Subject: State Employee Efficiency Suggestions

The legislative State Government Efficiency Review Committee, established pursuant to Iowa Code section 2.69, has unanimously agreed to request assistance from agency heads in fulfilling the committee's mission of reviewing the operations of state government with the goal of improving efficiency, modernizing processes, eliminating duplication and outdated processes, reducing costs, and increasing accountability.

Specifically, the committee requests that state employees be requested to submit any ideas that will reduce costs and increase efficiency in state government. The committee has made a website available to capture these suggestions. Suggestions can be submitted electronically through the committee's public comment internet site. <https://www.legis.iowa.gov/APPS/Feedback/ResponseForm.aspx?qid=2>.

Please direct your responses to the committee's website by December 18, 2013. Please contact Deborah Thompson (deborah.thompson@idph.iowa.gov) if you have any questions.

Thank you, Jen
