drought, improve water quality, improve habitat and the natural environment, increase renewable energy production, and enhance recreational opportunities.

2. *Marketing campaign.* The water resources coordinating council shall develop a marketing campaign to educate Iowans about the need to take personal responsibility for the quality and quantity of water in their local watersheds. The emphasis of the campaign shall be that not only is everyone responsible for clean water, but that everyone benefits from it as well, and that everyone is responsible for and benefits from reducing the risk for flooding and mitigating possible future flood damage. The goals of the campaign shall be to convince Iowans to take personal responsibility for clean water and reducing the risk of flooding and to equip them with the tools necessary to effect change through local water quality improvement projects and better floodplain management and flood risk programs.

3. *Contingent on funding.* The duties imposed in subsection 2 are contingent upon the receipt of funding sufficient to cover the costs associated with the marketing campaign.

466B.5 Regional watershed assessment, planning, and prioritization.

1. *Regional watershed assessment program.* The department of natural resources shall create a regional watershed assessment program. The program shall assess all the regional watersheds in the state.

a. The statewide assessment shall be conducted at the rate of approximately one-fifth of the watersheds per year, and an initial full assessment shall be completed within five years.

UNOFFICIAL VERSION NOT YET RELEASED

Thereafter, the department of natural resources shall review and update the assessments on a regular basis.

b. Each regional watershed assessment shall provide a summary of the overall condition of the watershed. The information provided in the summary may include land use patterns, soil types, slopes, management practices, stream conditions, and both point and nonpoint source impairments.

c. In conducting a regional watershed assessment, the department of natural resources may provide opportunities for local data collection and input into the assessment process.

2. *Planning and prioritization.* In conducting the regional watershed assessment program, the department of natural resources shall provide hydrological and geological information sufficient for the water resources coordinating council to prioritize watersheds statewide and for the various communities in those watersheds to plan remedial efforts in their local communities and subwatersheds.

3. *Report to council.* Upon completion of the statewide assessment, and upon updating the assessments, the department of natural resources shall report the results of the assessment to the council and the general assembly, and shall make the report publicly available.

466B.6 Community-based subwatershed improvement plans.

1. *Facilitation of community-based subwatershed plans.* After the department of natural resources' completion of the initial regional watershed assessment, and after the council's prioritization of the regional watersheds, the council shall designate one or more of the agencies represented on the council to facilitate the development and implementation of local, community-based subwatershed improvement plans.

2. *Assessment, planning, prioritization, and implementation.* In facilitating the development of community-based subwatershed improvement plans, the agency or agencies designated by the council shall, based on the results of the regional watershed assessment program, identify critical subwatersheds within priority regional watersheds and recruit communities, citizen groups, local governmental entities, or other stakeholders to engage in the assessment, planning, prioritization, and implementation of a local community-based subwatershed improvement plan. The agency or agencies designated by the council may assist in the formation of a group of initial local community-based subwatershed improvement plans that can be implemented as pilot projects, in order to develop an effective process that can be replicated across the state.

Referred to in §466B.3

466B.7 Community-based subwatershed monitoring.

1. *Monitoring assistance.* After completion of the statewide regional watershed assessment and prioritization, and throughout the implementation of local community-based subwatershed improvement plans, the department of natural resources shall assist communities with the monitoring and measurement of local subwatersheds. The monitoring and measurement shall be designed for the particular needs of individual communities.

2. *Data collection and use.* Local communities in which the department of natural resources conducts subwatershed monitoring shall use the information to support subwatershed planning activities, do local data collection, and identify priority areas needing additional resources. Local communities shall also collect data over time and use the data to evaluate the impacts of their management efforts.

2008 Acts, ch 1034, §7; 2011 Acts, ch 119, §8

466B.8 Wastewater and storm water infrastructure assessment.

The department of natural resources shall assess and prioritize communities within a watershed presenting the greatest level of risk to water quality and the health of residents. This prioritization shall include both sewered and unsewered communities.

466B.9 Rulemaking authority.

The department of natural resources and the department of agriculture and land stewardship shall have the power and authority reasonably necessary to carry out the duties imposed by this chapter. As to the department of natural resources, this includes rulemaking authority to carry out the regional watershed assessment program described in section 466B.5. As to the department of agriculture and land stewardship, this includes rulemaking authority to assist in the implementation of community-based subwatershed improvement plans.

2008 Acts, ch 1034, §9; 2011 Acts, ch 119, §10

466B.10 Floodplain managers.

The council shall encourage and support the formation of a chapter of the association of state floodplain managers in Iowa that would provide a vehicle for local floodplain managers and floodplain planners to further pursue professional educational opportunities.

2010 Acts, ch 1193, §128

466B.11 Flood education.

The Iowa state university agricultural extension service, the council, and agency members of the council shall, to the extent feasible, work with floodplain and hydrology experts to educate the general public about floodplains, flood risks, and basic floodplain management principles. This educational effort shall include developing educational materials and programs in consultation with floodplain experts.

2010 Acts, ch 1193, §129

466B.12 through 466B.20 Reserved.

SUBCHAPTER II

WATERSHED MANAGEMENT AUTHORITIES

466B.21 Definitions.

As used in this subchapter, unless the context otherwise requires:

1. *"Authority"* means a watershed management authority created pursuant to a chapter 28E agreement as provided in this subchapter.
2. *"Board"* means a board of directors of a watershed management authority.

2010 Acts, ch 1116, §3; 2013 Acts, ch 132, §58

466B.22 Watershed management authorities created.

1. Two or more political subdivisions may create, by chapter 28E agreement, a watershed management authority pursuant to this subchapter. The participating political subdivisions must be located in the same United States geological survey hydrologic unit code 8 watershed. All political subdivisions within a watershed must be notified within thirty days prior to organization of any watershed management authority within the watershed, and provided the opportunity to participate.
2. The chapter 28E agreement shall include a map showing the area and boundaries of the authority.
3. A political subdivision may participate in more than one authority created pursuant to this subchapter.
4. A political subdivision is not required to participate in a watershed management authority or be a party to a chapter 28E agreement under this subchapter.
5. If a portion of a United States geological survey hydrologic unit code 8 watershed is located outside of this state, any political subdivision in such a watershed may participate in any watershed management authority which includes the county in which the political subdivision is located.

UNOFFICIAL VERSION: 2021 EARLY RELEASE

466B.23 Duties.

A watershed management authority may perform all of the following duties:

1. Assess the flood risks in the watershed.
2. Assess the water quality in the watershed.
3. Assess options for reducing flood risk and improving water quality in the watershed.
4. Monitor federal flood risk planning and activities.
5. Educate residents of the watershed area regarding water quality and flood risks.
6. Allocate moneys made available to the authority for purposes of water quality and flood mitigation.
7. Make and enter into contracts and agreements and execute all instruments necessary or incidental to the performance of the duties of the authority. A watershed management authority shall not acquire property by eminent domain.

2010 Acts, ch 1116, §5

466B.24 Board of directors.

1. An authority shall be governed by a board of directors. Members of a board of directors of an authority shall be divided among the political subdivisions comprising the authority and shall be appointed by the respective political subdivision's elected legislative body.
2. A board of directors shall consist of one representative of each participating political subdivision. This subsection shall not apply if a chapter 28E agreement under this subchapter provides an alternative board composition method.
3. The directors shall serve staggered terms of four years. The initial board shall determine, by lot, the initial terms to be shortened and lengthened, as necessary, to achieve staggered terms. A person appointed to fill a vacancy shall be appointed in the same manner as the original appointment for the duration of the unexpired term. A director is eligible for reappointment. This subsection shall not apply if a chapter 28E agreement under this subchapter provides an alternative for the length of term, appointment, and reappointment of directors.
4. A board may provide procedures for the removal of a director who fails to attend three consecutive regular meetings of the board. If a director is so removed, a successor shall be appointed for the duration of the unexpired term of the removed director in the same manner as the original appointment. The appointing body may at any time remove a director appointed by it for misfeasance, nonfeasance, or malfeasance in office.
5. A board shall adopt bylaws and shall elect one director as chairperson and one director as vice chairperson, each for a term of two years, and shall appoint a secretary who need not be a director.
6. A majority of the membership of a board of directors shall constitute a quorum for the purpose of holding a meeting of the board. The affirmative vote of a majority of a quorum shall be necessary for any action taken by an authority unless the authority's bylaws specify those particular actions of the authority requiring a greater number of affirmative votes. A vacancy in the membership of the board shall not impair the rights of a quorum to exercise all the rights and perform all the duties of the authority.

2010 Acts, ch 1116, §6

466B.25 Activities coordination.

In all activities of a watershed management authority, the authority may coordinate its activities with the department of natural resources, the department of agriculture and land stewardship, councils of governments, public drinking water utilities, and soil and water conservation districts.

WATER QUALITY INITIATIVE — NUTRIENTS

466B.41 Definitions.

As used in this subchapter, unless the context otherwise requires:

1. *"Center"* means the Iowa nutrient research center established pursuant to section 466B.47.
2. *"Council"* means the Iowa nutrient research center advisory council established pursuant to section 466B.48.
3. *"Division"* means the division of soil conservation and water quality created within the department of agriculture and land stewardship pursuant to section 159.5.
4. *"Fund"* means the water quality initiative fund created in section 466B.45.
5. *"Nutrient"* includes nitrogen and phosphorus.

2013 Acts, ch 132, §59; 2015 Acts, ch 103, §53

466B.42 Water quality initiative.

The division shall establish a water quality initiative in order to assess and reduce nutrients in this state's watersheds, including subwatersheds and regional watersheds, and for implementing its responsibilities under the Iowa nutrient reduction strategy. The division shall establish and administer projects to reduce nutrients in surface waters from nonpoint sources in a scientific, reasonable, and cost-effective manner. The division shall utilize a pragmatic, strategic, and coordinated approach with the goal of accomplishing reductions over time. To evaluate the progress achieved over time toward the goals of the Iowa nutrient reduction strategy and the United States environmental protection agency gulf hypoxia action plan, the baseline condition shall be calculated for the time period from 1980 to 1996.

466B.43 Water quality agriculture infrastructure programs.

1. As part of the water quality initiative established pursuant to section 466B.42, the division shall administer water quality agriculture infrastructure programs created in this section.
2. The purpose of the programs is to support projects for the installation of infrastructure, including conservation structures, practices, or other measures that reduce contributing nutrient loads, associated sediment, or contaminants from sources to surface waters including but not limited to surface waters on the impaired waters list of the state that are used as a drinking water supply. The programs shall be administered in a manner that is consistent with the Iowa nutrient reduction strategy.
3. An edge-of-field infrastructure program is created. The program shall support projects located on agricultural land, which may include demonstration projects, that capture or filter nutrients entering into a surface water. The program's projects shall be limited to infrastructure designed and installed for use over multiple years, including but not limited to wetlands, bioreactor systems, saturated buffers, or land use changes. The program shall be financed on a cost-share basis.
4. An in-field infrastructure program is created. The program shall support projects

UNOFFICIAL VERSION: 2027 EARLY RELEASE

located on agricultural land, which may include demonstration projects, that decrease erosion and precipitation-induced surface runoff, increase water infiltration rates, and increase soil sustainability. The program's projects shall be limited to infrastructure designed and installed for use over multiple years, including but not limited to structures, terraces, and waterways located on cropland or pastureland, and including but not limited to soil conservation or erosion control structures or managed drainage systems. The program shall be financed on a cost-share basis.

5. Any state moneys used to finance a project under a water quality agriculture infrastructure program shall be administered according to an agreement entered into by the division and the owner of the land where the infrastructure is to be installed. The agreement shall include standard terms and conditions for the receipt of program moneys and any other terms and conditions the division deems necessary or convenient for the efficient administration of the project or program. The division may support multiple installations of infrastructure on a single parcel of land. The division may also combine programs if cost effective. The division may annually use an amount of not more than four percent of the moneys used to support each program for administrative purposes.

6. By October 1 of each year, the division shall submit a report to the governor and the general assembly itemizing expenditures, by hydrologic unit code 8 watershed, under the programs, if any, during the previous fiscal year.

7. Any information obtained by the division identifying a person holding a legal interest in agricultural land or specific agricultural land shall be a confidential record under section 22.7.

466B.44 Water quality urban infrastructure program.

1. As part of the water quality initiative established pursuant to section 466B.42, the division shall administer a water quality urban infrastructure program.

2. The purpose of the program is to support watershed projects and advance implementation of the Iowa nutrient reduction strategy, which program support may include demonstration projects that decrease erosion, precipitation-induced surface runoff, and storm water discharges and that increase water infiltration rates. The program's projects shall be based on Iowa's storm water management manual published by the department of natural resources.

3. The program shall be financed on a cost-share basis or through cooperative agreements with watershed projects funded through section 455B.199 whose project activities fall outside the territorial boundaries of a city.

4. Any state moneys used to finance a project under a water quality urban infrastructure program shall be administered according to an agreement entered into by the division and the owner of the land where the infrastructure is to be installed. The agreement shall include standard terms and conditions for the receipt of program moneys and any other terms and conditions the division deems necessary or convenient for the efficient administration of the project or program. The division may support multiple installations of infrastructure on a single parcel of land. The division may annually use an amount of not more than four percent of the moneys used to support the program for administrative purposes.

5. Notwithstanding any other provision in this section to the contrary, the division may use any amount available to support the water quality urban infrastructure program to instead do any of the following:

a. Extend and support the three-year data collection of in-field agricultural practices project as enacted in 2015 Iowa Acts, ch. 132, §18.

b. Support water quality agriculture infrastructure programs created in section 466B.43, to the extent that moneys are not obligated or encumbered during a fiscal year to adequately support all urban infrastructure program projects that meet the division's requirements.

6. Notwithstanding any other provision of this section to the contrary, the division may use any amount available to support the water quality urban infrastructure program to develop and maintain an online resource displaying measurable indicators of desirable change in

water quality within the state's watersheds. These measurable indicators may include but are not limited to public and private funding inputs, involvement in water quality projects, and improvements, land use, practice adoption, calculated load reduction, and measured loads at existing monitoring stations.

7. By October 1 of each year, the division shall submit a report to the governor and the general assembly itemizing expenditures under the program, if any, during the previous fiscal year.

8. Any information obtained by the division identifying a person holding a legal interest in land or specific land shall be a confidential record under section 22.7.

466B.45 Water quality initiative fund.

1. A water quality initiative fund is created in the state treasury under the management and control of the division.

2. The fund shall include moneys appropriated by the general assembly. The fund may include other moneys available to and obtained or accepted by the division, including moneys from public or private sources.

3. Moneys in the fund are appropriated to the division and shall be used exclusively to carry out the provisions of this subchapter as determined by the division, and shall not require further special authorization by the general assembly.

4. *a.* Notwithstanding section 12C.7, interest or earnings on moneys in the fund shall be credited to the fund.

b. Notwithstanding section 8.33, moneys appropriated or otherwise credited to the fund for a fiscal year shall not revert to the fund from which appropriated at the close of the fiscal year for which the appropriation was made but shall remain available for expenditure for the purposes designated until the close of the fiscal year that begins three years from the beginning date of the fiscal year for which the appropriation was made.

2. The fund shall include all of the following:

a. Moneys appropriated by the general assembly.

b. Moneys appropriated from the agriculture management account of the groundwater protection fund pursuant to section 455E.11, subsection 2, paragraph "*b*", subparagraph (2), subparagraph division (a).

c. Moneys assessed and collected by or on behalf of the department of natural resources to be credited to the fund as provided in sections 455B.109, 459.602, 459.603, 459.604, 459A.502, and 459B.402.

d. Moneys accepted by the center from public or private sources.

3. Moneys in the fund are appropriated to the center and shall be used exclusively by the center to carry out its purpose as described in section 466B.47.

4. *a.* Notwithstanding section 12C.7, interest or earnings on moneys in the fund shall be credited to the fund.

b. The moneys credited to the fund are not subject to section 8.33 and shall not be transferred, used, obligated, appropriated, or otherwise encumbered except as provided in this section.

1. The state board of regents shall establish and maintain in Ames as part of Iowa state university of science and technology an Iowa nutrient research center advisory council.

2. The council shall consist of the following members:

a. The dean of the college of agriculture and life sciences of Iowa state university of science and technology, or the dean's designee.

b. The director of the Iowa state university of science and technology extension service, or the director's designee.

c. A representative of the IIHR — hydroscience and engineering within the college of engineering of the university of Iowa who shall be appointed by the president of the university.

d. A person knowledgeable in an area related to nutrient research who shall be appointed by the president of the university of northern Iowa.

e. A person knowledgeable in an area related to nutrient research who shall be appointed by the state association of private colleges and universities.

f. The secretary of agriculture or the secretary's designee.

g. The director of the division or the director's designee.

h. The director of the department of natural resources, or the director's designee.

3. *a.* An appointed or designated member of the council shall serve at the pleasure of the person making the appointment or designation.

b. A majority of the members of the council as provided in subsection 2 constitutes a quorum. Any action taken by the council must be adopted by the affirmative vote of a majority of its members present, except that a lesser number may adjourn a meeting. The majority shall not include any member who has a conflict of interest and a statement by a member of a conflict of interest shall be conclusive for this purpose.

c. The council shall elect a chairperson and any other officers from the membership of the council as the council determines necessary. An officer shall serve for a term required by rules adopted by the council. A vacancy in the membership does not impair the right of a quorum to exercise all rights and perform all duties of the council.

d. The council shall adopt rules that it determines are necessary for the conduct of business.

e. Only the member appointed by the state association of private colleges and universities is eligible for reimbursement of actual expenses as provided in section 7E.6. However, no member is eligible for a payment of a per diem.

4. The council shall function on a continuing basis for the study and recommendation of solutions for consideration by the Iowa nutrient research center in carrying out its purpose as provided in section 466B.47.

IOWA FLOOD CENTER

466C.1 Iowa flood center.

466C.1 Iowa flood center.

1. The state board of regents shall establish and maintain in Iowa City as a part of the state university of Iowa an Iowa flood center. In conducting the activities of this chapter, the center shall work cooperatively with the department of natural resources, the department of agriculture and land stewardship, the water resources coordinating council, and other state and federal agencies.

2. The Iowa flood center shall have all of the following purposes:

a. To develop hydrologic models for physically-based flood frequency estimation and real-time forecasting of floods, including hydraulic models of floodplain inundation mapping.

b. To establish community-based programs to improve flood monitoring and prediction along Iowa's major waterways and to support ongoing flood research.

c. To share resources and expertise of the Iowa flood center.

d. To assist in the development of a workforce in the state knowledgeable regarding flood research, prediction, and mitigation strategies.

SUBCHAPTER I

ESTABLISHMENT

Referred to in §331.382, 468.393, 468.397, 468.405

PART 1

GENERAL

Referred to in §331.502, 331.552, 350.4, 358.23, 461A.76, 468.207, 468.211, 468.240, 468.269, 468.273, 468.283, 468.284, 468.288, 468.292, 468.297, 468.308, 468.335, 468.345, 468.529

468.1 Jurisdiction to establish.

The board of supervisors of any county shall have jurisdiction, power, and authority at any regular, special, or adjourned session, to establish a drainage district or districts, and to locate and establish levees, and cause to be constructed as hereinafter provided any levee, ditch, drain, or watercourse, or settling basins in connection therewith, or to straighten, widen,

deepen, or change any natural watercourse, in such county, whenever the same will be of public utility or conducive to the public health, convenience or welfare.

[C73, §1207; C97, §1939; S13, §1989-a1; C24, 27, 31, 35, 39, §**7421;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.1]

89 Acts, ch 126, §2

CS89, §468.1

468.2 Presumption and construction of laws.

1. The drainage of surface waters from agricultural lands and all other lands, including state-owned lakes and wetlands, or the protection of such lands from overflow shall be presumed to be a public benefit and conducive to the public health, convenience, and welfare.

2. The provisions of this subchapter and all other laws for the drainage and protection from overflow of agricultural or overflow lands shall be liberally construed to promote leveeing, ditching, draining, and reclamation of wet, swampy, and overflow lands.

[S13, §1989-a1, -a46; C24, 27, 31, 35, 39, §**7422, 7594;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.2, 455.182]

468.6 Number of petitioners required.

Two or more owners of lands named in the petition described in section 468.8, may file in the office of the county auditor a petition for the establishment of a levee or drainage district, including a district which involves only the straightening of a creek or river. If the district described in the petition is a subdistrict, one or more owners of land affected by the proposed improvement may petition for such district.

468.7 Request by nonpetitioners.

In the event two or more landowners included in the proposed district other than the petitioners request a classification prior to the establishment of said district, they shall file in writing their request and execute a bond as required in section 468.9 to cover the expense of such classification if the district is not established. Such written request and the bond shall be filed before the board establishes a district.

468.8 Petition.

The petition shall set forth:

UNOFFICIAL VERSION: 2023 EARLY RELEASE

1. An intelligible description, by congressional subdivision or otherwise, of the lands suggested for inclusion in the district.

2. That said lands are subject to overflow or are too wet for cultivation or subject to erosion or flood danger.

3. That the public benefit, utility, health, convenience, or welfare will be promoted by the suggested improvements.

4. The suggested starting point, route, terminus and lateral branches of the proposed improvements.

5. In the event the petitioners request a classification before the establishment of the district, the petition shall include a request that the district be classified as provided in sections 468.38 through 468.44 after the board has approved the report of the engineer as a tentative plan but before the district is finally established.

468.9 Bond.

1. There shall be filed with the petition a bond in an amount fixed and with sureties approved by the auditor, conditioned for the payment of all costs and expenses incurred in the proceedings in case the district is not finally established.

2. No preliminary expense shall be incurred before the establishment of such proposed improvement district by the board in excess of the amount of bond filed by the petitioners. In case it is necessary to incur any expense in addition to the amount of such bond, the board of supervisors shall require the filing of an additional bond by the petitioners and shall not proceed with the preliminary survey or authorize any additional expense until the additional bond is filed in a sufficient amount to cover such expense.

468.10 Engineer.

1. The board shall at its first session thereafter, regular, special, or adjourned, examine the petition and if it be found sufficient in form and substance, shall appoint a disinterested and competent civil engineer who shall give bond to the county for the use of the proposed levee or drainage district, if it be established, and if not established, for the use of the petitioners, in amount and with sureties to be approved by the auditor, and conditioned for the faithful and competent performance of the engineer's duties.

2. Any engineer employed under the provisions of this subchapter, parts 1 through 5 shall receive such compensation per diem as shall be fixed and determined by the board of supervisors.

3. The board may at any time terminate the contract with, and discharge the engineer.

4. The engineer shall keep an accurate record of the kind of work done by the engineer, the place where done, and the time engaged therein, and shall file an itemized statement thereof with the auditor. No expenses shall be incurred by the engineer except upon authority of the board, and vouchers shall be filed with the claims therefor.

468.12 Report.

1. The engineer shall make full written report to the county auditor, setting forth:

a. The starting point, route, and terminus of each ditch, drain, and levee and the character and location of all other improvements.

b. A plat and profile, showing all ditches, drains, levees, settling basins, and other improvements, the course, length, and depth of each ditch, the length, size, and depth of each drain, and the length, width, and height of each levee, through each tract of land, and the particular descriptions and acreage of the land required from each forty-acre tract or fraction thereof as right-of-way, or for settling basin or basins, together with the congressional or other description of each tract and the names of the owners thereof as shown by the transfer books in the office of the auditor. Said plat shall describe the width of the right-of-way to be taken from each forty-acre tract or fraction thereof.

c. The boundary of the proposed district, including therein by color or other designation other lands that will be benefited or otherwise affected by the proposed improvements, together with the location, size, and elevation of all lakes, ponds, and deep depressions therein.

d. Plans for the most practicable and economic place and method for passing machinery, equipment, and material required in the construction of said improvements across any highways, railroads, and other utilities within the proposed district.

e. The probable cost of the proposed improvements, together with such other facts and recommendations as the engineer shall deem material.

2. Where the proposed district contemplates as its object flood control or soil conservance the engineer shall include in the report data describing any soil conservance or flood control improvements, the nature of the improvements, and other data as prescribed by the department of natural resources.

468.13 Procedure on report — classification.

1. Upon the filing of the report of the engineer recommending the establishment of the levee or drainage district, the board shall at its first regular, adjourned, or special meeting examine and consider the same, and, if the plan is not approved the board may employ the same engineer or another disinterested engineer to report another plan or make additional examination and surveys and file an additional report covering such matters as the board may direct. Additional surveys and reports must be made in accordance with the provisions of sections 468.11 and 468.12. At any time prior to the final adoption of the plans they may be amended, and as finally adopted by the board shall be conclusive unless the action of the board in finally adopting them shall be appealed from as provided in this subchapter.

2. If the petition or other landowners requested a classification of the district prior to

UNOFFICIAL VERSION: 2021 EDITION YEAR RELEASE

establishment, the board shall order a classification as provided by sections 468.38 through 468.44 after they have approved the report of the engineer as a tentative plan. The notice of hearing provided by section 468.14 shall also include the requirements of the notice of hearing provided in section 468.45 as to this classification, and the hearing on the petition provided in section 468.21 shall also include the matters to be heard as provided in section 468.46.

3. If the board establishes the district as provided in section 468.22, the classification which is finally approved at the hearing by the board shall remain the basis of all future assessments for the purposes of said district as provided in section 468.49. The landowners shall have the same right of appeal from this classification as they would have if the petition had not requested a classification prior to establishment and the classification had been made after establishment.

468.14 Notice of hearing.

When any plan and report of the engineer has been approved by the board, such approval shall be entered of record in its proceedings as a tentative plan only for the establishment of said improvement. Thereupon it shall enter an order fixing a date for the hearing upon the petition not less than forty days from the date of the order of approval, and directing the auditor immediately to cause notice to be given to the owner of each tract of land or lot within the proposed levee or drainage district as shown by the transfer books of the auditor's office, including railway companies having right-of-way in the proposed district and to all lienholders or encumbrancers of any land within the proposed district without naming them, and also to all other persons whom it may concern, and without naming individuals all actual occupants of the land in the proposed district, of the pendency and prayer of the said petition, the favorable report thereon by the engineer, and that such report may be amended before final action, the approval thereof by the board as a tentative plan, and the day and the hour set for hearing on said petition and report, and that all claims for damages except claims for land required for right-of-way, and all objections to the establishment of said district for any reason must be made in writing and filed in the office of the auditor at or before the time set for such hearing.

468.16 Service on agent.

1. If any person, corporation, or company owning or having interest in any land or other property affected by any proposed improvement under this chapter files an instrument in writing with the auditor designating the name and post office address of the agent of the person, corporation, or company upon whom service of notice of the proceeding shall be made, the auditor shall, not less than twenty days prior to the date set for hearing upon the petition, send a copy of the notice by certified mail addressed to the agent so designated. Proof of service shall be made by affidavit of the auditor filed in the proceeding at or before the date of the hearing upon the petition, and such service shall be in lieu of all other service of notice to such persons, corporations, or companies.

2. This designation when filed shall be in force for a period of five years thereafter and shall apply to all proceedings under this chapter during such period. The person, company, or corporation making such designation shall have the right to change the agent appointed in the designation or to amend the designation in any other particular.

468.17A Unofficial notice by electronic mail.

A person entitled to receive a notice pursuant to section 468.14, 468.16, or 468.17, or a person entitled to receive a notice under another provision of this chapter by the postal service or personal service, may request that the board responsible for providing such notice to the person also send an unofficial version of the notice to the person's electronic mail address. The board may retain the electronic mail addresses of private persons for the purpose of sending those persons electronic mail under this section or any other correspondence if the person consents to receiving that correspondence by electronic mail. The electronic mail addresses retained by the board are confidential records under section 22.7. A person is not required to file an electronic mail address with a board and may demand that the person's electronic mail address be removed from the record used to send notices and other correspondence to persons as described in this section. The failure to

468.22 Establishment — further investigation.

1. *a.* The board may locate and establish the district in accordance with the recommendation of the engineer and the report and plans on file if the board finds all of the following:

(1) That the petition complies with the requirements of law in form and substance.

(2) That the improvement would be conducive to the public health, convenience, welfare, benefit, or utility.

(3) That the cost of the improvement is not excessive.

(4) That no claim has been filed for damages.

b. The board may refuse to establish the proposed district if it deem best, or it may direct the engineer or another one employed for that purpose to make further examinations, surveys, plats, profiles, and reports for the modification of said plans, or for new plans in accordance with sections 468.11 and 468.12, and continue further hearing to a fixed date. All parties over whom the board then has jurisdiction shall take notice of such further hearing; but any new parties rendered necessary by any modification or change of plans shall be served with notice in the same manner as for the original establishment of a district.

2. The county auditor shall appoint three appraisers as provided for in section 468.24 to assess the value of the right-of-way required for open ditches or other improvements.

as shown by plat of engineer, and shall, at least five days before the date fixed by the board to hear and determine the same, file with the county auditor reports in writing, showing the amount of damage sustained by each claimant. Should the report not be filed in time, or should any good cause for delay exist, the board may postpone the time of final action on the subject, and, if necessary, the auditor may appoint other appraisers.

468.27 Dismissal or establishment — permanent easement.

1. The board shall at the meeting, or at an adjourned session of the meeting, consider the costs of construction of the improvement as shown by the reports of the engineer and the amount of damages and compensation awarded to all claimants. If, in the board's opinion, the costs of construction and amount of damages awarded create a greater burden than should justly be borne by the lands benefited by the improvement, the board shall then dismiss the petition and assess the costs and expenses to the petitioners and their sureties. However, if the board finds that the cost and expense is not a greater burden than should be justly borne by the land benefited by the improvement, then the board shall finally and permanently locate and establish the district and improvement.

2. Following the establishment of the district, the drainage district is deemed to have acquired by permanent easement all rights-of-way for drainage district ditches, tile lines, settling basins and other improvements, unless the rights-of-way are acquired by fee simple, in the dimensions shown on the survey and report made in compliance with sections 468.11 and 468.12 or as shown on the permanent survey, plat, and profile, if one is made. Upon the establishment of the district, the petitioners shall file with the county auditor the survey and report or permanent survey, plat, and profile, as set forth in sections 468.172 and 468.173. This filing constitutes constructive notice to all persons of the rights conferred by this section. The permanent easement includes the right of ingress and egress across adjoining land and the right of access for maintenance, repair, improvement, and inspection. The owner or lessee shall be reimbursed for any crop damages incurred in the maintenance, repair, improvement, and inspection except within the right-of-way of the drainage district.

3. *a.* When the county auditor first receives either the survey and report, or a permanent survey, plat, and profile, as provided in subsection 2, the county auditor shall prepare and file with the county recorder a district parcel record that identifies all parcels contained within the district that is part of the county. The parcel record filed by the county auditor with the county recorder must also include the legal description, parcel identification number, if known, and names of the owners as shown in transfer books in the office of the auditor, for each forty-acre tract or fraction thereof. The county auditor shall provide the county recorder with any amendment to the district parcel record within a reasonable period after receiving the amendment. A county shall not charge a district a filing fee or any other cost or expense under this subsection, including an expense described in section 468.154.

b. (1) A county auditor who has not filed a document described in paragraph *"a"* as a

district parcel record with the county recorder before July 1, 2025, shall prepare and file the district parcel record on or before June 30, 2027.

(2) This paragraph *"b"* is repealed July 1, 2027.

468.28 Dismissal on remonstrance.

If, at or before the time set for final hearing as to the establishment of a proposed levee, drainage, or improvement district, except a subdrainage district, a remonstrance signed by a majority of the landowners in the district has been filed with the county auditor, or auditors, in case the district extends into more than one county, and the remonstrants in the aggregate own seventy percent or more of the lands to be assessed for benefits or taxed for said improvements and are remonstrating against the establishment of the levee, drainage, or improvement district, setting forth the reasons therefor, the board or boards as the case may be, shall assess to the petitioners and their sureties or apportion the costs among them as the board or boards may deem just or as the parties may agree upon. When all such costs have been paid, the board or boards of supervisors shall dismiss said proceedings and cause to be filed with the county auditor all surveys, plats, reports, and records in relation to the proposed district.

When for a period of two years from and after the date of the establishment of a drainage district, or when an appeal is taken or litigation brought against said district within two years from the date such appeal or litigation is finally determined, no contract shall have been let or work done or drainage certificates or bonds issued for the construction of the improvements in such district, a petition may be filed in the office of the auditor, addressed to the board of supervisors, signed by a majority of the persons owning land in such district and who, in the aggregate, own sixty percent or more of all the land embraced in said district, setting forth the above facts and reciting that provision has been made by the petitioners for the payment of all costs and expenses incurred on account of such district. The board shall examine such petition at its next meeting after the filing thereof, and if found to comply with the above requirements, shall dissolve and vacate said district by resolution entered upon its records, to become effective upon the payment of all the costs and expenses incurred in relation to said district. In case of such vacation and dissolution and upon payment of all costs as herein provided, the auditor shall note the same on the drainage record, showing the date when such dissolution became effective.

468.34 Advertisement for bids.

The board shall publish notice once each week for two consecutive weeks in a newspaper published in the county where the improvement is located, and publish additional advertisement and publication elsewhere as the board may direct. The notice shall state the time and place of letting the work of construction of the improvement, specifying the approximate amount of work to be done in each numbered section of the district, the time fixed for the commencement, and the time of the completion of the work, that bids will be received on the entire work and in sections or divisions of it, and that a bidder will be required to deposit a bid security with the county auditor as provided in section 468.35. All notices shall set the date that bids will be received and upon which the work will be let. However, when the estimated cost of the improvement is less than the adjusted competitive bid threshold, the board may let the contract for the construction without taking bids and without publishing notice.

468.35 Bids — letting of work.

1. The board shall award a contract or contracts for each section of the work to the lowest responsible bidder or bidders therefor, bids to be submitted, received, and acted upon separately as to the main drain and each of the laterals, and each settling basin, if any, exercising their own discretion as to letting such work as to the main drain as a whole, or as to each lateral as a whole, or by sections as to both main drain and laterals, and reserving the right to reject any and all bids and readvertise the letting of the work.

2. A bid shall be in writing, specifying the portion of the work upon which the bid is made, and filed with the auditor. The bid shall be accompanied with a bid security. The bid security shall be in the form of a deposit of cash, a certified check on and certified by a bank in Iowa, a certified share draft drawn on a credit union in Iowa, or a bid bond with a corporate surety satisfactory to the board as provided in section 73A.20. The bid security must be payable to the auditor or the auditor's order at the auditor's office in a sum equal to five percent of the amount of the bid. However, if the maximum limit on a bid security would cause a denial of funds or services from the federal government which would otherwise be available, or if the maximum limit would otherwise be inconsistent with the requirements of federal law, the maximum limit may be suspended to the extent necessary to prevent denial of federal funds or services or to eliminate the inconsistency with federal requirements. The cash, check, or share draft of an unsuccessful bidder shall be returned, and the bid bond of an unsuccessful bidder shall be canceled. The bid security of a successful bidder shall be maintained as a guarantee that the bidder will enter into a contract in accordance with the bids.

A successful bidder is required to execute a bond with sureties approved by the auditor in favor of the county for the use and benefit of the levee or drainage district and all persons entitled to liens for labor or material in an amount not less than seventy-five percent of the contract price of the work to be done, conditioned for the timely, efficient, and complete performance of the contract, and the payment, as they become due, of all just claims for labor performed and material used in carrying out the contract. When a contract is executed and bond approved by the board, the cash, certified check, or certified share draft deposited with the bid shall be returned to the bidder.

468.37 Contracts.

All agreements and contracts for work or materials in constructing the improvements of a district shall be in writing and be signed by the chairperson of the board of supervisors for and on behalf of the district and the parties who are to perform the work or furnish the materials specified in the contract. The contract shall specify the particular work to be done or materials to be furnished, the time when it shall begin and when it shall be completed, the amount to be paid and the times of payment, and contain such other terms and conditions as to details as are necessary to a clear understanding of the terms of the contract.

district, or the required proceedings have been taken to annex additional lands to a district, or a plan of the United States government for original construction of the improvements in a district has been adopted by the district under sections 468.201 through 468.216, the board shall appoint three commissioners to assess benefits and classify the lands affected by the improvement. One of the commissioners shall be a competent civil engineer and two of them shall be resident freeholders of the county in which the district is located, but not living within, nor interested in, any lands included in the district, nor related to any party whose land is affected by the district. The commissioners shall take and subscribe an oath of their qualifications and to perform the duties of classification of the lands, to fix the percentages of benefits, apportion and assess the costs and expenses of constructing the improvement, divide and rename original improvements, and, if included in the board's resolution, adopt special common outlet classifications to be maintained independent of the district's regular assessment schedules, according to law and their best judgment, skill, and ability. If the commissioners or any of them fail or neglect to act or perform the duties in the time and as required of them by law, the board shall appoint others with like qualifications to take their places and perform the duties.

468.39 Duties — time for performance — scale of benefits.

At the time of appointing said commissioners, the board shall fix the time within which said assessment, classification, and apportionment shall be made, which may be extended for good cause shown. Within twenty days after their appointment, they shall begin to inspect and classify all the lands within said district, or any change, extension, enlargement, or relocation thereof in tracts of forty acres or less according to the legal or recognized subdivisions, in a graduated scale of benefits to be numbered according to the benefit to be received by each of such tracts from such improvement, and pursue said work continuously until completed and, when completed, shall make a full, accurate, and detailed report thereof and file the same with the auditor. The lands receiving the greatest benefit shall be marked on a scale of one hundred, and those benefited in a less degree with such percentage of one hundred as the benefits received bear in proportion thereto. They shall also make an equitable apportionment of the costs, expenses, fees, and damages computed on the basis of the percentages fixed.

1. The report of the commissioners shall specify each tract of land by proper description, and the ownership thereof, as the same appears on the transfer books in the auditor's office.

2. In estimating the benefits as to the lands not traversed by said improvement, the commissioners shall not consider what benefits such land shall receive after some other improvements shall have been constructed, but only the benefits which will be received by reason of the construction of the improvement in question as it affords an outlet to the drainage of such lands, brings an outlet nearer to said lands, or relieves the lands from overflow and relieves and protects the lands from damage by erosion.

3. When the land is a state-owned lake or state-owned wetland, the commissioners shall ascertain the benefits realized from removing excess water and shall not consider any benefit

468.41 Assessment for lateral ditches — reclassification of benefited lands.

1. In fixing the percentages and assessments of benefits and apportionment of costs of construction to lands benefited by lateral ditches and drains as a part of the entire improvement to be made in a drainage district, the commissioners shall ascertain and fix the percentage of benefits and apportionment of costs to the lands benefited by such lateral ditches on the same basis and in the same manner as if said lateral was, with its sublaterals, being constructed as a subdistrict as provided in this subchapter, parts 1 through 5, reporting separately:

a. The percentage of benefits and amount accruing to each forty-acre tract or less on account of the construction of the main ditch, drain, or watercourse including pumping plant, if any.

b. The percentage of benefits and amount accruing to each forty-acre tract or less on account of the construction of such lateral improvement.

2. When there has been a repair or improvement to a lateral ditch or drain as provided in section 468.126 and the lands benefited by the lateral have not been classified as provided in this section, the board may order a classification of the lands and the commission shall ascertain and fix the percentage of benefits and apportionment of costs to the lands benefited by such lateral ditches or drains on the same basis and in the same manner as if the lateral was with its sublaterals being constructed as a subdistrict as provided in this subchapter, parts 1 through 5. When this procedure is followed for the classification of any lateral ditch or drain in a given district, the board shall follow the same procedure for all other lateral ditches or drains in the district which have not been classified as prescribed in this section.

The commissioners to assess benefits and make apportionment of costs and expenses shall determine and assess the benefits to the property of any railroad company extending into or through the levee or drainage district, and make return thereof showing the benefit and the apportionment of costs and expenses of construction. Such assessment when finally fixed by the board shall constitute a debt due from the railroad company to the district, and unless paid it may be collected by ordinary proceedings for the district in the name of the county in any court having jurisdiction. All other proceedings in relation to railroads, except as otherwise provided, shall be the same as provided for individual property owners within the levee or drainage district.

or other public land, and the board of supervisors shall assess the same against such highway and land.

2. Such assessments against primary highways and other state-owned lands under the jurisdiction of the state department of transportation shall be paid by the state department from the primary road fund on due certification of the amount by the county treasurer to the department, and against all secondary roads and other county owned lands under the jurisdiction of the board of supervisors, from county funds.

3. When state-owned land under the jurisdiction of the department of natural resources is situated within a levee or drainage district, the commissioners assessing benefits shall ascertain and return in their report the amount of benefits and the apportionment of costs and expenses to the land, and the board of supervisors shall assess the amount against the land. In estimating benefits to land which is a state-owned lake or state-owned wetland, the commissioners shall ascertain benefits as provided in section 468.40.

4. The assessments against lands under the jurisdiction of the department of natural resources shall be paid as an expense from the appropriations addressed in section 7D.29, if authorized by the executive council upon certification of the amount by the county treasurer.

468.46 Hearing and determination.

At the time fixed or at an adjourned hearing, the board shall hear and determine all objections filed to said report and shall fully consider the said report, and may affirm, increase, or diminish the percentage of benefits or the apportionment of costs and expenses made in said report against any body or tract of land in said district as may appear to the board to be just and equitable.

468.48 Notice of increased assessment.

The board shall cause notice to be served upon the owner of any tract of land or easement against which it is proposed to increase the assessment, requiring the owner to appear at a fixed date and show cause why such assessment should not be so increased. Such notice shall be served for the time and in the manner prescribed in section 468.15 or section 468.16, as the case may be, except that personal service in the same manner as an original notice may be made in lieu of the other methods.

468.49 Classification as basis for future assessments.

1. A classification of land for drainage, erosion, or flood control purposes, when finally adopted, shall remain the basis of all future assessments for the purpose of the district unless revised by the board in the manner provided for reclassification. However, where land included in said classification has been destroyed, in whole or in part, by the erosion of a river, or where additional right-of-way has been subsequently taken for drainage purposes, the land which has been so eroded and carried away by the action of a river or which has been taken for additional right-of-way, may be removed by the board from the district as classified, without any reclassification, and no assessment shall thereafter be made on the land so removed. Any deficiency in assessment existing as the result of said action of the

board shall be spread by it over the balance of lands remaining in said district in the same ratio as was fixed in the classification of the lands, payable at the next taxpaying period.

2. Except districts established by mutual agreement in accordance with section 468.142 in the event any forty-acre tract or less, or any lot, tract, or parcel, as set forth in the existing classification or reclassification of any drainage district now or hereafter established, is divided into two or more tracts, whether such division is by sale or condemnation or platted as a subdivision, the classification of the original tract shall be apportioned to the resulting parcels, regardless of use, except for land taken for additional drainage right-of-way. The classification of the original tract may be apportioned between the resulting parcels by agreement between the parties to such division. The parties shall file with the county auditor a written agreement setting forth the original description and the description of the tracts as subdivided and the percentage of the original classification apportioned to each. This agreement shall bear the signature of all of the parties to the subdivision. The agreement contemplated herein may be contained in the deed or other instrument effecting the division of the land, which agreement shall be binding upon the grantee or grantees by their acceptance of such instrument and their signatures shall not be necessary. The auditor shall enter this agreement in the drainage record and amend the current classification of the district in accordance with the agreement.

3. In the event the parties to the subdivision cannot agree as to the apportionment of the percentage classification, the board of supervisors shall, upon application of either party, appoint a commission having the qualifications of commissioners, in accordance with section 468.38. The commissioners shall inspect the lands involved and apportion the existing classification of the original tract equitably and fairly to each of the several tracts as subdivided. The board shall make a full, accurate, and detailed report thereof and file the report with the county auditor within the time set by the board. The report of the commissioners shall set forth the names of the owners thereof, the description of each of the tracts and the percentage of the original classification that each such tract shall bear for main ditches and settling basins, for laterals, for levees and pumping station. Thereafter all the proceedings in relation thereto as to notice of hearing and fixing of percentage benefits shall be as in this subchapter, parts 1 through 5 and 7, provided in relation to original classification and assessments, and at such hearing, the board may affirm, increase or diminish the percentage of benefits so as to make them just and equitable, and cause the record of the existing classification, percentage of benefits or assessments, or both, to be modified accordingly. In the event the parties neither agree as to the apportionment of classification nor make application for the appointment of commissioners, then the auditor of the county in which the land is situated shall make such apportionment upon an equitable basis and enter the same of record as herein provided. No tract of land included within the boundary of any drainage district shall be exempt from drainage assessments or reassessments, except as herein provided.

When the board has finally determined the matter of assessments of benefits and apportionment, the board shall levy the assessments as fixed by it upon the lands within the district, but an assessment on a tract, parcel, or lot within the district which is computed at less than five dollars shall be fixed at the sum of five dollars. All assessments shall be levied at that time as a tax and shall bear interest at a rate determined by the board notwithstanding chapter 74A from that date, payable annually, except as provided as to payments within a specified time.

468.54 Funds — disbursement — interest.

The taxes when collected shall be kept in a separate fund known as the county drainage or levee fund and shall be paid out only for purposes properly connected with and growing out of the county drainage and levee districts on order of the board. The auditor shall continue to keep a record of each of the drainage and levee district's funds so as to accurately reflect the financial condition of each district account. The county treasurer, on order of the board of supervisors, shall invest such funds not immediately needed for current operating expenses in United States government bonds, in time certificates of deposit, in savings accounts in banks as the board shall approve, in the interest-bearing obligations of the drainage and levee districts of the county, or as provided by chapter 12C. Interest collected by the treasurer on the funds invested shall be deposited in the county drainage or levee fund, and on July 1 of each year the auditor shall apportion and credit the interest to each drainage or levee district account in the proportion which the average credit balance of each district bears to the average balance of the county drainage or levee fund. The averages to be ascertained shall be the averages of the balances existing on the first of each month during the fiscal year immediately preceding. Interest collected on drainage or levee district taxes shall be credited to the district for which the taxes are being collected. If a landowner selects an option provided in section 468.57, all drainage or levee tax assessments become due and payable with the first half of ordinary taxes, and shall be collected in the same manner with the same interest for delinquency and the same manner of enforcing collection by tax sales. As an alternative, the landowner may pay the annual installment in two equal payments, one-half with the September payment of ordinary taxes and one-half payable with the March payment of ordinary taxes. All drainage or levee tax assessments not optioned for installment payments by the landowner shall become due and payable within thirty days after the levy of assessments.

468.57 Installment payments — waiver.

1. If the owner of any land against which a levy exceeding five hundred dollars has been made and certified shall, within thirty days from the date of such levy, agree in writing endorsed upon any improvement certificate referred to in section 468.70, or in a separate agreement, that in consideration of having a right to pay the owner's assessment in installments, the owner will not make any objection as to the legality of the assessment for benefit, or the levy of the taxes against the property, then such owner shall have the following options:

a. To pay one-third of the amount of the assessment at the time of filing the agreement; one-third within twenty days after the engineer in charge certifies to the auditor that the improvement is one-half completed; and the remaining one-third within twenty days after the improvement has been completed and accepted by the board. All installments shall be without interest if paid at said times, otherwise the assessments shall bear interest from the date of the levy at a rate determined by the board notwithstanding chapter 74A, payable annually, and be collected as other taxes on real estate, with like interest for delinquency.

b. To pay the assessments in not less than ten nor more than twenty equal installments, with the number of payments and interest rate determined by the board, notwithstanding chapter 74A. The first installment of each assessment, or the total amount if five hundred dollars or less, is due and payable on July 1 next succeeding the date of the levy, unless the assessment is filed with the county treasurer after May 31 in any year. The first installment

shall bear interest on the whole unpaid assessment from the date of the levy as set by the board to the first day of December following the due date. The succeeding annual installments, with interest on the whole unpaid amount, to the first day of December following the due date, are respectively due on July 1 annually, and must be paid at the same time and in the same manner as the first semiannual payment of ordinary taxes. All future installments of an assessment may be paid on any date by payment of the then outstanding balance plus interest to the next December 1, or additional annual installments may be paid after the current installment has been paid before December 1 without interest. A payment must be for the full amount of the next installment. If installments remain to be paid, the next annual installment with interest added to December 1 will be due. After December 1, if a drainage assessment is not delinquent, a property owner may pay one-half or all of the next annual installment of principal and interest of a drainage assessment prior to the delinquency date of the installment. When the next installment has been paid in full, successive principal installments may be prepaid. The county treasurer shall accept the payments of the drainage assessment, and shall credit the next annual installment or future installments of the drainage assessment to the extent of the payment or payments, and shall remit the payments to the drainage fund. If a property owner elects to pay one or more principal installments in advance, the pay schedule shall be advanced by the number of principal installments prepaid. Each installment of an assessment with interest on the unpaid balance is delinquent from October 1 after its due date. However, when the last day of September is a Saturday or Sunday, that amount shall be delinquent from the second business day of October. Taxes assessed pursuant to this chapter which become delinquent shall bear the same delinquent interest as ordinary taxes. When collected, the interest must be credited to the same drainage fund as the drainage special assessment.

When all construction work has been completed and all cost paid, and all assessments have been paid in full, the board may refund, to the owner of each tract of land, the owner's proportionate part of any surplus funds except such portion of the surplus as the board considers should be retained for a sinking fund to pay future maintenance and repair costs.

468.65 Reclassification.

1. When, after a drainage or levee district has been established, except districts established by mutual agreement in accordance with section 468.142, and the improvements thereof constructed and put in operation, there has been a material change as to lands occupied by highway or railroad right-of-way or in the character of the lands benefited by the improvement, or when a repair, improvement, or extension has become necessary, the board may consider whether the existing assessments are equitable as a basis for payment of the expense of maintaining the district and of making the repair, improvement or extension. If they find the same to be inequitable in any particular, they shall by resolution express such finding, appoint three commissioners possessing the qualifications prescribed in section 468.38 and order a reclassification as follows:

a. If the board finds the assessments to be generally inequitable they shall order a reclassification of all property subject to assessment, such as lands, highways, and railroads in said district.

b. If the inequity ascertained by the board is limited to the proportion paid by highways or railroads, a general reclassification of all lands shall not be necessary but the commissioners may evaluate and determine the fair proportion to be paid by such highways or railroads or both as provided in sections 468.42 and 468.43.

c. Any benefits of a character for which levee or drainage districts may be established and which are attributable to or enhanced by the improvement or by the repair, improvement, or extension thereof, shall be a proper subject of consideration in a reclassification notwithstanding the district may have been originally established for a limited purpose.

d. (1) If after a district has been reclassified, the board in its judgment concludes there were errors in the reclassification or there is an inequitable assessment of benefits, the board may on its own motion, after notice to the landowners involved as provided in sections 468.14 through 468.18 and by resolution, order the district or any portion of the district to again be reclassified as prescribed in this section and in section 468.67.

(2) The board may include in its resolution an order to the commissioners that they prepare special common outlet classifications, if needed, in conjunction with the reclassification of the district.

468.67 Procedure governing reclassification.

The proceedings for such reclassification shall in all particulars be governed by the same rules as for original classification. The commissioners shall fix the percentage of actual benefits and make an equitable apportionment of the costs and expenses of such repairs, improvements or extensions and file a report thereof with the auditor in the same form and manner as for original classification. Thereafter, all the proceedings in relation thereto as to notice, hearing, and fixing of percentage of benefits and amount of assessments shall be as in this subchapter, parts 1 through 5, provided in relation to original classification and assessments, and at such hearing the board may affirm, increase, or diminish the percentage and assessment of benefits and apportionment of costs and expenses so as to make them just and equitable, and cause the record of the original classification, percentage of benefits, and assessments to be modified accordingly.

468.74 Drainage bonds.

1. When a drainage district has been established or the making of any subsequent repair or improvement determined upon, if the board of supervisors shall find that the cost of such improvement will create assessments against the land included in the district that are greater than should be levied in a single year upon the lands benefited by the improvement, then, instead of issuing improvement certificates, as provided in sections 468.70 through 468.73, the board may fix the amount that shall be levied and collected each year until such cost and expenses are paid, and may issue drainage bonds of the county covering all assessments exclusive of assessments of one hundred dollars and less.

2. Before drainage bonds shall be issued, the governing body of the district shall cause an action for declaratory judgment to be brought in the district court of the county in which the bonds are to be issued, asking that their legality be confirmed. The court shall fix a date for hearing on the legality of the bonds and notice of hearing shall be given to the owners of each lot or tract of land within the district, which shall be affected by an assessment to pay the proposed bonds, as shown by the transfer books in the auditor's office. Notice shall also be given to the holders of liens of record upon the affected lands and to all persons to whom it may concern without naming them specifically. The notice shall be given by publication and by mailing for the same time in advance of hearing and in the same manner prescribed in section 468.15. After the entry of the declaratory judgment adjudicating the validity of such bonds, the approval of the district court shall be endorsed on the bonds before issuance.

468.100 Monthly estimate — payment.

1. The supervising engineer shall, on or before the tenth day of each calendar month, furnish the contractor and file with the auditor estimates for work done during the preceding calendar month under the contract on each section, and the auditor shall at once draw warrants in favor of such contractor on the drainage funds of the district or give the contractor an order directing the county treasurer to deliver to the contractor or contractors improvement certificates, or drainage bonds as the case may be, for ninety percent of the estimate on work done. Such monthly estimates shall remain on file in the office of the auditor as a part of the permanent records of the district to which they relate. Drainage warrants, bonds, or improvement certificates when so issued shall be in such amounts as the auditor determines, not however, in amounts in excess of five thousand dollars.

2. All of the provisions of this section shall, when applicable, apply to repair work and improvement work in the same force and effect as to original construction.

468.103 Final settlement — claims for damages.

1. If the board finds the work under any contract has been completed and accepted, the board shall compute the balance due, and if there are no liens on file against such balance, it shall enter of record an order directing the auditor to draw a warrant in favor of the contractor upon the levee or drainage fund of the district or give the contractor an order directing the county treasurer to deliver to the contractor improvement certificates or drainage bonds, as the case may be, for such balance found to be due, but such warrants, improvement certificates or bonds shall not be delivered to the contractor until the expiration of thirty days after the acceptance of the work.

2. If any claims for damages have been filed as provided in section 468.102, the board shall review and determine the claims. If the determination by the board on any claim for damages results in a finding by the board that the damages resulting to the claimant were due to the negligence of the contractor, then the board shall provide for payment of the claim out of the remaining funds owing to the contractor. If the determination by the board results in a finding that the damages resulting to the claimant were not due to the negligence of the contractor, but resulted from unavoidable necessity in the performance of the contract, then the board shall allow for payment of the claim in the amount fixed by the board out of the funds in the drainage district.

468.119 Annexation of additional lands.

1. After the establishment of a levee or drainage district, if the board becomes convinced that additional lands contiguous to the district, and without regard to county boundaries, are benefited by the improvement or that the same are then receiving benefit or will be benefited by a repair or improvement to said district as contemplated in section 468.126, it may adopt, with or without a petition from owners of the proposed annexed lands, a resolution of necessity for the annexation of such additional land and appoint an engineer with the qualifications provided in this subchapter, parts 1 through 5, to examine such additional lands, to make a survey and plat thereof showing their relation, elevation, and condition of drainage with reference to such established district, and to make and file with the auditor a report as in this subchapter, parts 1 through 5, provided for the original establishment of such district, said report to specify the character of the benefits received.

2. In the event the additional lands are a part of an existing drainage district, as an alternative procedure to that established by subsection 1, the lands may be annexed in either of the following methods:

a. (1) A petition, proposing that the lands be included in a contiguous drainage district and signed by at least twenty percent of the landowners of those lands to be annexed, shall be filed with the governing board of each affected district.

(2) The board of the district in which the lands are presently included may, at its next regular meeting or at a special meeting called for that purpose, adopt a resolution approving and consenting to the annexation.

b. Whenever the owners of all of the land proposed to be annexed file a petition with the governing boards of the affected districts, the consent of the board in which the lands are then located shall not be required to consent to the annexation, and the board of the annexing district may proceed as provided in this section.

3. If either method of annexation provided for in subsection 2 is completed, the board of the district to which the lands are to be annexed may adopt a resolution of necessity for the annexation of the additional lands, as provided in this section.

4. The right of remonstrance, as provided under section 468.28, does not apply to the owners of lands being involuntarily annexed to an established district.

If the report recommends the annexation of the lands or any portion of them, the board shall consider the report, plats, and profiles and if satisfied that any of the lands are materially benefited by the district and that annexation is feasible, expedient, and for the public good, it shall proceed in all respects as to notice, hearing, appointment of appraisers to fix damages and as to hearing on the annexation; and if the annexation is finally made, as to classification and assessment of benefits to the annexed lands only, to the same extent and in the same manner as provided in the establishment of an original district. However, the annexation and classification of the annexed lands for benefits may be determined at one hearing. Those parties having an interest in the lands proposed to be annexed have the right to receive notice, to make objections, to file claims for damages, to have hearing, to take appeals and to do all other things to the same extent and in the same manner as provided in the establishment of an original district.

468.121 Levy on annexed lands.

After annexation is made the board may levy upon the annexed lands an assessment sufficient to equal the assessments for benefit originally paid by the lands of equal classification if the finding by the board as provided by section 468.119 was that the lands should have been included in the district when originally established, plus their proportionate share of the costs of any enlargement or extension of drains required to serve the annexed lands. If the finding of the board as provided in section 468.119 was based on the fact that additional lands are now benefited by virtue of the repair, improvement, or the change of the topographical conditions made to the district and were not benefited by the district as originally established, then the board shall levy upon the annexed lands an assessment sufficient to pay their proportionate share of the costs of the repair or improvement which was the basis for the lands being annexed. If the board finds that the lands are presently receiving benefits from the district but that some were reasonably omitted from the original establishment because of the change of the topographical conditions, the assessments levied upon the annexed lands shall be limited to a proportionate share of the costs of current and future maintenance, repairs and improvements.

In cases where proceedings have been taken for the establishment of a levee or drainage district and an engineer has been appointed who has made a survey, return, and plat thereof and for any reason the improvement has been abandoned and the proceedings dismissed, and afterward proceedings are instituted for the establishment of a levee or drainage district which will benefit any territory surveyed in said former proceedings, the engineer shall use so much of the return, levels, surveys, plat, and profile made in the former proceedings as may be applicable. The engineer shall specify in the engineer's reports the parts thereof so used, and in case the cost of said returns, levels, surveys, plat, and profile made in said former proceedings has been paid by the former petitioners or their sureties, then a reasonable amount shall be allowed said petitioners or sureties for the use of the same.

When proceedings have been instituted for the establishment of a drainage district or for any change or repair thereof, or the change of a natural watercourse, and the establishment thereof has failed for any reason either before or after the improvement is completed, the board shall have power to reestablish such district or improvement and any new improvement in connection therewith as recommended by the report of the engineer. As to all lands benefited by such reestablishment, repair, or improvement, the board shall proceed in the same manner as in the establishment of an original district, using as a basis for assessment the entire cost of the proceedings, improvement, and maintenance from the beginning; but in awarding damages and in the assessment of benefits account shall be taken of the amount of damages and taxes, if any, theretofore paid by those benefited, and credit therefor given accordingly. All other proceedings shall be the same as for the original establishment of the district, making of improvements, and assessment of benefits.

468.124 New district including old district.

If any levee or drainage district or improvement established either by legal proceedings or by private parties shall be insufficient to properly drain all of the lands tributary thereto, the board upon petition as for the establishment of an original levee or drainage district, shall have power to establish a new district covering and including such old district or improvement together with any additional lands deemed necessary. All outstanding indebtedness of the old levee or drainage district shall be assessed only against the lands included therein.

When such district as contemplated in section 468.124 and the new improvement therein shall include the whole or any part of the former improvement, the commissioners, for classification of lands for assessment of benefits and apportionment of costs and expenses of such new improvement, shall take into consideration the value of such old improvement in the construction of the new one and allow proper credit therefor to the parties owning the old improvement as their interests may appear. In all other respects the same proceedings shall obtain as are provided for the original establishment of levee and drainage districts.

468.126 Repairs and improvements.

1. When any levee or drainage district has been established and the improvement constructed, the improvement shall be at all times under the supervision of the board of supervisors except as otherwise provided for control and management by a board of trustees and the board shall keep the improvement in repair as provided in this section.

a. The board at any time on its own motion, without notice, may order done whatever is necessary to restore or maintain a drainage or levee improvement in its original efficiency or capacity, and for that purpose may remove silt and debris, repair any damaged structures, remove weeds and other vegetable growth, and whatever else may be needed to restore or maintain such efficiency or capacity or to prolong its useful life.

b. The board may at any time obtain an engineer's report regarding the most feasible means of repairing a drainage or levee improvement and the probable cost of making the repair. If the engineer advises, or the board otherwise concludes that permanent restoration of a damaged structure is not feasible at the time, the board may order temporary construction it deems necessary to the continued functioning of the improvement. If in maintaining and repairing tile lines the board finds from an engineer's report it is more economical to construct a new line than to repair the existing line, the new line may be considered to be a repair.

c. If the estimated cost of the repair does not exceed fifty thousand dollars, the board may order the work done without conducting a hearing on the matter. Otherwise, the board shall set a date for a hearing and provide notice of the hearing to landowners in the district by publication in the same manner as provided in section 468.15. However, if the estimated cost of the repair exceeds the adjusted competitive bid threshold, the board shall provide notice to the landowners pursuant to sections 468.14 through 468.18. The board shall not divide a proposed repair into separate programs in order to avoid the notice and hearing requirements of this paragraph.

d. Notwithstanding paragraph "*b*", if the estimated cost of the repair exceeds fifty thousand dollars or the adjusted competitive bid threshold, whichever is more, the board shall order an engineer's report or a report from the soil and water conservation district conservationist regarding the matter which shall be presented at the hearing provided in paragraph "*c*". The board may waive the report requirement if a prior report on the

UNOFFICIAL VERSION. NOT FOR PUBLIC RELEASE

repair exists and that report is less than ten years old. At the hearing, the board shall hear objections to the feasibility of making the proposed repair.

e. Following a hearing, if required in paragraph "*c*", the board shall determine whether the repair is necessary or desirable, and feasible.

f. Any interested party has the right of appeal from such orders in the manner provided in this subchapter, parts 1 through 5.

g. The right of remonstrance does not apply to a repair as provided in this section.

2. In the case of a repair, or the eradication of brush or weeds along the open ditches, not in excess of the adjusted competitive bid threshold, where the board finds that a saving to the district will result, the board may cause the repairs or eradication to be done by secondary road fund equipment, or weed fund equipment, and labor of the county and then reimburse the secondary road fund or the weed fund from the fund of the drainage district thus benefited.

3. When the board deems it necessary it may repair or reconstruct the outlet of any private tile line which empties into a drainage ditch of any district and assess the costs in each case against the land served by the private tile line.

4. *a.* For the purpose of this subsection, an "*improvement*" in a drainage or levee district in which any ditch, tile drain, or other facility has previously been constructed is a project intended to expand, enlarge, or otherwise increase the capacity of any existing ditch, drain, or other facility above that for which it was designed.

b. When the board determines that an improvement is necessary or desirable, and feasible, the board shall appoint an engineer to make surveys as seem appropriate to determine the nature and extent of the improvement, and to file a report showing what improvement is recommended and its estimated cost, which report may be amended before final action.

c. If the estimated cost of the improvement does not exceed fifty thousand dollars, the board may order the work done without conducting a hearing on the matter. Otherwise, the board shall set a date for a hearing on whether to construct the proposed improvement and whether there shall be a reclassification of benefits for the cost of the proposed improvement.

(1) (a) The board shall provide notice to landowners in the district by publication in the same manner as provided in section 468.15. However, if the estimated cost of the improvement exceeds the adjusted competitive bid threshold, the board shall provide notice to the landowners pursuant to sections 468.14 through 468.18.

(b) Notwithstanding subparagraph division (a), and in lieu of publishing the notice, the board may mail a copy of the notice to each address where a landowner within the district resides by first class mail if the cost of mailing is less than publication of the notice. The mailing shall be made during the time the notice would otherwise be required to be published.

(2) The board shall not divide proposed improvements into separate programs in order to avoid compliance with this paragraph "*c*".

d. At the hearing, if required in paragraph "*c*", the board shall hear objections to the feasibility of the proposed improvements and arguments for or against a reclassification presented by or for any taxpayer of the district. Following the hearing, the board shall order that the improvement it deems necessary or desirable and feasible be made and shall also determine whether there should be a reclassification of benefits for the cost of the improvement. If it is determined that a reclassification of benefits should be made, the board shall proceed as provided in section 468.38.

e. If the estimated cost of the improvement exceeds the adjusted competitive bid threshold, or the original cost of the district plus the cost of subsequent improvements in the district, whichever amount is greater, a majority of the landowners, owning in the aggregate more than seventy percent of the total land in the district, may file a written remonstrance against the proposed improvement, at or before the date set for hearing on the proposed improvement as provided in paragraph "*c*", with the county auditor, or auditors in case the district extends into more than one county. If a remonstrance is filed, the board shall discontinue and dismiss all further proceedings on the proposed improvements and charge the costs incurred to date for the proposed improvements to the district. Any interested party may appeal from such orders in the manner provided in this subchapter, parts 1

through 5. However, this section does not affect the procedures of section 468.132 covering the common outlet.

5. Where under the laws in force prior to 1904 drainage ditches and levees were established and constructed without fixing at the time of establishment a definite boundary line for the body of land to be assessed for the cost thereof, the body of land which was last assessed to pay for the repair thereof shall also be considered as the established district for the purpose of this section.

6. The governing body of the district may, by contract or conveyance, acquire, within or without the district, the necessary lands or easements for making repairs or improvements under this section, including easements for borrow and easements for meander, and in addition thereto, the same may be obtained in the manner provided in the original establishment of the district, or by exercise of the power of eminent domain as provided for in chapter 6B. If additional right-of-way is required for any repair or improvement under this section, the same may be acquired in the same manner as provided for the acquisition of right-of-way in the original establishment of a district, except that where notice and hearing are not otherwise required under this section notice as provided in this subchapter, parts 1 through 5, to owners, lienholder of record, and occupants of the land from which right-of-way is to be acquired shall suffice.

7. In existing districts where the stream has by erosion appropriated lands beyond its original right-of-way and it is more economical and feasible to acquire an easement for such erosion and meander than to undertake containment of the stream in its existing right-of-way, the board may, in the discharge of the duties enjoined upon it by this section, effect such acquisition as to the whole or part of the course. Right-of-way so taken shall be classed an improvement for the purpose of procedure under this section.

8. If the drainage records on file in the auditor's office for a particular district do not define specifically the land taken for right-of-way for drainage purposes, the board may at any time upon its own motion employ a land surveyor to make a survey and report of the district and to actually define the right-of-way taken for drainage purposes. After the land surveyor has filed the survey and report with the board, the board shall fix a date for hearing on the report and shall serve notice of the hearing upon all landowners and lienholder of record and occupants of the lands traversed by the right-of-way in the manner and for the time required for service of original notices in the district court. At the hearing the board shall specifically define the land taken for the right-of-way. Once established, the right-of-way constitutes a permanent easement in favor of the drainage district for drainage purposes including the right of ingress and egress across adjoining land and the right of access for maintenance, repair, improvement and inspection. A person aggrieved by the action or failure to act of the board under this subsection may appeal only in compliance with sections 468.83 through 468.98.

1. The costs of the repair or improvements provided for in section 468.126 shall be paid for out of the funds of the levee or drainage district. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than five dollars shall be fixed at the sum of five dollars.

2. If the board deems that the costs of the repairs or improvements will create assessments against the lands in the district greater than should be borne in one year, the board may levy the assessment at one time and provide for the payment of the costs and assessments in

468.142 District by mutual agreement — presumption.

The owners of lands may provide by mutual agreement in writing duly signed, acknowledged, and filed with the auditor for combined drainage of their lands by the location and establishment of a drainage district for such purposes and the construction of drains, ditches, settling basins, and watercourses upon and through their said lands. Such drainage district shall be presumed to be conducive to the public welfare, health, convenience, or utility.

468.143 What the agreement shall contain.

Such agreements shall contain the following:

1. A description of the lands by congressional divisions, metes and bounds, or other intelligible manner, together with the names of the owners of all said lands.

2. The location of the drains and ditches to be constructed, describing their sources and outlets and the courses thereof.

3. The character and extent of drainage improvement to be constructed, including settling basins, if any.

468.144 Board to establish.

When such agreement is filed, the auditor shall record it in the drainage record. The board shall at a regular, special, or adjourned session thereafter locate and establish a drainage district and locate the ditches, drains, settling basins, and watercourses thereof as provided in said agreement, and enter of record an order accordingly. The board thereafter shall carry out the object, purpose, and intent of such agreement and cause to be completed and constructed the said improvement and shall retain jurisdiction of the same as fully as in districts established in any other manner. It shall cause to be levied upon and against the lands of such district, the drainage taxes and assessments according to said agreement and when collected said taxes and assessments shall constitute the drainage funds of said district to be applied upon order of the board as in said agreement provided.

468.146 Outlet in adjoining county or in another state.

1. When a drainage district is established and a satisfactory outlet cannot be obtained except through lands in an adjoining county, or when an improved outlet cannot be obtained except through lands downstream from the district boundary, the board shall have the power to purchase a right-of-way, to construct and maintain such outlets, and to pay all necessary costs and expenses out of the district funds. The board shall have similar authority relative to the construction and maintenance of silt basins upstream from the district boundary. In case the board and the owners of the land required for such outlet or silt basin cannot agree upon the price to be paid as compensation for the land taken or used, the board is hereby empowered to exercise the right of eminent domain as provided for in chapter 6B in order to procure such necessary right-of-way.

2. When a district is, or has been established in this state and no practicable outlet therefor can be obtained except through lands in an adjoining state, the board of supervisors of the county where said district is situated shall, as drainage commissioners, have power to purchase a right-of-way and to construct a ditch for such outlet in an adjoining state or to contribute to the construction of such a ditch, in an adjoining state and to pay for the same out of the funds of such district. Provided, however, that no drainage district or districts shall

1. A person is guilty of a serious misdemeanor if, without legal authority, the person willfully does any of the following:

a. Diverts, obstructs, impedes, or fills up any ditch, drain, or watercourse.

b. Breaks down or injures any levee or the bank of any settling basin, established, constructed, and maintained under any provision of law.

c. Obstructs or engages in travel or agricultural practices upon the improvement or rights-of-way of a levee or drainage district which the governing body thereof has, by resolution, determined to be injurious to such improvement or to interfere with its proper preservation, operation, or maintenance, and has prohibited.

2. Any unlawful act described in subsection 1 is a nuisance and may be abated.

3. A governing body shall have the power to repair any ditch, drain, or watercourse, or any levee or bank of any settling basin, damaged by any person or persons in violation of a resolution of the governing body, after three days' notice to such person or persons to make such repair. In the event that there is a failure to make the repair, the expense of the repair shall be assessed to the person or persons and shall be certified and collected in the same manner as other taxes.

468.151 Actions — settlement — counsel.

1. Levee or drainage districts through their governing bodies are authorized to maintain actions in law or equity for the purposes of preventing or recovering damages that may accrue to the districts on account of the impairment of their functions, or the increase in the cost of maintenance or operation of the districts, or on account of damages to property owned by the districts, resulting from the construction or operation of locks, dams, and pools in the Mississippi or Missouri river. Levee or drainage districts may make settlements and adjustments of such damages and written contracts with relation to such damages, and receive any appropriations that may be made by the Congress of the United States for the increased cost to drainage or levee districts and may agree to the construction and maintenance of present equipment and of new or remedial works, improvements and equipment as a part of such damages, or as a means of lessening the damages which will be suffered by the said districts. The districts are further authorized to employ legal and engineering counsel for such purposes and to pay for the cost of employing legal and engineering counsel out of the award of damages or out of the maintenance funds of the district.

2. If a lump sum settlement is made between the United States and the district to provide an annual payment of income from the lump sum settlement, the county treasurer of the county in which the greater portion of the district is situated shall be custodian of the principal fund. The governing body of the district shall apply to the district court for authority to invest the fund as provided by section 636.23, and, in addition to the investments approved, the court may authorize investment of the fund in interest-bearing bonds or warrants of the district. The income from the fund shall be disbursed by direction of the governing body of the district.

468.158 Purchase at tax sale.

When land in a levee, drainage, or improvement district is being sold at a tax sale for delinquent taxes or assessment, the board of supervisors or the district trustees, as the case may be, shall have authority to bid in such land or any part of it, paying the amount of the bid from the funds of the district, and taking the certificate of sale in their names as trustees for such district, and may thereafter pay any assessments for taxes or benefits levied against said premises from the district funds. The amount paid for redemption which shall include such additional payment, shall be credited to the district.

468.159 Tax deed — sale or lease.

1. If no redemption shall be made, the board of supervisors or trustees, as the case may be, shall receive the tax deed as trustees for the district. They shall credit the district with all income from said property. They may lease or sell and convey said property as trustees for such district and shall deposit all money received therefrom to the credit of such district.

2. The board of trustees may also lease or sell and convey such other property of the district, both real and personal, as is no longer needed for the purposes for which the district was established, and any such leases or sales and conveyances prior to July 1, 1970, are hereby legalized and declared to be valid and binding.

3. This amendment in 1978 shall not be construed to affect any litigation involving the lease, sale, or conveyance of property by the board of supervisors or board of trustees, as the case may be, of a drainage or levee district, which litigation is pending on July 1, 1978.

468.184 Land classification and assessment in district.

1. *a.* (1) When a levee district shall have been located and finally established; or

(2) When the required proceedings have been taken to enlarge, extend, strengthen, raise, relocate, reconstruct, or improve any existing levee; or

(3) When the required proceedings have been held to annex additional lands to said levee district or to exclude or eliminate lands from said levee district; or

(4) When a plan of the United States government for the construction of any levee, or a portion of a levee, in said levee district, or for the enlarging, extending, strengthening, raising, relocating, reconstructing, or improving any existing levee, or a portion thereof, in accordance with any such plan in said levee district, has been heretofore or hereafter adopted by such levee district under the provisions of sections 468.201 through 468.216; or

(5) When the board shall, as authorized by section 468.65, determine that the assessments of benefits of said levee district against the lands in said levee district are generally inequitable the board may by resolution, or if a petition is filed by more than one-third of the owners, including corporations, of land within said levee district and who in the aggregate own more than one-third of the value of the land and land improvements in said levee district as the value thereof is then shown by the general tax records of the county or counties in which such land and land improvements are located, requesting the board to do so, the board shall order the lands in said levee district and the improvements on the land in said levee district classified or reclassified in accordance with the assessed taxable value of said land and land improvements as the same are then shown and as the same may be thereafter shown by the assessment roll of the county or counties in which said land and land improvements are located.

b. The assessed taxable value of any land, including land improvements exempt from general taxation but subject to assessment for levee purposes, shall be determined by the county assessor who shall make such determination in accordance with the rules of assessment applicable to adjacent lands and without any additional compensation therefor.

2. *a.* If the board orders classification or reclassification of lands as authorized in subsection 1, the board shall fix a time and place for a hearing to be held upon the action of the board in ordering such classification or reclassification, which hearing shall be held at the county seat of the county having the largest acreage in said levee district. The board shall cause notice of the time and place of such hearing to be served by the county auditor or auditors upon each person whose name appears as owner of lands or land improvements within the levee district in the transfer books of the auditor's office in the county or counties in which said levee district is located, naming that person, and also upon the person or

UNOFFICIAL VERSION: 2027 EARLY RELEASE

persons in actual occupancy of any tract of land or land improvements located in said levee district, without naming that person or persons. Such notice shall be for the same time and served in the same manner as is provided for the establishment of a levee district, and such notice shall state:

(1) The aggregate estimated costs and expenses which the board proposes to assess under such classification or reclassification;

(2) The total aggregate assessed taxable value of all lands and land improvements in said levee district;

(3) That the said classification or reclassification of benefits will be based on the assessed taxable value of all lands and improvements to lands located in said levee district;

(4) That each tract of land and each land improvement in said levee district will be assessed for its pro rata share of said costs and expenses based upon the ratio that the assessed value of each tract of land and the assessed value of each land improvement bears to the total assessed taxable value of all lands and all land improvements in said district; and

(5) That all objections to said method of classification or reclassification shall be in writing and filed with the auditor of the county in which said land or land improvements are located before the time set for said hearing or with the board of trustees of said district at or before the time set for such hearing.

b. The notice need not show the amount of such costs and expenses to be apportioned to each such owner or to any particular tract of land or land improvement within such levee district.

3. If at or before the time set for said hearing as to such classification or reclassification, there shall have been filed with the county auditor, or auditors in case the district extends into more than one county, or with said board, a remonstrance or remonstrances or objections to such method of classification or reclassification signed by owners of land and land improvements in the levee district aggregating sixty percent of the total assessed value of the lands plus land improvements in said district as shown by the taxing records in said county or counties in which said district is located, the board shall abandon the alternative method of classification or reclassification herein authorized. The board may then proceed to classify the lands in said levee district as authorized under sections 468.38 through 468.44 or may proceed to reclassify the same as authorized under section 468.65 unless said remonstrances and objections filed as above provided are filed by a majority of the landowners in the levee district and these remonstrants and objectors in the aggregate own seventy percent or more of the acreage of lands in the levee district and, in writing, object to any reclassification of any kind, then the board shall not reclassify the lands within the district under the provision of this section nor shall the same be reclassified under the provisions of section 468.65.

4. At the time fixed or at any adjourned hearing if the remonstrances and objections filed at or before the hearing are not signed by sufficient number of owners, or the owners signing such remonstrances and objections do not meet the requirements hereinabove provided, then the board shall fully consider all objections and remonstrances and shall make a determination as to whether or not the costs and expenses shall be assessed:

a. By the alternative method hereinabove set forth; or

b. As provided by sections 468.38 through 468.44; or

c. That the land should be reclassified as provided in section 468.65; or

d. On the basis of a then existing classification of lands.

5. If the board shall determine that the cost and expenses shall be assessed on the basis of assessed taxable value as provided in subsections 1 through 4, then such basis shall be used for all future assessments made for the purposes of said levee district except if said assessed taxable value of lands and land improvements in said levee district may be changed or revised by the county assessor in the county or counties in which the same are located for general tax purposes, then any such revision made in the assessed taxable value by any such county assessor shall automatically constitute a revision of the classification of such land or land improvements for future assessments made by the board for the purpose of said levee district.

6. In lieu of the hearing provided for in subsections 1 through 5, the board may, and if the

UNOFFICIAL VERSION
2024 CODE OF IOWA

petition of owners provided for in subsections 1 through 5 so asks, the board shall call for an election for the purpose of determining the question of classification on the basis of assessed value of lands and land improvements. The question may be submitted at a regular election of the district or at a special election called for that purpose. It shall not be mandatory for the county commissioner of elections to conduct the elections, however provisions of sections 49.43 through 49.47 and of subchapter III of this chapter, insofar as the same are applicable, shall govern all such elections, and the question to be submitted shall be set forth in the notice of election. If sixty percent of the votes cast be in favor of the proposed change in assessment, it shall become effective for all future assessments as heretofore provided in this section. If the question should fail, no new election on the subject may be called for a period of one year.

7. When a levee district has been established and constructed, as an alternative to the other methods prescribed by law, upon reclassification, the levee district may adopt a method of classification and assessment uniform as to all land in the district, including railroad land, public highways and other public land and land exempt from general taxation, based on the total amount to be assessed divided by the total acres within the district. This method of classification and assessment may be adopted either by hearing or by election and shall become effective as heretofore provided in this section.

8. When a drainage district or drainage and levee district has been established and constructed, and after the lands therein have been classified in accordance with the provisions of sections 468.39, 468.40, and 468.41 or reclassified in accordance with section 468.65, the district may adopt methods of assessment for maintenance, repair, and operation of said district uniform as to all land in the district in the same manner and by the same procedures as prescribed in subsections 1 through 7 of this section. Provided, however, that only those lands drained by respective mains and laterals shall be assessed for maintenance, repair, and operation of said mains and laterals, and provided further that this alternate method of assessment shall not be applied to making improvements in the drainage system.

9. Following the adoption of any alternative method of classification or assessment as provided in this section, the same shall continue in effect until such time as the method is changed pursuant to this section or to section 468.65.

10. *a.* All proceedings taken prior to July 1, 1968, purporting to establish or reestablish a drainage or levee district or districts, or to enlarge or change the boundaries of any drainage or levee district, and any assessments not heretofore declared invalid by any court, are hereby legalized, validated, and confirmed.

b. Paragraph *"a"* shall not be construed to affect any litigation that may be pending on July 1, 1968, involving the establishment, reestablishment, enlargement, or change in boundaries or any assessments of drainage or levee districts.

468.186 Easements through a drainage or levee district.

As used in this section, *"person"* shall mean any individual or group of individuals, corporation, firm, company, or association, except a railroad company.

1. When any person proposes to construct a pipeline, electric transmission line, communication line, underground service line, or other similar installations on, over, across, or beneath the right-of-way of any drainage or levee district, such person shall, before beginning construction, obtain from the drainage or levee district an easement to cross the district's right-of-way. The governing body of the district shall require such person to agree to comply with subsection 3 of this section and may, as a condition of granting such easement, attach thereto such additional conditions as they deem necessary. When the necessary easement has been obtained, such person shall construct the installation at the person's own expense and shall pay all costs of any reconstruction, relocation, modification,

or reinstallation of the drainage or levee district's facility which may be necessary as a result of construction of the installation for which the easement was granted.

2. After construction of the installation has been completed in accordance with all conditions under which the easement is granted, the drainage or levee district shall maintain its facility at its own expense, and the person who constructed the installation, or the person's successors in interest, shall maintain the installation at the person's or successor's own expense. If the drainage or levee district subsequently undertakes any maintenance, improvement, or reconstruction of its facility which requires the modification, relocation, or reconstruction of the installation, the expense of such modification, relocation, or reconstruction shall be borne by the person who constructed the installation or the person's successors in interest.

3. When the construction of a public highway, or any installation for which an easement has been obtained under subsection 1 of this section, on, over, across, or beneath the right-of-way of any drainage or levee district disturbs or requires replacement of any portion of a tile drain less than twenty inches in diameter, and a portion of such drain will remain wholly or partially exposed after the construction project has been completed, the portion which is to remain exposed and not less than three feet of such drain immediately on either side of the portion which is to remain exposed, shall be replaced either with steel pipe of not less than sixteen gauge or polyvinyl chloride pipe conforming to current industry standards regarding diameter and wall thickness.

1. Levee and drainage districts are empowered to enter into agreements with the owners of lands lying inside or outside of said districts, or with other levee and drainage districts or municipalities, to provide levee protection or drainage for such lands on such terms as the board may agree and subject to the following terms and conditions:

a. The facilities of the district furnishing the service shall not be overburdened.

b. There shall be no additional cost to the district furnishing the service.

c. The agreement shall be in writing, be made a part of the drainage records and shall include all of the following:

(1) The description of the lands to be served.

(2) The location of tile lines constructed or to be constructed.

(3) The consideration to be paid to the district furnishing the service and the classification of the lands to be served.

(4) Such other provisions as the board deems necessary.

2. The provisions in an agreement described in subsection 1 modify other provisions of this chapter applicable to such lands.

468.188 Public improvements which divide a district — procedure.

1. If it should develop that any type of public improvement, other than the forces of nature, has caused such a change in the district as to effectively sever and cut off some of the land in the district from other lands in the district and from the improvements in the district in such a way as to deprive the land of any further benefits from the improvement, or in some manner to divide the benefits that may be derived from two separated portions of the improvement, then the board of supervisors or the board of trustees in charge may upon notice to interested parties and hearing as provided by this subchapter, parts 1 through 5, for the original establishment of a district make an order to remove lands so deprived of benefits from the district without any reclassification, or may subdivide the district into two

UNOFFICIAL VERSION 2021 EARLY RELEASE

separate entities if the public improvement splits the district into two separate units, each of which may still derive some separate benefits from the separated portions of the district.

2. If the public improvement is such as to leave two separate portions of the improvement that are still operable and of benefit to the land on each side of the division made by the public improvement, then the board may divide the district into two separate units so that each may perform further work on the improvements in their respective parts, but neither shall be charged for work completed on the opposite side of the new improvement that divides them and may only be charged for the work done in that portion of the district remaining on their side of the division.

3. The same authority provided in this section shall vest in the board of supervisors or the board of trustees in the event a drainage district in any manner relinquishes its control over any portion of its improvements or its obligation to maintain same to another district and lands may be removed from the district or the district may be divided as provided in this section.

4. The board may further in dividing the district award to each of the separated portions of the district the improvement remaining in each portion, determine the value of the improvement so remaining on each side and secondly determine the contributions of the lands in the separated portions to the improvements and the upkeep of the earlier district, and if the contribution is proportionate neither side shall owe the other portion of the district any money, but if contribution is disproportionate, the board shall determine an equitable adjustment and the amount of payment required for one portion to pay to the other to buy the existing improvement.

5. If land is eliminated from any further benefits, there need not be any reclassification and the board may remove the same from the district in the same manner as if the land has been destroyed in whole by the erosion of a river and spread any deficiency in assessment among the remaining lands as provided by section 468.49.

6. *"Type of public improvement"* for the purpose of this section includes drainage or levee improvements or new highways.

Whenever the government of the United States acting through its proper agencies or instrumentalities will undertake the original construction of improvements or the repair or alteration of existing improvements which will accomplish the purposes for which the district was established or aid in the accomplishment thereof and shall cause to be filed in the office of the auditor of the county in which said district is located a plan of such improvement or for the repair or alteration of existing improvements, the board shall have jurisdiction, power and authority, upon the notice, hearing and determination hereinafter provided, to adopt such plan of improvement or of repair or alteration of existing improvements and to provide necessary right-of-way therefor; and to pay such portion of all costs and damages incident to the adoption of such plan, the construction thereunder and the maintenance and operation of the works as will not be discharged by the federal government under legislation existing at the time of adoption; also to enter into such agreements with the United States government as may be necessary to meet federal requirements including the taking over, repair and maintenance of the works and to perform under such agreements.

2. If the cost to the district of the repair or alteration of existing improvements contemplated by this section does not exceed twenty-five percent of the sum of the original cost to the district and the cost of subsequent improvements, including all federal contributions, the board may proceed under the provisions of section 468.126, without notice and hearing, and without appraisement as contemplated by section 468.210, but the remaining provisions of this section and sections 468.202 through 468.216 that are not in conflict with section 468.126 shall remain applicable.

3. If the federal program divides a project into separate phases, each phase shall be considered a separate program as described in section 468.126, subsection 4, and shall in no event be construed as an unauthorized division into separate programs to avoid the twenty-five percent limitation prescribed for making improvements under said section 468.126, subsection 4, without notice and hearing.

468.204 Engineer's report.

The engineer shall examine the plan filed by the federal agency and the lands affected thereby and shall make and file with the county auditor a full written report which, together with the federal plan, will show the following:

1. The character and location of all contemplated improvements, and the plats, profiles and specifications thereof.
2. The particular description and acreage of land required from each forty-acre tract or fraction thereof for right-of-way, borrow pits or other purposes together with congressional or other description of each tract and the names of the owners thereof as shown by the transfer books in the office of the auditor.
3. A particular description of each forty-acre tract or fraction thereof that will be excluded from benefit by adoption of the plan as filed, together with the name of the owners thereof as shown by the transfer books in the office of the auditor.
4. A particular description of each forty-acre tract or fraction thereof outside the district which will benefit from adoption of the plan as filed and the name of the owner thereof as shown by the transfer books in the office of the auditor.
5. Such rights-of-way or portions thereof previously established or acquired as will be rendered unnecessary by adoption of the federal plan and any unpaid damages awarded therefor.
6. Such other damages previously awarded as will be affected by adoption of the federal plan.
7. The recommendation of the engineer with respect to the adoption of the plan.

1. The notice under section 468.206 shall be captioned in the name of the district and shall be directed to all of the following:

a. The owners of each tract or lot within the levee or drainage district, including railroad companies having rights-of-way and lienholders and encumbrancers.

b. The owners, lienholders, or encumbrancers of lands which an adoption of the plan would exclude from benefits.

c. The owners, lienholders, or encumbrancers of lands outside the district which will benefit from the plan.

d. Without naming them, the occupants of all lands affected.

e. All other persons whom the plan may concern.

2. The notice shall set forth all of the following:

a. That there is on file in the office of the auditor a plan of construction of the federal agency, naming the agency, together with reports of an engineer on the plan, which the board has tentatively approved.

b. That the plan may be amended before final action.

c. The day and hour set for hearing on the adoption of the plan.

d. That all claims for damages, except claims for land required for right-of-way or construction, and all objections to the adoption of the plan for any reason must be made in writing and filed in the office of the auditor at or before the time set for hearing.

3. Provisions of this subchapter, parts 1 through 5, for giving notice, waiver of notice, waiver of objection and damages and adjournment for service contained in sections 468.15 through 468.20 shall apply.

1. If the board, after consideration of the subject matter, including all objections filed to the adoption of the plan and all claims for damages, shall find that the district will be benefited by adoption of the plan or the purposes for which the district was established is furthered by the plan, the board shall enter an order approving and adopting the final plan. The order shall have the effect of:

a. Altering the boundaries of the district to conform to the changes effected by the plan adopted.

b. Canceling all existing awards for damages for property not appropriated for right-of-way or construction and rendered unnecessary by the plan so adopted.

c. Canceling all awards previously made for damages other than for right-of-way or construction but reinstating the claims for such damages which said claims may be amended by the claimants within ten days thereafter.

UNOFFICIAL VERSION. 2027 EARLY RELEASE

d. Canceling all unpaid assessments for benefits on lands excluded from the district by adoption of the plan. The assessments so canceled shall become part of the costs of the improvement.

e. Establishing as benefited thereby the lands added to the district by adoption of the plan and rendering same subject to classification and assessment.

2. Whenever a plan has been adopted as contemplated by this section, modification and changes can be made therein without further notice or hearing, provided the same do not increase or decrease the estimated cost of the plan to the district by more than twenty-five percent.

468.210 Appraisement.

Upon adoption of the plan, the board shall appoint three appraisers of the qualifications prescribed in section 468.24, who shall qualify in the manner provided in that section, and shall fix a time for hearing on their report of which all interested parties shall take notice. The appraisers shall view the premises and fix and determine the damages to which each claimant is entitled, including claimants whose awards for damages were canceled by the order of adoption. The appraisers shall place a separate valuation upon the acreage of each owner taken for right-of-way or other purposes necessitated by adoption of the plan and shall file a report in writing in the office of the auditor at least five days before the date fixed by the board for hearing on the report. If the report will not be filed on time or if good cause for delay exists, the board may postpone the time for final action on the subject and, if necessary, may appoint other appraisers. Thereafter the provisions of section 468.26 shall apply.

468.220 Occupancy and use permitted — assessments paid.

1. Any levee or drainage district organized, or in the process of being organized, under the laws of this state may occupy and use for any lawful levee or drainage purpose land owned by the state of Iowa, upon first obtaining permission to do so from the state or state agency controlling the land.

2. In the case of lands lying within the beds of meandered streams and border streams the permission shall be obtained from the natural resource commission of the department of natural resources. In the case of lands that are not under the control of any office or agency of the state, then the permission shall be obtained from the executive council.

3. Such permission shall not be unreasonably withheld and shall be in the form of an easement executed by the governor or in the case of an agency, by the chairperson or presiding officer thereof, and when once granted shall be perpetual, except that if no use is made of the easement for a period of five years, the permission shall immediately thereafter expire.

4. All uses and occupancies as contemplated by this section existing on July 4, 1961, are hereby legalized.

5. The state of Iowa, its agencies and subdivisions shall be financially responsible for drainage and special assessments against land which they own, or hold title to, within existing drainage districts.

468.221 Written communication delivered to the state or a local government.

1. This section applies whenever a board or county officer acting under this chapter is required to deliver a written communication to a state agency or local government. The written communication includes but is not limited to a notice, service of process, demand, statement, or a report.

2. *a.* If the written communication is to be delivered to a state agency, it may be delivered to the administrative head of the state agency or its governing body. The written communication may also be delivered to a person designated by the administrative head of the state agency or its governing body. The written communication may be delivered to the executive council if the administrative head of the state agency or its governing body cannot be determined.

b. If the written communication is to be delivered to a local government, it may be delivered to the governing body of the local government. The written communication may also be delivered to a person designated by the governing body. As used in this section, "*local government*" includes a county, city, township, or any special purpose district or authority.

BOARD OF COUNTY DRAINAGE ADMINISTRATORS

Referred to in §331.502, 331.552, 350.4, 358.23, 461A.76, 468.3, 468.10, 468.41, 468.49, 468.59, 468.65, 468.67, 468.96, 468.115, 468.119, 468.126, 468.140, 468.152, 468.188, 468.207, 468.211, 468.240, 468.273, 468.283, 468.284, 468.288, 468.292, 468.297, 468.308, 468.335, 468.345, 468.529

468.230 Administrators appointed.

The county board of supervisors of any county of this state in which one or more drainage districts are established may by resolution establish a board of county drainage administrators. All of the powers, duties, and responsibilities now or hereafter conferred on county boards of supervisors in this chapter shall thereupon be transferred to and thereafter exercised by the board of county drainage administrators. A drainage or levee district may be established pursuant to subchapter III.

468.231 Administrator areas.

When establishing a board of county drainage administrators, the board of supervisors shall divide the county, along township lines, into three drainage administrator areas of approximately equal territory. The board of county drainage administrators shall consist of one resident freeholder appointed by the county board of supervisors from each area, and at least two of the administrators shall be agricultural landowners. The members first appointed shall hold office for terms of one, two, and three years respectively, as indicated and fixed by the county board of supervisors. Thereafter, succeeding members shall be appointed for a term of three years, except that vacancies occurring otherwise than by expiration of a term shall be filled by appointment for the unexpired term. Any member of the board of county drainage administrators who shall cease to have any of the qualifications prescribed by this section shall thereupon be disqualified as a member of the board and the office shall be deemed vacant. Members of the board of county drainage administrators may be removed by the county board of supervisors for cause, but every such removal shall be by written order which shall be filed with the county auditor.

468.233 How paid.

The compensation and expenses of the county board of drainage administrators, for each day or portion thereof necessarily expended in the transaction of the business of a drainage or levee district, shall be paid out of the funds of the district served. The administrators shall file with the auditor or auditors, as the case may be, itemized, verified statements of their time devoted to the business of the district and the expenses incurred. If the administrators transact business of more than one district on a given day, they shall prorate their claims for compensation proportionately among the districts served on that day, but in no case shall a

Drainage or levee districts may be dissolved and abandoned or assimilated by the procedures prescribed by this part.

1. When any drainage or levee district is free from indebtedness and it shall appear that the necessity therefor no longer exists or that the expense of the continued maintenance of the ditch or levee is in excess of the benefits to be derived therefrom, the board of supervisors or board of trustees, as the case may be, shall have power and jurisdiction, upon petition of a majority of the landowners, who, in the aggregate, own sixty percent of all land in such district, to abandon the same and dissolve and discontinue such districts in the manner

prescribed by sections 468.251 through 468.255. Nothing in this subsection shall prevent the board from eliminating land from a drainage district as permitted under section 468.188.

2. When one drainage or levee district, either intracounty or intercounty, includes within its territory all of the territory of one or more other drainage or levee districts, and it appears that one assessment and one governing body would be to the benefit of the owners and occupants of the land within the mutual jurisdiction of the overlying and the contained districts, the board of supervisors or board of trustees may effect the dissolution of a contained district and the transfer of jurisdiction and control over that contained district's improvements to the overlying district, in the manner prescribed by sections 468.256 through 468.261.

468.252 Hearing on petition.

The petition may be amended at any time before final action on the petition. At the time set for hearing on the petition, the board shall hear and determine the sufficiency of the petition as to form and substance and all objections filed against the abandonment and dissolution of such district. If the board finds that such district is free from indebtedness and that the necessity for the continued maintenance thereof no longer exists or that the expense of the continued maintenance of such district is not commensurate with the benefits derived therefrom, the board shall enter an order abandoning and dissolving such district, which order shall be filed with the county auditor of the county or counties in which such district is situated and noted on the drainage record.

468.254 Expense — refund.

In case there are sufficient funds on hand in such district, or there are unpaid assessments outstanding or other property belonging to such district in an amount sufficient to pay such expense, the expense of abandonment and dissolution shall be paid out of such funds or out of funds realized by the sale of such property. Where such district is free of indebtedness but

there are not sufficient funds on hand or unpaid assessments outstanding or other assets to pay such expense the board shall assess such expense against the property in the district in the same proportions as the last preceding assessments of benefits. Any excess remaining to the credit of such district after sale of its assets and after payment of such expenses shall be prorated back to the property owners in the district in the proportions according to class and benefits as last assessed. If the petition is denied, the costs of said proceedings shall be paid by the petitioning owners.

468.257 Procedure for notice of hearing.

1. The board of the overlying district shall enter an order fixing a place and a time, not less than forty days after the date of the later of the two orders required by section 468.256, for a hearing on the proposals described in the two orders.

2. The auditor, or auditors if the overlying district includes land lying in two or more counties, shall cause notice of the proposals and of the hearing to be given immediately upon the entry of an order under subsection 1. The notice must:

a. Include the texts of the orders entered pursuant to section 468.256, the date, time and place of the hearing, and a statement that all objections to the proposals embodied in the orders must be made in writing and filed in the office of the auditor at or before the time set for the hearing.

b. Be directed to all of the following:

(1) The owner of each tract of land or lot within the overlying district, as shown by the transfer books of the auditor's office, including railway companies having right-of-way in the district.

(2) All lienholders or encumbrancers of land within the overlying district, without naming them.

(3) All actual occupants of land in the overlying district, without naming individuals.

(4) All other persons whom it may concern.

3. Except as otherwise required by section 468.16, the notice required by this section shall be served by publication once in a newspaper of general circulation in each county in which the overlying district's land is situated. The publication shall be made not less than twenty

468.258 Procedure at hearing.

The hearing shall be convened at the time and place fixed in accordance with section 468.257, subsection 1, and the procedure at the hearing shall be as prescribed by this section.

1. The board of the contained district shall first hear all objections filed against the dissolution of the district and the surrender of its improvements to the overlying district. If, at the conclusion of that portion of the hearing, that board finds that the contained district is free of debt, that the economic benefits of the continued maintenance of that district would not be commensurate with its cost, and that it would be advantageous to dissolve and discontinue the contained district and surrender its improvements and rights-of-way to the overlying district, it shall enter an order dissolving the contained district and directing the surrender of its improvements and rights-of-way, conditioned on acceptance by the overlying district.

2. Immediately thereafter, the board of the overlying district shall hear all objections filed against the acceptance of the contained district's improvements and their maintenance. If it finds that the improvements are conducive to the drainage of surface waters from agricultural lands and all other lands in the overlying district or the protection of the lands from overflow, it shall enter an order accepting the improvements and rights-of-way of the contained district.

3. Orders issued pursuant to subsections 1 and 2 shall be filed with the county auditor of the county or counties in which the affected districts are situated and noted on the drainage record.

4. If at or before the time set for the hearing there have been filed with the county auditor or auditors, if either the contained or overlying district extends into more than one county, or with the board of either district, one or more remonstrances or objections to the dissolution of the contained district, or to the acceptance of that district's improvements and rights-of-way by the overlying district, signed by owners of land and land improvements in either district aggregating sixty percent of the total assessed value of the land in that district as shown by the taxing records in the county or counties in which that district is located, the board to which the remonstrances or objections have been made shall abandon its proposed action.

468.259 Election in lieu of hearings.

In lieu of the hearings provided for in section 468.258, the board of either district may call an election for the purpose of determining the dissolution of the contained district or the acceptance of that district's improvements and rights-of-way by the overlying district. The questions may be submitted at a regular election of the district or at a special election called for that purpose. It is not mandatory for the county commissioner of elections to conduct the elections, however the provisions of sections 49.43 through 49.47, and of subchapter III of this chapter, as they are applicable, shall govern the elections, and the question to be submitted shall be set forth in the notice of election.

1. If sixty percent or more of the votes cast are in favor of the proposed dissolution of the contained district involved, the board of that district shall enter an order dissolving the contained district and directing the surrender of its improvements and rights-of-way, conditioned on acceptance by the overlying district.

2. If sixty percent or more of the votes cast in the overlying district are in favor of the proposed acceptance by that district of the contained district's improvements

468.260 Effect of dissolution, surrender, and acceptance.

When a contained district dissolves and surrenders its improvements and rights-of-way to the jurisdiction and control of an overlying district, and the overlying district accepts those improvements and rights-of-way, in accordance with sections 468.256 through 468.259:

1. It is presumed that the classification of the lands which were included in the dissolved district, as previously determined by the commissioners in the classification of those lands as a part of the overlying district, remains equitable and no reclassification of the overlying district or any part of it is necessary.

2. The improvements surrendered and accepted are at all times under the supervision of the board of the overlying district, and it is the duty of that board to keep the improvements in repair as provided in section 468.126 as fully and completely as though the improvements were a part of the original construction or improvements in the overlying district.

3. It is presumed that:

a. The improvements surrendered and accepted are an integral part of the overlying district's improvements, and are a public benefit and conducive to the public health, convenience and welfare.

b. No value is taken into consideration for the existing improvements nor is credit given to the parties owning them, and they shall not be considered an asset of the district that is dissolved.

4. The original cost and the subsequent cost of improvements in the district that has been dissolved are added to and become a part of the original cost and the subsequent cost of improvements in the overlying district.

PART 7

MERGER OF DRAINAGE OR LEVEE DISTRICTS

Referred to in §468.3, 468.49

468.262 Purpose.

The provisions of this part apply to drainage or levee districts when such districts participate in a merger.

2014 Acts, ch 1075, §1; 2015 Acts, ch 30, §148

UNOFFICIAL VERSION: 2021 EARLY RELEASE

468.263 General.

1. A merger must involve two or more voluntarily participating drainage or levee districts including all of the following:

a. One participating dominant district whose board would survive the merger to govern the merged district.

b. One or more participating servient districts whose boards would be dissolved by the merger.

2. *a.* The merger must be proposed by the board of each participating drainage or levee district as provided in this part.

b. The proposed merger must be approved by the board of the participating dominant district and one or more boards of the participating servient districts, as provided in this part.

3. *a.* The boundary of a participating drainage or levee district must adjoin all or part of the boundary of another participating drainage or levee district.

b. Notwithstanding paragraph *"a"* two participating drainage or levee districts may be separated by land not part of any drainage or levee district if the proposed merger is contingent upon the annexation of such land pursuant to sections 468.119 through 468.121.

4. A merger may occur notwithstanding that a drainage or levee district participating in a merger is not otherwise eligible for dissolution as provided in part 6 of this subchapter.

2014 Acts, ch 1075, §2

468.264 Board participation initiated.

1. In order to participate in a proposed merger the board of a drainage or levee district must determine that the merger will substantially benefit the owners of land situated in the drainage or levee district.

2. A board making the determination described in subsection 1 shall enter an order to conduct a public hearing regarding a proposed merger as provided in section 468.265. The board shall enter the order with the auditor of each county where the drainage or levee district is situated.

2014 Acts, ch 1075, §3
Referred to in §468.265

468.265 Public hearing.

1. A public hearing must be conducted within forty-five days from the last date that the board enters an order with the auditor of each county where the drainage or levee district is situated as provided in section 468.264. The auditor of each county where the participating drainage or levee district is located shall provide notice of a public hearing regarding the proposed merger. However, the board may designate the auditor of the county with the greatest portion of the district's territory to provide the notice. The notice must include all of the following:

a. A description of the proposed merger.

b. The determination made by the board under section 468.264.

c. Whether land in the participating drainage or levee district may be subject to any special assessment as provided in section 468.269.

d. The date, time, and place of the public hearing.

e. That all written objections to the proposed merger must be filed in the office of the county auditor.

2. *a.* The auditor of the county where a participating drainage or levee district is situated or the auditor designated by the board shall deliver the notice required in subsection 1 to all landowners in the district in the same manner as provided in sections 468.14 through 468.18, as the auditor deems appropriate.

b. If land is to be annexed as a condition of the merger, as provided in this part, the auditor of the county where the land to be annexed is situated or the auditor designated by the board shall deliver the notice to the owners of such land by ordinary mail.

3. The boards of one or more participating drainage or levee districts may conduct the public hearing jointly.

4. This section shall not be construed to prevent the board of a participating drainage or

468.266 Meeting and vote.

1. Each board of a participating drainage or levee district shall meet to vote on a resolution which includes the question whether or not to approve the proposed merger. A board must vote on the resolution within forty-five days of the last public hearing conducted pursuant to section 468.265.

2. The board shall only consider written objections to the proposed merger as filed in the office of the county auditor as provided in the notice for a public hearing or comments made at a public hearing conducted pursuant to section 468.265.

3. Two or more boards may approve a joint meeting and vote upon a joint resolution. If the board for the participating dominant district votes at the joint meeting, the dominant board shall pay any costs associated with conducting the joint meeting, regardless of the vote's outcome.

2014 Acts, ch 1075, §5
Referred to in §468.267

468.267 Joint order.

1. A resolution to merge participating drainage or levee districts approved by their respective boards as provided in section 468.266 shall be effectuated according to the terms and conditions of a joint order for merger entered by those boards.

2. Each board shall file the joint order with the auditors of their respective counties. Upon receipt of a joint order, the auditor shall include the joint order as part of the drainage record.

3. The auditor shall not file an order unless all territory within the merged drainage or levee district is contiguous, and includes any land required to be annexed as a condition of the merger.

4. Upon the filing of the joint order with the county auditor as provided in subsection 2, title to all real estate, other property, improvement, and any right-of-way held by the participating drainage or levee district is vested in the merged drainage or levee district, subject to any condition which applied immediately prior to the merger.

5. The auditor of a county designated by the board governing the merged drainage or levee district shall prepare and file with the recorder of each county where the merged district is situated all conveyances and other documentation necessary to effect the transfers referenced in the joint order.

6. The merged drainage or levee district assumes all existing obligations of a participating drainage or levee district subject to the joint order.

2014 Acts, ch 1075, §6
Referred to in §468.269

468.268 Effect of the merger.

1. *a.* Except as provided in this subsection, a legal or equitable proceeding pending against a participating drainage or levee district prior to a merger shall continue as if the merger did not occur.

b. The merged drainage or levee district shall be substituted for the participating drainage or levee district standing as a party.

c. The board governing the merged drainage or levee district may apportion the costs of a legal or equitable proceeding against the landowners of the participating drainage or levee district based upon the classification of land and assessments applicable to the participating drainage or levee district prior to the merger.

2. Except as provided in section 468.269, the merger does not affect the classification of land or the levy of an assessment.

3. The original cost and the subsequent cost of improvements in a participating drainage or levee district under this part shall be added to and become a part of the original cost and the subsequent cost of improvements in the merged drainage or levee district.

UNOFFICIAL VERSION 2027 EARLY RELEASE

4. The surviving board of a merged drainage or levee district shall pay any remaining costs associated with the merger.

2014 Acts, ch 1075, §7

468.269 Special assessment — merged land.

1. In addition to assessments imposed pursuant to sections 468.49 and 468.50, the surviving board of a merged drainage or levee district may impose a special assessment on land situated in the merged district which was a participating servient district prior to the merger.

2. The special assessment shall apply to costs of improvements made within the participating dominant district prior to the merger for not longer than five years prior to the date that the joint order was filed with the county auditor by the surviving board for the participating dominant district pursuant to section 468.267.

3. In order to impose a special assessment under this section all of the following must apply:

a. The board must approve a report by an engineer appointed by the board as provided in part 1 stating those improvements directly benefiting land situated in the participating servient district were made within the five-year period provided in subsection 2.

b. The notice for a public hearing required in section 468.265 must have stated that the board may impose a special assessment under this section.

4. The board shall not impose the special assessment under this section on land that was annexed as part of the merger. However, such land is subject to a special assessment pursuant to sections 468.119 through 468.121.

PART 4
HIGHWAY DRAINAGE DISTRICTS

Referred to in §468.3, 468.397

468.335 Establishment.

Whenever, in the opinion of the board of supervisors, it is necessary to drain any part of any public highway under its jurisdiction, and any land abutting upon or adjacent thereto, it may proceed without petition or bond to establish a highway drainage district by proceeding in all other respects as provided in subchapter I, parts 1 through 5.

DRAINAGE AND LEVEE DISTRICTS WITH PUMPING STATIONS

Referred to in §331.552, 350.4, 468.3, 468.397

468.355 Authorization.

The board of supervisors of any county or counties in which a drainage or levee district has been organized as by law provided, may establish and maintain a pumping station or stations, when and where the same may be necessary to secure a proper outlet for the drainage of the land comprising the district or any portion thereof, and the cost of construction and maintenance of said pumping station or stations shall be levied upon and collected from the lands in the district benefited by such pumping station or stations, in the same manner as provided for in the construction and maintenance of said districts.

468.356 Petition — procedure — emergency pumping station.

1. A pumping station shall not be established or maintained unless a petition shall be presented to the board signed by not less than one-third of the owners of lands benefited by the establishment of a pumping station. The lands benefited by a pumping station shall be determined by the board on the petition and report of the engineer, and such other evidence as the board may hear. No additional land shall be taken into any such drainage district after the improvements in the district have been substantially completed, unless one-third of the owners of the land proposed to be annexed have petitioned or consented in writing to the annexation.

2. However, the board of supervisors may install a temporary portable pumping station to remove flood waters in an emergency. The board of supervisors shall levy and collect the cost of the purchase, operation, and maintenance of the pumping station from the lands in the district benefited by the pumping station in the same manner as provided for in the construction and maintenance of a drainage or levee district. For the purpose of this

DRAINAGE DISTRICTS IN CONNECTION WITH UNITED STATES LEVEES

Referred to in §331.502, 331.552, 350.4, 468.3

468.390 United States levees — cooperation of board.

In any case where the United States has built or shall build a levee along or near the bank of a navigable stream forming a part of the boundary of this state, the board of supervisors of any county through which the same may pass shall have the power to aid in procuring the right-of-way for and maintaining said levee, and providing a system of internal drainage made necessary or advisable by the construction thereof. Such improvement shall be presumed to be conducive to the public health, convenience, welfare, or utility.

[C97, §1975; C24, 27, 31, 35, 39, §**7744;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §466.1]

CS89, §468.390
Referred to in §468.391, 468.396

468.391 Manner of cooperation.

Any United States government levee under the conditions mentioned in section 468.390 may be taken into consideration by the board as a part of the plan of any levee or drainage district and improvements therein, and such board may, by agreement with the proper authorities of the United States government, provide for payment of such just and equitable portion of the costs of procuring the right-of-way and maintenance of such levee as shall be conducive to the public welfare, health, convenience, or utility.

[C97, §1975; C24, 27, 31, 35, 39, §**7745;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §466.2]

468.394 Annual installments.

If the proposed improvement is the maintenance of a levee, the amount collected in any one year shall not exceed three dollars and thirty-seven and one-half cents per thousand dollars of the assessment valuation, which said assessment shall be levied at a level rate on the assessable value of the said lands, improvements, easements, and railroads within the district. If the amount necessary to pay for the improvement exceeds said sum, it shall be levied and collected in annual installments of twenty or less. For all other improvements, the board shall levy a rate sufficient to pay for the same, and may, at their discretion, make the same payable in annual installments of twenty or less.

Referred to in §468.395, 468.396

468.395 Collection of tax.

The assessment required under sections 468.393 and 468.394 shall be made by the board of supervisors at the time of levying general taxes, after the work has been authorized, and the assessment shall be entered on the records of the board of supervisors, then entered on the tax books by the county auditor as drainage taxes, and shall be collected by the county treasurer at the same time, in the same manner, and with the same interest, as general taxes. If the assessment is not paid the treasurer shall sell all lands upon which the assessment remains unpaid, at the same time, and in the same manner, as is now by law provided for the sale of lands for delinquent taxes, including all steps up to the execution and delivery of the tax deed. The landowners shall take notice of and pay the assessments without other or further notice than as is provided for in this part. The funds realized from the assessments shall constitute the drainage fund, as contemplated in this part, and shall be disbursed on warrants drawn against that fund by the county auditor, on the order of the board of supervisors.

468.396 Cost of maintaining.

The board of supervisors shall have the right and power to keep and maintain any such levee, ditches, drains, or system of drainage, either in whole or in part, established under sections 468.390 through 468.395, as may in their judgment be required, and to levy the expense thereof upon the real estate within such drainage district as provided for in this part, and collect and expend the same; provided, however, that no such work which shall impose a tax exceeding three dollars and thirty-seven and one-half cents per thousand dollars on the assessable value of the lands and improvements within the district shall be authorized by the board, unless the work is first petitioned for and authorized in substantially the manner required by this part for the inauguration of new work. However, if such work is of the kinds contemplated by section 468.126, and the cost thereof is within the limitations of section 468.126, or is of the kinds contemplated by section 468.188, and the cost thereof is within the

INTERSTATE DRAINAGE DISTRICTS

468.400 Cooperation — procedure.

When proceedings for the drainage of lands bordering upon the state line are had and the total cost of constructing the improvement in this state, including all damage, has been ascertained, and the engineer in charge, before the final establishment of the district, reports that the establishment and construction of such improvement ought to be jointly done with like proceedings for the drainage of lands in the same drainage area in such an adjoining state and that drainage proceedings are pending in such state for the drainage of such lands, the said authorities of this state may enter an order continuing the hearing on the establishment of such district to a fixed date, of which all parties shall take notice.

PART 1

AUTHORIZATION OF TRUSTEES

468.500 Trustees authorized.

1. *a.* In the manner provided in this subchapter, any drainage or levee district in which the original construction has been completed and paid for by bond issue or otherwise, may be placed under the control and management of a board of trustees to be elected by the persons owning land in the district that has been assessed for benefits.

b. A drainage or levee district under the control of a city council as provided in subchapter II, part 3, may be placed under the control and management of a board of trustees by the city council following the procedures provided in subchapter II, part 2, for the county board of supervisors.

2. An overlying drainage or levee district that controls and manages improvements and rights-of-way surrendered by a board of supervisors or board of trustees of a contained district, in accordance with sections 468.256 through 468.259, shall continue to be controlled and managed by a board of trustees as provided in subchapter II, part 3.

468.504 Election districts.

When a petition has been filed for the election of trustees to manage a district containing twenty thousand acres or more, the board, or, if the district extends into more than one county, the boards of the counties by joint action, shall, before the election, divide the district into three election districts for the purpose of securing a proper distribution of trustees in the district, and the division shall be so made that each election district will have substantially equal voting power and acreage, as nearly as may be. After the division is made there shall be elected one trustee for each of the election districts, but at the election all the qualified voters for the entire district shall be entitled to vote for each trustee. The division here provided for shall be for the purposes only of a proper distribution of trustees in the district and shall not otherwise affect the district or its management and control.

is elected, and a resident of that district. This subsection applies only when the election district is wholly within the corporate limits of a city.

3. An individual who has a legal or equitable interest in an entity that holds an interest in agricultural land located in the election district for which the trustee is elected, including as a bona fide owner. In addition, all of the following must apply:

a. The entity must be a general partnership formed under section 486A.202 or a person who holds the agricultural land under chapter 9H as a family farm corporation, authorized corporation, family farm limited liability company, authorized limited liability company, family farm limited partnership, limited partnership, family farm unincorporated nonprofit association, authorized unincorporated nonprofit association, family trust, or authorized trust.

b. The individual must hold the legal or equitable interest in the entity described in paragraph *"a"* as a partner in the general partnership, shareholder in the corporation, member in the limited liability company, general or limited partner in the limited partnership, member in the unincorporated nonprofit association, or beneficiary in the trust.

c. The individual must be a resident of the county in which the election district is located or of a county that is contiguous to or corners on that county.

4. *a.* A bona fide owner of benefited land in a drainage or levee district in which eighty-five percent of its acreage is situated within the corporate limits of a city and has been under the control of a city under subchapter II, part 3.

b. (1) For nonagricultural land, if the bona fide owner is a business corporation organized and existing under chapter 490 or 491, or a partnership, a stockholder or officer authorized by the corporation or a general partner may be elected as a trustee of the district.

(2) For agricultural land, if the bona fide owner is an entity described in subsection 3, paragraph *"a"*, an individual holding a legal or equitable interest in that entity may be elected as trustee.

468.511 Votes determined by assessment.

1. When a petition asking for the right to vote in proportion to assessment of benefits at all elections for any purpose thereafter to be held within said district, signed by a majority of the landowners owning land within said district assessed for benefits, is filed with the board of trustees, then, in all elections of trustees thereafter held within said district, any person whose land is assessed for benefits without regard to age, sex, or condition shall be entitled to one vote for each ten dollars or fraction thereof of the original assessment under the current classification against the land actually owned by the person in said district at the time of the election, but in order to have such ballot counted for more than one vote the voter shall write the voter's name upon the ballot. The vote of any landowner of the district may be cast by absent voters ballot as provided in chapter 53 except that the form of the applications for ballots, the voters' affidavits on the envelopes, and the endorsement of the carrier envelope for preserving the ballot shall be substantially in the form provided in subsections 2, 3, and 4, below. Application blanks, envelopes, and ballots shall be provided by and submitted to the office of the county auditor in which the election is held. The cost of such blanks, envelopes, ballots, and postage shall be paid by the district. For the purpose of this subchapter all landowners of the district shall be considered qualified voters, regardless of their place of residence.

2. For the purpose of this subchapter, applications for ballots shall be made on blanks substantially in the following form:

468.512 Vote by agent.

Except where the provisions of section 468.511, providing for vote in proportion to assessment are invoked, any person or corporation owning land or right-of-way within the district and assessed for benefits may have the person's or the corporation's vote cast by the person's or the corporation's agent or proxy authorized to cast such vote by a power of attorney signed and acknowledged by such person or corporation, and filed before such vote is cast in the auditor's office of the county in which such election is held. Every such power of attorney shall specify the particular election for which it is to be used, indicating the day, month, and year of such election, and shall be void for all elections subsequently held. The vote of the owner of any land in a drainage or levee district in any election, where the vote is not determined by assessment, may be cast by absent voters ballot in the same manner and form and subject to the same rights and restrictions as is provided in section 468.511 relating to vote by absentee ballot when votes are determined by assessment.

468.521 Elections — how conducted.

1. After the first election of trustees, the board of trustees shall act as judges of election; however, a trustee standing for election shall not serve as a judge.

2. The clerk of the board shall act as one of the clerks and an owner of land in the district shall be appointed by the board to act as another clerk.

3. The board shall fill any vacancy of an acting election judge by appointing a person who resides in the county where all or part of the drainage or levee district is located and who is eligible to vote in a general election in that county.

4. The result of each election shall be certified to the auditor or the several county auditors if the district is located in more than one county.

468.523 Vacancies.

If any vacancy occurs in the membership of the board of trustees between the annual elections, the remaining members of the board shall have power to fill such vacancies by appointment of persons having the same qualifications as themselves. The persons so appointed shall qualify in the same manner and hold office until the next annual election when their successors shall be elected. In the event that all places on the board become vacant, then a new board shall be appointed by the auditor, or if more than one county, then by the auditor of the county in which the greater acreage of the district is located. The persons so appointed shall hold office until the next annual election and until their successors are elected and qualify.

468.528 Disbursement of funds.

Drainage and levee taxes when so levied and collected shall be kept by the treasurer of the county in a separate fund to the credit of the district for which it is collected. The county treasurer shall disburse the moneys in the fund only upon any of the following:

1. The orders of the board of trustees, signed by the president of the board, upon which warrants shall be drawn by the auditor upon the treasurer.

2. For drainage and levee districts with pumping stations, by orders of the board of trustees directing the treasurer to place all or any part of the moneys into a checking account established by the board in a bank or credit union as defined in section 12C.1.

a. The treasurer shall disburse the moneys only upon resolution duly adopted by the board. The board shall not expend moneys in the account for a purpose if the board could not order the county treasurer to expend moneys from the county's separate fund for that same purpose.

b. The board shall file with the county auditor an annual financial statement that is accompanied by an unqualified opinion based upon an audit of the account performed by a

PART 3

ESTABLISHMENT OF OVERLYING DISTRICT AS NEW DRAINAGE OR LEVEE DISTRICT

468.538 Scope.

This part applies when the board of trustees of an overlying district accepts all improvements and rights-of-way surrendered by a board of supervisors or board of trustees of a contained district, in accordance with sections 468.256 through 468.259. In addition, after such acceptance, the overlying district must include at least thirty-five thousand acres with a pumping station, regardless of whether the drainage or levee district is located in more than one county. Such a district shall continue to be controlled and managed by a board of trustees elected as provided in this part.

2013 Acts, ch 86, §3, 6

Referred to in §468.539

468.539 Qualified application.

Part 2 of this subchapter shall also apply to this part, except as follows:

1. The trustees of the overlying district serving on the board at the time of acceptance as described in section 468.538 shall be considered initially elected as the trustees of the drainage or levee district as provided in sections 468.502, 468.503, and 468.521.

2. *a.* The board of trustees described in subsection 1 shall do all of the following:

(1) Establish the overlying district as a new drainage or levee district, which must include all improvements and rights-of-way surrendered by a board of supervisors or board of trustees of the contained district.

(2) Divide the new drainage or levee district into three election districts in the same manner as a board of supervisors acting pursuant to sections 468.504 and 468.505.

b. The petition described in section 468.501 is not required to be filed or considered under this subsection.

3. Each of the three persons elected as trustee to serve on a new drainage or levee district established pursuant to an election held by the board of trustees described in subsection 1 shall hold office for a staggered term as provided in section 468.518. A person elected as a trustee of the new drainage or levee district shall be elected from a specified election district, unless the person is elected at large as provided in subsection 4.

4. The board of trustees described in subsection 1 or a subsequent board of trustees of the new drainage or levee district may provide for the election of two additional persons to serve as trustees. The two additional persons shall be elected at large by all qualified voters for the entire drainage or levee district. Of the five persons elected as trustees of the new drainage or levee district, not more than two persons shall be elected from the same specified election district. One person's initial term shall be for one year and the second person's initial term shall be for two years in the same manner as provided in section 468.518.

5. Votes shall be determined as provided pursuant to either section 468.510 or 468.511 in the same manner as was determined for the overlying district.

FINANCING

PART 1

DRAINAGE REFUNDING BONDS

Referred to in §331.382, 331.552, 468.397

468.540 Refunding bonds.

The board of supervisors of any county may extend the time of the payment of any of its outstanding drainage bonds issued in anticipation of the collection of drainage assessments levied upon property within a drainage district, and may extend the time of payment of any unpaid assessment, or any installment or installments thereof. The board may renew or extend the time of payment of such legal bonded indebtedness, or any part thereof, for account of such drainage district, and may refund the same and issue drainage refunding bonds therefor subject to the limitation and in the manner provided in this part.

[C27, 31, 35, §7714-b1; C39, §**7714.01;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §463.1]

a. The bonded indebtedness of the drainage district.

b. The accrued interest on the bonded indebtedness, and any and all other indebtedness owing by the drainage district.

c. A full and complete schedule of all lands sold at tax sale, including the amount of drainage assessments thereon.

d. A list of all real estate within the drainage district, showing the unpaid assessments thereon.

e. A schedule, under which the bonded indebtedness of said drainage district may be reamortized.

f. A schedule under which all other indebtedness of said drainage district may be paid or reamortized.

2. Upon the filing of the report by the conservator, the court shall set a date for hearing thereon, which date shall not be less than ten or more than fifteen days, from the filing of the report.

468.577 Adjudication on report.

1. At the hearing of the conservator's report, the court shall fix and determine the amount of money in the hands of the county treasurer belonging to the drainage district; the amount of the indebtedness of the drainage district; and to whom the indebtedness is due, and shall fix and determine the time, manner, and priority of payment of the indebtedness. The court shall fix and determine the amount of unpaid assessment or assessments against each tract of land within the drainage district, and may extend the time of payment, and reamortize and reallocate the assessments upon each tract of land within the drainage district.

2. If the court finds that the assessments as levied against each tract of land within the drainage district are not sufficient to pay the indebtedness due and owing by the drainage district, the court may order the board of supervisors of the county within which the drainage district is located, to levy an assessment against the lands within the drainage district, in an amount to pay the deficit. However, assessment for the payment of drainage bonds or improvement certificates shall not be levied against any tract of land if the owner of the land is not delinquent in payment of any assessment.

3. The amount of the reassessment on a particular piece of land shall be in direct proportion to the amount of unpaid assessments on the land. The assessment or expenses incidental thereto, for the payment of drainage bonds or improvement certificates under this part, shall not be levied against any tract of land if the owner of the land had previously paid all of the owner's assessment. The assessment shall be assessed and levied by the board of supervisors upon the lands within the drainage district, in the same proportion as the original assessment.

4. A copy of the order entered by the court shall be filed by the clerk of the district court with the county auditor, and the schedule of payments of the indebtedness of the drainage district as fixed and determined by the court shall be entered upon the drainage records of the drainage district and also spread upon the tax records of the county. The indebtedness shall become due and payable at the same time as ordinary taxes, and shall be collected in the same manner with the same interest as for delinquency, and in the same manner as for enforcing collection by tax sale. The court may apportion the costs between the creditors of the drainage district and the drainage district.

468.578 Refunding bonds.

The court shall direct the board of supervisors to issue bonds in lieu of the outstanding drainage bonds for said drainage district, and additional bonds for the accrued interest and other indebtedness of said drainage district. Said bonds shall be payable in amounts, and at the time and manner, and with priority of payments as has been determined by order of court, as provided by section 468.577, and shall be called "conservator's drainage district bonds". Each bond shall be numbered and shall state on its face that it is a conservator's drainage district bond; that it is issued in pursuance of a resolution adopted by the board of supervisors, under order of court, and giving the name of the court and the county where such court is held; that it is issued to pay indebtedness of the drainage district; shall state the county where such district is located, and the number of the drainage district for which it is issued; shall state the date of maturity of the bond, the rate of interest thereon, which rate shall not exceed that permitted by chapter 74A, and that the bond is to be paid only from taxes assessed, levied and collected on the lands within the drainage district for which the bond is issued subject to the provisions of section 468.577. All bonds shall be signed by the chairperson of the board of supervisors and countersigned by the conservator designated as such. The interest coupons attached to said bonds shall be attested by the signature of the conservator or a facsimile thereof. When the bonds have been executed as herein required, the conservator may sell said bonds at not less than par with accrued interest thereon, and pay the indebtedness of said drainage district, or may exchange said bonds with the creditors of said drainage district in amounts as have been fixed and determined by the court, and the conservator shall cancel all drainage bonds, improvement certificates, warrants or other evidence of indebtedness received by the conservator in lieu of the conservator's bonds.

468.622 Drainage connection with highway.

1. When the course of natural drainage of any land runs to a public highway, the owner of such land shall have the right to enter upon the highway for the purpose of connecting the owner's drain or ditch with any drain or ditch constructed along or across the highway. In making the connections, the owner shall do so in accordance with specifications furnished by the highway authorities having jurisdiction over the highway, which specifications shall be furnished to the owner on application. The owner shall leave the highway in as good condition in every way as it was before the work was done.

2. If a tile line or drainage ditch must be projected across the right-of-way to a suitable

468.623 Private drainage system — record.

1. Any person who has provided a system of drainage on land owned by the person may have the same made a matter of record in the office of the county recorder of the county in which the drainage system is located, provided any drainage system constructed after July 1, 1969, shall be made a matter of record. The record shall contain the applicable entries specified in sections 558.49 and 558.52.

2. Records under subsection 1 may be used to give the owner's name, description of tracts of land drained, stating the time when the drainage system was established, the kind, quality, and brand of tile used, the name and place of the manufacturing plant, the name of contractors who laid the tile, the name of the engineer in charge of the survey and installation, the cost of tile, delivery, installation, and engineering expense, depths, grades, outlets, connections, contracts for agreements with adjoining landowners as to connections, and any other matters or information that may be considered of value, and such information may be furnished by the landowner or the engineer having charge of the installation and certified to under oath.

468.626 Original plat filed.

In lieu of making the record as provided in section 468.623, any landowner may file with the county recorder the original plat used in the establishment of the drainage system, or a copy of the plat, which shall be certified by the engineer having made the same. If practicable, a plat filed under this section shall be made a matter of record and shall contain the applicable entries specified in sections 558.49 and 558.52.

468.629 Lost records — hearing.

When the records of any mutual drain are incomplete or have been lost, or when the owner of any land affected by such mutual drain believes that the apportionment of costs or damages is inequitable or that repair or reconstruction is needed, such owner may petition the board of supervisors for relief. The board shall notify all affected parties of such petition, and set a date for a hearing on the petition. The board may adjourn the proceedings from day to day, but no adjournment shall be for more than ten days, and may order such engineering examinations, reclassifications of lands and appraisals of damages as they deem necessary. At the completion of the hearing the supervisors shall reestablish the original records or establish a revised record and basis for apportionment of costs and damages as they find equitable and advisable, and may order such repairs or reconstruction as they find to be needed. All cost of such reestablishment or revisions of records, and of the needed repair or reconstruction shall be apportioned in accordance with the basis established.

468.634 Petition to combine with established district.

Upon receipt of a petition, signed by the owners of the lands served by a mutual drain, requesting that such drain be combined with an established drainage district, the board shall hold a hearing with due notice to the owners of all lands affected by said mutual drain, and if the board finds it desirable it may by resolution make such mutual drains a part of the established district. Such hearing and resolution may be continued as the board deems necessary for the collection of additional information as provided in section 468.633. Such combination with an established district shall constitute dissolution of the mutual drain, and shall be so recorded, after which such mutual drain shall be a part of the district drain in all respects.

469A.1 Certificate of convenience and necessity.
469A.2 Public hearing.
469A.3 Public welfare promoted.
469A.4 Rules imposed.
469A.5 Costs advanced.
469A.6 Amendment or revocation.
469A.7 Penalty.
469A.8 Unlawful combination — receivership.

469A.1 Certificate of convenience and necessity.

It shall be unlawful for any person, firm, association or corporation to engage in the business of constructing, maintaining or operating within this state any hydroelectric generating plant or project without first having obtained from the executive council of Iowa a certificate of convenience and necessity declaring that the public convenience and necessity require such construction, maintenance or operation.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §469A.1]

Referred to in §469A.7

469A.2 Public hearing.

No certificate of convenience and necessity shall be issued by the executive council except after a public hearing thereon. The executive council shall, upon the filing of an application for such a certificate, fix the time of the public hearing thereon and shall prescribe the notice which shall be given by the applicant. Any interested person, firm, association, corporation, municipality, state board or commission may intervene and participate in such proceeding and at such hearing.

UNOFFICIAL VERSION: 2011 EARLY RELEASE

469A.4 Rules imposed.

The executive council shall prescribe such rules as it may determine necessary for the administration of the provisions of this chapter and may amend such rules at any time.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §469A.4]

469A.5 Costs advanced.

The executive council shall, upon the filing of an application, require the applicant to deposit with the secretary of the executive council such amount as the council shall determine, to pay the expenses to be incurred by the executive council in its investigations and in conducting the proceedings, and the executive council may, from time to time as it deems necessary, require the deposit of additional amounts for such purpose.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §469A.5]

469A.6 Amendment or revocation.

The executive council may at any time for just cause or upon the failure of the applicant to comply with and to obey the terms and conditions attached to the issuance of any certificate, or when the public convenience and necessity demands, alter, amend or revoke any certificate issued under the provisions of this chapter.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §469A.6]

469A.7 Penalty.

Any person, firm, association or corporation who shall violate the provisions of section 469A.1, shall be guilty of a serious misdemeanor. Each separate day that a violation occurs shall constitute a separate offense.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §469A.7]

469A.8 Unlawful combination — receivership.

The state may take possession of a dam for which a permit has been issued under section 455B.275 through receivership proceedings, if the dam becomes owned, leased, trusteed, possessed, or controlled by a person in a manner constituting an unlawful combination or trust, or if the dam is the subject or part of the subject of an agreement to limit the output of hydraulic or hydroelectric power derived from the dam for the purpose of price fixing. The receivership proceedings must be instituted by the executive council, and shall be conducted for the purpose of disposing of the dam for a lawful use. The proceeds from the disposition shall be used to reimburse the state for expenses incurred in the receivership. The remaining proceeds shall be awarded to persons found by the court to be entitled to the proceeds.

LIFE CYCLE COST ANALYSIS OF PUBLIC FACILITIES

Referred to in §331.361

470.1 Definitions.
470.2 Policy — analysis required.
470.3 Elements of analysis.
470.4 Analysis approved.
470.5 Exceptions.
470.6 Restriction on use of public funds.
470.7 Life cycle cost analysis — approval.
470.8 Life cycle cost analysis — implementation and exemptions.

470.1 Definitions.

As used in this chapter unless the context otherwise requires:

1. *"Addition"* means new construction equal to or greater than twenty thousand square

feet of usable floor space that is heated or cooled by a mechanical or electrical system and is joined to an existing facility.

2. *"Authority"* means the economic development authority created in section 15.105.

3. *"Commissioner"* means the state building code commissioner.

4. *"Director"* means the director of the economic development authority.

5. *"Economic life"* means the projected or anticipated useful life of a facility as expressed by a term of years.

6. *"Energy system"* includes but is not limited to the following equipment or measures:

a. Equipment used to heat or cool the facility.

b. Equipment used to heat water in the facility.

c. On-site equipment used to generate electricity for the major facility.

d. On-site equipment that uses the sun, wind, oil, natural gas, coal, or electricity as a power source.

e. Energy conservation measures in the facility design and construction that decrease the energy requirements of the facility.

7. *"Facility"* means a building having twenty thousand square feet or more of usable floor space that is heated or cooled by a mechanical or electrical system.

8. *"Initial cost"* means the moneys required for the capital construction or renovation of a facility or the construction of an addition.

9. *"Life cycle cost analysis"* means an analytical technique that considers certain costs of owning, using, and operating a facility over its economic life including but not limited to the following:

a. Initial costs.

b. System repair and replacement costs.

c. Maintenance costs.

d. Operating costs, including energy costs.

e. Salvage value.

10. *"Public agency"* means a state agency, political subdivision of the state, school district, area education agency, or community college.

11. *"Renovation"* means a project where alterations, that are not additions, to an existing facility exceed fifty percent of the value of a facility and will affect an energy system.

[C81, §470.1]

91 Acts, ch 253, §17, 18; 2009 Acts, ch 108, §23, 41; 2011 Acts, ch 118, §42 – 44, 89; 2016 Acts, ch 1109, §1, 2, 9

470.2 Policy — analysis required.

The general assembly declares that energy management is of primary importance in the design of publicly owned facilities. On or after May 26, 2016, a public agency responsible for the construction or renovation of a facility or the construction of an addition shall, in a design begun after that date, include as a design criterion the requirement that a life cycle cost analysis be conducted for the facility. The objectives of the life cycle cost analysis are to optimize energy efficiency at an acceptable life cycle cost. The life cycle cost analysis shall meet the requirements of section 470.3.

[C81, §470.2]

2016 Acts, ch 1109, §3, 9

470.3 Elements of analysis.

1. A life cycle cost analysis shall include but is not limited to the following elements:

a. Specification of energy management objectives and health, safety, and functional constraints. The facility design shall comply with applicable state or local building code requirements.

b. Identification of the energy needs of the facility and energy system alternatives to meet those needs.

c. Cost of the energy system alternatives identified in paragraph *"b"* of this subsection.

d. Determination of amounts and timing of cash flow.

UNOFFICIAL VERSION. 2021 EARLY RELEASE

e. Calculation of life cycle cost using an economic model such as, but not limited to, rate of return, annual equivalent cost or present equivalent cost.

f. Evaluation of design and system alternatives using a method such as, but not limited to, design matrixes, ranking tables, or network analysis.

2. A public agency or a person preparing a life cycle cost analysis for a public agency shall use the methodology set forth in the guidelines established, by rule, by the commissioner.

[C81, §470.3]

88 Acts, ch 1179, §6; 91 Acts, ch 253, §19; 2009 Acts, ch 108, §24, 41; 2011 Acts, ch 118, §50, 89; 2016 Acts, ch 1109, §4, 9

Referred to in §470.2

470.4 Analysis approved.

The life cycle cost analysis shall be approved by the public agency before contracts for the construction or renovation of a facility or the construction of an addition are let. A public agency may accept a facility design and shall meet the requirements of this chapter if the design meets the operational requirements of the agency and provides the optimum life cycle cost. The public agency shall retain a copy of the life cycle cost analysis and a statement justifying a design decision both of which shall be available for public inspection at reasonable hours.

[C81, §470.4]

2016 Acts, ch 1109, §5, 9

470.5 Exceptions.

This chapter does not apply to buildings used on January 1, 1980, by the division of adult corrections of the department of health and human services as maximum security detention facilities or to the renovation of property nominated to, or entered in the national register of historic places, designated by statute, or included in an established list of historic places compiled by the state historic preservation officer.

[C81, §470.5; 82 Acts, ch 1238, §22]

83 Acts, ch 96, §157, 159; 2023 Acts, ch 19, §1173, 2128

470.6 Restriction on use of public funds.

Public funds shall not be used for the construction or renovation of a facility or the construction of an addition unless the design for the work is prepared in accordance with this chapter and the actual construction or renovation of the facility or the construction of the addition meets the requirements of the design.

[C81, §470.6]

2016 Acts, ch 1109, §6, 9

470.7 Life cycle cost analysis — approval.

1. The public agency responsible for the new construction or renovation of a public facility or the construction of an addition to a public facility shall submit a copy of the life cycle cost analysis for review by the commissioner who shall consult with the authority. If the public agency is also a state agency under section 7D.34, comments by the authority or the commissioner, including any recommendation for changes in the analysis, shall, within thirty days of receipt of the analysis, be forwarded in writing to the public agency. If either the authority or the commissioner disagrees with any aspects of the life cycle cost analysis, the public agency affected shall timely respond in writing to the commissioner and the authority. The response shall indicate whether the agency intends to implement the recommendations and, if the agency does not intend to implement them, the public agency shall present its reasons. The reasons may include but are not limited to a description of the purpose of the facility or renovation, preservation of historical architectural features, architectural and site considerations, and health and safety concerns.

2. Within thirty days of receipt of the response of the public agency affected, the authority, the commissioner, or both, shall notify in writing the public agency affected of the authority's, the commissioner's, or both's agreement or disagreement with the response. In the event of

UNOFFICIAL VERSION: NOT EARLY RELEASE

a disagreement, the authority, the commissioner, or both, shall at the same time transmit the notification of disagreement with response and related papers to the executive council for resolution pursuant to section 7D.34. The life cycle cost analysis process, including submittal and approval, and implementation exemption requests pursuant to section 470.8, shall be completed prior to the letting of contracts for the construction or renovation of a facility or the construction of an addition.

88 Acts, ch 1179, §7; 89 Acts, ch 315, §28; 91 Acts, ch 253, §20; 2009 Acts, ch 108, §25, 41; 2011 Acts, ch 118, §50, 89; 2016 Acts, ch 1109, §7, 9

Referred to in §7D.35

470.8 Life cycle cost analysis — implementation and exemptions.

1. The public agency responsible for the new construction or renovation of a public facility or the construction of an addition shall implement the recommendations of the life cycle cost analysis.

2. The commissioner shall adopt rules for the implementation and administration of the life cycle cost analysis. The commissioner, in consultation with the director, shall, by rule, develop criteria to exempt facilities from the implementation requirements of this section. Using the criteria, the commissioner, in cooperation with the director, shall exempt facilities on a case-by-case basis. Factors to be considered when developing the exemption criteria shall include, but not be limited to, a description of the purpose of the facility or renovation, the preservation of historical architectural features, site considerations, and health and safety concerns. The commissioner and the director shall grant or deny a request for exemption from the requirements of this section within thirty days of receipt of the request.

473.1 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Alternative and renewable energy"* means energy sources including but not limited to solar, wind turbine, waste management, resource recovery, recovered energy generation, refuse-derived fuel, hydroelectric, agricultural crops or residues, hydrogen produced using renewable fuel sources, and woodburning, or relating to renewable fuel development and distribution.

2. *"Authority"* means the economic development authority created in section 15.105.

3. *"Director"* means the director of the authority or a designee.

4. *"Energy"* or *"energy sources"* means gasoline, fuel oil, natural gas, propane, coal, special fuels, and electricity.

5. *"Renewable fuel"* means a fuel that is all of the following:

a. A motor vehicle fuel that is any of the following:

(1) Produced from grain; starch; oilseed; vegetable, animal, or fish materials, including but not limited to fats, greases, and oil; sugar components, grasses, or potatoes; or other biomass.

(2) Natural gas produced from a biogas source including but not limited to a landfill, sewage waste treatment plant, animal feeding operation, or other place where decaying organic material is found.

b. Used to replace or reduce the quantity of fossil fuel present in a motor fuel mixture used to operate a motor vehicle.

6. *"Supplier"* means any person engaged in the business of selling, importing, storing, or generating energy sources, alternative and renewable energy, or renewable fuel in Iowa.

473.2 Findings.

The general assembly finds that the health, welfare, and prosperity of all Iowans require the provision of adequate, efficient, reliable, environmentally safe, and least-cost energy at prices which accurately reflect the long-term cost of using such energy resources and which are equitable to all Iowans. The goals and objectives of this policy are to ensure the following:

1. *Efficiency.* The provision of reliable energy at the least possible cost to Iowans in such manner that:

a. Physical, human, natural, and financial resources are allocated efficiently.

473.4 Duties of the authority.

The authority shall do the following:

1. Periodically update the Iowa energy plan that identifies objectives and strategies for developing the energy sector in the state.

2. Administer and coordinate federal funds received for energy conservation, energy management, and alternative and renewable energy programs.

3. Apply for, receive, administer, and use federal or other funds available for achieving the purposes of this chapter.

4. Promulgate rules necessary to carry out the provisions of this chapter, subject to review in accordance with chapter 17A. Rules promulgated by the governor pursuant to a proclamation issued under section 473.8 shall not be subject to review or a public hearing as required in chapter 17A; however, authority rules for implementation of the governor's proclamation are subject to the requirements of chapter 17A.

473.7 Duties of the authority. Repealed by 2024 Acts, ch 1167, §24.

473.8 Emergency powers.

1. If the director makes a determination the health, safety, or welfare of the people of this state is threatened by an actual or impending acute shortage of usable energy, the director shall provide the determination to the governor, together with the director's recommendations, on the declaration of an emergency by the governor and recommended actions, if any, to be undertaken. Within thirty days of the date of the determination by the director, the governor may issue a proclamation of emergency, which shall be filed with the secretary of state. The proclamation shall state the facts relied upon and the reasons for the proclamation.

2. *a.* Pursuant to the proclamation of an emergency or in response to a declaration of an energy emergency by the president of the United States under the federal Emergency Energy Conservation Act of 1979, Pub. L. No. 96-102, the governor by executive order may:

(1) Regulate the operating hours of energy consuming instrumentalities of state government, political subdivisions, private institutions, and business facilities to the extent the regulation is not hazardous or detrimental to the health, safety, or welfare of the people of this state. However, the governor shall have no authority to suspend, amend, or nullify any service being provided by a public utility pursuant to an order or rule of a federal agency that has jurisdiction over the public utility.

(2) Establish a system for the distribution and supply of energy. The system shall not include a coupon rationing program, unless the program is federally mandated.

(3) Curtail public and private transportation utilizing energy sources. Curtailment may include measures designed to promote the use of car pools and mass transit systems.

(4) Delegate any administrative authority vested in the governor to the authority or the director.

(5) Provide for the temporary transfer of directors, personnel, or functions of state departments and agencies, for the purpose of performing or facilitating emergency measures pursuant to subparagraphs (1) and (2).

(6) Accept the delegation of the authority for other mandatory measures as allowed under the federal Emergency Energy Conservation Act of 1979, Pub. L. No. 96-102, as amended.

b. If the general assembly is in session, it may revoke by concurrent resolution any proclamation of emergency issued by the governor. If the general assembly is not in session, the proclamation of emergency by the governor may be revoked by a majority vote of the standing membership of the legislative council. Such revocation shall be effective upon receipt of notice of the revocation by the secretary of state and any functions being performed pursuant to the governor's proclamation shall cease immediately.

3. A violation of an executive order of the governor issued pursuant to this section is a scheduled violation as provided in section 805.8C, subsection 1. If the violation is continuous and stationary in its nature and subsequent compliance can easily be ascertained, an officer may issue a memorandum of warning in lieu of a citation providing a reasonable amount of time not exceeding fourteen days to correct the violation and to comply with the requirements of the executive order.

473.10 Reserve required.

1. If the director or the governor finds that an impending or actual shortage or distribution imbalance of liquid fossil fuels may cause hardship or pose a threat to the health and economic well-being of the people of the state or a significant segment of the state's population, the governor may authorize the director to operate a liquid fossil fuel set-aside program as provided in subsection 2.

2. Upon authorization by the governor, the director may require a prime supplier to reserve a specified fraction of the prime supplier's projected total monthly release of liquid fossil fuel in Iowa. The director may release any or all of the fuel required to be reserved by a prime supplier to end-users or to distributors for release through normal retail distribution channels to retail customers. However, the specified fraction required to be reserved shall not exceed three percent for propane, aviation fuel, and residual oil, and five percent for motor gasoline, heating oil, and diesel oil.

3. The director shall periodically review and may terminate the operation of a set-aside program authorized by the director under subsection 1 when the director finds that the conditions that prompted the authorization no longer exist. The governor shall periodically review and may terminate the operation of a set-aside program authorized by the governor under subsection 1 when the governor finds that the conditions that prompted the authorization no longer exist.

4. The authority shall adopt rules to implement this section.

474.5	Rules, forms, and service.	474.10	General counsel.

474.1 Creation of commission — organization.

1. A utilities commission is created. The commission shall consist of three members appointed by the governor and subject to confirmation by the senate, not more than two of whom shall be from the same political party. Each member appointed shall serve for six-year staggered terms beginning and ending as provided by section 69.19. Vacancies shall be filled for the unexpired portion of the term in the same manner as full-term appointments are made.

2. *a.* Subject to confirmation by the senate, the governor shall appoint a member as the chairperson of the commission. The chairperson shall be the administrator of the utilities commission. The appointment as chairperson shall be for a two-year term which begins and ends as provided in section 69.19.

b. The commission shall appoint a chief operating officer to manage the operations of the utilities commission. The commission shall set the salary of the chief operating officer within the limits of the pay plan for exempt positions provided for in section 8A.413, subsection 3, unless otherwise provided by the general assembly. The commission may employ additional personnel as it finds necessary.

3. The utilities commission shall regulate and supervise public utilities operating in the state. The commission shall enforce and implement chapters 476, 476A, 477C, 478, 479, 479A, and 479B and shall perform other duties assigned to it by law.

4. As used in this chapter and chapters 475A, 476, 476A, 477A, 477C, 478, 479, 479A, and 479B, "*commission*" and "*utilities commission*" mean the Iowa utilities commission.

474.10 General counsel.

The commission shall employ a competent attorney to serve as its general counsel, and assistants to the general counsel as it finds necessary for the full and efficient discharge of its duties. The general counsel is the attorney for, and legal advisor of, the commission and is exempt from the merit system provisions of chapter 8A, subchapter IV. Assistants to the general counsel are subject to the merit system provisions of chapter 8A, subchapter IV. The general counsel or an assistant to the general counsel shall provide the necessary legal advice to the commission in all matters and represent the commission in all actions instituted in a state or federal court challenging the validity of a rule or order of the commission. The existence of a fact which disqualifies a person from election or from acting as a utilities commission member disqualifies the person from employment as general counsel or assistant general counsel. The general counsel shall devote full time to the duties of the office. During employment the counsel shall not be a member of a political committee, contribute to a political campaign fund other than through the income tax checkoff for contributions to the presidential election campaign fund, participate in a political campaign, or be a candidate for a political office.

475A.2 Duties.

The consumer advocate shall:

1. Investigate the legality of all rates, charges, rules, regulations, and practices of all persons under the jurisdiction of the utilities commission, and institute civil proceedings before the commission or any court to correct any illegality on the part of any such person. In any such investigation, the person acting for the office of the consumer advocate shall have the power to ask the commission to issue subpoenas, compel the attendance and testimony of witnesses, and the production of papers, books, and documents, at the discretion of the commission.
2. Represent the interests of all consumers generally and the public generally in all proceedings before the utilities commission.
3. Institute as a party judicial review of any decision of the utilities commission, if the consumer advocate deems judicial review to be in the public interest.
4. Appear for all consumers generally and the public generally in all actions instituted in any state or federal court which involve the validity of a rule, regulation, or order of the utilities commission.
5. Represent the interests of all consumers generally and the public generally in proceedings before federal and state agencies and related judicial review proceedings and appeals, at the discretion of the consumer advocate.
6. Appear and participate as a party in the name of the office of consumer advocate in the performance of the duties of the office.

475A.3 Office — employees — expenses.

1. *Office.* The office of consumer advocate shall be a separate division of the department of justice and located at the same location as the utilities commission. Administrative support services may be provided to the consumer advocate division by the utilities commission.
2. *Employees.* The attorney general may employ attorneys, legal assistants, secretaries, clerks, and other employees necessary for the full and efficient discharge of the duties and responsibilities of the consumer advocate division. The consumer advocate may employ consultants as expert witnesses or technical advisors pursuant to contract as the consumer advocate finds necessary for the full and efficient discharge of the duties of the office.
3. *Salaries, expenses, and appropriation.* The salary of the consumer advocate shall be fixed by the attorney general within the salary range set by section 8A.461. The salaries of employees of the consumer advocate shall be at rates of compensation consistent with current standards in industry. The reimbursement of expenses for the employees and the consumer advocate is as provided by law. The appropriation for the office of consumer advocate shall be a separate line item contained in the appropriation from the commerce revolving fund created in section 546.12.

475A.4 Utilities commission records.

The consumer advocate has free access to all the files, records, and documents in the office of the utilities commission except:

1. Personal information in confidential personnel records of the utilities commission.

UNOFFICIAL VERSION: 2024 NOT YET RELEASED

2. Records which represent and constitute the work product of the general counsel of the utilities commission, and records of confidential communications between utilities commission members and their general counsel, where the records relate to a proceeding before the commission in which the consumer advocate is a party or a proceeding in any state or federal court in which both the commission and the consumer advocate are parties.

3. Customer information of a confidential nature which could jeopardize the customer's competitive status and is provided by the utility to the commission. Such information shall be provided to the consumer advocate by the commission, if the commission determines it to be in the public interest.

475A.5 Service.

The consumer advocate is entitled to service of all documents required by statute or rule to be served on parties in proceedings before the utilities commission and all notices, petitions, applications, complaints, answers, motions, and other pleadings filed pursuant to statute or rule with the commission.

83 Acts, ch 127, §12; 2024 Acts, ch 1170, §369

475A.6 Certification of expenses to utilities commission.

1. *a.* The consumer advocate shall determine the advocate's expenses, including a reasonable allocation of general office expenses, directly attributable to the performance of the advocate's duties involving specific persons subject to direct assessment, and shall certify the expenses to the utilities commission not less than quarterly. The expenses shall then be includable in the expenses of the commission subject to direct assessment under section 476.10.

b. The consumer advocate shall annually, within ninety days after the close of each fiscal year, determine the advocate's expenses, including a reasonable allocation of general office expenses, attributable to the performance of the advocate's duties generally, and shall certify the expenses to the utilities commission. The expenses shall then be includable in the expenses of the commission subject to remainder assessment under section 476.10.

2. The consumer advocate is entitled to notice and opportunity to be heard in any utilities commission proceeding on objection to an assessment for expenses certified by the consumer advocate. Expenses assessed under this section shall not exceed the amount appropriated for the consumer advocate division of the department of justice.

3. The office of consumer advocate may expend additional funds, including funds for outside consultants, if those additional expenditures are actual expenses which exceed the funds budgeted for the performance of the advocate's duties. Before the office expends or encumbers an amount in excess of the funds budgeted, the director of the department of management shall approve the expenditure or encumbrance. Before approval is given, the director of the department of management shall determine that the expenses exceed the funds budgeted by the general assembly to the office of consumer advocate and that the office does not have other funds from which such expenses can be paid. Upon approval of the director of the department of management, the office may expend and encumber funds for excess expenses. The amounts necessary to fund the excess expenses shall be collected from those utilities or persons which caused the excess expenditures, and the collections shall be treated as appropriated receipts as defined in section 8.2.

SUBCHAPTER I

REGULATION AUTHORITY

476.1 Applicability of authority.

1. The utilities commission shall regulate the rates and services of public utilities to the extent and in the manner hereinafter provided.

2. As used in this chapter, *"public utility"* shall include any person, partnership, business association, or corporation, domestic or foreign, owning or operating any facilities for:

a. Furnishing gas by piped distribution system or electricity to the public for compensation.

b. Furnishing communications services to the public for compensation.

c. Furnishing water by piped distribution system to the public for compensation.

d. Furnishing sanitary sewage or storm water drainage disposal by piped collection system to the public for compensation.

3. This chapter does not apply to municipally owned waterworks, waterworks having less than two thousand customers, joint water utilities established pursuant to chapter 389, rural water districts incorporated and organized pursuant to chapters 357A and 504, cooperative water associations incorporated and organized pursuant to chapter 499, municipally owned sanitary sewage or storm water drainage systems, sanitary districts incorporated and organized pursuant to chapter 358, districts organized pursuant to chapter 468, or a person furnishing electricity to five or fewer customers either by secondary line or from an alternate energy production facility or small hydro facility, from electricity that is produced primarily for the person's own use.

4. The jurisdiction of the commission under this chapter shall include efforts designed to promote the use of energy efficiency strategies by gas and electric utilities required to be rate-regulated.

476.1A Applicability of authority — certain electric utilities.

1. Electric public utilities having fewer than ten thousand customers and electric cooperative corporations and associations are not subject to the regulation authority of the commission, except for regulatory action pertaining to all of the following:

a. Assessment of fees for the support of the commission and the office of consumer advocate, pursuant to section 476.10.

b. Safety standards and engineering standards.

c. Assigned areas of service, as set forth in sections 476.22 through 476.26.

d. Public utility railroad crossings, as set forth in section 476.27.

e. Filing alternate energy purchase program plans with the commission, and offering such programs to customers, pursuant to section 476.47.

2. However, section 476.2, subsection 7, section 476.20, subsections 1 through 4, sections 476.21, 476.51, 476.56, 476.58, 476.62, and 476.66, and chapters 476A and 478, to the extent applicable, apply to such electric utilities.

3. Electric cooperative corporations and associations and electric public utilities exempt from rate regulation under this section shall not make or grant any unreasonable preferences or advantages as to rates or services to any person or subject any person to any unreasonable prejudice or disadvantage.

4. The board of directors or the membership of an electric cooperative corporation or association otherwise exempt from rate regulation may elect to have the cooperative's rates regulated by the commission. The commission shall adopt rules prescribing the manner in which the board of directors or the membership of an electric cooperative may so elect.

UNOFFICIAL VERSION
NOT FOR RELEASE

If the board of directors or the membership of an electric cooperative has elected to have the cooperative's rates regulated by the commission, after two years have elapsed from the effective date of such election the board of directors or the membership of the electric cooperative may elect to exempt the cooperative from the rate regulation authority of the commission, provided, however, that if the membership elected to have the cooperative's rates regulated by the commission, only the membership may elect to exempt the cooperative from the rate regulation authority of the commission.

5. An electric utility subject to regulatory action pursuant to this section is subject to complaints and investigations as set forth in section 476.3, but only with regard to matters within the regulatory authority of the commission as set forth in subsections 1 and 2.

6. As used in this section:

a. "Engineering standards" means standards adopted by the American national standards institute, or the institute of electrical and electronics engineers, rural utilities service, or comparable engineering organization or engineering standards adopted by the commission.

b. "Rates" means the same as defined in section 384.80 and includes all charges or fees imposed or collected for the provision of or incidental to utility service.

c. "Safety standards" means applicable regulations promulgated by the United States occupational safety and health administration and by the labor commissioner under chapter 88. Safety standards for electric utilities subject to this section also include outage notifications, safety standards contained in the national electric safety code, as published by the institute of electrical and electronic engineers, inc., and electric safety standards approved by the American national standards institute.

476.1B Applicability of authority — municipally owned utilities.

1. A municipally owned utility furnishing gas or electricity is not subject to the regulation authority of the commission, except for regulatory action pertaining to the following:

a. Assessment of fees for the support of the commission and the office of consumer advocate, as set forth in section 476.10.

b. Safety standards.

c. Assigned areas of service, as set forth in sections 476.22 through 476.26.

d. Public utility railroad crossings, as set forth in section 476.27.

e. An electric power agency as defined in chapter 28F and section 390.9 that includes as a member a city or municipally owned utility that builds transmission facilities after July 1, 2001, is subject to applicable transmission reliability rules or standards adopted by the commission for those facilities.

f. Filing alternate energy purchase program plans with the commission, and offering such programs to customers, pursuant to section 476.47.

2. Section 476.2, subsection 7, section 476.20, subsections 1 through 4, sections 476.51, 476.56, 476.58, 476.62, and 476.66, and chapters 476A and 478, to the extent applicable, apply to such electric and gas utilities.

3. A municipally owned utility providing local exchange services is not subject to the regulation authority of the commission except for regulatory action pertaining to the enforcement of sections 476.10, 476.95, 476.95A, 476.95B, 476.100, 476.102, and 476.103.

Subsection 2 amended

476.1C Applicability of authority — certain gas utilities.

1. Gas public utilities having fewer than two thousand customers:

a. Are not subject to the regulation authority of the utilities commission under this chapter unless otherwise specifically provided. Sections 476.10, 476.20, 476.21, and 476.51 apply to such gas utilities.

b. Shall file energy efficiency plans and energy efficiency results with the commission. The energy efficiency plans as a whole shall be cost-effective. The commission may waive all or part of the energy efficiency filing requirements if the gas utility demonstrates superior results with existing energy efficiency efforts.

c. Shall keep books, accounts, papers, and records accurately and faithfully in the manner and form prescribed by the commission. The commission may inspect the accounts of the utility at any time.

d. (1) May make effective a new or changed rate, charge, schedule, or regulation after giving written notice of the proposed new or changed rate, charge, schedule, or regulation to all affected customers served by the public utility. The notice shall inform the customers of their right to petition for a review of the proposal to the utilities commission within sixty days after notice is served if the petition contains the signatures of at least one hundred of the gas utility's customers. The notice shall state the address of the utilities commission. The new or changed rate, charge, schedule, or regulation takes effect sixty days after such valid notice is served unless a petition for review of the new or changed rate, charge, schedule, or regulation signed by at least one hundred of the gas utility's customers is filed with the commission prior to the expiration of the sixty-day period.

(2) If such a valid petition is filed with the commission within the sixty-day period, any new or changed rate, charge, schedule, or regulation shall take effect, under bond or corporate undertaking, subject to refund of all amounts collected in excess of those amounts which would have been collected under the rates or charges finally approved by the commission. The commission shall, within five months of the date of filing, make a determination of just and reasonable rates based on a review of the proposal, applying established regulatory principles. The commission may call upon the gas public utility and its customers to furnish factual evidence in support of or opposition to the new or changed rate, charge, schedule, or regulation. If the gas public utility disputes the finding, the utility may within twenty days file for further review, and the commission shall docket the case as a formal proceeding under section 476.6, subsection 4, and set the case for hearing. The gas public utility shall submit factual evidence and written argument in support of the filing.

e. Shall not make effective a new or changed rate, charge, schedule, or regulation which relates to services for which a rate change is pending within twelve months following the date the petition to review the prior proposed rate, charge, schedule, or regulation was filed with the commission or until the commission has made its determination of just and reasonable rates, whichever date is earlier, unless the utility applies to the commission for authority and receives authority to make a subsequent rate change at an earlier date.

f. Shall not make or grant any unreasonable preferences or advantages as to rates or services to any person or subject any person to any unreasonable prejudice or disadvantage. Rates charged by a gas public utility having less than two thousand customers for transportation of customer-owned gas shall not exceed the actual cost of such transportation services including a fair rate of return.

2. If, as a result of a review of a proposed new or changed rate, charge, schedule, or regulation of a gas public utility having fewer than two thousand customers, the consumer advocate alleges in a filing with the commission that the utility rates are excessive, the disputed amounts shall be specified by the consumer advocate in the filing. The gas public utility shall, within the time prescribed by the commission, file a bond or undertaking approved by the commission conditioned upon the refund in a manner prescribed by the

commission of amounts collected after the date of the filing which are in excess of rates or charges finally determined by the commission to be lawful. If after formal proceeding and hearing pursuant to section 476.6 the commission finds that the utility rates are unlawful, the commission shall order a refund, with interest, of amounts collected after the date of filing of the petition that are determined to be in excess of the amounts which would have been collected under the rates finally approved. However, the commission shall not order a refund that is greater than the amount specified in the petition, plus interest. If the commission fails to render a decision within ten months following the date of filing of the petition, the commission shall not order a refund of any excess amounts that are collected after the expiration of that ten-month period and prior to the date the decision is rendered.

476.1D Regulation and deregulation of communications services.

1. Except as provided in this section, the jurisdiction of the commission as to the regulation of communications services is not applicable to a service or facility that is provided or is proposed to be provided by a telephone utility that is or becomes subject to effective competition, as determined by the commission.

a. In determining whether a service or facility is or becomes subject to effective competition, the commission shall consider, among other factors, whether a comparable service or facility is available from a supplier other than the telephone utility in the geographic market being considered by the commission and whether market forces in that market are sufficient to assure just and reasonable rates without regulation.

b. When considering market forces in the market proposed to be deregulated, the commission shall consider factors including but not limited to the presence or absence of all of the following:

(1) Wireless communications services.

(2) Cable telephony services.

(3) Voice over internet protocol services.

(4) Economic barriers to the entry of competitors or potential competitors in that market.

2. Deregulation of a service or facility for a utility is effective only after a finding of effective competition by the commission.

3. If the commission finds that a service or facility is subject to effective competition, the commission shall deregulate the service or facility within a reasonable time.

4. Upon deregulation, all investment, revenues, and expenses associated with the service or facility shall be removed from the telephone utility's regulated operations and shall not be considered by the commission in setting rates for the telephone utility unless they continue to affect the utility's regulated operations. If the commission considers investment, revenues, and expenses associated with unregulated services or facilities in setting rates for the telephone utility, the commission shall not use any profits or costs from such unregulated services or facilities to determine the rates for regulated services or facilities.

5. Notwithstanding the presence of effective competition, if the commission determines a service or facility is an essential communications service or facility and the public interest warrants retention of service regulation, the commission shall deregulate rates and may continue service regulation.

6. The commission may reimpose rate and service regulation on a deregulated service or facility if it determines the service or facility is no longer subject to effective competition.

7. The commission may reimpose service regulation only on a deregulated service or facility if the commission determines the service or facility is an essential communications service or facility and the public interest warrants service regulation, notwithstanding the presence of effective competition.

8. If the commission reimposes regulation pursuant to subsection 6 or 7, the reimposition of regulation shall apply to all providers of the service or facility.

9. The commission may investigate and obtain information from providers of deregulated services or facilities to determine whether the services or facilities are subject to effective

competition or whether the service or facility is an essential communications service or facility and the public interest warrants service regulation. However, the commission shall not, for purposes of this subsection, request or obtain information related to the provider's costs or earnings.

476.2 Commission powers and rules — utility's Iowa office.

1. The commission shall have broad general powers to effect the purposes of this chapter notwithstanding the fact that certain specific powers are set forth in this section. The commission shall have authority to issue subpoenas and to pay the same fees and mileage as are payable to witnesses in the courts of record of general jurisdiction and shall establish all needful, just and reasonable rules, not inconsistent with law, to govern the exercise of its powers and duties, the practice and procedure before it, and to govern the form, contents and filing of reports, documents and other papers provided for in this chapter or in the commission's rules. In the establishment, amendment, alteration or repeal of any of such rules, the commission shall be subject to the provisions of chapter 17A.

2. The commission shall employ at rates of compensation consistent with current standards in industry such professionally trained engineers, accountants, attorneys, and skilled examiners and inspectors, secretaries, clerks, and other employees as it may find necessary for the full and efficient discharge of its duties and responsibilities as required by this chapter.

3. The commission may intervene in any proceedings before the federal energy regulatory commission or any other federal or state regulatory body when it finds that any decision of that tribunal would adversely affect the costs of any public utility service within the state of Iowa.

4. The commission shall have authority to inquire into the management of the business of all public utilities, and shall keep itself informed as to the manner and method in which the same is conducted, and may obtain from any public utility all necessary information to enable the commission to perform its duties.

5. The commission shall have the authority to employ or appoint an independent administrative law judge to preside over any hearing or proceeding before the commission. Sections 10A.801 and 17A.11 do not apply to the employment or appointment of an administrative law judge pursuant to this subsection.

6. Each rate-regulated gas and electric utility operating within the state shall maintain within the state the utility's principal office for Iowa operations. The principal office shall be subject to the jurisdiction of the commission and shall house those books, accounts, papers, and records of the utility deemed necessary by the commission to be housed within the state. The utility shall maintain within the state administrative, technical, and operating personnel necessary for the delivery of safe and reasonably adequate services and facilities as required pursuant to section 476.8. A public utility which violates this section shall be subject to the penalties provided in section 476.51 and shall be denied authority to recover, for a period determined by the commission, the costs of an energy efficiency plan pursuant to section 476.6, subsection 8.

7. The commission shall have the authority to compel all public utilities to share with Iowa state university of science and technology the utility's information necessary to develop state load forecasts and state electric transmission system expansion planning analysis pursuant to section 15.120A. A public utility may use a third party to prepare such information to be shared with Iowa state university of science and technology. A public utility may enter into a nondisclosure agreement with Iowa state university of science and technology requiring the shared information be kept confidential if the public utility reasonably believes the information is a confidential record pursuant to section 22.7. The state load forecast and state electric transmission system expansion planning aggregate

analysis published pursuant to section 15.120A may be used as evidentiary support in any proceedings before the commission, provided the confidentiality of any information provided by a public utility is maintained.

NEW subsection 7

476.3 Complaints — investigation — refunds.

1. A public utility shall furnish reasonably adequate service at rates and charges in accordance with tariffs filed with the commission. When there is filed with the commission by any person or body politic, or filed by the commission upon its own motion, a written complaint requesting the commission to determine the reasonableness of the rates, charges, schedules, service, regulations, or anything done or omitted to be done by a public utility subject to this chapter in contravention of this chapter, the written complaint shall be forwarded by the commission to the public utility, which shall be called upon to satisfy the complaint or to answer it in writing within a reasonable time to be specified by the commission. Copies of the written complaint forwarded by the commission to the public utility and copies of all correspondence from the public utility in response to the complaint shall be provided by the commission in an expeditious manner to the consumer advocate. If the commission determines the public utility's response is inadequate and there appears to be any reasonable ground for investigating the complaint, the commission shall promptly initiate a formal proceeding. If the consumer advocate determines the public utility's response to the complaint is inadequate, the consumer advocate may file a petition with the commission which shall promptly initiate a formal proceeding if the commission determines that there is any reasonable ground for investigating the complaint. The complainant or the public utility also may petition the commission to initiate a formal proceeding which petition shall be granted if the commission determines that there is any reasonable ground for investigating the complaint. The formal proceeding may be initiated at any time by the commission on its own motion. If a proceeding is initiated upon petition filed by the consumer advocate, complainant, or the public utility, or upon the commission's own motion, the commission shall set the case for hearing and give notice as it deems appropriate. When the commission, after a hearing held after reasonable notice, finds a public utility's rates, charges, schedules, service, or regulations are unjust, unreasonable, discriminatory, or otherwise in violation of any provision of law, the commission shall determine just, reasonable, and nondiscriminatory rates, charges, schedules, service, or regulations to be observed and enforced.

2. If, as a result of a review procedure conducted under section 476.31, a review conducted under section 476.32, a special audit, an investigation by commission staff, or an investigation by the consumer advocate, a petition is filed with the commission by the consumer advocate, alleging that a utility's rates are excessive, the disputed amount shall be specified in the petition. The public utility shall, within the time prescribed by the commission, file a bond or undertaking approved by the commission conditioned upon the refund in a manner prescribed by the commission of amounts collected after the date of filing of the petition in excess of rates or charges finally determined by the commission to be lawful. If upon hearing the commission finds that the utility's rates are unlawful, the commission shall order a refund, with interest, of amounts collected after the date of filing of the petition that are determined to be in excess of the amounts which would have been collected under the rates finally approved. However, the commission shall not order a refund that is greater than the amount specified in the petition, plus interest, and if the commission fails to render a decision within ten months following the date of filing of the petition, the commission shall not order a refund of any excess amounts that are collected after the expiration of that ten-month period and prior to the date the decision is rendered.

3. A determination of utility rates by the commission pursuant to this section that is based

upon a departure from previously established regulatory principles shall apply prospectively from the date of the decision.

476.4 Tariffs filed.

1. Every public utility shall file with the commission tariffs showing the rates and charges for its public utility services and the rules and regulations under which such services were furnished, on April 1, 1963, which rates and charges shall be subject to investigation by the commission as provided in section 476.3, and upon such investigation the burden of establishing the reasonableness of such rates and charges shall be upon the public utility filing the same. These filings shall be made under such rules as the commission may prescribe within such time and in such form as the commission may designate. In prescribing rules and regulations with respect to the form of tariffs and any other regulations, the commission shall, in the case of public utilities subject to regulation by any federal agency, give due regard to any corresponding rules and regulations of such federal agency, to the end that unnecessary duplication of effort and expense may be avoided so far as reasonably possible. Each public utility shall keep copies of its tariffs open to public inspection under such rules as the commission may prescribe.

2. No later than January 1, 2015, a telephone utility is required to file tariffs as provided in this section only for such wholesale services as may be specified by the commission.

3. Every rate, charge, rule, and regulation contained in any filing made with the Iowa state commerce commission on or prior to July 4, 1963, shall be effective as of such date, subject, however, to investigation as provided in this chapter. If any such filing is made prior to the time the Iowa state commerce commission prescribes rules, and if such filing does not comply as to form or substance with such rules, then the public utility which filed the same shall, within a reasonable time after the adoption of such rules, make a new filing or filings complying with such rules, which new filing or filings shall be deemed effective as of July 4, 1963.

476.6 Changes in rates, charges, schedules, and regulations — supply and cost review — water costs for fire protection — energy efficiency.

1. *Filing with commission.* A public utility subject to rate regulation shall not make effective a new or changed rate, charge, schedule, or regulation until the rate, charge, schedule, or regulation has been approved by the commission, except as provided in subsections 8 and 9.

2. *Written notice of increase.* All public utilities, except those exempted from rate regulation by section 476.1 and telecommunications service providers registered pursuant to section 476.95A, shall give written notice of a proposed increase of any rate or charge to all affected customers served by the public utility no more than thirty days prior to the time

UNOFFICIAL VERSION
NOT FOR RELEASE

the application for the increase is filed with the commission. Public utilities exempted from rate regulation by section 476.1, except telecommunications service providers registered pursuant to section 476.95A, shall give written notice of a proposed increase of any rate or charge to all affected customers served by the public utility at least thirty days prior to the effective date of the increase. If the public utility is subject to rate regulation, the written notice to affected customers shall include an estimate of the total bill impact on a typical customer in each affected customer class, provide a general explanation of the commission's rate increase review process, and state that the customer has a right to file a written objection to the rate increase and that the affected customers may request the commission to hold a public hearing to determine if the rate increase should be allowed. The written notice to each affected customer of the public utility shall be served in the manner in which the customer elects to receive bills and other communications from the public utility.

3. *Facts and arguments submitted.* At the time a public utility subject to rate regulation files with the commission an application for any new or changed rates, charges, schedules, or regulations, the public utility also shall submit factual evidence and written argument offered in support of the filing. If the filing is an application for a general rate increase, the utility shall also file affidavits containing testimonial evidence to be offered in support of the filing, although this requirement does not apply if the public utility is a rural electric cooperative.

4. *Hearing set.* After the filing of an application for new or changed rates, charges, schedules, or regulations by a public utility subject to rate regulation, the commission, prior to the expiration of thirty days after the filing date, shall docket the case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the commission. However, if an application presents no material issue of fact subject to dispute, and the commission determines that the application violates a relevant statute, or is not in substantial compliance with a commission rule lawfully adopted pursuant to chapter 17A, the application may be rejected by the commission without prejudice and without a hearing, provided that the commission issues a written order setting forth all of its reasons for rejecting the application. In the case of a gas public utility having less than two thousand customers, the commission shall docket a case as a formal proceeding and set the case for hearing as provided in section 476.1C. In the case of a rural electric cooperative, the commission may docket the case as a formal proceeding and set the case for hearing prior to the proposed effective date of the tariff. The commission shall give notice of formal proceedings as it deems appropriate. The docketing of a case as a formal proceeding suspends the effective date of the new or changed rates, charges, schedules, or regulations until the rates, charges, schedules, or regulations are approved by the commission, except as provided in subsection 9.

5. *Utility hearing expenses reported.* When a case has been docketed as a formal proceeding under subsection 4, the public utility, within a reasonable time thereafter, shall file with the commission a report outlining the utility's expected expenses for litigating the case through the time period allowed by the commission in rendering a decision. At the conclusion of the utility's presentation of comments, testimony, exhibits, or briefs the utility shall submit to the commission a listing of the utility's actual litigation expenses in the proceeding. As part of the findings of the commission under subsection 6, the commission shall allow recovery of costs of the litigation expenses over a reasonable period of time to the extent the commission deems the expenses reasonable and just.

6. *Finding by commission.* If, after hearing and decision on all issues presented for determination in the rate proceeding, the commission finds the proposed rates, charges, schedules, or regulations of the utility to be unlawful, the commission shall by order authorize and direct the utility to file new or changed rates, charges, schedules, or regulations which, when approved by the commission and placed in effect, will satisfy the requirements of this chapter. The rates, charges, schedules, or regulations so approved are lawful and effective upon their approval.

7. *Limitation on filings.* A public utility shall not make a subsequent filing of an application for a new or changed rate, charge, schedule, or regulation which relates to services for which a rate filing is pending within twelve months following the date the prior application was filed or until the commission has issued a final order on the prior application,

UNOFFICIAL VERSION
2023 — NOT FOR SALE

whichever date is earlier, unless the public utility applies to the commission for authority and receives authority to make a subsequent filing at an earlier date.

8. *Automatic adjustments.*

a. This chapter does not prohibit a public utility from making provision for the automatic adjustment of rates and charges for public utility service provided that a schedule showing the automatic adjustment of rates and charges is first filed with and approved by the commission.

b. A public utility may automatically adjust rates and charges to recover costs related to transmission incurred by or charged to the public utility consistent with a tariff or agreement that is subject to the jurisdiction of the federal energy regulatory commission, provided that a schedule showing the automatic adjustment of rates and charges is first filed with and approved by the commission. The commission shall adopt rules regarding the reporting of transmission expenses and transmission-related activity pursuant to this paragraph.

9. *Temporary authority.*

a. A public utility may choose to place in effect temporary rates, charges, schedules, or regulations without commission review on or after ten days following the filing date under this section. If the utility chooses to place such rates, charges, schedules, or regulations in effect, the utility shall file with the commission a bond or other corporate undertaking approved by the commission conditioned upon the refund in a manner prescribed by the commission of amounts collected in excess of the amounts which would have been collected under rates, charges, schedules, or regulations finally approved by the commission. At the conclusion of the proceeding if the commission determines that the temporary rates, charges, schedules, or regulations placed in effect under this paragraph were not based on previously established regulatory principles, the commission shall consider ordering refunds based upon the overpayments made by each individual customer class, rate zone, or customer group. If the commission has not rendered a final decision with respect to suspended rates, charges, schedules, or regulations upon the expiration of ten months after the filing date, plus the length of any delay that necessarily results either from the failure of the public utility to exercise due diligence in connection with the proceedings or from intervening judicial proceedings, plus the length of any extension permitted by section 476.33, subsection 3, then such temporary rates, charges, schedules, or regulations placed into effect on a temporary basis shall be deemed finally approved by the commission and the utility may place them into effect on a permanent basis.

b. If the commission finds that an extension of the ten-month period is necessary to permit the accumulation of necessary data with respect to the operation of a newly constructed electric generating facility that has a capacity of one hundred megawatts or more of electricity and that is proposed to be included in the rate base for the first time, the commission may extend the ten-month period up to a maximum extension of six months, but only with respect to that portion of the suspended rates, charges, schedules, or regulations that are necessarily connected with the inclusion of the generating facility in the rate base. If a utility is proposing to include in its rate base for the first time a newly constructed electric generating facility that has a capacity of one hundred megawatts or more of electricity, the filing date of new or changed rates, charges, schedules, or regulations shall, for purposes of computing the time limitations stated above, be the date as determined by the commission that the new plant went into service, but only with respect to that portion of the suspended rates, charges, schedules, or regulations that are necessarily connected with the inclusion of the generating facility in the rate base.

c. The commission shall determine the rate of interest to be paid by a public utility to persons receiving refunds. The interest rate to be applied to refunds of moneys collected subject to refund under this subsection is two percent per annum plus the average quarterly interest rate at commercial banks for twenty-four-month loans for personal expenditures, as determined by the commission, compounded annually. The commission shall consider federal reserve statistical release G.19 or its equivalent when determining interest to be paid under this subsection.

10. *Refunds passed on to customers.* If pursuant to federal law or rule a rate-regulated public utility furnishing gas to customers in the state receives a refund or credit for past gas purchases, the savings shall be passed on to the customers in a manner approved by

UNOFFICIAL VERSION 2021 IOWA CODE

the commission. Similarly, if pursuant to federal law or rule a rate-regulated public utility furnishing gas to customers in the state receives a rate for future gas purchases which is lower than the price included in the public utility's approved rate application, the savings shall be passed on to the customers in a manner approved by the commission.

11. *Natural gas supply and cost review.*

a. The commission shall periodically conduct a proceeding for the purpose of evaluating the reasonableness and prudence of a rate-regulated public utility's natural gas procurement and contracting practices. The natural gas supply and cost review shall be conducted as a contested case pursuant to chapter 17A.

b. Under procedures established by the commission, each rate-regulated public utility furnishing gas shall periodically file a complete natural gas procurement plan describing the expected sources and volumes of its gas supply and changes in the cost of gas anticipated over a future twelve-month period specified by the commission. The utilities shall file information as the commission deems appropriate.

c. During the natural gas supply and cost review, the commission shall evaluate the reasonableness and prudence of the gas procurement plan. If a utility is not taking all reasonable actions to minimize its purchase gas costs, consistent with assuring an adequate long-term supply of natural gas, the commission shall not allow the utility to recover from its customers purchase gas costs in excess of those costs that would be incurred under reasonable and prudent policies and practices.

12. *Electric energy supply and cost review.* The commission shall periodically conduct a proceeding for the purpose of evaluating the reasonableness and prudence of a rate-regulated public utility's procurement and contracting practices related to the acquisition of fuel for use in generating electricity. The evaluation may review the reasonableness and prudence of actions taken by a rate-regulated public utility to comply with the federal Clean Air Act Amendments of 1990, Pub. L. No. 101-549. The proceeding shall be conducted as a contested case pursuant to chapter 17A. Under procedures established by the commission, the utility shall file information as the commission deems appropriate. If a utility is not taking all reasonable actions to minimize its fuel and allowance transaction costs, the commission shall not allow the utility to recover from its customers fuel and allowance transaction costs in excess of those costs that would be or would have been incurred under reasonable and prudent policies and practices.

13. *Energy efficiency plans.* Electric and gas public utilities shall offer energy efficiency programs to their customers through energy efficiency plans. An energy efficiency plan as a whole shall be cost-effective. In determining the cost-effectiveness of an energy efficiency plan, the commission shall apply the societal test, total resource cost test, utility cost test, rate-payer impact test, and participant test. Energy efficiency programs for qualified low-income persons and for tree planting programs, educational programs, and assessments of consumers' needs for information to make effective choices regarding energy use and energy efficiency need not be cost-effective and shall not be considered in determining cost-effectiveness of plans as a whole. The energy efficiency programs in the plans may be provided by the utility or by a contractor or agent of the utility. Programs offered pursuant to this subsection by gas and electric utilities that are required to be rate-regulated shall require commission approval.

14. *Water costs for fire protection in certain cities.*

a. Application. A city furnished water by a public utility subject to rate regulation may apply to the commission for inclusion of all or a part of the costs of fire hydrants or other improvements, maintenance, and operations for the purpose of providing adequate water production, storage, and distribution for public fire protection in the rates or charges assessed to consumers covered by the applicant's fire protection service. The application shall be made in a form and manner approved by or as directed by the commission. The applicant shall provide such additional information as the commission may require to consider the application.

b. Review. The commission shall review the application, and may in its discretion consider additional evidence, beyond that supplied in the application or provided by the

UNOFFICIAL VERSION: 2021 RELEASE

applicant in response to a request for additional information pursuant to paragraph *"a"*, including but not limited to soliciting oral or written testimony from other interested parties.

c. Notice. Written notice of a proposed rate increase shall be provided by the public utility pursuant to subsection 2, except that notice shall be provided within ninety days of the date of application. Costs of the notice shall be paid for by the applicant.

d. Conditions for approval. As a condition to approving an application to include water-related fire protection costs in the utility's rates or charges, the commission shall make an affirmative determination that the following conditions will be met:

(1) That the service area currently charged for fire protection, either directly or indirectly, is substantially the same service area containing those persons who will pay for water-related fire protection through inclusion of such costs within the utility's rates or charges.

(2) That the inclusion of such costs within the utility's rates or charges will not cause substantial inequities among the utility's customers.

(3) That all or a portion of the costs sought to be included in the utility's rates or charges by the applicant are reasonable in the circumstances, and limited to the purposes specified in paragraph *"a"*.

(4) That written notice has been provided pursuant to paragraph *"c"* and that the costs of the notice have been paid by the applicant.

e. Inclusion within rates or charges. If the commission affirmatively determines that the conditions of paragraph *"d"* are or will be satisfied, the commission shall include the reasonable costs in the rates or charges assessed to consumers covered by the applicant's fire protection service.

f. Written order. The commission shall issue a written order within six months of the date of application. The written order shall include a recitation of the facts found pursuant to consideration of the application.

15. *Energy efficiency implementation, cost review, and cost recovery.*

a. (1) (a) Electric utilities required to be rate-regulated under this chapter shall file five-year energy efficiency plans and demand response plans with the commission. Gas utilities required to be rate-regulated under this chapter shall file five-year energy efficiency plans with the commission. An energy efficiency plan and budget or a demand response plan and budget shall include a range of energy efficiency or demand response programs, tailored to the needs of all customer classes, including residential, commercial, and industrial customers, for energy efficiency opportunities. The plans shall include programs for qualified low-income persons including a cooperative program with any community action agency within the utility's service area to implement countywide or communitywide energy efficiency programs for qualified low-income persons. Rate-regulated gas and electric utilities shall utilize Iowa agencies and Iowa contractors to the maximum extent cost-effective in their energy efficiency plans or demand response plans filed with the commission.

(b) The commission shall allow a customer of an electric utility that is required to be rate-regulated to request an exemption from participation in any five-year energy efficiency plan offered by an electric utility if the energy efficiency plan and demand response plan, at the time of approval by the commission, have a cumulative rate-payer impact test result of less than one. Upon receipt of a request for exemption submitted by a customer, the electric utility shall grant the exemption and, beginning January 1 of the following year, the customer shall no longer be assessed the costs of the plan and shall be prohibited from participating in any program included in such plan until the exemption no longer applies, as determined by the commission.

(2) Gas and electric utilities required to be rate-regulated under this chapter may request an energy efficiency plan or demand response plan modification during the course of a five-year plan. A modification may be requested due to changes in funding as a result of public utility customers requesting exemptions from the plan or for any other reason identified by the gas or electric utility. The commission shall take action on a modification request made by a gas or electric utility within ninety days after the modification request is filed. If the commission fails to take action within ninety days after a modification request is filed, the modification request shall be deemed approved.

UNOFFICIAL VERSION 2027 EARLY RELEASE

(3) The commission shall adopt rules pursuant to chapter 17A establishing reasonable processes and procedures for utility customers from any customer class to request exemptions from energy efficiency plans that meet the requirements of subparagraph (1), subparagraph division (b). The rules adopted by the commission shall only apply to electric utilities that are required to be rate-regulated.

b. A gas and electric utility required to be rate-regulated under this chapter shall assess potential energy and capacity savings available from actual and projected customer usage by applying commercially available technology and improved operating practices to energy-using equipment and buildings. The utility shall submit the assessment to the commission. Upon receipt of the assessment, the commission shall consult with the economic development authority to develop specific capacity and energy savings performance standards for each utility. The utility shall submit an energy efficiency plan which shall include economically achievable programs designed to attain these energy and capacity performance standards. The commission shall periodically report the energy efficiency results including energy savings of each utility to the general assembly.

c. (1) The commission shall conduct contested case proceedings for review of energy efficiency plans, demand response plans, and budgets filed by gas and electric utilities required to be rate-regulated under this chapter.

(2) Notwithstanding the goals developed pursuant to paragraph *"b"*, the commission shall not require or allow a gas utility to adopt an energy efficiency plan that results in projected cumulative average annual costs that exceed one and one-half percent of the gas utility's expected annual Iowa retail rate revenue from retail customers in the state, shall not require or allow an electric utility to adopt an energy efficiency plan that results in projected cumulative average annual costs that exceed two percent of the electric utility's expected annual Iowa retail rate revenue from retail customers in the state, and shall not require or allow an electric utility to adopt a demand response plan that results in projected cumulative average annual costs that exceed two percent of the electric utility's expected annual Iowa retail rate revenue from retail customers in the state. For purposes of determining the two percent threshold amount, the commission shall exclude from an electric utility's expected annual Iowa retail rate revenue the revenues expected from customers that have received exemptions from energy efficiency plans pursuant to paragraph *"a"*. This subparagraph shall apply to energy efficiency plans and demand response plans that are effective on or after January 1, 2019.

(3) The commission may approve, reject, or modify the plans and budgets. Notwithstanding the provisions of section 17A.19, subsection 5, in an application for judicial review of the commission's decision concerning a utility's plan or budget, the reviewing court shall not order a stay.

(4) The commission shall approve, reject, or modify a plan filed pursuant to this subsection no later than March 31, 2019. If the commission fails to approve, reject, or modify a plan filed by a gas or electric utility on or before such date, any plan filed by the gas or electric utility that was approved by the commission prior to May 4, 2018, shall be terminated. The commission shall not require or allow a gas or electric utility to implement an energy efficiency plan or demand response plan that does not meet the requirements of this subsection.

(5) Whenever a request to modify an approved plan or budget is filed subsequently by a gas or electric utility required to be rate-regulated under this chapter, the commission shall promptly initiate a formal proceeding if the commission determines that any reasonable ground exists for investigating the request. The formal proceeding may be initiated at any time by the commission on its own motion. Implementation of commission-approved plans or budgets shall be considered continuous in nature and shall be subject to investigation at any time by the commission or the office of the consumer advocate.

d. Notice to customers of a contested case proceeding for review of energy efficiency plans, demand response plans, and budgets shall be in a manner prescribed by the commission.

e. (1) A gas or electric utility required to be rate-regulated under this chapter may recover, through an automatic adjustment mechanism filed pursuant to subsection 8, over a period not

UNOFFICIAL VERSION NOT FOR RELEASE

to exceed the term of the plan, the costs of an energy efficiency plan or demand response plan approved by the commission in a contested case proceeding conducted pursuant to paragraph "*c*". Customers that have been granted exemptions from energy efficiency plans pursuant to paragraph "*a*", shall not be charged for recovery of energy efficiency costs beginning January 1 of the year following the year in which the customer was granted the exemption.

(2) The commission shall periodically conduct a contested case proceeding to evaluate the reasonableness and prudence of the utility's implementation of an approved energy efficiency or demand response plan and budget. If a utility is not taking all reasonable actions to cost-effectively implement an approved plan, the commission shall not allow the utility to recover from customers costs in excess of those costs that would be incurred under reasonable and prudent implementation and shall not allow the utility to recover future costs at a level other than what the commission determines to be reasonable and prudent. If the result of a contested case proceeding is a judgment against a utility, that utility's future level of cost recovery shall be reduced by the amount by which the programs were found to be imprudently conducted. Beginning January 1, 2019, a gas or electric utility shall represent energy efficiency and demand response in customer billings as a separate cost or expense.

f. A rate-regulated utility required to submit an energy efficiency plan under this subsection shall, upon the request of a state agency or political subdivision to which it provides service, provide advice and assistance regarding measures which the state agency or political subdivision might take in achieving improved energy efficiency results. The cooperation shall include assistance in accessing financial assistance for energy efficiency measures.

16. *Filing of forecasts.* The commission shall periodically require each rate-regulated gas or electric public utility to file a forecast of future gas requirements or electric generating needs and the commission shall evaluate the forecast. The forecast shall include but is not limited to a forecast of the requirements of its customers, its anticipated sources of supply, and its anticipated means of addressing the forecasted gas requirements or electric generating needs.

17. *Allocation of replacement tax costs.*

a. The costs of the replacement tax imposed pursuant to chapter 437A or 437B shall be reflected in the charges of utilities subject to rate regulation, in lieu of the utilities' costs of property taxes. The imposition of the replacement taxes pursuant to chapter 437A is not intended to initiate any change in the rates and charges for the sale of electricity, the sale of natural gas, or the transportation of natural gas that is subject to regulation by the commission and in effect on January 1, 1999. The implementation and initial imposition of the replacement taxes pursuant to chapter 437B is not intended to result in an increase in the rates and charges for the sale of water that is subject to regulation by the commission and in effect on January 1, 2013.

b. The cost of the replacement taxes imposed by chapter 437A or 437B shall be allocated among and within customer classes in a manner that will replicate the tax cost burden of the current property tax on individual customers to the maximum extent practicable.

c. Upon the restructuring of the electric industry in this state so that individual consumers are given the right to choose their electric suppliers, replacement tax costs shall be assigned to the service corresponding to the individual generation, transmission, and delivery taxes. In all other respects, the allocation of the replacement tax costs among and within the customer classes shall remain the same to the maximum extent practicable.

d. Notwithstanding this subsection, the commission may determine the amount of replacement tax properly included in retail rates subject to its jurisdiction. The commission may determine whether the base rates or some other form of rate is most appropriate for recovery of the costs of the replacement tax, subject to the requirement that utility rates be reasonable and just. The commission may also determine the appropriate allocation of the tax. Any significant modification to rate design relating to the replacement tax shall be made in a manner consistent with this subsection unless made in a contested case proceeding where the impact of such modification on competition and consumer costs is considered.

18. *Recovery of management costs.* A public utility which is assessed management costs by a local government pursuant to chapter 480A is entitled to recover those costs. If the

UNOFFICIAL VERSION
NOT LEGALLY RELEASED

public utility serves customers within the boundaries of the local government imposing the management costs, such costs shall be recovered exclusively from those customers.

19. *Electric power generating facility emissions.*

a. It is the intent of the general assembly that the state, through a collaborative effort involving state agencies and affected generation owners, provide for compatible statewide environmental and electric energy policies with respect to regulated emissions from rate-regulated electric power generating facilities in the state that are fueled by coal. Each rate-regulated public utility that is an owner of one or more electric power generating facilities fueled by coal and located in this state may develop a multiyear plan and budget or update an existing plan and budget for managing regulated emissions from its facilities in a reasonably cost-effective manner as provided in this subsection.

(1) A rate-regulated public utility in this state that is an owner of one or more electric power generating facilities fueled by coal may, in its sole discretion, file an update to a multiyear plan. The update may seek advanced review and approval of cost recovery for pollution and emissions control projects useful for managing the environmental regulatory requirements for pollutants or other emissions from such facilities in a reasonably cost-effective manner.

(2) Copies of the plan and budget, as well as any subsequent updates, shall be served on the department of natural resources. The commission shall consider the plan or update in a contested case proceeding pursuant to chapter 17A. The department of natural resources and the consumer advocate shall participate as parties to the proceeding.

(3) A rate-regulated public utility electing to seek advanced review of an emissions control project shall submit an application for advanced review before the anticipated start of construction or installation of the project. If an electric power generating facility is owned by two or more rate-regulated public utilities, the operator of the electric power generating facility may file the application on behalf of all rate-regulated public utility owners.

(4) The department of natural resources shall state whether the plan or update meets applicable state environmental requirements for regulated emissions. If the plan or update does not meet these requirements, the department shall recommend amendments that outline actions necessary to bring the plan or update into compliance with the environmental requirements.

b. The commission shall not approve a plan or update that does not meet applicable state environmental requirements and federal ambient air quality standards for regulated emissions from electric power generating facilities located in the state.

c. The commission shall review the plan or update and the associated budget, and shall approve the plan or update and the associated budget if the plan or update and the associated budget are reasonably expected to achieve cost-effective compliance with applicable state environmental requirements and federal ambient air quality standards. In reaching its decision, the commission shall consider whether the plan or update and the associated budget reasonably balance costs, environmental requirements, economic development potential, and the reliability of the electric generation and transmission system.

d. The commission shall issue an order approving or rejecting a plan, update, or budget within one hundred eighty days after the public utility's filing is deemed complete; however, upon good cause shown, the commission may extend the time for issuing the order as follows:

(1) The commission may grant an extension of thirty days.

(2) The commission may grant more than one extension, but each extension must rely upon a separate showing of good cause.

(3) A subsequent extension must not be granted any earlier than five days prior to the expiration of the original one-hundred-eighty-day period, or the current extension.

e. The reasonable costs incurred by a rate-regulated public utility in preparing and filing the plan, update, or budget and in participating in the proceedings before the commission and the reasonable costs associated with implementing the plan, update, or budget shall be included in its regulated retail rates.

f. It is the intent of the general assembly that the commission, in an environmental plan, update, or associated budget filed under this section by a rate-regulated public utility, may limit investments or expenditures that are proposed to be undertaken prior to the time that

UNOFFICIAL VERSION 2023 NOT FOR RELEASE

the environmental benefit to be produced by the investment or expenditure would be required by state or federal law.

20. *Preapproval of cost recovery for natural gas extensions — rules.* The commission may adopt rules which provide for a preapproval process for cost recovery for natural gas extensions.

21. *Federal tax reduction — customer benefits.* Customers of gas and electric utilities subject to rate regulation by the commission shall receive the full benefits of the utilities' reduced federal corporate income taxes as provided in the federal Tax Cuts and Jobs Act of 2017, Pub. L. No. 115-97, 131 Stat. 2054. Notwithstanding any other provision of law or rule to the contrary, the commission shall, no later than June 1, 2018, approve any proposal filed by a rate-regulated gas or electric utility to pass such benefits on to customers. The commission may approve rates with provision for adjustments to ensure that the rates are accurate and that customers receive the full benefits.

2. No later than thirty days prior to commencement of the construction or installation of an alternate energy production facility as described in subsection 1, the owner of the facility shall provide written notice to the public utility within whose service territory the facility is to be located of the owner's intent to construct or install the facility, the type of facility to be constructed or installed, and the date that the facility is anticipated to commence operation.

If there shall be filed with the commission by any public utility an application requesting the commission to determine the reasonableness of the utility's rates, charges, schedules, service or regulations, the commission shall promptly initiate a formal proceeding. Such a formal proceeding may be initiated at any time by the commission on its own motion. Whenever such a proceeding has been initiated upon application or motion, the commission shall set the case for hearing and give such notice thereof as it deems appropriate. Whenever the commission, after a hearing held after reasonable notice, finds any public utility's rates, charges, schedules, service or regulations are unjust, unreasonable, insufficient, discriminatory or otherwise in violation of any provision of law, the commission shall determine just, reasonable, sufficient and nondiscriminatory rates, charges, schedules, service or regulations to be thereafter observed and enforced.

476.8 Utility charges and service.

1. Every public utility is required to furnish reasonably adequate service and facilities. *"Reasonably adequate service and facilities"* for public utilities furnishing gas or electricity includes programs for customers to encourage the use of energy efficiency and renewable energy sources. The charge made by any public utility for any heat, light, gas, energy efficiency and renewable energy programs, water or power produced, transmitted, delivered or furnished, sanitary sewage or storm water collected and treated, or communications services, or for any service rendered or to be rendered in connection therewith shall be reasonable and just, and every unjust or unreasonable charge for such service is prohibited and declared unlawful. In determining reasonable and just rates, the commission shall consider all factors relating to value and shall not be bound by rate base decisions or rulings made prior to the adoption of this chapter.

2. The commission, in determining the value of materials or services to be included in valuations or costs of operations for rate-making purposes, may disallow any unreasonable profit made in the sale of materials to or services supplied for any public utility by any firm or corporation owned or controlled directly or indirectly by such utility or any affiliate, subsidiary, parent company, associate or any corporation whose controlling stockholders are also controlling stockholders of such utility. The burden of proof shall be on the public utility to prove that no unreasonable profit is made.

476.9 Accounts rendered to commission.

1. Every public utility, except telecommunications service providers registered pursuant to section 476.95A, shall keep and render to the commission, in the manner and form prescribed by the commission, uniform accounts of all business transacted.

2. Every public utility engaged directly or indirectly in any other business than that of the production, transmission, or furnishing of heat, light, water, power, or the collection and treatment of sanitary sewage or storm water for the public shall, if required by the commission, keep and render separately to the commission in like manner and form the accounts of all such other business, in which case all the provisions of this chapter shall apply to the books, accounts, papers, and records of such other business and all profits and losses may be taken into consideration by the commission if deemed relevant to the general fiscal condition of the public utility.

3. Every public utility, except telecommunications service providers registered pursuant to section 476.95A, is required to keep and render its books, accounts, papers, and records accurately and faithfully in the manner and form prescribed by the commission, and to comply with all directions of the commission relating to such books, accounts, papers, and records.

4. The commission shall consult with other state and federal regulatory bodies for the purpose of eliminating accounting discrepancies with regard to the keeping of public utility accounts before prescribing any system of accounts to be kept by the public utility.

476.10 Investigations — expense — appropriation.

1. *a.* In order to carry out the duties imposed upon it by law, the commission may, at its discretion, allocate and charge directly the expenses attributable to its duties to the person bringing a proceeding before the commission, to persons participating in matters before the commission, or to persons subject to inspection by the commission. The commission shall ascertain the certified expenses incurred and directly chargeable by the consumer advocate division of the department of justice in the performance of its duties. The commission and the consumer advocate separately may decide not to charge expenses to persons who, without expanding the scope of the proceeding or matter, intervene in good faith in

a commission proceeding initiated by a person subject to the commission's jurisdiction, the consumer advocate, or the commission on its own motion. For assessments in any proceedings or matters before the commission, the commission and the consumer advocate separately may consider the financial resources of the person, the impact of assessment on participation by intervenors, the nature of the proceeding or matter, and the contribution of a person's participation to the public interest. The commission may present a bill for expenses under this subsection to the person, either at the conclusion of a proceeding or matter, or from time to time during its progress. Presentation of a bill for expenses under this subsection constitutes notice of direct assessment and request for payment in accordance with this section.

b. The commission shall ascertain the total of the commission's expenses incurred during each fiscal year in the performance of its duties under law. The commission shall add to the total of the commission's expenses the certified expenses of the consumer advocate as provided under section 475A.6. The commission shall deduct all amounts charged directly to any person from the total expenses of the commission and the consumer advocate. The commission may assess the amount remaining after the deduction to all persons providing service over which the commission has jurisdiction in proportion to the respective gross operating revenues of such persons from intrastate operations during the last calendar year over which the commission has jurisdiction. For purposes of determining gross operating revenues under this section, the commission shall not include gross receipts received by a cooperative corporation or association for wholesale transactions with members of the cooperative corporation or association, provided that the members are subject to assessment by the commission based upon the members' gross operating revenues, or provided that such a member is an association whose members are subject to assessment by the commission based upon the members' gross operating revenues. If any portion of the remainder can be identified with a specific type of utility service, the commission shall assess those expenses only to the entities providing that type of service over which the commission has jurisdiction. The commission may make the remainder assessments under this paragraph to some or all persons providing service over which the commission has jurisdiction, based upon estimates of the expenditures for the fiscal year for the utilities commission and the consumer advocate. Not more than ninety days following the close of the fiscal year, the utilities commission shall conform the amount of the prior fiscal year's assessments to the requirements of this paragraph. For gas and electric public utilities exempted from rate regulation pursuant to this chapter, and for providers of telecommunications service required to register with the commission pursuant to section 476.95A that are exempted from rate regulation pursuant to this chapter, the remainder assessments under this paragraph shall be computed at one-half the rate used in computing the assessment for other persons.

2. *a.* A person subject to a charge or assessment shall pay the commission the amount charged or assessed against the person within thirty days from the time the commission provides notice to the person of the amount due, unless the person files an objection in writing with the commission setting out the grounds upon which the person claims that such charge or assessment is excessive, unreasonable, erroneous, unlawful, or invalid. Upon receipt of an objection, the commission shall set the matter for hearing and issue its order in accordance with its findings in the proceeding.

b. The order shall be subject to review in the manner provided in this chapter. All amounts collected by the commission pursuant to the provisions of this section shall be deposited with the treasurer of state and credited to the commerce revolving fund created in section 546.12. Such amounts shall be spent in accordance with the provisions of chapter 8.

3. Whenever the commission shall deem it necessary in order to carry out the duties imposed upon it in connection with rate regulation under section 476.6, investigations under section 476.3, or review proceedings under section 476.31, the commission may employ additional temporary or permanent staff, or may contract with persons who are not state employees for engineering, accounting, or other professional services, or both. The costs of these additional employees and contract services shall be paid by the public utility whose rates are being reviewed in the same manner as other expenses are paid under this section. Beginning on July 1, 1991, there is appropriated out of any funds in

the state treasury not otherwise appropriated, such sums as may be necessary to enable the commission to hire additional staff and contract for services under this section. The commission shall increase quarterly assessments specified in subsection 1, paragraph *"b"*, by amounts necessary to enable the commission to hire additional staff and contract for services under this section. The authority to hire additional temporary or permanent staff that is granted to the commission by this section shall not be subject to limitation by any administrative or executive order or decision that restricts the number of state employees or the filling of employee vacancies, and shall not be subject to limitation by any law of this state that restricts the number of state employees or the filling of employee vacancies unless that law is made applicable to this section by express reference to this section. Before the commission expends or encumbers an amount in excess of the funds budgeted for rate regulation and before the commission increases quarterly assessments pursuant to this subsection, the director of the department of management shall approve the expenditure or encumbrance. Before approval is given, the director of the department of management shall determine that the expenses exceed the funds budgeted by the general assembly to the commission for rate regulation and that the commission does not have other funds from which the expenses can be paid. Upon approval of the director of the department of management the commission may expend and encumber funds for the excess expenses, and increase quarterly assessments to raise the additional funds. The commission and the office of consumer advocate may add additional personnel or contract for additional assistance to review and evaluate energy efficiency plans and the implementation of energy efficiency programs including, but not limited to, professionally trained engineers, accountants, attorneys, skilled examiners and inspectors, and secretaries and clerks. The commission and the office of consumer advocate may also contract for additional assistance in the evaluation and implementation of issues relating to telecommunication competition. The commission and the office of the consumer advocate may expend additional sums beyond those sums appropriated. However, the authority to add additional personnel or contract for additional assistance must first be approved by the department of management. The additional sums for energy efficiency shall be provided to the commission and the office of the consumer advocate by the utilities subject to the energy efficiency requirements in this chapter. Telephone companies shall pay any additional sums needed for assistance with telecommunication competition issues. The assessments shall be in addition to and separate from the quarterly assessment.

4. *a.* Fees paid to the utilities commission shall be deposited in the commerce revolving fund created in section 546.12. These funds shall be used for the payment, upon appropriation by the general assembly, of the expenses of the utilities commission and the consumer advocate division of the department of justice.

b. The administrator and consumer advocate shall account for receipts and disbursements according to the separate duties imposed upon the utilities commission and the consumer advocate division by the laws of this state and each separate duty shall be fiscally self-sustaining.

c. All fees and other moneys collected under this section and sections 478.4, 479.16, and 479A.9 shall be deposited into the commerce revolving fund created in section 546.12 and expenses required to be paid under this section shall be paid from funds appropriated for those purposes.

476.10B Energy-efficient building.

1. For the purposes of this section, *"building project expenses"* means expenses that have been approved by the utilities commission for the building and related improvements and furnishings developed under this section and that are considered part of the regulatory expenses charged by the utilities commission and the consumer advocate division of the department of justice for carrying out duties under section 476.10.

2. The department of administrative services, in consultation with the utilities commission and the consumer advocate division of the department of justice, shall provide for the construction of a building to house the utilities commission and the consumer advocate division of the department of justice. A building developed under this subsection shall be a model energy-efficient building that may be used as a public example for similar efforts. The building shall comply with the life cycle cost provisions developed pursuant to section 72.5. The building shall be located on the capitol complex grounds or at another convenient location in the vicinity of the capitol complex grounds.

3. Building project expenses shall include but are not limited to the costs associated with construction, maintenance, and operation of the building that are approved by the utilities commission and shall also include principal of, premium, if any, and interest on indebtedness to finance the building.

4. The department of administrative services' costs associated with construction, maintenance, and operation of the building as provided under chapter 8A are building project expenses.

5. A cost-effective approach for financing construction of the building shall be utilized, which may include but is not limited to lease, lease-purchase, bonding, or installment acquisition arrangement, or a financing arrangement under section 12.28. If financing for the building is implemented under section 12.28, the limitation on principal under that section does not apply. This subsection is not a qualification of any other powers which the utilities commission and the consumer advocate division of the department of justice may possess and the authorizations and powers granted under this subsection are not subject to the terms, requirements, or limitations of any other provisions of law. The department of administrative services must comply with the provisions of section 12.28 when entering into financing agreements for the purchase of real or personal property.

6. *a.* If financing for the building is implemented through bonding, the provisions of section 12.91 shall apply. In order to assure maintenance of the bond reserve funds established in connection with the financing, the treasurer of state shall, on or before January 1 of each calendar year, make and deliver to the governor the treasurer's certificate stating the sum, if any, required to restore each bond reserve fund to the bond reserve fund requirement for that fund.

b. Within thirty days after the beginning of the session of the general assembly next following the delivery of the certificate, the governor shall submit to both houses of the general assembly printed copies of a budget including the sum, if any, required to restore each bond reserve fund to the bond reserve fund requirement for that fund. Any sums appropriated by the general assembly and paid to the treasurer of state shall be deposited by the treasurer of state in the applicable bond reserve fund.

7. The department of administrative services, in consultation with the utilities commission and the consumer advocate division of the department of justice, shall secure architectural services, contract for construction, engineering, and construction oversight and management, and control the funding associated with the building construction and the building's operation and maintenance. The department of administrative services may utilize consultants or other expert assistance to address feasibility, planning, or other considerations connected with construction of the building or decision making regarding the building. The department of administrative services, on behalf of the utilities commission and the consumer advocate division of the department of justice, shall consult with the office of the governor, appropriate legislative bodies, and the capitol planning commission.

476.10C Load forecasts and analyses of state electric transmission system expansion plans — fund.

1. An electric transmission system expansion plans analysis and load forecasting fund is created in the state treasury under the control of the economic development authority. The commission shall direct all electric utilities to remit to the treasurer of state for deposit in the electric transmission system expansion plans analysis and load forecasting fund not more than two one-hundredths of one percent of the total gross operating revenues during the last calendar year derived from the utilities' intrastate public utility operations. Moneys in the fund are appropriated to the economic development authority to be used for the purposes of commissioning a report pursuant to section 15.120A. Notwithstanding section 8.33, moneys in the fund that remain unencumbered or unobligated at the close of a fiscal year shall not revert but shall remain available for expenditure for the purposes designated. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys in the fund shall be credited to the fund.

2. The commission shall, by rule, establish a maximum amount of remittances in aggregate and provide a schedule for remittances. The remittances collected pursuant to this section shall be in addition to the assessments permitted pursuant to section 476.10. The commission shall allow inclusion of these remittances in the budgets approved by the commission pursuant to section 476.6, subsection 15, paragraph "*c*", but such remittances shall not be included when computing the projected cumulative average annual cost for an electric utility's energy efficiency plan and demand response plan under section 476.6, subsection 15, paragraph "*c*".

476.12 Rehearings before commission.

Notwithstanding the Iowa administrative procedure Act, chapter 17A, any party, as defined in the rules and regulations promulgated by the commission as provided in section 476.2, to a contested case before the commission may within twenty days after the issuance of the final decision apply for a rehearing. The commission shall either grant or refuse an application for rehearing within thirty days after the filing of the application, or may after giving the interested parties notice and opportunity to be heard and after consideration of all the facts, including those arising since the making of the order, abrogate or modify its order. A failure by the commission to act upon the application for rehearing within the above period shall be deemed a refusal of the application. Neither the filing of an application for rehearing nor the granting of the application shall stay the effectiveness of an order unless the commission so directs.

476.13 Judicial review.

1. Notwithstanding the Iowa administrative procedure Act, chapter 17A, the district court for Polk county or for the county in which a public utility maintains its principal place of business has exclusive venue for the judicial review under chapter 17A of actions of the commission pursuant to rate-regulatory powers over that public utility.

2. Upon the filing of a petition for judicial review in an action referred to in subsection 1, the clerk of the district court shall notify the chief justice of the supreme court for purposes of assignment of a district judge under section 602.1212. The judicial review proceeding shall be heard by the district judge appointed by the supreme court under section 602.1212, but in the county of venue under subsection 1.

3. Notwithstanding the Iowa administrative procedure Act, chapter 17A, if a public utility seeks judicial review of an order approving rates for the public utility, the level of rates that may be collected, under bond and subject to refund, while the appeal is pending shall be limited to the level of the temporary rates set by the commission, or the level of the final rates

1. The commission may promulgate rules pursuant to chapter 17A which require or authorize a public utility to establish peak-load management procedures.
2. Rules of the commission shall relate to reducing or limiting the peak-load period consumption.
3. In promulgating rules under this section, the commission is not bound by decisions, rulings or orders which relate to the definitions of types or classes of customers and which were issued by the Iowa state commerce commission prior to July 1, 1980.

476.18 Impermissible charges.

1. Public utilities subject to rate regulation are prohibited from including either directly or indirectly in their charges or rates to customers the costs of lobbying.
2. Legal costs and attorney fees incurred by a public utility subject to rate regulation in an appeal in state or federal court involving the validity of any action of the commission shall not be included either directly or indirectly in the public utility's charges or rates to customers except to the extent that recovery of legal costs and attorney fees is allowed by the commission. The commission shall allow a public utility to recover reasonable legal costs and attorney fees incurred in the appeal. The commission may consider the degree of success of the legal arguments of the public utility in determining the reasonable legal costs and attorney fees to be allowed.

UNOFFICIAL VERSION 2027 EARLY RELEASE

3. *a.* Public utilities subject to rate regulation are prohibited from including either directly or indirectly in their charges or rates to customers the costs of advertising other than advertising which is required by the commission or by other state or federal regulation. However, this subsection does not apply to a utility's advertising which is deemed by the commission to be necessary for the utility's customers and which is approved by the commission.

b. Every ad which is published, broadcast, or otherwise displayed or disseminated to the public by a public utility which is to be charged to the customers of the public utility and which is not required by the commission or by other state or federal regulation shall include a statement in the ad that the costs of the ad are being charged to the customers of the public utility. This paragraph does not apply to a utility's product or service that is or becomes subject to competition as determined by the commission.

4. This section does not apply to a rural electric cooperative.

476.20 Disconnection limited — notice — moratorium — deposits.

1. *a.* A utility shall not, except in cases of emergency, discontinue, reduce, or impair service to a community, or a part of a community, except for nonpayment of account or violation of rules and regulations, unless and until permission to do so is obtained from the commission.

b. (1) A public utility described in section 476.1, subsection 2, paragraph "*c*", may enter into an agreement with the governing body of a city utility, combined city utility, city enterprise, or combined city enterprise to discontinue water service to a property or premises if an account owed the city utility, city enterprise, or combined city utility or city enterprise for wastewater service or services of sewer systems, storm water drainage systems, or sewage treatment provided to that customer's property or premises becomes delinquent pursuant to section 384.84, subsection 3. An agreement entered into under this paragraph shall not negate any obligations of a city utility, combined city utility, city enterprise, or combined city enterprise under section 384.84.

(2) A public utility that has entered into an agreement under this paragraph shall not be liable for damages related to the discontinuance of water service under this paragraph. The customer shall be responsible for all costs associated with discontinuing and reestablishing water service disconnected pursuant to this paragraph.

(3) The commission shall adopt rules for the discontinuance of water service under this paragraph. A public utility shall only discontinue water service under this paragraph in accordance with the rules adopted pursuant to this subparagraph.

2. The commission shall establish rules requiring a regulated public utility furnishing gas or electricity to include in the utility's notice of pending disconnection of service a written statement advising the customer that the customer may be eligible to participate in the low income home energy assistance program or weatherization assistance program administered by the department of health and human services. The written statement shall list the address and telephone number of the local agency which is administering the customer's low income home energy assistance program and the weatherization assistance program. The written statement shall also state that the customer is advised to contact the public utility to settle any of the customer's complaints with the public utility, but if a complaint is not settled to the customer's satisfaction, the customer may file the complaint with the commission. The written statement shall include the address and phone number of the commission. If the notice of pending disconnection of service applies to a residence, the written statement shall

UNOFFICIAL VERSION NOT FOR SALE

advise that the disconnection does not apply from November 1 through April 1 for a resident who is a "head of household", as defined in section 422.4, and who has been certified to the public utility by the local agency which is administering the low income home energy assistance program and weatherization assistance program as being eligible for either the low income home energy assistance program or weatherization assistance program, and that if such a resident resides within the serviced residence, the customer should promptly have the qualifying resident notify the local agency which is administering the low income home energy assistance program and weatherization assistance program. The commission shall establish rules requiring that the written notice contain additional information as it deems necessary and appropriate.

3. *a.* The commission shall adopt rules which shall be uniform with respect to rate-regulated public utilities furnishing gas or electricity relating to disconnection of service. The commission shall adopt rules with respect to electric and gas utilities subject to sections 476.1A and 476.1B that prescribe the procedures and notice requirements for the disconnection of service consistent with the rules for rate-regulated public utilities, but such rules shall not regulate the rates of such utilities. This subsection applies to rate-regulated utilities, utilities subject to regulation under sections 476.1A and 476.1B, and to unincorporated villages which own their own distribution systems. Violations of this subsection may subject a utility to civil penalties under section 476.51.

b. A qualified applicant for the low income home energy assistance program or the weatherization assistance program who is also a "head of household", as defined in section 422.4, subsection 6, shall be promptly certified by the local agency administering the applicant's program to the applicant's public utility that the resident is a "head of household" as defined in section 422.4, subsection 6, and is qualified for the low income home energy assistance program or weatherization assistance program. Notwithstanding subsection 1, a public utility furnishing gas or electricity shall not disconnect service from November 1 through April 1 to a residence which has a resident that has been certified under this paragraph.

c. The rules established by the commission shall provide that a public utility furnishing gas or electricity shall not disconnect service to a residence in which one of the heads of household is a service member deployed for military service, as defined in section 29A.1, subsection 3, prior to a date ninety days after the end of the service member's deployment, if the public utility is informed of the deployment.

4. A public utility which violates a provision of this section relating to the disconnection of service or which violates a rule of the commission relating to disconnection of service is subject to civil penalties imposed by the commission under section 476.51.

5. *a.* The commission shall establish rules which shall be uniform with respect to rate-regulated public utilities furnishing gas or electricity relating to deposits which may be required by the public utility for the initiation or reinstatement of service. This subsection shall not apply to utilities subject to section 476.1A, or to municipally owned utilities which shall be governed by the provisions of section 384.84 with respect to deposits and payment plans for delinquent amounts owed. Municipally owned utilities and utilities subject to section 476.1A shall not be subject to the commission's rules in regard to deposits, rates and charges for the disconnection or reinstatement of service, and payment plans for delinquent amounts owed and repayment of past due debt. Municipally owned utilities and utilities subject to section 476.1A shall be subject to the commission's rules in regards to payment plans made prior to the disconnection of services.

(1) The deposit for a residential or commercial customer for a place which has previously received service shall not be greater than the highest billing of service for one month for the place in the previous twelve-month period.

(2) The deposit for a residential or a commercial customer for a place which has not previously received service or for an industrial customer shall be the customer's projected one month's usage for the place to be serviced as determined by the public utility according to rules established by the commission.

b. This subsection does not prohibit a public utility from requiring payment of a customer's past due account with the utility prior to reinstatement of service.

UNOFFICIAL VERSION 2021 IOWA CODE

c. The rules shall allow a person other than the customer to pay the customer's deposit. Upon termination of service to such a customer, the deposit plus accumulated interest less any unpaid utility bill of the customer, shall be reimbursed to the person who made the deposit.

6. This section shall not apply to telecommunications service providers registered pursuant to section 476.95A.

476.23 Electric service conflicts — certificates of authority.

1. An electric utility shall not construct or extend facilities or furnish or offer to furnish electric service to the existing point of delivery of any customer already receiving electric service from another electric utility without having first filed with the commission the express written agreement of the electric utility presently serving this customer, except as otherwise provided in this section. Any municipal corporation, after being authorized by a vote of the people, or any electric utility may file a petition with the commission requesting a certificate of authority to furnish electric service to the existing point of delivery of any customer already receiving electric service from another electric utility. If, after notice by the commission to the electric utility currently serving the customer, objection to the petition is not filed and investigation is not deemed necessary, the commission shall issue a certificate within thirty days of the filing of the petition. When an objection is filed, if the commission, after notice and opportunity for hearing, determines that service to the customer by the petitioner is in the public interest, including consideration of any unnecessary duplication of facilities, it shall grant this certificate in whole or in part, upon such terms, conditions, and restrictions as may be justified. Whether or not an objection is filed, any certificate issued shall require that the petitioner pay to the electric utility presently serving the customer, the reasonable price for facilities serving the customer. This price determination by the commission shall include due consideration of the cost of the facilities being acquired; any necessary generating capacity and transmission capacity dedicated to the customer, including, but not limited to, electric

power generating facilities and alternate energy production facilities not yet in service but for which the commission has issued an order pursuant to section 476.53, and electric power generating facility emissions plan budgets approved by the commission pursuant to section 476.6, subsection 19; depreciation; loss of revenue; and the cost of facilities necessary to reintegrate the system of the utility after detaching the portion sold.

2. An electric utility shall not construct or extend facilities or furnish electric service to a prospective customer not presently being served, unless its existing service facilities are nearer the proposed point of delivery than the service facilities of any other utility. However, an electric utility may extend electric service and transmission lines if the electric utility closest to the delivery point consents to this extension in writing and a copy of the agreement is filed with the commission or, if the commission, after notice and opportunity for hearing and after giving due consideration to the prevention of unnecessary duplication of facilities, finds that service from an electric utility, other than the closest utility, is in the public interest. This subsection shall not apply if the prospective customers are within an exclusive service area assigned to an electric utility as provided in this subchapter.

3. Notwithstanding subsections 1 and 2 of this section, any electric utility may extend electric service and transmission lines to its own utility property and facilities.

4. If not inconsistent with the provisions of this subchapter, all of the following apply:

a. All rights of municipal corporations under chapter 364 to grant a person a franchise to erect, maintain, and operate plants and systems for electric light and power within the corporate boundaries, and rights acquired by franchise or agreement shall be preserved in these municipal corporations.

b. All rights of city utilities under the city code shall be preserved in these city utilities.

c. All rights of city utilities and joint electric utilities under chapter 390 shall be preserved in these city utilities and joint electric utilities.

d. All rights of cities under chapter 6B are preserved. However, prior to the institution of condemnation proceedings, the city shall obtain a certificate of authority from the commission in accordance with this subchapter and the commission's determination of price under this subchapter shall be conclusive evidence of damages in these condemnation proceedings.

476.24 Electric utility service area maps.

1. On or before July 1, 1977, and subsequently whenever requested by the commission, electric utilities furnishing electricity to the public for compensation in this state shall file, jointly or severally, with the commission detailed maps of their service area drawn to a scale of not less than one inch per mile or drawn to a larger scale if required for clarity showing all of the following:

a. The locations of an electric utility's generation, franchised transmission lines, distribution lines, and related facilities as of January 1, 1976.

b. All state and federal highways and other public roads within the electric utility's service area.

c. All section lines and numbers and township and range numbers within the electric utility's service area.

d. The corporate boundaries of all cities within the electric utility's service area.

e. All lakes and rivers within the electric utility's service area.

f. All railroads within the electric utility's service area.

g. Any additional information requested by the commission.

2. On or before July 1, 1978, and subsequently when deemed by the commission to be necessary, the commission shall prepare or cause to have prepared a composite map of this

476.25 Assigned service areas — electric utilities — legislative policy.

It is declared to be in the public interest to encourage the development of coordinated statewide electric service at retail, to eliminate or avoid unnecessary duplication of electric utility facilities, and to promote economical, efficient, and adequate electric service to the public. In order to effect that public interest, the commission may establish service areas within which specified electric utilities shall provide electric service to customers on an exclusive basis. Except for good cause expressed through formal public statement, the commission shall establish these exclusive service areas on or before July 1, 1979. These exclusive service area boundaries shall be established by the commission upon the following basis:

1. The service area boundaries shall be in a line approximately equidistant between the electric distribution lines of adjacent electric utilities as they existed on January 1, 1976, and as shown by the maps filed in accordance with this subchapter. However, those boundaries may be modified by the commission to promote the public interest, to preserve existing service areas and electric utilities' rights to serve existing customers, and to prevent unnecessary duplication of facilities, to take account of natural and physical barriers which would make electric service beyond these barriers uneconomic and impractical and those boundaries shall be modified by the commission to take account of the contracts between electric utilities which have been approved by the commission pursuant to subsection 2 of this section. When an electric utility's exclusive service area is established by the commission to include existing customers presently served by the facilities of another electric utility, unless a voluntary exchange of facilities is agreed upon by the electric utilities involved and approved by the commission, the commission after notice and opportunity for hearing, shall require the purchase of those facilities presently serving these customers at a reasonable price to be determined by the commission. The commission, on its own motion or at the request of an electric utility or municipal corporation, after notice and opportunity for hearing, may modify the boundaries of an electric utility exclusive service area which it has previously established if this modification, including consideration of the factors noted in this subsection, is found to be in the public interest.

2. Contracts between electric utilities to designate service areas and customers to be served by the electric utilities or for the exchange of customers between electric utilities, when approved by the commission, shall be valid and enforceable and shall be incorporated into the appropriate exclusive service areas established pursuant to subsection 1 of this section. The commission shall approve a contract if it finds that the contract will eliminate or avoid unnecessary duplication of facilities, will provide adequate electric service to all areas and customers affected, will promote the efficient and economical use and development of the electric systems of the contracting electric utilities, and is in the public interest.

3. An electric utility shall not serve or offer to serve electric customers in an exclusive service area assigned to another electric utility, nor shall an electric utility construct facilities to serve electric customers in an exclusive service area assigned to another electric utility. The state, an electric utility, or any other person who is injured or threatened with injury by conduct prohibited by this section may initiate a contested case proceeding with the commission under chapter 17A. Upon finding a violation of this section the commission shall order appropriate corrective action including discontinuance of the unlawful service to electric customers, removal of the unlawful facility, or other disposition the commission deems just and reasonable.

SUBCHAPTER III

CROSSINGS — RAILROAD RIGHTS-OF-WAY

476.27 Public utility crossing — railroad rights-of-way.

1. *Definitions.* As used in this section, unless the context otherwise requires:

a. *"Commission"* means the Iowa utilities commission.

b. *"Crossing"* means the construction, operation, repair, or maintenance of a facility over, under, or across a railroad right-of-way by a public utility.

c. *"Direct expenses"* includes, but is not limited to, any or all of the following:

(1) The cost of inspecting and monitoring the crossing site.

(2) Administrative and engineering costs for review of specifications; for entering a crossing on the railroad's books, maps, and property records; and other reasonable administrative and engineering costs incurred as a result of the crossing.

(3) Document and preparation fees associated with a crossing, and any engineering specifications related to the crossing.

(4) Damages assessed in connection with the rights granted to a public utility with respect to a crossing.

d. *"Electric transmission owner"* means an individual or entity who owns and maintains electric transmission facilities including transmission lines, wires, or cables that are capable of operating at an electric voltage of thirty-four and one-half kilovolts or greater that are required for rate-regulated electric utilities, municipal electric utilities, and rural electric cooperatives in this state to provide electric service to the public for compensation.

e. *"Facility"* means any cable, conduit, wire, pipe, casing pipe, supporting poles and guys, manhole, or other material and equipment, that is used by a public utility to furnish any of the following:

(1) Communications services.

(2) Electricity.

(3) Gas by piped system.

(4) Sanitary and storm sewer service.

(5) Water by piped system.

f. *"Public utility"* means a public utility as defined in section 476.1, except that, for purposes of this section, *"public utility"* also includes all mutual telephone companies, municipally owned facilities, unincorporated villages, waterworks, municipally owned waterworks, joint water utilities, rural water districts incorporated under chapter 357A or 504, cooperative water associations, franchise cable television operators, persons furnishing electricity to five or fewer persons, and electric transmission owners primarily providing service to public utilities as defined in section 476.1.

g. *"Railroad"* or *"railroad corporation"* means a railroad corporation as defined in section 321.1, which is the owner, operator, occupant, manager, or agent of a railroad right-of-way or the railroad corporation's successor in interest. *"Railroad"* and *"railroad corporation"* include an interurban railway.

h. *"Railroad right-of-way"* means one or more of the following:

(1) A right-of-way or other interest in real estate that is owned or operated by a railroad

UNOFFICIAL VERSION: 2021 EARLY RELEASE

corporation, the trustees of a railroad corporation, or the successor in interest of a railroad corporation.

(2) A right-of-way or other interest in real estate that is occupied or managed by or on behalf of a railroad corporation, the trustees of a railroad corporation, or the successor in interest of a railroad corporation, including an abandoned railroad right-of-way that has not otherwise reverted pursuant to chapter 327G.

(3) Another interest in a former railroad right-of-way that has been acquired or is operated by a land management company or similar entity.

i. *"Special circumstances"* means either or both of the following:

(1) The existence of characteristics of a segment of railroad right-of-way or of a proposed utility facility that increase the direct expenses associated with a proposed crossing.

(2) A proposed crossing that involves a significant and imminent likelihood of danger to the public health or safety, or that is a serious threat to the safe operations of the railroad, or to the current use of the railroad right-of-way, necessitating additional terms and conditions associated with the crossing.

2. *Rulemaking and standard crossing fee.* The commission, in consultation with the state department of transportation, shall adopt rules pursuant to chapter 17A prescribing the terms and conditions for a crossing. The rules shall provide that any crossing be consistent with the public convenience and necessity and reasonable service to the public. The rules, at a minimum, shall address the following:

a. The terms and conditions applicable to a crossing including, but not limited to, the following:

(1) Notification required prior to the commencement of any crossing activity.

(2) A requirement that the railroad and the public utility each maintain and repair the person's own property within the railroad right-of-way, and bear responsibility for each person's own acts and omissions; except that the public utility shall be responsible for any bodily injury or property damage that typically would be covered under a standard railroad protective liability insurance policy.

(3) The amount and scope of insurance or self-insurance required to cover risks associated with a crossing.

(4) A procedure to address the payment of costs associated with the relocation of public utility facilities within the railroad right-of-way necessary to accommodate railroad operations.

(5) Terms and conditions for securing the payment of any damages by the public utility before it proceeds with a crossing.

(6) Immediate access to a crossing for repair and maintenance of existing facilities in case of emergency.

(7) Engineering standards for utility facilities crossing railroad rights-of-way.

(8) Provision for expedited crossing, absent a claim of special circumstances, after payment by the public utility of the standard crossing fee, if applicable, and submission of completed engineering specifications to the railroad.

(9) Other terms and conditions necessary to provide for the safe and reasonable use of a railroad right-of-way by a public utility, and consistent with rules adopted by the commission, including any complaint procedures adopted by the commission to enforce the rules.

b. Unless otherwise agreed by the parties and subject to subsection 4, a public utility that locates its facilities within the railroad right-of-way for a crossing, other than a crossing along the public roads of the state pursuant to chapter 477, shall pay the railroad a one-time standard crossing fee of seven hundred fifty dollars for each crossing. The standard crossing fee shall be in lieu of any license or any other fees or charges to reimburse the railroad for the direct expenses incurred by the railroad as a result of the crossing. The public utility shall also reimburse the railroad for any actual flagging expenses associated with a crossing in addition to the standard crossing fee.

3. *Powers not limited.*

a. Notwithstanding subsection 2, rules adopted by the commission shall not prevent a railroad and a public utility from otherwise negotiating the terms and conditions applicable to a crossing or the resolution of any disputes relating to such crossing.

UNOFFICIAL VERSION: 2021 EARLY RELEASE

b. Notwithstanding paragraph *"a"*, neither this subsection nor this section shall impair the authority of a public utility to secure crossing rights by easement pursuant to the exercise of the power of eminent domain.

4. *Special circumstances.*

a. A railroad or public utility that believes special circumstances exist for a particular crossing may petition the commission for relief.

(1) If a petition for relief is filed, the commission shall determine whether special circumstances exist that necessitate either a modification of the direct expenses to be paid, or the need for additional terms and conditions.

(2) The commission may make any necessary findings of fact and determinations related to the existence of special circumstances, as well as any relief to be granted.

(3) A determination of the commission, except for a determination on the issue of damages for the rights granted to a public utility with respect to a crossing, shall be considered final agency action subject to judicial review under chapter 17A.

(4) The commission shall assess the costs associated with a petition for relief equitably against the parties.

b. A railroad or public utility that claims to be aggrieved by a determination of the commission on the issue of damages for the rights granted to a public utility with respect to a crossing may seek judicial review as provided in subsection 5.

5. *Appeals.*

a. A railroad or public utility that claims to be aggrieved by the commission's determination of damages for rights granted to a public utility may appeal the commission's determination to the district court in the same manner as provided in section 6B.18 and sections 6B.21 through 6B.23. In any appeal of the determination of damages, the public utility shall be considered the applicant, and the railroad shall be considered the condemnee. References in sections 6B.18 and 6B.21 to *"compensation commission"* mean the commission as defined in this section, or appointees of the commission.

b. An appeal of any determination of the commission other than the issues of damages for rights granted to a public utility shall be pursuant to chapter 17A.

6. *Authority to cross — emergency relief.*

a. Pending commission resolution of a claim of special circumstances raised in a petition, a public utility may, upon securing the payment of any damages, and upon submission of completed engineering specifications to the railroad, proceed with a crossing in accordance with the rules adopted by the commission, unless the commission, upon application for emergency relief, determines that there is a reasonable likelihood that either of the following conditions exist:

(1) That the proposed crossing involves a significant and imminent likelihood of danger to the public health or safety.

(2) That the proposed crossing is a serious threat to the safe operations of the railroad or to the current use of the railroad right-of-way.

b. If the commission determines that there is a reasonable likelihood that the proposed crossing meets either condition, then the commission shall immediately intervene to prevent the crossing until a factual determination is made.

7. *Conflicting provisions.* Notwithstanding any provision of the Code to the contrary, this section shall apply in all crossings of railroad rights-of-way involving a public utility as defined in this section, and shall govern in the event of any conflict with any other provision of law.

476.33 Rules governing hearings.

1. The commission shall adopt rules pursuant to chapter 17A to provide for the completion of proceedings under section 476.3 within ten months after the date of the filing of a petition under section 476.3, subsection 2, and to provide for the completion of proceedings under section 476.6 within ten months after the date of filing of the new or changed rates, charges, schedules, or regulations under that section. These rules shall include reasonable time limitations for the submission or completion of comments and testimony, and exhibits, briefs, and hearings, and may provide for the granting of additional time upon the request of a party to the proceeding for good cause shown.

2. Additional time granted to a party under subsection 1 shall not extend the amount of time for which a utility is required to file a bond or other undertaking conditioned upon refund under section 476.3, subsection 2.

3. If in a proceeding under section 476.6 additional time is granted to a party under subsection 1, the commission may extend the ten-month period during which a utility is prohibited from placing its entire rate increase request into effect under section 476.6, but an extension shall not exceed the aggregate amount of all additional time granted under subsection 1.

4. The commission shall adopt rules that require the commission, in rate regulatory proceedings under sections 476.3 and 476.6, to utilize either a historic test year or a future test year at the rate-regulated public utility's discretion.

a. For a rate regulatory proceeding utilizing a historic test year, the rules shall require the commission to consider the use of the most current test period possible in determining reasonable and just rates, subject only to the availability of existing and verifiable data respecting costs and revenues, and in addition, to consider verifiable data that exists within nine months after the conclusion of the test year, respecting known and measurable changes in costs not associated with a different level of revenue, and known and measurable revenues not associated with a different level of costs, that are to occur at any time within twelve

UNOFFICIAL VERSION: NOT OFFICIALLY RELEASE

months after the date of commencement of the proceedings. Parties proposing adjustments that are not verifiable at the commencement of the proceedings shall include projected data related to the adjustments in their initial substantive filing with the commission. For purposes of this paragraph, a proceeding commences under section 476.6 upon the filing date of new or changed rates, charges, schedules, or regulations.

b. For a rate regulatory proceeding utilizing a future test year, the rules shall require the commission to consider the use of any twelve-month period beginning no later than the date on which a proposed rate change is expected to take effect in determining just and reasonable rates. The rules shall also require the commission to conduct a proceeding subsequent to the effective date of a rate resulting from a rate regulatory proceeding utilizing a future test year to determine whether the actual costs and revenues are reasonably consistent with those approved by the commission. If the actual costs and revenues are not reasonably consistent with those approved by the commission, the commission shall adjust the rates accordingly. For a rate regulatory proceeding utilizing a future test year, the commission may adopt rules regarding evidence required, information to support forecasts, and any reporting obligations. The commission may also adopt rules regarding the conditions under which a public utility that utilizes a future test year may subsequently utilize a historic test year. A public utility shall not be precluded from filing a rate regulatory proceeding utilizing a future test year prior to the adoption of any rules pursuant to this subsection.

c. This subsection does not limit the authority of the commission to consider other evidence in proceedings under sections 476.3 and 476.6.

SUBCHAPTER VI

ALTERNATE ENERGY PRODUCTION FACILITIES

476.41 Purpose.

It is the policy of this state to encourage the development of alternate energy production facilities and small hydro facilities in order to conserve our finite and expensive energy resources and to provide for their most efficient use.

83 Acts, ch 182, §2

Referred to in §476.43

476.42 Definitions.

As used in this subchapter, unless the context otherwise requires:

1. *a. "Alternate energy production facility"* means any or all of the following:

(1) A solar, wind turbine, electric storage unit, nuclear, waste management, resource recovery, refuse-derived fuel, agricultural crops or residues, or woodburning facility. For purposes of this definition only, *"waste management"* includes a facility using plasma gasification to produce synthetic gas, either as a stand-alone fuel or for blending with natural gas, the output of which is used to generate electricity or steam. For purposes of this definition only, *"plasma gasification"* means the thermal dissociation of carbonaceous material into fragments of compounds in an oxygen-starved environment.

(2) Land, systems, buildings, or improvements that are located at the project site and are necessary or convenient to the construction, completion, or operation of the facility.

(3) Transmission or distribution facilities necessary to conduct the energy produced by the facility to users located at or near the project site.

b. A facility which is a qualifying facility under 18 C.F.R. pt. 292, subpt. B is not precluded from being an alternate energy production facility under this subchapter.

UNOFFICIAL VERSION 2027 EARLY RELEASE

2. *"Electric utility"* means a public utility that furnishes electricity to the public for compensation.

3. *"Next generating plant"* means an electric utility's assumed next coal-fired base load electric generating plant, whether planned or not, based on current technology and undiscounted current cost.

4. *a. "Small hydro facility"* means any or all of the following:

(1) A hydroelectric facility at a dam.

(2) Land, systems, buildings, or improvements that are located at the project site and are necessary or convenient to the construction, completion, or operation of the facility.

(3) Transmission or distribution facilities necessary to conduct the energy produced by the facility to users located at or near the project site.

b. A facility which is a qualifying facility under 18 C.F.R. pt. 292, subpt. B is not precluded from being a small hydro facility under this subchapter.

476.43 Rates for alternate energy production facilities.

1. Subject to section 476.44, the commission shall require electric utilities to do both of the following under terms and conditions that the commission finds are just and economically reasonable for the electric utilities' customers, are nondiscriminatory to alternate energy producers and small hydro producers, and will further the policy stated in section 476.41:

a. At least one of the following:

(1) Own alternate energy production facilities or small hydro facilities located in this state.

(2) Enter into long-term contracts to purchase or wheel electricity from alternate energy production facilities or small hydro facilities located in the utility's service area.

b. Provide for the availability of supplemental or backup power to alternate energy production facilities or small hydro facilities on a nondiscriminatory basis and at just and reasonable rates.

2. Upon application by the owner or operator of an alternate energy production facility or small hydro facility or any interested party, the commission shall establish for the affected public utility just and economically reasonable rates for electricity purchased under subsection 1, paragraph *"a"*. The rates shall be established at levels sufficient to stimulate the development of alternate energy production and small hydro facilities in Iowa and to encourage the continuation of existing capacity from those facilities.

3. The commission may adopt individual utility or uniform statewide facility rates. The commission shall consider the following factors in setting individual or uniform rates:

a. The estimated capital cost of the next generating plant, including related transmission facilities, to be placed in service by the electric utility serving the area.

b. The term of the contract between the electric utility and the seller.

c. A levelized annual carrying charge based upon the term of the contract and determined in a manner consistent with both the methods and the current interest or return requirements associated with the electric utility's new construction program.

d. The electric utility's annual energy costs, including current fuel costs, related operation and maintenance costs, and other energy-related costs considered appropriate by the commission.

e. External factors, including but not limited to, environmental and economic factors.

f. Other relevant factors.

g. If the commission adopts uniform statewide rates, the commission shall use representative data in lieu of utility specific information in applying the factors listed in paragraphs *"a"* through *"f"*.

4. In the case of a utility that purchases all or substantially all of its electricity requirements, the rates established under this section must be based on the electric utility's current purchased power costs.

5. In lieu of the other procedures provided by this section, an electric utility and an owner

UNOFFICIAL VERSION · NOT FOR RELEASE

or operator of an alternate energy production facility or small hydro facility may enter into a long-term contract in accordance with subsection 1 and may agree to rates for purchase and sale transactions. A contract entered into under this subsection must be filed with the commission in the manner provided for tariffs under section 476.4.

6. This section does not require an electric utility to construct additional facilities unless those facilities are paid for by the owner or operator of the affected alternate energy production facility or small hydro facility.

83 Acts, ch 182, §4, 7; 90 Acts, ch 1252, §34 – 37; 2003 Acts, ch 29, §2, 6; 2024 Acts, ch 1170, §369

Referred to in §28F.14, 476.44

476.44 Exceptions.

1. The commission shall not require an electric utility to purchase or wheel electricity from an alternate energy production facility or small hydro facility unless the facility is owned or operated by an individual, firm, partnership, corporation, company, association, joint stock association, city, town, or county that meets both of the following:

a. Is not primarily engaged in the business of producing or selling electricity, gas, or useful thermal energy other than electricity, gas, or useful thermal energy sold solely from alternate energy production facilities or small hydro facilities.

b. Does not sell electricity, gas, or useful thermal energy to residential users other than the tenants or the owner or operator of the facility.

2. *a.* An electric utility subject to this subchapter, except a utility that elects rate regulation pursuant to section 476.1A, shall not be required to own or purchase, at any one time, more than its share of one hundred five megawatts of power from alternate energy production facilities or small hydro facilities at the rates established pursuant to section 476.43. The commission shall allocate the one hundred five megawatts based upon each utility's percentage of the total Iowa retail peak demand, for the year beginning January 1, 1990, of all utilities subject to this section. If a utility undergoes reorganization as defined in section 476.76, the commission shall combine the allocated purchases of power for each utility involved in the reorganization.

b. Notwithstanding the one hundred five megawatt maximum, the commission may increase the amount of power that a utility is required to own or purchase at the rates established pursuant to section 476.43 if the commission finds that a utility, including a reorganized utility, exceeds its 1990 Iowa retail peak demand by twenty percent and the additional power the utility is required to purchase will encourage the development of alternate energy production facilities and small hydro facilities. The increase shall not exceed the utility's increase in peak demand multiplied by the ratio of the utility's share of the one hundred five megawatt maximum to its 1990 Iowa retail peak demand.

Referred to in §476.43

476.44A Trading of credits.

The commission may establish or participate in a program to track, record, and verify the trading of credits or attributes relating to electricity generated from alternate energy production facilities or renewable energy sources among electric generators, utilities, and other interested entities, within this state and with similar entities in other states.

476.45 Exemption from excess capacity.

Capacity of an alternate energy production facility or small hydro facility, that is owned or purchased by an electric utility, shall not be included in a calculation of an electric utility's excess generating capacity for ratemaking purposes.

476.46 Alternate energy revolving loan program.

1. The Iowa energy center created under section 15.120 shall establish and administer an alternate energy revolving loan program to encourage the development of alternate energy production facilities and small hydro facilities within the state.

2. *a.* An alternate energy revolving loan fund is created in the office of the treasurer of state to be administered by the Iowa energy center.

b. The fund shall include moneys appropriated or otherwise directed to the fund.

c. Moneys in the fund shall be used to provide loans for the construction of alternate energy production facilities or small hydro facilities as defined in section 476.42.

d. (1) A gas or electric utility that is not required to be rate-regulated shall not be eligible for a loan under this section. However, gas and electric utilities not required to be rate-regulated shall be eligible for loans from moneys remitted to the fund. Such loans shall be limited to a maximum of five hundred thousand dollars per applicant and shall be limited to one loan every two years.

(2) A facility shall be eligible for no more than one million dollars in loans outstanding at any time under this program.

e. (1) Each loan shall be for a period not to exceed twenty years, shall bear no interest, and shall be repayable to the fund created under this section in installments as determined by the Iowa energy center. The interest rate upon delinquent payments shall accelerate immediately to the current legal usury limit.

(2) Any loan made pursuant to this program shall become due for payment upon sale of the facility for which the loan was made.

(3) Interest on the fund shall be deposited in the fund.

f. Section 8.33 shall not apply to the moneys in the fund.

3. The Iowa energy center shall not initiate any new loans under this section after June 30, 2021.

4. Loan payments received under this section on or after July 1, 2021, and any other moneys in the fund on or after July 1, 2021, shall be deposited in the energy infrastructure revolving loan fund created in section 476.46A.

476.46A Energy infrastructure revolving loan program.

1. *a.* An energy infrastructure revolving loan fund is created in the office of the treasurer of state and shall be administered by the Iowa energy center established in section 15.120.

b. The fund may be administered as a revolving fund and may consist of any moneys appropriated by the general assembly for purposes of this section and any other moneys that are lawfully directed to the fund.

c. Moneys in the fund shall be used to provide financial assistance for the development and construction of energy infrastructure, including projects that support electric or gas generation transmission, storage, or distribution; electric grid modernization; energy-sector workforce development; emergency preparedness for rural and underserved areas; the expansion of biomass, biogas, and renewable natural gas; innovative technologies; and the development of infrastructure for alternative fuel vehicles.

d. Notwithstanding section 8.33, moneys appropriated in this section that remain unencumbered or unobligated at the close of the fiscal year shall not revert but shall remain available for expenditure for the purposes designated until the close of the succeeding fiscal year.

e. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys in the fund shall be credited to the fund.

2. *a.* The Iowa energy center shall establish and administer an energy infrastructure revolving loan program to encourage the development of energy infrastructure within the state.

b. An individual, business, rural electric cooperative, or municipal utility located and operating in this state shall be eligible for financial assistance under the program. With

UNOFFICIAL VERSION

the approval of the Iowa energy center governing board established under section 15.120, subsection 2, the economic development authority shall determine the amount and the terms of all financial assistance awarded to an individual, business, rural electric cooperative, or municipal utility under the program. All agreements and administrative authority shall be vested in the Iowa energy center governing board.

c. The economic development authority may use not more than five percent of the moneys in the fund at the beginning of each fiscal year for purposes of administrative costs, marketing, technical assistance, and other program support.

3. For the purposes of this section:

a. *"Energy infrastructure"* means land, buildings, physical plant and equipment, and services directly related to the development of projects used for, or useful for, electricity or gas generation, transmission, storage, or distribution.

b. *"Financial assistance"* means the same as defined in section 15.102.

2021 Acts, ch 177, §33
Referred to in §423.2A, 423.43, 476.46

476.47 Alternate energy purchase programs.

1. Beginning January 1, 2004, an electric utility, whether or not rate-regulated under this chapter, shall offer an alternate energy purchase program to customers, based on energy produced by alternate energy production facilities in Iowa.

2. The commission shall require electric utilities to file plans for alternate energy purchase programs offered pursuant to this section.

a. Rate-regulated electric utilities shall file plans for alternate energy purchase programs that allow customers to contribute voluntarily to the development of alternate energy in Iowa, and shall file tariffs as required by the commission by rule.

b. Electric utilities that are not rate-regulated shall offer alternate energy purchase programs at rates determined by their governing authority, and shall file tariffs with the commission for informational purposes only.

3. The electric utility shall notify consumers of its alternate energy purchase program and any proposed modifications to such program at least sixty days prior to implementation of the program or any modification.

4. For purposes of this section, an electric utility may base its program on energy produced by alternate energy production facilities located outside of Iowa under any of the following circumstances:

a. The energy is purchased by the electric utility pursuant to a contract in effect prior to July 1, 2001, and continues until the expiration of the contract, including any options to renew that are exercised by the electric utility.

b. The electric utility has a financial interest, as of July 1, 2001, in the alternate energy production facility that is located outside of Iowa, or in an entity that has a financial interest in an alternate energy production facility located outside of Iowa.

c. The energy is purchased by an electric utility that is not rate-regulated and that is required to purchase all of its electric power requirements from a single supplier that is physically located outside of Iowa.

5. This section shall not apply to non-rate-regulated electric utilities physically located outside of Iowa that serve Iowa customers.

6. Any consumer-owned utility may apply to the commission for a waiver under this section, and the commission, for good cause, may grant the waiver.

476.48 Small wind innovation zone program.

1. *Definitions.* For purposes of this section, unless the context otherwise requires:

a. *"Electric utility"* means a public utility that furnishes electricity to the public for compensation and which enters into a model interconnection agreement with the owner of a small wind energy system as provided in subsection 4.

b. *"Small wind energy system"* means a wind energy conversion system that collects and

UNOFFICIAL VERSION: 2024 EARLY RELEASE

converts wind into energy to generate electricity which has a nameplate generating capacity of one hundred kilowatts or less.

c. "Small wind innovation zone" means a political subdivision of this state, including but not limited to a city, county, township, school district, community college, area education agency, institution under the control of the state board of regents, or any other local commission, association, or tribal council which adopts, or is encompassed within a local government which adopts, the model ordinance as provided in subsection 3.

2. *Program established.*

a. The utilities commission shall establish and administer a small wind innovation zone program to optimize local, regional, and state benefits from wind energy and to facilitate and expedite interconnection of small wind energy systems with electric utilities throughout this state. Pursuant to the program, the owner of a small wind energy system located within a small wind innovation zone desiring to interconnect with an electric utility shall benefit from a streamlined application process, may utilize a model interconnection agreement, and can qualify under a model ordinance.

b. A political subdivision seeking to be designated a small wind innovation zone shall apply to the commission upon a form developed by the commission. The commission shall approve an application which documents that the applicable local government has adopted the model ordinance or is in the process of amending an existing zoning ordinance to comply with the model ordinance and that an electric utility operating within the political subdivision has agreed to utilize the model interconnection agreement to contract with the small wind energy system owners who agree to its terms.

3. *Model ordinance.* The Iowa league of cities, the Iowa association of counties, the Iowa environmental council, the Iowa wind energy association, and representatives from the utility industry shall consult and develop a model ordinance to be offered on both the Iowa league of cities' and the Iowa association of counties' internet sites and made available for use by a local government which constitutes or encompasses a political subdivision that is applying for designation as a small wind innovation zone. A local government adopting the model ordinance shall establish an expedited approval process with regard to small wind energy systems in compliance with the ordinance in order to qualify as a small wind innovation zone.

4. *Model interconnection agreement.* The utilities commission shall develop a model interconnection agreement by June 1, 2010, for utilization within a small wind innovation zone by the owner of a small wind energy system seeking to interconnect with an electric utility. The interconnection agreement shall ensure that the energy produced can be safely interconnected with the utility without causing any adverse or unsafe consequences and is consistent with the electric utility's resource needs. The commission shall establish by rule procedures for modification of the model interconnection agreement upon mutually agreeable terms and conditions in unique or unusual circumstances, subject to commission approval. Electric utilities shall consider adopting the model interconnection agreement.

5. *Tax credit incentives.* The owner of a small wind energy system operating within a small wind innovation zone shall qualify for the renewable energy tax credit pursuant to chapter 476C.

476.49 Billing methods for distributed generation customers.

1. *Definitions.* For purposes of this section, unless the context otherwise requires:

a. "Alternate energy production facility" means the same as defined in section 476.42.

b. "Distributed generation customer" means a person other than a public utility that interconnects an eligible distributed generation facility to an electric distribution system.

c. "Distributed generation facility" means an alternative energy production facility or a small hydro facility as defined in section 476.42.

d. "Electric utility" means a public utility that furnishes electricity to the public for compensation that is required to be rate-regulated under this chapter.

e. "Eligible distributed generation facility" means a distributed generation facility that elects a billing method pursuant to subsection 3, and to which all of the following apply:

UNOFFICIAL VERSION 2025 IOWA CODE

(1) The facility is located behind a customer's electricity meter.

(2) The facility is interconnected to the electric utility distribution system.

(3) The facility has an aggregate nameplate capacity less than or equal to one megawatt alternating current.

(4) The facility has a capability to produce no more than one hundred ten percent of the customer's annual electricity usage.

(5) The facility's generating capacity and associated energy is intended to serve only the on-site electric requirements of the customer.

f. "Inflow-outflow billing" means a billing method for an eligible distributed generation facility whereby the net metering interval is measured hourly or subhourly, and a distributed generation customer makes payment and is credited as provided in subsection 3, paragraph *"b"*.

g. "Net billing" means a billing method for an eligible distributed generation facility whereby the net metering interval is equal to a monthly billing period, and a distributed generation customer makes payment and is credited as provided in subsection 3, paragraph *"a"*.

h. "Net metering" means a single meter monitoring only the net amount of electricity delivered to and exported by an eligible distributed generation facility, which electricity offsets electricity that would otherwise be purchased by a distributed generation customer from the electric utility.

i. "Statewide distributed generation penetration" means the aggregate nameplate capacity of all eligible distributed generation facilities of electric utilities as a percentage of the aggregate peak demand of all electric utilities.

2. *Publication of data.* The commission shall collect data on the nameplate capacity of eligible distributed generation facilities, calculate the statewide distributed generation penetration percentage, and publish the data and penetration rate on an annual basis on the commission's internet site.

3. *Billing methods.* An electric utility shall file either a net billing or an inflow-outflow billing tariff with the commission to govern the billing and crediting of eligible distributed generation facilities interconnected with the electric distribution system of an electric utility as follows:

a. (1) An electric utility choosing to utilize the net billing method shall file a tariff with the commission whereby a distributed generation customer pays all applicable charges, including applicable rider charges approved by the commission and applied to non-net metering customers, for the electricity delivered to the customer over the net metering interval. A distributed generation customer shall be credited in kilowatt-hours for energy exported to the electric utility over the net metering interval. A distributed generation customer may use the kilowatt-hour credits to offset kilowatt-hours in future billing periods. The offset shall include any applicable volumetric rider charges approved by the commission and applied to non-net metering customers.

(2) Any excess kilowatt-hours remaining at the end of a twelve-month period shall be cashed out at the electric utility's avoided cost rate with the funds from the cash out divided evenly between the customer and the electric utility's low-income home energy assistance program. The distributed generation customer shall choose either a January or April cash out date at the time of interconnection.

(3) Net billing shall not be limited in any way based on a customer's peak demand.

(4) Net billing shall not include any fees or charges that are not charged to customers in the same rate class that are not net billing customers.

b. (1) An electric utility choosing to utilize the inflow-outflow billing method shall file a tariff with the commission whereby a distributed generation customer pays all applicable charges, including applicable rider charges approved by the commission and applied to non-net metering customers, for the electricity delivered by the electric utility over the net metering interval. The distributed generation customer is credited in dollars at the outflow purchase rate for energy exported to the utility over the net metering interval. The distributed generation customer may use the dollar credits to offset any applicable volumetric charges, including applicable rider charges, billed on a kilowatt-hour basis.

UNOFFICIAL VERSION
2021 REGULAR RELEASE

(2) The electric utility shall select an hourly or subhourly metering interval that balances the benefits of accurately measuring power flows in each direction with the cost of collecting, storing, and processing meter data.

(3) Inflow-outflow billing shall not be limited in any way based on a customer's peak demand.

(4) Inflow-outflow billing shall not include any fees or charges that are not charged to customers in the same rate class that are not inflow-outflow customers.

(5) Prior to the commission's approval of a value of solar methodology and rate, the outflow purchase rate for an eligible distributed generation facility shall be the applicable retail volumetric rate, including applicable rider charges approved by the commission and applied to non-net metered customers. The outflow purchase rate for any distributed generation facility will continue to be the applicable retail volumetric rate for a term of twenty years. Any change in ownership of such eligible facility, or adoption and use by the electric utility of a value-of-solar rate pursuant to subsection 4, shall not impact the outflow purchase rate for the distributed generation facility during the twenty-year term.

4. *Value of solar methodology.* If the commission is petitioned by an electric utility after July 1, 2027, or when the statewide distributed generation penetration rate is equal to five percent, whichever is earlier, the commission shall initiate a proceeding to develop a value of solar methodology and rate for eligible distributed generation facilities. The value of solar rate shall be determined through the use of a methodology that calculates the benefits and costs an eligible distributed generation facility provides to, or imposes on, the electric system. The value of solar methodology shall be applied independently to each electric utility. When the commission determines the value of solar methodology, it shall determine if there is a need for separate methodologies for other distributed generation technologies or if it can account for the values of other technologies with modifications to the value of solar methodology.

a. In establishing the methodology, the commission shall initiate a formal proceeding. The value of solar methodology shall be determined through a study conducted by an independent third party and overseen by the commission. Interested parties shall have the opportunity to comment and offer testimony on any proposed value of solar methodology before it is adopted by the commission.

b. The benefits and costs in a value of solar methodology shall include all of the following factors as appropriate and supported by known and measurable evidence:

(1) The cost of energy and fuel.

(2) Generation capacity and reserves.

(3) Transmission capacity and charges.

(4) Distribution capacity.

(5) Transmission and distribution line losses.

(6) Fixed and variable costs associated with plant operations and maintenance.

(7) Environmental compliance costs.

(8) Integration costs.

(9) Grid support services.

(10) Other factors, based on known and measurable evidence of the cost or benefit of solar operations to the electric utility's electric system.

c. Upon approval of the value of solar methodology, the outflow purchase rate shall be limited to either a five percent increase or decrease from the previous outflow purchase rate. The value of solar rate shall be recomputed annually and reflected in the outflow purchase rate, limited to a five percent increase or decrease from the previous outflow purchase rate. If the utility switches from a net billing method to an inflow-outflow billing method after the value of solar methodology is approved, then the previous purchase rate shall be the applicable retail volumetric rate including all applicable rider charges approved by the commission.

d. The commission shall consider, review, and update as appropriate the value of solar methodology at least every three years after completion of the initial methodology.

e. After the commission has approved a value of solar methodology and rate, the outflow purchase rate shall be set using the value of solar methodology. The outflow purchase rate for

UNOFFICIAL VERSION
2026 EARLY RELEASE

such a facility will be fixed for a term of twenty years regardless of any subsequent changes in the electric utility's outflow purchase rate or changes in ownership of such facility.

5. *Forfeiture of outflow purchase credits.* Any outflow purchase credits remaining at the end of an annual period shall be forfeited to the rider used by the electric utility pursuant to subsection 7. The distributed generation customer shall choose either a January or April date at the time of interconnection for the purposes of determining the annual period.

6. *Proposal of separate rate classes.* An electric utility shall not propose treating distributed generation customers as a separate rate class in a general rate case prior to the commission's approval of a value of solar methodology or prior to July 1, 2027, whichever is earlier. If an electric utility chooses to propose a separate rate class for distributed generation customers in a future proceeding, such a proposal shall be approved or disapproved in accordance with section 476.6 and accompanying rules.

7. *Riders.* An electric utility shall be allowed to recover the amounts credited to an eligible distributed generation customer for outflow purchases pursuant to a rider. To the extent an electric utility does not have such a rider, the commission shall allow an electric utility to establish a rider to recover such amounts. For purposes of this subsection, *"rider"* includes a fuel or energy adjustment clause.

8. *Preexisting tariff.* Any customer utilizing a net billing tariff approved by the commission on or before the availability of inflow-outflow billing may continue to receive electric service pursuant to the preexisting tariff for the remaining duration of the contract regardless of any subsequent changes in ownership of such facility.

9. *Use of funds collected through alternate energy purchase programs.* An electric utility may use funds collected pursuant to section 476.47 to offset any amounts that would otherwise be recovered through a rider resulting from outflow purchases of excess energy produced by an eligible distributed generation facility.

10. *Reasonableness of net billing and inflow-outflow billing.* When the statewide net metering penetration level reaches ten percent, the commission shall determine whether the net billing and inflow-outflow billing methods are still reasonable and shall make recommendations to the general assembly. Regardless of the commission's recommendations, existing facilities shall continue to be eligible for the net billing or inflow-outflow billing tariff in place at the time of installation and for twenty years of operation thereafter.

SUBCHAPTER VII

PENALTY

476.51 Civil penalty.

1. A public utility which, after written notice by the commission of a specific violation, violates the same provision of this chapter, the same rule adopted by the commission, or the same provision of an order lawfully issued by the commission, is subject to a civil penalty, which may be levied by the commission, of not less than one hundred dollars nor more than two thousand five hundred dollars per violation.

2. A public utility which willfully, after written notice by the commission of a specific violation, violates the same provision of this chapter, the same rule adopted by the commission, or the same provision of an order lawfully issued by the commission, is subject to a civil penalty, which may be levied by the commission, of not less than one thousand dollars nor more than ten thousand dollars per violation. For the purposes of this section, *"willful"* means knowing and deliberate, with a specific intent to violate.

3. Each violation is a separate offense. In the case of a continuing violation, each day a violation continues, after the time specified for compliance in the written notice by the commission, is a separate and distinct offense. Any civil penalty may be compromised by

UNOFFICIAL VERSION 2027 EARLY RELEASE

the commission. In determining the amount of the penalty, or the amount agreed upon in a compromise, the commission may consider the appropriateness of the penalty in relation to the size of the public utility, the gravity of the violation, and the good faith of the public utility in attempting to achieve compliance following notification of a violation, and any other relevant factors.

4. The written notice given by the commission to a public utility under this section shall specify an appropriate time for compliance.

5. Civil penalties collected pursuant to this section from utilities providing water, electric, or gas service shall be forwarded by the chief operating officer of the commission to the treasurer of state to be credited to the general fund of the state and to be used only for the low income home energy assistance program and the weatherization assistance program administered by the department of health and human services. Civil penalties collected pursuant to this section from utilities providing telecommunications service shall be forwarded to the treasurer of state to be credited to the commerce revolving fund created in section 546.12 to be used only for consumer education programs administered by the commission. Penalties paid by a rate-regulated public utility pursuant to this section shall be excluded from the utility's costs when determining the utility's revenue requirement, and shall not be included either directly or indirectly in the utility's rates or charges to customers.

SUBCHAPTER VIII

POLICIES

476.52 Management efficiency.

1. It is the policy of this state that a public utility shall operate in an efficient manner.

2. If the commission determines in the course of a proceeding conducted under section 476.3 or 476.6 that a utility is operating in an inefficient manner, or is not exercising ordinary, prudent management, or in comparison with other utilities in the state the commission determines that the utility is performing in a less beneficial manner than other utilities, the commission may reduce the level of profit or adjust the revenue requirement for the utility to the extent the commission believes appropriate to provide incentives to the utility to correct its inefficient operation.

3. If the commission determines in the course of a proceeding conducted under section 476.3 or 476.6 that a utility is operating in such an extraordinarily efficient manner that tangible financial benefits result to the ratepayer, the commission may increase the level of profit or adjust the revenue requirement for the utility.

4. In making its determination under this section, the commission may also consider a public utility's pursuit of energy efficiency programs. The commission shall adopt rules for determining the level of profit or the revenue requirement adjustment that would be appropriate. The commission shall also adopt rules establishing a methodology for an analysis of a utility's management efficiency.

83 Acts, ch 127, §35; 89 Acts, ch 297, §11; 2018 Acts, ch 1041, §99; 2024 Acts, ch 1170, §369

476.53 Electric generating and transmission facilities.

1. It is the intent of the general assembly to attract the development of electric power generating and transmission facilities within the state in sufficient quantity to ensure reliable electric service to Iowa consumers and provide economic benefits to the state. It is also the intent of the general assembly to encourage rate-regulated public utilities to consider altering existing electric generating facilities, where reasonable, to manage carbon emission intensity in order to facilitate the transition to a carbon-constrained environment.

2. *a.* The general assembly's intent with regard to the development of electric power generating and transmission facilities, or the significant alteration of an existing generating

UNOFFICIAL VERSION AS OF EARLY RELEASE

facility, as provided in subsection 1, shall be implemented in a manner that is cost-effective and compatible with the environmental policies of the state, as expressed in this Title XI.

b. The general assembly's intent with regard to the reliability of electric service to Iowa consumers, as provided in subsection 1, shall be implemented by considering the diversity of the types of fuel used to generate electricity, the availability and reliability of fuel supplies, and the impact of the volatility of fuel costs.

3. *a.* The commission shall specify in advance, by order issued after a contested case proceeding, the ratemaking principles that will apply when the costs of the electric power generating facility or alternate energy production facility are included in regulated electric rates whenever a rate-regulated public utility does any of the following:

(1) (a) Files an application pursuant to section 476A.3 to construct in Iowa a baseload electric power generating facility with a nameplate generating capacity equal to or greater than three hundred megawatts or a combined-cycle electric power generating facility, or an alternate energy production facility as defined in section 476.42, or to significantly alter an existing generating facility. For purposes of this subparagraph, a significant alteration of an existing generating facility must, in order to qualify for establishment of ratemaking principles, fall into one of the following categories:

(i) Conversion of a coal fueled facility into a gas fueled facility.

(ii) Addition of carbon capture and storage facilities at a coal fueled facility.

(iii) Addition of gas fueled capability to a coal fueled facility, in order to convert the facility to one that will rely primarily on gas for future generation.

(iv) Addition of a biomass fueled capability to a coal fueled facility.

(v) Repowering of an alternate energy production facility. For purposes of this subparagraph subdivision, *"repowering"* shall mean either the complete dismantling and replacement of generation equipment at an existing project site, or the installation of new parts and equipment to an existing alternate energy production facility in order to increase energy production, reduce load, increase service capacity, improve project reliability, or extend the useful life of the facility.

(b) With respect to a significant alteration of an existing generating facility, an original facility shall not be required to be either a baseload or a combined-cycle facility. Only the incremental investment undertaken by a utility under subparagraph division (a), subparagraph subdivision (i), (ii), (iii), or (iv) shall be eligible to apply the ratemaking principles established by the order issued pursuant to paragraph *"e"*. Facilities for which advanced ratemaking principles are obtained pursuant to this section shall not be subject to a subsequent commission review pursuant to section 476.6, subsection 19, to the extent that the investment has been considered by the commission under this section. To the extent an eligible utility has been authorized to make capital investments subject to section 476.6, subsection 19, such investments shall not be eligible for ratemaking principles pursuant to this section.

(2) Leases or owns in Iowa, in whole or in part, a new baseload electric power generating facility with a nameplate generating capacity equal to or greater than three hundred megawatts or a combined-cycle electric power generating facility, or a new alternate energy production facility as defined in section 476.42.

b. In determining the applicable ratemaking principles, the commission shall not be limited to traditional ratemaking principles or traditional cost recovery mechanisms. Among the principles and mechanisms the commission may consider, the commission has the authority to approve ratemaking principles proposed by a rate-regulated public utility that provide for reasonable restrictions upon the ability of the public utility to seek a general increase in electric rates under section 476.6 for at least three years after the generating facility begins providing service to Iowa customers.

c. In determining the applicable ratemaking principles, the commission shall make the following findings:

(1) The rate-regulated public utility has in effect a commission-approved energy efficiency plan as required under section 476.6, subsection 15.

(2) The rate-regulated public utility has demonstrated to the commission that the public

USE THIS VERSION 2027 EARLY RELEASE

utility has considered other sources for long-term electric supply and that the facility or lease is reasonable when compared to other feasible alternative sources of supply.

d. The applicable ratemaking principles shall be determined in a contested case proceeding, which proceeding may be combined with the proceeding for issuance of a certificate conducted pursuant to chapter 476A.

e. The order setting forth the applicable ratemaking principles shall be issued prior to the commencement of construction or lease of the facility.

f. Following issuance of the order, the rate-regulated public utility shall have the option of proceeding according to either of the following:

(1) Withdrawing its application for a certificate pursuant to chapter 476A.

(2) Proceeding with the construction or lease of the facility.

g. Notwithstanding any provision of this chapter to the contrary, the ratemaking principles established by the order issued pursuant to paragraph *"e"* shall be binding with regard to the specific electric power generating facility in any subsequent rate proceeding.

4. The utilities commission and the consumer advocate may employ additional temporary staff, or may contract for professional services with persons who are not state employees, as the commission and the consumer advocate deem necessary to perform required functions as provided in this section, including but not limited to review of power purchase contracts, review of emission plans and budgets, and review of ratemaking principles proposed for construction or lease of a new generating facility. Beginning July 1, 2002, there is appropriated out of any funds in the state treasury not otherwise appropriated, such sums as may be necessary to enable the commission and the consumer advocate to hire additional staff and contract for services under this section. The costs of the additional staff and services shall be assessed to the utilities pursuant to the procedure in section 476.10 and section 475A.6.

476.54 Delayed payment charges.

A public utility shall not apply delayed payment charges on a customer's account if the scheduled payment was made by the customer within twenty days from the date the billing was sent to the customer. Delayed payment charges on a customer's account shall not exceed one and one-half percent per month of the past-due amount. This section shall not apply to telecommunications service providers registered pursuant to section 476.95A.

476.55 Complaint of antitrust activities.

1. An application for new or changed rates, charges, schedules, or regulations filed under this chapter, or an application for a certificate or an amendment to a certificate submitted under chapter 476A, by an electric transmission line utility or a gas pipeline utility or a subsidiary of either shall not be approved by the commission if, upon complaint by an Iowa electric or gas utility, the commission finds activities which create or maintain a situation inconsistent with antitrust laws and the policies which underlie them. The commission may grant the rate or facility certification request once it determines that those activities which led to the antitrust complaint have been eliminated. However, this subsection does not apply

UNOFFICIAL VERSION. 2025 EARLY RELEASE

to an application for new or changed rates, charges, schedules, or regulations after the expiration of the ten-month limitation and applicable extensions.

2. *a.* Notwithstanding section 476.1D, the commission may receive a complaint from a local exchange carrier that another local exchange carrier has engaged in an activity that is inconsistent with antitrust laws and the policies which underlie them. For purposes of this subsection, *"local exchange carrier"* means the same as defined in section 476.96, Code 2017, and includes a city utility authorized pursuant to section 388.2 to provide local exchange services. If, after notice and opportunity for hearing, the commission finds that a local exchange carrier has engaged in an activity that is inconsistent with antitrust laws and the policies which underlie them, the commission may order any of the following:

(1) The local exchange carrier to adjust retail rates in an amount sufficient to correct the antitrust activity.

(2) The local exchange carrier to pay any costs incurred by the complainant for the pursuit of the complaint.

(3) The local exchange carrier to pay a civil penalty.

(4) Either the local exchange carrier or the complainant to pay the costs of the complaint proceeding before the commission, and the other party's reasonable attorney fees.

b. This subsection shall not be construed to modify, restrict, or limit the right of a person to bring a complaint under any other provision of this chapter.

476.58 Safety of distributed generation facilities — disconnection device required — rules.

1. For purposes of this section:

a. "Disconnection device" means a lockable visual disconnect or other disconnection device capable of disconnecting and de-energizing the residual voltage in a distributed generation facility.

b. "Distributed generation facility" means any of the following:

(1) A cogeneration facility or a small power production facility that is a qualifying facility under 18 C.F.R. pt. 292, subpt. B, used by an interconnection customer to generate electricity that operates in parallel with the electric distribution system, and that typically includes an electric generator and the equipment required to interconnect safely with the electric distribution system or local electric power system.

(2) An alternate energy production facility as defined in section 476.42.

(3) A small hydro facility as defined in section 476.42.

c. "Electric distribution system" means the facilities and equipment owned and operated by an electric utility that are used to transmit electricity to ultimate usage points from interchanges with higher voltage transmission networks which transport bulk power over long distances and that generally operate at less than one hundred kilovolts of electricity.

d. "Electric meter" means a device used by an electric utility that measures and registers the integral of an electrical quantity with respect to time.

e. "Electric utility" means a public utility that furnishes electricity to the public for compensation.

UNOFFICIAL VERSION MAY BE EARLY RELEASE

f. *"Interconnection customer"* means a person that interconnects a distributed generation facility to an electric distribution system.

2. Consistent with the commission's safety jurisdiction pursuant to section 476.1, the commission shall adopt rules pursuant to chapter 17A relating to the safe installation and operation of interconnections between distributed generation facilities and electric distribution systems. The rules shall include but not be limited to the following:

a. For installations placed in service on or after July 1, 2015, a requirement that a disconnection device be installed at a location that is easily visible and adjacent to an interconnection customer's electric meter. For installations placed in service prior to July 1, 2015, a requirement that an interconnection customer provide and attach a permanent placard at the electric meter that clearly identifies the presence and location of disconnection devices for distributed generation facilities on the property.

b. A requirement that interconnection customers notify local paid or volunteer fire departments of the location of distributed generation facilities and associated disconnection devices upon completion of installation and procedures for such notifications.

c. Procedures for electric utilities to deny or disconnect service for safety reasons to a person who does not comply with rules adopted pursuant to this subsection.

3. Procedures and requirements provided in rules adopted pursuant to subsection 2 shall apply to all electric utilities and all interconnection customers in this state. However, only those rule provisions concerning interconnections between distributed generation facilities and electric distribution systems and safety issues shall apply to utilities over which the commission's jurisdiction is limited by section 476.1A or 476.1B.

4. This section shall not be construed to expand the commission's jurisdiction over a utility over which the commission's jurisdiction is limited by section 476.1A or 476.1B. This section shall not be construed to authorize the commission to require that an installation or connection of a distributed generation facility, disconnection device, or interconnection between a distributed generation facility and an electric distribution system be performed by a licensed electrician, installer, or professional engineer. This section shall not be construed to require inspection of a distributed generation facility, disconnection device, or interconnection between a distributed generation facility and an electric distribution system pursuant to chapter 103.

476.59 System enhancement infrastructure.

1. It is the intent of the general assembly to authorize alternative ratemaking mechanisms to develop and sustain adequate water and wastewater treatment facilities within the state to ensure resilient water supply and sanitation services for Iowa consumers. The commission shall not be bound by traditional ratemaking principles or traditional cost recovery mechanisms with respect to system enhancement infrastructure.

2. For purposes of this section:

a. *"Blanket-type work project order"* means an agreement between an eligible utility and a supplier to deliver goods or services at a set price on a recurring basis over a specified time period.

b. *"Eligible utility"* means an investor-owned public utility providing water or wastewater service subject to rate regulation by the commission pursuant to section 476.1.

c. *"Plan"* means a multiyear plan to implement system enhancement improvements.

d. *"Pretax return"* means the revenues necessary to accomplish all of the following:

(1) Producing net operating income equal to the utility's weighted cost of capital approved in the utility's most recent rate case and the actual embedded cost of debt at the time the filing is made multiplied by investments in system enhancement improvements.

(2) Paying state and federal income taxes applicable to income under subparagraph (1).

e. *"Requirement"* means any decision or regulation imposed on an eligible utility by a local government unit, a state, or the federal government in connection with any of the following:

(1) The federal Water Pollution Control Act, 33 U.S.C. §1251 et seq.

(2) The federal Safe Drinking Water Act, 42 U.S.C. §300f et seq.

UNOFFICIAL VERSION 2025 EARLY RELEASE

(3) Any other law, order, or regulation administered by the United States environmental protection agency, the United States army corps of engineers, the United States department of transportation, the Iowa department of transportation, or the Iowa department of natural resources.

(4) Regulations imposed by a local government unit.

f. "System enhancement charge" means a charge assessed by an eligible utility to recover system enhancement costs.

g. (1) *"System enhancement costs"* means the following costs associated with any of the following system enhancement improvements:

(a) Depreciation expenses, including any such expenses incurred prior to the approval of a plan containing the applicable system enhancement improvement.

(b) Restoration costs incurred to restore property to its preconstruction condition other than those already capitalized and included in depreciation expenses.

(c) Property taxes to be paid by the utility based upon the first assessment date following placement in service.

(d) Pretax return.

(2) *"System enhancement costs"* does not include fines or penalties assessed against or imposed on a utility for violating laws, regulations, or consent decrees.

h. (1) *"System enhancement improvement"* means a water or wastewater utility plant project incurred pursuant to a plan that does any of the following:

(a) Installs new utility infrastructure required by federal, state, or local requirements pertaining to resilience, health, safety, or environmental protection.

(b) Relocates utility infrastructure necessary to accommodate public improvement projects required by a federal, state, or local jurisdiction to the extent the relocation costs are not otherwise reimbursed through the public improvement project.

(c) Is nonrevenue producing and is required to maintain resilience, public health, safety, or environmental protection.

(2) *"System enhancement improvement"* does not include a water or wastewater utility plant included in the eligible utility's rate base in its most recent general rate case.

3. *a.* Before an eligible utility may seek recovery of its system enhancement costs through a system enhancement charge under this section, it must first obtain approval from the commission of a plan including the proposed system enhancement improvements. The eligible utility must file with the commission an application and supporting evidence for the plan. An eligible utility may only file one plan every twelve months for water and wastewater system enhancement improvements. The commission shall dismiss an application to approve a plan if the commission has not issued a final order in a general rate case proceeding under section 476.6 involving the eligible utility for the same type of utility service within the past five years.

b. Evidence supporting an application to approve a plan shall include all of the following:

(1) Projected annual capital expenditures including a contingency identified by major categories of expenditures of system enhancement improvements included in the plan.

(2) A description of the age, condition, or other similar and reasonably available information about the existing infrastructure and any deficiencies in resilience, public health, safety, or environmental protection, if applicable.

(3) The applicable requirements, including any consent decrees and conditions, including but not limited to completion deadlines, related to the requirements.

(4) A narrative describing how the system enhancement improvements enable compliance with the requirements.

(5) Alternative plans for compliance considered by the eligible utility.

(6) An engineering evaluation and report identifying the system enhancement improvements included in the plan, with descriptions of project objectives, detailed cost estimates, and the estimated in-service dates for each system enhancement improvement.

(7) Any blanket-type work order and its associated costs proposed to implement the improvements.

(8) Proposed rate schedules establishing a system enhancement charge.

(9) The estimated rate impact of the proposed system enhancement charge.

UNOFFICIAL VERSION: 2021 PRE-RELEASE

(10) A financial impact analysis demonstrating that the total projected costs of the improvements included in the plan will not result in aggregate system enhancement charge revenues exceeding the ten percent limit established under subsection 4, paragraph *"c"*.

c. An application for approval of a plan shall be a contested case. The commission shall issue its final order on the application not more than eight months after the filing of the application. However, upon good cause shown, the commission may extend the time for issuing the order. When reviewing the plan and corresponding system enhancement charge, the commission shall make reasonable efforts to ensure the utility is in compliance with the requirements as supported by evidence in the application and the proceeding. The commission may also consider the following criteria:

(1) The plan consists of projects that are system enhancement improvements, except any removed pursuant to paragraph *"d"*.

(2) The plan includes cost estimates that enable a reasonable assessment of the costs of the plan.

(3) The plan will result in rates that are just and reasonable.

d. The commission shall not disapprove the plan on the basis that one or more system enhancement improvements within the plan do not satisfy paragraph *"e"*. The commission may approve the plan subject to the removal of the system enhancement improvements found not to satisfy paragraph *"e"*.

e. An eligible utility that operates both a water and wastewater utility shall establish separate plans for water and wastewater system enhancement improvements and such plans shall be presented to the commission through different applications.

f. (1) The commission shall not approve a system enhancement plan, or an update to an existing plan, if the commission finds that the projected annualized revenue required to recover the costs of the improvements included in the plan would exceed ten percent of the utility's revenue requirement as authorized in its most recent general rate case.

(2) In making the determination under subparagraph (1), the commission shall consider the cumulative impact of all existing and proposed system enhancement improvements for both water and wastewater service.

4. *a.* An eligible utility with one or more plans approved under subsection 3 shall file with the commission an application annually setting forth rate schedules establishing a system enhancement charge, which may thereafter be automatically adjusted and include a reconciliation of revenues collected under previous system enhancement charges. A revenue reconciliation filing shall be filed on an annual basis no later than ninety days following the expiration of the charge. Revenues collected from a system enhancement charge for water service shall not be used to offset costs associated with a wastewater enhancement plan, and the commission shall ensure no cross-subsidization occurs between the two distinct services. The commission shall review the filing to ensure compliance with previously approved filings.

b. The system enhancement charge shall do all of the following:

(1) Be calculated as a monthly fixed charge based upon meter size.

(2) Not include recovery of any system enhancement costs recovered by the eligible utility through contributions in aid of construction.

(3) Recover eighty percent of the revenue requirement necessary to recover system enhancement costs incurred prior to the date of the application and not previously recovered through a system enhancement charge.

(4) Reflect system enhancement costs for system enhancement improvements placed in service prior to the date the application is filed.

(5) Include the pretax return associated with the accrued asset value reflected on the eligible utility's books and records as of the date of the application for system enhancement improvements.

c. (1) The aggregate total annualized revenue produced by all system enhancement charges, including those for water and wastewater service, shall not exceed ten percent of the utility's total revenue requirement authorized in its most recent general rate case.

(2) Costs incurred in excess of the limit established in subparagraph (1) that are not

UNOFFICIAL VERSION 2027 EARLY RELEASE

otherwise exempt under paragraph *"b"* shall be deferred for consideration in the utility's next general rate case.

d. The application filed to implement the system enhancement charge shall include all of the following:

(1) A breakdown of costs for each system enhancement improvement that clearly identifies the status of completion of such project.

(2) The actual costs incurred, the projected construction timeline for projects, and the in-service or estimated in-service dates or aggregate information capturing system enhancement improvements constructed pursuant to blanket-type work project orders and the actual annual costs of the replacement programs performed pursuant to blanket-type work project orders.

e. The commission shall not authorize an adjustment to the system enhancement charge to incorporate system enhancement costs incurred since the date of prior application filed under this subsection if the commission has not issued a final order in a general rate case proceeding under section 476.6 involving the eligible utility within the past five years.

f. An eligible utility that recovers system enhancement costs under this subsection shall defer the remaining twenty percent of revenue requirement necessary to recover the system enhancement costs approved under this subsection and shall recover the deferral as part of its next general rate case that the eligible utility files with the commission.

5. System enhancement costs may be deferred by an eligible utility for recovery through the utility's next approved system enhancement charge.

6. An application to implement or change a system enhancement charge may include changes or updates to any information provided in the plan, provided that the eligible utility has a reasonable expectation that the changes or updates will occur during the time the plan is effective. The commission shall review such changes in accordance with subsection 3, paragraph *"c"*. Project changes may include but shall not be limited to additions, replacements, or deferral projects that otherwise qualify as system enhancement improvements.

7. Notice of an eligible utility's applications under section 476.6, subsection 2, must be published.

8. In its next general rate case, the eligible utility with a plan approved pursuant to subsection 3 may include the system enhancement improvements to its rate base in its application. An eligible utility's system enhancement charge approved under this section shall reset to zero upon approval of new base rates.

9. The commission shall adopt rules under chapter 17A establishing procedures to implement this section.

476.66 Customer contribution fund.

1. The utilities commission shall adopt rules which shall require each electric and gas public utility to establish a fund whose purposes shall include the receiving of contributions to assist the utility's low-income customers with weatherization measures to improve energy efficiency related to winter heating and summer cooling, and to supplement the energy assistance received under the federal low-income home energy assistance program for the payment of winter heating electric or gas utility bills.

2. The rules shall require each utility to periodically notify its customers of the availability and purpose of the fund and to provide them with forms on which they can authorize the utility to bill their contribution to the fund on a monthly basis.

3. The rules shall permit the fund to accept matching funds from persons or organizations who wish to provide assistance for customers of the utility.

4. The utility may be reimbursed by the fund for the administrative costs of the billings, disbursements, notices to customers, and financial recordkeeping. However, such reimbursement shall not exceed five percent of the total revenues collected.

5. The utility shall establish a board or committee to determine the appropriate distribution of the funds. The board or committee shall include representatives from community or regional organizations which are active in assisting citizens with payment of their winter heating bills.

6. The rules established by the utilities commission shall require an annual report to be filed for each fund. The utilities commission shall compile an annual statewide report of the fund results. The department of health and human services shall prepare an annual report of the unmet need for energy assistance and weatherization. Both reports shall be submitted to the appropriations committees of the general assembly on the first day of the following session.

7. Existing programs to receive customer contributions established by public utilities shall be construed to meet the requirements of this section. Such plans shall be subject to review by the utilities commission.

SUBCHAPTER XI

PUBLIC UTILITY AFFILIATES

476.71 Purpose.

It is the intent of the general assembly that a public utility should not directly or indirectly include in regulated rates or charges any costs or expenses of an affiliate engaged in any business other than that of utility business unless the affiliate provides goods or services to the public utility. The costs that are included should be reasonably necessary and appropriate

for utility business. It is also the intent of the general assembly that a public utility should only provide nonutility services in a manner that minimizes the possibility of cross-subsidization or unfair competitive advantage.

89 Acts, ch 103, §2

476.72 Definitions.

As used in this subchapter, unless the context otherwise requires:

1. *"Affiliate"* means a party that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with a rate-regulated public utility.

2. *"Control"* means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an enterprise through ownership, by contract or otherwise.

3. *"Nonutility service"* includes the sale, lease, or other conveyance of commercial and residential gas or electric appliances, interior lighting systems and fixtures, or heating, ventilating, or air conditioning systems and component parts or the servicing, repair, or maintenance of such equipment.

4. *"Public utility"* means a rate-regulated public utility providing electric, gas, water, sanitary sewage, or storm water drainage service, or any combination thereof.

5. *"Utility business"* means the generation or transmission of electricity or furnishing of gas or furnishing electricity to the public for compensation.

89 Acts, ch 103, §3; 2014 Acts, ch 1026, §143; 2014 Acts, ch 1099, §9; 2018 Acts, ch 1024, §2

476.73 Affiliate records.

1. *Access to records.* Every public utility and affiliate through the public utility shall provide the commission with access to books, records, accounts, documents, and other data and information which the commission finds necessary to effectively implement and effectuate the provisions of this chapter.

2. *Separate records.* The commission may require affiliates of a public utility to keep separate records and the commission may provide for the examination and inspection of the books, accounts, papers, and records, as may be necessary to enforce this chapter.

3. *Allocation permitted.* The commission may inquire as to and prescribe, for ratemaking purposes, the allocation of capitalization, earnings, debts, and expenses related to ownership, operation, or management of affiliates.

89 Acts, ch 103, §4; 2024 Acts, ch 1170, §369

476.74 Affiliate information required to be filed.

1. *Goods and services.* All contracts or arrangements providing for the furnishing or receiving of goods and services including but not limited to the furnishing or receiving of management, supervisory, construction, engineering, accounting, legal, financial, marketing, data processing, or similar services made or entered into on or after July 1, 1989, between a public utility and any affiliate shall be filed annually with the commission.

2. *Sales, purchases, and leases.* All contracts or arrangements for the purchase, sale, lease, or exchange of any property, right, or thing made or entered into on or after July 1, 1989, between a public utility and any affiliate shall be filed annually with the commission.

3. *Loans.* All contracts or arrangements providing for any loan of money or an extension or renewal of any loan of money or any similar transaction made or entered into on or after July 1, 1989, between a public utility and any affiliate, whether as guarantor, endorser, surety, or otherwise, shall be filed annually with the commission.

4. *Verified copies required.* Every public utility shall file with the commission a verified copy of the contract or arrangement referred to in this section, or a verified summary of the unwritten contract or arrangement, and also of all the contracts and arrangements or a verified summary of the unwritten contracts or arrangements, whether written or unwritten, entered into prior to July 1, 1989, and in force and effect at that time. Any contract or agreement determined by the commission to be a confidential record pursuant to section 22.7 shall be returned to the public utility filing the confidential record within sixty days after the contract or agreement is filed.

NOT FOR RELEASE

5. *Exemption.* The provisions of this section requiring filing of contracts or agreements with the commission shall not apply to transactions with an affiliate where the amount of consideration involved is not in excess of two hundred fifty thousand dollars. However, regularly recurring payments under a general or continuing arrangement that aggregate a greater annual amount shall not be broken down into a series of transactions to come within this exemption. In any proceeding involving the rates, charges, or practices of the public utility, the commission may exclude from the accounts of the public utility any unreasonable payment or compensation made pursuant to any contract or arrangement that is not required to be filed under this subsection.

6. *Continuing jurisdiction.* The commission shall have the same jurisdiction over modifications or amendments of contracts or arrangements in this section as it has over the original contracts or arrangements. Any modification or amendment of contracts or arrangements shall also be filed annually with the commission.

7. *Sanction.* For ratemaking purposes, the commission may exclude the payment or compensation to an affiliate or adjust the revenue received from an affiliate associated with any contract or arrangement required to be filed with the commission if the contract or arrangement is not so filed.

8. *Alternative information.* The commission shall consult with other state and federal regulatory agencies for the purpose of eliminating duplicate or conflicting filing requirements and may adopt rules which provide that comparable information required to be filed with other state or federal regulatory agencies may be accepted by the commission in lieu of information required by this section.

9. *Reasonableness required.* In any proceeding, whether upon the commission's own motion or upon application or complaint involving the rates, charges, or practices of any public utility, the commission, for ratemaking purposes may exclude from the accounts of the public utility or adjust any payment or compensation related to any transaction with an affiliate for any services rendered or for any property or service furnished or received, as described in this section, under contracts or arrangements with an affiliate unless and upon inquiry the public utility shall establish the reasonableness of the payment or compensation.

10. *Exemption by rule or waiver.* The commission may adopt rules which exempt any public utility or class of public utility or class of contracts or arrangements from this section or waive the requirements of this section if the commission finds that the exemption or waiver is in the public interest.

89 Acts, ch 103, §5; 2024 Acts, ch 1108, §5; 2024 Acts, ch 1170, §369

476.75 Audits required.

The commission may periodically retain a nationally or regionally recognized independent auditing firm to conduct an audit of the transactions between a public utility and its affiliates. An affiliate transaction audit shall not be conducted more frequently than every three years, unless ordered by the commission for good cause. The cost of the audit shall be paid by the public utility to the independent auditing firm and shall be included in its regulated rates and charges, unless otherwise ordered by the commission for good cause after providing the public utility the opportunity for a hearing on the commission's decision.

89 Acts, ch 103, §6; 2024 Acts, ch 1170, §369

476.76 Reorganization defined.

For purposes of this subchapter unless the context otherwise requires, *"reorganization"* means either of the following:

1. The acquisition, sale, lease, or any other disposition, directly or indirectly, including by merger or consolidation, of the whole or any substantial part of a public utility's assets.

2. The purchase or other acquisition or sale or other disposition of the controlling capital stock of any public utility, either directly or indirectly.

Referred to in §476.44

UNOFFICIAL VERSION 2025 EARLY RELEASE

476.77 Time and standards for review.

1. A reorganization shall not take place if the commission disapproves. Prior to reorganization, the applicant shall file with the commission a proposal for reorganization with supporting testimony and evidence to establish that the reorganization is not contrary to the interests of the public utility's ratepayers and the public interest.

2. A proposal for reorganization shall be deemed to have been approved unless the commission disapproves the proposal within ninety days after its filing. The commission, for good cause shown, may extend the deadline for acting on an application for an additional period not to exceed ninety days. However, the commission shall not disapprove a proposal for reorganization without providing for notice and opportunity for hearing. The notice of hearing shall be provided no later than fifty days after the proposal for reorganization has been filed.

3. In its review of a proposal for reorganization, the commission may consider all of the following:

a. Whether the commission will have reasonable access to books, records, documents, and other information relating to the public utility or any of its affiliates.

b. Whether the public utility's ability to attract capital on reasonable terms, including the maintenance of a reasonable capital structure, is impaired.

c. Whether the ability of the public utility to provide safe, reasonable, and adequate service is impaired.

d. Whether ratepayers are detrimentally affected.

e. Whether the public interest is detrimentally affected.

4. The commission may adopt rules which exempt a public utility or class of public utility or class of reorganization from this section if the commission finds that with respect to the public utility or class of public utility or class of reorganization review is not necessary in the public interest. The commission may adopt rules necessary to protect the interest of the customers of the exempt public utility. These rules may include, but are not limited to, notification of a proposed sale or transfer of assets or stock. The commission may waive the requirements of this section, if the commission finds that commission review is not necessary in the public interest.

476.78 Cross-subsidization prohibited.

A public utility shall not directly or indirectly include any costs or expenses attributable to providing nonutility service in regulated rates or charges. Except for contracts existing as of July 1, 1996, a public utility or its affiliates shall not use vehicles, service tools and instruments, or employees, the costs, salaries, or benefits of which are recoverable in the regulated rates for electric service or gas service to install, service, or repair residential or commercial gas or electric heating, ventilating, or air conditioning systems, or interior lighting systems and fixtures; or to sell at retail heating, ventilating, air conditioning, or interior lighting equipment. For the purpose of this section, *"commercial"* means a place of business primarily used for the storage or sale, at wholesale or retail, of goods, wares, services, or merchandise. Nothing in this section shall be construed to prohibit a public utility from using its utility vehicles, service tools and instruments, and employees to market systems, services, and equipment, to light pilots, or to eliminate a customer emergency or threat to public safety.

476.79 Provision of nonutility service.

1. A public utility providing any nonutility service to its customers shall keep and render to the commission separate records of the nonutility service. The commission may provide for the examination and inspection of the books, accounts, papers, and records of the nonutility service, as may be necessary, to enforce any provisions of this chapter.

476.80 Additional requirements.

A public utility which engages in a systematic marketing effort as defined by the commission, other than on an incidental or casual basis, to promote the availability of nonutility service from the public utility shall make available at reasonable compensation on a nondiscriminatory basis to all persons engaged primarily in providing the same competitive nonutility services in that area all of the following services to the same extent utilized by the public utility in connection with its nonutility services:

1. Access to and use of the public utility's customer lists.
2. Access to and use of the public utility's billing and collection system.
3. Access to and use of the public utility's mailing system.

476.81 Audit required.

The commission may periodically retain a nationally or regionally recognized independent auditing firm to conduct an audit of the nonutility services provided by a public utility subject to the provisions of section 476.80. A nonutility service audit shall not be conducted more frequently than every three years, unless ordered by the commission for good cause. The cost of the audit shall be paid by the public utility to the independent auditing firm and shall be included in its regulated rates and charges, unless otherwise ordered by the commission for good cause after providing the public utility the opportunity for a hearing on the commission's decision.

476.82 Exemption — energy efficiency.

Notwithstanding any language to the contrary, nothing in this subchapter shall prohibit a public utility from participating in or conducting energy efficiency projects or programs established or approved by the commission or required by statute. A public utility participating in or conducting energy efficiency projects or programs established or approved by the commission or required by statute shall not be subject to the provisions of sections 476.80 and 476.81 for those energy efficiency projects or programs.

476.83 Complaints.

Any person may file a written complaint with the commission requesting that the commission determine compliance by a public utility with the provisions of section 476.78, 476.79, or 476.80, or any validly adopted rules to implement these sections. Upon the filing of a complaint, the commission may promptly initiate a formal complaint proceeding and give notice of the proceeding and the opportunity for hearing. The formal complaint proceeding may be initiated at any time by the commission on its own motion. The commission shall render a decision in the proceeding within ninety days after the date the written complaint was filed, unless additional time is requested by the complainant.

476.84 Water, sanitary sewer, and storm water utilities — acquisitions — advance ratemaking.

1. This section applies to the acquisition of water, sanitary sewer, and storm water utilities by rate-regulated public utilities. This section does not apply to the acquisition of such utilities by non-rate-regulated entities described in section 476.1, subsection 3.

2. *a.* A public utility shall not acquire, in whole or in part, a water, sanitary sewer,

UNOFFICIAL VERSION NOT FOR RELEASE

or storm water utility with a purchase price of three million dollars or more from a non-rate-regulated entity described in section 476.1, subsection 3, unless the commission first approves the acquisition. In addition, if the utility to be acquired is a city utility, then the public utility shall not acquire the city utility until the city has first certified completion of the requirements of sections 362.3, 364.2, 364.7, 384.84, 388.2, 388.2A, and 388.6. A certified completion submitted pursuant to this paragraph shall contain an affirmation that the city that is the subject of the acquisition has timely and substantially complied in relation to the acquisition with the applicable provisions of sections 362.3, 364.2, 364.7, 384.84, 388.2, 388.2A, and 388.6.

b. If a water, sanitary sewer, or storm water utility that is the subject of an acquisition meets the requirements of paragraph *"a"*, then the acquiring public utility may apply to the commission, prior to the completion of the acquisition, for advance approval of a proposed initial tariff for providing service to customers of the acquired utility. If a water, sanitary sewer, or storm water utility that is the subject of an acquisition does not meet the requirements of paragraph *"a"*, the commission shall consider reasonable and customary closing costs, the costs of the appraisals, and regulatory and legal expenses incurred in connection with the acquisition in the public utility's next rate case.

c. As part of its review of the proposed acquisition, the commission shall specify in advance, by order issued after a contested case proceeding, the ratemaking principles that will apply when the costs of the acquired utility are included in regulated rates. The lesser of the sale price or the fair market value of the acquired utility as established pursuant to section 388.2A, subsection 2, shall be used in determining the applicable ratemaking principles. In determining the applicable ratemaking principles, the commission shall not be limited to traditional ratemaking principles or traditional cost recovery mechanisms. Among the principles and mechanisms the commission may consider, the commission has the authority to approve ratemaking principles that provide for reasonable restrictions upon the ability of the public utility to seek an increase in specified regulated rates for a period of time after the acquisition takes place. The final order including the rate base and approving the acquisition shall consider reasonable and customary closing costs, the cost of appraisals, and regulatory and legal expenses incurred in connection with the acquisition.

d. In determining the applicable ratemaking principles, the commission shall find that the proposed acquisition will result in just and reasonable rates to all customers of the public utility, including but not limited to existing customers of the public utility. In making this finding, the commission may consider any factor it reasonably concludes may affect future rates, including but not limited to the price paid for the acquired utility and the projected cost of reasonable and prudent investments in the acquired utility in order to provide safe and reliable services and facilities to customers. The commission shall consider whether there are ratemaking principles that will result in just and reasonable rates to all customers in determining whether to approve or disapprove a proposed acquisition.

e. (1) In determining the applicable ratemaking principles, the commission shall require the public utility to submit a purchase agreement for the acquisition and shall find that the purchase agreement includes terms, conditions, requirements, and other provisions applicable to the system to be acquired that are in substantial compliance with the requirements in sections 362.3, 364.2, 364.7, 384.84, 388.2, 388.2A, and 388.6.

(2) The purchase agreement shall include a term allowing the parties thirty days, after final approval of the ratemaking principles, to terminate the purchase agreement without penalty.

f. If the acquisition involves a utility that is an at-risk system as defined in section 455B.199D, the commission shall issue a final order on an application for approval of the acquisition within one hundred twenty days from the filing of the application. For all other acquisitions, the commission shall issue an order within one hundred eighty days of the filing date of the application.

g. Upon the approval of a proposal for acquisition by commission order, the parties subject to the acquisition shall have the option of either proceeding with such acquisition or not, subject to any termination provisions contained in the acquisition agreement.

h. Notwithstanding any provision of this chapter to the contrary, the ratemaking principles

COMPETITIVE NATURAL GAS PROVIDERS

476.86 Definitions.

As used in this section and section 476.87, unless the context otherwise requires:

1. *"Aggregator"* means a person who combines retail end users into a group and arranges for the acquisition of competitive natural gas services without taking title to those services.

2. *a. "Competitive natural gas provider"* means a person who takes title to natural gas and sells it for consumption by a retail end user in the state of Iowa. *"Competitive natural gas provider"* includes an affiliate of an Iowa gas utility.

b. "Competitive natural gas provider" does not include the following:

(1) A public utility which is subject to rate regulation under this chapter.

(2) A municipally owned utility which provides natural gas service within its incorporated area or within the municipal natural gas competitive service area, as defined in section 437A.3, subsection 22, paragraph *"a"*, subparagraph (1), in which the municipally owned utility is located.

476.87 Certification of competitive natural gas providers.

1. The commission shall certify all competitive natural gas providers and aggregators providing natural gas services in this state. In an application for certification, a competitive natural gas provider or aggregator must reasonably demonstrate managerial, technical, and financial capability sufficient to obtain and deliver the services such provider or aggregator proposes to offer. The commission may establish reasonable conditions or restrictions on the certificate at the time of issuance. The commission shall adopt rules to establish specific criteria for certification. The commission shall make a determination on an application for certification within ninety days of its submission, unless the commission determines that additional time is necessary to consider the application, in which case the commission may extend the time for making a determination for an additional sixty days.

2. The commission may resolve disputes involving the provision of natural gas services by a competitive natural gas provider or aggregator.

3. The commission shall allocate the costs and expenses reasonably attributable to certification and dispute resolution in this section to persons identified as parties to such proceeding who are engaged in or who seek to engage in providing natural gas services or other persons identified as participants in such proceeding. The funds received for the costs and the expenses of certification and dispute resolution shall be remitted to the treasurer of state for deposit in the commerce revolving fund created in section 546.12 as provided in section 476.10.

ALTERNATIVE OPERATOR SERVICES

476.91 Alternative operator services.

1. *Definitions.* As used in this section, unless the context otherwise requires:

a. "Alternative operator services company" means a nongovernmental company which receives more than half of its Iowa intrastate telecommunications services revenues from calls placed by end-user customers from telephones other than ordinary residence or business telephones. The definition is further limited to include only companies which provide operator assistance, either through live or automated intervention, on calls placed from other than ordinary residence or business telephones, and does not include services provided under contract to rate-regulated local exchange utilities.

b. "Contracting entity" means an entity providing telephones other than ordinary residence or business telephones for use by end-user customers which has contracted with an alternative operator services company to provide telecommunications services to those telephones.

c. "End-user customer" means a person who places a local or toll call.

d. "Other than ordinary residence or business telephones" means telephones other than the residence or business telephones of the customary users of the telephones, including but not limited to pay telephones and telephones in motel, hotel, hospital, and college dormitory rooms.

2. *Jurisdiction.* Notwithstanding any finding by the commission that a service or facility is subject to competition and should be deregulated pursuant to section 476.1, all intrastate telecommunications services provided by alternative operator services companies to end-user customers, using other than ordinary residence or business telephones, are subject to the jurisdiction of the commission and shall be rendered pursuant to tariffs approved by the commission. Alternative operator services companies shall be subject to all requirements and sanctions provided in this chapter. Contracting entities shall be subject to the requirements of any commission regulations concerning telecommunications services provided by alternative operator services companies.

3. *Requirements.* The commission shall adopt and enforce requirements for the provision of services by alternative operator services companies and contracting entities.

4. *Billing by local exchange utilities.* Notwithstanding any finding by the commission that a service or facility is subject to competition and should be deregulated pursuant to section 476.1, a regulated local exchange utility shall not perform billing and collection functions relating to regulated telecommunications services provided by an alternative operator services company, unless the alternative operator services company has filed a statement with the local exchange utility signed by a corporate officer, or other authorized person having personal knowledge, that all regulated telecommunications services to be billed shall be rendered pursuant to tariffs approved by the commission.

TELECOMMUNICATIONS SERVICE PROVIDERS

476.95 Internet protocol-enabled service and voice over internet protocol service — regulation.

1. For purposes of this section:

a. "Internet protocol-enabled service" means any service, capability, functionality, or application that uses internet protocol or any successor protocol and enables an end user

to send or receive voice, data, or video communications in internet protocol format or a successor format.

b. *"Political subdivision"* means the same as defined in section 145A.2.

c. *"Voice over internet protocol service"* means an internet protocol-enabled service that facilitates real-time, two-way voice communication that originates from, or terminates at, a user's location and permits the user to receive a call that originates from the public switched telephone network and to terminate a call on the public switched telephone network.

2. Notwithstanding any other provision of law to the contrary, a department, agency, board, or political subdivision of the state shall not regulate, by rule, order, or other means directly or indirectly, the entry, rates, terms, or conditions for internet protocol-enabled service or voice over internet protocol service.

3. This section shall not be construed to affect, modify, limit, or expand any of the following:

a. The authority of the attorney general to take any action pursuant to chapter 537 or section 714.16.

b. The application or enforcement of any law that is intended to have general application to the conduct of business in this state.

c. Any entity's obligation under section 251 or 252 of the federal Telecommunications Act of 1996.

d. Any authority of the commission over wholesale telecommunications services, rates, agreements, interconnection, providers, or tariffs.

e. Any authority of the commission to address or affect the resolution of a dispute regarding intercarrier compensation.

f. Any authority of the commission, in accordance with state and federal law, to assess voice over internet protocol service for any of the following:

(1) Surcharges for 911 emergency services under section 34A.7.

(2) Assessments for dual party relay service under section 477C.7.

(3) Direct costs under section 476.10 and a share of remainder assessments that reflect the service's lesser degree of regulation.

g. Any authority of the commission to regulate internet protocol-enabled service or voice over internet protocol service pursuant to section 476.91.

476.95A Annual registration for telecommunications service providers.

1. A provider of telecommunications service, as defined in section 476.103, offering telephone numbers to retail customers in this state shall register annually with the commission.

2. An applicant shall complete an application for registration on a form provided by the commission. The form shall include contact information, the approximate number of service lines provided in the state, and any other information deemed necessary by the commission.

3. Within five business days of the receipt of a completed application for registration, the commission shall issue a nonexclusive acknowledgment of compliance with this section. The acknowledgment shall authorize the registrant to obtain telephone numbers, interconnect with other telecommunications service providers, cross railroad rights-of-way pursuant to section 476.27, and provide telecommunications service in this state. An acknowledgment may be transferred by filing a new or updated registration form.

4. A registrant shall submit to the commission corrections to the information supplied in the registration form within a reasonable time after a change in circumstances, which circumstances would be required to be reported in an application for registration form.

5. Refusal to file and maintain an annual registration pursuant to this section is a violation of this chapter and may subject a telecommunications service provider to a civil penalty pursuant to section 476.51.

6. Notwithstanding this subsection, the commission shall continue to recognize the

1. The commission may exercise any powers reserved or delegated to the state by the federal Telecommunications Act of 1996 or any other federal law, rule, or order thereunder, and may hear and resolve any dispute arising thereunder, including but not limited to intercarrier compensation, interconnection, and number portability.

2. In proceedings under 47 U.S.C. §251 – 254, the commission shall allocate the costs and expenses of the proceedings to persons identified as parties in the proceeding who are engaged in or who seek to engage in providing telecommunications service or other persons identified as participants in the proceeding. The funds received for the costs and the expenses shall be remitted to the treasurer of state for deposit in the commerce revolving fund created in section 546.12 as provided in section 476.10.

476.99 Additional price regulation plan provisions. Repealed by 2014 Acts, ch 1099, §19.

476.100 Prohibited acts.

A local exchange carrier shall not do any of the following:

1. Discriminate against another provider of communications services by refusing or delaying access to the local exchange carrier's services.

2. Discriminate against another provider of communications services by refusing or delaying access to essential facilities on terms and conditions no less favorable than those the local exchange carrier provides to itself and its affiliates. A local telecommunications facility, feature, function, or capability of the local exchange carrier's network is an essential facility if all of the following apply:

a. Competitors cannot practically or economically duplicate the facility, feature, function, or capability, or obtain the facility, feature, function, or capability from another source.

b. The use of the facility, feature, function, or capability by potential competitors is technically and economically feasible.

c. Denial of the use of the facility, feature, function, or capability by competitors is unreasonable.

d. The facility, feature, function, or capability will enable competition.

3. Degrade the quality of access or service provided to another provider of communications services.

4. Fail to disclose in a timely manner, upon reasonable request and pursuant to a protective agreement concerning proprietary information, all information reasonably necessary for the design of network interface equipment, network interface services, or software that will meet the specifications of the local exchange carrier's local exchange network.

5. Unreasonably refuse or delay interconnections or provide inferior interconnections to another provider.

UNIVERSAL SERVICE

476.102 Universal service.

1. The commission shall initiate a proceeding to preserve universal service such that it shall be maintained in a competitively neutral fashion. As a part of this proceeding, the commission shall determine the difference between the cost of providing universal service and the prices determined to be appropriate for such service.

2. The commission shall base policies for the preservation of universal service on the following principles:

a. A plan adopted by the commission should ensure the continued viability of universal service by maintaining quality services at just and reasonable rates.

b. The plan should define the nature and extent of the service encompassed within any entities' universal service obligations.

c. The plan should establish specific and predictable mechanisms to provide competitively neutral support for universal service. Those mechanisms shall include a nondiscriminatory mechanism by which funds to support universal service shall be collected, and a mechanism for disbursement of support funds to eligible subscribers, either directly to those subscribers, or to the subscriber's provider of local exchange services chosen by the subscriber.

d. The plan should be based on other principles as the commission determines are necessary and appropriate for the protection of the public interest, convenience, and necessity and consistent with the purposes of this section.

SUBCHAPTER XVII

CHANGE IN SERVICE

476.103 Unauthorized change in service — civil penalty.

1. Notwithstanding the deregulation of a communications service or facility under section 476.1D, the commission may adopt rules to protect consumers from unauthorized changes in telecommunications service. Such rules shall not impose undue restrictions upon competition in telecommunications markets.

2. As used in this section, unless the context otherwise requires:

a. "Change in service" means the designation of a new provider of a telecommunications service to a consumer, including the initial selection of a service provider, and includes the addition or deletion of a telecommunications service for which a separate charge is made to a consumer account.

b. "Consumer" means a person other than a service provider who uses a telecommunications service.

c. "Executing service provider" means, with respect to any change in telecommunications service, a service provider who executes an order for a change in service received from another service provider.

d. "Service provider" means a person providing a telecommunications service.

UNOFFICIAL VERSION: 2027 EARLY RELEASE

e. *"Submitting service provider"* means a service provider who requests another service provider to execute a change in service.

f. *"Telecommunications service"* means a local exchange or long distance telephone service other than commercial mobile radio service.

3. The commission shall adopt rules prohibiting an unauthorized change in telecommunications service. The rules shall be consistent with federal communications commission regulations regarding procedures for verification of customer authorization of a change in service. The rules, at a minimum, shall provide for all of the following:

a. (1) A submitting service provider shall obtain verification of customer authorization of a change in service before submitting such change in service.

(2) Verification appropriate under the circumstances for all other changes in service.

(3) The verification may be in written, oral, or electronic form and may be performed by a qualified third party.

(4) The reasonable time period during which the verification is to be retained, as determined by the commission.

b. A customer shall be notified of any change in service.

c. Appropriate compensation for a customer affected by an unauthorized change in service.

d. Commission determination of potential liability, including assessment of damages, for unauthorized changes in service among the customer, previous service provider, executing service provider, and submitting service provider.

e. A provision encouraging service providers to resolve customer complaints without involvement of the commission.

f. The prompt reversal of unauthorized changes in service.

g. Procedures for a customer, service provider, or the consumer advocate to submit to the commission complaints of unauthorized changes in service.

4. *a.* In addition to any applicable civil penalty set out in section 476.51, a service provider who violates a provision of this section, a rule adopted pursuant to this section, or an order lawfully issued by the commission pursuant to this section, is subject to a civil penalty, which, after notice and opportunity for hearing, may be levied by the commission, of not more than ten thousand dollars per violation. Each violation is a separate offense.

b. A civil penalty may be compromised by the commission. In determining the amount of the penalty, or the amount agreed upon in a compromise, the commission may consider the size of the service provider, the gravity of the violation, any history of prior violations by the service provider, remedial actions taken by the service provider, the nature of the conduct of the service provider, and any other relevant factors.

c. A civil penalty collected pursuant to this subsection shall be forwarded by the chief operating officer of the commission to the treasurer of state to be credited to the commerce revolving fund created in section 546.12 and to be used only for consumer education programs administered by the commission.

d. A penalty paid by a rate-of-return regulated utility pursuant to this section shall be excluded from the utility's costs when determining the utility's revenue requirement, and shall not be included either directly or indirectly in the utility's rates or charges to its customers.

e. The commission shall not commence an administrative proceeding to impose a civil penalty under this section for acts subject to a civil enforcement action pending in court under section 714D.7.

5. If the commission determines, after notice and opportunity for hearing, that a service provider has shown a pattern of violations of the rules adopted pursuant to this section, the commission may by order do any of the following:

a. Prohibit any other service provider from billing charges to residents of Iowa on behalf of the service provider determined to have engaged in such a pattern of violations.

b. Prohibit certificated local exchange service providers from providing exchange access services to the service provider.

c. Limit the billing or access services prohibition under paragraph *"a"* or *"b"* to a period of time. Such prohibition may be withdrawn upon a showing of good cause.

UNOFFICIAL VERSION
2021 CODE RELEASE

d. Revoke the certificate of public convenience and necessity of a local exchange service provider.

6. The commission has primary jurisdiction over a complaint pursuant to this section initiated by a service provider.

7. Subsection 6 does not preclude proceedings before the federal communications commission to enforce applicable federal law. However, a service provider or a consumer, for the same alleged acts, shall not pursue a complaint both before the federal communications commission and pursuant to this section.

8. The commission shall adopt competitively neutral rules establishing procedures for the solicitation, imposition, and lifting of preferred carrier freezes. A valid preferred carrier freeze prevents a change in service unless the subscriber gives the service provider from whom the freeze was requested the subscriber's express consent.

SUBCHAPTER I

ELECTRIC POWER GENERATING FACILITIES

476A.1 Definitions.

As used in this subchapter, unless the context otherwise requires:

UNOFFICIAL VERSION: 2024 EARLY RELEASE

1. *"Agency"* means an agency as defined in section 17A.2, subsection 1.
2. *"Certificate"* means a certificate of public convenience, use and necessity issued pursuant to section 476A.6.
3. *"Commence to construct"* means significant alteration of a site to install permanent equipment or structures but does not include activities incident to preliminary engineering, environmental studies or acquisition of a site for a facility.
4. *"Commission"* means the utilities commission.
5. *"Facility"* means any electric power generating plant, electric storage unit, or a combination of plants or units at a single site, owned by any person, with a total capacity of twenty-five or more megawatts of electricity for plants or twenty-five or more megawatt hours of electricity for electric storage units, and those associated transmission lines connecting the generating plant or electric storage unit to either a power transmission system or an interconnected primary transmission system or both. Transmission lines subject to the provisions of this subchapter shall not require a franchise under chapter 478.
6. *"Regulatory agency"* means an agency which issues licenses or permits required for the construction, operation or maintenance of a facility pursuant to statutes or rules in effect on the date on which an application for a certificate is accepted by the utilities commission.

476A.2 Certificate required.

1. Commencing January 1, 1977, a person shall not commence to construct a facility except as provided in section 476A.9 unless a certificate for the facility has been issued by the commission. This subchapter shall not apply to persons who prior to July 1, 1976:
a. Have acquired a site for a facility; and,
b. Have publicly announced the intention to construct a facility; and,
c. Have let contracts for major components of a facility.
2. Any significant alteration, as determined by the commission, in the location, construction, maintenance, or operation of a facility whether constructed before or after July 1, 1976, shall require an application for an amendment to a certificate or a certificate, whichever is appropriate. *"Significant alteration"* shall include but shall not be limited to a change in the type of fuel used by the major electric generating facility.
3. Any person required to obtain a certificate or an amendment to a certificate shall construct, operate and maintain the facility according to the terms of the certificate and any amendments to the certificate. A certificate shall only be issued pursuant to this subchapter.
4. This subchapter shall not apply to an electric power generating plant, or combination of plants at a single site, with a total capacity of more than twenty-five but less than one hundred megawatts of electricity if the owner or operator prior to January 1, 1990, has met all of the following conditions:
a. Acquired a site for the facility.
b. Publicly announced the intention to construct a facility at that site.
c. Let contracts for major components of the facility.

An application for a certificate or an amendment to a certificate shall be submitted to the commission on such forms as the commission may prescribe. Copies of the application shall be forwarded to regulatory agencies. Regulatory agencies receiving a copy of the application shall conduct a preliminary review of the contents and shall evaluate the application for completeness and compliance with the regulatory agency's permit and licensing requirements within a reasonable amount of time.

UNOFFICIAL VERSION 2027 NOT YET RELEASED

476A.4 Hearing scheduled — notice.

1. The proceeding for the issuance of a certificate or an amendment to a certificate shall be treated in the same manner as a contested case pursuant to the provisions of chapter 17A. Upon acceptance of an application by the commission, a public hearing shall be scheduled.

2. The commission shall serve notice of the proceeding on the following:

a. Interested agencies, as determined by the commission, and regulatory agencies.

b. County and city zoning authorities from the area in which the proposed site is located.

c. Owners of record of real property located within one thousand linear feet of the proposed site.

3. Notice of the proceeding in the form provided in section 17A.12, subsection 2, shall be published in a newspaper of general circulation in each county in which the proposed site is located once a week for two consecutive weeks with the second publication being at least twenty days prior to the date of the hearing. The commission shall be responsible for publication and delivery of notices required by this section.

4. The commission shall conduct the hearing, as described in subsection 1, in the county in which the construction of the greater portion of the facility is being proposed.

5. A proceeding for the issuance of a certificate under section 476A.5 may be consolidated with a contested case proceeding for determination of applicable ratemaking principles under section 476.53.

476A.5 Proceeding — role of regulatory agencies and local authorities.

1. The commission shall conduct the contested case proceeding. Regulatory agencies which appear on record at the proceeding shall state whether the application meets their permit and licensing requirements. If the application does not meet such requirements, the regulatory agency shall recommend amendments to the application which outline actions necessary to bring the applicant in compliance with the regulatory agency's permit and licensing requirements. The commission shall not issue a certificate for a facility which does not meet the permit and licensing requirements of a regulatory agency.

2. If a regulatory agency which received notice pursuant to section 476A.4 fails to appear of record in the contested case proceeding, the commission shall conclusively presume that the facility meets the regulatory agency's permit and licensing requirements and the regulatory agency shall immediately issue any license or permit required for the construction, operation or maintenance of the facility.

3. City and county zoning authorities designated as parties to the proceeding may appear on record and may state whether the facility meets city, county and airport zoning requirements. The failure of a facility to meet zoning requirements established pursuant to chapters 329, 335 and 414 shall not preclude the commission from issuing the certificate and to that extent the provisions of this subsection shall supersede the provisions of chapters 329, 335 and 414.

476A.6 Decision — criteria.

The commission shall render a decision on the application in an expeditious manner. A certificate shall be issued to the applicant if the commission finds all of the following:

1. The services and operations resulting from the construction of the facility are consistent with legislative intent as expressed in section 476.53 and the economic development policy of the state as expressed in Title I, subtitle 5, and will not be detrimental to the provision of adequate and reliable electric service.

2. The applicant is willing to construct, maintain, and operate the facility pursuant to the provisions of the certificate and this subchapter.

3. The construction, maintenance, and operation of the facility will be consistent with

Referred to in §476A.1

476A.7 Issuance of certificate — effect.

1. Issuance of a certificate by the commission:

a. Authorizes construction of the facility on the site designated in the certificate according to the terms and conditions stated in the certificate and licenses and permits issued by regulatory agencies during the proceeding; and,

b. Gives the applicant the power of eminent domain to the extent and under such conditions as the commission may approve, prescribe and find necessary for the public convenience, use and necessity, proceeding in the manner of works of internal improvement under chapter 6B. The burden of proving the necessity for the exercise of the power of eminent domain shall be on the person issued the certificate.

2. A certificate may be transferred, subject to the approval of the commission, to a person who agrees to comply with the terms of the certificate including any amendments to the certificate. Certificates shall be transferable by operation of law to any receiver, trustee or similar assignee under a mortgage, deed of trust or similar instrument.

3. Pursuant to the provisions of section 476.53, a rate-regulated public utility shall have the option of withdrawing its application for issuance of a certificate at any time prior to the issuance of the certificate, or after the certificate has been issued.

Upon issuance of a certificate, notwithstanding any provision of law except statutory requirements relating to the protection of employees engaged in the construction of the facility, a regulatory agency, city or county shall not require any further approval, permit or license for the construction of the facility.

[C77, 79, 81, §476A.8]

476A.9 Advance site preparation.

Subsequent to the hearing held pursuant to section 476A.5 and in the event of extensive delay in the issuance of a certificate, the commission may permit an applicant having an application docketed for hearing to begin work to prepare the site for construction of the facility. Any activities conducted pursuant to this section shall have no probative value in the commission's decision concerning the actual issuance of a certificate.

476A.13 Staff assistance — federal preemption.

1. The commission may request staff assistance from other federal, state and local agencies, pursuant to chapter 28D, to assist in discharging the responsibilities assigned to the commission pursuant to this subchapter. The commission may exercise the powers and responsibilities assigned to the commission under this subchapter jointly with other governmental agencies pursuant to chapter 28E.

2. This subchapter shall not apply to any facility over which an agency of the federal government has exclusive jurisdiction. When concurrent jurisdiction exists with certain powers reserved to the state, the state shall exercise those powers with respect to facilities operating within this state to the full extent permitted by the Constitution and the laws of the United States.

476B.3 Credit amount.

The wind energy production tax credit allowed under this chapter equals the product of one cent multiplied by the number of kilowatt-hours of qualified electricity sold or used for on-site consumption by the owner during the taxable year.

476B.4 Limitation.

The wind energy production tax credit shall not be allowed for any kilowatt-hour of electricity that is sold to a related person. For purposes of this section, persons shall be treated as related to each other if such persons would be treated as a single employer under the regulations prescribed under section 52(b) of the Internal Revenue Code. In the case of a corporation that is a member of an affiliated group of corporations filing a consolidated return, such corporation shall be treated as selling electricity to an unrelated person if such electricity is sold to such a person by another member of such group.

476B.5 Determination of eligibility.

1. An owner may apply to the commission for a written determination regarding whether a facility is a qualified facility by submitting to the commission a written application containing all of the following:

a. Information regarding the ownership of the facility including the percentage of equity interest held by each owner.

b. The nameplate generating capacity of the facility.

c. Information regarding the facility's initial placement in service.

d. Information regarding the type of facility.

e. Except when electricity is used for on-site consumption, a copy of an executed power purchase agreement or other agreement to purchase electricity upon completion of the project. An executed interconnection agreement or transmission service agreement shall be accepted by the commission under this paragraph if the owner of the facility has agreed to sell electricity from the facility directly or indirectly to a wholesale power pool market.

f. Any other information the commission may require.

2. The commission shall review the application and supporting information and shall make a preliminary determination regarding whether the facility is a qualified facility. The commission shall notify the applicant of the approval or denial of the application within thirty days of receipt of the application and information required. If the commission fails to notify the applicant of the approval or denial within thirty days, the application shall be deemed denied. An applicant who receives a determination denying an application may file an appeal with the commission within thirty days from the date of the denial pursuant to the provisions of chapter 17A. In the absence of a timely appeal, the preliminary determination shall be final. If the application is incomplete, the commission may grant an extension of time for the provision of additional information.

3. A facility that is not operational within eighteen months after issuance of an approval for the facility by the commission shall cease to be a qualified facility. However, a facility that is approved as qualified under this section but is not operational within eighteen months due to the unavailability of necessary equipment shall be granted an additional twelve months to become operational. A facility that is granted and thereafter loses approval may reapply to the commission for a new determination.

4. The maximum amount of nameplate generating capacity of all qualified facilities the commission may find eligible under this chapter shall not exceed fifty megawatts of nameplate generating capacity.

476B.6 Tax credit certificate procedure.

1. *a.* If a city or a county in which a qualified facility is located has enacted an ordinance under section 427B.26 and an owner has filed for and received special valuation pursuant to that ordinance, the owner is not required to obtain approval from the city council or county board of supervisors to apply for the wind energy production tax credit pursuant to subsection 2.

b. (1) If neither a city nor a county in which a qualified facility is located has enacted an ordinance under section 427B.26, or a qualified facility is not eligible for special valuation pursuant to an ordinance adopted by a city or a county under section 427B.26, the owner must receive approval of the applicable city council or county board of supervisors of the city or county in which the qualified facility is located in order to be eligible to receive the wind energy production tax credit. The application for approval may be submitted prior to commencement of the construction of the qualified facility but shall be submitted no later than the close of the owner's first taxable year for which the credit is to be applied for. The application must contain the owner's name and address, the address of the qualified facility, and the dates of the owner's first and last taxable years for which the credit will be applied for. Within forty-five days of the receipt of the application for approval, the city council or county board of supervisors, as applicable, shall either approve or disapprove the application. After the forty-five-day time period has expired, the application is deemed to be approved.

(2) Upon approval of an application submitted pursuant to subparagraph (1), the owner may apply for the tax credit as provided in subsection 2. In addition, approval of the application submitted pursuant to subparagraph (1) is acceptance by the applicant for the assessment of the qualified facility for property tax purposes for a period of twelve years and approval by the city council or county board of supervisors, as applicable, for the payment of the property taxes levied on the qualified property to the state. For purposes of property taxation, the qualified facility receiving approval of an application submitted pursuant to subparagraph (1) shall be centrally assessed and shall be exempt from any replacement tax under section 437A.6 for the period during which the facility is subject to property taxation. The property taxes to be paid to the state are those property taxes which make up the consolidated tax levied on the qualified facility and which are due and payable in the twelve-year period beginning with the first fiscal year beginning on or after the end of the owner's first taxable year for which the credit is applied for. Upon approval of the application, the city council or county board of supervisors, as applicable, shall notify the county treasurer to designate on the tax statement which lists the taxes on the qualified facility the amount of the property taxes to be paid to the department. Payment of the designated property taxes to the department shall be in the same manner as required for the payment of regular property taxes and failure to pay designated property taxes to the department shall be treated the same as failure to pay property taxes to the county treasurer.

c. Once the owner of the qualified facility receives approval under paragraph "*b*", subsequent approval under paragraph "*b*" is not required for the same qualified facility for subsequent taxable years.

2. An owner of a qualified facility may apply to the commission for the wind energy production tax credit by submitting to the commission all of the following:

a. A completed application in a form prescribed by the commission.

b. A copy of the determination granting approval of the facility as a qualified facility by the commission.

c. A copy of a signed power purchase agreement or other agreement to purchase electricity.

d. Sufficient documentation that the electricity has been generated by the qualified facility and sold to a purchaser.

e. For a facility in which electricity is used for on-site consumption, the requirements of paragraphs "*c*" and "*d*" shall not be applicable. For such facilities, the owner must submit a

UNOFFICIAL VERSION 2024 COURT RULES

certification under penalty of perjury that the claimed amount of electricity was generated by the qualified facility and consumed by the owner.

f. Any other information the commission deems necessary.

3. The commission shall notify the department of the amount of kilowatt-hours generated and purchased from a qualified facility or generated and used on-site by a qualified facility. The department shall calculate the amount of the tax credit for which the applicant is eligible and shall issue the tax credit certificate for that amount or notify the applicant in writing of its refusal to do so. An applicant whose application is denied may file an appeal with the department within sixty days from the date of the denial pursuant to the provisions of chapter 17A.

4. Each tax credit certificate shall contain the owner's name, address, and tax identification number, the amount of tax credits, the first taxable year the certificate may be used, the type of tax to which the tax credits shall be applied, and any other information required by the department. The tax credit certificate shall only list one type of tax to which the amount of the tax credit may be applied. Once issued by the department, the tax credit certificate shall not be terminated or rescinded.

5. A tax credit certificate may be filed pursuant to any of the following, to the extent applicable:

a. If the tax credit application is filed by a partnership, limited liability company, S corporation, estate, trust, or other reporting entity all of the income of which is taxed directly to its equity holders or beneficiaries, for the taxes imposed under chapter 422, subchapter II or III, the tax credit certificate shall be issued directly to equity holders or beneficiaries of the applicant in proportion to their pro rata share of the income of such entity. The applicant shall, in the application made under this section, identify its equity holders or beneficiaries, and the percentage of such entity's income that is allocable to each equity holder or beneficiary.

b. If the tax credit applicant under this section is eligible to receive renewable electricity production credits authorized under section 45 of the Internal Revenue Code, as amended, and the tax credit applicant is a partnership, limited liability company, S corporation, estate, trust, or other reporting entity all of the income of which is taxed directly to its equity holders or beneficiaries, for the taxes imposed under chapter 422, subchapter II or III, the tax credit certificate may be issued to a partner if the business is a partnership, a shareholder if the business is an S corporation, or a member if the business is a limited liability company in the amounts designated by the eligible partnership, S corporation, or limited liability company. In absence of such designation, the credits under this section shall flow through to the partners, shareholders, or members in accordance with their pro rata share of the income of the entity. The applicant shall, in the application made under this section, identify the holders or beneficiaries that are to receive the tax credit certificates and the percentage of the tax credit that is allocable to each holder or beneficiary.

c. If an applicant under this section is eligible to receive renewable electricity production credits authorized under section 45 of the Internal Revenue Code, as amended, and the tax credit applicant is a partnership, limited liability company, S corporation, estate, trust, or other reporting entity all of the income of which is taxed directly to its equity holders or beneficiaries, for the taxes imposed under chapter 422, subchapter II or III, the tax credit certificates and all future rights to the tax credit in this section may be distributed to an equity holder or beneficiary as a liquidating distribution or portion thereof, of a holder or beneficiary's interest in the applicant entity. The applicant shall, in the application made under this section, designate the percentage of the tax credit allocable to the liquidating equity holder or beneficiary that is to receive the current and future tax credit certificates under this section.

d. If the tax credit application is filed by a partnership, limited liability company, S corporation, estate, trust, or other reporting entity, all of the income of which is taxed directly to its equity holders or beneficiaries for the taxes imposed under chapter 422, subchapter V, or under chapter 423, 432, or 437A, the tax credit certificate shall be issued directly to the partnership, limited liability company, S corporation, estate, trust, or other reporting entity.

6. The department shall not issue a tax credit certificate if the facility approved by the

UNOFFICIAL VERSION 2024 CODE PRE-RELEASE

commission as a qualified facility is not operational within eighteen months after the approval is issued.

7. Once a tax credit certificate is issued pursuant to this section, the tax credit may only be claimed against the type of tax reflected on the certificate.

8. A tax credit certificate shall not be used or included with a return filed for a taxable year beginning prior to July 1, 2006.

476B.6A Alternative tax credit qualification — pilot project.

Notwithstanding any other provision of this chapter to the contrary, the commission shall establish a pilot project which will allow for a wind energy production tax credit of one and one-half cents multiplied by the number of kilowatt-hours of qualified electricity sold or used for on-site consumption by up to two qualified facilities selected for participation in the project. To be eligible for the project, a qualified facility shall meet all eligibility requirements otherwise applicable pursuant to this chapter, and in addition shall be located in a county in this state with a population of between forty-four thousand one hundred fifty and forty-four thousand five hundred based on the 2006 census, and with a combined nameplate generating capacity of at least one megawatt per applicant. For purposes of the pilot project, the two megawatt minimum requirement for qualification pursuant to section 476B.1, subsection 4, paragraph *"d"*, shall not be applicable. The commission shall reduce the remaining credits available under this chapter by a dollar amount equal to the amount of credits awarded pursuant to the project.

476B.7 Transfer of tax credit certificates.

1. Wind energy production tax credit certificates issued under this chapter may be transferred to any person or entity. Within thirty days of transfer, the transferee must submit the transferred tax credit certificate to the department along with a statement containing the transferee's name, tax identification number, and address, and the denomination that each replacement tax credit certificate is to carry and any other information required by the department. Within thirty days of receiving the transferred tax credit certificate and the transferee's statement, the department shall issue one or more replacement tax credit certificates to the transferee. Each replacement certificate must contain the information required under section 476B.6 and must have the same effective taxable year and the same expiration date that appeared in the transferred tax credit certificate. Tax credit certificate amounts of less than the minimum amount established by rule of the commission shall not be transferable. A tax credit shall not be claimed by a transferee under this chapter until a replacement tax credit certificate identifying the transferee as the proper holder has been issued. A replacement tax credit certificate may reflect a different type of tax than the type of tax noted on the original tax credit certificate.

2. The tax credit shall be freely transferable. The transferee may use the amount of the tax credit transferred against the taxes imposed under chapter 422, subchapters II, III, and V, and chapter 432 for any tax year the original transferor could have claimed the tax credit. The transferee may claim a refund under chapter 423 or 437A for any tax year within the time period set forth in section 423.47 or 437A.14 for which the original transferor could have claimed a refund. Any consideration received for the transfer of the tax credit shall not be included as income under chapter 422, subchapters II, III, and V. Any consideration paid for the transfer of the tax credit shall not be deducted from income under chapter 422, subchapters II, III, and V.

476B.8 Use of tax credit certificates.

To claim a wind energy production tax credit under this chapter, a taxpayer must include one or more tax credit certificates with the taxpayer's tax return, or if used against taxes imposed under chapter 423, the taxpayer shall comply with section 423.4, subsection 4, or if used against taxes imposed under chapter 437A, the taxpayer shall comply with section 437A.17B. A tax credit certificate shall not be used or included with a return filed for a taxable year beginning prior to July 1, 2006. The tax credit certificate or certificates included with the taxpayer's tax return shall be issued in the taxpayer's name, expire on or after the last day of the taxable year for which the taxpayer is claiming the tax credit, and show a tax credit amount equal to or greater than the tax credit claimed on the taxpayer's tax return. Any tax credit in excess of the taxpayer's tax liability for the taxable year may be credited to the taxpayer's tax liability for the following seven taxable years or until depleted, whichever is the earlier. If the tax credit is applied against the taxes imposed under chapter 423 or 437A, any credit in excess of the taxpayer's tax liability is carried over and can be filed with the refund claim for the following seven tax years or until depleted, whichever is earlier. However, the certificate shall not be used to reduce tax liability for a tax period ending after the expiration date of the certificate.

476B.9 Registration of tax credit certificates.

The department shall develop a system for the registration of the wind energy production tax credit certificates issued or transferred under this chapter and a system that permits verification that any tax credit claimed on a tax return is valid and that transfers of the tax credit certificates are made in accordance with the requirements of this chapter. The tax credit certificates issued under this chapter shall not be classified as a security pursuant to chapter 502.

476C.1 Definitions.

For purposes of this chapter, unless the context otherwise requires:

1. *"Anaerobic digester system"* means a system of components that processes plant or animal materials based on the absence of oxygen and produces methane or other biogas used to generate electricity, hydrogen fuel, or heat for a commercial purpose.

2. *"Biogas recovery facility"* means an anaerobic digester system that is located in this state.

3. *"Biomass conversion facility"* means a facility in this state that converts plant-derived organic matter including, but not limited to, agricultural food and feed crops, crop wastes

UNOFFICIAL VERSION 2027 EARLY FILE

and residues, wood wastes and residues, or aquatic plants to generate electricity, hydrogen fuel, or heat for a commercial purpose.

4. *"Commission"* means the utilities commission.

5. *"Department"* means the department of revenue.

6. *"Eligible renewable energy facility"* means a wind energy conversion facility, a biogas recovery facility, a biomass conversion facility, a methane gas recovery facility, a solar energy conversion facility, or a refuse conversion facility that meets all of the following requirements:

a. Is located in this state.

b. Is at least fifty-one percent owned by one or more of any combination of the following:

(1) A resident of this state.

(2) Any of the following as defined in section 9H.1:

(a) An authorized farm corporation.

(b) An authorized limited liability company.

(c) An authorized trust.

(d) A family farm corporation.

(e) A family farm limited liability company.

(f) A family trust.

(g) A revocable trust.

(h) A testamentary trust.

(3) A small business as defined in section 15.102.

(4) An electric cooperative association organized pursuant to chapter 499 that sells electricity to end users located in this state, a municipally owned city utility as defined in section 362.2, or a public utility subject to rate regulation pursuant to chapter 476.

(5) An electric cooperative association that has one or more members organized pursuant to chapter 499.

(6) A cooperative corporation organized pursuant to chapter 497 or a limited liability company organized pursuant to chapter 489 whose shares and membership are held by an entity that is not prohibited from owning agricultural land under chapter 9H.

(7) A school district located in this state.

c. Has at least one owner that meets the requirements of paragraph *"b"* for each two and one-half megawatts of nameplate generating capacity or the energy production capacity equivalent for hydrogen fuel or heat for a commercial purpose of the otherwise eligible renewable energy facility.

d. Was initially placed into service on or after July 1, 2005, and before January 1, 2018.

e. For applications filed on or after July 1, 2011, is a facility of not less than three-fourths megawatts of nameplate generating capacity or the energy production capacity equivalent if all or a portion of the renewable energy produced is for on-site consumption by the producer.

f. For applications filed on or after July 1, 2011, except for wind energy conversion facilities, is a facility of no greater than sixty megawatts of nameplate generating capacity or the energy production capacity equivalent.

7. *"Energy production capacity equivalent"* means the amount of energy in a standard cubic foot of hydrogen gas or the number of British thermal units that are equal to the energy in a kilowatt-hour of electricity. For the purposes of this chapter, one kilowatt-hour shall be deemed equivalent to three thousand three hundred thirty-three British thermal units of heat or ten and forty-five one hundredths of standard cubic feet of hydrogen gas.

8. *"Heat for a commercial purpose"* means the heat in British thermal unit equivalents from refuse-derived fuel, methane, or other biogas produced in this state either for commercial use by a producer for on-site consumption or sold to a purchaser of renewable energy for use for a commercial purpose in this state or for use by an institution in this state.

9. *"Hydrogen fuel"* means hydrogen produced in this state from a renewable source that is used in a fuel cell or hydrogen-powered internal combustion engine.

10. *"Methane gas recovery facility"* means a facility in this state which is used in connection with a sanitary landfill or which uses wastes that would otherwise be deposited in a sanitary landfill, that collects methane gas or other gases and converts the gas into energy to generate electricity, hydrogen fuel, or heat for a commercial purpose.

11. *"Producer of renewable energy"* means a person who owns an eligible renewable energy facility.

12. *"Purchaser of renewable energy"* means a person who buys electric energy, hydrogen fuel, methane gas or other biogas used to generate electricity, or heat for a commercial purpose from an eligible renewable energy facility.

13. *"Refuse conversion facility"* means a facility in this state that converts solid waste into fuel that can be burned to generate heat for a commercial purpose in this state.

14. *"Solar energy conversion facility"* means a solar energy facility in this state that collects and converts incident solar radiation into energy to generate electricity.

15. *"Wind energy conversion facility"* means a wind energy conversion system in this state that collects and converts wind into energy to generate electricity.

Referred to in §437A.3, 476C.3

476C.2 Tax credit amount — limitations.

1. A producer or purchaser of renewable energy may receive renewable energy tax credits under this chapter in an amount equal to one and one-half cents per kilowatt-hour of electricity, or four dollars and fifty cents per million British thermal units of heat for a commercial purpose, or four dollars and fifty cents per million British thermal units of methane gas or other biogas used to generate electricity, or one dollar and forty-four cents per one thousand standard cubic feet of hydrogen fuel generated by and purchased from an eligible renewable energy facility or used for on-site consumption by the producer.

2. The renewable energy tax credit shall not be allowed for any kilowatt-hour of electricity, British thermal unit of heat for a commercial purpose, British thermal unit of methane gas or other biogas used to generate electricity, or standard cubic foot of hydrogen fuel that is purchased from an eligible renewable energy facility by a related person. For purposes of this subsection, persons shall be treated as related to each other if either person owns an eighty percent or more equity interest in the other person.

3. A taxpayer who is eligible to claim a renewable energy tax credit under this chapter shall not be eligible to claim a solar energy system tax credit under section 422.11L or 422.33.

2005 Acts, ch 160, §8, 14; 2011 Acts, ch 115, §6; 2012 Acts, ch 1121, §9 – 11

476C.3 Determination of eligibility.

1. A producer or purchaser of renewable energy may apply to the commission for a written determination regarding whether a facility is an eligible renewable energy facility by submitting to the commission a written application containing all of the following:

a. Information regarding the ownership of the facility including the percentage of equity interest held by each owner.

b. The nameplate generating capacity of the facility or energy production capacity equivalent.

c. Information regarding the facility's initial placement in service.

d. Information regarding the type of facility and what type of renewable energy the facility will produce.

e. Except when the renewable energy is produced for on-site consumption by the producer, a copy of the power purchase agreement or other agreement to purchase electricity, hydrogen fuel, methane or other biogas, or heat for a commercial purpose which shall designate either the producer or purchaser of renewable energy as eligible to apply for the renewable energy tax credit.

f. Any other information the commission may require.

2. The commission shall review the application and supporting information and shall make a preliminary determination regarding whether the facility is an eligible renewable energy facility. The commission shall notify the applicant of the approval or denial of the application within thirty days of receipt of the application and information required. If the commission fails to notify the applicant of the approval or denial within thirty days, the

UNOFFICIAL VERSION: 2024 EARLY RELEASE

application shall be deemed denied unless the application is placed on a waiting list as described in subsection 6. An applicant who receives a determination denying an application may file an appeal with the commission within thirty days from the date of the denial pursuant to the provisions of chapter 17A. In the absence of a timely appeal, the preliminary determination shall be final. If the application is incomplete, the commission may grant an extension of time for the provision of additional information.

3. *a.* A facility that is not operational within thirty months after issuance of an approval for the facility by the commission shall cease to be an eligible renewable energy facility. However, a wind energy conversion facility that is approved as eligible under this section but is not operational within eighteen months due to the unavailability of necessary equipment shall be granted an additional twenty-four months to become operational.

b. A facility which notifies the commission prior to the expiration of the time periods specified in paragraph *"a"* that the facility intends to become operational and wishes to preserve its eligibility shall be granted a twelve-month extension. An extension may be renewed for succeeding twelve-month periods if the commission is notified prior to the expiration of the extension of the continued intention to become operational during the succeeding period of extension.

c. If the owner of a facility discontinues efforts to achieve operational status, the owner shall notify the commission. Upon receipt of such notification, the commission shall no longer consider the facility as an eligible renewable energy facility under this chapter.

d. A facility that is granted and thereafter loses approval may reapply to the commission for a new determination.

4. *a.* The maximum amount of nameplate generating capacity of all wind energy conversion facilities the commission may find eligible under this chapter shall not exceed three hundred sixty-three megawatts of nameplate generating capacity.

b. The maximum amount of energy production capacity equivalent of all other facilities the commission may find eligible under this chapter shall not exceed a combined output of sixty-three megawatts of nameplate generating capacity and, annually, one hundred sixty-seven billion British thermal units of heat for a commercial purpose.

(1) Of the maximum amount of energy production capacity equivalent of all other facilities found eligible under this chapter, no more than ten megawatts of nameplate generating capacity or energy production capacity equivalent shall be allocated to any one facility.

(2) Of the maximum amount of energy production capacity equivalent of all other facilities found eligible under this chapter, fifty-five billion British thermal units of heat for a commercial purpose shall be reserved annually for an eligible facility that is a refuse conversion facility for processed, engineered fuel from a multicounty solid waste management planning area. The maximum amount of energy production capacity the commission may find eligible for a single refuse conversion facility is, annually, fifty-five billion British thermal units of heat for a commercial purpose.

(3) (a) Of the maximum amount of energy production capacity equivalent of all other facilities found eligible under this chapter, ten megawatts of nameplate generating capacity or energy production equivalent shall be reserved for solar energy conversion facilities that meet all of the following requirements:

(i) The facility has a generating capacity of one and one-half megawatts or less.

(ii) The facility is owned, in whole or in part, directly or indirectly, or is contracted for, by utilities described in section 476C.1, subsection 6, paragraph *"b"*, subparagraphs (4) and (5).

(iii) The facility is located in this state.

(iv) The facility meets the requirements of section 476C.1, subsection 6, paragraphs *"d"* through *"f"*.

(b) A solar energy conversion facility that meets the requirements of and is found eligible under subparagraph division (a) shall be considered an *"eligible renewable energy facility"* for purposes of this chapter, notwithstanding any contrary provisions of section 476C.1, subsection 6.

5. *a.* Notwithstanding the definition of *"eligible renewable energy facility"* in section 476C.1, subsection 6, unnumbered paragraph 1, of the maximum amount of energy

UNOFFICIAL VERSION 2021 NOT FOR RELEASE

production capacity equivalent of all other facilities found eligible pursuant to subsection 4, paragraph *"b"*, an amount equivalent to ten megawatts of nameplate generating capacity shall be reserved for natural gas, methane and landfill gas, or biogas cogeneration facilities incorporated within or associated with an ethanol plant to assist the ethanol plant in meeting a low carbon fuel standard. Thermal heat generated by the cogeneration facility and used for a commercial purpose may be counted toward satisfying the ten megawatt reservation requirement.

b. A facility that has been granted eligibility pursuant to paragraph *"a"* for a natural gas cogeneration facility incorporated within or associated with an ethanol plant prior to July 1, 2014, shall not be required to submit a new application if the facility constructs or utilizes methane and landfill gas or biogas cogeneration facilities on or after that date and does not make any other significant changes to the facility or to its status as an eligible facility under paragraph *"a"*.

6. The commission shall maintain a waiting list of facilities that may have been found eligible under this section but for the maximum capacity restrictions of subsection 4. The priority of the waiting list shall be maintained in the order the applications were received by the commission. The commission shall remove from the waiting list any facility that has subsequently been found ineligible under this chapter. If additional capacity becomes available within the capacity restrictions of subsection 4, the commission shall grant approval to facilities according to the priority of the waiting list before granting approval to new applications. An owner of a facility on the waiting list shall provide the commission each year by August 31 with a sworn statement of verification stating that the information contained in the application for eligibility remains true and correct or stating that the information has changed and providing the new information.

7. *a.* An owner meeting the requirements of section 476C.1, subsection 6, paragraph *"b"*, shall not be an owner of more than two eligible renewable energy facilities. A person that has an equity interest equal to or greater than fifty-one percent in an eligible renewable energy facility shall not have an equity interest greater than ten percent in any other eligible renewable energy facility. This paragraph *"a"* shall not apply to facilities described in subsection 4, paragraph *"b"*, subparagraph (3).

b. An entity described in section 476C.1, subsection 6, paragraph *"b"*, subparagraphs (4) or (5), shall not have an ownership interest in more than four facilities described in subsection 4, paragraph *"b"*, subparagraph (3).

476C.4 Tax credit certificate procedure.

1. A producer or purchaser of renewable energy may apply to the commission for the renewable energy tax credit by submitting to the commission all of the following:

a. A completed application in a form prescribed by the commission.

b. A copy of the determination granting approval of the facility as an eligible renewable energy facility by the commission.

c. A copy of a signed power purchase agreement or other agreement to purchase electricity, hydrogen fuel, methane or other biogas, or heat for a commercial purpose from an eligible renewable energy facility which shall designate either the producer or purchaser of renewable energy as eligible to apply for the renewable energy tax credit.

d. Sufficient documentation that the electricity, heat for a commercial purpose, methane gas or other biogas, or hydrogen fuel has been generated by the eligible renewable energy facility and sold to the purchaser of renewable energy.

e. To the extent the produced electricity, hydrogen fuel, methane or other biogas, or heat for a commercial purpose is used for on-site consumption, the requirements of paragraphs *"c"* and *"d"* shall not be applicable. For such renewable energy production, the owner must submit a certification under penalty of perjury that the claimed amount of electricity,

UNOFFICIAL VERSION NOT EARLY RELEASE

hydrogen fuel, methane or other biogas, or heat for a commercial purpose was produced by the eligible facility and consumed by the owner.

f. Any other information the commission deems necessary.

2. The commission shall notify the department of the amount of kilowatt-hours, British thermal units of heat for a commercial purpose, British thermal units of methane gas or other biogas used to generate electricity, or standard cubic feet of hydrogen fuel generated and purchased from an eligible renewable energy facility or generated and used by the producer for on-site consumption. The department shall calculate the amount of the tax credit for which the applicant is eligible and shall issue the tax credit certificate for that amount or notify the applicant in writing of its refusal to do so. An applicant whose application is denied may file an appeal with the department within sixty days from the date of the denial pursuant to the provisions of chapter 17A.

3. Each tax credit certificate shall contain the person's name, address, and tax identification number, the amount of tax credits, the first taxable year the certificate may be used, the type of tax to which the tax credits shall be applied, and any other information required by the department. The tax credit certificate shall only list one type of tax to which the amount of the tax credit may be applied. Once issued by the department, the tax credit certificate shall not be terminated or rescinded.

4. A tax credit certificate may be filed pursuant to any of the following, to the extent applicable:

a. If the tax credit application is filed by a partnership, limited liability company, S corporation, estate, trust, or other reporting entity all of the income of which is taxed directly to its equity holders or beneficiaries, for the taxes imposed under chapter 422, subchapter II or III, the tax credit certificate shall be issued directly to equity holders or beneficiaries of the applicant in proportion to their pro rata share of the income of such entity. The applicant shall, in the application made under this section, identify its equity holders or beneficiaries, and the percentage of such entity's income that is allocable to each equity holder or beneficiary.

b. (1) If the tax credit applicant under this section is eligible to receive renewable electricity production credits authorized under section 45 of the Internal Revenue Code, as amended, and the tax credit applicant is a partnership, limited liability company, S corporation, estate, trust, or other reporting entity all of the income of which is taxed directly to its equity holders or beneficiaries, for the taxes imposed under chapter 422, subchapter II or III, the tax credit certificate may be issued to a partner if the business is a partnership, a shareholder if the business is an S corporation, or a member if the business is a limited liability company in the amounts designated by the eligible partnership, S corporation, or limited liability company. In absence of such designation, the credits under this section shall flow through to the partners, shareholders, or members in accordance with their pro rata share of the income of the entity.

(2) The applicant shall, in the application made under this section, identify the equity holders or beneficiaries that are to receive the tax credit certificates and the percentage of the tax credit that is allocable to each equity holder or beneficiary.

c. (1) If an applicant under this section is eligible to receive renewable electricity production credits authorized under section 45 of the Internal Revenue Code, as amended, and the tax credit applicant is a partnership, limited liability company, S corporation, estate, trust, or other reporting entity all of the income of which is taxed directly to its equity holders or beneficiaries, for the taxes imposed under chapter 422, subchapter II or III, the tax credit certificates and all future rights to the tax credit in this section may be distributed to an equity holder or beneficiary as a liquidating distribution or portion thereof, of a holder or beneficiary's interest in the applicant entity.

(2) The applicant shall, in the application made under this section, designate the percentage of the tax credit allocable to the liquidating equity holder or beneficiary that is to receive the current and future tax credit certificates under this section.

d. If the tax credit application is filed by a partnership, limited liability company, S corporation, estate, trust, or other reporting entity, all of the income of which is taxed directly to its equity holders or beneficiaries for the taxes imposed under chapter 422, subchapter V,

2023 IOWA CODE

or under chapter 423, 432, or 437A, the tax credit certificate shall be issued directly to the partnership, limited liability company, S corporation, estate, trust, or other reporting entity.

5. The department shall not issue a tax credit certificate if the facility approved by the commission as an eligible renewable energy facility is not operational within eighteen months after the approval is issued, subject to the extension provisions of section 476C.3, subsection 3.

6. The department shall not issue a tax credit certificate to any person who has received a tax credit pursuant to chapter 476B.

7. Once a tax credit certificate is issued pursuant to this section, the tax credit may only be claimed against the type of tax reflected on the certificate.

476C.5 Certificate issuance period.

A producer or purchaser of renewable energy shall receive renewable energy tax credit certificates for a ten-year period for each eligible renewable energy facility under this chapter. The ten-year period for issuance of the tax credit certificates begins with the date the purchaser of renewable energy first purchases electricity, hydrogen fuel, methane gas or other biogas used to generate electricity, or heat for commercial purposes from the eligible renewable energy facility for which a tax credit is issued under this chapter, or the date the producer of the renewable energy first uses the energy produced by the eligible renewable energy facility for on-site consumption. Renewable energy tax credit certificates shall not be issued for renewable energy purchased or produced for on-site consumption after December 31, 2027.

476C.6 Transferability and use of tax credit certificates — registration.

1. *a.* Renewable energy tax credit certificates issued under this chapter may be transferred to any person. A tax credit certificate shall only be transferred once. However, for purposes of this transfer provision, a decision between a producer and purchaser of renewable energy regarding who claims the tax credit issued pursuant to this chapter shall not be considered a transfer and must be set forth in the application for the tax credit pursuant to section 476C.4. Within thirty days of transfer, the transferee must submit the transferred tax credit certificate to the department along with a statement containing the transferee's name, tax identification number, and address, and the denomination that each new certificate is to carry and any other information required by the department. Within thirty days of receiving the transferred tax credit certificate and the transferee's statement, the department shall issue one or more replacement tax credit certificates to the transferee. Each replacement tax credit certificate must contain the information required under section 476C.4, subsection 3, and must have the same effective taxable year and the same expiration date that appeared in the transferred tax credit certificate. Tax credit certificate amounts of less than the minimum amount established by rule shall not be transferable. A tax credit shall not be claimed by a transferee under this chapter until a replacement tax credit certificate identifying the transferee as the proper holder has been issued. The replacement tax credit certificate may reflect a different type of tax than the type of tax noted on the original tax credit certificate.

b. The transferee may use the amount of the tax credit transferred against taxes imposed under chapter 422, subchapters II, III, and V, and chapter 432 for any tax year the original transferor could have claimed the tax credit. The transferee may claim a refund under chapter 423 or 437A for any tax year within the time period set forth in section 423.47 or 437A.14 for which the original transferor could have claimed the refund. Any consideration received for the transfer of the tax credit shall not be included as income under chapter 422, subchapters

UNOFFICIAL VERSION: SUBJECT TO FINAL RELEASE

II, III, and V. Any consideration paid for the transfer of the tax credit shall not be deducted from income under chapter 422, subchapters II, III, and V.

2. To claim a renewable energy tax credit under this chapter, a taxpayer must include one or more tax credit certificates with the taxpayer's tax return, or if used against taxes imposed under chapter 423, the taxpayer shall comply with section 423.4, subsection 4, or if used against taxes imposed under chapter 437A, the taxpayer shall comply with section 437A.17B. A tax credit certificate shall not be used or included with a return filed for a taxable year beginning prior to July 1, 2006. The tax credit certificate or certificates included with the taxpayer's tax return shall be issued in the taxpayer's name, expire on or after the last day of the taxable year for which the taxpayer is claiming the tax credit, and show a tax credit amount equal to or greater than the tax credit claimed on the taxpayer's tax return. Any tax credit in excess of the taxpayer's tax liability for the taxable year may be credited to the taxpayer's tax liability for the following seven tax years or until the credit is depleted, whichever is earlier. If the tax credit is applied against the taxes imposed under chapter 423 or 437A, any credit in excess of the taxpayer's tax liability is carried over and can be filed with the refund claim for the following seven tax years or until depleted, whichever is earlier. However, the certificate shall not be used to reduce tax liability for a tax period ending after the expiration date of the certificate.

3. The department shall develop a system for the registration of the renewable energy tax credit certificates issued or transferred under this chapter and a system that permits verification that any tax credit claimed on a tax return is valid and that transfers of the tax credit certificates are made in accordance with the requirements of this chapter. The tax credit certificates issued under this chapter shall not be classified as a security pursuant to chapter 502.

SUBCHAPTER I

GENERAL PROVISIONS

477.1 Right-of-way.

Any person, firm, and corporation, within or without the state, may construct a telegraph or telephone line or cable system along the public roads of the state, or across or under the rivers or over, under, or through any lands belonging to the state or any private individual, and may erect or install necessary fixtures. However, construction of a telegraph or telephone line or cable system along a primary road is subject to rules adopted by the state department of transportation.

Authorization in cities, §364.2

477.2 Removal of lines and cable systems.

When any road along which the telegraph or telephone line or cable system has been constructed or installed is changed, the person, firm or corporation shall, upon ninety days' notice in writing, remove the telegraph or telephone lines or cable system to the road as established. The notice may be served upon any agent or operator in the employ of the person, firm or corporation.

[C73, §1324; C97, §2158; C24, 27, 31, 35, 39, §**8301;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §488.2; C77, 79, 81, §477.2]

477.5 Equal facilities — delay.

If the proprietor of any telegraph or telephone line within the state, or the person having the control and management thereof, refuses to furnish equal facilities to the public and to all connecting lines for the transmission of communications in accordance with the nature of the business which it undertakes to carry on, or to transmit the same with fidelity and without unreasonable delay, the law in relation to limited partnerships, corporations, and to the taking of private property for works of internal improvement, shall no longer apply to them, and property taken for the use thereof without the consent of the owner may be recovered by the owner.

[C51, §783; R60, §1351; C73, §1327; C97, §2161; C24, 27, 31, 35, 39, §**8304;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §488.5; C77, 79, 81, §477.5]

2008 Acts, ch 1032, §63

477.6 Delay — willful error — revealing contents.

Any person employed in transmitting messages by telegraph or telephone must do so with fidelity and without unreasonable delay, and if anyone willfully fails thus to transmit them, or intentionally transmits a message erroneously, or makes known the contents of any message sent or received to any person except the person to whom it is addressed, or such person's agent or attorney, or willfully and wrongfully takes or receives any telegraph or telephone message, the person is guilty of a simple misdemeanor.

[C51, §784; R60, §1352; C73, §1328; C97, §2162; C24, 27, 31, 35, 39, §**8305;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §488.6; C77, 79, 81, §477.6]

477.7 Mistakes and delays.

The proprietor of a telegraph or telephone line is liable for all mistakes in transmitting or receiving messages made by any person in the proprietor's employment, or for any unreasonable delay in their transmission or delivery, and for all damages resulting from failure to perform the foregoing or any other duty required by law, the provisions of any contract to the contrary notwithstanding.

[C51, §785; R60, §1353; C73, §1329; C97, §2163; C24, 27, 31, 35, 39, §**8306;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §488.7; C77, 79, 81, §477.7]

Referred to in §477.9A

477.8 Negligence presumed.

In any action against any telegraph or telephone company for damages caused by erroneous transmission of a message, or by unreasonable delay in delivery of a message, negligence on the part of the telegraph or telephone company shall be presumed upon proof of erroneous transmission or of unreasonable delay in delivery, and the burden of proof that such error or delay was not due to negligence upon its part shall rest upon such company.

[C97, §2164; C24, 27, 31, 35, 39, §**8307;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §488.8; C77, 79, 81, §477.8]

477.9 Presentation of claim.

No action for the recovery of such damages shall be maintained unless a claim therefor is presented in writing to such company, officer or agent thereof within sixty days from time cause of action accrues.

477.9A Deregulated services.

1. A telegraph or telephone company whose services are deregulated by the commission under section 476.1D may use public notice as a means of conveying terms and conditions to customers where identification of those customers is infeasible or impractical. Public notice may also be used to convey changes in terms and conditions, other than price increases or limitations of liability, to all other customers, but only if those customers were put on notice that this means would be used to convey subsequent changes. Notwithstanding section 477.7, when services are deregulated by the commission under section 476.1D, a telegraph or telephone company, in any contract, agreement, or by means of public notice, may reasonably limit its liability under section 477.7 in the course of providing the deregulated communications services to its customers, except for acts of willful misconduct. However, this section does not allow a greater limitation on liability than exists in any contract or approved tariff as of the effective date of the deregulation of the services.

2. A telephone company whose services are subject to regulation by the commission with respect to terms and conditions, but not rates, shall give notice of rate changes to customers.

(2) Event-based charges for cable or video service, including but not limited to pay-per-view and video-on-demand charges.

(3) Rental of set-top boxes and other cable or video service equipment.

(4) Service charges related to the provision of cable or video service, including but not limited to activation, installation, and repair charges.

(5) Administrative charges related to the provision of cable or video service, including but not limited to service order and service termination charges.

(6) A pro rata portion of all revenue derived, less refunds, rebates, or discounts, by a cable or video service provider for advertising over the cable or video service network to subscribers within the franchise area where the numerator is the number of subscribers within the franchise area, and the denominator is the total number of subscribers reached by such advertising. This subparagraph applies only to municipalities that include this provision in their franchise agreements as of January 1, 2007.

b. "Gross revenues" does not include any of the following:

(1) Revenues not actually received, even if billed, including bad debt.

(2) Revenues received by any affiliate or any other person in exchange for supplying goods or services used by the person providing cable or video service.

(3) Refunds, rebates, or discounts made to third parties, including subscribers, leased access providers, advertisers, or any municipality or other unit of local government.

(4) Regardless of whether the services are bundled, packaged, or functionally integrated with cable or video service, any revenues derived by the holder of a certificate of franchise authority from services not classified as cable or video service, including, without limitation, revenue received from telecommunications services, revenue received from information services, revenue received in connection with home-shopping services, or any other revenues attributed by the competitive cable or video service provider to noncable or nonvideo service in accordance with the holder's books and records kept in the regular course of business and any applicable rules, regulations, standards, or orders.

(5) Revenues paid by subscribers to home-shopping programmers directly from the sale of merchandise through any home-shopping channel offered as part of the cable or video services.

(6) Revenues from the sale of cable or video services for resale in which the purchaser is required to collect the franchise fee from the purchaser's customer.

(7) Revenues from any tax of general applicability imposed upon the competitive cable or video service provider or upon subscribers by a city, state, federal, or any other governmental entity and required to be collected by the competitive cable or video service provider and remitted to the taxing entity, including but not limited to sales or use tax, gross receipts tax, excise tax, utility users tax, public service tax, and communication taxes, and including the franchise fee imposed under section 477A.7.

(8) Revenues forgone from the provision of cable or video services to public institutions, public schools, or governmental entities at no charge.

(9) Revenues forgone from the competitive cable or video service provider's provision of free or reduced-cost video service to any person, including, without limitation, any municipality and other public institutions or other institutions.

(10) Revenues from sales of capital assets or sales of surplus equipment.

(11) Revenues from reimbursements by programmers of marketing costs incurred by

UNOFFICIAL VERSION 2027 LEGISLATIVE RELEASE

the competitive cable or video service provider for the introduction or promotion of new programming.

(12) Directory or internet advertising revenues including but not limited to yellow page, white page, banner advertisement, and electronic publishing.

(13) Copyright fees paid to the United States copyright office.

(14) Late payment charges.

(15) Maintenance charges.

12. *"Incumbent cable provider"* means the cable operator serving the largest number of cable subscribers in a particular franchise service area on January 1, 2007.

13. *"Institutional network"* means the system of dedicated fibers, coaxial cables, or wires constructed and maintained by an incumbent cable provider which is reserved and dedicated by the municipality for noncommercial purposes.

14. *"Municipality"* means a city.

15. *"Percentage of gross revenues"* means the percentage set by the municipality and identified in a written request made under section 477A.7, subsection 1, which shall be not greater than five percent. However, if the incumbent cable provider is a municipal utility providing telecommunications services under section 388.10, *"percentage of gross revenues"* means the percentage set by the municipality and identified in a written request made under section 477A.7, subsection 1, which shall not be greater than an equitable apportionment of the services and fees that the municipal utility pays to the municipality, or five percent, whichever is less.

16. *"Public right-of-way"* means the area on, below, or above a public roadway, highway, street, bridge, cartway, bicycle lane, or public sidewalk in which the municipality has an interest, including other dedicated rights-of-way for travel purposes and utility easements. *"Public right-of-way"* does not include the airwaves above a public right-of-way with regard to cellular or other nonwire telecommunications or broadcast services or utility poles owned by a municipality or a municipal utility.

17. *"Video programming"* means the same as defined in 47 U.S.C. §522.

18. *"Video service"* means video programming services provided by a competitive video service provider through wireline facilities owned, controlled, constructed, or operated by the provider of such video service and located at least in part in the public right-of-way without regard to delivery technology, including internet protocol technology. *"Video service"* does not include any of the following:

a. Video programming provided by a provider of commercial mobile service as defined in 47 U.S.C. §332.

b. Cable service provided by an incumbent cable provider or a competitive cable service provider.

c. Video programming provided by a provider of direct-to-home satellite services as defined in 47 U.S.C. §303(v) and that are transmitted from a satellite directly to a customer's premises without using or accessing any portion of the public right-of-way.

d. Any video programming accessed via a service that enables users to access content, information, electronic mail, or other services offered over the internet, including digital audio-visual works.

477A.2 Certificate of franchise authority requirement.

1. After July 1, 2007, a person providing cable or video service in this state shall not provide such service without a franchise. The franchise may be issued by either the commission pursuant to section 477A.3 or by a municipality pursuant to section 364.2.

2. *a.* A person providing cable or video service under a franchise agreement with a municipality prior to July 1, 2007, is not subject to this section with respect to such municipality until the franchise agreement expires or is converted pursuant to subsection 6.

b. Upon expiration of a franchise, a person may choose to renegotiate a franchise agreement with a municipality or may choose to obtain a certificate of franchise authority under this chapter. An application for a certificate of franchise authority pursuant to this

UNOFFICIAL VERSION: 2025 EARLY FILE

subsection may be filed within sixty days prior to the expiration of a municipal franchise agreement. A certificate of franchise authority obtained pursuant to an application filed prior to the expiration of a municipal franchise agreement shall take effect upon the expiration date of the municipal franchise agreement.

c. A municipal utility that provides cable or video service in this state is not subject to this section and shall not be required to obtain a certificate of franchise authority pursuant to this chapter in the municipality in which the provision of cable or video service by that municipality was originally approved.

3. For purposes of this section, a person providing cable or video service is deemed to have executed a franchise agreement to provide cable or video service with a specific municipality if an affiliate or predecessor of the person providing cable or video service has or had executed an unexpired franchise agreement with that municipality as of May 29, 2007.

4. A competitive cable or video service provider shall provide at least thirty days' notice to each municipality with authority to grant a franchise in the service area, and to the incumbent cable or video provider, in which the competitive cable or video service provider is granted authority to provide service under a certificate of franchise authority that the competitive cable or video service provider will offer cable or video services within the jurisdiction of the municipality, and shall not provide service without having provided such thirty days' notice. A copy of the notice shall be filed with the commission on the date that the notice is provided. All notices required by this subsection shall be sent by certified mail.

5. As used in this section, *"affiliate"* includes but is not limited to a person that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with a person receiving, obtaining, or operating under a franchise agreement with a municipality to provide cable or video service through merger, sale, assignment, restructuring, or any other type of transaction.

6. If a competitive cable or video service provider applies for a certificate of franchise authority to operate within a municipality, the incumbent cable provider may, at its discretion, apply for a certificate of franchise authority for that same municipality. Such application shall be automatically granted on the same day as a competitive cable or video service provider files a thirty days' notice of offering service as required pursuant to subsection 4. The franchise agreement with the municipality is terminated on the date the commission issues the certificate of franchise authority to an incumbent cable provider. The terms and conditions of the certificate of franchise authority shall be the same as the terms and conditions of a competitive cable or video service provider pursuant to this chapter and shall replace the terms and conditions of the franchise agreement previously granted by the municipality.

477A.3 Application requirements — certificate of franchise authority.

1. The commission shall issue a certificate of franchise authority under this chapter within thirty calendar days after receipt of a completed application and affidavit submitted by the applicant and signed by an officer or general partner of the applicant, subject to subsection 3. The application and affidavit shall provide all of the following information:

a. That the applicant has filed or will timely file with the federal communications commission all forms required by the federal communications commission in advance of offering cable or video service in this state.

b. That the applicant agrees to comply with all applicable federal and state statutes, regulations, and rules.

c. That the applicant agrees to comply with all applicable state laws and nondiscriminatory municipal ordinances and regulations regarding the use and occupation of a public right-of-way in the delivery of the cable or video service, to the extent consistent with this chapter, including the police powers of the municipalities in which the service is delivered.

d. A description of the service area to be served and the municipalities to be served

by the applicant, which may include certain designations of unincorporated areas. This description shall be updated by the applicant prior to the expansion of cable or video service to a previously undesignated service area and, upon such expansion, notice shall be given to the commission of the service area to be served by the applicant.

e. The address of the applicant's principal place of business and the names of the applicant's principal executive officers.

f. Documentation that the applicant possesses sufficient managerial, technical, and financial capability to provide the cable or video service proposed in the service area.

g. A schedule of dates by which the applicant intends to commence operation in each municipality proposed to be served within the service area. This schedule shall be timely updated by the applicant as necessary to maintain accuracy.

2. In addition to the notice requirements in section 477A.2, subsection 4, an applicant shall provide notice to each municipality with authority to grant a franchise in the service area on the date that the application is submitted that the applicant has submitted an application to the commission pursuant to subsection 1.

3. *a.* The commission shall not issue a certificate of franchise authority to an applicant unless the commission finds that all of the requirements specified in subsection 1 have been met.

b. The commission may take up to an additional sixty calendar days, beyond the thirty-day period for issuance of a certificate of franchise authority specified in subsection 1, if the commission determines that additional information will be required to make a determination regarding whether the requirements specified in subsection 1, paragraphs "*f*" and "*g*", have been met, and that the determination cannot be made within the thirty-day period.

c. The commission may assess its costs associated with an application or a certificate of franchise authority pursuant to the assessment authority contained in section 476.10, subsection 1, paragraph "*a*".

4. The failure of the commission to notify the applicant of the completeness of the applicant's affidavit or issue a certificate of franchise authority before the ninetieth calendar day after receipt of a completed affidavit shall constitute issuance of the certificate of franchise authority applied for by the applicant without further action by the applicant.

5. The certificate of franchise authority issued by the commission shall contain all of the following:

a. A grant of authority to provide cable or video service in the service area designated in the application.

b. A grant of authority to use and occupy the public right-of-way for the purpose of erecting, maintaining, and operating plants and systems for the provision of cable or video service, subject to the laws of this state, including the police powers of the municipalities in which the service is delivered.

c. A statement that the grant of authority provided by the certificate is subject to the lawful operation of the cable or video service by the applicant or the applicant's successor.

d. A statement that the franchise is for a term of twenty-five years, is renewable under the terms of this section, and is nonexclusive.

6. *a.* If the holder of a certificate of franchise authority fails to commence operation of a cable or video service network within twelve months from the date the application is granted, the commission may determine that the applicant is not in compliance with the certificate of franchise authority and may revoke the certificate.

b. If a certificate is revoked pursuant to this subsection, and if the franchise agreement previously in effect between an incumbent cable provider and the municipality would have remained in effect for at least a sixty-day period prior to expiration, the previous franchise agreement shall be reinstated for the remaining duration of the previous agreement. The incumbent cable provider shall comply with the terms of the prior franchise agreement within ninety days of notification by the commission. This paragraph is applicable to an incumbent cable provider who has not been issued a certificate of franchise authority pursuant to section 477A.2, subsection 6, as of April 12, 2010.

7. *a.* In the event that an applicant granted a certificate of franchise authority subsequently ceases to engage in construction or operation of a cable or video service

UNOFFICIAL VERSION 2022 EARLY RELEASE

network and is no longer providing service, the applicant shall notify the municipality, the commission, and the incumbent cable provider on the date that construction or service is terminated.

b. If the franchise agreement previously in effect between an incumbent cable provider and the municipality would have remained in effect for at least a sixty-day period prior to expiration, the previous franchise agreement shall be reinstated for the remaining duration of the previous agreement. The incumbent cable provider shall comply with the terms of the prior franchise agreement within ninety days of notification by the applicant. This paragraph is applicable to an incumbent cable provider who has not been issued a certificate of franchise authority pursuant to section 477A.2, subsection 6, as of April 12, 2010.

8. A certificate of franchise authority issued by the commission is fully transferable to any successor of the applicant to which the certificate was initially issued. A notice of transfer shall be filed by the holder of the certificate of franchise authority with the commission and the affected municipality and shall be effective fourteen business days after submission. The notice of transfer shall include the address of the successor's principal place of business and the names of the successor's principal executive officers. The successor shall assume all regulatory rights and responsibilities of the holder of the certificate. Neither the commission nor an affected municipality shall have authority to review or require approval of such transfer.

9. The certificate of franchise authority issued by the commission may be terminated by a person providing cable or video service by submitting written notice to the commission and any affected municipality. Neither the commission nor an affected municipality shall have authority to review or require approval of such termination.

10. The commission shall only have the authorization to issue a certificate of franchise authority as provided in this section, and shall not impose any additional requirements or regulations upon an applicant.

477A.4 Applicability to federal law.

To the extent required by applicable law, a certificate of franchise authority issued under this chapter shall constitute a "franchise" for the purposes of 47 U.S.C. §541(b)(1). To the extent required for the purposes of 47 U.S.C. §521– 561, only the state of Iowa shall constitute the exclusive franchising authority for competitive cable and video service providers in this state.

477A.5 Municipality restrictions.

1. A municipality shall not require a holder of a certificate of franchise authority to do any of the following:

a. Comply with a mandatory build-out provision.

b. Obtain a separate franchise.

c. Pay any additional fees, except as provided in this chapter.

d. Be subject to any additional franchise requirement by the municipality, except as provided in this chapter.

2. For purposes of this section, a *"franchise requirement"* includes any provision regulating rates or requiring build-out requirements to deploy any facilities or equipment.

3. Section 364.2 shall not apply to a holder of a certificate of franchise authority issued pursuant to this chapter.

477A.6 Public, educational, and governmental access channels.

1. Not later than one hundred eighty days after a request by a municipality in which a competitive cable or video service provider is providing cable or video service, the holder of the certificate of authority for that municipality shall designate a sufficient amount of

capacity on the certificate holder's communications network to allow the provision of a comparable number of public, educational, and governmental channels that the incumbent cable provider in the municipality has activated and provided in the municipality under the terms of a franchise agreement with a municipality prior to July 1, 2007. If no such channels are active, the municipality may request a maximum of three public, educational, and governmental channels for a municipality with a population of at least fifty thousand, and a maximum of two public, educational, and governmental channels for a municipality with a population of less than fifty thousand.

a. The public, educational, and governmental content to be provided pursuant to this section and the operation of the public, educational, and governmental channels shall be the responsibility of the municipality receiving the benefit of such capacity. The holder of a certificate of franchise authority shall be responsible only for the transmission of such content, subject to technological restraints.

b. The municipality receiving capacity under this section shall ensure that all transmissions, content, or programming to be transmitted by the holder of the certificate of franchise authority are provided or submitted to the competitive cable or video service provider in a manner or form that is capable of being accepted and transmitted by the competitive cable or video service provider, without requirement for additional alteration or change in the content, over the particular network of the competitive cable or video service provider, which is compatible with the technology or protocol utilized by the competitive cable or video service provider to deliver services. At its election the municipality may reasonably request any cable or video service provider to make any necessary change to the form of any programming, furnished for transmission, which shall be charged to the municipality, not to exceed the provider's incremental costs. The municipality shall have up to twelve months to reimburse the cable or video service provider. The provision of such transmissions, content, or programming to the competitive cable or video service provider shall constitute authorization for such holder to carry such transmissions, content, or programming, at the holder's option, beyond the jurisdictional boundaries stipulated in any franchise agreement.

2. Where technically feasible, a competitive cable or video service provider that is a holder of a certificate of franchise authority and an incumbent cable provider shall use reasonable efforts to interconnect the cable or video communications network systems of the certificate holder and incumbent cable provider for the purpose of providing public, educational, and governmental programming. Interconnection may be accomplished by direct cable, microwave link, satellite, or other reasonable method of connection. A holder of a certificate of franchise authority and an incumbent cable provider shall negotiate in good faith and an incumbent cable provider shall not withhold interconnection of public, educational, or governmental channels.

3. A court of competent jurisdiction shall have exclusive jurisdiction to enforce any requirement under this section.

2007 Acts, ch 201, §7, 15; 2024 Acts, ch 1108, §18

477A.7 Fees — financial support.

1. *a.* In any service area in which a competitive cable or video service provider holding a certificate of franchise authority offers or provides cable or video service, the competitive cable or video service provider shall calculate and pay a franchise fee to the municipality with authority to grant a certificate of franchise authority in that service area upon the municipality's written request. If the municipality makes such a request, the franchise fee shall be due and paid to the municipality on a quarterly basis, not later than forty-five days after the close of the quarter, and shall be calculated as a percentage of gross revenues. The municipality shall not demand any additional franchise fees from the competitive cable or video service provider, and shall not demand the use of any other calculation method for the franchise fee.

b. All cable and video service providers shall pay a franchise fee at the same percent of gross revenues as had been assessed on the incumbent cable provider by the municipality as of January 1, 2007, and such percentage shall continue to apply for the period of the

UNOFFICIAL VERSION: 2025 CODE RELEASE

remaining term of the existing franchise agreement with the municipality. Upon expiration of the period of the remaining term of the agreement with the incumbent cable service provider, a municipality may request an increase in the franchise fee up to five percent of gross revenues.

c. A provider who is both a competitive cable and a video service provider shall be subject to and only be required to pay one franchise fee to a municipality under this subsection regardless of whether the provider provides both cable service and video service.

d. At the request of a municipality and not more than once per year, an independent auditor may perform reasonable audits of the competitive cable or video service provider's calculation of the franchise fee under this subsection. The municipality shall bear the costs of any audit requested pursuant to this subsection, unless the audit discloses that the competitive cable or video service provider has underpaid franchise fees by more than five percent, in which case the competitive cable or video service provider shall pay all of the reasonable and actual costs of the audit.

e. A competitive cable or video service provider may identify and collect the amount of the franchise fee as a separate line item on the regular bill of each subscriber.

2. If an incumbent cable provider pays any fee to a municipality for public, educational, and governmental access channels, any subsequent holder of a certificate of franchise authority that includes that municipality shall pay this fee at the same rate during the remaining term of the existing franchise agreement with the municipality, even if the incumbent cable provider elects to convert to a certificate of franchise authority pursuant to section 477A.2. All fees collected pursuant to this subsection shall be used only for the support of the public, educational, and governmental access channels.

3. *a.* If an incumbent cable provider is required by a franchise agreement as of January 1, 2007, to provide institutional network capacity to a municipality for use by the municipality for noncommercial purposes, the incumbent cable provider and any subsequent holder of a certificate of franchise authority shall provide support only for the existing institutional network on a pro rata basis per customer. Any financial support provided for an institutional network shall be limited to ongoing maintenance and support of the existing institutional network. This subsection shall be applicable only to a cable or video service provider's first certificate of franchise authority issued under this chapter, and shall not apply to any subsequent renewals. For the purposes of this subsection, maintenance and support shall only include the reasonable incremental cost of moves, changes, and restoring connectivity of the fiber or coaxial cable lines up to a demarcation point at the building.

b. For purposes of this subsection, the number of customers of a cable or video service provider shall be determined based on the relative number of subscribers in that municipality at the end of the prior calendar year as reported to the municipality by all incumbent cable providers and holders of a certificate of franchise authority. Any records showing the number of subscribers shall be considered confidential records pursuant to section 22.7. The incumbent cable provider shall provide to the municipality, on an annual basis, the maintenance and support costs of the institutional network, subject to an independent audit. A municipality acting under this subsection shall notify and present a bill to competitive cable or video service providers for the amount of such support on an annual basis, beginning one year after issuance of the certificate of franchise authority. The annual institutional network support shall be due and paid by the providers to the municipality in four quarterly payments, not later than forty-five days after the close of each quarter. The municipality shall reimburse the incumbent cable provider for the amounts received from competitive cable or video service providers.

c. This subsection shall not apply if the incumbent cable service provider is a municipal utility providing telecommunications services under section 388.10.

4. A franchise fee may be assessed or imposed by a municipality without regard to the municipality's cost of inspecting, supervising, or otherwise regulating the franchise, and the fees collected may be credited to the municipality's general fund and used for municipal general fund purposes.

5. To the extent that any amount of franchise fees assessed by and paid to a municipality prior to May 29, 2007, pursuant to a franchise agreement between a municipality and any

UNOFFICIAL VERSION NOT FOR RELEASE

person to erect, maintain, and operate plants and systems for cable television, exceeds the municipality's reasonable costs of inspecting, supervising, or otherwise regulating the franchise, such amount is deemed and declared to be authorized and legally assessed by and paid to the municipality.

477A.8 Customer service standards.

1. The holder of a certificate of franchise authority shall comply with customer service requirements consistent with those contained in 47 C.F.R. §76.309, and shall maintain a local or toll-free telephone number for customer service contact.

2. The holder of a certificate of franchise authority shall implement an informal process for handling inquiries from municipalities and customers concerning billing events, service issues, and other complaints. If an issue is not resolved through this informal process, a municipality may request a confidential nonbinding mediation with the holder of a certificate of franchise authority, with the costs of such mediation to be shared equally between the municipality and the holder of a certificate of franchise authority.

477A.10 Provider discrimination prohibited.

1. The purpose of this section is to prevent discrimination among potential residential subscribers.

2. A competitive cable or video service provider holding a certificate of franchise authority shall not deny access to any group of potential residential subscribers because of the income of residents in the local area in which such group resides.

3. *a.* A video service provider operating under a certificate of franchise authority that is using telecommunication facilities to provide video services and has more than five hundred thousand telecommunication access lines in this state shall extend its system to a potential subscriber, at no cost to the potential subscriber, if all of the following criteria are met:

(1) The potential subscriber is located within its authorized service area.

(2) At least two hundred fifty dwelling units are located within two thousand five hundred feet of a remote terminal.

(3) These dwelling units do not have cable or video service available from another cable or video service provider.

b. This subsection shall be applicable only after the first date on which the video service provider operating under a certificate of franchise authority is providing cable or video service to more than fifty percent of all cable and video subscribers receiving cable or video service from the holders of certificates of franchise authority and any other providers of cable or video services operating under franchise agreements with a municipality.

477C.4	Telecommunications devices for the deaf and hard of hearing.	477C.7	Funding.

477C.1 Dual party relay service — purpose.

The general assembly finds that the provision of a statewide dual party relay service will further the public interest and protect the health, safety, and welfare of the people of Iowa through an increase in the usefulness and availability of the telephone system. Many persons who are deaf, hard-of-hearing, or have speech disorders are not able to utilize the telephone system without this type of service. Therefore, it is the purpose of this chapter to enable the orderly development, operation, promotion, and funding of a statewide dual party relay service.

91 Acts, ch 194, §1; 93 Acts, ch 75, §6; 96 Acts, ch 1129, §96; 2020 Acts, ch 1102, §28

477C.2 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Communication disorder"* means the inability to use the telephone for communication without a telecommunications device for the deaf and hard of hearing.

2. *"Dual party relay service"* or *"relay service"* means a communication service which provides persons with communication disorders access to the telephone system functionally equivalent to the access available to persons without communication disorders.

3. *"Telecommunications device for the deaf and hard of hearing"* means any specialized or supplemental telephone equipment used by persons with communication disorders to provide access to the telephone system.

4. *"Utilities commission"* means the Iowa utilities commission created in section 474.1.

91 Acts, ch 194, §2; 2020 Acts, ch 1102, §29; 2023 Acts, ch 19, §2687; 2024 Acts, ch 1170, §369, 455; 2025 Acts, ch 30, §75

477C.3 Dual party relay service.

With the advice of the commission on deaf services created in section 216A.113, the utilities commission shall plan, establish, administer, and promote a statewide program to provide dual party relay service as follows:

UNOFFICIAL VERSION: 2025 EARLY RELEASE

1. The utilities commission may enter into the necessary contracts and arrangements with private entities to provide for the delivery of relay service.

2. The relay service, to the extent reasonably possible, shall allow persons with communication disorders to use the telephone system in a manner and at a rate equivalent to persons without communication disorders.

3. The relay service may be provided on a stand-alone basis within the state, with other states, or with telephone utilities providing relay service in other states.

4. The utilities commission may employ additional personnel, pursuant to section 476.10, to plan, establish, administer, and promote the relay service.

477C.4 Telecommunications devices for the deaf and hard of hearing.

With the advice of the commission on deaf services created in section 216A.113, the utilities commission may plan, establish, administer, and promote a program to secure, finance, and distribute telecommunications devices for the deaf and hard of hearing. The utilities commission may establish eligibility criteria for persons to receive telecommunications devices for the deaf and hard of hearing, including but not limited to requiring certification that the recipient cannot use the telephone for communication without a telecommunications device for the deaf and hard of hearing.

The utilities commission shall review and approve the proposed annual budget of the relay service program authorized in section 477C.3 and the equipment distribution program authorized in section 477C.4.

91 Acts, ch 194, §6; 2024 Acts, ch 1170, §369

477C.7 Funding.

1. The utilities commission shall impose an assessment to fund the programs described in this chapter upon all wireless carriers and wire-line local exchange carriers providing telecommunications service in the state in the amount of three cents per month for each telecommunications service phone number provided in this state.

2. The entities subject to assessment shall remit the assessed amounts, as determined by the utilities commission, to a special revenue fund, as defined under section 8.2. The moneys in the fund are appropriated solely to plan, establish, administer, and promote the relay service and equipment distribution programs.

3. The entities subject to assessment shall provide the information requested by the utilities commission necessary for implementation of the assessment.

4. Wire-line local exchange carriers shall not recover from intrastate access charges any portion of such assessment imposed under this section.

478.1 Franchise.

1. A person shall not construct, erect, maintain, or operate a transmission line, wire, or cable that is capable of operating at an electric voltage of sixty-nine kilovolts or more along, over, or across any public highway or grounds outside of cities for the transmission, distribution, or sale of electric current without first procuring from the utilities commission a franchise granting authority as provided in this chapter.

2. A franchise shall not be required for electric lines constructed entirely within the boundaries of property owned by a person primarily engaged in the transmission or distribution of electric power or entirely within the boundaries of property owned by the end user of the electric power.

3. If the transmission line, wire, or cable is capable of operating only at an electric voltage of less than sixty-nine kilovolts, no franchise is required. However, the utilities commission shall retain jurisdiction over all such lines, wires, or cables.

4. A person who seeks to construct, erect, maintain, or operate a transmission line, wire, or cable that will operate at an electric voltage of less than sixty-nine kilovolts outside of cities and that cannot secure the necessary voluntary easements to do so may petition the commission pursuant to section 478.3, subsection 1, for a franchise granting authority for such construction, erection, maintenance, or operation, and for the use of the right of eminent domain.

5. Notwithstanding any other provision of this chapter, if an existing transmission line, wire, or cable is operating at thirty-four and one-half kilovolts, it may be franchised, rebuilt, and upgraded to be capable of operation at sixty-nine kilovolts using an abbreviated franchise process if the upgraded line will meet required safety standards, will be on substantially the same right-of-way, and will have substantially the same effect on the underlying properties. The abbreviated franchise process shall not require published notice or a public informational meeting. The commission may adopt rules defining relevant terms, setting forth the steps of the abbreviated process, and specifying the requirements for the petition and landowner notification. The petitioner shall provide written notice concerning

the anticipated construction to the last known address of the owners of record of the property where construction will occur and to the parties residing on such property. The franchise may be granted if the commission finds the upgraded line is necessary to serve a public use and represents a reasonable relationship to an overall plan of transmitting electricity in the public interest. The franchise shall not become effective until the petitioner has paid, or agreed to pay, all costs and expenses of the franchise proceeding specified in section 478.4.

Referred to in §478.31
Authorization in cities, §364.2

478.2 Petition for franchise — informational meetings held.

1. Any person authorized to transact business in the state including cities may file a verified petition asking for a franchise to erect, maintain, and operate a line or lines for the transmission, distribution, use, and sale of electric current outside cities and for such purpose to erect, use, and maintain poles, wires, guy wires, towers, cables, conduits, and other fixtures and appliances necessary for conducting electric current for light, heat, or power over, along, and across any public lands, highways, streams, or the lands of any person, company, or corporation, and to acquire necessary interests in real estate for such purposes.

2. As conditions precedent to the filing of a petition with the utilities commission requesting a franchise for a new transmission line, and not less than thirty days prior to the filing of such petition, the person shall hold informational meetings in each county in which real property or rights will be affected.

a. A member of the commission, the counsel of the commission, or a presiding officer designated by the commission shall serve as the presiding officer at each meeting, shall present an agenda for such meeting which shall include a summary of the legal rights of the affected landowners, and shall distribute and review the statement of individual rights required under section 6B.2A, subsection 1. A formal record of the meeting shall not be required.

b. The meeting shall be held at a location reasonably accessible to all persons that may be affected by the granting of the franchise.

3. The person seeking the franchise for a new transmission line shall give notice of the informational meeting to each person, company, or corporation determined to be the landowner affected by the proposed project and any person, company, or corporation in possession of or residing on the property.

a. For the purposes of this section, unless the context otherwise requires:

(1) *"Landowner"* means a person listed on the tax assessment rolls as responsible for the payment of real estate taxes imposed on the property.

(2) *"Transmission line"* means any line capable of operating at sixty-nine kilovolts or more and extending a distance of not less than one mile across privately owned real estate.

b. The notice shall contain the following:

(1) The name of the applicant.

(2) The applicant's principal place of business.

(3) A general description and purpose of the proposed project.

(4) The general nature of the right-of-way desired.

(5) The possibility that the right-of-way may be acquired by condemnation if approved by the utilities commission.

(6) A map showing the route of the proposed project.

(7) A description of the process used by the utilities commission in making a decision on whether to approve a franchise or grant the right to take property by eminent domain.

(8) A statement that the landowner has the right to be present at such meetings and to file objections with the utilities commission.

(9) The place and time of the meeting.

UNOFFICIAL VERSION 2025 EARLY RELEASE

c. The notice shall be served not less than thirty days prior to the time set for the meeting by certified mail with return receipt requested and shall be published once in a newspaper of general circulation in the county at least one week and not more than three weeks before the time of the meeting and such publication shall be considered notice to landowners whose residence is not known.

4. A person seeking rights under this chapter shall not negotiate or purchase any easements or other interests in land in any county known to be affected by the proposed project prior to the informational meeting.

478.3 Petition — requirements.

1. All petitions shall set forth:

a. The name of the individual, company, or corporation asking for the franchise.

b. The principal office or place of business.

c. The starting points, routes, and termini of the proposed lines, accompanied with a map or plat showing such details.

d. A general description of the public or private lands, highways, and streams over, across, or along which any proposed line will pass.

e. General specifications as to materials and manner of construction.

f. The maximum voltage to be carried over each line.

g. Whether or not the exercise of the right of eminent domain will be used and, if so, a specific reference to the lands described in paragraph *"d"* which are sought to be subject thereto.

h. An allegation that the proposed construction is necessary to serve a public use.

2. *a.* Petitions for transmission lines capable of operating at sixty-nine kilovolts or more and extending a distance of not less than one mile across privately owned real estate shall also set forth an allegation that the proposed construction represents a reasonable relationship to an overall plan of transmitting electricity in the public interest and substantiation of such allegations, including but not limited to, a showing of the following:

(1) The relationship of the proposed project to present and future economic development of the area.

(2) The relationship of the proposed project to comprehensive electric utility planning.

(3) The relationship of the proposed project to the needs of the public presently served and future projections based on population trends.

(4) The relationship of the proposed project to the existing electric utility system and parallel existing utility routes.

(5) The relationship of the proposed project to any other power system planned for the future.

(6) The possible use of alternative routes and methods of supply.

(7) The relationship of the proposed project to the present and future land use and zoning ordinances.

(8) The inconvenience or undue injury which may result to property owners as a result of the proposed project.

b. The utilities commission may waive the proof required for such allegations which are not applicable to a particular proposed project.

c. The petition shall contain an affidavit stating that informational meetings were held in each county which the proposed project will affect and the time and place of each meeting.

478.4 Franchise — hearing.

The utilities commission shall consider the petition and any objections filed to the petition in the manner provided. The commission shall examine the proposed route or cause any engineer selected by the commission to do so. If a hearing is held on the petition, the commission may hear testimony as may aid the commission in determining the propriety of granting the franchise. The commission may grant the franchise in whole or in part upon the terms, conditions, and restrictions, and with the modifications as to location and route as may seem to the commission just and proper. Before granting the franchise, the utilities commission shall make a finding that the proposed line or lines are necessary to serve a public use and represents a reasonable relationship to an overall plan of transmitting electricity in the public interest. A franchise shall not become effective until the petitioners shall pay, or file an agreement to pay, all costs and expenses of the franchise proceeding, whether or not objections are filed, including costs of inspections or examinations of the route, hearing, salaries, publishing of notice, and any other expenses reasonably attributable to the franchise proceeding. The funds received for the costs and the expenses of the franchise proceeding shall be remitted to the treasurer of state for deposit in the commerce revolving fund created in section 546.12 as provided in section 476.10.

478.5 Notice — objections filed.

Upon the filing of such petition, the utilities commission shall cause a notice, addressed to the citizens of each county through which the proposed line or lines will extend, to be published in a newspaper located in each such county for two consecutive weeks. Said notice shall contain a general statement of the contents and purpose of the petition, a general description of the lands and highways to be traversed by the proposed line or lines, and shall state that any objections thereto must be filed in writing with the commission not later than twenty days after the date of last publication of the notice. Any person, company, city, or corporation whose rights may be affected, shall have the right to file written objections to the proposed improvement or to the granting of such franchise; such objections shall be filed with the commission not later than twenty days after the date of last publication and shall state the grounds therefor. The commission may allow objections to be filed later in which event the applicant must be given reasonable time to meet such late objections.

478.6 Taking under eminent domain.

1. Upon the filing of objections or when a petition involves the taking of property under the right of eminent domain, the utilities commission shall set the matter for hearing and fix a time and place for the hearing. The hearing shall be not less than thirty days from the date of last publication and, where a new proposed transmission line exceeds one mile in length, shall be held in the county seat of the county located at the midpoint of the proposed electric transmission line. Written notice of the time and place of the hearing shall be served by the commission, by ordinary mail, on the applicant, and those having filed objections. If

UNOFFICIAL VERSION: NOT FORMALLY RELEASED

no objections are filed and the petition does not involve the taking of property under the right of eminent domain, the commission may grant a franchise without a hearing; however, the commission may conduct a hearing if the commission deems it necessary.

2. Where a petition seeks the use of the right of eminent domain over specific parcels of real property, the commission shall prescribe the notice to be served upon the owners of record and parties in possession of the property over which the use of the right of eminent domain is sought. The notice shall include the statement of individual rights required pursuant to section 6B.2A, subsection 1.

3. When the commission grants a franchise to any person, company, or corporation for the construction, erection, maintenance, and operation of transmission lines, wires, and cables for the transmission of electricity, such person, company, or corporation shall be vested with the power of condemnation to such extent as the commission may approve and find necessary for public use.

478.6A Merchant line franchises — requirements — limitations.

1. For purposes of this section, *"merchant line"* means a high-voltage direct current electric transmission line which does not provide for the erection of electric substations at intervals of less than fifty miles, which substations are necessary to accommodate both the purchase and sale to persons located in this state of electricity generated or transmitted by the franchisee.

2. Notwithstanding section 478.21, in addition to any other applicable requirements pursuant to this chapter, if a petition for a franchise to construct a merchant line that is proposed to be constructed above ground and involves the taking of property under eminent domain is not approved by the commission and a franchise granted within three years following the date the petition is filed with the commission pursuant to section 478.3, the commission shall reject the petition and make a record of the rejection. If the hearing on the petition conducted pursuant to section 478.4 has been held within the three-year period following the date the petition is filed, but the commission has not completed its deliberations within that three-year period, the three-year period may be extended by the commission to allow completion of deliberations. A petitioner shall not file a petition for the same or a similar project that has been rejected within sixty months following the date of rejection if the rejection was for failure to be approved within three years following the date the petition was filed as provided in this subsection.

478.7 Form of franchise.

The general counsel for the utilities commission shall prepare a blank form of franchise, which shall provide space for a general description of the improvement authorized, the name and address of the person or corporation to whom granted, the general terms and conditions upon which the franchise is granted, and other things as necessary. This blank form shall be filled out and signed by the chairperson of the utilities commission which grants the franchise, and the official seal shall be attached. The franchise is subject to regulations and restrictions as the general assembly prescribes, and to rules, not inconsistent with statutes, as the utilities commission may establish.

478.8 Valuation of franchise.

No financial consideration shall be charged for such franchise. In fixing the value for rate-making purposes of the property of any person, company, or corporation owning it or operating under it, no account shall be taken of, and no increased value shall be allowed for, any such franchise, except that the reasonable cost to the petitioners of obtaining said franchise may be included in the cost of constructing said line.

478.9 Exclusive rights — duration of franchise.

No exclusive right shall ever be given by franchise or otherwise to any person, company, corporation, or city to conduct electrical energy, or to place electric wires, along or over or across any public highway or public place or ground; and no franchise or privilege shall ever be granted for any such purpose for a longer period than twenty-five years.

478.10 Franchise transferable — notice.

When any electric transmission line or lines are sold and transferred either by voluntary or judicial sale, the transfer shall carry with it the franchise under which the improvement is owned, maintained, or operated. If a transfer of such franchise is made before the improvement for which it was issued is constructed, in whole or in part, the transfer shall not be effective until the person, company, or corporation to whom it was issued files in the office of the utilities commission granting the franchise a notice in writing stating the date of the transfer and the name and address of the transferee.

478.11 Record of franchises.

The utilities commission shall keep a record of all such franchises granted and issued by it, when and to whom issued, with a general statement of the location, route, and termini of the transmission line or lines covered by the franchise. When any transfer of a franchise has been made as provided in this chapter, the commission shall also make note upon its record of the date of the transfer and the name and address of the transferee.

478.12 Acceptance of franchise.

Any person, company, or corporation obtaining a franchise as provided in this chapter, or owning or operating under one, shall be conclusively held to an acceptance of the provisions of this chapter and of all laws relating to the regulation, supervision, or control of franchises which are now in force or which may be hereafter enacted, and to have consented to such reasonable regulation as the utilities commission may, from time to time, prescribe. The provisions of this chapter shall apply equally to assignees as well as to original owners.

478.13 Extension of franchise — public notice.

1. Any person, firm, or corporation owning a franchise granted under this chapter or previously existing law may petition the utilities commission for an extension of the franchise. The commission shall adopt rules governing extension applications and proceedings with the intent that the extension applications and proceedings are less extensive than original applications and proceedings. Assessment of costs shall be as provided in section 478.4.

UNOFFICIAL VERSION: NOT FOR EARLY RELEASE

2. If the extension of franchise is sought for all lines in a given county or counties, the published notice need not contain a general description of the lands and highways traversed by the lines, but in lieu of containing such description the petitioner may offer to provide to any interested party, free of charge and within ten working days, a current, accurate map showing the location of the lines for which the franchise extension is sought. The public notice shall advise the citizens of the county or counties affected of the availability of such map. If this alternate procedure is not followed, the publication of the description of the lands and highways traversed by the lines shall be done in the manner as in an original application for franchise.

3. An extension under this section shall be granted only for a valid, existing franchise, and the lands, roads, or streams covered by the franchise over, through, or upon which electric transmission lines have in fact been erected or constructed and are in use or operation at the time of the application for the extension of the franchise.

4. The application for the extension of the franchise shall be accompanied by the written consent of the applicant that the provisions of all laws relating to public utilities, franchises, and transmission lines, or to the regulation, supervision, or control thereof which are then in force or which may be thereafter enacted, shall apply to its existing line or lines, franchises, and rights as if the franchise had been granted, the lines had been constructed, or rights had been obtained under the provisions of this chapter.

5. An extension of a franchise is not required for an electric transmission line that has been permanently retired from operation at sixty-nine kilovolts or more but that remains in service at a lower voltage. The commission shall be notified of changes in operating status.

478.14 Service furnished.

1. Any city which owns or operates a system for the distribution of electric light or power, and which has obtained electric energy for such distribution from any person or firm or corporation owning or operating an electric light and power plant or transmission line, shall be entitled to have the service reasonably needed by such municipality and its patrons continued at and for a reasonable rate and charge and under reasonable rules of service.

2. It shall be unlawful for the owner or operator of the light and power plant or transmission line to disconnect or discontinue such service, except during nonpayment of reasonable charges, so long as the operator holds or enjoys any franchise to go upon or use any public streets, highways, or grounds.

3. Until the municipality and the operator shall agree upon a rate or charge for the service the municipality shall pay and the operator shall accept the rate provided in the expired contract if any existed, and, if none existed, then the rate before paid. This shall be without prejudice, however, to the right of either party to test in court or before any lawfully constituted rate-making tribunal the reasonableness of the rate.

4. This section shall not apply if the original service to the municipality was given in case of emergency or for any other temporary purpose.

478.15 Eminent domain — procedure — entering on land — reversion on nonuse.

1. Any person, company, or corporation having secured a franchise as provided in this chapter shall thereupon be vested with the right of eminent domain to such extent as the utilities commission may approve, prescribe, and find to be necessary for public use, not exceeding one hundred feet in width for right-of-way and not exceeding one hundred sixty acres in any one location, in addition to right-of-way, for the location of electric substations to carry out the purposes of said franchise; provided, however, that where two hundred kilovolt lines or higher voltage lines are to be constructed, the person, company, or corporation may

UNOFFICIAL VERSION: NOT FOR PUBLIC RELEASE

apply to the commission for a wider right-of-way not to exceed two hundred feet, and the commission may for good cause extend the width of such right-of-way for such lines to the person, company, or corporation applying for the same. The burden of proving the necessity for public use shall be on the person, company, or corporation seeking the franchise. A homestead site, cemetery, orchard, or schoolhouse location shall not be condemned for the purpose of erecting an electric substation. If agreement cannot be made with the private owner of lands as to damages caused by the construction of said transmission line, or electric substations, the same proceedings shall be taken as provided for taking private property for works of internal improvement.

2. Any person, company, or corporation proposing to construct a transmission line or other facility that involves the taking of property under the right of eminent domain and desiring to enter upon the land, which it proposes to appropriate, for the purpose of examining or surveying the same, shall first file with the utilities commission a written statement under oath setting forth the proposed routing of the line or facility including a description of the lands to be crossed, the names and addresses of owners, together with request that a permit be issued by the commission authorizing the person, company, or corporation or its duly appointed representative to enter upon the land for the purpose of examining and surveying and to take and use on the land any vehicle and surveying equipment necessary in making the survey. The commission shall within ten days after the request issue a permit, accompanied by such bond in such amount as the commission shall approve, to the person, company, or corporation making the application, if in the commission's opinion the application is made in good faith and not for the purpose of harassing the owner of the land. If the commission is of the opinion that the application is not made in good faith or made for the purpose of harassment to the owner of the land, the commission shall set the matter for hearing. The matter shall be heard not more than twenty days after filing the application. Notice of the time and place of hearing shall be given by the commission, to the owner of the land by registered mail with a return receipt requested, not less than ten days preceding the date of hearing.

3. Any person, company, or corporation that has obtained a permit in the manner prescribed in this section may enter upon the land or lands, as provided in this section, and shall be liable for actual damages sustained in connection with such entry. An action in damages shall be the exclusive remedy.

4. If an electric transmission line right-of-way, or any part thereof, is wholly abandoned for public utility purposes by the relocation of the transmission lines, is not used or operated for a period of five years, or if its construction has been commenced and work has ceased and has not in good faith been resumed for five years, the right-of-way shall revert to the person or persons who, at the time of the abandonment or reversion, are the owners of the tract from which the right-of-way was taken. Following such abandonment of right-of-way, the owner or holder of purported fee title to the real estate may serve notice upon the owner of the right-of-way easement, or the owner's successor in interest, and upon any party in possession of the real estate, a written notice which shall accurately describe the real estate in question, set out the facts concerning ownership of the fee, ownership of the right-of-way easement, and the period of abandonment, and notify the parties that such reversion shall be complete and final, and that the easement or other right shall be forfeited, unless the parties shall, within one hundred twenty days after the completed service of notice, file an affidavit with the county recorder of the county in which the real estate is located disputing the facts contained in the notice.

5. The notice shall be served in the same manner as an original notice under the Iowa rules of civil procedure, except that when notice is served by publication no affidavit therefor shall be required before publication. If no affidavit disputing the facts contained in the notice is filed within one hundred twenty days, the party serving the notice may file for record in the office of the county recorder a copy of the notice with proofs of service attached thereto

478.16 Electric transmission lines — federally registered planning authority transmission plans.

1. As used in this section, unless the context otherwise requires:

a. "Electric transmission line" means a high-voltage electric transmission line with a capacity of one hundred kilovolts or more and any associated electric transmission facility, including any substation or other equipment.

b. "Electric transmission owner" means an individual or entity who, as of July 1, 2020, owns and maintains an electric transmission line that is required for rate-regulated electric utilities, municipal electric utilities, and rural electric cooperatives in this state to provide electric service to the public for compensation.

c. "Incumbent electric transmission owner" means any of the following:

(1) A public utility or a municipally owned utility that owns, operates, and maintains an electric transmission line in this state.

(2) An electric cooperative corporation or association or municipally owned utility that owns an electric transmission facility in this state and has turned over the functional control of such facility to a federally approved authority.

(3) An *"electric transmission owner"* as defined in paragraph *"b"*.

d. "Landowner" means the same as defined in section 478.2.

e. "Municipally owned utility" means a *"city utility"* as defined in section 362.2, or an *"electric power agency"* as defined in section 390.9 which is comprised solely of cities or solely of cities and other political subdivisions.

2. An incumbent electric transmission owner has the right to construct, own, and maintain an electric transmission line that has been approved for construction in a federally registered planning authority transmission plan and which connects to an electric transmission facility owned by the incumbent electric transmission owner. Where a proposed electric transmission line would connect to electric transmission facilities owned by two or more incumbent electric transmission owners, each incumbent electric transmission owner whose facility connects to the electric transmission line has the right to construct, own, and maintain the electric transmission line individually and equally. If an incumbent electric transmission owner declines to construct, own, and maintain its portion of an electric transmission line that would connect to electric transmission facilities owned by two or more incumbent electric transmission owners, then the other incumbent electric transmission owner or owners that own an electric transmission facility to which the electric transmission line connects has the right to construct, own, and maintain the electric transmission line individually.

3. If an electric transmission line has been approved for construction in a federally registered planning authority transmission plan, and the electric transmission line is not subject to a right of first refusal in accordance with the tariff of a federally registered planning authority, then within ninety days of approval for construction, an incumbent electric transmission owner, or owners if there is more than one owner, that owns a connecting electric transmission facility shall give written notice to the commission regarding whether the incumbent electric transmission owner or owners intend to construct, own, and maintain the electric transmission line. If the incumbent electric transmission owner or owners give notice of intent to construct the electric transmission line, the incumbent electric transmission owner or owners shall follow the applicable franchise requirements pursuant to this chapter. If the incumbent electric transmission owner or owners give notice declining to construct the electric transmission line, the commission may determine whether another person may construct the electric transmission line.

UNOFFICIAL VERSION: 2025 EARLY RELEASE

4. For projects where an election to construct an electric transmission line has been made under this section, all of the following cost accountability measures shall apply:

a. Within thirty days after the issuance of a franchise pursuant to this chapter for the electric transmission line, the incumbent electric transmission owner or owners shall provide to the commission an estimate of the cost to construct the electric transmission line.

b. Until construction of the electric transmission line is complete, the incumbent electric transmission owner or owners shall provide a quarterly report to the commission, which shall include an updated estimate of the cost to construct the electric transmission line and an explanation of changes in the cost estimate from the prior cost estimate.

5. This section shall not modify the authority of the commission under this chapter, the rights of landowners under this chapter, or the requirements, rights, and obligations relating to the construction, maintenance, and operation of electric transmission lines pursuant to this chapter.

6. This section shall not apply to an electric transmission line to be placed underground that has not been approved for construction in a federally registered planning authority transmission plan.

7. The commission shall adopt rules pursuant to chapter 17A to administer this section.

478.17 Access to lines — damages.

Individuals or corporations operating transmission lines shall have reasonable access to the transmission lines for the purpose of constructing, reconstructing, enlarging, repairing, or locating the poles, wires, or construction and other devices used in or upon any line, but shall pay to the owner of the lands and of crops on the lands all damages to the lands or crops caused by entering, using, and occupying the lands for those purposes. This section shall not prevent the execution of an agreement between the person or company owning or operating the lines and the owner of the land or crops regarding the use of the land.

478.18 Supervision of construction — location.

1. The utilities commission shall have power of supervision over the construction of a transmission line and over its future operation and maintenance, including inspections for compliance with the standards adopted under section 478.34 after restoration of the land is complete.

2. A transmission line shall be constructed near and parallel to roads, to the right-of-way of the railways of the state, or along the division lines of the lands, according to the government survey, wherever the same is practicable and reasonable, and so as not to interfere with the use by the public of the highways or streams of the state, nor unnecessarily interfere with the use of any lands by the occupant.

3. The utilities commission may contract a qualified individual for the purpose of inspections authorized under section 478.34. The reasonable cost of the inspection shall be paid by the electric transmission owner. The utilities commission shall instruct the inspector appointed by the commission regarding the content of the statutes and rules and the responsibility of the inspector to require restoration conforming with the applicable standards established in section 478.34. For purposes of this section, *"qualified individual"* means the same as defined in section 478.34.

478.19 Manner of construction.

1. Transmission lines shall be built of strong and proper wires attached to strong and sufficient supports properly insulated at all points of attachment; all wires, poles, and other devices which by ordinary wear or other causes are no longer safe shall be removed and replaced by new wires, poles, or other devices, as the case may be, and all abandoned wires, poles, or other devices shall be at once removed. Where wires carrying current are carried across, either above or below wires used for other service, the said transmission line shall be constructed in such manner as to eliminate, so far as practicable, damages to persons or property by reason of said crossing. There shall also be installed sufficient devices to automatically shut off electric current through said transmission line whenever connection is made whereby current is transmitted from the wires of said transmission line to the ground, and there shall also be provided a safe and modern improved device for the protection of said line against lightning. The utilities commission shall have power to make and enforce such further and additional rules relating to location, construction, operation and maintenance of transmission lines as may be reasonable.

2. All transmission lines, wires or cables outside of cities for the transmission, distribution or sale of electric current at any voltage shall be constructed and maintained in accordance with standards adopted by rule by the utilities commission.

No transmission line shall be constructed, except by agreement, within one hundred feet of any dwelling house or other building, except where said line crosses or passes along a public highway or is located alongside or parallel with the right-of-way of any railway company. In addition to the foregoing, each person, company, or corporation shall conform to any other rules, regulations, or specifications established by the utilities commission, in the construction, operation, or maintenance of such lines.

478.21 Nonuse — revocation of franchise — extensions of time.

1. If the improvement for which a franchise is granted is not constructed in whole or in part within two years from the date the franchise is granted, or within two years after final unappealable disposition of judicial review of a franchise order or of condemnation proceedings, the franchise shall be forfeited and the utilities commission which granted the franchise shall revoke the franchise and make a record of the revocation, unless the person holding the franchise petitions the commission for an extension of time.

2. Upon a showing of sufficient justification for the delay of construction, the commission may grant one or more extensions of time for periods up to two years for each extension.

Civil penalties collected pursuant to this section shall be forwarded by the chief operating officer of the commission to the treasurer of state to be credited to the general fund of the state and appropriated to the department of health and human services for purposes of the low income home energy assistance program and the weatherization assistance program.

2. Any civil penalty may be compromised by the commission. In determining the amount of the penalty, or the amount agreed upon in compromise, the commission shall consider the appropriateness of the penalty to the size of the business of the person charged, the gravity of the violation, and the good faith of the person charged in attempting to achieve compliance after notification of a violation.

478.31 Temporary permits for lines less than one mile.

1. Notwithstanding the provisions of section 478.1, any person, company, or corporation proposing to construct an electric transmission line not exceeding one mile in length and which does not involve the taking of property under the right of eminent domain may obtain a temporary construction permit from the utilities commission by proceeding in the manner set forth in this section. The person, company, or corporation shall first file with the commission a verified petition setting forth the requirements of section 478.3, subsection 1, paragraphs *"a"* through *"h"*, with the further allegation that the petitioner is the nearest electric utility to the proposed point of service.

2. The petition shall also state that the filing thereof constitutes an application for a temporary construction permit and shall also have endorsed thereon the approval of the appropriate highway authority or railroad concerned if such line is to be constructed over, across, or along a public highway or railroad.

3. Upon receipt of the petition, the utilities commission shall consider same and may grant a temporary construction permit in whole or in part or upon such terms, conditions, and restrictions, and with such modifications as to location as may seem to it just and proper. A finding of public use shall not be made at the time of the issuance of the permit, but shall be made, if substantiated by petitioner, at the subsequent consideration of the propriety of granting a franchise for the line subject to the permit. The signature of one utilities commission member on the permit shall be sufficient. The issuance of the permit shall constitute temporary authority for the permit holder to construct the line for which the permit is granted.

4. Upon the granting of such temporary construction permit, the utilities commission shall cause the publication of notice required by section 478.5 and all other requirements shall be complied with as in the manner provided for the granting of a franchise. If a hearing is required, then the petitioner shall make a sufficient and proper showing thereat before a franchise will be issued for the line. Any franchise issued will be subject to all applicable provisions of this chapter.

5. Notwithstanding subsections 1 through 4, if the utilities commission shall determine that a franchise should not be granted, or that further restrictions, conditions, or modifications are required, or if the petitioner shall fail to make a sufficient and proper

showing of the necessity for the granting of a franchise within six months of the granting of the temporary construction permit, the permit issued hereunder shall become null and void and the permit holder may be required to take such action deemed necessary by the commission to remove, modify, or relocate the construction undertaken by virtue of the temporary permit issued hereunder.

478.33 Cancellation.

A person seeking to acquire an easement or other property interest for the construction, maintenance, or operation of an electric transmission line shall:

1. Allow the landowner or a person serving in a fiduciary capacity in the landowner's behalf to cancel any agreement granting an easement or other interest by certified mail with return requested to the company's principal place of business if received by the company within seven days, excluding Saturday and Sunday, of the date of the contract and inform the landowner or such fiduciary in writing of the right to cancel prior to the signing of the agreement by the landowner or such fiduciary.
2. Provide the landowner or a person serving in a fiduciary capacity in the landowner's behalf with a form in duplicate for the notice of cancellation.
3. Not record any agreement until after the period for cancellation has expired.
4. Not include in the agreement any waiver of the right to cancel in accordance with this section. The landowner or a person serving in a fiduciary capacity in the landowner's behalf may exercise the right of cancellation only once for each transmission line project.

478.34 Land restoration.

1. As used in this section, unless the context otherwise requires:

a. "Electric transmission line" means a high-voltage electric transmission line with a capacity of two hundred kilovolts or more that has been approved on or after July 1, 2024, for construction in a federally registered planning authority transmission plan with costs allocated regionally.

b. "Electric transmission owner" means an individual or entity who owns and maintains an electric transmission line.

c. "Landowner" means the same as defined in section 478.2.

d. "Qualified individual" means someone who is capable and knowledgeable enough to determine compliance with the standards set forth in this section.

2. The commission shall adopt rules pursuant to chapter 17A to administer this section, which shall include rules regarding the restoration of agricultural lands following the initial construction of an electric transmission line, as specified in subsection 3.

3. The commission shall adopt rules to implement the following requirements, which shall not apply within the corporate limits of a city or to any construction, activity, or electric transmission lines other than the initial construction of an electric transmission line with a voltage of two hundred or more kilovolts and for which an election to construct has been made under this section:

a. An electric transmission owner shall repair a damaged underground drain tile as soon as practicable during construction of the electric transmission line. Permanent repairs to the damaged underground drain tile shall be completed as soon as practicable after the initial

UNOFFICIAL VERSION: 2025 EARLY RELEASE

construction of the electric transmission line is complete. The repairs made to the damaged drain tile shall be of at least equal quality, size, and flow capacity of the original drain tile.

b. Following the initial construction of an electric transmission line, the electric transmission owner shall remove from the easement area all rock larger than three inches in average diameter not native to the soil of the excavated land. The rock removed from the excavated land that cannot be used to backfill shall be disposed of at a location and in a manner agreed upon by the electric transmission owner and the landowner.

c. Upon completion of construction activities on a property, the electric transmission owner shall deep till agricultural land, including right-of-way access points or roads traversed by heavy construction equipment, to alleviate soil compaction. The land shall be tilled at least eighteen inches deep in land used for crop production and twelve inches deep in other lands unless otherwise agreed to by the landowner.

d. Upon completion of the electric transmission line, the electric transmission owner shall restore the soil conservation practices and structures damaged during construction of the electric transmission line to the elevation and grade existing on the land prior to the construction. The soil used to repair embankments intended to retain water shall be well compacted. Any vegetation disturbed during construction shall be reestablished, including cover crops when appropriate.

e. Following compaction of the land, agricultural land that is not in row crop or small grain production at the time of construction, including hay ground and land in conservation or set-aside programs, shall be reseeded and a cover crop shall be utilized when appropriate. Seeding for cover crops may be delayed if the construction of the electric transmission line is completed too late in the year for a cover crop to become established and is not required if the land will be tilled in the following year. The landowner may request ground cover to prevent soil erosion in areas where construction on the electric transmission line is completed if the season is not suitable for seeding a cover crop.

f. Unless agreed upon by the electric transmission owner and the landowner, the electric transmission owner shall remove field entrances or temporary roads built for the purpose of constructing the electric transmission line upon the completion of the initial construction and restore the area to its previous use.

g. An electric transmission owner shall use good utility practices for constructing the electric transmission line in wet conditions, such as electing to use matting or padding when utilizing heavy equipment. An electric transmission owner shall grade and till any rutted land to restore, to the extent practicable, the original condition of the land prior to the construction of the electric transmission line. If agreed upon by the electric transmission owner and the landowner, the landowner may repair any damage caused by construction activities in wet conditions and the electric transmission owner shall reimburse the landowner for the reasonable cost incurred to repair the damage. If an electric transmission owner utilizes heavy equipment in wetlands or mudflats, mats or other measures shall be utilized to minimize soil disturbance.

h. For each electric transmission line, the electric transmission owner shall designate a point of contact for inquiries or claims from an affected person. The designation shall include a name, a telephone number, an email address, and an address.

4. *a.* If an electric transmission owner and a landowner dispute a potential violation of the restoration standards provided in subsection 3, the commission may appoint a qualified individual to inspect the property for compliance. If the qualified individual determines that there has been a violation of the applicable restoration standards, the commission shall provide oral notice, followed by written notice, to the electric transmission owner and the contractor operating for the electric transmission owner and order corrective action to comply with the restoration standards. The electric transmission owner shall be responsible for the costs of the corrective action.

b. If the electric transmission owner or the contractor for the electric transmission owner does not comply with a valid order for corrective action issued by the commission, the commission may issue an order requiring corrective action to be taken and may impose civil penalties under section 478.29.

c. The commission shall instruct the inspector appointed by the commission regarding the

UNOFFICIAL VERSION 2021 EARLY RELEASE

content of the statutes and rules and the responsibility of the inspector to require restoration conforming with the standards established in subsection 3.

5. *a.* A petitioner for a franchise for an electric transmission line shall file with the petition a written land restoration plan that documents how the requirements and rules of subsection 3 will be met. The petitioner shall provide a copy of the plan to all landowners of property that will be disturbed by the initial construction.

b. Nothing in this section shall preclude the application of provisions for protecting or restoring property that are different than those prescribed in subsection 3, in rules adopted under subsection 3, or in the land restoration plan, if the alternative provisions are contained in agreements independently executed by the electric transmission owner and the landowner. Independent agreements for land restoration between the electric transmission owner and the landowner shall be in writing and provided to the commission.

c. The commission may by waiver allow variations from the requirements of subsection 3 if the electric transmission owner requesting a waiver satisfies the standards set forth in section 17A.9A and if the alternative methods proposed by the electric transmission owner would restore the land to a condition as good as or better than as provided for in subsection 3.

d. The commission may waive preparation of a separate land restoration plan if the electric transmission owner enters into an agricultural impact mitigation plan or similar agreement with the appropriate agencies of this state that satisfies the requirements of subsection 3. If a mitigation plan or agreement is used to fully or partially meet the requirements of a land restoration plan, the statement or agreement shall be filed with the commission and shall be considered to be, or to be part of, the land restoration plan for purposes of subsection 3.

6. Nothing in this section shall limit, expand, or otherwise modify the rights of access and obligations for damages set forth in section 478.17.

478.35 Electric transmission emergency planning and coordination.

1. For purposes of this section:

a. "*Electric transmission line*" means a high-voltage electric transmission line with a capacity of two hundred kilovolts or more that has been approved for construction on or after July 1, 2022, for construction in a federally registered planning authority transmission plan with costs allocated regionally.

b. "*Electric transmission line owner*" means an individual or entity that owns and maintains an electric transmission line.

c. "*Proclaimed disaster emergency*" means a state of disaster emergency proclaimed by the governor pursuant to section 29C.6.

2. *a.* An electric transmission line owner shall independently develop an emergency response plan and submit the plan to the commission. The plan shall contain at least all of the following information:

(1) The name, title, and twenty-four-hour contact information of at least two designated individuals with the authority to coordinate and direct the electric transmission line owner's emergency response and restoration efforts. Each electric transmission line owner shall notify the commission of any change to this contact information within twenty-four hours of the change occurring.

(2) Procedures for notifying state and local emergency management agencies and neighboring utilities during a service interruption.

(3) Strategies for the staging and mobilization of personnel, equipment, and materials for expeditious restoration.

(4) A summary of mutual aid arrangements with other entities for supplemental repair crews and equipment.

UNOFFICIAL VERSION
NOT FOR EARLY RELEASE

(5) A methodology for prioritizing the restoration of service to essential facilities, including hospitals, water treatment plants, and public safety communications.

b. An electric transmission line owner currently constructing, operating, or maintaining an electric transmission line or who has been issued a franchise under section 478.4 shall submit an initial emergency response plan to the commission by December 31, 2026. Updated plans shall be submitted annually thereafter, or within thirty days of a material change, in the form and manner prescribed by the commission. An electric transmission line owner who seeks to construct an electric transmission line, and who has not previously filed an emergency response plan with the commission, shall file an initial emergency response plan with the commission within ninety days after the filing of a petition under section 478.2.

c. An emergency response plan or information submitted pursuant to this section shall be considered a confidential record and shall be kept confidential, as provided in section 22.7, subsection 50. The records shall not be subject to disclosure, except as necessary for the coordination of emergency response and restoration efforts between authorized state and utility personnel.

3. *a.* An electric transmission line owner shall notify the commission in the form and manner prescribed by the commission when it is projected, after an initial assessment of the nature and scope of the damage to the transmission line and initial information from any impacted utility providing electricity to end user customers, that an outage may result in a loss of service to end user customers for more than six hours, provided the outage meets the criteria for a significant interruption, as defined by commission rule. Notification shall be made at the earliest possible time after the determination and shall include all of the following:

(1) The general nature and cause of the interruption.

(2) The geographic area of the affected end user customers and the impacted franchise.

(3) A preliminary assessment of the extent of damage.

(4) The estimated time for restoration.

b. The notice required under paragraph *"a"* shall be supplemented as more complete or accurate information becomes available, including updates to the estimated restoration time.

4. In the event of an actual or imminent proclaimed disaster emergency, the electric transmission line owners shall coordinate operational responses with each other, as necessary, for repair and restoration to occur in an expeditious and orderly manner, and shall provide the commission and the department of homeland security and emergency management with information as requested to facilitate state-level emergency response decision making and assistance.

5. An electric transmission line owner that violates any provision of this section or any rule adopted pursuant to this section is subject to a civil penalty, which may be levied by the commission, of not more than one thousand dollars per violation or ten thousand dollars per day of a continuing violation, whichever is greater.

478A.1 through 478A.6 Reserved.

478A.7 Decorative gas lamps.

1. Commencing January 1, 1979, a person shall not sell or offer for sale in this state a decorative gas lamp manufactured after December 31, 1978.

2. As used in this section, *"decorative gas lamp"* means a device installed for the purpose

of producing illumination by burning natural, mixed, or liquid petroleum gas and utilizing either a mantle or an open flame, but does not include portable camp lanterns or gas lamps.

3. Persons convicted of violating this section shall be guilty of a simple misdemeanor.

4. Notwithstanding subsection 1, commencing January 1, 1990, a person may sell or offer for sale in this state a decorative gas lamp manufactured after December 31, 1978, if the utilities commission determines, after notice and an opportunity for interested persons to comment at an oral presentation, that the sale or offer for sale of decorative gas lamps does not violate the public interest.

479.1 Purpose — applicability.

It is the purpose of the general assembly in enacting this law to confer upon the utilities commission the power and authority to supervise the transportation or transmission of any solid, liquid, or gaseous substance, except water, within or through this state by pipeline, whether specifically mentioned in this chapter or not, and the power and authority to supervise the underground storage of gas, to protect the safety and welfare of the public in its use of public or private highways, grounds, waters, and streams of any kind in this state. However, this chapter does not apply to interstate natural gas or hazardous liquid pipelines, pipeline companies, and underground storage, as these terms are defined in chapters 479A and 479B.

479.2 Definitions.

As used in this chapter:

1. *"Commission"* means the utilities commission.

UNOFFICIAL VERSION: 2027 EARLY RELEASE

2. *"Pipeline"* means a pipe, pipes, or pipelines used for the transportation or transmission of a solid, liquid, or gaseous substance, except water, within or through this state. However, the term does not include interstate pipe, pipes, or pipelines used for the transportation or transmission of natural gas or hazardous liquids.

3. *"Pipeline company"* means a person engaged in or organized for the purpose of owning, operating, or controlling pipelines for the transportation or transmission of any solid, liquid, or gaseous substance, except water, within or through this state. However, the term does not include a person owning, operating, or controlling interstate pipelines for the transportation or transmission of natural gas or hazardous liquids.

4. *"Underground storage"* means storage of gas in a subsurface stratum or formation of the earth.

479.4 Dangerous construction — inspection.

1. The commission is vested with power and authority and it shall be the commission's duty to supervise all pipelines and underground storage and pipeline companies and, from time to time, to inspect and examine the construction, maintenance, and condition of the pipelines and underground storage facilities. Whenever the commission shall determine that any pipeline and underground storage facilities or any apparatus, device, or equipment used in connection therewith is unsafe and dangerous, the commission shall immediately in writing notify the pipeline company which is constructing or operating the pipeline and underground storage facilities, device, apparatus, or other equipment to repair or replace any defective or unsafe part or portion of the pipeline and underground storage facilities, device, apparatus, or equipment.

2. All faulty construction, as determined by the inspector, shall be repaired immediately by the contractor operating for the pipeline company and the cost of such repairs shall be paid by the contractor. If such repairs are not made by the contractor, the commission shall proceed to collect under the provisions of section 479.26.

479.5 Application for permit.

1. A pipeline company doing business in this state shall file with the commission its verified petition asking for a permit to construct, maintain, and operate its pipeline or lines along, over, or across the public or private highways, grounds, waters, and streams of any kind of this state. Any pipeline company now owning or operating a pipeline in this state shall be issued a permit by the commission upon supplying the information as provided for in section 479.6.

2. A pipeline company doing business in this state and proposing to engage in underground storage of gas within this state shall file with the commission its verified petition asking for a permit to construct, maintain, and operate facilities for the underground storage of gas to include the construction, placement, maintenance, and operation of machinery, appliances, fixtures, wells, pipelines, and stations necessary for the construction, maintenance, and operation of the gas underground storage facilities.

UNOFFICIAL VERSION: 2027 EARLY RELEASE

3. *a.* A pipeline company shall hold informational meetings in each county in which real property or property rights will be affected at least thirty days prior to filing the petition for a new pipeline. A member of the commission or a person designated by the commission shall serve as the presiding officer at each meeting, shall present an agenda for the meeting which shall include a summary of the legal rights of the affected landowners, and shall distribute and review the statement of individual rights required under section 6B.2A. A formal record of the meeting shall not be required.

b. The meeting shall be held at a location reasonably accessible to all persons, companies, or corporations which may be affected by the granting of the permit.

4. *a.* The pipeline company seeking the permit for a new pipeline shall give notice of the informational meeting to each person determined to be a landowner affected by the proposed project and each person in possession of or residing on the property. For the purposes of the informational meeting, *"landowner"* means a person listed on the tax assessment rolls as responsible for the payment of real estate taxes imposed on the property and *"pipeline"* means a line transporting a solid, liquid, or gaseous substance, except water, under pressure in excess of one hundred fifty pounds per square inch and extending a distance of not less than five miles or having a future anticipated extension of an overall distance of five miles.

b. The notice shall set forth the name of the applicant; the applicant's principal place of business; the general description and purpose of the proposed project; the general nature of the right-of-way desired; the possibility that the right-of-way may be acquired by condemnation if approved by the commission; a map showing the route of the proposed project; a description of the process used by the commission in making a decision on whether to approve a permit including the right to take property by eminent domain; that the landowner has a right to be present at such meeting and to file objections with the commission; and a designation of the time and place of the meeting. The notice shall be served by certified mail with return receipt requested not less than thirty days previous to the time set for the meeting, and shall be published once in a newspaper of general circulation in the county. The publication shall be considered notice to landowners whose residence is not known and to each person in possession of or residing on the property provided a good faith effort to notify can be demonstrated by the pipeline company.

5. A pipeline company seeking rights under this chapter shall not negotiate or purchase any easements or other interests in land in any county known to be affected by the proposed project prior to the informational meeting.

[C31, §8338-d3; C35, §8338-f18; C39, §**8338.26;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §490.5; C77, 79, 81, §479.5]

Referred to in §6B.2A, 479.30

479.6 Petition.

Said petition shall state:

1. The name of the individual, firm, corporation, company, or association asking for said permit.

2. The applicant's principal office and place of business.

3. A legal description of the route of said proposed line or lines, together with a map thereof.

4. A general description of the public or private highways, grounds and waters, streams and private lands of any kind along, over or across which said proposed line or lines will pass.

5. The specifications of material and manner of construction.

6. The maximum and normal operating pressure under which it is proposed to transport any solid, liquid, or gaseous substance, except water.

7. If permission is sought to construct, maintain and operate facilities for the underground storage of gas said petition shall include the following information in addition to that stated above:

a. A description of the public or private highways, grounds and waters, streams and private lands of any kind under which such storage is proposed, together with a map thereof.

UNOFFICIAL VERSION: 2027 EARLY RELEASE

b. Maps showing the location of proposed machinery, appliances, fixtures, wells and stations necessary for the construction, maintenance and operation of such gas underground storage facilities.

8. The possible use of alternative routes.

9. The relationship of the proposed project to the present and future land use and zoning ordinances.

10. The inconvenience or undue injury which may result to property owners as a result of the proposed project.

11. By affidavit, that informational meetings were held in each county which the proposed project will affect and the time and place of each meeting.

[C31, §8338-d4; C35, §8338-f19; C39, §**8338.27;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §490.6; C77, 79, 81, §479.6]

Referred to in §479.5, 479.23

479.7 Hearing — notice.

1. Upon the filing of the petition, the commission shall fix a date for hearing on the petition and shall cause notice of hearing to be published in some newspaper of general circulation in each county through which the proposed line or lines or gas storage facilities will extend. The notice shall be published for two consecutive weeks.

2. Where a petition seeks the use of the right of eminent domain over specific parcels of real property, the commission shall prescribe the notice to be served upon the owners of record and parties in possession of the property over which the use of the right of eminent domain is sought. The notice shall include the statement of individual rights required pursuant to section 6B.2A.

[C31, §8338-d5; C35, §8338-f20; C39, §**8338.28;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §490.7; C77, 79, 81, §479.7]

479.8 Time and place.

The hearing shall not be less than ten days nor more than thirty days from the date of the last publication and where the proposed new pipeline would operate under pressure exceeding one hundred fifty pounds per square inch and exceed five miles in length, shall be held in the county seat of the county located at the midpoint of the proposed line or lines or the county in which the proposed gas storage facility would be located.

[C31, §8338-d6; C35, §8338-f21; C39, §**8338.29;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §490.8; C77, 79, 81, §479.8; 81 Acts, ch 159, §10]

479.9 Objections.

Any person, corporation, company, or city whose rights or interests may be affected by a proposed pipeline or lines or gas storage facilities may file written objections to the proposed pipeline or lines or gas storage facilities or to the granting of a permit.

[C31, §8338-d7; C35, §8338-f22; C39, §**8338.30;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §490.9; C77, 79, 81, §479.9]

479.11 Examination — testimony.

The commission may examine the proposed route of the pipeline or lines and location of the proposed gas storage area or may select an engineer to make the examination. At the hearing, the commission shall consider the petition and any objections filed to the petition and may, in its discretion, hear any testimony as may aid the commission in determining the propriety of granting the permit.

[C31, §8338-d9; C35, §8338-f24; C39, §**8338.32;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §490.11; C77, 79, 81, §479.11]

2022 Acts, ch 1021, §129; 2024 Acts, ch 1170, §369

479.12 Final order — condition.

The commission may grant a permit in whole or in part upon terms, conditions, and restrictions as to safety requirements and as to location and route as determined by it to be just and proper. Before a permit is granted to a pipeline company, the commission, after a public hearing as provided in this chapter, shall determine whether the services proposed to be rendered will promote the public convenience and necessity, and an affirmative finding to that effect is a condition precedent to the granting of a permit.

[C31, §8338-d10; C35, §8338-f25; C39, §**8338.33;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §490.12; C77, 79, 81, §479.12]

88 Acts, ch 1074, §30; 2024 Acts, ch 1170, §369

Referred to in §479.18

479.13 Costs and fees.

The applicant shall pay all costs of the informational meetings, hearing, and necessary preliminary investigation including the cost of publishing notice of hearing, and shall pay the actual unrecovered costs directly attributable to construction inspections conducted by the commission or the commission's designee.

[C31, §8338-d11, -d12; C35, §8338-f26; C39, §**8338.34;** C46, 50, 54, 58, 62, 66, 71, 73, 75, §490.13; C77, 79, 81, §479.13]

479.24 Eminent domain.

1. A pipeline company granted a pipeline permit under this chapter shall be vested with the right of eminent domain* to the extent necessary and as prescribed and approved by the commission, not exceeding seventy-five feet in width for right-of-way and not exceeding one acre in any one location in addition to right-of-way for the location of pumps, pressure apparatus, or other stations or equipment necessary to the proper operation of its pipeline. The commission may grant additional eminent domain rights where the pipeline company has presented sufficient evidence to adequately demonstrate that a greater area is required for the proper construction, operation, and maintenance of the pipeline or for the location of pumps, pressure apparatus, or other stations or equipment necessary to the proper operation of its pipeline.

2. A pipeline company having secured a permit for underground storage of gas shall be vested with the right of eminent domain to the extent necessary and as prescribed and approved by the commission in order to appropriate for its use for the underground storage of gas any subsurface stratum or formation in any land which the commission shall have found to be suitable and in the public interest for the underground storage of gas, and may appropriate other interests in property, as may be required to adequately examine, prepare, maintain, and operate the underground gas storage facilities. This chapter does not authorize the construction of a pipeline longitudinally on, over, or under any railroad right-of-way or public highway, or at other than an approximate right angle to a railroad track or public highway without the consent of the railroad company, the state department of transportation, or the county board of supervisors, and this chapter does not authorize or give the right of condemnation or eminent domain for such purposes.

479.25 Damages.

A pipeline company operating a pipeline or a gas storage area shall have reasonable access to the pipeline or gas storage area for the purpose of constructing, operating, maintaining, or locating pipes, pumps, pressure apparatus or other stations, wells, devices, or equipment used in or upon the pipeline or gas storage area; shall pay the owner of the land for the right of entry and the owner of crops for all damages caused by entering, using, or occupying the land; and shall pay to the owner all damages caused by the completion of construction of the pipeline due to wash or erosion of the soil at or along the location of the pipeline and due to the settling of the soil along and above the pipeline. However, this section shall not prevent the execution of an agreement between the pipeline company and the owner of land or crops with reference to the use of the land.

479.28 Orders — enforcement.

If a pipeline company fails to obey an order within a time prescribed by the commission, the commission may commence an equitable action in the district court of the county where the defective, unsafe, or dangerous portion of the pipeline, device, apparatus, or equipment is located to compel compliance with the commission's order. If, after trial of the action, the court finds that the order is reasonable, equitable, and just, the court shall issue a decree compelling obedience to and compliance with the order and may grant such other relief as may be just and proper. Appeal from the decree may be taken in the same manner as in other actions.

479.29 Land restoration.

1. The commission shall, pursuant to chapter 17A, adopt rules establishing standards for the restoration of agricultural lands during and after pipeline construction. In addition to the requirements of section 17A.4, the commission shall distribute copies of the notice of intended action and opportunity for oral presentations to each county board of supervisors. Any county board of supervisors may, under the provisions of chapter 17A, and subsequent to the rulemaking proceedings, petition under those provisions for additional rulemaking to establish standards for land restoration after pipeline construction within that county. Upon the request of the petitioning county, the commission shall schedule a hearing to consider the merits of the petition. Rules adopted under this section shall not apply to land located within city boundaries unless the land is used for agricultural purposes. Rules adopted under this section shall address, but are not limited to, all of the following subject matters:

a. Topsoil separation and replacement.
b. Temporary and permanent repair to drain tile.
c. Removal of rocks and debris from the right-of-way.
d. Restoration of areas of soil compaction.
e. Restoration of terraces, waterways, and other erosion control structures.
f. Revegetation of untilled land.
g. Future installation of drain tile or soil conservation structures.
h. Restoration of land slope and contour.
i. Restoration of areas used for field entrances and temporary roads.
j. Construction in wet conditions.
k. Designation of a pipeline company point of contact for landowner inquiries or claims.

2. The county board of supervisors shall cause an on-site inspection for compliance with the standards adopted under this section to be performed at any pipeline construction

project in the county. A professional engineer familiar with the standards adopted under this section and licensed under chapter 542B shall be responsible for the inspection. A county board of supervisors may contract for the services of a licensed professional engineer for the purposes of the inspection. The reasonable costs of the inspection shall be borne by the pipeline company.

3. If the inspector determines that there has been a violation of the standards adopted under this section, of the land restoration plan, or of an independent agreement on land restoration or line location executed in accordance with subsection 10, the inspector shall give oral notice, followed by written notice, to the pipeline company and the contractor operating for the pipeline company and order corrective action to be taken in compliance with the standards. The costs of the corrective action shall be borne by the contractor operating for the pipeline company.

4. An inspector shall adequately inspect underground improvements altered during construction of pipeline. An inspection shall be conducted at the time of the replacement or repair of the underground improvements. An inspector shall be present on the site at all times at each phase and separate activity of the opening of the trench, the restoration of underground improvements, and backfilling. The pipeline company and its contractor shall keep an inspector continually informed of the work schedule and any schedule changes. If proper notice is given, construction shall not be delayed due to an inspector's failure to be present on the site.

5. If the pipeline company or its contractor does not comply with the requirements of this section, with the land restoration plan, or with an independent agreement on land restoration or line location executed in accordance with subsection 10, the county board of supervisors may petition the commission for an order requiring corrective action to be taken. In addition, the county board of supervisors may file a complaint with the commission seeking imposition of civil penalties pursuant to section 479.31.

6. The pipeline company shall allow landowners and the inspector to view the proposed center line of the pipeline prior to commencing trenching operations to insure that construction takes place in its proper location.

7. An inspector may temporarily halt the construction if the construction is not in compliance with this chapter and the standards adopted pursuant to this chapter, the land restoration plan, or the terms of an independent agreement with the pipeline company regarding land restoration or line location executed in accordance with subsection 10, until the inspector consults with the supervisory personnel of the pipeline company.

8. The commission shall instruct inspectors appointed by the board of supervisors regarding the content of the statutes and rules and the inspectors' responsibility to require construction conforming with the standards provided by this chapter.

9. Petitioners for a permit for pipeline construction shall file with the petition a written land restoration plan showing how the requirements of this section, and of rules adopted pursuant to this section, will be met. The petitioners shall provide copies of the plan to all landowners of property that will be disturbed by the construction.

10. This section does not preclude the application of provisions for protecting or restoring property that are different than those prescribed in this section, in rules adopted pursuant to this section, or in the land restoration plan, if the alternative provisions are contained in agreements independently executed by the pipeline company and landowner, and if the alternative provisions are not inconsistent with state law or with rules adopted by the commission. Independent agreements on land restoration or line location between the landowner and pipeline company shall be in writing and a copy provided to the county inspector.

11. For purposes of this section, "*construction*" includes the removal of a previously constructed pipeline.

UNOFFICIAL VERSION 2024 NOT FOR RELEASE

12. The requirements of this section shall apply only to pipeline construction projects commenced on or after June 1, 1999.

479.30 Entry for land surveys.

After the informational meeting or after the filing of a petition if no informational meeting is required, a pipeline company may enter upon private land for the purpose of surveying and examining the land to determine the direction or depth of a pipeline by giving ten days' written notice by restricted certified mail to the landowner as defined in section 479.5 and to any person residing on or in possession of the land. The entry for land surveys authorized in this section shall not be deemed a trespass and may be aided by injunction. The pipeline company shall pay the actual damages caused by the entry, survey, and examination.

479.31 Civil penalty.

1. A person who violates this chapter or any rule or order issued pursuant to this chapter shall be subject to a civil penalty levied by the commission in accordance with 49 C.F.R. §190.223. Each day that the violation continues shall constitute a separate offense. Civil penalties collected pursuant to this section shall be forwarded by the chief operating officer of the commission to the treasurer of state to be credited to the general fund of the state and appropriated to the department of health and human services for purposes of the low income home energy assistance program and the weatherization assistance program.

2. Any civil penalty may be compromised by the commission. In determining the amount of the penalty, or the amount agreed upon in compromise, the appropriateness of the penalty to the size of the business of the person charged, the gravity of the violation, and the good faith of the person charged in attempting to achieve compliance, after notification of a violation, shall be considered. The amount of the penalty, when finally determined, or the amount agreed upon in compromise, may be deducted from any sums owed by the state to the person charged, or may be recovered in a civil action.

1. Allow the landowner or a person serving in a fiduciary capacity in the landowner's behalf to cancel an agreement granting an easement or other interest by certified mail with return requested to the company's principal place of business if received by the company within seven days, excluding Saturday and Sunday, of the date of the contract and inform the landowner or such fiduciary in writing of the right to cancel prior to the signing of the agreement by the landowner or such fiduciary.

2. Provide the landowner or a person serving in a fiduciary capacity in the landowner's behalf with a form in duplicate for the notice of cancellation.

3. Not record any agreement until after the period for cancellation has expired.

4. Not include in the agreement any waiver of the right to cancel in accordance with this section. The landowner or a person serving in a fiduciary capacity in the landowner's behalf may exercise the right of cancellation only once for each pipeline project.

479.41 Arbitration agreements.

1. If an easement or other written agreement between a landowner and a pipeline company provides for the determination through arbitration of the amount of monetary damages sustained by a landowner and caused by the construction, maintenance, or repair of a pipeline, and if either party has not appointed its arbitrator or agreed to an arbitrator under the agreement within thirty days after the other party has invoked the arbitration provisions of the agreement by written notice to the other party by restricted certified mail, the landowner or the pipeline company may petition a judicial magistrate in the county where the real property is located for the appointment of an arbitrator to serve in the stead of the arbitrator who would have been appointed or agreed to by the other party. Before filing the petition the landowner or pipeline company shall give notice of the petitioning of the judicial magistrate by restricted certified mail to the other party and file proof of mailing with the petition. If after hearing, the magistrate finds that the landowner or pipeline company has not been diligent in appointing or reasonable in agreeing to an arbitrator, the magistrate shall appoint an impartial arbitrator who shall have all of the powers and duties of an arbitrator appointed or agreed to by the other party under the agreement.

2. For purposes of this section only, *"landowner"* means the persons who signed the easement or other written agreement, their heirs, successors, and assigns.

479.44 Negotiated fee.

In lieu of a one-time lump sum payment for an easement or other property interest allowing a pipeline to cross the property, a landowner and the pipeline company may negotiate an annual fee, to be paid over a fixed number of years. Unless the easement provides otherwise, the annual fee shall run with the land and shall be payable to the owner of record.

[81 Acts, ch 159, §2, 6]

479.45 Particular damage claims.

1. Compensable losses shall include, but are not limited to, all of the following:

a. Loss or reduced yield of crops or forage on the pipeline right-of-way, whether caused directly by construction or from disturbance of usual farm operations.

b. Loss or reduced yield of crops or yield from land near the pipeline right-of-way resulting from lack of timely access to the land or other disturbance of usual farm operations, including interference with irrigation.

c. Fertilizer, lime, or organic material applied by the landowner to restore land disturbed by construction to full productivity.

d. Loss of or damage to trees of commercial or other value that occurs at the time of construction, restoration, or at the time of any subsequent work by the pipeline company.

e. The cost of or losses in moving or relocating livestock, and the loss of gain by or the death or injury of livestock caused by the interruption or relocation of normal feeding.

f. Erosion on lands attributable to pipeline construction.

g. Damage to farm equipment caused by striking a pipeline, debris, or other material reasonably associated with pipeline construction while engaged in normal farming operations as defined in section 480.1.

2. A claim for damage for future crop deficiency within the easement strip shall not be precluded from renegotiation under section 6B.52 on the grounds that it was apparent at the time of settlement unless the settlement expressly releases the pipeline company from claims for damage to the productivity of the soil. The landowner shall notify the company in writing fourteen days prior to harvest in each year to assess crop deficiency.

479.46 Determination of installation damages.

1. The county board of supervisors shall determine when installation of a pipeline has been completed in that county for the purposes of this section. Not less than ninety days after the completion of installation, and if an agreement cannot be made as to damages, a landowner whose land was affected by the installation of the pipeline or a pipeline company may file with the board of supervisors a petition asking that a compensation commission determine the damages arising from the installation of the pipeline.

2. *a.* If the board of supervisors by resolution approves the petition, the landowner or pipeline company shall commence the proceeding by filing an application with the chief judge of the judicial district of the county for the appointment of a compensation commission as provided in section 6B.4.

b. The application shall contain the following:

(1) The name and address of the applicant and a description of the land on which the damage is claimed to have occurred.

(2) A description of the nature of the damage claimed to have occurred and the amount of the damage claimed.

(3) The name and address of the pipeline company claimed to have caused the damage or the name and address of the affected landowner.

3. *a.* After the commissioners have been appointed, the applicant shall serve notice on the pipeline company or the landowner stating the following:

(1) That a compensation commission has been appointed to determine the damages caused by the installation of the pipeline.

(2) The name and address of the applicant and a description of the land on which the damage is claimed to have occurred.

UNOFFICIAL VERSION: ONLY EARLY RELEASE

(3) The date, time, and place when the commissioners will view the premises and proceed to appraise the damages and that the pipeline company or the landowner may appear before the commissioners.

b. If more than one landowner petitions the county board of supervisors, the application to the chief judge, notice to the pipeline company, and appraisement of damages shall be consolidated into one application, notice, and appraisement. The county attorney may assist in coordinating the consolidated application and notice, but does not become an attorney for the landowners by doing so.

4. The commissioners shall view the land at the time provided in the notice and assess the damages sustained by the landowner by reason of the installation of the pipeline and they shall file their report with the sheriff. The appraisement of damages returned by the commissioners is final unless appealed. After the appraisement of damages has been delivered to the sheriff by the compensation commission, the sheriff shall give written notice by ordinary mail to the pipeline company and the landowner of the date the appraisement of damages was made, the amount of the appraisement, and that any interested party may appeal to the district court within thirty days of the date of mailing. The sheriff shall endorse the date of mailing of notice on the original appraisement of damages. At the time of appeal, the appealing party shall give written notice to the adverse party or the party's attorney and the sheriff.

5. Chapter 6B applies to this section to the extent it is applicable and consistent with this section.

6. The pipeline company shall pay all costs of the assessment made by the commissioners and reasonable attorney fees and costs incurred by the landowner as determined by the commissioners if the award of the commissioners exceeds one hundred ten percent of the final offer of the pipeline company prior to the determination of damages. The pipeline company shall file with the sheriff an affidavit setting forth the most recent offer made to the landowner. Commissioners shall receive a per diem of fifty dollars and actual and necessary expenses incurred in the performance of their official duties. The pipeline company shall also pay all costs occasioned by the appeal, including reasonable attorney fees to be taxed by the court, unless on the trial of the appeal the same or a lesser amount of damages is awarded than was allowed by the compensation commission from which the appeal was taken.

7. As used in this section:

a. *"Commissioner"* means a member of the compensation commission appointed under subsection 2.

b. *"Damages"* means compensation for damages to the land, crops, and other personal property caused by the construction activity of installing a pipeline and its attendant structures but does not include compensation for a property interest.

c. *"Landowner"* includes a farm tenant.

8. The provisions of this section do not apply if the easement provides for any other means of negotiation or arbitration.

479.48 Reversion on nonuse.

1. If a pipeline right-of-way, or any part of a pipeline right-of-way, is wholly abandoned for pipeline purposes by the relocation of the pipeline, is not used or operated for a period of five consecutive years, or if the construction of the pipeline has been commenced and work has ceased and has not in good faith resumed for five years, the right-of-way may revert as provided in this section to the person who, at the time of the abandonment or nonuse, is the owner of the tract from which such right-of-way was taken. For purposes of this section, a pipeline or a pipeline right-of-way is not considered abandoned or unused if it is transporting product or is being actively maintained with reasonable anticipation of a future use.

2. To effect a reversion on nonuse of right-of-way, the owner or holder of purported fee title to such real estate shall serve notice upon the owner of such right-of-way easement and, if filed of record, successors in interest and upon any party in possession of the real estate. The written notice shall accurately describe the real estate and easement in question, set out the facts concerning ownership of the fee, ownership of the right-of-way easement, and the period of abandonment or nonuse, and notify the parties that such reversion shall be complete and final, and that the easement or other right shall be forfeited, unless the parties shall, within one hundred twenty days after the completed service of notice, file an affidavit with the county recorder of the county in which the real estate is located disputing the facts contained in the notice.

3. The notice shall be served in the same manner as an original notice under the Iowa rules of civil procedure, except that when notice is served by publication an affidavit shall not be required before publication. If an affidavit disputing the facts contained in the notice is not filed within one hundred twenty days, the party serving the notice may file for record in the office of the county recorder a copy of the notice with proofs of service attached and endorsed, and when so recorded, the record shall be constructive notice to all persons of the abandonment, reversion, and forfeiture of such right-of-way.

4. Upon reversion of the easement, the landowner may require the pipeline company to remove any pipe or pipeline facility remaining on the property. Provisions of this chapter relating to damages shall apply when the pipeline is removed.

5. Unless otherwise agreed to in writing by the landowner and the pipeline company, if a pipeline right-of-way is abandoned for pipeline use, but the pipe is not removed from the right-of-way, the pipeline company shall remain subject to section 479.49, shall remain responsible for the additional costs of subsequent tiling as provided for in section 479.47, shall mark the location of the line in response to a notice of proposed excavation in accordance with chapter 480, and shall remain subject to the damage provisions of this chapter in the event access to or excavation relating to the pipe is required. The landowner shall provide reasonable access to the pipeline in order to carry out the responsibilities of this subsection.

479.49 Farmland improvements.

A landowner or contractor may require a representative of the pipeline company to be present on site, at no charge to the landowner, at all times during each phase and separate activity related to a farmland improvement within fifty feet of either side of a pipeline. If the pipeline company and the landowner or contractor constructing the farmland improvement mutually agree that a representative of the pipeline company is not required to be present, the requirements of this section are waived in relation to the farmland improvement which would have otherwise made the requirements of this section applicable. A farmland improvement includes, but is not limited to, the terracing of farmland and tiling.

479B.1 Purpose — authority.

It is the purpose of the general assembly in enacting this law to grant the utilities commission the authority to implement certain controls over hazardous liquid pipelines to protect landowners and tenants from environmental or economic damages which may result from the construction, operation, or maintenance of a hazardous liquid pipeline or underground storage facility within the state, to approve the location and route of hazardous liquid pipelines, and to grant rights of eminent domain where necessary.

95 Acts, ch 192, §28; 2024 Acts, ch 1170, §369

479B.2 Definitions.

As used in this chapter, unless the context appears otherwise:

1. *"Commission"* means the utilities commission.
2. *"Hazardous liquid"* means crude oil, refined petroleum products, liquefied petroleum gases, anhydrous ammonia, liquid fertilizers, liquefied carbon dioxide, alcohols, and coal slurries.
3. *"Pipeline"* means an interstate pipe or pipeline and necessary appurtenances used for the transportation or transmission of hazardous liquids.
4. *"Pipeline company"* means a person engaged in or organized for the purpose of owning, operating, or controlling pipelines for the transportation or transmission of any hazardous liquid or underground storage facilities for the underground storage of any hazardous liquid.
5. *"Underground storage"* means storage of hazardous liquid in a subsurface stratum or formation of the earth.

479B.3 Conditions attending operation.

A pipeline company shall not construct, maintain, or operate a pipeline or underground storage facility under, along, over, or across any public or private highways, grounds, waters, or streams of any kind in this state except in accordance with this chapter.

95 Acts, ch 192, §30

479B.4 Application for permit — informational meeting — notice.

1. A pipeline company doing business in this state shall file a verified petition with the

UNOFFICIAL VERSION: 2024 EARLY RELEASE

commission asking for a permit to construct, maintain, and operate a new pipeline along, over, or across the public or private highways, grounds, waters, and streams of any kind in this state. Any pipeline company now owning or operating a pipeline or underground storage facility in this state shall be issued a permit by the commission upon supplying the information as provided for in section 479B.5, subsections 1 through 5, and meeting the requirements of section 479B.13.

2. A pipeline company doing business in this state and proposing to store hazardous liquid underground within this state shall file with the commission a verified petition asking for a permit to construct, maintain, and operate facilities for the underground storage of hazardous liquid which includes the construction, placement, maintenance, and operation of machinery, appliances, fixtures, wells, pipelines, and stations necessary for the construction, maintenance, and operation of the underground storage facilities.

3. The pipeline company shall hold informational meetings in each county in which real property or property rights will be affected at least thirty days prior to filing the petition for a new pipeline. A member of the commission, or a person designated by the commission, shall serve as the presiding officer at each meeting and present an agenda for the meeting which shall include a summary of the legal rights of the affected landowners. No formal record of the meeting shall be required. The meeting shall be held at a location reasonably accessible to all persons who may be affected by granting the permit.

4. The pipeline company seeking the permit for a new pipeline shall give notice of the informational meeting to each landowner affected by the proposed project and each person in possession of or residing on the property. For the purposes of the informational meeting, "*landowner*" means a person listed on the tax assessment rolls as responsible for the payment of real estate taxes imposed on the property and "*pipeline*" means a line transporting a hazardous liquid under pressure in excess of one hundred fifty pounds per square inch and extending a distance of not less than five miles or having a future anticipated extension of an overall distance of five miles.

5. *a.* The notice shall set forth the following:

(1) The name of the applicant.

(2) The applicant's principal place of business.

(3) The general description and purpose of the proposed project.

(4) The general nature of the right-of-way desired.

(5) A map showing the route or location of the proposed project.

(6) That the landowner has a right to be present at the meeting and to file objections with the commission.

(7) A designation of the time and place of the meeting.

b. The notice shall be served by certified mail with return receipt requested not less than thirty days previous to the time set for the meeting, and shall be published once in a newspaper of general circulation in the county. The publication shall be considered notice to landowners whose residence is not known and to each person in possession of or residing on the property provided a good faith effort to notify can be demonstrated by the pipeline company.

6. A pipeline company seeking rights under this chapter shall not negotiate or purchase an easement or other interest in land in a county known to be affected by the proposed project prior to the informational meeting.

95 Acts, ch 192, §31; 2018 Acts, ch 1160, §28; 2019 Acts, ch 24, §68; 2024 Acts, ch 1170, §369

Referred to in §479B.15

479B.5 Petition.

A petition for a permit shall state all of the following:

1. The name of the individual, firm, corporation, company, or association applying for the permit.

2. The applicant's principal office and place of business.

3. A legal description of the route of the proposed pipeline and a map of the route.

UNOFFICIAL VERSION 2024 EARLY RELEASE

4. A general description of the public or private highways, grounds, waters, streams, and private lands of any kind along, over, or across which the proposed pipeline will pass.

5. If permission is sought to construct, maintain, and operate facilities for the underground storage of hazardous liquids the petition shall include the following additional information:

a. A description and a map of the public or private highways, grounds, waters, streams, and private lands of any kind under which the storage is proposed.

b. Maps showing the location of proposed machinery, appliances, fixtures, wells, and stations necessary for the construction, maintenance, and operation of the hazardous liquid storage facilities.

6. The possible use of alternative routes.

7. The relationship of the proposed project to the present and future land use and zoning ordinances.

8. The inconvenience or undue injury which may result to property owners as a result of the proposed project.

9. An affidavit attesting to the fact that informational meetings were held in each county affected by the proposed project and the time and place of each meeting.

95 Acts, ch 192, §32
Referred to in §479B.4, 479B.14

479B.6 Hearing — notice.

1. After the petition is filed, the commission shall fix a date for a hearing and shall publish notice for two consecutive weeks, in a newspaper of general circulation in each county through which the proposed pipeline or hazardous liquid storage facilities will extend.

2. The hearing shall not be less than ten days nor more than thirty days from the date of the last publication of the notice. If the pipeline exceeds five miles in length, the hearing shall be held in the county seat of the county located at the midpoint of the proposed pipeline or the county in which the proposed hazardous liquid storage facility would be located.

95 Acts, ch 192, §33; 2018 Acts, ch 1041, §127; 2024 Acts, ch 1170, §369

479B.7 Objections.

1. A person, including a governmental entity, whose rights or interests may be affected by the proposed pipeline or hazardous liquid storage facilities may file written objections.

2. All objections shall be on file with the commission not less than five days before the date of hearing on the application. However, the commission may permit the filing of the objections later than five days before the hearing, in which event the applicant must be granted a reasonable time to meet the objections.

95 Acts, ch 192, §34; 2019 Acts, ch 24, §104; 2024 Acts, ch 1170, §369

479B.8 Examination — testimony.

The commission may examine the proposed route of the pipeline and location of the underground storage facility. At the hearing the commission shall consider the petition and any objections and may hear testimony to assist the commission in making its determination regarding the application.

95 Acts, ch 192, §35; 2024 Acts, ch 1170, §369

479B.9 Final order — condition.

The commission may grant a permit in whole or in part upon terms, conditions, and restrictions as to location and route as it determines to be just and proper. A permit shall not be granted to a pipeline company unless the commission determines that the proposed services will promote the public convenience and necessity.

95 Acts, ch 192, §36; 2024 Acts, ch 1170, §369

UNOFFICIAL VERSION 2025 EARLY RELEASE

479B.10 Costs and fees.

The applicant shall pay all costs of the informational meetings, hearing, and necessary preliminary investigation including the cost of publishing notice of hearing, and shall pay the actual unrecovered costs directly attributable to inspections conducted by the commission.

95 Acts, ch 192, §37; 2024 Acts, ch 1170, §369

479B.11 Inspection fee.

1. If the commission enters into agreements with the United States department of transportation pursuant to section 479B.23, a pipeline company shall pay an annual fee of fifty cents per mile of pipeline or fraction thereof for each inch of diameter of the pipeline located in the state. The inspection fee shall be paid to the commission between January 1 and February 1 for the calendar year.

2. The commission shall collect all fees. Failure to pay any fee within thirty days from the due date shall be grounds for revocation of the permit or assessment of civil penalties.

95 Acts, ch 192, §38; 2018 Acts, ch 1041, §127; 2024 Acts, ch 1170, §369

479B.12 Use of funds.

All moneys received under this chapter, other than civil penalties collected pursuant to section 479B.21, shall be remitted monthly to the treasurer of state and credited to the commerce revolving fund created in section 546.12.

95 Acts, ch 192, §39; 2009 Acts, ch 181, §56; 2023 Acts, ch 19, §2697

479B.13 Financial condition of permittee — bond.

Before a permit is granted under this chapter the applicant must satisfy the commission that the applicant has property within this state other than pipelines or underground storage facilities, subject to execution of a value in excess of two hundred fifty thousand dollars, or the applicant must file and maintain with the commission a surety bond in the penal sum of two hundred fifty thousand dollars with surety approved by the commission, conditioned that the applicant will pay any and all damages legally recovered against it growing out of the construction, maintenance, or operation of its pipeline or underground storage facilities in this state. When the pipeline company deposits with the commission security satisfactory to the commission as a guaranty for the payment of the damages, or furnishes to the commission satisfactory proofs of its solvency and financial ability to pay the damages, the pipeline company is relieved of the provisions requiring bond.

95 Acts, ch 192, §40; 2024 Acts, ch 1170, §369

Referred to in §479B.4, 479B.14

479B.14 Permits — limitations — sale or transfer — records — extension.

1. The commission shall prepare and issue permits. The permit shall show the name and address of the pipeline company to which it is issued and identify the decision and order of the commission under which the permit is issued. The permit shall be signed by the chairperson of the commission and the official seal of the commission shall be affixed to it.

2. The commission shall not grant an exclusive right to any pipeline company to construct, maintain, or operate its pipeline along, over, or across any public or private highway, grounds, waters, or streams. The commission shall not grant a permit for longer than twenty-five years.

3. A permit shall not be sold until the sale is approved by the commission.

4. If a transfer of a permit is made before the construction for which it was issued is completed in whole or in part, the transfer shall not be effective until the pipeline company to which it was issued files with the commission a notice in writing stating the date of the transfer and the name and address of the transferee.

5. The commission shall keep a record of all permits granted by it, showing when and to whom granted and the location and route of the pipeline or underground storage facility, and if the permit has been transferred, the date and the name and address of the transferee.

6. A pipeline company may petition the commission for an extension of a permit granted

under this section by filing a petition containing the information required by section 479B.5, subsections 1 through 5, and meeting the requirements of section 479B.13.

95 Acts, ch 192, §41; 2019 Acts, ch 24, §104; 2024 Acts, ch 1170, §369

479B.15 Entry for land surveys.

After the informational meeting or after the filing of a petition if no informational meeting is required, a pipeline company may enter upon private land for the purpose of surveying and examining the land to determine direction or depth of pipelines by giving ten days' written notice by restricted certified mail to the landowner as defined in section 479B.4 and to any person residing on or in possession of the land. The entry for land surveys shall not be deemed a trespass and may be aided by injunction. The pipeline company shall pay the actual damages caused by the entry, survey, and examination.

95 Acts, ch 192, §42

479B.16 Eminent domain.

1. A pipeline company granted a pipeline permit shall be vested with the right of eminent domain, to the extent necessary and as prescribed and approved by the commission, not exceeding seventy-five feet in width for right-of-way and not exceeding one acre in any one location in addition to right-of-way for the location of pumps, pressure apparatus, or other stations or equipment necessary to the proper operation of its pipeline. The commission may grant additional eminent domain rights where the pipeline company has presented sufficient evidence to adequately demonstrate that a greater area is required for the proper construction, operation, and maintenance of the pipeline or for the location of pumps, pressure apparatus, or other stations or equipment necessary to the proper operation of its pipeline.

2. A pipeline company granted a permit for underground storage of hazardous liquid shall be vested with the right of eminent domain to the extent necessary and as prescribed and approved by the commission in order to appropriate for its use for the underground storage of hazardous liquid any subsurface stratum or formation in any land which the commission shall have found to be suitable and in the public interest for the underground storage of hazardous liquid, and may appropriate other interests in property, as may be required adequately to examine, prepare, maintain, and operate the underground storage facilities.

3. This chapter does not authorize the construction of a pipeline longitudinally on, over, or under any railroad right-of-way or public highway, or at other than an approximate right angle to a railroad track or public highway without the consent of the railroad company, the state department of transportation, or the county board of supervisors, and this chapter does not authorize or give the right of condemnation or eminent domain for such purposes.

95 Acts, ch 192, §43; 2018 Acts, ch 1041, §127; 2024 Acts, ch 1170, §369

479B.17 Damages.

A pipeline company operating a pipeline or an underground storage facility shall have reasonable access to the pipeline or underground storage facility for the purpose of constructing, operating, maintaining, or locating pipes, pumps, pressure apparatus, or other stations, wells, devices, or equipment used in or upon the pipeline or underground storage facility. A pipeline company shall pay the owner of the land for the right of entry and the owner of crops for all damages caused by entering, using, or occupying the lands and shall pay to the owner all damages caused by the completion of construction of the pipeline due to wash or erosion of the soil at or along the location of the pipeline and due to the settling of the soil along and above the pipeline. However, this section does not prevent the execution of an agreement between the pipeline company and the owner of the land or crops with reference to the use of the land.

UNOFFICIAL VERSION 2027 EARLY RELEASE

479B.18 Venue.

In all cases arising under this chapter, the district court of any county in which property of a pipeline company is located has jurisdiction of a case involving the pipeline company.

95 Acts, ch 192, §45

479B.19 Orders — enforcement.

If the pipeline company fails to obey an order within the period of time determined by the commission, the commission may commence an equitable action in the district court of the county where the pipeline, device, apparatus, equipment, or underground storage facility is located to compel compliance with its order. If, after trial, the court finds that the order is reasonable, equitable, and just, the court shall decree a mandatory injunction compelling obedience to and compliance with the order and may grant other relief as may be just and proper. Appeal from the decree may be taken in the same manner as in other actions.

95 Acts, ch 192, §46; 2024 Acts, ch 1170, §369

479B.20 Land restoration standards.

1. The commission, pursuant to chapter 17A, shall adopt rules establishing standards for the restoration of agricultural lands during and after pipeline or underground storage facility construction. In addition to the requirements of section 17A.4, the commission shall distribute copies of the notice of intended action and opportunity for oral presentations to each county board of supervisors. Any county board of supervisors may, under the provisions of chapter 17A, and subsequent to the rulemaking proceedings, petition under those provisions for additional rulemaking to establish standards for land restoration after pipeline construction within that county. Upon the request of the petitioning county, the commission shall schedule a hearing to consider the merits of the petition. Rules adopted under this section shall not apply to land located within city boundaries unless the land is used for agricultural purposes. Rules adopted under this section shall address, but are not limited to, all of the following subject matters:

a. Topsoil separation and replacement.
b. Temporary and permanent repair to drain tile.
c. Removal of rocks and debris from the right-of-way.
d. Restoration of areas of soil compaction.
e. Restoration of terraces, waterways, and other erosion control structures.
f. Revegetation of untilled land.
g. Future installation of drain tile or soil conservation structures.
h. Restoration of land slope and contour.
i. Restoration of areas used for field entrances and temporary roads.
j. Construction in wet conditions.
k. Designation of a pipeline company point of contact for landowner inquiries or claims.

2. The county board of supervisors shall cause an on-site inspection for compliance with the standards adopted under this section to be performed at any pipeline construction project in the county. A licensed professional engineer familiar with the standards adopted under this section and registered under chapter 542B shall be responsible for the inspection. A county board of supervisors may contract for the services of a licensed professional engineer for the purposes of the inspection. The reasonable costs of the inspection shall be paid by the pipeline company.

3. If the inspector determines that there has been a violation of the standards adopted under this section, of the land restoration plan, or of an independent agreement on land restoration or line location executed in accordance with subsection 10, the inspector shall give oral notice, followed by written notice, to the pipeline company and the contractor operating for the pipeline company and order corrective action to be taken in compliance with the standards. The costs of the corrective action shall be borne by the contractor operating for the pipeline company.

4. An inspector shall adequately inspect underground improvements altered during construction of the pipeline. An inspection shall be conducted at the time of the replacement or repair of the underground improvements. An inspector shall be present on the site at all

UNOFFICIAL VERSION
NOT LEGALLY RELEASE

times at each phase and separate activity of the opening of the trench, the restoration of underground improvements, and backfilling. The pipeline company and its contractor shall keep an inspector continually informed of the work schedule and any schedule changes. If proper notice is given, construction shall not be delayed due to an inspector's failure to be present on the site.

5. If the pipeline company or its contractor does not comply with the requirements of this section, with the land restoration plan or line location, or with an independent agreement on land restoration executed in accordance with subsection 10, the county board of supervisors may petition the commission for an order requiring corrective action to be taken. In addition, the county board of supervisors may file a complaint with the commission seeking imposition of civil penalties under section 479B.21.

6. The pipeline company shall allow landowners and the inspector to view the proposed center line of the pipeline prior to commencing trenching operations to ensure that construction takes place in its proper location.

7. An inspector may temporarily halt the construction if the construction is not in compliance with this chapter and the standards adopted pursuant to this chapter, the land restoration plan, or the terms of an independent agreement with the pipeline company regarding land restoration or line location executed in accordance with subsection 10, until the inspector consults with the supervisory personnel of the pipeline company.

8. The commission shall instruct inspectors appointed by the board of supervisors regarding the content of the statutes and rules and the inspectors' responsibility to require construction conforming with the standards provided by this chapter.

9. Petitioners for a permit for pipeline construction shall file with the petition a written land restoration plan showing how the requirements of this section, and of rules adopted pursuant to this section, will be met. The company shall provide copies of the plan to all landowners of property that will be disturbed by the construction.

10. This section does not preclude the application of provisions for protecting or restoring property that are different than those prescribed in this section, in rules adopted under this section, or in the land restoration plan, if the alternative provisions are contained in agreements independently executed by the pipeline company and the landowner, and if the alternative provisions are not inconsistent with state law or with rules adopted by the commission. Independent agreements on land restoration or line location between the landowner and pipeline company shall be in writing and a copy provided to the county inspector.

11. For the purposes of this section, "*construction*" includes the removal of a previously constructed pipeline.

12. The requirements of this section shall apply only to pipeline construction projects commenced on or after June 1, 1999.

95 Acts, ch 192, §47; 99 Acts, ch 85, §7, 11; 2024 Acts, ch 1170, §369

479B.21 Civil penalty.

1. A person who violates this chapter or any rule or order issued pursuant to this chapter shall be subject to a civil penalty levied by the commission in an amount not to exceed one thousand dollars for each violation. Each day that the violation continues shall constitute a separate offense. However, the maximum civil penalty shall not exceed two hundred thousand dollars for any related series of violations. Civil penalties collected pursuant to this section shall be forwarded by the chief operating officer of the commission to the treasurer of state to be credited to the general fund of the state and appropriated to the department of health and human services for purposes of the low income home energy assistance program and the weatherization assistance program.

2. A civil penalty may be compromised by the commission. In determining the amount of the penalty, or the amount agreed upon in compromise, the appropriateness of the penalty to the size of the pipeline company charged, the gravity of the violation, and the good faith of the person charged in attempting to achieve compliance, after notification of a violation, shall be considered. The amount of the penalty, when finally determined, or the amount agreed upon

in compromise, may be deducted from any sums owed by the state to the person charged, or may be recovered in a civil action.

479B.22 Rehearing — judicial review.

Rehearing procedure for any person aggrieved by actions of the commission under this chapter shall be as provided in section 476.12. Judicial review may be sought in accordance with the terms of chapter 17A.

95 Acts, ch 192, §49; 2024 Acts, ch 1170, §369

479B.23 Authorized federal aid.

The commission may enter into agreements with and receive moneys from the United States department of transportation for the inspection of pipelines to determine compliance with applicable standards of pipeline safety, and for enforcement of the applicable standards of pipeline safety as provided by 49 U.S.C. §60101 et seq.

479B.24 Cancellation.

A pipeline company seeking to acquire an easement or other property interest for the construction, maintenance, or operation of a pipeline or underground storage facility shall do all of the following:

1. Allow the landowner or a person serving in a fiduciary capacity on the landowner's behalf to cancel an agreement granting an easement or other interest by restricted certified mail to the pipeline company's principal place of business if received by the pipeline company within seven days, excluding Saturday and Sunday, of the date of the agreement and inform the landowner or the fiduciary in writing of the right to cancel prior to the signing of the agreement by the landowner or the fiduciary.
2. Provide the landowner or a person serving in a fiduciary capacity in the landowner's behalf with a form in duplicate for the notice of cancellation.
3. Not record an agreement until after the period for cancellation has expired.
4. Not include in the agreement a waiver of the right to cancel in accordance with this section. The landowner or a person serving in a fiduciary capacity in the landowner's behalf may exercise the right of cancellation only once for each pipeline project.

95 Acts, ch 192, §51

479B.25 Arbitration agreements.

1. If an easement or other written agreement between a landowner and a pipeline company provides for the determination through arbitration of the amount of monetary damages sustained by a landowner and caused by the construction, maintenance, or repair of a pipeline or underground storage facility, and if either party has not appointed its arbitrator or agreed to an arbitrator under the agreement within thirty days after the other party has invoked the arbitration provisions of the agreement by written notice to the other party by restricted certified mail, the landowner or the pipeline company may petition a magistrate in the county where the real property is located for the appointment of an arbitrator to serve in the stead of the arbitrator who would have been appointed or agreed to by the other party. Before filing the petition the landowner or pipeline company shall give notice of the petitioning of the magistrate by restricted certified mail to the other party and file proof of mailing with the petition.
2. If after hearing, the magistrate finds that the landowner or pipeline company has not been diligent in appointing or reasonable in agreeing to an arbitrator, the magistrate shall appoint an impartial arbitrator who shall have all of the powers and duties of an arbitrator appointed or agreed to by the other party under the agreement.

3. For purposes of this section only, *"landowner"* means the person who signed the easement or other written agreement, or the person's heirs, successors, and assigns.

95 Acts, ch 192, §52, 62; 2018 Acts, ch 1041, §127

479B.26 Subsequent pipeline or underground storage facility.

1. A pipeline company shall not construct a subsequent pipeline or underground storage facility upon its existing easement when a damage claim from the installation of its previous pipeline on that easement has not been resolved unless that claim is under litigation or arbitration, or is the subject of a proceeding pursuant to section 479B.30.

2. With the exception of claims for damage to drain tile and future crop deficiency, for this section to apply, landowners and tenants must submit their claims in writing for damages caused by construction of the pipeline or underground storage facility within one year of final cleanup on the real property by the pipeline company.

95 Acts, ch 192, §53; 2018 Acts, ch 1041, §127

479B.27 Damage agreement.

A pipeline company shall not construct a pipeline or underground storage facility until a written statement is on file with the commission as to how damages resulting from the construction of the pipeline shall be determined and paid, except in cases of eminent domain. The pipeline company shall provide a copy of the statement to the landowner.

95 Acts, ch 192, §54; 2024 Acts, ch 1170, §369

479B.28 Negotiated fee.

In lieu of a one-time lump sum payment for an easement or other property interest allowing a pipeline to cross property or allowing underground storage of hazardous liquids, a landowner and the pipeline company may negotiate an annual fee, to be paid over a fixed number of years. Unless the easement provides otherwise, the annual fee shall run with the land and shall be payable to the owner of record.

95 Acts, ch 192, §55

479B.29 Particular damage claims.

1. Compensable losses shall include, but are not limited to, all of the following:

a. Loss or reduced yield of crops or forage on the pipeline right-of-way, whether caused directly by construction or from disturbance of usual farm operations.

b. Loss or reduced yield of crops or yield from land near the pipeline right-of-way resulting from lack of timely access to the land or other disturbance of usual farm operations, including interference with irrigation.

c. Fertilizer, lime, or organic material applied by the landowner to restore land disturbed by construction to full productivity.

d. Loss of or damage to trees of commercial or other value that occurs at the time of construction, restoration, or at the time of any subsequent work by the pipeline company.

e. The cost of or losses in moving or relocating livestock, and the loss of gain by or the death or injury of livestock caused by the interruption or relocation of normal feeding.

f. Erosion on lands attributable to pipeline construction.

g. Damage to farm equipment caused by striking a pipeline, debris, or other material reasonably associated with pipeline construction while engaged in normal farming operations as defined in section 480.1.

2. A claim for damage for future crop deficiency within the easement strip shall not be precluded from renegotiation under section 6B.52 on the grounds that it was apparent at the time of settlement unless the settlement expressly releases the pipeline company from claims for damage to the productivity of the soil. The landowner shall notify the pipeline company in writing fourteen days prior to harvest in each year to assess crop deficiency.

95 Acts, ch 192, §56, 62; 99 Acts, ch 85, §8, 11

479B.30 Determination of construction damages.

1. The county board of supervisors shall determine when construction of a pipeline or

UNOFFICIAL VERSION: EARLY RELEASE

underground storage facility has been completed in that county for the purposes of this section. Not less than ninety days after the completion of construction and if an agreement cannot be made as to damages, a landowner whose land was affected by the construction of the pipeline or underground storage facility or the pipeline company may file with the board of supervisors a petition asking that a compensation commission determine the damages arising from construction of the pipeline.

2. If the board of supervisors by resolution approves the petition, the landowner or pipeline company shall commence the proceeding by filing an application with the chief judge of the judicial district for the county for the appointment of a compensation commission as provided in section 6B.4. The application shall contain all of the following information:

a. The name and address of the applicant and a description of the land on which the damage is claimed to have occurred.

b. A description of the nature of the damage claimed to have occurred and the amount of the damage claimed.

c. The name and address of the pipeline company claimed to have caused the damage or the name and address of the affected landowner.

3. *a.* After the commissioners have been appointed, the applicant shall serve notice on the pipeline company or the landowner stating all of the following:

(1) That a compensation commission has been appointed to determine the damages caused by the construction of the pipeline or underground storage facility.

(2) The name and address of the applicant and a description of the land on which the damage is claimed to have occurred.

(3) The date, time, and place when the commissioners will view the premises and proceed to appraise the damages and that the pipeline company or landowner may appear before the commissioners.

b. If more than one landowner petitions the county board of supervisors, the application to the chief judge, notice to the pipeline company, and appraisement of damages shall be consolidated into one application, notice, and appraisement. The county attorney may assist in coordinating the consolidated application and notice, but does not become an attorney for the landowners by doing so.

4. The commissioners shall view the land at the time provided in the notice and assess the damages sustained by the landowner by reason of the construction of the pipeline or underground storage facility and they shall file their report with the sheriff. The appraisement of damages returned by the commissioners is final unless appealed. After the appraisement of damages has been delivered to the sheriff by the compensation commission, the sheriff shall give written notice by ordinary mail to the pipeline company and the landowner of the date the appraisement of damages was made, the amount of the appraisement, and that any interested party may appeal to the district court within thirty days of the date of mailing. The sheriff shall endorse the date of mailing of notice on the original appraisement of damages. At the time of appeal, the appealing party shall give written notice to the adverse party or the party's attorney and the sheriff.

5. Chapter 6B applies to this section to the extent it is applicable and consistent with this section.

6. The pipeline company shall pay all costs of the assessment made by the commissioners and reasonable attorney fees and costs incurred by the landowner as determined by the commissioners if the award of the commissioners exceeds one hundred ten percent of the final offer of the pipeline company prior to the determination of damages. The pipeline company shall file with the sheriff an affidavit setting forth the most recent offer made to the landowner. Commissioners shall receive a per diem of fifty dollars and actual and necessary expenses incurred in the performance of their official duties. The pipeline company shall also pay all costs occasioned by the appeal, including reasonable attorney fees to be taxed by the court, unless on the trial of the appeal the same or a lesser amount of damages is awarded than was allowed by the compensation commission from which the appeal was taken.

7. As used in this section:

UNOFFICIAL VERSION 2024 EARLY RELEASE

a. "Commissioner" means a member of the compensation commission appointed under subsection 2.

b. "Damages" means compensation for damages to the land, crops, and other personal property caused by the construction of a pipeline and its attendant structures or underground storage facility but does not include compensation for a property interest.

c. "Landowner" includes a farm tenant.

8. The provisions of this section do not apply if the easement provides for any other means of negotiation or arbitration.

479B.31 Subsequent tiling.

All additional costs of new tile construction caused by an existing pipeline or underground storage facility shall be paid by the pipeline company. To receive compensation under this section, the landowner or agent of the landowner shall either present an invoice specifying the additional costs caused by the presence of the pipeline which is accompanied by a written verification of the additional costs by the county engineer or soil and water conservation district conservationist or reach an agreement with the pipeline company on the project design and share of the cost to be paid by the pipeline company during the planning of the tiling project.

479B.32 Reversion on nonuse.

1. If a pipeline right-of-way, or any part of the pipeline right-of-way, is wholly abandoned for pipeline purposes by the relocation of the pipeline, is not used or operated for a period of five consecutive years, or if the construction of the pipeline has been commenced and work has ceased and has not in good faith resumed for five years, the right-of-way may revert as provided in this section to the person who, at the time of the abandonment or nonuse, is the owner of the tract from which such right-of-way was taken. For purposes of this section, a pipeline or a pipeline right-of-way is not considered abandoned or unused if it is transporting product or is being actively maintained with reasonable anticipation of a future use.

2. To effect a reversion on nonuse of right-of-way, the owner or holder of purported fee title to such real estate shall serve notice upon the owner of such right-of-way easement and, if filed of record, successors in interest and upon any party in possession of the real estate. The written notice shall accurately describe the real estate and easement in question, set out the facts concerning ownership of the fee, ownership of the right-of-way easement, and the period of abandonment or nonuse, and notify the parties that such reversion shall be complete and final, and that the easement or other right shall be forfeited, unless the parties shall, within one hundred twenty days after the completed service of notice, file an affidavit with the county recorder of the county in which the real estate is located disputing the facts contained in the notice.

3. The notice shall be served in the same manner as an original notice under the Iowa rules of civil procedure, except that when notice is served by publication an affidavit shall not be required before publication. If an affidavit disputing the facts contained in the notice is not filed within one hundred twenty days, the party serving the notice may file for record in the office of the county recorder a copy of the notice with proofs of service attached and endorsed, and when so recorded, the record shall be constructive notice to all persons of the abandonment, reversion, and forfeiture of such right-of-way.

4. Upon reversion of the easement, the landowner may require the pipeline company to remove any pipe or pipeline facility remaining on the property. Provisions of this chapter relating to damages shall apply when the pipeline is removed.

5. Unless otherwise agreed to in writing by the landowner and the pipeline company, if a pipeline right-of-way is abandoned for pipeline use, but the pipe is not removed from the right-of-way, the pipeline company shall remain subject to section 479B.33, shall

UNOFFICIAL VERSION

remain responsible for the additional costs of subsequent tiling as provided for in section 479B.31, shall mark the location of the line in response to a notice of proposed excavation in accordance with chapter 480, and shall remain subject to the damage provisions of this chapter in the event access to or excavation relating to the pipe is required. The landowner shall provide reasonable access to the pipeline in order to carry out the responsibilities of this subsection.

479B.33 Farmland improvements.

A landowner or contractor may require a representative of the pipeline company to be present on site, at no charge to the landowner, at all times during each phase and separate activity related to a farmland improvement within fifty feet of either side of a pipeline. If the pipeline company and the landowner or contractor constructing the farmland improvement mutually agree that a representative of the pipeline company is not required to be present, the requirements of this section are waived in relation to the farmland improvement which would have otherwise made the requirements of this section applicable. A farmland improvement includes, but is not limited to, the terracing of farmland and tiling.

480.1 Definitions.

1. *"Board"* means the board of directors of the notification center.

2. *"Damage"* means any impact with, destruction, impairment, or penetration of, or removal of support from an underground facility, including damage to its protective coating, housing, or device.

3. *"Emergency"* means a condition where there is clear and immediate danger to life or health, or essential services, or a potentially significant loss of property.

4. *a. "Excavation"* means an operation in which a structure or earth, rock, or other material in or on the ground is moved, removed, or compressed, or otherwise displaced by means of any tools, equipment, or explosives and includes but is not limited to grading, trenching, tiling, digging, ditching, drilling, augering, tunneling, scraping, cable or pipe plowing, driving, and demolition of structures.

b. "Excavation" does not include normal farming operations, residential, commercial, or similar gardening, the opening of a grave site in a cemetery, normal activities involved in land surveying pursuant to chapter 542B, operations in a solid waste disposal site which has planned for underground facilities, the replacement of an existing traffic sign at its current location and at no more than its current depth, and normal road or highway maintenance which does not change the original grade of the roadway or the ditch.

5. *"Excavator"* means a person proposing to engage or engaging in excavation.

6. *"Forty-eight-hour period"* means a period of forty-eight consecutive hours beginning at

6:00 a.m. the next business day from the day the notification center receives a notice and excludes Saturdays, Sundays, and legal holidays.

7. *"Locator"* means a person proposing to engage or engaging in the location and marking of underground facilities under contract with or employed by an operator.

8. *"Normal farming operations"* means plowing, cultivation, planting, harvesting, and similar operations routine to most farms, but excludes chisel plowing, sub-soiling, or ripping more than fifteen inches in depth, drain tile excavating, terracing, digging or driving a post in a new location other than replacing a post while repairing a fence in its existing location, and similar operations.

9. *"Notification center"* means the statewide notification center established in section 480.3.

10. *"Operator"* means a person owning or operating an underground facility including but not limited to public, private, and municipal utilities. An operator does not include a person who owns or otherwise lawfully occupies real property where an underground facility is located only for the use and benefit of the owner or occupant on the property.

11. *"Person"* means a person as defined in section 4.1, subsection 20.

12. *"Underground facility"* means an item of personal property owned or leased by the operator which is buried or placed below ground for use in connection with the storage or conveyance of, or the provision of services supplying water, sewage, electronic, telephonic, or telegraphic communications, electric energy, hazardous liquids, or petroleum products including natural gas or other substances, and includes but is not limited to pipes, sewers, conduits, cables, valves, lines, wires, manholes, and attachments to such property but does not include sanitary sewer laterals, storm sewer laterals, and water service lines providing service to abutting private properties.

480.2 Reserved.

480.3 Notification center established — participation.

1. *a.* A statewide notification center is established and shall be organized as a nonprofit corporation pursuant to chapter 504.

(1) The center shall be governed by a board of directors, which shall represent and be elected by operators, excavators, and other persons who participate in the center. The board shall include two locators and two excavators to serve as nonvoting members. The board, with input from all interested parties, shall determine the operating procedures and technology needed for a single statewide notification center and establish a notification process.

(2) In addition, the board shall either establish a competitive bidding procedure to select a vendor to provide the notification service or retain sufficient and necessary staff to provide the notification service.

(a) If a vendor is selected, the vendor contract shall be for a three-year period, which may be extended upon the approval of the board for a period not exceeding an additional three years. The terms of the vendor contract may be modified from time to time by the board and the vendor. The contract shall be reviewed, with an opportunity to receive new bids, at the end of the term of the contract.

(b) If the board retains staff to provide the notification service, the board, at the board's discretion, may review the notification service at any time and make a determination to use the competitive bidding procedure to select a vendor.

b. Upon the selection of a vendor pursuant to paragraph *"a"*, the board shall notify the chairperson of the utilities commission in writing of the selection. The board shall submit an

UNOFFICIAL VERSION: 2027 EARLY RELEASE

annual report to the chairperson of the utilities commission including an annual audit and review of the services provided by the notification center and the vendor.

c. The board is subject to chapters 21 and 22.

2. *a.* The board shall implement the latest and most cost-effective technological improvements for the center in order to provide operators and excavators with the most accurate data available and in a timely manner to allow operators and excavators to perform their responsibilities with the minimum amount of interruptions.

b. The center shall establish a communication system to facilitate the provision of notice by operators, locators, and excavators.

3. Every operator shall participate in and share in the costs of the notification center. The financial condition and the transactions of the notification center shall be audited at least once each year by a certified public accountant. The notification center shall not provide any form of aid or make a contribution to a political party or to the campaign of a candidate for political or public office. In addition to any applicable civil penalty, as provided in section 480.6, a violation of this section constitutes a simple misdemeanor.

4. The center shall provide records to the utilities commission upon request as a part of an investigation on behalf of the attorney general's office.

480.4 Required notice — location and marking of underground facilities — exception.

1. *a.* Except as otherwise provided in this section, prior to any excavation, an excavator shall contact the notification center and provide notice of the planned excavation occurring after a forty-eight-hour period. The notice shall be valid for twenty-five calendar days beginning on the day the forty-eight-hour period concludes. If all locating and marking of underground facilities is completed prior to the expiration of the forty-eight-hour period, the excavator may proceed with excavation upon being notified by the notification center that the locating and marking of all underground facilities is complete. The notification center shall establish a toll-free telephone number to allow excavators to provide the notice required pursuant to this subsection.

b. A notice provided pursuant to this subsection for a location within a city shall include the following information:

(1) A street address or block and lot numbers, or both, of the proposed area of excavation.
(2) The name and address of the excavator.
(3) The excavator's telephone number.
(4) The type and extent of the proposed excavation.
(5) Whether the discharge of explosives is anticipated.
(6) The date and time when excavation is scheduled to begin.
(7) Approximate location of the excavation on the property.
(8) If known, the name of the housing development and property owner.

c. A notice provided pursuant to this subsection for a location outside a city shall include the following information:

(1) The name of the county, township, range, and section.
(2) The name and address of the excavator.
(3) The excavator's telephone number.
(4) The type and extent of the proposed excavation.
(5) Whether the discharge of explosives is anticipated.
(6) The date and time when excavation is scheduled to begin.
(7) Approximate location of the excavation on the property.
(8) If known, the quarter section, 911 address and global positioning system coordinate, name of property owner, name of housing development with street address or block and lot numbers, or both.

d. For purposes of the requirements of this section, an excavation commences the first

UNOFFICIAL VERSION: NOT FOR RELEASE

time excavation occurs in an area that was not previously identified by the excavator in an excavation notice.

e. At the time of giving notice to the notification center pursuant to this subsection, an excavator shall use white paint, white flags, white stakes, or a combination thereof, to mark the proposed area of excavation, unless one of the following applies:

(1) The precise location, direction, size, and length of the proposed excavation area can be clearly and adequately defined and described during the call to the notification center or during an onsite preconstruction meeting.

(2) Electronic means of white-lining is supported by the notification center and used by the excavator.

(3) Physical premarking can be shown to be impractical.

2. The notification center, upon receiving notice from an excavator, shall immediately transmit the information contained in the notice to each operator in the area of the proposed excavation and provide the names of all operators in that area to the excavator. The notification center shall assign an inquiry identification number to each notice and shall maintain a record of each notice for at least six years from the date the notice is received. The notification center shall not assess an operator who requests in writing not to receive a notification of its own excavations for any portion of the costs associated with such excavations.

3. *a.* (1) An operator who receives notice from the notification center shall mark the horizontal location of the operator's underground facility and the excavator shall use due care in excavating in the marked area to avoid damaging the underground facility. The operator shall complete such locating and marking, and shall notify the notification center that the marking is complete within the forty-eight-hour period unless otherwise agreed by the operator and the excavator. No later than the expiration of the forty-eight-hour period, the notification center shall notify the excavator of the underground facility locating and marking status, or the failure of the operator to notify the center that the locating and marking is complete. The locating and marking of the underground facilities shall be completed at no cost to the excavator. If, in the opinion of the operator, the planned excavation requires that the precise location of the underground facilities be determined, the excavator, unless otherwise agreed upon between the excavator and the operator, shall hand dig test holes or use nondestructive methods to determine the location of the facilities unless the operator specifies an alternate method.

(2) (a) The marking required under this subsection shall be done in a manner that will last for a minimum of five working days on any nonpermanent surface, or a minimum of ten working days on any permanent surface. If the excavation will continue for any period longer than such periods, the operator shall remark the location of the underground facility upon the request of the excavator. The request shall be made through the notification center.

(b) A locator shall use for marking a flag that includes the name of the operator and a contact phone number.

(3) Unless otherwise agreed by the operator and excavator in writing, no excavation shall be performed within twenty-five feet of an underground pipeline operating at one hundred fifty pounds per square inch or greater and that is equal to or greater than two inches in diameter unless a representative of the operator of the underground pipeline is present at the planned excavation area. This requirement shall not apply, however, when a representative of the operator fails to be present at the proposed excavation area at the time work is scheduled to commence or as otherwise agreed by the operator and excavator in writing. In this event, the excavator shall notify the operator that the representative failed to appear, and excavation operations can begin, provided the excavator uses due care to avoid damaging the underground facilities.

b. An operator who receives notice from the notification center and who determines that the operator does not have any underground facility located within the proposed area of excavation shall notify the notification center concerning this determination within the forty-eight-hour period. No later than the expiration of the forty-eight-hour period, the notification center shall notify the excavator that the operator does not have any underground facilities within the proposed area of excavation.

UNOFFICIAL VERSION
2021 SUPPLEMENT

c. For purposes of this chapter, the "*horizontal location of any underground facility*" is defined as including an area eighteen inches on either side of the underground facility.

d. For the purposes of this chapter, notifications provided to the excavator by the operator or by the notification center shall be provided in a consistent manner to be established by the board.

4. An excavator is responsible for preserving the markings required in subsection 3 at all times during the excavation. If the markings will be destroyed or otherwise altered during the excavation, the excavator must establish suitable reference points which will enable the excavator to locate the underground facility at all times during the excavation.

5. The operator shall mark the location of any underground facility to conform with the uniform color code established by the American public works association's utility location and coordination council.

6. The only exception to this section shall be when an emergency exists. Under such conditions, excavation operations can begin immediately, provided reasonable precautions are taken to protect the underground facilities. The excavator shall notify the notification center of the excavation as soon as practical.

Referred to in §480.11

480.5 Damage to underground facility — report to operator.

1. An excavator shall as soon as practical notify the operator when any damage occurs to an underground facility as a result of an excavation. The notice shall include the type of facility damaged and the extent of the damage. If damage occurs, an excavator shall refrain from backfilling in the immediate area of the underground facilities until the damage has been investigated by the operator, unless the operator authorizes otherwise.

2. If the damage results in an emergency, the excavator shall take all reasonable actions to alleviate the emergency including but not limited to the evacuation of the affected area. The excavator shall leave all equipment situated where the equipment was at the time the emergency was created and immediately contact the operator and appropriate authorities and necessary emergency response agencies.

92 Acts, ch 1103, §5; 2019 Acts, ch 24, §104

480.6 Civil penalties.

1. A person who violates a provision of this chapter is subject to a civil penalty as follows:

a. For a violation related to natural gas and hazardous liquid pipelines, an amount not to exceed ten thousand dollars for each violation for each day the violation continues, up to a maximum of five hundred thousand dollars.

b. For a violation related to any other underground facility, an amount not to exceed one thousand dollars for each violation for each day the violation continues, up to a maximum of twenty thousand dollars.

c. If a locator violates a time limit set forth in this chapter and a complaint relating to the violation is filed with the utilities commission, the locator is subject to a civil penalty in an amount determined by the attorney general. If a locator employed by an operator violates this paragraph, the operator employing the locator shall be subject to a civil penalty in an amount determined by the attorney general, which shall be the same as though assessed against the locator. A civil penalty imposed by the attorney general under this paragraph shall not exceed one hundred dollars for each violation for each day the violation continues, up to a maximum of five thousand dollars.

2. *a.* The attorney general, upon the receipt of a complaint, may institute any legal proceedings necessary to enforce the penalty provisions of this chapter.

b. At the direction of the attorney general, the utilities commission shall investigate a violation of this chapter. Upon completion of the investigation, the utilities commission shall submit to the attorney general a written summary of the investigation and all evidence acquired during the investigation, except as set forth in subsection 2, paragraph "*c*".

UNOFFICIAL VERSION. NOT FOR RELEASE

c. The utilities commission may independently receive and investigate complaints alleging a violation of this chapter by a locator.

3. All amounts collected pursuant to this section shall be remitted to the treasurer of state, who shall deposit the amount in the general fund of the state.

480.7 Injunction.

Any affected person may make application to the district court for injunctive relief from any violation of this chapter.

92 Acts, ch 1103, §7

480.8 Local ordinances and regulations unaffected.

This chapter does not affect or impair any local ordinances or other provisions of law requiring permits to be obtained before excavation. However, a permit issued by any governing body does not relieve the excavator from complying with the requirements of this chapter, unless the governing body is the excavator and the governing body and the operator have agreed in writing to waive notification under this chapter. However, such an agreement shall not be considered in the issuance of any required permit.

92 Acts, ch 1103, §8

480.9 Liability for owner of farmland.

An owner of farmland used in a farm operation, as defined in section 352.2, who complies with the requirements of this chapter shall not be held responsible for any damages to an underground facility, including fiberoptic cable, if the damage occurred on the farmland in the normal course of the farm operation, unless the owner intentionally damaged the underground facility or acted with wanton disregard or recklessness in causing the damage to the underground facility. For purposes of this section, an "*owner*" includes a family member, employee, or tenant of the owner.

95 Acts, ch 192, §59

480.10 Communications not precluded.

This chapter shall not be interpreted to preclude an excavator, an operator, or the notification center from having or engaging in communications in addition to the notification requirements specified in this chapter.

2014 Acts, ch 1047, §7

480.11 Locator enforcement authority.

1. A locator who operates in this state shall satisfy all of the following requirements:

a. Take responsibility for completing location services as required under section 480.4.

b. Correctly notify the notification center that a location service could not be completed due to a lack of response by the excavator and include in the notice the date, time, and method of the attempted contact with the excavator, and the name and contact information of any representative of the excavator.

2. A locator operating in this state is subject to enforcement requirements as established in chapter 476. Any enforcement action taken for a violation of this chapter by a locator shall be taken solely against the locator and not the operator except as provided in section 480.6, subsection 1, paragraph "*c*".

3. Any enforcement action taken against a locator employed by an operator for a violation of this chapter shall not result in the operator being subject to penalties as both a locator and an operator.

CHAPTER 480A

PUBLIC UTILITIES IN PUBLIC RIGHTS-OF-WAY

Referred to in §8C.7A, 476.6

480A.1 Purpose.
480A.2 Definitions.
480A.3 Fees.
480A.4 In-kind services.
480A.5 Arbitration.
480A.6 Franchise ordinance not superseded.

480A.1 Purpose.

The general assembly finds that it is in the public interest to define the right of local governments to charge public utilities for the location and operation of public utility facilities in local government rights-of-way.

98 Acts, ch 1148, §3, 9

480A.2 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Local government"* means a county, city, township, school district, or any special-purpose district or authority.

2. *"Management costs"* means the reasonable, direct, and fully documented costs a local government actually incurs to manage public rights-of-way.

3. *"Public right-of-way"* means the area on, below, or above a public roadway, highway, street, bridge, cartway, bicycle lane, or public sidewalk in which the local government has an interest, including other dedicated rights-of-way for travel purposes and utility easements. A public right-of-way does not include the airwaves above a public right-of-way with regard to cellular or other nonwire telecommunications or broadcasts service or utility poles owned by a local government or a municipal utility.

4. *"Public utility"* means a person owning or operating a facility used for furnishing natural gas by piped distribution system, electricity, communications services not including cable television systems, or water by piped distribution system, to the public for compensation.

98 Acts, ch 1148, §4, 9; 2019 Acts, ch 121, §1

480A.3 Fees.

1. A local government shall not recover any fee from a public utility for the use of its available right-of-way, other than a permit fee for management costs attributable to the public utility's requested use of the local government's right-of-way. A fee or other obligation under this section shall be imposed on a competitively neutral basis. When a local government's management costs cannot be attributed to only one entity, those costs shall be allocated among all users of the public rights-of-way, including the local government itself. The allocation shall reflect proportionately the costs incurred by the local government as a result of the various types of uses of the public rights-of-way.

2. This section does not:

a. Prohibit the collection of a franchise fee as permitted in section 480A.6.

b. Prohibit voluntary agreements between a public utility and local government to share services for the purpose of reducing costs and preserving public rights-of-way for future public safety purposes.

98 Acts, ch 1148, §5, 9; 2019 Acts, ch 121, §2

Referred to in §480A.6

480A.4 In-kind services.

A local government, in lieu of a fee imposed under this chapter, shall not require in-kind services by a public utility right-of-way user or require in-kind services as a condition of the use of the local government's public right-of-way, unless pursuant to a voluntary agreement between a public utility and local government to share services for the purpose of reducing costs and preserving public rights-of-way for future public safety purposes.

98 Acts, ch 1148, §6, 9; 2019 Acts, ch 121, §3

UNOFFICIAL VERSION: 2025 EARLY RELEASE

480A.5 Arbitration.

1. A public utility that is denied registration, denied a right-of-way permit, that has its right-of-way permit revoked, or that believes that the fees imposed on such user by the local government do not conform to the requirements of this chapter may request in writing that such denial, revocation, or fee imposition be reviewed by the governing body of the local government. The governing body of the local government shall act within sixty days on a timely written request. A decision by the governing body affirming the denial, revocation, or fee imposition must be in writing and supported by written findings establishing the reasonableness of the decision.

2. Upon affirmation by the governing body of the denial, revocation, or fee imposition, the public utility may do either of the following:

a. With the consent of the governing body, have the matter finally resolved by binding arbitration. Binding arbitration must be before an arbitrator agreed to by both the local government and the public utility. If the parties are unable to agree on an arbitrator, the matter shall be resolved by a three-person arbitration panel made up of one arbitrator selected by the local government, one arbitrator selected by the public utility, and one arbitrator selected by the other two arbitrators. The cost and expense of a single arbitrator shall be borne equally by the local government and the public utility. If a three-person arbitration panel is selected, each party shall bear the expense of its own arbitrator and the parties shall jointly and equally bear the cost and expense of the third arbitrator, and of the arbitration. Each party to the arbitration shall pay its own costs, disbursements, and attorney fees.

b. Bring an action in district court to review a decision of the governing body made under this section.

98 Acts, ch 1148, §7, 9

480A.6 Franchise ordinance not superseded.

This chapter does not modify or supersede the rights and obligations of a local government and the public utility established by the terms of any existing or future franchise granted, approved, and accepted pursuant to section 364.2, subsection 4. A city which collects a city franchise fee from an entity pursuant to section 364.2, subsection 4, under an existing or future franchise, shall not also collect a fee from that entity under section 480A.3.

GENERAL PROVISIONS

481A.1 Definitions.

Words and phrases as used in this chapter and chapters 350, 456A, 456B, 457A, 461A, 461B, 461C, 462A, 462B, 464A, 465A, 465B, 465C, 481B, 482, 483A, 484A, and 484B and such other chapters as relate to the subject matter of these chapters shall be construed as follows:

1. *"Alien"* shall not be construed to mean any person who has applied for naturalization papers.
2. *"Amphibian"* means a member of the class Amphibia.
3. *"Aquaculture"* means the controlled propagation, growth, and harvest of aquatic organisms, including, but not limited to fish, amphibians, reptiles, mollusks, crustaceans, gastropods, algae, and other aquatic plants, by an aquaculturist.
4. *"Aquaculture unit"* means all private waters for aquaculture with or without buildings, used for the purpose of propagating, raising, holding, or harvesting aquatic organisms for commercial purposes.
5. *"Aquaculturist"* means an individual involved in producing, transporting, or marketing aquatic products from private waters for commercial purposes.
6. *"Bag limit"* or *"possession limit"* is the number of any kind of game, fish, bird or animal or other wildlife form permitted to be taken or held in a specified time.
7. *"Bait"* includes but is not limited to minnows, green sunfish, orange-spotted sunfish, gizzard shad, frogs, crayfish, and salamanders.
8. *"Biological balance"* means that condition when the number of animals present over the long term is at or near the number of animals of a particular species that the available habitat is capable of supporting.
9. *"Bird"* means a member of the class Aves.
10. *"Buy"* means to purchase, offer to purchase, barter for, trade for, or lease.
11. *"Closed season"* is that period of time during which hunting, fishing, trapping or taking is prohibited.
12. *"Commercial purposes"* means selling, giving, or furnishing to others.
13. *"Commission"* means the natural resource commission.
14. *"Contraband"* as used in the laws pertaining to the work of the commission shall mean anything, the possession of which was illegally procured, or the possession of which is unlawful.
15. *"Department"* means the department of natural resources.
16. *"Director"* means the director of the department or the director's designee.
17. *"Farm deer"* means the same as defined in section 170.1.
18. *"Fish"* means a member of the class Pisces.
19. *"Frog"* means a member of the order Anura.
20. *"Fur-bearing animals"* means the following which are declared to be fur-bearing animals for the purpose of regulation and protection under the Code: beaver, badger, mink, otter, muskrat, raccoon, skunk, opossum, spotted skunk or civet cat, weasel, coyote, bobcat, wolf, groundhog, red fox, and gray fox. This chapter does not apply to domesticated fur-bearing animals.
21. *"Game"* means all of the animals specified in this subsection except those designated

481A.5 State game refuges.

1. The commission may establish state game refuges or sanctuaries on any land owned by the state of Iowa suitable for this purpose when necessary for the preservation of biological balance pursuant to the provisions of section 481A.39, for the protection of public parks, for the protection of the public health, safety and welfare, or to effect sound wildlife management.

2. In emergency situations when the maintenance of the biological balance as provided in section 481A.39 is threatened, the director may establish temporary state game refuges in conformity with sound wildlife management. The establishment of a temporary refuge shall be accomplished by posting notices in conspicuous places around the refuge. The establishment of a temporary refuge by the director shall be effective until five days after the next meeting of the commission or for such longer time as the commission may determine is necessary to maintain a biological balance as provided in section 481A.39 and to effect sound wildlife management.

481A.6A Pen-reared pheasants — release by landowners and tenants.

1. As used in this section, *"pen-reared pheasant"* means a Chinese ring-necked pheasant (Phasianus colchicus torquatus) and its subspecies which originates from a captive population and which has been propagated and held by a hatchery. For the purposes of this section *"pen-reared pheasant"* does not include a Reeves (Syrmaticus reevesii) or Lady Amherst (Chrysolophus amherstiae) pheasant, a subspecies of the Chinese ring-necked pheasant classified as a Japanese (Phasianus versicolor) or a Black-necked (P. colchicus colchicus) pheasant, or a melanistic mutant (black, white, or other color mix) of the Chinese ring-necked pheasant. This subsection is not applicable to game birds released for officially sanctioned field meets or trials and retriever meets or trials on private land pursuant to section 481A.22, pen-raised game birds used on private land pursuant to section 481A.56, or game birds released on hunting preserves pursuant to chapter 484B.

2. Notwithstanding section 481A.60, an owner or tenant of land may obtain pen-reared pheasants from a hatchery approved by the department, and raise or release the pen-reared pheasants on the owner's or tenant's land. A person shall not relocate a pen-reared pheasant to any other land.

3. A person taking a pen-reared pheasant shall comply with all requirements provided in this chapter and chapter 483A.

1. It shall be unlawful to hunt, pursue, kill, trap or take any wild animal, bird, or game on any state game refuge so established at any time of the year, and no one shall carry firearms thereon, providing, however, that predatory birds and animals may be killed or trapped under the authority and direction of the director.

2. The commission may specify the distance from a state game refuge where shooting is prohibited, and shall have notice of same posted at such distance in conspicuous places around the refuge, provided, however, this prohibition shall not apply to owners or tenants hunting on their own land outside of a state game refuge. The commission may prohibit shooting at any reasonable distance from a state game refuge deemed necessary to accomplish the purposes for which the refuge is established.

1. The state shall not confiscate property seized under section 481A.12 or 481A.13 unless the person from whom the property was seized is convicted of the violation for which the property was seized. However, the state shall not return any fish or wildlife that is illegal to possess, including fish or wildlife that was taken, possessed, or transported unlawfully.

2. If the person from whom the property was seized is not convicted of the violation for which the property was seized, the department, law enforcement agency, or other governmental agency in possession of the seized property shall return the seized property to the person within thirty days of any of the following:

a. The date the person is found not guilty of the violation.

b. The date the action involving the violation is dismissed.

c. The date the statute of limitations expires for the alleged violation for which the property was seized.

3. For purposes of this section, *"convicted"* includes a finding of guilt, payment of a scheduled fine, a plea of guilty, deferred judgment, deferred or suspended sentence, adjudication of delinquency, or circumstance where a person is not charged with a criminal offense related to the violation based in whole or in part on the person's agreement to provide information regarding the criminal activity of another person.

It shall be unlawful for any person, firm, or corporation to place, erect, or cause to be placed or erected, any dam or other device or contrivance in such manner as to hinder or obstruct the free passage of fish up, down, or through such waters, except as otherwise provided in this chapter. Dams for manufacturing or other lawful purposes may be erected across the waters of the state. No permanent dam or obstruction across such waters shall be erected or maintained which is not provided with a fishway, except by written approval of the director, nor shall any pumping station or plant except sand pumping and dredging machines, in or connected with such waters be constructed or operated except by written approval of the director, which is not provided with screens to prevent fish from entering the pumping station or plant. Such fishways and screens shall be constructed and used according to the plans and specifications prepared and furnished by the director. Any dam, obstruction, or pumping plant which is not so constructed is a public nuisance and may be abated accordingly.

1. *a.* Any person licensed by the authority of Illinois, Minnesota, Missouri, Wisconsin, Nebraska, or South Dakota to take fish, game, mussels, or fur-bearing animals from or in the waters forming the boundary between such state and Iowa, may take such fish, game, mussels, or fur-bearing animals from that portion of said waters lying within the territorial jurisdiction of this state, without having procured a license from the director of this state, in the same manner that persons holding Iowa licenses may do, if the laws of Illinois, Minnesota, Missouri, Wisconsin, Nebraska, or South Dakota, respectively, extend a similar privilege to persons so licensed under the laws of Iowa.

b. Any person licensed by the authority of Illinois, Minnesota, Missouri, Wisconsin, Nebraska, or South Dakota to take fish, game, mussels, or fur-bearing animals from or in lands under the jurisdiction of any of those states may take such fish, game, mussels, or fur-bearing animals from or in lands under the jurisdiction of the commission when such land is adjacent to that respective state but is separated from other land in Iowa by a body of water, without having procured a license from the director of this state, in the same manner that persons holding Iowa licenses may do, if the laws of Illinois, Minnesota, Missouri, Wisconsin, Nebraska, or South Dakota, respectively, extend a similar privilege to persons so licensed under the laws of Iowa.

2. Any privileges conferred by this section shall be subject to a reciprocal agreement as negotiated by the commission and the authority of a state provided in subsection 1 which confers upon a licensee of this state reciprocal rights, privileges, and immunities as provided in section 483A.31. Such agreements may include determination of which state's seasons and limits shall apply for specific geographical areas.

1. *a.* All officially sanctioned field meets or trials and retriever meets or trials where the skill of dogs is demonstrated in pointing, retrieving, trailing, or chasing any game bird, game animal, or fur-bearing animal shall require a field trial permit. Except as otherwise provided by law, it shall be unlawful to kill any wildlife in such events. Notwithstanding the provisions of section 481A.21 it shall be lawful to hold field meets or trials and retriever meets or trials where dogs are permitted to work in exhibition or contest whereby the skill of dogs is demonstrated by retrieving dead or wounded game birds which have been propagated by licensed game breeders within the state or secured from lawful sources outside the state and lawfully brought into the state. All of the birds must be released on the day of trials on premises where the trials are held.

b. Any birds released may be shot by official guns after having secured a permit as provided in this section.

c. The permits may be issued by the director of the department upon proper application and the payment of a fee of two dollars for each trial held. A representative of the department shall attend all such trials and enforce the laws and regulations governing same.

2. The person or persons designated by the committee in charge to do the shooting for the trials shall be known as the official guns, and no other person shall be permitted to kill or attempt to kill any of the birds released for such trials.

3. Before any birds are released under this section, they must each have attached a tag provided by the department and attached by a representative of the department at a cost of not more than ten cents for each tag. All tags are to remain attached to birds until prepared for consumption.

4. It is unlawful for any person to hold, conduct, or to participate in a field or retriever trial before the permit required by this section has been secured or for any person to possess or remove from the trial grounds any birds which have not been tagged as required in this section.

481A.24 Use of mobile radio transmitter prohibited — exceptions.

1. For the purposes of this section:

a. "One-way mobile radio transmitter" means a radio capable of transmitting a signal only but not capable of transmitting a voice signal. The signal may be tracked or located by radio telemetry or located by an audible sound.

b. "Two-way mobile radio transmitter" means a radio capable of transmitting and receiving voice messages including, but not limited to, a citizen band radio or a cellular telephone.

2. Except as otherwise provided in this section, a person who is hunting shall not use a one-way or two-way mobile radio transmitter to communicate the location or direction of game or fur-bearing animals or to coordinate the movement of other hunters. This subsection does not apply to the hunting of coyotes except during the shotgun deer season as set by the commission under section 481A.38.

3. A licensed falconer may use a one-way mobile radio transmitter to recover a free-flying bird of prey properly banded and covered on the falconry permit.

4. A person hunting with the aid of a dog may use at any time a one-way mobile transmitter designed to track or aid in the recovery of the dog.

SUBCHAPTER II

PROPAGATION AND PROTECTION OF FISH, GAME, WILD BIRDS, AND ANIMALS

481A.38 Prohibited acts — restrictions on the taking of wildlife — special licenses.

It is unlawful for a person to take, pursue, kill, trap or ensnare, buy, sell, possess, transport, or attempt to so take, pursue, kill, trap or ensnare, buy, sell, possess, or transport any game, protected nongame animals, fur-bearing animals or fur or skin of such animals, mussels, frogs, spawn or fish or any part thereof, except upon the terms, conditions, limitations, and restrictions set forth herein, and administrative rules necessary to carry out the purposes set out in section 481A.39, or as provided by the Code.

1. *a.* The commission may upon its own motion and after an investigation, alter, limit, or restrict the methods or means employed and the instruments or equipment used in taking wild mammals, birds subject to section 481A.48, fish, reptiles, and amphibians, if the investigation reveals that the action would be desirable or beneficial in promoting the interests of conservation, or the commission may, after an investigation when it is found there is imminent danger of loss of fish through natural causes, authorize the taking of fish by means found advisable to salvage imperiled fish populations.

b. The commission shall adopt a rule permitting a crossbow to be used only by individuals with disabilities who are physically incapable of using a bow and arrow under the conditions in which a bow and arrow is permitted. The commission shall prepare an application to be used by an individual requesting the status. The application shall require the individual's physician or physical therapist licensed under chapter 148A to sign a statement declaring that the individual is not physically able to use a bow and arrow.

2. If the commission finds that the number of hunters licensed or the type of license issued to take deer or wild turkey should be limited or further regulated, the commission shall adopt procedures, by rule, for issuing the licenses. This subsection does not apply to the hunting of wild turkey on a hunting preserve licensed under chapter 484B.

3. The department and the commission shall exercise regulatory authority regarding seasons, bag limits, possession limits, locality, the method of taking, or the taking of fish and wildlife within the boundaries of the Sac and Fox tribe settlement in Tama county only to the extent provided in a written agreement between the tribal council of the Sac and Fox tribe of the Mississippi in Iowa and the department. The written agreement shall not be construed to supersede or impair the regulatory authority exercised by the commission pursuant to the federal Migratory Bird Treaty Act, the federal Migratory Bird Stamp Hunting Act, the federal Endangered Species Act, or other federal law, and shall not be construed to supersede or impair the regulatory authority exercised by the Sac and Fox tribe of the Mississippi in Iowa pursuant to any federal act, statute, or law. The department and the commission shall not unreasonably fail to enter into an agreement and shall pursue such an agreement in an expedient manner. This subsection shall become effective upon signing of the written agreement by the director of the department and the chairperson of the Sac and Fox tribe of the Mississippi in Iowa.

481A.40 Use of drugs on wildlife — penalty.

1. For the purposes of this section, *"drug"* means any chemical substance, other than food, that affects the structure or biological function of any wildlife under the jurisdiction of the department of natural resources.

2. Except with written authorization from the director or the director's designee or as otherwise provided by law, a person shall not administer any drug to any wildlife under the jurisdiction of the department of natural resources, including but not limited to drugs used for fertility control, disease prevention or treatment, immobilization, or growth stimulation.

3. This section does not prohibit the treatment of sick or injured wildlife by a licensed veterinarian or holder of a wildlife rehabilitation permit.

4. This section shall not be construed to limit employees of agencies of the state, the United States, or local animal control officers, licensed animal shelters, or licensed pounds in the performance of their official duties related to public health, wildlife management, or wildlife removal. However, a drug shall not be administered by any person for fertility control or growth stimulation except as provided in subsection 2.

5. An officer of the department may take possession of or dispose of any wildlife under the jurisdiction of the department of natural resources that the officer reasonably believes has been administered drugs in violation of this section.

6. A person who violates this section is guilty of a serious misdemeanor.

481A.41 Tree stands for hunting deer on public land — identification — prohibition.

1. A person shall not place a tree stand for hunting deer on public land unless the stand is affixed with and exhibits a metal plate that plainly shows the department-issued identification number of the owner of the stand. A person who fails to properly identify a tree stand placed on public land belonging to the person is subject to a scheduled fine under section 805.8B, subsection 3, paragraph *"b"*.

2. An owner of a tree stand placed on public land shall not be held liable for damage to personal property or an injury resulting from another person's use of the tree stand.

3. The natural resource commission shall adopt rules pursuant to chapter 17A to implement this section.

TERRITORIES, OPEN SEASONS, AND BAG AND POSSESSION LIMITS FOR GAME

481A.48 Restrictions on game birds and animals.

1. A person, except as otherwise provided by law, shall not willfully disturb, pursue, shoot, kill, take or attempt to take, or have in possession any of the following game birds or animals except within the open season established by the commission: gray or fox squirrel, bobwhite quail, cottontail or jackrabbit, duck, snipe, pheasant, goose, woodcock, partridge, mourning dove, coot, rail, ruffed grouse, wild turkey, pigeon, or deer. The seasons, bag limits, possession limits, and locality shall be established by the department or commission under the authority of sections 456A.24, 481A.38, and 481A.39.

2. The commission may adopt rules for the taking and possession of migratory birds which are subject to the federal Migratory Bird Treaty Act and Migratory Bird Stamp Hunting Act during the time and in the manner permitted under those federal Acts. The commission shall not adopt a rule for the taking or possession of a migratory bird for which an open season is not authorized by another paragraph of this section.

3. The commission may by rule permit the taking and possession of designated raptors and crows during the time and in the manner permitted under the federal Migratory Bird Treaty Act.

4. The commission shall establish methods by which pigeons may be taken which may include but are not limited to the use of trapping, chemical repellants, or toxic perches.

UNOFFICIAL VERSION: NOT EARLY RELEASE

5. The commission shall establish one or more pistol or revolver seasons for hunting deer as separate firearm seasons or to coincide with one or more other firearm deer hunting seasons. Any pistol or revolver with a barrel length of at least four inches and firing straight wall or other centerfire ammunition propelling an expanding-type bullet with a maximum diameter of no less than three hundred fifty thousandths of one inch and no larger than five hundred thousandths of one inch and with a published or calculated muzzle energy of five hundred foot pounds or higher is legal for hunting deer during the pistol or revolver seasons. The commission shall adopt rules to allow black powder pistols or revolvers for hunting deer. The rules may limit types of projectiles. A person who is under the age of eighteen shall not hunt deer with a pistol or revolver unless that person is accompanied and under direct supervision throughout the hunt by a responsible person with a valid hunting license pursuant to section 724.22, subsection 4. A person possessing a prohibited pistol or revolver while hunting deer commits a scheduled violation under section 805.8B, subsection 3, paragraph *"h"*, subparagraph (5).

6. The commission shall adopt rules pursuant to chapter 17A allowing the use of cartridge rifles to hunt deer as follows:

a. A cartridge rifle may be used to hunt deer during youth and disabled deer hunting season and first and second shotgun deer hunting seasons by a person who has a valid deer hunting license and is otherwise qualified to hunt.

b. A cartridge rifle that is allowed pursuant to this subsection shall be of the same caliber and shall use the same straight wall or other ammunition as is allowed for use in a pistol or revolver for hunting deer as provided in subsection 5. In addition, the commission shall provide, by rule, for the use of straight wall or other ammunition under this subsection that meets ballistics specifications similar to the requirements for straight wall or other ammunition allowed for use in a pistol or revolver for hunting deer as provided in subsection 5.

c. A person possessing a prohibited rifle while hunting deer commits a scheduled violation under section 805.8B, subsection 3, paragraph *"h"*, subparagraph (6). In addition, the hunting privileges of a person convicted of possessing a prohibited rifle while hunting deer shall be suspended for two years.

481A.55 Selling game.

1. Except as otherwise provided, a person shall not buy or sell, dead or alive, a bird or animal or any part of one which is protected by this chapter, but this section does not apply to fur-bearing animals, bones of wild turkeys that were legally taken, and the skins, plumage, and antlers of legally taken game. This section does not prohibit the purchase of jackrabbits from sources outside this state. A person shall not purchase, sell, barter, or offer to purchase, sell, or barter for millinery or ornamental use the feathers of migratory game birds; and a person shall not purchase, sell, barter, or offer to purchase, sell, or barter mounted specimens of migratory game birds.

2. Section 481A.50 and this section do not apply to a game species, fur-bearing animal species, or variety of fish protected under this chapter which is sold by a nonprofit corporation as a part of a meal. The number of game of a game species or fur-bearing animal species, or a variety of fish protected by this chapter which are donated by a person to a nonprofit corporation plus any additional game of the same species or same variety of fish in the person's possession must not exceed the person's legal possession limit.

481A.56 Training dogs.

1. *a.* A person having a valid hunting license may train a bird dog on any game birds and a person having a valid fur harvester license may train a coonhound, foxhound, or trailing dog on any fur-bearing animals at any time of the year including during the closed season on such birds or animals. However, the animals when pursued to a tree or den shall not be further chased or removed in any manner from the tree or den. A person having a hunting license may train a dog on coyote or groundhog.

b. Only a pistol, revolver, or other gun shooting blank cartridges shall be used while training dogs during closed season except as provided in subsection 2 of this section.

2. Any pen-raised game bird may be used and may be shot in the training of bird dogs. Before any bird is released or used in the training of dogs, the bird shall have attached a band procured from the commission. The commission may charge a fee for such bands but the fee shall not exceed ten cents for each band.

3. A call back pen or live trap may be used for the purpose of retrieving banded birds when released in the wild for training purposes. Any bird not so banded when taken in a call back pen or trap shall be immediately returned unbanded to the wild. All call back pens or live traps when in use shall have attached a metal tag plainly labeled with the owner's name and address. Conservation officers shall have authority to confiscate such traps when found in use and not properly labeled.

4. The commission shall have the power to adopt rules prohibiting the training of any hunting dog on any game bird, game animal, or fur-bearing animal in the wild at any time when it has been determined that such training might have an adverse effect on the populations of these species.

481A.56A Retrieval of wounded deer by leashed dogs.

A person having a valid hunting license and a valid deer hunting license who has wounded a deer while hunting may use a dog to track and retrieve the wounded deer. An unarmed dog handler assisting in the recovery of a wounded deer is exempt from the licensing requirements as long as the handler is associated with the licensed hunter who wounded the deer. Any person using a dog for tracking wounded deer must maintain physical control of the dog at all times during the search by means of a maximum fifty-foot lead attached to the dog's collar or harness. The licensed hunter who wounded the deer may dispatch the deer using a legal method of take authorized by the person's deer hunting license consistent with all rules and regulations for that season. A person shall not chase, hunt, wound, or kill any animal other than the deer that the hunter is tracking, except in self-defense. Using a dog to track a wounded deer on private property is permissible with consent of the property owner. A person using a dog to track a wounded deer outside of legal deer hunting hours shall not be in possession of a firearm or archery device. The commission may adopt rules pursuant to chapter 17A to implement this section.

SUBCHAPTER IV

GAME BREEDERS

481A.60 Raising game — rulemaking authority.

A person shall not raise or sell game or fur-bearing animals of the kinds protected by this chapter, except rock doves and pigeons, without first procuring a game breeder's license as provided by law. The commission may adopt rules which ensure that all game birds, game animals, and fur-bearing animals handled and confined by licensed game breeders are provided with humane care and treatment. A violation of a rule adopted by the commission is a cause for license revocation. This section does not apply to governmental zoos and exhibits.

481A.61 Licensed game breeders — marketing game — penalty.

1. Except as otherwise provided by law, a licensed game breeder whose original stock is obtained from a lawful source may possess any game bird, game animal, or fur-bearing animal, or any of their parts. Possession and use of the game birds, game animals, or fur-bearing animals obtained from a licensed game breeder are lawful.

2. Fur-bearing animals shall not be acquired for breeding or propagating purposes from any source unless they have been pen-raised for at least two successive generations.

3. A game breeder's license is not a license to possess, breed, propagate, sell, or dispose of

UNOFFICIAL VERSION EARLY RELEASE

any species which is defined as endangered or threatened under state law unless the species is listed on the license. Its possession, breeding, propagation, sale, and disposal are subject to all applicable state and federal statutes.

4. A licensed game breeder shall not acquire protected live game animals, game birds, their eggs, or fur-bearing animals taken from the wild within this state.

5. Game birds or game animals may be sold for food only under the following conditions:

a. The licensed game breeder shall file with the commission a facsimile of a stamp of similar type to that used by the United States department of agriculture in grading meat.

b. Licensed game breeders may sell dressed game birds or game animals to markets for resale providing each game bird or game animal has affixed upon it in a conspicuous and legible manner the imprint of the game breeder's stamp.

c. The stamp shall bear the name and number of the game breeder in letters of at least twelve point type size.

6. Markets selling stamped game shall:

a. Maintain the stamp on each game bird or game animal until the bird or animal is disposed of or sold.

b. Keep a record showing the total number of game birds or game animals sold together with the name and address of the game breeder from whom purchased and the number of game birds and animals in each purchase.

7. Markets selling stamped game, together with their records, are subject to inspection by an authorized representative of the commission at any reasonable time.

8. Violation of a provision of this section may be cause for license revocation.

[C39, §**1794.023;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §109.61]

481A.62 Records — reports — inspection.

1. A holder of a game breeder's license shall keep the records and make the reports required by this section on forms provided by the department. The records shall be open for inspection at any reasonable time by the department or its authorized agents.

2. At the time of every sale or conveyance of an animal, animal parts, or products, the licensee shall complete a game breeder's sales receipt on forms provided by the department. The forms shall require the following information:

a. The name, address, county, and license number assigned to the breeder.

b. The name and address of the purchaser.

c. The number, species, sex, and age of the animals or birds conveyed.

3. *a.* Licensees shall maintain business records for all species in an annual report record book. The records shall include the following information:

(1) For each animal acquired other than by birth on the licensee's game farm, the sex and species, the date of acquisition, the number acquired, and the name and address of the source from which acquired.

(2) For each animal born on the licensee's game farm, the sex, species, date of birth, and number of any band, tag, or tattoo subsequently attached to the animal.

(3) For each animal sold or disposed of other than by death the same information required by the game breeder's sales receipt.

(4) For each animal which dies, disappears, or is destroyed on the licensee's game farm, the sex, species, date of death, and the number of any band, tag, or tattoo attached to the animal.

b. The licensee's copies of the required sales receipts shall be kept with the record book and are considered a part of it.

c. Records required by this section shall be entered in the annual report record book within forty-eight hours of the event.

4. Each licensee shall file an annual report with the commission on or before January 31. The report shall detail the game breeder's operations during the preceding license year.

UNOFFICIAL VERSION
2021 EARLY RELEASE

The original report shall be forwarded to the department and a copy shall be retained in the breeder's file for a period of three years from the date of expiration of the breeder's last license issued. Failure to keep or submit the required records and report are grounds for a refusal to renew a license for the succeeding year.

5. An on-site inspection of facilities shall be conducted by an officer of the commission prior to the initial issuance of a game breeder's license. The facilities may be reinspected by an officer of the commission at any reasonable time.

6. Any officer of the commission may enter any place where any game bird, game animal, or fur-bearing animal is at the time located, or where it has been kept, or where the carcass of such animal may be, for the purpose of examining it in any way that may be necessary to determine whether it was or is infected with any contagious or infectious disease.

7. For the purpose of this section, infectious and contagious disease includes rabies, hoof-and-mouth disease, leptospirosis, blackhead, or any other communicable disease so designated by the commission.

8. The commission may regulate or prohibit the importation into the state and exportation from the state of any species of game bird, game animal, or fur-bearing animal, domesticated or not, which in its opinion, for any reason, is determined to be detrimental to the health of animals within or without the state.

9. The commission may quarantine or destroy any game bird, game animal, or fur-bearing animal which is found to be infected with any contagious or infectious disease.

10. A licensed game breeder or other person having control of any game bird, game animal, or fur-bearing animal shall not knowingly offer for sale, sell, or barter such birds or animals which have an infectious or contagious disease, or allow those birds or animals to run at large or come in contact with any other game birds, game animals, or fur-bearing animals.

SUBCHAPTER V
SCIENTIFIC COLLECTING

481A.65 Licenses.

The director, after investigation, may issue to any person a scientific collector's license, a wildlife salvage permit, educational project permit, or a wildlife rehabilitation permit. A scientific collector's license will authorize the licensee to collect for scientific purposes only, any birds, nests, eggs, or wildlife. A wildlife salvage permit will authorize the permittee to salvage for educational purposes, any birds, nests, eggs, or animals according to the rules of the department. An educational project permit authorizes the permittee to collect, keep, or possess for educational purposes birds, fish, or wildlife which are not endangered, threatened, or otherwise specially managed according to the rules of the department. A wildlife rehabilitation permit will authorize the permittee to possess for rehabilitation purposes only, any orphaned or injured wildlife according to the rules of the department. A person to whom a license or permit is issued shall not dispose of any birds, nests, eggs, or wildlife or their parts except upon written permission of the director. The application for such licenses and permits shall be made upon blanks furnished by the department. The commission shall establish, by rule, the tenure and applicable fee for each permit authorized in this section. Each holder of a license or permit shall, by January 31 of each year, file with the department a report showing all specimens collected or possessed under authority of the license or permit. Upon a showing of cause the department may enter and inspect the

ANGLING LAWS

481A.67 Seasons and limits — turtle harvesting restrictions.

1. It is unlawful for a person, except as otherwise expressly provided, to take, capture, or kill fish, frogs, or turtles except during the open season established by the commission. It is unlawful during open season to take in any one day an amount in excess of the daily catch limit designated for each variety or each locality, or have in possession any variety of fish, frog, or turtle in excess of the possession limit, or have in possession any frog, fish, or turtle at any time under the minimum length or weight. The open season, possession limit, daily catch limit, and the minimum length or weight for each variety of fish, frog, or turtle shall be established by rule of the department or commission under the authority of sections 456A.24, 481A.38, 481A.39, and 482.1.

2. Notwithstanding any provision of law to the contrary, the natural resource commission shall adopt rules pursuant to chapter 17A establishing seasons and daily catch limits for the noncommercial harvest of turtles in any waters of the state pursuant to section 483A.28. Seasons established pursuant to this subsection shall not apply to the noncommercial harvest of snapping turtles.

3. Notwithstanding any provision of law to the contrary, the natural resource commission shall adopt rules pursuant to chapter 17A establishing seasons and daily catch limits for the commercial harvest of turtles in any waters of the state.

TRAPPING OR HUNTING OF FUR-BEARING ANIMALS

481A.87 Open seasons — exceptions.

1. Except as otherwise provided, a person shall not take, capture, kill, or have in possession a fur-bearing animal or any of its parts at any time except during the open season as set by the commission.

2. A person may shoot, trap, or ensnare a fur-bearing animal when the killing, trapping, or ensnaring is for the protection of a person or public or private property with the prior permission of a duly appointed representative of the commission. If prior permission is impractical or impossible to obtain and the fur-bearing animal represents a threat to a person, domestic animal, or private property, the fur-bearing animal may be taken without prior permission.

3. Prior permission is not required for an owner or tenant of agricultural property or an associated residence located outside the corporate limits of a city to take, capture using a cage trap or dog-proof trap, shoot, or temporarily possess, for the purpose of destroying or disposing of, a raccoon, opossum, or skunk on the property if the owner or tenant in good faith deems the animal to be a nuisance. This subsection does not apply to animals listed

under water, shall be checked at least once every twenty-four hours. Officers appointed by the department may confiscate such traps and snares found in use that are not properly labeled or checked.

2. Except as otherwise provided, a person shall not use chemicals, explosives, smoking devices, mechanical ferrets, wire, tool, instrument, or water to remove fur-bearing animals from their dens. Humane traps, or traps designed to kill instantly, with a jaw spread, as originally manufactured, exceeding eight inches are unlawful to use except when placed entirely under water.

3. Conibear type traps and snares shall not be set on the right-of-way of a public road within two hundred yards of the entry to a private drive serving a residence without the permission of the occupant.

4. A snare when set shall not have a loop larger than eight inches in horizontal measurement except for a snare set with at least one-half of the loop under water. A snare set on private land other than roadsides within thirty yards of a pond, lake, creek, drainage ditch, stream, or river shall not have a loop larger than eleven inches in horizontal measurement.

5. All snares shall have a functional deer lock which will not allow the snare loop to close smaller than two and one-half inches in diameter.

481A.93 Hunting by artificial light.

1. A person who is in possession or control, either singly or as one of a group of persons, of any firearm, bow, or other implement or device whereby a bird or animal could be killed or taken shall not throw or cast the rays of a spotlight, headlight, or other artificial light on a highway, or in a field, woodland, or forest, for the purpose of spotting, locating, or taking or attempting to take or hunt a bird or animal.

2. This section does not apply to any of the following:

a. Deer being taken by or under the control of a local governmental body within its corporate limits pursuant to an approved special deer population control plan.

b. A person who is totally blind using a laser sight on a bow or gun while hunting, if all of the following apply:

(1) The person's total blindness is supported by medical evidence produced by an eye care professional who is an ophthalmologist, optometrist, or medical doctor. The eye care professional must certify that the person has no vision or light perception in either eye. The certification must be carried on the person of the totally blind person and made available for inspection by the department.

(2) The totally blind person is accompanied and aided by a person who is at least eighteen years of age and whose vision is not seriously impaired. The accompanying person must purchase a hunting license that includes the wildlife habitat fee as provided in rules adopted pursuant to section 483A.1 if applicable. If the accompanying person is not required to have a hunting license the person is not required to pay the wildlife habitat fee. During the hunt, the accompanying adult must be within arm's reach of the totally blind person, and must be able to identify the target and the location of the laser sight beam on the target. A person other than the totally blind person shall not shoot the laser sight-equipped gun or bow.

c. A person using an infrared light source to hunt coyotes as long as the infrared light source is mounted to the method of take or to a scope mounted on the method of take. However, no person shall use an infrared light source to hunt coyotes during any established muzzleloader, bow, or shotgun deer hunting season.

481A.95 License — reciprocity.

1. A license shall be required of each fur dealer and each employee, agent, or representative of a fur dealer except when the employee, agent, or representative is operating solely on the premises of a licensed fur dealer. A fur dealer shall conduct business only at the location specified on the dealer's license, at an established fur auction, at the nonadvertised residence of a licensed fur harvester, or at the place of business specified on the license of any fur dealer. A nonresident licensed fur dealer may purchase location permits to operate at locations other than at the location specified on the fur dealer's license. A resident licensed fur dealer may obtain location permits without fee. Each location permit shall be valid only for the one location specified on the location permit and shall entitle the fur dealer and employee, agent, or representative of the licensed fur dealer to operate at that location. The commission shall, upon application and the payment of the required license fee, if any, furnish the proper license and location permits to the dealer.

2. Fees for a license issued under this section shall be no more than fifty dollars annually for a resident or a nonresident fur dealer.

UNOFFICIAL VERSION 2027 EARLY RELEASE

481A.123 Prohibited hunting near buildings, feedlots.

1. A person shall not discharge a firearm or shoot or attempt to shoot a game or fur-bearing animal within two hundred yards of a building inhabited by people or domestic livestock or within two hundred yards of a feedlot unless the owner or tenant has given consent. However, within the corporate limits of a city, a person may take deer with a firearm within fifty yards of a building inhabited by people or domestic livestock, or a feedlot pursuant to an approved special deer population control plan, if the person obtains permission of the owner or tenant of the building or feedlot.

2. As used in this section, "*feedlot*" means a lot, yard, corral, or other area in which livestock are present and confined, for the purposes of feeding and growth before slaughter. The term does not include areas which are used for the raising of crops or other vegetation and upon which livestock are allowed to graze or feed.

3. *a.* This section does not apply to the discharge of a firearm for the purpose of target shooting on premises posted as a target shooting range that is open to the public, if the premises have been used as a target shooting range prior to the erection of a building inhabited by people or domestic livestock, or prior to the construction of a feedlot, located within two hundred yards of the target shooting range. This subsection applies only to the erection of a building inhabited by people or domestic livestock or to the construction of a feedlot located within two hundred yards of a target shooting range that is open to the public and that is identified as a target shooting range by the city, county, state, or federal government, which erection or construction occurs on or after May 14, 2004.

b. As used in this subsection, "*target shooting*" means the discharge of a firearm at an inanimate object, for amusement or as a test of skill in marksmanship.

4. *a.* This section does not apply to the discharge of a firearm on premises identified as a public hunting area, if the premises have been identified as a public hunting area prior to the erection of a building inhabited by people or domestic livestock, or prior to the construction of a feedlot, located within two hundred yards of the public hunting area. This subsection applies only to the erection of a building inhabited by people or domestic livestock or to the construction of a feedlot located within two hundred yards of a public hunting area, which erection or construction occurs on or after May 14, 2004.

b. As used in this subsection, "*public hunting area*" means public lands or waters available for hunting by the public, and identified as a public hunting area by the city, county, state, or federal government.

5. *a.* This section does not apply to the discharge of a firearm on a farm unit by the owner or tenant of the farm unit or by a family member of the owner or tenant of the farm unit.

b. As used in this subsection, "*family member*", "*farm unit*", "*owner*", and "*tenant*" mean the same as defined in section 483A.24, subsection 2.

6. This section does not apply to the discharge of a firearm for the purpose of developing and retaining the shooting proficiency of certified law enforcement officers on premises owned by the state, a county, or a municipality, and operated by a law enforcement agency, which are not open to the general public and which were in operation prior to March 28, 2013.

7. Subject to subsection 1, an owner or tenant of private premises located in the unincorporated area of a county, or a person to whom the owner or tenant has given consent, may discharge a firearm for the purpose of target shooting on those private premises. The use of such private premises for target shooting shall not be found to be in violation of a noise ordinance or declared a public or private nuisance or be otherwise prohibited under state or local law. As used in this subsection, "*target shooting*" means the discharge of a firearm at an inanimate object, for amusement or as a test of skill in marksmanship.

1. As used in this section, *"interfere with hunting, fishing, or fur-harvesting activities"* means one or more of the following:

a. To intentionally place oneself in a location where a human presence may affect the behavior of a fur-bearing animal, game, bird, or fish or the feasibility of killing or taking a fur-bearing animal, game, bird, or fish with the intent of obstructing or harassing another person who is lawfully hunting, fishing, or fur harvesting.

b. To intentionally create a visual, aural, olfactory, or physical stimulus for the purpose of affecting the behavior of a fur-bearing animal, game, bird, or fish with the intent of obstructing or harassing another person who is lawfully hunting, fishing, or fur harvesting.

c. To intentionally affect the condition or alter the placement of personal property used for the purpose of killing or taking a fur-bearing animal, game, bird, or fish with the intent of obstructing or harassing another person who is lawfully hunting, fishing, or fur harvesting.

2. A person shall not interfere with the lawful hunting, fishing, or fur-harvesting activities of another person in an area where hunting, fishing, or fur harvesting is authorized by a custodian of public property or an owner or lessee of private property.

3. A person who commits:

a. A first offense of interfering with hunting, fishing, or fur-harvesting activities is guilty of a simple misdemeanor.

b. A second or subsequent offense is punishable as a serious misdemeanor.

4. If a person who commits interfering with hunting, fishing, or fur-harvesting activities possesses a license, certificate, or permit issued by the department, the license, certificate, or permit is subject to suspension or revocation pursuant to section 481A.134.

5. This section shall not prohibit a landowner, tenant, or an employee of a landowner or tenant from performing normal agricultural operations or a law enforcement officer from performing official duties.

481A.125A Remote control or internet hunting — criminal and civil penalties.

1. As used in this section, *"remote control or internet hunting"* means use of a computer or other electronic device, equipment, or software to remotely control the aiming or discharge of a firearm or other weapon, allowing a person who is not physically present to take a wild animal, a game bird or ungulate kept on a hunting preserve under chapter 484B, or a preserve whitetail kept on a hunting preserve under chapter 484C.

2. A person shall not offer for sale, take, or assist in the taking of a wild animal, a game bird or ungulate kept on a hunting preserve under chapter 484B, or a preserve whitetail kept on a hunting preserve under chapter 484C, by remote control or internet hunting.

3. A person who violates this section is guilty of a serious misdemeanor. A second or subsequent violation of this section is punishable as a class "D" felony.

4. In addition, any person who violates this section is subject to a civil penalty, which may be levied by the department, of not more than ten thousand dollars for each violation of this

TAXIDERMY

481A.126 Taxidermy.

1. *"Taxidermist"* as used in this section means a person engaged in the business of preserving or mounting game, fish, or fur-bearing animals as defined in this chapter.

2. A license is required for the practice of taxidermy. The commission, upon application and payment of the required license fee, shall furnish proper certificates to the applicant. The director may revoke the license for good cause.

3. A licensed taxidermist may possess at any time game, fish, or fur-bearing animals which have been lawfully taken.

4. A taxidermist shall keep accurate records of its transactions showing the numbers and kinds of specimens received for preserving, the date of acquisition, and the name and address of the owner of the specimens.

5. A person shall not put or leave any game, fish, or fur-bearing animal in the custody of another person for the purpose of having taxidermy services performed unless each specimen has a tag attached which is signed by the possessor and states the address of the possessor, the total number and species of the specimens and the date the specimens were killed.

6. All transactions, tags, and specimens left in the custody of the taxidermist by another person shall be open to inspection by a conservation officer at any reasonable hour.

CIVIL DAMAGES — SUSPENSIONS

481A.130 Damages in addition to penalty — animals — ginseng.

1. In addition to the penalties for violations of this chapter and chapters 350, 461A, 481B, and 482, a person convicted of unlawfully selling, taking, catching, killing, injuring, destroying, or having in possession any animal, shall reimburse the state for the value of such as follows:

a. For each elk, antelope, buffalo, or moose, two thousand five hundred dollars.

b. For each wild turkey, two hundred dollars.

c. For each bird or animal or the raw pelt or plumage of such bird or animal for which damages are not otherwise prescribed, fifty dollars.

d. For each reptile, mussel, or amphibian, fifteen dollars.

e. For each beaver, bobcat, mink, otter, red fox, gray fox, or raccoon, two hundred dollars.

f. For each animal classified by the commission as an endangered or threatened species, one thousand dollars.

g. For each antlered deer, reimbursement shall be based on the score of the antlered deer as measured by the Boone and Crockett club's scoring system for whitetail deer as follows:

(1) 150 gross inches or less: A minimum of two thousand dollars and not more than five thousand dollars, and eighty hours of community service or, in lieu of the community service,

UNOFFICIAL VERSION: 2017 EARLY RELEASE

a minimum of four thousand dollars and not more than ten thousand dollars, in an amount that is deemed reasonable by the court.

(2) More than 150 gross inches: A minimum of five thousand dollars and not more than ten thousand dollars, and eighty hours of community service or, in lieu of the community service, a minimum of ten thousand dollars and not more than twenty thousand dollars, in an amount that is deemed reasonable by the court.

h. For each antlerless deer, seven hundred fifty dollars.

i. For each swan or crane, one thousand five hundred dollars.

j. For each fish, reimbursement shall be as follows:

(1) For each fish of a species other than shovelnose sturgeon, with an established daily limit greater than twenty-five, fifteen dollars.

(2) For each fish of a species other than paddlefish and muskellunge, with an established daily limit of twenty-five or less, fifty dollars.

(3) For each shovelnose sturgeon, paddlefish, and muskellunge, one thousand dollars.

2. In addition to any other penalty, a person convicted of unlawfully harvesting wild ginseng in violation of section 456A.24 shall reimburse the state at one hundred fifty percent of the ginseng's market value, as determined by the department.

3. This section does not apply to a landowner who cooperates with the department of natural resources and the department of agriculture and land stewardship to remove all whitetail from enclosed land as provided in section 170.5, even if all whitetail are not removed.

4. This section does not apply to a person who is liable to pay restitution to the department pursuant to section 481A.151 for injury to a wild animal caused by polluting a water of this state in violation of state law.

481A.131 Judgment — execution.

1. In each case of conviction of unlawfully taking, catching, killing, injuring, destroying, or having in possession any fish, game, or fur-bearing animal, the court shall enter a judgment in favor of the state of Iowa for liquidated damages in an amount as provided in section 481A.130. If two or more persons who have acted together are convicted of the unlawful taking, catching, killing, injuring, destroying, or having possession of any fish, game, or fur-bearing animal, the judgment shall be entered against them jointly.

2. Any liquidated damages assessed under this section and section 481A.130 shall be paid to the clerk of court. The clerk of court shall remit the damages paid to the department of natural resources. The department of natural resources shall credit such damages to the state fish and game protection fund.

3. The return of any uninjured fish, game, or fur-bearing animal which has been unlawfully taken, caught, or possessed, to the place where taken or caught or to any other place approved by the commission, shall constitute the discharge of any liquidated damages provided under section 481A.130.

4. Civil suits for the collection of judgments may be prosecuted by the attorney general or by county attorneys.

SUBCHAPTER XII

CANCELLATIONS, SUSPENSIONS, REVOCATIONS, AND PENALTIES

481A.134 Authority to cancel, suspend, or revoke license — point system.

The department shall establish rules pursuant to chapter 17A providing for the suspension or revocation of licenses issued by the department. The rules may include procedures for summary cancellation of a license based on documentation that the licensee failed to pay the applicable fee for the license. For purposes of determining when to suspend or revoke a license issued by the department under this section, the department shall adopt a point system pursuant to chapter 17A for the purpose of weighing the seriousness of violations of the provisions of this chapter or chapter 481B, 482, 483A, 484A, or 484B, or of committing trespass as defined in section 716.7 while hunting deer, other than farm deer as defined in section 170.1 or preserve whitetail as defined in section 484C.1. The weighted scale may be amended from time to time as experience dictates.

481A.135 Repeat offender — records, enforcement, and penalties.

1. The commission shall establish by rule, a recordkeeping system and other administrative procedures necessary to administer this section.

2. A person who pleads guilty or is convicted of a violation of any provision of this chapter or chapter 481B, 482, 483A, 484A, or 484B, or trespass as defined in section 716.7 while hunting deer, other than farm deer as defined in section 170.1 or preserve whitetail as defined in section 484C.1, while the person's license or licenses are suspended or revoked is guilty of a simple misdemeanor if the person has no other violations within the previous three years which occurred while the person's license or licenses have been suspended or revoked.

3. A person who pleads guilty or is convicted of a violation of any provision of this chapter

1. A person shall not buy or sell a wild animal or part of a wild animal if the wild animal is taken, transported, or possessed in violation of the laws of this state, or a rule adopted by the department.

2. A person violating subsection 1 is guilty of a serious misdemeanor.

92 Acts, ch 1186, §3

481A.137 Abandonment of dead or injured wildlife.

1. While taking or attempting to take game or fur-bearing animals, a person shall not abandon an injured game or fur-bearing animal without making a reasonable effort to retrieve the animal from the field. A person shall not leave a useable portion of game or a fur-bearing animal in the field.

2. A person violating subsection 1 is subject to a scheduled fine as provided in section 805.8B, subsection 3, paragraph *"e"*.

3. As used in this section, *"useable portion"* means the following:

a. For game, that part of an animal which is customarily processed for human consumption.

b. For a fur-bearing animal, the fur or hide of the animal.

4. This section does not apply to pigeons or crows.

SUBCHAPTER XIII

AQUACULTURE

481A.141 Aquaculture — license required.

1. A person shall not engage in the business of aquaculture until that person has applied for and has been issued an aquaculture unit license from the department. The application period extends from January 1, or the date of the application, through December 31. A license shall not be issued to operate an aquaculture unit on private or nonmeandered lakes and streams and ponds that may become stocked with fish from public waters or natural migration. A pond stocked by the department pursuant to section 481A.78 shall not be used for aquaculture purposes.

UNOFFICIAL VERSION 2021 EARLY RELEASE

2. The following persons must obtain an aquaculture unit license:

a. A person who, for commercial purposes, rears or maintains live animals or plants for food, bait, or for stocking in waters of the state.

b. An owner or operator of a pond where guests or customers are allowed to fish for a fee, or allowed to take fish without regard to angling licenses, seasons, gear restrictions, or bag limits.

3. The cultivation and sale of tropical fish species or ornamental aquatic plants or animals, not utilized for human consumption or bait purposes, but maintained in closed systems and utilized by the pet industry or hobbyists are exempt from license requirements.

92 Acts, ch 1216, §3

481A.142 Licensed aquaculture units — activities allowed.

A holder of an aquaculture unit license may:

1. Possess, propagate, buy, sell, deal in, and transport the aquatic organisms produced from breeding stock legally acquired, including minnows.

2. Sell fish for stocking purposes within or outside the state. Fish which are nonindigenous to Iowa shall not be received or sold in the state unless the aquaculture unit has obtained an importation permit from the department. The department shall establish, by rule, requirements governing importation, and shall include a list of approved aquaculture species. Failure to comply with this subsection will result in loss of license and a violator is subject to the scheduled fine provided in section 805.8B.

3. Hold, feed, and sell carp, buffalofish, and other fish legally taken by commercial fishers.

4. Harvest aquatic life on land under control of the aquaculture unit with commercial devices without obtaining any permits for the devices.

5. *a.* Sell bait, including minnows and frogs, propagated or raised within the licensed unit without having to obtain a bait dealer's license. However, aquaculture units wishing to take bait from areas other than their licensed units must also obtain a bait dealer's license.

b. A nonresident aquaculture unit licensee shall be limited to selling bait at wholesale unless the home state of the nonresident licensee allows residents of this state to sell bait at retail.

6. Take any gull, tern, or merganser within the bounds of the unit. An owner or operator of the licensed aquaculture unit, however, must first obtain a permit for this activity from the department or the United States fish and wildlife service. Each permittee shall file an annual report with the department which itemizes the birds taken during the period covered by the permit, and dispose of birds taken according to methods established by the department. The department shall not issue a subsequent permit to any person failing to file this report.

92 Acts, ch 1216, §4; 2001 Acts, ch 137, §5; 2004 Acts, ch 1029, §1; 2012 Acts, ch 1118, §8

For applicable scheduled fines, see §805.8B, subsection 3, paragraph d

481A.143 Licensed aquaculture units — requirements.

1. Each licensed aquaculture unit shall prepare an annual report of all fish bought, sold, and shipped. The records shall include species name as well as the weight, volume, or count of fish involved. Reports shall be filed on or before December 31 of each year for the preceding year. The department may refuse to renew a unit license if the annual report is not provided.

2. Each licensed aquaculture unit shall secure its breeding stock from licensed aquaculture units or licensed aquaculturists in the state or from lawful sources outside the state. An aquaculture unit shall not secure stock in any other manner.

3. A shipment of fish must be accompanied by a duplicate of the sales invoice showing the name and address of the producer, date of shipment, the species being transported, the weight, volume, or count of each species being shipped and the name and address of the consignee. A duplicate of the sales invoice must be retained by the aquaculture unit or aquaculturist for one year following the sale.

4. A licensed aquaculture unit shall comply with all state laws pertaining to possession, taking, or selling of bait which it handles. The director may revoke the unit license of any person violating this subsection or a rule adopted by the department.

UNOFFICIAL VERSION. 2017 EARLY RELEASE

5. Minnow and bait boxes and tanks within licensed aquaculture units shall be open for inspection by the department at all times.

6. Aquaculture units shall not import live fish, viable eggs, or semen of any species of the salmonid family (trout, salmon, or char) and ictalurid family (catfishes and bullheads), including hybrids, unless the owner or operator possesses a fish importation permit. For the species listed in this subsection only, importation permits shall not be issued unless the fish, eggs, or semen have been inspected by the department and found to be free of disease detrimental to the state's fishery resources. The owner or operator of an aquaculture unit must provide a statement certifying the fish listed in this subsection or their eggs or semen to be disease free, and include the date of inspection. Certification is not required for other fish species, but the department may require inspection at any time. The department shall establish, by rule, those diseases detrimental to the state's fishery resources and the location of authorized certified pathologists for inspection.

92 Acts, ch 1216, §5

481A.144 Licensed bait dealers — requirements.

1. A person shall not sell minnows, frogs, crayfish, or salamanders for fish bait without first obtaining a bait dealer's license from the department upon payment of the license fee. A licensee shall comply with all laws pertaining to taking, possessing, and selling of bait handled by the licensee. If convicted of violating a provision of this chapter or a rule adopted pursuant to this chapter, a licensee shall forfeit the licensee's bait dealer license upon demand of the director.

2. When taking bait from lakes and streams, bait dealers shall take only the size of bait which they can use, and shall return all small minnows and frogs to the water immediately.

3. A minnow and bait box and a tank shall be open to inspection by the department at all times. A licensee shall have tanks and bait boxes of sufficient size and with proper aeration to keep the bait alive and prevent substantial loss.

4. A person shall not take or attempt to take minnows for commercial purposes from any waters of the state or shall not transport minnows without first obtaining a bait dealer's license. However, a person taking or transporting minnows for personal use is not required to have a bait dealer's license.

481A.145 Taking and selling of minnows and other bait — regulations.

1. Except for species listed as threatened or endangered under chapter 481B, a licensed bait dealer may take sufficient bait from lakes and streams of this state that are not closed to the taking of bait, to supply the licensee's customers for hook and line fishing if the licensee is present while the bait is being taken.

2. Except as otherwise provided in this chapter, a person shall not carry, transport, ship, or cause to be carried, transported, or shipped, any minnows for the purpose of sale beyond the boundaries of the state. Minnows which are bred, hatched, propagated, or raised on a licensed aquaculture unit may be transported outside the state.

3. A person shall not transport, use, sell or offer to sell for bait or introduce into any inland waters of this state or into any waters from which the waters of the state may become stocked, any minnows or fish of the carp, quillback, gar, or dogfish species. Fish of the carp, quillback, gar, or dogfish species may be returned to the waters from which they are taken. A person shall not possess live gizzard shad at any lake in this state.

4. Minnow traps not exceeding thirty-six inches in length may be used when the taking of minnows is allowed. Each trap, when in use, shall have a metal tag attached plainly labeled with the owner's name and address.

5. A person shall not use a minnow dip net which exceeds four feet in diameter, a cast net which exceeds ten feet in diameter, or a minnow seine which exceeds twenty feet in length or has a mesh size smaller than one-quarter inch bar measure. Licensed bait dealers may

UNOFFICIAL VERSION 2021 EARLY RELEASE

obtain a permit from the department to use minnow seines longer than twenty feet, but not exceeding fifty feet in length.

6. The department may designate certain lakes and streams, and parts of them, from which minnow populations should be protected for the best management of the lakes or streams. If an investigation of a lake or stream or a portion of a lake or stream by the department indicates that the minnow population should be protected, the lake or stream or a portion of the lake or stream shall be closed to the taking of minnows for a period of time deemed advisable by the department.

SUBCHAPTER XIV

POLLUTION — RESTITUTION

481A.151 Restitution for pollution causing injury to wild animals.

1. A person who is liable for polluting a water of this state in violation of state law, including this chapter, shall also be liable to pay restitution to the department for injury caused to a wild animal by the pollution. The amount of the restitution shall also include the department's administrative costs for investigating the incident. The administration of this section shall not result in a duplication of damages collected by the department under section 455B.392, subsection 1, paragraph "*a*", subparagraph (3).

2. The commission shall adopt rules providing for procedures for investigations and the administrative assessment of restitution amounts. The rules shall establish an opportunity to appeal a departmental action including by a contested case proceeding under chapter 17A. A final administrative decision assessing an amount of restitution may be enforced by the attorney general at the request of the director.

3. Rules adopted by the commission shall provide for methods used to determine the extent of an injury and the monetary values for the loss of injured wild animals based on species.

a. The rules shall provide for methods used to count dead fish and to calculate restitution values. The rules may incorporate methods and values published by the American fisheries society. To every extent practicable, the values shall be based on the estimates of lost recreational angler opportunities where applicable. As an alternative method of valuation, the rules may provide that for fish species that are protected by catch limits, possession limits, size limits, or closed seasons applicable to anglers, liquidated damages apply. The amount of the liquidated damages shall not exceed fifteen dollars per fish. For fish species that are classified by the commission as endangered or threatened, the rules may establish liquidated damages not to exceed one thousand dollars per fish.

b. The rules shall provide guidelines for estimating the extent of loss of a species that is affected by a pollution incident but which would not be practical to count in sample areas.

UNOFFICIAL VERSION: 2021 EARLY RELEASE

The rules may establish liquidated damage amounts for species whose replacement cost is difficult to determine.

4. Moneys collected by the department in restitution shall be deposited into the state fish and game protection fund. The moneys shall be used exclusively to support restoration or improvement of fisheries, including but not limited to aquatic habitat improvement projects as provided in rules adopted by the commission. However, moneys collected from restitution paid for investigative costs shall be used as determined by the director.

481B.1 Definitions.

As used in this chapter:

1. *"Commission"* means the natural resource commission.
2. *"Director"* means the director of the department of natural resources.
3. *"Endangered species"* means any species of fish, plant life, or wildlife which is in danger of extinction throughout all or a significant part of its range. "Endangered species" does not include a species of insecta determined by the commission or the secretary of the United States department of interior to constitute a pest whose protection under this chapter would present an overwhelming and overriding risk to humans.
4. *"Fish or wildlife"* means any member of the animal kingdom, including any mammal, fish, amphibian, mollusk, crustacean, arthropod, or other invertebrate, and includes any part, product, egg, or offspring, or the dead body of parts thereof. Fish or wildlife includes migratory birds, nonmigratory birds, or endangered birds for which protection is afforded by treaty or other international agreement.
5. *"Import"* means to bring into, or introduce into, or attempt to bring into, or attempt to introduce into, any place subject to the jurisdiction of this state.
6. *"Person"* means person as defined in section 4.1, subsection 20.
7. *"Plant"* or *"plant life"* means any member of the plant kingdom, including seeds, roots, and other parts thereof.
8. *"Species"* includes any subspecies of fish, plant life, or wildlife and any other group of fish, plants, or wildlife of the same species or smaller taxa in common spatial arrangement that interbreed or cross-pollinate when mature.
9. *"Take"*, in reference to fish and wildlife, means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, collect and it includes an attempt to engage in any such conduct.
10. *"Take"*, in reference to plants, means to collect, pick, cut, dig up or destroy in any manner.

481B.3 Investigations.

1. The director shall conduct investigations on fish, plants, and wildlife in order to develop information relating to population, distribution, habitat needs, limiting factors, and other biological and ecological data to determine management measures necessary for their continued ability to sustain themselves successfully. On the basis of these determinations and other available scientific and commercial data, which may include consultation with scientists and others who may have specialized knowledge, learning, or experience, the commission shall, pursuant to chapter 17A, promulgate a rule listing those species of fish, plants, and wildlife which are determined to be endangered or threatened within the state.

2. The commission shall review the state list of endangered and threatened species at least every two years and may amend the list.

CHAPTER 481C

WILD ANIMAL DEPREDATION PROCEDURES

481C.1 Wild animal depredation unit.
481C.2 Duties.
481C.2A Deer depredation management program — licenses and permits.
481C.3 Funding.

481C.1 Wild animal depredation unit.

A wild animal depredation unit is established within the department of natural resources. The unit shall be comprised of two wild animal depredation biologists.

97 Acts, ch 180, §2; 2002 Acts, ch 1162, §72
Referred to in §481C.3

481C.2 Duties.

1. The director of the department of natural resources shall enter into a memorandum of agreement with the United States department of agriculture, animal damage control division. The wild animal depredation unit shall serve and act as the liaison to the department for the producers in the state who suffer an economic loss to agriculture, horticulture, or silviculture operations due to wild animals.

2. The department shall issue depredation permits and deer shooting permits to any landowner or tenant, as defined under section 483A.24, subsection 2, upon receiving written approval from the landowner, who suffers an economic loss of one thousand dollars or more to agriculture, horticulture, or silviculture operations due to wild animals. The department shall allow any conservation officer to issue permits pursuant to this chapter.

3. The criteria for issuing depredation licenses and permits shall be established in administrative rules. The administrative rules adopted pursuant to this section shall not require a producer to erect or maintain fencing at a cost exceeding one thousand dollars as a requisite for receiving a depredation license or permit or for participation in a depredation plan.

97 Acts, ch 180, §3; 98 Acts, ch 1203, §4; 2008 Acts, ch 1037, §2, 6; 2024 Acts, ch 1170, §342; 2025 Acts, ch 55, §1; 2026 Acts, ch 1153, §5
Referred to in §481C.2A
Subsections 1 and 2 amended

481C.2A Deer depredation management program — licenses and permits.

1. Deer depredation licenses shall be available for issuance as follows:

a. Deer depredation licenses shall be available for issuance to resident hunters.

b. Depredation licenses issued pursuant to this subsection shall be valid to harvest antlerless deer only. Depredation licenses that are issued to a landowner and family members as defined in section 483A.24 shall be in addition to the number of free licenses that are available for issuance to such persons under section 483A.24. A landowner or a family member may obtain one free depredation license for each deer hunting season that is established by the commission. Deer may be harvested with a rifle pursuant to a depredation license in any area and in any season where the commission authorizes the use of rifles.

c. Licenses issued pursuant to this subsection may be issued at any time to a resident hunter who has permission to hunt on the land for which the license is valid pursuant to this subsection.

d. A producer who enters into a depredation agreement with the department of natural resources shall be issued a set of authorization numbers. Each authorization number authorizes a resident hunter to obtain a depredation license that is valid only for taking antlerless deer on the land designated in the producer's depredation plan. A producer may transfer an authorization number issued to that producer to a resident hunter who has permission to hunt on the land for which the authorization number is valid. An authorization number shall be valid to obtain a depredation license in any season. The provisions of this paragraph shall be implemented by August 15, 2008. A transferee who receives an authorization number pursuant to this paragraph *"d"* shall be otherwise qualified to hunt

UNOFFICIAL VERSION: NOT FOR RELEASE

deer in this state, purchase a hunting license that includes the wildlife habitat fee, and pay the one dollar fee for the purpose of the deer herd population management program.

2. Deer shooting permits shall be available for issuance as follows:

a. Deer shooting permits shall be available for issuance to landowners or tenants, as defined under section 483A.24, subsection 2, upon receiving written approval from the landowner, who suffer an economic loss to agriculture, horticulture, or silviculture operations as provided in section 481C.2 and shall be available for issuance for use on areas where public safety may be an issue.

b. Deer shooting permits issued pursuant to this subsection shall be valid and may be used outside of established deer hunting seasons.

3. Notwithstanding section 481C.2, subsection 3, a producer shall not be required to erect or maintain fencing as a requisite for receiving a deer depredation permit or for participation in a deer depredation plan pursuant to this section.

4. A person who harvests a deer with a deer depredation license or a deer shooting permit issued pursuant to this section shall utilize the deer harvest reporting system set forth in section 483A.8A and shall not be subject to different disposal or reporting requirements than are applicable to the harvest of deer pursuant to other deer hunting licenses except that any antlers on a deer taken pursuant to a shooting permit shall be delivered to the local conservation officer for disposal.

5. The department shall administer and enforce the administrative rules concerning deer depredation, including issuance of deer depredation licenses and deer shooting permits, that are established by the commission and subject to the following conditions:

a. Except for a free license issued under subsection 1, paragraph "*b*", the department shall require a fee of five dollars for a license or permit issued pursuant to this section.

b. In addition to other times the department finds necessary, the department shall allow licenses and permits issued pursuant to this section to be used in the months of September, October, November, and December.

6. The department shall make educational materials that explain the deer depredation management program available to the general public, and available specifically to farmers and farm and commodity organizations, in both electronic and brochure formats.

7. The department shall conduct outreach programs for farmers and farm and commodity organizations that explain the deer depredation management program. The department shall develop, by rule, a master hunter program and maintain a list of master hunters who are available to assist producers in the deer depredation management program by increasing the harvest of antlerless deer on the producer's property.

2008 Acts, ch 1037, §3, 6; 2011 Acts, ch 34, §109; 2012 Acts, ch 1096, §4, 23; 2022 Acts, ch 1137, §3; 2026 Acts, ch 1153, §6

Subsection 2, paragraph a amended

481C.3 Funding.

The revenue from nonresident deer and wild turkey hunting licenses shall be used to pay the salaries, support, and maintenance of the wild animal depredation unit established pursuant to section 481C.1.

UNOFFICIAL VERSION: 2025 EARLY RELEASE

482.1 Authority of the commission.

1. The natural resource commission shall observe, administer, and enforce this chapter. The natural resource commission may adopt and enforce rules under chapter 17A as necessary to carry out this chapter.

2. The natural resource commission may:

a. Remove or cause to be removed from the waters of the state any aquatic species that in the judgment of the commission is an underused renewable resource or has a detrimental effect on other aquatic populations. All proceeds from a sale of these aquatic organisms shall be credited to the state fish and game protection fund.

b. Issue to any person a permit or license authorizing that person to take, possess, and sell underused, undesirable, or injurious aquatic organisms from the waters of the state. The person receiving a permit or license shall comply with the applicable provisions of this chapter.

c. Authorize the director to enter into written contracts for the removal of underused, undesirable, or injurious organisms from the waters of the state. The contracts shall specify all terms and conditions desired. A person who enters into such a contract with the director, and any subcontractor under such a contract, shall have an appropriate valid commercial license under section 482.4. However, other persons assisting with performance of the contract or subcontract may be unlicensed.

d. Prohibit, restrict, or regulate commercial fishing and commercial turtle harvesting in any waters of the state.

e. Revoke the license of a licensee for up to one year if the licensee has been convicted of a violation of chapter 481A, 482, or 483A. A licensee shall not continue commercial fishing while a license issued by the natural resource commission or issued by another state is under revocation or suspension.

f. Regulate the numbers of commercial fishers and commercial turtle harvesters and the amount, type, seasonal use, mesh size, construction and design, manner of use, and other criteria relating to the use of commercial gear for any body of water or part thereof.

g. Establish catch quotas, seasons, size limits, and other regulations for any species of commercial fish or turtles for any body of water or part thereof.

h. Designate by listing species as commercial fish or turtles.

i. Designate any body of water or its part as protected habitat and restrict, prohibit, or otherwise regulate the taking of commercial fish and turtles in protected habitat areas.

3. Employees of the department may lift and inspect any commercial gear at any time and may inspect commercial catches, commercial markets, and landings, and examine sale and purchase records of commercial fishers, commercial turtle harvesters, commercial roe harvesters, commercial turtle buyers, and commercial roe buyers upon demand.

4. Employees of the department may seize and retain as evidence any illegal fish or turtles, or any illegal commercial gear, or any other personal property used in violation of any provision of the Code, and may confiscate any untagged or illegal commercial gear as contraband.

482.2 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Boundary waters"* means the waters of the Mississippi, Missouri, and Big Sioux rivers.
2. *"Commercial fish helper"* means a person who is licensed by the state to assist a commercial fisher or a commercial roe harvester in operating commercial gear or in taking, attempting to take, possessing, or transporting commercial fish, roe species, roe, or turtles.
3. *"Commercial fisher"* means a person who is licensed by the state to take, attempt to take, possess, transport, sell, barter, or trade turtles or turtle eggs, commercial fish except roe species, or fish parts except roe.
4. *"Commercial fishing"* means taking, attempting to take, possessing, or transporting of commercial fish or turtles for the purpose of selling, bartering, trading, offering, or exposing for sale.
5. *"Commercial gear"* means the capturing equipment used by commercial fishers, commercial roe harvesters, and commercial turtle harvesters.
6. *"Commercial roe buyer"* means a person who is licensed by the state to engage in the business of buying, selling, bartering, or trading of roe and roe species.
7. *"Commercial roe harvester"* means a person who is licensed by the state to engage in the harvest and sale, barter, or trade of roe and roe species.
8. *"Commercial species"* means species of fish and turtles which may be lawfully taken and sold by commercial fishers, commercial roe harvesters, and commercial turtle harvesters, as established by rule by the commission.
9. *"Commercial turtle buyer"* means a person who is licensed by the state to engage in the business of buying, selling, bartering, or trading commercial turtles or turtle eggs.
10. *"Commercial turtle harvester"* means a person who is licensed by the state to take, attempt to take, possess, transport, and sell, barter, or trade commercial turtles or turtle eggs.
11. *"Commercial turtle harvesting"* means taking, attempting to take, possessing, or transporting of commercial turtles or turtle eggs for the purpose of selling, bartering, trading, offering, or exposing for sale.
12. *"Commercial turtle helper"* means a person who is licensed by the state to assist a commercial turtle harvester in operating commercial gear, or in taking, attempting to take, possessing, or transporting commercial turtles or turtle eggs.
13. *"Constant attendance"* means the presence of a commercial fisher whenever commercial gear is in use.
14. *"Director"* means the director of the department of natural resources, and the director's duly authorized assistants, deputies, or agents.
15. *"Game fish"* means all species and size categories of fish not included as "commercial species" or minnows.
16. *"Inland waters of the state"* means all public waters of the state excluding the boundary waters of the Mississippi, Big Sioux, and Missouri rivers.
17. *"Licensed commercial gear"* means any commercial gear that is licensed as provided in this chapter and that, when in use, has the proper tags attached as provided by this chapter.
18. *"Nonresident or alien"* means a person who does not qualify as a resident as defined in section 483A.1A.
19. *"Resident"* means a person as defined in section 483A.1A.

UNOFFICIAL VERSION: ADVANCE RELEASE

20. *"Roe"* means fish eggs.

21. *"Roe species"* means fish harvested for their eggs. Roe species include but are not limited to shovelnose sturgeon and bowfin and any other fish defined as roe species by the commission by rule.

22. *"Waters of the state"* means all of the waters under the jurisdiction of the state.

482.4 Commercial licenses and gear tags.

1. A person shall not use or operate commercial gear unless an individual is at the site where the commercial gear is being operated who possesses an appropriate valid commercial license. A commercial license is valid from the date of issue to January 10 of the succeeding calendar year.

2. A commercial roe harvester shall possess a valid commercial fishing license and a valid commercial roe harvester license.

3. Commercial fishers and commercial turtle harvesters shall provide and affix weather-resistant gear tags to each piece of gear in use. Each weather-resistant gear tag shall plainly show the name, address, and commercial license number of the licensee and whether the gear is fish or turtle gear.

4. Annual license fees are as follows:

a.	Commercial fisher, resident	$ 200.00
b.	Commercial fisher, nonresident	$ 400.00
c.	Commercial fish helper, resident	$ 50.00
d.	Commercial fish helper, nonresident	$ 100.00
e.	Commercial roe buyer, resident	$ 250.00
f.	Commercial roe buyer, nonresident	$ 500.00
g.	Commercial roe harvester, resident	$ 100.00
h.	Commercial roe harvester, nonresident	$3,500.00
i.	Commercial turtle buyer, resident	$ 200.00
j.	Commercial turtle buyer, nonresident	$ 400.00

482.7 Gear attendance.

1. A commercial fisher, commercial turtle harvester, or commercial roe harvester licensee must be present when commercial gear is operated. A commercial fish helper or commercial turtle helper shall not operate commercial gear except under the direct supervision of a commercial fisher, commercial turtle harvester, or commercial roe harvester. A nonresident commercial turtle helper is licensed only to assist a licensed nonresident commercial turtle harvester. Commercial gear shall be lifted and emptied of catch as provided by the rules of the commission. Constant attendance by the commercial fisher of seines, trammel nets, and gill nets is required when the gear is fished by driving, drive-seining, seining, floating, or drifting methods. Officers of the commission may grant a reasonable extension of gear attendance intervals only upon the request of a commercial fisher, commercial turtle harvester, or commercial roe harvester specifying why such an extension is necessary.

2. For the purposes of this section, "*direct supervision*" means that a commercial fisher, commercial turtle harvester, or commercial roe harvester must be in the same boat, within hand-signal distance, or within vocal communication distance, without the help of any electronic or amplifying device, of the commercial fish helper or commercial turtle helper being supervised.

It is unlawful:

1. To use commercial gear which is not in accordance with this chapter or the rules of the commission.

2. To use commercial gear within nine hundred feet from a navigation dam on the boundary waters.

3. To use commercial gear within three hundred feet from the mouth of a tributary stream emptying into the boundary waters.

4. For a person to lift or to fish licensed commercial gear of another person, except when under the direct supervision of the licensee as provided in section 482.7.

5. To employ chemicals, electricity, or explosives into the water for taking fish, turtles, or freshwater mussels except as authorized by the director.

6. To have in one's possession game fish or other fish, turtles, or mussels deemed illegal by other provisions of law while engaged in commercial activities. A fish caught in commercial fishing that is not lawful to possess shall be handled with wet hands and immediately released under water with as little injury as possible.

7. To block or inhibit navigation through channels with commercial gear unless a minimum of three feet of water depth is maintained over float lines of any entanglement gear or leads to trap nets. Gear shall not block over one-half the width of a navigable channel if there is less than three feet of water over the gear.

482.10 Commercial fishing licenses.

1. All persons who commercially take, attempt to take, possess, transport, sell, barter, trade, or buy commercial fish or their parts shall possess an appropriate, valid commercial fishing license. This subsection does not apply to an individual who buys commercial fish or their parts from a commercial fisher for personal consumption.

a. A commercial fisher license is required to operate commercial gear and to take, attempt to take, possess, process, transport, or sell any commercial fish, commercial turtles, or turtle eggs.

b. A commercial fish helper license is required to assist a commercial fisher or commercial roe harvester in operating commercial gear and in taking, attempting to take, possessing, or transporting commercial fish, roe species, roe, commercial turtles, or turtle eggs. A commercial fish helper is not permitted to buy, sell, barter, or trade commercial fish, roe species, roe, commercial turtles, or turtle eggs. A commercial fish helper license is not

required for a person under sixteen years of age to assist a commercial fisher as provided in this paragraph *"b"*.

c. A commercial roe harvester license is required to harvest, possess, transport, or sell roe or roe species or their parts. A commercial roe harvester is not permitted to buy, barter, or trade roe or roe species unless in possession of a valid roe buyer license. A commercial roe harvester shall sell roe or roe species only to a commercial roe buyer licensed in this state.

d. A commercial roe buyer license is required to buy, barter, or trade roe or roe species for resale.

2. All intrastate and interstate shipments of commercial fish, turtles, turtle eggs, or roe or roe species, must be accompanied by a receipt which shows the name and address of the seller, date of sale, and the species, numbers, and pounds of the fish, roe species, roe, turtles, or turtle eggs being sold.

482.11 Turtles and turtle eggs.

1. All persons who commercially take, attempt to take, possess, transport, or sell turtles or turtle eggs shall possess an appropriate, valid commercial license. This subsection does not apply to an individual who buys turtles or turtle eggs from a commercial fisher or a commercial turtle harvester for personal consumption.

a. A commercial turtle harvester license is required to operate commercial gear and to take, attempt to take, possess, transport, sell, barter, or trade commercial turtles or turtle eggs. Nonresident commercial turtle harvesters shall harvest commercial turtles only from the boundary waters.

b. A commercial turtle helper license is required to assist a commercial turtle harvester in operating commercial gear, and in taking, attempting to take, possessing, or transporting commercial turtles or turtle eggs. A commercial turtle helper is not permitted to buy, sell, barter, or trade commercial turtles or turtle eggs. A commercial turtle helper license is not required for a person under sixteen years of age to assist a commercial turtle harvester as provided in this paragraph *"b"*.

c. A commercial turtle buyer license is required to engage in the business of buying, bartering, or trading commercial turtles or turtle eggs.

d. A commercial fisher license entitles commercial fishers to operate any licensed commercial gear and to take, attempt to take, possess, and sell, barter, or trade turtles or turtle eggs taken with such commercial gear.

2. It is unlawful to take, possess, or sell any species of turtles except those designated by the commission by rule.

482.14 Reports and records required — inspections.

1. All commercial fishers, commercial turtle harvesters, commercial turtle buyers, commercial roe harvesters, and commercial roe buyers shall submit a monthly report supplying all information requested on forms furnished by the department. Reports must be received by the department no later than the fifteenth day of the following month.

2. Commercial fishers shall utilize a dated receipt with at least two parts, with one original and one copy of each receipt, that contains the species, number, and pounds of fish or turtles sold, bartered, or traded. Commercial fishers shall retain a copy of each receipt for five years following the transaction. A purchaser of commercial fish or turtles shall retain a copy of the receipt for as long as the purchaser is in possession of the fish or turtles.

3. Commercial turtle harvesters shall utilize a dated receipt with at least two parts, with one original and one copy of each receipt, that contains the species, number, and pounds of turtles sold, bartered, or traded. Commercial turtle harvesters shall retain a copy of each receipt for five years following the transaction. A purchaser of commercial turtles shall retain a copy of the receipt for as long as the purchaser is in possession of the turtles.

4. Commercial turtle buyers shall maintain accurate records of all transactions. The records shall contain the date, number, weight, and species of turtles purchased, the name and address of the seller, and the county or pools where the turtles were taken. The records shall be updated monthly. Such records shall be available for examination by employees of the department upon request. A commercial turtle buyer shall only purchase turtles from a licensed commercial fisher or commercial turtle harvester.

5. Commercial roe buyers shall utilize a receipt with at least two parts, with one original and at least one copy of each receipt, for each purchase of commercial roe species and roe. The original of the receipt shall be kept by the commercial roe buyer and a copy of the receipt shall be given to the commercial roe harvester selling the commercial roe species or roe. Commercial roe buyers and commercial roe harvesters shall retain such receipts for five years following the date of the transaction.

6. Facilities and records of commercial fish buyers, commercial turtle buyers, commercial roe harvesters, and commercial roe buyers shall be open at all reasonable times for inspection by any conservation officer.

SUBCHAPTER I

GENERAL PROVISIONS

483A.1 Licenses — fees — rules.

1. Except as otherwise provided in this chapter, a person shall not fish, trap, hunt, pursue, catch, kill, take in any manner, use, have possession of, sell, or transport all or a part of any wild animal, bird, game, turtle, or fish, the protection and regulation of which is desirable for the conservation of resources of the state, without first obtaining a license for that purpose, and the payment of a fee as established by rules adopted by the commission pursuant to chapter 17A.

2. *a.* The fees established by rule pursuant to subsection 1 shall be periodically evaluated by the department, but not less often than once every three years, to ensure that the fees paid are sufficient to meet the needs of natural resource management and the public.

b. By December 15 of each year on and after December 15, 2019, that an evaluation of the license fees is completed, the department shall file a written report with the commission and the general assembly which shall include the evaluation and recommendations for changes, if any. Any fee increase proposed in such a report shall not take effect until on or after December 15 of the year succeeding the report and an individual license fee shall not be increased in any calendar year in an amount that exceeds five percent.

As used in this chapter unless the context otherwise requires:

1. *"Boundary waters"* means the waters of the Mississippi, Missouri, and Big Sioux rivers.
2. *"Commission"* means the natural resource commission created under section 455A.5.
3. *"Department"* means the department of natural resources created under section 455A.2.
4. *"Director"* means the director of the department.
5. *"License"* means a privilege granted by the commission to fish, hunt, fur harvest, pursue, catch, kill, take in any manner, use, have possession of, sell, or transport all or part of a wild animal, bird, game, or fish, including any privilege related to a license granted by issuance of a stamp or a payment of a fee.
6. *"License agent"* means an individual, business, or governmental agency authorized to sell a license.
7. *"License document"* means an authorization, certificate, or permit issued by the department or a license agent that lists and confers one or more license privileges.
8. *"Nonresident"* means a person who is not a resident as defined in subsection 10.

UNOFFICIAL VERSION: 2021 IOWA CODE

9. *"Principal and primary residence or domicile"* means the one and only place where a person has a true, fixed, and permanent home, and to where, whenever the person is briefly and temporarily absent, the person intends to return. Relevant factors in determining a person's principal and primary residence or domicile include but are not limited to proof of place of employment, mailing address, utility records, land ownership records, vehicle registration, and address listed on the person's state and federal income tax returns. A person shall submit documentation to establish the person's principal and primary residence or domicile to the department or its designee upon request. The department or its designee shall keep confidential any document received pursuant to such a request if the document is required to be kept confidential by state or federal law.

10. *"Resident"* means a natural person who meets any of the following criteria during each year in which the person claims status as a resident:

a. Has physically resided in this state as the person's principal and primary residence or domicile for a period of not less than ninety consecutive days immediately before applying for or purchasing a resident license, tag, or permit under this chapter and has been issued an Iowa driver's license or an Iowa nonoperator's identification card. A person is not considered a resident under this paragraph if the person is residing in the state only for a special or temporary purpose including but not limited to engaging in hunting, fishing, or trapping.

b. Is a full-time student at either of the following:

(1) An accredited educational institution located in this state and resides in this state while attending the educational institution.

(2) An accredited educational institution located outside of this state, if the person is under the age of twenty-five and has at least one parent or legal guardian who maintains a principal and primary residence or domicile in this state.

c. Is a student who qualifies as a resident pursuant to paragraph *"b"* only for the purpose of purchasing any resident license specified in rules adopted pursuant to section 483A.1.

d. Is a nonresident under eighteen years of age whose parent is a resident of this state.

e. Is a member of the armed forces of the United States who is serving on active duty and meets any of the following qualifications:

(1) Claims residency in this state and has filed a state individual income tax return as a resident pursuant to chapter 422, subchapter II, for the preceding tax year.

(2) Is stationed at a federal military installation in this state, or at a federal military installation contiguous to a county in this state, and is domiciled within this state.

(3) Is stationed at and resides or is domiciled within a federal military installation located contiguous to a county in this state.

f. Is the spouse of a person included in paragraph *"e"*.

483A.3 Wildlife habitat fee.

1. *a.* A resident or nonresident person required to have a hunting or fur harvester license shall not hunt or trap unless the person purchases a hunting or fur harvester license that includes the wildlife habitat fee, in an amount established by rules adopted by the commission pursuant to section 483A.1.

USE EFFECTIVE VERSION 2023 EARLY RELEASE

b. Residents who have permanent disabilities or who are younger than sixteen or older than sixty-five years of age may purchase a hunting or fur harvester license that does not include the wildlife habitat fee.

c. All wildlife habitat fees shall be administered in the same manner as hunting and fur harvester licenses except all revenue derived from wildlife habitat fees shall be used within the state of Iowa for habitat development and shall be deposited in the state fish and game protection fund, except as provided in subsection 2. The revenue may be used for the matching of federal funds. The revenues and any matched federal funds shall be used for acquisition of land, leasing of land, or obtaining of easements from willing sellers for use as wildlife habitats. Notwithstanding the exemption provided by section 427.1, any land acquired with the revenues and matched federal funds shall be subject to the full consolidated levy of property taxes, which shall be paid from the income generated from those lands or, if no such income is generated, from the wildlife habitat fee revenues. In addition the revenue may be used for the development and enhancement of wildlife lands and habitat areas.

d. Not less than three dollars from each wildlife habitat fee shall be allocated as specified in section 483A.3B and not less than fifty percent of the balance of each fee shall be used by the commission to enter into agreements with county conservation boards or other public agencies in order to carry out the purposes of this section. However, the state share of funding of those agreements provided by the revenue from wildlife habitat fees shall not exceed seventy-five percent.

2. Up to sixty percent of the revenues from wildlife habitat fees which are not required under subsection 1 to be used by the commission to enter into agreements with county conservation boards or other public agencies may be credited to the wildlife habitat bond fund as provided in section 483A.53.

3. Notwithstanding subsections 1 and 2, any increase in wildlife habitat fee revenues collected on or after December 15, 2018, pursuant to this section as a result of wildlife habitat fee increases established by rules adopted pursuant to section 483A.1, shall be used by the commission for any of the purposes set forth in this section or in section 483A.3B, except that such increases in revenues collected shall not be used by the commission for the purpose of land acquisition. The commission shall not reduce on an annual basis for these purposes the amount of other funds being expended as of December 15, 2018.

4. A multi-year hunting license purchased pursuant to section 483A.9A, includes the payment of a wildlife habitat fee for each of the years for which the license is valid and those fees shall be used as provided in this section.

483A.3B Game bird habitat development programs.

1. *Allocation of revenue — accounts.* All revenue collected from wildlife habitat fees as provided in section 483A.3, subsection 1, paragraph *"d"*, that is deposited in the state fish

UNOFFICIAL VERSION 2021 EARLY RELEASE

and game protection fund and that is allocated pursuant to this section shall be allocated as follows:

a. Not less than two dollars of each wildlife habitat fee collected shall be allocated to the game bird wetlands conservation account.

b. Not less than one dollar of each wildlife habitat fee collected shall be allocated to the game bird buffer strip assistance account.

c. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys collected from wildlife habitat fees that are deposited in each account created under this section shall be credited to that account. Notwithstanding section 8.33 or section 456A.17, moneys credited to each account created under this section shall not revert to the state general fund at the close of a fiscal year.

d. All revenue collected from wildlife habitat fees as provided in section 483A.3, subsection 1, paragraph *"d"*, that is allocated pursuant to this section shall be used as provided in this section, except for that part which is specified by the department for use in paying administrative expenses as provided in section 456A.17.

2. *Game bird wetlands conservation program.*

a. All moneys allocated to the game bird wetlands conservation account shall be used by the department only to carry out the purposes of the game bird wetlands conservation program and shall be used in addition to funds already being expended by the department each year for wetlands conservation purposes.

b. The purpose of the game bird wetlands conservation program is to create a sustained source of revenue to be used by the department to qualify for federal matching funds that are available for wetlands conservation and to undertake projects in conjunction with soil and water conservation districts, county conservation boards, and other partners that will aid in wetlands and associated habitat conservation in the state, including the acquisition, restoration, maintenance, or preservation of wetlands and associated habitat.

c. (1) All moneys that are allocated to the game bird wetlands conservation account shall accumulate in the account until the account balance is equal to one million dollars or an amount sufficient to be used by the department to qualify for federal matching funds. Each time the account balance reaches an amount sufficient to be used by the department to qualify for federal matching funds, the department shall apply for such matching funds, and upon obtaining such funds, shall expend the state and federal revenues available at that time to undertake projects as set forth in paragraph *"b"*.

(2) Additional moneys that are generated by game bird wildlife habitat fees and allocated to the game bird wetlands conservation account shall again accumulate in the account, and each time the account balance is equal to one million dollars or an amount sufficient to be used by the department to qualify for federal matching funds, the department shall again apply for federal matching funds, and upon obtaining such funds, shall expend the state and federal revenues available at that time to undertake projects as set forth in paragraph *"b"*.

d. The department shall use all state revenue and federal matching funds obtained under the federal North American Wetlands Conservation Act to undertake the purposes of the game bird wetlands conservation program as set forth in paragraph *"b"*. State revenue allocated to the account shall be used by the department only for projects that increase public recreational hunting opportunities in the state and shall not be used for projects on private land that is not accessible to the public for recreational hunting.

3. *Game bird buffer strip assistance program.*

a. All moneys allocated to the game bird buffer strip assistance account shall be used by the department only to carry out the purposes of the game bird buffer strip assistance program and shall be used in addition to funds already being expended by the department each year for such purposes. The department shall not reduce the amount of other funds being expended for these purposes as of July 1, 2007.

b. The purpose of the game bird buffer strip assistance program is to increase landowner participation in federally funded conservation programs that benefit game birds and to increase opportunities for recreational hunting on private lands. To the extent possible, moneys allocated to the game bird buffer strip assistance account shall be used in conjunction with and to qualify for additional funding from private conservation organizations and other

UNOFFICIAL VERSION 2022 NOT FOR RELEASE

state and federal agencies to accomplish the purposes of the program. The funds may be used to provide private landowners with cost-sharing assistance for habitat improvement practices on projects that are not eligible for federal programs or where federal funding for such projects is not adequate. The department may utilize the funds to provide marketing and outreach efforts to landowners in order to maximize landowners' use of federal conservation programs. The department may coordinate such marketing and outreach efforts with soil and water conservation districts and other partners.

c. (1) All moneys that are allocated to the game bird buffer strip assistance account shall accumulate in the account for a period of three years. At the end of the three-year period, the moneys in the account shall be used by the department to carry out the purposes of the game bird buffer strip assistance program as set forth in paragraph "*b*". The department shall, by rule pursuant to chapter 17A, establish eligibility requirements for the program and procedures for applications for and approval of projects to be funded under the program. The department shall expend moneys from the account only for projects on private land that is accessible to the public for recreational hunting.

(2) Additional moneys that are generated by game bird wildlife habitat fees and allocated to the game bird buffer strip assistance account shall accumulate in the account and shall be used by the department every three years as set forth in subparagraph (1).

For the purpose of obtaining a license, a person has a "*permanent disability*" if any of the following apply:

1. The person has been found under the provisions of the federal Social Security Act, Tit. II, or any other public or private pension system to have a total, permanent physical or mental condition which prevents that person from engaging in the person's occupation or qualifies that person for retirement.

2. The person has a severe physical disability and has qualified for a special license under section 483A.24.

483A.6A Paddlefish fishing license and tag.

1. A resident fishing for paddlefish on the Missouri or Big Sioux river who is required to have a fishing license must purchase a paddlefish fishing license, in addition to a resident fishing license.

2. A nonresident fishing for paddlefish on the Missouri or Big Sioux river is required to have a fishing license that is valid in Iowa and, in addition, purchase a nonresident paddlefish fishing license.

3. The commission shall establish the number of annual paddlefish fishing licenses that may be issued pursuant to section 481A.39 for use on the Missouri or Big Sioux river. A paddlefish fishing license shall be accompanied by a tag designed to be used only once. If a paddlefish is taken pursuant to a paddlefish fishing license, the paddlefish shall be tagged immediately and the tag shall be dated.

483A.7 Wild turkey hunting license and tag.

1. A resident hunting wild turkey who is required to have a license must purchase a resident hunting license that includes the wildlife habitat fee in addition to the wild turkey hunting license. Upon application and payment of the required fees for archery-only licenses, a resident archer shall be issued two wild turkey licenses for the spring season.

2. The wild turkey hunting license shall be accompanied by a tag designed to be used only once. If a wild turkey is taken, the wild turkey shall be tagged and the tag shall be dated.

3. *a.* A nonresident wild turkey hunter is required to purchase a nonresident hunting license that includes the wildlife habitat fee and a nonresident wild turkey hunting license. The commission shall annually limit to two thousand three hundred licenses the number of nonresidents allowed to have wild turkey hunting licenses. Of the two thousand three hundred licenses, one hundred fifty licenses shall be valid for hunting with muzzle loading shotguns only. The commission shall allocate the nonresident wild turkey hunting licenses issued among the zones based on the populations of wild turkey. A nonresident applying for a wild turkey hunting license must exhibit proof of having successfully completed a hunter education program as provided in section 483A.27 or its equivalent as determined by the department before the license is issued.

b. The commission shall assign one preference point to a nonresident whose application for a nonresident wild turkey hunting license is denied due to limitations on the number of nonresident wild turkey hunting licenses available for issuance that year. An additional preference point shall be assigned to that person each subsequent year the person's license application is denied for that reason. A nonresident may purchase additional preference points pursuant to rules adopted pursuant to section 483A.1. The first nonresident wild turkey hunting license drawing each year shall be made from the pool of applicants with the most preference points and continue to pools of applicants with successively fewer preference points until all available nonresident wild turkey hunting licenses have been issued. If a nonresident applicant receives a wild turkey hunting license, all of the applicant's assigned preference points at that time shall be removed.

4. A person who is issued a youth spring wild turkey hunting license and does not take a wild turkey during the youth spring wild turkey hunting season may use the wild turkey hunting license and unused tag during any other wild turkey hunting season that is established by the commission.

483A.8 Deer hunting license and tag.

1. A resident hunting deer who is required to have a hunting license must purchase a resident hunting license that includes the wildlife habitat fee, in addition to the deer hunting license. In addition, a resident who purchases a deer hunting license shall pay a one dollar fee that shall be used and is appropriated for the purpose of deer herd population management, including assisting with the cost of processing deer donated to the help us stop hunger program administered by the commission.

2. *a.* The deer hunting license shall be accompanied by a tag designed to be used only once. When a deer is taken, the deer shall be tagged and the tag shall be dated. The tag shall be attached to the carcass of a deer taken within fifteen minutes of the time the deer carcass is located after being taken, or before the carcass is moved to be transported by any means from the place where the deer was taken, whichever occurs first. For each antlered deer taken, the tag shall be affixed to the deer's antlers.

b. For purposes of the tagging requirements in this subsection, a deer carcass may be moved away from an obstacle, entanglement, waterway, or any other area, including but not limited to a roadway, if tagging the carcass at that location would be a safety hazard to the hunter or a third person, before the tag is attached to the carcass. However, the carcass shall not be moved from the immediate vicinity of where the deer was taken, shall be moved only so far as is necessary to avoid the obstacle, entanglement, waterway, or other safety hazard, and shall be tagged immediately upon being so moved and before being moved to be transported.

3. *a.* A nonresident hunting deer is required to purchase a nonresident annual hunting license that includes the wildlife habitat fee and a nonresident deer hunting license. In addition, a nonresident who purchases a deer hunting license shall pay a one dollar fee that shall be used and is appropriated for the purpose of deer herd population management, including assisting with the cost of processing deer donated to the help us stop hunger program administered by the commission.

b. A nonresident who purchases an antlered or any sex deer hunting license pursuant to rules adopted pursuant to section 483A.1 is required to purchase an antlerless deer only deer hunting license at the same time unless the zone in which the nonresident is purchasing the antlered or any sex deer hunting license is designated by the commission as not required, pursuant to rules adopted pursuant to section 483A.1.

c. The commission shall annually limit to six thousand the number of nonresidents allowed to have antlered or any sex deer hunting licenses. Of the six thousand nonresident antlered or any sex deer hunting licenses issued, not more than thirty-five percent of the licenses shall be bow season licenses. After the six thousand antlered or any sex nonresident deer hunting licenses have been issued, all additional licenses shall be issued for antlerless deer only. The commission shall annually determine the number of nonresident antlerless deer only deer hunting licenses that will be available for issuance.

d. The commission shall allocate all nonresident deer hunting licenses issued among the zones based on the populations of deer. However, a nonresident applicant may request one or more hunting zones, in order of preference, in which the applicant wishes to hunt.

UNOFFICIAL VERSION: 2025 CODE PREVIEW RELEASE

If the request cannot be fulfilled, the applicable fees shall be returned to the applicant. A nonresident applying for a deer hunting license must exhibit proof of having successfully completed a hunter education program as provided in section 483A.27 or its equivalent as determined by the department before the license is issued.

e. The commission shall assign one preference point to a nonresident whose application for a nonresident antlered or any sex deer hunting license is denied due to limitations on the number of nonresident antlered or any sex deer hunting licenses available for issuance that year. An additional preference point shall be assigned to that person each subsequent year the person's license application is denied for that reason. A nonresident may purchase additional preference points pursuant to rules adopted pursuant to section 483A.1. The first nonresident antlered or any sex deer hunting license drawing each year shall be made from the pool of applicants with the most preference points and continue to pools of applicants with successively fewer preference points until all available nonresident antlered or any sex deer hunting licenses have been issued. If a nonresident applicant receives an antlered or any sex deer hunting license, all of the applicant's assigned preference points at that time shall be removed.

4. The commission may provide, by rule, for the issuance of an additional antlerless deer hunting license to a person who has been issued an antlerless deer hunting license. The rules shall specify the number of additional antlerless deer hunting licenses which may be issued, and the season and zone in which the license is valid. The fee for an additional antlerless deer hunting license shall be an amount established by rules adopted pursuant to section 483A.1 for residents.

5. A nonresident owning land in this state may apply for a nonresident antlered or any sex deer hunting license, and the provisions of subsection 3 shall apply. However, if a nonresident owning land in this state is unsuccessful in obtaining one of the nonresident antlered or any sex deer hunting licenses, the landowner shall be given preference for one of the antlerless deer only nonresident deer hunting licenses available pursuant to subsection 3. A nonresident owning land in this state shall pay the fee for a nonresident antlerless only deer hunting license and the license shall be valid to hunt on the nonresident's land only. If one or more parcels of land have multiple nonresident owners, only one of the nonresident owners is eligible for a nonresident antlerless only deer hunting license. If a nonresident jointly owns land in this state with a resident, the nonresident shall not be given preference for a nonresident antlerless only deer hunting license. The department may require proof of land ownership from a nonresident landowner applying for a nonresident antlerless only deer hunting license.

6. The commission shall provide by rule for the annual issuance to a nonresident of a nonresident antlerless deer hunting license that is valid for use only during the period beginning on December 24 and ending at sunset on January 2 of the following year and costs an amount established by rules adopted pursuant to section 483A.1. A nonresident hunting deer with a license issued under this subsection shall be otherwise qualified to hunt deer in this state and shall purchase a nonresident annual hunting license that includes the wildlife habitat fee, and pay the one dollar fee for the purpose of deer herd population management as provided in subsection 3. Pursuant to this subsection, the commission shall make available for issuance only the remaining nonresident antlerless deer hunting licenses allocated under subsection 3 that have not yet been issued for the current year's nonresident antlerless deer hunting seasons.

7. The department shall make youth deer hunting licenses available for purchase during the same time period that general deer hunting licenses are available for purchase, including through all established deer hunting seasons. A person who is issued a youth deer hunting license may use the deer hunting license and tag during the season for which the license was issued or in any subsequent established deer hunting season using a method of take authorized for that season. If the tag is filled during one of the seasons, the license will not be valid in subsequent seasons.

8. The commission shall adopt a rule permitting a resident to use a crossbow for taking deer during the late season that is designated for taking deer by muzzleloading rifle or muzzleloading pistol.

UNOFFICIAL VERSION 2021 EARLY RELEASE

9. There shall be a January antlerless deer only hunting season in a county whenever that county has unsold antlerless deer licenses available in its county quota as set by the commission by rule. The commission shall establish the season dates. Licenses shall be available for sale beginning the day after the close of the late muzzleloader season until either the county quota allotment has been sold or until the end of the season, whichever occurs first. A January antlerless deer only license issued under this subsection is valid only in the county identified on the license. A rifle with a barrel length of at least sixteen inches and firing centerfire ammunition propelling an expanding-type bullet with a maximum diameter of no less than two hundred twenty-three thousandths of one inch and no larger than five hundred thousandths of one inch and with a published or calculated muzzle energy of five hundred foot pounds or higher is the approved method of take for this season.

483A.8A Deer and wild turkey harvest reporting system.

1. The commission shall provide, by rule, for the establishment of a deer and wild turkey harvest reporting system for the purpose of collecting information from hunters concerning the deer and wild turkey population in this state. Each person who is issued a deer or wild turkey hunting license in this state shall report such information pursuant to this section. Information collected by the commission pursuant to the deer and wild turkey harvest reporting system from a hunter who takes a deer or wild turkey shall be limited to the following:

a. The county where the deer or wild turkey was taken.
b. The season during which the deer or wild turkey was taken.
c. The sex of the deer or wild turkey taken.
d. The age of the deer or wild turkey taken.
e. The type of weapon used.
f. The hunting license number of the hunter.
g. The number of days the hunter hunted.
h. The total number of deer or wild turkey taken by the hunter.

2. The deer and wild turkey harvest reporting system established by the commission shall utilize and is limited to utilizing one or more of the following methods of reporting deer or wild turkey taken by hunters:

a. A toll-free telephone number.
b. A postcard.
c. Reporting at an electronic licensing location.
d. Electronic internet communication.

1. A nonambulatory person who is a resident may be issued one any sex deer hunting license to hunt deer with a shotgun, muzzleloading rifle, or any handgun or rifle described in section 481A.48 during any established deer hunting season. If the tag is filled during one of the seasons, the license will not be valid in subsequent seasons. A person who applies for a license pursuant to this section shall complete a form, as required by rule, that is signed by a physician who verifies that the person is nonambulatory.

2. A person who obtains a deer hunting license under this section is not required to pay the wildlife habitat fee but shall purchase a deer hunting license and hunting license that does not include the wildlife habitat fee, be otherwise qualified to hunt, and pay a one dollar fee that shall be used and is appropriated for the purpose of deer herd population management, including assisting with the cost of processing deer donated to the help us stop hunger program administered by the commission.

3. A person may obtain a license under this section in addition to any other deer hunting licenses for which the person is eligible.

4. For the purposes of this section, "*nonambulatory person*" means an individual who has received a nonambulatory person's permit from the department as provided by rule, and at a minimum has one or more of the following conditions:

a. Paralysis of the lower half of the body, usually due to disease or a spinal cord injury.

b. Loss or partial loss of both legs.

483A.9A Combination packages of licenses.

1. The commission is authorized, pursuant to rules adopted under chapter 17A, to develop combination packages of licenses in order to offer incentives to residents to purchase additional licenses or for the specific purpose of increasing sales of licenses that will help to recruit or retain hunters, anglers, and trappers in the state.

2. The total cost of each combination package of licenses offered shall be less than the total cost of the licenses if each were purchased separately.

3. The commission shall offer to residents a combination package of an annual fishing license and an annual hunting license, as provided in rules adopted pursuant to section 483A.1, the cost of which includes the wildlife habitat fee.

483A.19 Showing license document to officer.

Every person shall, while fishing, hunting, or fur harvesting, show the person's license document to any peace officer or the owner or person in lawful control of the land or water upon which licensee may be hunting, fishing, or fur harvesting when requested by the persons to do so. Any failure to so carry or refusal to show or so exhibit the person's license document shall be a violation of this chapter. However, except for possession and exhibition of deer licenses and tags or wild turkey licenses and tags, a person charged with violating this section shall not be convicted if the person produces in court, within a reasonable time, a license document for hunting, fishing, or fur harvesting issued to that person and valid when the person was charged with a violation of this section.

year of trespassing while hunting. If any of the license privileges of a licensee who purchased more than one license privilege is revoked, the remaining license privileges of the licensee shall still be valid and the magistrate shall enter on the license document the privilege that is revoked. A person shall not purchase a license for a privilege that was revoked or suspended during the period of revocation or suspension.

3. In addition to other civil and criminal penalties imposed for illegally taking or possessing an elk, antelope, buffalo, or moose, the court shall revoke the hunting license of a violator. The violator shall not be allowed to procure a hunting license for the next two calendar years.

483A.24 When license not required — special licenses.

1. Owners or tenants of land, and their minor children, may hunt, fish or trap upon such lands and may shoot by lawful means ground squirrels, gophers, or woodchucks upon adjacent roads without securing a license so to do; except, special licenses to hunt deer and wild turkey shall be required of owners and tenants but they shall not be required to have a special wild turkey hunting license to hunt wild turkey on a hunting preserve licensed under chapter 484B.

2. *a.* As used in this subsection:

(1) *"Family member"* means a resident of Iowa who is the spouse or child of the owner or tenant and who resides with the owner or tenant.

(2) *"Farm unit"* means all parcels of land which are certified by the commission pursuant to rule as meeting all of the following requirements:

(a) Are in tracts of two or more contiguous acres.

(b) Are operated as a unit for agricultural purposes.

UNOFFICIAL VERSION 2027 EARLY RELEASE

(c) Are under the lawful control of the owner or the tenant.

(3) (a) *"Owner"* means an owner of a farm unit who is a resident of Iowa and who is one of the following:

(i) Is the sole operator of the farm unit.

(ii) Makes all of the farm operation decisions but contracts for custom farming or hires labor for all or part of the work on the farm unit.

(iii) Participates annually in farm operation decisions or cropping practices on specific fields of the farm unit that are rented to a tenant.

(iv) Raises specialty crops on the farm unit including but not limited to orchards, nurseries, or tree farms that do not always produce annual income but require annual operating decisions about maintenance or improvement.

(v) Has all or part of the farm unit enrolled in a long-term agricultural land retirement program of the federal government.

(b) An *"owner"* does not mean a person who owns a farm unit and who employs a farm manager or third party to operate the farm unit, or a person who owns a farm unit and who rents the entire farm unit to a tenant who is responsible for all farm operations. However, this subparagraph division does not apply to an owner who is a parent of the tenant and who resides in this state.

(4) *"Tenant"* means a person who is a resident of Iowa and who rents and actively farms a farm unit owned by another person. A member of the owner's family may be a tenant. A person who works on the farm for a wage and is not a family member does not qualify as a tenant.

b. Upon written application on forms furnished by the department, the department shall issue annually without fee one wild turkey license to the owner of a farm unit or to a member of the owner's family, but not to both, and to the tenant or to a member of the tenant's family, but not to both. The wild turkey hunting licenses issued shall be valid only on the farm unit for which an applicant qualifies pursuant to this subsection and shall be equivalent to the least restrictive license issued under section 481A.38. The owner or the tenant need not reside on the farm unit to qualify for a free license to hunt on that farm unit. The free turkey hunting licenses issued pursuant to this paragraph shall be valid and may be used during any open turkey hunting season using a method of take authorized for that season, subject to any other restrictions that may apply, without first designating a season of use for the license. Each license issued under this paragraph authorizes the person issued the license to harvest one wild turkey.

c. Upon written application on forms furnished by the department, the department shall issue annually without fee two deer hunting licenses, one antlered or any sex deer hunting license and one antlerless deer only deer hunting license, to the owner of a farm unit or a member of the owner's family, but only a total of two licenses for both, and to the tenant of a farm unit or a member of the tenant's family, but only a total of two licenses for both. The deer hunting licenses issued shall be valid only for use on the farm unit for which the applicant applies pursuant to this paragraph. The owner or the tenant need not reside on the farm unit to qualify for the free deer hunting licenses to hunt on that farm unit. The free deer hunting licenses issued pursuant to this paragraph shall be valid and may be used during any open season using a method of take authorized for that season, subject to any other restrictions that may apply, without first designating a season of use for the license, but only one deer shall be harvested for each license. In addition, a person who receives a free deer hunting license pursuant to this paragraph shall pay a one dollar fee for each license that shall be used and is appropriated for the purpose of deer herd population management, including assisting with the cost of processing deer donated to the help us stop hunger program administered by the commission.

d. In addition to the free deer hunting licenses received pursuant to paragraph "*c*", an owner of a farm unit or a member of the owner's family and the tenant or a member of the tenant's family may purchase a deer hunting license for any option offered to paying deer hunting licensees. An owner of a farm unit or a member of the owner's family and the tenant or a member of the tenant's family may also purchase two additional antlerless deer hunting

licenses which are valid only on the farm unit for a fee established by rules adopted pursuant to section 483A.1.

e. If the commission establishes a deer hunting season to occur in the first quarter of a calendar year that is separate from a deer hunting season that continues from the last quarter of the preceding calendar year, each owner and each tenant of a farm unit located within a zone where a deer hunting season is established, upon application, shall be issued a free deer hunting license for each of the two calendar quarters. Each license is valid only for hunting on the farm unit of the owner and tenant.

f. (1) A deer hunting license or wild turkey hunting license issued pursuant to this subsection shall be attested by the signature of the person to whom the license is issued and shall contain a statement in substantially the following form:

> By signing this license I certify that I qualify as an owner or tenant under Iowa Code section 483A.24.

(2) A person who makes a false attestation under this paragraph "*f*" is guilty of a simple misdemeanor. In addition, the person's hunting license shall be revoked and the person shall not be issued a hunting license for a period of one year.

3. The director shall provide up to one hundred twenty-six nonresident deer hunting licenses for allocation as provided in this subsection.

a. Fifty of the nonresident deer hunting licenses shall be allocated as determined by the department. The licenses provided pursuant to this subsection shall be in addition to the number of nonresident licenses authorized pursuant to section 483A.8. The purpose of the special nonresident licenses is to allow state officials and local development groups to promote the state and its natural resources to nonresident guests and dignitaries. Photographs, videotapes, or any other form of media resulting from the hunting visitation shall not be used for political campaign purposes. The nonresident licenses shall be issued without application upon purchase of a nonresident annual hunting license that includes the wildlife habitat fee and the purchase of a nonresident deer hunting license. The licenses are valid in all zones open to deer hunting. The hunter education certificate requirement pursuant to section 483A.27 is waived for a nonresident issued a license pursuant to this subsection.

b. Seventy-five of the nonresident deer hunting licenses shall be allocated as provided in subsection 5.

c. One nonresident deer hunting license shall be allocated as determined by the Iowa state fair foundation established pursuant to section 173.22.

4. The director shall provide up to one hundred twenty-five nonresident wild turkey hunting licenses for allocation as provided in this subsection.

a. Fifty of the nonresident wild turkey hunting licenses shall be allocated as determined by the department. The licenses provided pursuant to this subsection shall be in addition to the number of nonresident licenses authorized pursuant to section 483A.7. The purpose of the special nonresident licenses is to allow state officials and local development groups to promote the state and its natural resources to nonresident guests and dignitaries. Photographs, videotapes, or any other form of media resulting from the hunting visitation shall not be used for political campaign purposes. The nonresident licenses shall be issued without application upon purchase of a nonresident annual hunting license that includes the wildlife habitat fee and the purchase of a nonresident wild turkey hunting license. The licenses are valid in all zones open to wild turkey hunting. The hunter education certificate requirement pursuant to section 483A.27 is waived for a nonresident issued a license pursuant to this subsection.

b. Seventy-five of the nonresident wild turkey hunting licenses shall be allocated as provided in subsection 5.

5. Seventy-five of the nonresident deer hunting licenses allocated under subsection 3 and seventy-five of the wild turkey hunting licenses allocated under subsection 4 shall be available for issuance to nonresidents who have served in the armed forces of the United States on active federal service and who were disabled during the veteran's military service or who are serving in the armed forces of the United States on active federal service and have been

disabled during military service to enable the disabled person to participate in a hunt that is conducted by an organization that conducts hunting experiences in this state for disabled persons. The licenses shall be issued as follows:

a. The department shall prepare an application to be used by a person requesting a special license under this subsection.

(1) The department shall verify that the license will be used by the applicant in connection with a hunt conducted by an approved organization that conducts hunting experiences in this state for disabled veterans and members of the armed forces serving on active federal service who have been disabled during military service. The department shall specify, by rules adopted under chapter 17A, what requirements an organization must meet in order to be approved to conduct hunts for disabled persons who obtain licenses under this subsection.

(2) The department of veterans affairs shall assist the department in verifying the status or claims of applicants under this subsection. As used in this subsection, *"disabled"* means entitled to a service connected rating under 38 U.S.C. ch. 11 with a degree of disability of thirty percent or more.

b. A license issued under this subsection shall be in addition to the number of nonresident wild turkey hunting licenses authorized pursuant to section 483A.7 and nonresident deer hunting licenses authorized pursuant to section 483A.8. However, a nonresident who obtains a license pursuant to this subsection is not eligible to obtain a nonresident deer hunting license or wild turkey hunting license under any other provision of law.

c. A disabled person who receives a special license under this subsection shall purchase a hunting license that includes the wildlife habitat fee, and a wild turkey hunting license or a deer hunting license, if applicable, all for the same fees that are charged to resident hunters. If hunting deer, the disabled person shall also pay a one dollar fee that shall be used and is appropriated for the purpose of deer herd population management, including assisting with the cost of processing deer donated to the help us stop hunger program administered by the commission.

d. A special hunting license that includes the wildlife habitat fee shall be available for issuance under this subsection to a disabled veteran or disabled member of the armed forces serving on active federal service for the same fee that is charged to a resident hunter to enable such a disabled person to participate in a hunt conducted by an organization approved under this subsection for which only a hunting license is required.

e. A disabled person who receives a special license under this subsection shall complete the hunter education course.

f. A license issued under this subsection is valid for use only on a hunt conducted by an organization approved under this subsection.

g. The commission shall adopt rules under chapter 17A for the administration of this subsection.

6. A resident or nonresident of the state under sixteen years of age is not required to have a license to fish in the waters of the state. However, residents and nonresidents under sixteen years of age must pay the trout fishing fee to possess trout or they must fish for trout with a licensed adult who has paid the trout fishing fee and limit their combined catch to the daily limit established by the commission. A resident or nonresident of the state under sixteen years of age is required to have a paddlefish fishing license to fish for paddlefish on the Missouri or Big Sioux river.

7. A license shall not be required of minor pupils of the Iowa school for the deaf or of minor residents of other state institutions under the control of the department of health and human services. In addition, a person who is on active duty with the armed forces of the United States, on authorized leave from a duty station located outside of this state, and a resident of the state of Iowa shall not be required to have a license to hunt or fish in this state. The military person shall carry the person's leave papers and a copy of the person's current earnings statement showing a deduction for Iowa income taxes while hunting or fishing. In lieu of carrying the person's earnings statement, the military person may also claim residency if the person is registered to vote in this state. If a deer or wild turkey is taken, the military person shall immediately contact a state conservation officer to obtain an

appropriate tag to transport the animal. A license shall not be required of any person who is receiving supplementary assistance under chapter 249.

8. A person under sixteen years of age is not required to have a hunting license to hunt game or a fur harvester license to trap fur-bearing animals if accompanied by the minor's parent or guardian or in company with any other competent adult with the consent of the minor's parent or guardian, if the person accompanying the minor possesses a valid hunting license while hunting game or fur harvester license while trapping fur-bearing animals; however, there must be one licensed adult accompanying each person under sixteen years of age. The minor must have a deer hunting license to hunt deer and a wild turkey hunting license to hunt wild turkey appropriate for the minor's residency status. This subsection is not restricted by the provisions of section 483A.31.

9. A resident of the state under sixteen years of age is not required to have a hunting or fur harvester license to accompany the minor's parent or guardian, or any other competent adult with the consent of the minor's parent or guardian, while the parent or guardian or other adult is hunting or trapping any game or fur-bearing animal so long as the minor is not hunting or trapping and does not carry or use a firearm or any other weapon.

10. A person having a dog entered in a licensed field trial is not required to have a hunting license or fur harvester license to participate in the event or to exercise the person's dog on the area on which the field trial is to be held during the twenty-four-hour period immediately preceding the trial.

11. The commission shall issue without charge a special fishing license to residents of Iowa sixteen years or more of age who the commission finds have severe mental or physical disabilities. The commission is hereby authorized to prepare an application to be used by the person requesting the special license, which would require that the person's attending physician sign the form declaring that the person has a severe mental or physical disability and is eligible for exempt status.

12. The commission shall issue a special turkey hunting license or any sex deer hunting license to a nonresident twenty-one years of age or younger who the commission finds has a severe physical disability or has been diagnosed with a terminal illness. The licenses shall be issued as follows:

a. The commission may prepare an application to be used by the person requesting the special license, which requires that the person's attending physician sign the form declaring that the person has a severe physical disability or has been diagnosed with a terminal illness and is eligible for the special license.

b. The licenses provided pursuant to this subsection shall be in addition to the number of nonresident turkey hunting licenses authorized pursuant to section 483A.7 and nonresident deer hunting licenses authorized pursuant to section 483A.8.

c. The turkey hunting licenses are valid in all zones open to turkey hunting and shall be available for issuance and use during any turkey hunting season. The deer hunting licenses are valid in all zones open to deer hunting and shall be available for issuance and use during any deer hunting season.

d. A nonresident who receives a special license pursuant to this subsection shall purchase a hunting license that includes the wildlife habitat fee and the applicable nonresident turkey or deer hunting license, but is not required to complete the hunter education course if the person is accompanied and aided by a person who is at least eighteen years of age. The accompanying person must be qualified to hunt and have a hunting license that includes the wildlife habitat fee. During the hunt, the accompanying adult must be within arm's reach of the nonresident licensee.

e. The commission shall adopt rules under chapter 17A for the administration of this subsection.

13. No person shall be required to have a special wild turkey license to hunt wild turkey on a hunting preserve licensed under chapter 484B.

14. A lessee of a camping space at a campground may fish on a private lake or pond on the premises of the campground without a license if the lease confers an exclusive right to fish in common with the rights of the owner and other lessees.

15. The department may issue a permit, subject to conditions established by the

UNOFFICIAL VERSION 2021 IOWA CODE

department, which authorizes patients of a substance use disorder facility, residents of health care facilities licensed under chapter 135C, tenants of elder group homes licensed under chapter 231B, tenants of assisted living program facilities licensed under chapter 231C, participants who attend adult day services programs licensed under chapter 231D, participants in services funded under a federal home and community-based services waiver implemented under the medical assistance program as defined in chapter 249A, and persons cared for in juvenile shelter care homes as provided for in chapter 232 to fish without a license as a supervised group. A person supervising a group pursuant to this subsection may fish with the group pursuant to the permit and is not required to obtain a fishing license.

16. Upon payment of the fee established by rules adopted pursuant to section 483A.1 for a lifetime fishing license or lifetime hunting and fishing combined license, the department shall issue a lifetime fishing license or lifetime hunting and fishing combined license to a resident of Iowa who has served in the armed forces of the United States on federal active duty and who was disabled or was a prisoner of war during that veteran's military service. The department shall prepare an application to be used by a person requesting a lifetime fishing license or lifetime hunting and fishing combined license under this subsection. The department of veterans affairs shall assist the department in verifying the status or claims of applicants under this subsection. As used in this subsection, *"disabled"* means entitled to a service connected rating under 38 U.S.C. ch. 11.

17. Upon payment of a fee of five dollars, and any processing fee, for a lifetime fur harvester license, the department shall issue a lifetime fur harvester license to a resident of Iowa who has served in the armed forces of the United States on federal active duty and who was disabled during that veteran's military service. The department shall prepare an application to be used by a person requesting a lifetime fur harvester license under this subsection. The department of veterans affairs shall assist the department in verifying the status or claims of applicants under this subsection. As used in this subsection, *"disabled"* means entitled to a service connected rating under 38 U.S.C. ch. 11.

18. The department shall issue without charge a special annual fishing or combined hunting and fishing license to residents of this state who have permanent disabilities and whose income falls below the federal poverty guidelines as published by the United States department of health and human services or residents of this state who are sixty-five years of age or older and whose income falls below the federal poverty guidelines as published by the United States department of health and human services. The commission shall provide for, by rule, an application to be used by an applicant requesting a special license. The commission shall require proof of age, income, and proof of permanent disability.

19. The department may issue a permit, subject to conditions established by the department, which authorizes a student sixteen years of age or older attending an Iowa public or accredited nonpublic school who is participating in the Iowa department of natural resources fish Iowa! basic spincasting module to fish without a license as part of a supervised school outing.

20. Upon payment of a fee established by rules adopted pursuant to section 483A.1 for a lifetime trout fishing license, the department shall issue a lifetime trout fishing license to a person who is at least sixty-five years of age or to a person who qualifies for the disabled veteran homestead credit under section 425.1, subsection 2, paragraph *"b"*. The department shall prepare an application to be used by a person requesting a lifetime trout fishing license under this subsection.

21. Upon payment of a fee, not to exceed five dollars, established by rules adopted pursuant to section 483A.1 for an annual armed forces fishing license or annual armed forces hunting and fishing combined license, the department shall issue an annual armed forces fishing license or annual armed forces hunting and fishing combined license to a resident of Iowa who has served in the armed forces of the United States on federal active duty. The department shall prepare an application to be used by a person requesting an annual armed forces fishing license or annual armed forces hunting and fishing combined

483A.24B Special deer hunts.

1. The commission may establish a special season deer hunt for antlerless deer in those counties where paid antlerless only deer hunting licenses remain available for issuance.

2. Antlerless deer may be taken by shotgun, muzzleloading rifle, muzzleloading pistol, handgun, or bow during the special season as provided by the commission by rule.

3. Prior to December 15, a resident may obtain up to three paid antlerless only deer hunting licenses for the special season regardless of how many paid or free gun or bow deer hunting licenses the person may have already obtained. Beginning December 15, a resident or nonresident may purchase an unlimited number of antlerless only deer hunting licenses for the special season.

4. All antlerless deer hunting licenses issued pursuant to this section shall be included in the quotas established by the commission by rule for each county and shall be available in each county only until the quota established by the commission for that county is filled.

5. The daily bag and possession limit during the special season is one deer per license. The tagging requirements are the same as for the regular gun season.

6. A person who receives a license pursuant to this section shall be otherwise qualified to hunt deer in this state and shall purchase a hunting license that includes the wildlife habitat fee.

7. A person violating a provision of this section or a rule adopted pursuant to this section

483A.27 Hunter education program — license requirement.

1. A person born after January 1, 1972, shall not obtain a hunting license unless the person has satisfactorily completed a hunter education course approved by the commission. A person who is eleven years of age or more may enroll in an approved hunter education course, but a person who is eleven years of age and who has successfully completed the course shall be issued a certificate of completion which becomes valid on the person's twelfth birthday. A certificate of completion from an approved hunter education course issued in this state, or a certificate issued by another state, country, or province for completion of a course that meets the standards adopted by the international hunter education association — United States of America, is valid for the requirements of this section.

2. *a.* A certificate of completion shall not be issued to a person who has not satisfactorily completed an approved hunter education course. The department shall establish the curriculum based on the standards adopted by the international hunter education association — United States of America for the approved hunter education course. The curriculum shall include instruction relating to making an anatomical gift, including of an organ, an eye, or tissue, under the revised uniform anatomical gift Act as provided in chapter 142C. Upon completion of the course, each person shall pass an individual oral test or a written test provided by the department. The department shall establish the criteria for successfully passing the tests. Based on the results of the test and demonstrated safe handling of a firearm, the instructor shall determine the persons who shall be issued a certificate of completion.

b. Notwithstanding paragraph "*a*", a resident who is eighteen years of age or older may obtain a certificate of completion without demonstrating the safe handling of a firearm.

3. The department shall provide a manual regarding hunter education which shall be used by all instructors and persons receiving hunter education training in this state. The department may produce the manual in a print or electronic format accessible from a computer, including from a data storage device or the department's internet site.

4. The department shall provide for the certification of persons who wish to become hunter education instructors. A person shall not act as an instructor in hunter education as provided in this section without first obtaining an instructor's certificate from the department.

5. An officer of the department or a certified instructor may issue a certificate to a person who has not completed the hunter education course but meets the criteria established by the commission.

6. A public or private school accredited pursuant to section 256.11 or an organization

approved by the department may cooperate with the department in providing a course in hunter education or shooting sports activities as provided in this section.

7. A hunting license obtained under this section by a person who gave false information or presented a fraudulent certificate of completion shall be revoked and a new hunting license shall not be issued for at least two years from the date of conviction. A hunting license obtained by a person who was born after January 1, 1972, but has not satisfactorily completed the hunter education course or has not met the requirements established by the commission, shall be revoked.

8. The commission shall adopt rules in accordance with chapter 17A as necessary to carry out the administration of this section.

9. The initial hunter education certificate shall be issued without cost. A duplicate certificate shall be issued upon payment of the writing fee and administrative fee, if applicable.

10. A person under eighteen years of age who is required to exhibit a valid hunting license shall also exhibit a valid certificate of completion from a state approved hunter education course upon request of an officer of the department. A failure to carry or refusal to exhibit the certificate of completion as provided in this subsection is a violation of this chapter. A violator is guilty of a simple misdemeanor as provided in section 483A.42.

11. An instructor certified by the department shall be allowed to conduct a department-approved hunter education course or shooting sports activities course on public school property with the approval of a majority of the board of directors of the school district. Conducting an approved hunter education course or shooting sports activities course is not a violation of any public policy, rule, regulation, resolution, or ordinance which prohibits the possession, display, or use of a firearm, bow and arrow, or other hunting weapon on public school property or other public property in this state.

483A.27A Apprentice hunters.

1. Notwithstanding section 483A.27, a person who is sixteen years of age or older may purchase a hunting license with an apprentice hunter designation on the license without first completing a hunter education course if the person meets all the requirements of this section.

2. If the apprentice hunter is a minor, the person must be accompanied and aided while hunting by a mentor who is the person's parent or guardian, or be accompanied and aided by any other competent adult mentor with the consent of the minor's parent or guardian. If the apprentice hunter is not a minor, the apprentice hunter must be accompanied and aided while hunting by a competent adult mentor.

3. The mentor and the apprentice hunter must have valid hunting licenses that include the wildlife habitat fee and that are valid for the same seasons to hunt game.

a. A resident mentor and a resident apprentice hunter must also purchase deer hunting licenses and tags to hunt deer and wild turkey hunting licenses and tags to hunt wild turkey. Deer hunting licenses and tags purchased by a resident mentor and a resident apprentice hunter must be valid for the same seasons and zones. When hunting wild turkey, a resident mentor having a license valid for one of the spring wild turkey hunting seasons may accompany and aid a resident apprentice hunter who has a valid wild turkey hunting license for any of the spring seasons as provided by rule. When hunting wild turkey in the fall, a resident mentor and a resident apprentice hunter must each have a fall wild turkey hunting license valid for the current year. A transportation tag issued to a resident apprentice hunter shall not be used to tag a deer or wild turkey taken by another person.

b. A nonresident apprentice hunter is not entitled to purchase a deer hunting license to

hunt deer or a wild turkey hunting license to hunt wild turkey, or to participate in a hunt for deer or wild turkey.

4. While hunting, the apprentice hunter must be under the direct supervision of the mentor. For the purposes of this subsection, *"direct supervision"* means the mentor must maintain constant direction and control of the apprentice hunter and stay within a distance from the apprentice hunter that enables the mentor to give uninterrupted, unaided visual and auditory communications to the apprentice hunter. There must be one licensed mentor in direct supervision of each apprentice hunter.

5. A hunting license with an apprentice hunter designation issued pursuant to this section is valid from the date issued to January 10 of the succeeding calendar year for which it is issued. A hunting license with an apprentice hunter designation shall contain the address, signature, and a general description of the licensee.

6. A person is eligible to obtain a hunting license with an apprentice hunter designation pursuant to this section only two times. Subsequently, the person must meet the requirements of section 483A.27 in order to obtain a hunting license.

All boundary waters sport trotlines shall be tagged with the name and address of the licensee on a weather-resistant tag provided by the licensee and affixed above the waterline. A boundary waters sport trotline licensee is not permitted to sell, barter, or trade fish or turtles taken pursuant to the license.

2. A valid fishing license issued pursuant to this chapter entitles the licensee to take and possess a maximum of one hundred pounds of live turtles or fifty pounds of dressed turtles. Any unattended fishing gear used to take turtles pursuant to a fishing license shall be tagged with the name and address of the licensee on a weather-resistant tag provided by the licensee and affixed above the waterline. A fishing licensee is not permitted to sell, barter, or trade live or dressed turtles taken pursuant to the license.

3. A valid fishing license issued pursuant to this chapter entitles the licensee to take and possess a maximum amount of mussels or shells daily as authorized by rule under the authority of sections 456A.24, 481A.38, and 481A.39. A fishing licensee shall not sell, barter, or trade freshwater mussels or shells taken pursuant to the fishing license.

4. Any person who is issued a valid fishing license pursuant to this chapter may fish with a third line as provided in section 481A.72 only upon the annual purchase of a third line fishing permit as provided in rules adopted pursuant to section 483A.1.

SEIZURE OF CONTRABAND PROPERTY — CONDEMNATION

483A.32 Public nuisance.

1. Subject to subsection 2, any device, contrivance, or material used to violate a rule adopted by the commission, or any other provision of this chapter or chapter 481A, 481B, 482, 484A, or 484B, is a public nuisance and may be condemned by the state. The director, the director's officers, or any peace officer, shall seize the devices, contrivances, or materials used as a public nuisance, without warrant or process, and deliver them to a magistrate having jurisdiction. An automobile shall not be construed to be a public nuisance under this section.

2. The state may only condemn property seized as a public nuisance if the person from whom the property was seized is convicted of the violation for which the property was seized as a public nuisance.

3. If the person from whom the property was seized is not convicted of the violation for which the property was seized, the department, law enforcement agency, or other governmental agency in possession of the seized property shall return the seized property to the person within thirty days of any of the following:

a. The date the person is found not guilty of the violation.

b. The date the action involving the violation is dismissed.

c. The date the statute of limitations expires for the alleged violation for which the property was seized.

4. For purposes of this section, *"convicted"* means the same as in section 481A.13A, subsection 3.

483A.33 Disposition of property seized as public nuisance.

The disposition of property seized pursuant to section 483A.32 shall be conducted as follows:

1. The officer taking possession of property seized as a public nuisance shall make a written inventory of the property and deliver a copy of the inventory to the person from whom the property was seized. The inventory shall include the name of the person taking custody of the seized property, the date and time of seizure, location of the seizure, and the name of the seizing public agency. Property which has been seized shall be safely secured and stored by the public agency which caused its seizure unless directed otherwise by the county attorney of the county where the property was seized or by the attorney general.

2. *a.* The county attorney or attorney general may file with the clerk of the district court for the county in which the property was seized a notice of condemnation which shall include a description of the property claimed to be condemned by the state, the grounds upon which the state claims that the property has been condemned, the date and place of seizure, and the name of the person from whom the property was seized.

UNOFFICIAL VERSION: 2021 EARLY RELEASE

b. The notice shall be filed not later than six months after the property was seized. Failure to file within the time limit terminates the state's right to claim a condemnation of the property.

c. The state shall give notice of condemnation to the person from whom the property was seized and any person identified as an owner or lien holder, by certified mail, personal service, or publication.

3. *a.* The person from whom the property was seized may make application for its return in the office of the clerk of the district court for the county in which the property was seized. The application shall be filed within thirty days after the receipt of the notice of condemnation or the person is convicted of the violation for which the property was seized, whichever occurs later. Failure to file the application within this time period terminates the interest of the person and the ownership of the property shall be transferred to the state, except that a person who is not convicted of the violation for which the property was seized is not required to file an application and is entitled to the return of the property in accordance with section 483A.32.

b. The application for return of condemnable property shall be written and shall state the specific item or items sought, the nature and the source of the claimant's interest in the property, and the grounds upon which the claimant seeks to avoid condemnation. The ownership of property is not sufficient grounds for its return. The written application shall be specific and the claimant shall be limited at the judicial hearing to proof of the grounds set forth in the application for return. The fact that the property is inadmissible as evidence or that it may be suppressed is not grounds for its return. If specific grounds for return are not provided in the application for return, or the grounds are insufficient as a matter of law, the court may enter judgment on the pleadings without further hearing.

4. If an application for return of condemnable property is timely and of sufficient grounds, the claim shall be set for hearing. The hearing shall be held not less than ten nor more than thirty days after the claim is filed or the person is convicted for the violation for which the property was seized as a public nuisance, whichever occurs later. The proceeding shall be conducted by a magistrate or a district associate judge. All claims to the same property shall be heard in one proceeding unless it is shown that the proceeding would result in prejudice to one or more of the parties.

5. *a.* Upon a finding by the court that the property is condemnable, the court shall enter an order transferring title of the property to the state, and placed at the disposal of the director, who may use or sell the property, depositing the proceeds of the sale in the state fish and game protection fund.

b. Upon a finding by the court that the property should not be condemned, the property shall be returned to the person from whom it was seized. If the property is necessary for use as evidence in a criminal proceeding, the property shall not be returned until its use as evidence is no longer required.

c. On or before December 31, 2018, and on or before December 1 each year thereafter, the department shall report to the general assembly's standing committees on government oversight regarding the amount of the proceeds deposited to the state fish and game protection fund pursuant to this subsection. The report shall also contain all information recorded pursuant to paragraph *"d"*.

d. A seizing public agency that has custody of any property that is seized pursuant to a provision of this subchapter shall adopt and comply with a written internal control policy that does all of the following:

(1) Provides for keeping detailed records as to the amount of property acquired by the agency and the date property was acquired.

(2) Provides for keeping detailed records of the disposition of the property, which shall include the manner in which the property was disposed, the date of disposition, and detailed financial records concerning any property sold. The records shall not identify or enable identification of the individual officer who seized any item of property or the name of any person or entity who received any item of property.

e. The records kept under the internal control policy shall be open to public inspection during the agency's regular business hours. The policy adopted under this section is a public record open for inspection under chapter 22.

6. *a.* An employee of the seizing public agency or a member of the immediate family of the

employee shall not purchase a fish, fur, bird, animal, mussel, clam, or frog seized pursuant to section 481A.12, a device, contrivance, or material condemned pursuant to section 483A.32, or a weapon seized pursuant to section 483A.32 and disposed of pursuant to this section or section 809.21. For purposes of this subsection, *"member of the immediate family"* means a spouse, child, stepchild, brother, brother-in-law, stepbrother, sister, sister-in-law, stepsister, parent, parent-in-law, or stepparent of an employee of the seizing public agency who resides in the same household in the same principal residence of the employee of the seizing public agency.

b. The department shall provide a form on which a person purchasing property seized pursuant to section 481A.12 or 483A.32 shall declare that the person is not an employee of the seizing public agency or a member of the immediate family of an employee of the seizing public agency.

SUBCHAPTER VI

WILDLIFE HABITAT BONDS

483A.50 Definitions.

When used in this subchapter, unless the context otherwise requires:

1. *"Bonds"* means negotiable wildlife habitat bonds of the commission issued pursuant to this subchapter and includes all bonds, notes, and other obligations issued in anticipation of these bonds or as refunding bonds pursuant to this subchapter.
2. *"Treasurer"* means the treasurer of state of the state of Iowa.
3. *"Wildlife habitat bond fund"* means the fund created by section 483A.53.

86 Acts, ch 1231, §2
C87, §110.50
C93, §483A.50
2014 Acts, ch 1026, §143

483A.51 Bonds issued by the commission.

1. The commission may issue its negotiable bonds in principal amounts as, in the opinion of the commission, are necessary to provide funds for the acquisition of real property for the development and enhancement of wildlife lands and habitat areas, the payment of interest on its bonds and all other expenditures of the commission incident to and necessary or convenient to carry out the acquisition. However, the commission shall not have a total principal amount of bonds outstanding at any time in excess of eight million dollars. The bonds shall be deemed to be investment securities and negotiable instruments within the meaning of and for all purposes of chapter 554, the uniform commercial code.
2. Bonds issued by the commission are payable solely and only from the revenues credited to the wildlife habitat bond fund. Taxes or appropriations shall not be pledged for the payment of the bonds. Bonds are not an obligation of this state or any political subdivision of this state other than the commission within the meaning of any constitutional or statutory debt limitations, but are special obligations of the commission payable solely and only from the sources provided in this subchapter, and the commission shall not pledge the general credit or taxing power of this state or any political subdivision of this state or make its debts payable out of any moneys except those of the wildlife habitat bond fund.
3. Bonds must be authorized by a resolution of the commission. However, a resolution authorizing the issuance of obligations may delegate to an officer of the commission the power to negotiate and fix the details of an issue of bonds or notes by an appropriate certificate of the authorized officer.
4. The bond proceedings shall provide for the purpose of the bonds, principal amount and principal maturity or maturities, the interest rate or rates or the maximum interest rate, the date of the bonds and the dates of payment of interest on the bonds, their denomination, the terms and conditions upon which parity bonds may be issued, and the establishment within or without the state of a place or places of payment of principal of and interest on the bonds. The purpose of the bonds may be stated in the bond proceedings in terms describing the general purpose or purposes to be served. The commission may cause to be issued a prospectus or official statement in connection with the offering of the bonds. Bonds may be issued in coupon or in registered form, or both. Provision may be made for the registration of bonds with coupons attached as to principal alone, or as to both principal and interest, their exchange for bonds so registered, and for the conversion or reconversion into bonds with coupons attached of any bonds registered as to both principal and interest, and for reasonable charges for registration, exchange, conversion, and reconversion. Bonds shall be sold in the manner and at the time determined by the commission. Chapter 75 and sections 73A.12 through 73A.16 do not apply to these bonds. The bonds are negotiable instruments. The bond proceedings may contain additional provisions as to:

a. The redemption of bonds prior to maturity at the option of the commission at the price and on the terms and conditions provided in the bond proceedings.

b. Other terms of the bonds and concerning execution and delivery of the bonds.

UNOFFICIAL VERSION. SUBJECT TO FINAL EDITORIAL REVISION BEFORE PUBLICATION

c. The delegation of responsibility for any act relating to the issuance, execution, sale, redemption, or other matter pertaining to the bonds to any other officer, agency of the state, or other person or body.

d. Additional agreements with the bondholders relating to the bonds.

e. Payment from the proceeds of the sale of the bonds of all legal and financial expenses incurred by the commission in the issuance, sale, delivery, and payment of the bonds.

f. Other matters, alike or different, which may in any way affect the security of the bonds and the protection of the bondholders.

5. The power to issue bonds includes the power to issue obligations in the form of bond anticipation notes or other forms of short-term indebtedness and to renew these notes by the issuance of new notes. The holders of notes or interest coupons of notes have a right to be paid solely from those revenues credited to the wildlife habitat bond fund which were pledged to the payment of the bonds anticipated, or from the proceeds of those bonds or renewal notes, or both, as the commission provides in the bond proceedings authorizing the notes. The notes may be additionally secured by covenants of the commission to the effect that the commission will do those acts authorized by this subchapter and necessary for the issuance of the bonds or renewal notes in appropriate amount, and either exchange the bonds or renewal notes for the notes, or apply the proceeds of the notes, to the extent necessary, to make full payment of the principal of and interest on the notes at the time contemplated, as provided in the bond proceedings. For this purpose, the commission may issue bonds or renewal notes in a principal amount and upon terms as authorized by this subchapter and as necessary to provide funds to pay when required the principal of and interest on the outstanding notes. All provisions for and references to bonds in this subchapter are applicable to notes authorized under this subsection to the extent not inconsistent with this subsection.

6. The commission may authorize and issue bonds for the refunding, including funding and retirement, and advance refunding with or without payment or redemption prior to maturity, of bonds previously issued by the commission. These bonds may be issued in amounts sufficient for payment of the principal amount of the prior bonds, any redemption premiums on the prior bonds, principal maturities of bonds maturing prior to the redemption of the remaining bonds on a parity with them, interest accrued or to accrue to the maturity date or dates of redemption of the bonds, and project costs including expenses incurred or to be incurred in connection with this issuance, refunding, funding, and retirement. Subject to the bond proceedings, the portion of proceeds of the sale of bonds issued under this subsection to be applied to principal of and interest on the prior bonds shall be credited to the appropriate account for the prior bonds. Bonds authorized under this subsection shall be deemed to be issued for those purposes for which the prior bonds were issued and are subject to the provisions of this subchapter pertaining to other bonds. Refunding bonds may be issued without regard to whether or not the bonds to be refunded are payable on the same date or different dates or due serially or otherwise.

483A.52 Additional powers of commission.

In connection with the issuance of the bonds or in order to secure the payment of the bonds and interest on the bonds, the commission may by resolution:

1. Provide that the bonds be secured by a first lien on the revenues and receipts received or to be received into the wildlife habitat bond fund from income from the investment of the wildlife habitat bond fund, from moneys received from the sale of bonds, and from any other moneys which are available for the payment of bond service charges.

2. Pledge for the benefit of the bondholders any part of the receipts in the wildlife habitat bond fund. The pledge shall be effective without physical delivery or further act and moneys in the fund may be applied for the purposes as pledged without the necessity of an Act of appropriation.

3. Establish, authorize, set aside, regulate, and dispose of reserves and sinking funds.

UNOFFICIAL VERSION
2027 Annotated

4. Provide that sufficient amounts of the proceeds of the sale of the bonds may be used to fully or partially fund any and all reserves or sinking funds set out by the bond resolution.

5. Prescribe the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of the bonds whose holders must consent thereto, and the manner in which the consent may be given.

6. Purchase bonds, out of funds available for that purpose, which shall be canceled, at a price not exceeding either of the following:

a. If the bonds are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment date.

b. If the bonds are not then redeemable, the redemption price applicable on the first date after the purchase upon which the bonds become subject to redemption plus accrued interest to that date.

483A.53 Payment of bonds.

A wildlife habitat bond fund is created in the state treasury. At the direction of the commission as provided in the bond proceedings or pursuant to section 483A.52, subsection 1 or 2, and as certified by the director, the treasurer of state shall credit to the wildlife habitat bond fund from the revenues received from the sale of wildlife habitat stamps a sum at least sufficient to pay interest on the bonds in each fiscal year and principal on the bonds that mature during each fiscal year. In each fiscal year after July 1, 1986, and after bonds are issued, and until all the bonds issued have been retired, in order to provide for the payment of principal of the bonds issued and sold and the interest on them as the same become due and mature, there is pledged and annually appropriated out of the revenues to be credited to the wildlife habitat bond fund an amount sufficient to pay principal and interest on the bonds issued for each of the years the bonds are outstanding. The director shall annually certify to the treasurer the amount of funds required to pay interest on the bonds in the ensuing fiscal year and the principal on the bonds that mature during the ensuing fiscal year.

483A.54 Nonliability of the state and its officials.

1. Bonds issued are special limited obligations of the commission and are not a debt or liability of the state or any other political subdivision within the meaning of any constitutional or statutory debt limitation and are not a pledge of the state's credit or taxing power within the meaning of any constitutional or statutory limitation or provision and, except as provided in this subchapter, an appropriation shall not be made, directly or indirectly, by the state or any political subdivision of the state for the payment of bonds. The bonds are special obligations of the commission payable solely from the wildlife habitat bond fund. Funds from the general fund of the state shall not be used to pay interest or principal on the bonds if revenues deposited in the wildlife habitat bond fund are insufficient.

2. The members of the commission or other person executing the bonds is not personally liable for the payment of the bonds. The bonds are valid and binding obligations of the commission notwithstanding the fact that before the delivery of the bonds any of the officers whose signatures appear on the bonds cease to be officers of the state. From and after the sale and delivery of the bonds, they shall be incontestable by the commission.

484B.4 Hunting preserve operator's license — application and requirements.

1. A person who owns or controls by lease or otherwise for five or more years, a contiguous tract of land having an area of not less than three hundred twenty acres, and who desires to establish a hunting preserve, to propagate and sell game birds and their young or unhatched eggs, and shoot game birds and ungulates on the land, under this chapter or the rules of the commission, shall make application to the department for an operator's license. The application shall be made under oath of the applicant or under oath of one of its principal officers if the applicant is an association or corporation. Under the authority of this license, any property or facilities to be used for propagating, holding, processing, or pasturing of game birds or ungulates shall not be required to be contained within the contiguous land area used for hunting purposes. The application shall be accompanied by an operator's license fee of two hundred dollars.

2. Upon receipt of an application, the department or its authorized agent shall inspect the proposed hunting preserve and facilities described in the application. If the department finds that the proposed hunting preserve meets the following requirements, the department may approve the application and issue a hunting preserve operator's license for the operation of the property and facilities described in the application with the rights and subject to the limitations in this chapter and the rules adopted by the commission:

a. The proposed hunting preserve contains at least three hundred twenty acres but not more than two thousand five hundred sixty acres.

b. The area of the proposed hunting preserve is contiguous.

c. The total area of all licensed hunting preserves and the proposed hunting preserve will not exceed three percent of the land area of the county.

d. The game birds or ungulates released on the preserve will not be detrimental to wildlife.

e. The proposed hunting preserve will not interfere with the normal activities of migratory birds.

3. All hunting preserve operator's licenses shall expire on March 31 of each year.

92 Acts, ch 1160, §4; 99 Acts, ch 208, §36; 2008 Acts, ch 1031, §54; 2008 Acts, ch 1032, §106
Referred to in §484B.4A

484B.4A Minimum enclosed acreage — exceptions.

A hunting preserve on which elk are kept must include at least three hundred twenty contiguous acres which are enclosed by a fence as required pursuant to section 484B.5. However, a person may keep elk only on a hunting preserve that includes a fewer number of enclosed acres if either of the following applies:

1. The commission grants a waiver for the hunting preserve according to terms and conditions required by the commission. The hunting preserve must include at least one hundred sixty contiguous acres.

2. *a.* The hunting preserve was operated as a business on January 1, 2005.

b. If the hunting preserve operated as a business on January 1, 2005, the landowner or the landowner's successor in interest may sell or otherwise transfer ownership of the hunting preserve to another person who may continue to operate the hunting preserve in the same manner as the landowner. However, this paragraph shall not apply if the owner of the hunting

preserve or any successor in interest fails to meet the licensing requirements of section 484B.4 each year.

2012 Acts, ch 1118, §16, 21

484B.5 Boundaries signed — fenced.

Upon receipt of a hunting preserve operator's license, the licensee shall promptly sign the licensed property with signs prescribed by the department. A licensee holding and releasing ungulates shall construct and maintain boundary fences prescribed by the department so as to enclose and contain all released ungulates and exclude all ungulates which are property of the state from becoming a part of the hunting preserve enterprise.

Referred to in §484B.4A

484B.6 Game birds released.

The licensee of a licensed hunting preserve may take, or authorize to be taken within the season, the numbers of game birds as provided in this section:

1. A licensed hunting preserve may take up to eighty percent of the total number of pheasant and quail released. One hundred percent of all other game birds released may be taken.

2. A minimum of five hundred game birds shall be released during the hunting preserve season by each licensed hunting preserve authorized to release game birds.

3. A licensee operating two or more licensed hunting preserve areas shall release a cumulative minimum of eight hundred game birds during the hunting preserve season.

4. If hen ring-necked pheasants are shot on the licensed hunting preserve, no less than thirty-five percent of all ring-necked pheasants released shall be hens.

92 Acts, ch 1160, §6

484B.7 Records — reports — inspections.

1. Each hunting preserve licensee shall keep the records and make the reports required on forms prepared and provided by the department. All records shall be open for inspection at any reasonable time by the department or its authorized agents.

2. Each licensee shall file an annual report with the department on or before April 30. The report shall detail the hunting preserve operations during the preceding license year. The original report shall be forwarded to the department and a copy shall be retained in the hunting preserve's file for three years from the date of expiration of the hunting preserve's last license issued. Records required by this section shall be entered in the annual report record within twenty-four hours of the event. Failure to keep or submit the required records and reports is grounds for refusal to renew a license for the succeeding year. An on-site inspection of property and facilities shall be conducted by an authorized agent of the department prior to the initial issuance of a hunting preserve operator's license. The hunting preserve may be reinspected by an agent of the department at any reasonable time. A licensed hunting preserve shall maintain adequate facilities for all designated birds and ungulates held under the hunting preserve operator's license.

484B.8 Game bird transportation tags — markings.

The department shall prepare transportation tags suitable for use upon the legs of game birds described in this chapter. The tags shall be of a type which are not removable without breaking and mutilating the tag. The tags shall be used to designate all game birds taken by hunters upon a licensed hunting preserve. The department shall provide licensees with the tags. All dead game birds removed from a licensed hunting preserve shall have a hunting preserve tag affixed to one leg prior to being transported from the licensed hunting preserve, except as otherwise provided by rule of the commission. All mallards released for hunting purposes shall be physically marked by the removal of the hind toe from the right foot at not

more than four weeks of age, so as to provide for permanent identification. Game bird tags issued to a hunting preserve are not transferable.

92 Acts, ch 1160, §8

484B.9 Ungulate transportation tags — markings.

The department shall prepare transportation tags suitable for use upon the carcass of ungulates described in this chapter. The tags shall be used to designate all ungulates taken by hunters upon a licensed hunting preserve. The department shall provide licensees with the tags. All ungulates taken on a licensed hunting preserve shall be tagged with a numbered tag prior to being removed from the hunting preserve. The hunter shall tag the ungulate taken in accordance with the rules as determined by the department. The tag shall remain attached to the carcass of the dead ungulate until processed for consumption. The hunter shall be provided with a bill of sale by the licensee. The bill of sale shall remain in the possession of the hunter. Ungulate tags issued to a hunting preserve are not transferable.

92 Acts, ch 1160, §9

484B.10 Season — hunting preserve hunting license.

1. *a.* A person shall not take a game bird or ungulate upon a hunting preserve, by shooting in any manner, except during the established season or as authorized by section 481A.56. The established season shall be September 1 through March 31 of the succeeding year, both dates inclusive. The owner of a hunting preserve shall establish the hunting season for nonnative, pen-reared ungulates on the hunting preserve.

b. A game bird hunting preserve operator may apply for a variance to extend the season date beyond March 31 for that preserve if the monthly precipitation is above average for the county in which the preserve is located for at least two months out of the months of January, February, and March of that season. The state climatologist appointed pursuant to section 159.5 shall provide official national weather service and community collaborative rain, hail and snow network data to the department to determine whether a variance to the established season shall be granted. The department shall not grant a variance to a game bird preserve that extends the season beyond April 15 of the year for which the variance is requested. A person hunting on a game bird hunting preserve on a date after March 31 pursuant to an extension granted under this paragraph shall only hunt for and take chukars, quail, or rooster pheasants.

2. Waterfowl shall not be shot over any area where pen-reared mallards may serve as live decoys for wild waterfowl. All persons hunting game birds or ungulates upon a licensed hunting preserve shall secure a hunting license that includes the wildlife habitat fee in accordance with the game laws of Iowa, with the exception that an unlicensed person may secure an annual hunting preserve hunting license restricted to hunting preserves only for a license fee of five dollars. All persons who hunt on hunting preserves shall pay the wildlife habitat fee.

3. A nonresident youth under sixteen years of age may hunt game birds on a licensed hunting preserve upon securing an annual hunting preserve hunting license restricted to hunting preserves only for a license fee of five dollars and payment of the wildlife habitat fee. A nonresident youth is not required to complete the hunter education course to obtain a hunting preserve hunting license pursuant to this subsection if the youth is accompanied by a person who is at least eighteen years of age, is qualified to hunt, and possesses a valid hunting license that includes the wildlife habitat fee. During the hunt, the accompanying adult must be within arm's reach of the nonresident youth.

484C.2 Application of chapter.

1. A landowner shall not keep whitetail unless the whitetail are kept as preserve whitetail pursuant to this chapter or as farm deer pursuant to chapter 170.

2. This chapter authorizes the department of natural resources to regulate preserve whitetail. However, the department of agriculture and land stewardship shall regulate whitetail kept as farm deer pursuant to chapter 170.

2005 Acts, ch 139, §15

484C.3 Rules.

The department shall adopt rules pursuant to chapter 17A as necessary to administer this chapter.

2005 Acts, ch 139, §16
Referred to in §484C.4

484C.4 Departmental programs and requirements.

The department shall develop, administer, and enforce hunting preserve programs and requirements, which implement the provisions of this chapter and rules adopted by the department pursuant to section 484C.3, regarding fencing, recordkeeping, reporting, and the tagging, transportation, testing, and monitoring for disease of preserve whitetail.

2005 Acts, ch 139, §17

484C.5 Minimum enclosed acreage — exceptions.

1. A hunting preserve must include at least three hundred twenty contiguous acres which are enclosed by a fence certified pursuant to section 484C.6. However, the hunting preserve may include a fewer number of enclosed acres if any of the following applies:

a. The commission grants a waiver for the hunting preserve according to terms and conditions required by the commission. The hunting preserve must include at least one hundred sixty contiguous acres.

b. (1) The hunting preserve was operated as a business on January 1, 2005.

(2) If the hunting preserve operated as a business on January 1, 2005, the landowner or the landowner's successor in interest may sell or otherwise transfer ownership of the hunting preserve to another person who may continue to operate the hunting preserve in the same manner as the landowner. However, this subparagraph shall not apply if the owner of the hunting preserve or any successor in interest fails to register with the department as provided in section 484C.7 for three or more consecutive years.

c. (1) The hunting preserve was not operated as a business on January 1, 2005, and all of the following apply:

(a) The hunting preserve has at least one hundred contiguous acres.

(b) The hunting preserve's fence is certified by the department not later than September 1, 2005.

(2) If the hunting preserve complies with subparagraph (1), the landowner or the landowner's successor in interest may sell or otherwise transfer ownership of the hunting preserve to another person who may continue to operate the hunting preserve in the same manner as the landowner. However, this subparagraph shall not apply if the owner of the hunting preserve or any successor in interest fails to register with the department as provided in section 484C.7 for three or more consecutive years.

2. Notwithstanding any other provision of this chapter or chapter 484B, a person may keep whitetail and elk together on a hunting preserve that includes less than three hundred

Referred to in §484C.6

484C.6 Fencing — certification.

1. A fence required to enclose preserve whitetail under section 484C.5 must be constructed and maintained as prescribed by rules adopted by the department and as certified by the department. The fence shall be constructed and maintained to ensure that the preserve whitetail are kept in the enclosure and all other whitetail are excluded from the enclosure.

2. A fence that was certified by the department of agriculture and land stewardship pursuant to chapter 170 prior to July 1, 2005, shall be certified by the department of natural resources.

3. A fence shall be at least eight feet in height above ground level. The enclosure shall be posted with signs as prescribed by rules adopted by the department.

4. The department may require that the fence be inspected and approved by the department prior to certification. The department shall periodically inspect the fence at any reasonable time by appointment or by providing the landowner with at least forty-eight hours' notice.

2005 Acts, ch 139, §19
Referred to in §484C.5, 484C.8, 484C.13

484C.7 Registration and fee.

A landowner who keeps preserve whitetail shall annually register the landowner's hunting preserve with the department by June 30. The landowner shall pay the department a registration fee. The amount of the registration fee shall not exceed three hundred fifty dollars per fiscal year. The fee shall be deposited into the state fish and game protection fund.

2005 Acts, ch 139, §20
Referred to in §484C.5, 484C.9, 484C.13

484C.8 Requirements for releasing whitetail — property interests.

A person shall not release whitetail kept as preserve whitetail onto land unless the landowner complies with all of the following:

1. The landowner must notify the department at least thirty days prior to first releasing the preserve whitetail on the land. The notice shall be provided in a manner required by the department. The notice must at least provide all of the following:

a. A statement verifying that the fence which encloses the land is certified by the department pursuant to section 484C.6.

b. The landowner's name.

c. The location of the land enclosed by the fence.

2. The landowner shall cooperate with the department to remove any whitetail from the enclosed land. However, after the thirtieth day following receipt of the notice, the state shall relinquish its property interest in any remaining whitetail that the landowner and the department were unable to remove from the enclosed land. Any remaining whitetail existing at that time on the enclosed land, and any progeny of the whitetail, shall become preserve whitetail and property of the landowner.

3. A hunting preserve may include whitetail which were regulated as farm deer by the department of agriculture and land stewardship pursuant to chapter 170 and transported to the hunting preserve. The whitetail shall be considered farm deer until released onto the hunting preserve. Once released onto the hunting preserve, the whitetail and its progeny become preserve whitetail and are subject to regulation by the department of natural resources.

2005 Acts, ch 139, §21

484C.9 Documentation — inspections.

1. The department shall prepare forms for documents, including records and reports, and

UNOFFICIAL VERSION
NOT FOR RELEASE

provide such forms to landowners in order to comply with this section. The department shall provide procedures for the receipt, filing, processing, and return of documents in an electronic format. The department shall provide for the authentication of the documents that may include electronic signatures as provided in chapter 554D. However, this subsection does not require a landowner to complete or receive a document in an electronic format.

2. A landowner who operates a hunting preserve shall do all of the following:

a. Keep records as required by the department. The records shall be open for inspection at any reasonable time by the department.

b. File an annual report with the department on or before June 30. The report shall describe the hunting preserve operations during the preceding twelve months. The original report shall be forwarded to the department and a copy shall be retained in the hunting preserve's file for three years from the date of expiration of the landowner's last registration as provided in section 484C.7.

c. Keep a record of a documented event as required by the department. The record of the documented event shall be entered in the annual report required in this section. The record of the documented event shall be maintained by the landowner and submitted to the department. The entry of the documented event shall be made within twenty-four hours after its occurrence as prescribed by departmental rule.

2005 Acts, ch 139, §22
Referred to in §484C.13

484C.10 Taking preserve whitetail — transportation tags.

The department shall provide transportation tags to a landowner for use in identifying the carcass of preserve whitetail.

1. The tags shall be used to designate all preserve whitetail taken by persons on the hunting preserve. A person taking the preserve whitetail shall tag the preserve whitetail in accordance with the rules adopted by the department.

2. The preserve whitetail taken on a hunting preserve shall be tagged prior to being removed from the hunting preserve.

3. A tag shall remain attached to the carcass of the dead preserve whitetail until processed for consumption. The person taking the preserve whitetail shall be provided with a bill of sale by the landowner. The bill of sale shall remain in the possession of the person taking the preserve whitetail.

4. Preserve whitetail tags issued to a hunting preserve are not transferable.

2005 Acts, ch 139, §23

484C.11 Taking preserve whitetail — processing.

If preserve whitetail have been taken, the harvested preserve whitetail may be processed by the hunting preserve as prescribed by rules adopted by the department. The rules shall provide for the marking and shipment of meat.

2005 Acts, ch 139, §24

484C.12 Health requirements — chronic wasting disease.

1. Preserve whitetail that are purchased, propagated, confined, released, or sold by a hunting preserve shall be free of diseases considered reportable for wildlife, poultry, or livestock. The department may provide for the quarantine of diseased preserve whitetail that threaten the health of animal populations.

2. The landowner, or the landowner's veterinarian, and an epidemiologist designated by the department shall develop a plan for eradicating a reportable disease among the preserve whitetail population. The plan shall be designed to reduce and then eliminate the reportable disease, and to prevent the spread of the disease to other animals. The plan must be developed and signed within sixty days after a determination that the preserve whitetail population is affected with the disease. The plan must address population management and adhere to rules adopted by the department. The plan must be formalized as a memorandum of agreement

executed by the landowner or landowner's veterinarian and the epidemiologist. The plan must be approved by the department.

2005 Acts, ch 139, §25

484C.13 Penalties.

1. A person who violates a provision of this chapter or a rule adopted pursuant to this chapter is guilty of a simple misdemeanor.

2. A landowner who keeps preserve whitetail and who fails to register with the department as required in section 484C.7 is subject to a civil penalty of not more than two thousand five hundred dollars. The civil penalty shall be deposited in the state fish and game protection fund.

3. The department may suspend or revoke a fence certification issued pursuant to section 484C.6 if the department determines that a landowner has done any of the following:

a. Provided false information to the department in an application for fence certification pursuant to section 484C.6.

b. Failed to provide access to the department for an inspection as provided in this chapter.

c. Failed to maintain adequate records or to submit timely reports as provided in section 484C.9.

d. Failed to maintain a fence enclosing the land where preserve whitetail are kept as required by this chapter. The department shall not suspend or revoke a certification if the landowner remedies each item as provided in a notice of deficiency delivered to the landowner by the department. The remedies shall be completed within seven days from receipt of the notice. The notice shall be hand delivered or sent by certified mail.
