**Subject:** State Government Efficiency Review Committee

Please Post For All Employees To Read

To: All DOT Employees

The Iowa State Legislature established a State Government Efficiency Review Committee. The committee is requesting input from State of Iowa employees on any ideas you may have to reduce costs and increase efficiency in state government. The Iowa Department of Transportation has worked hard to control costs and be more efficient with its resources. We have been able to do this, in large part, because of your knowledge, experience and innovation. As our vision indicates, our desire is to be "Smarter, Simpler and Customer Driven."

To that end if you have any suggestions they should be submitted directly to the Committee using the link below. The Committee is asking to receive comments by December 18, 2013. <https://www.legis.iowa.gov/APPS/Feedback/ResponseForm.aspx?qid=2>

Thank you for all you have done and will do for all those who we serve.

Sincerely,

The Management Team
