Attachments: Technology 2003-2004.xls; State Board of Education Tech Adv Principles.doc

Technology 003-2004.xls (320 . State Board of Education Tech ...

Kathy,

The attached documents address two items:

1. The guiding principles of the State Board Technology Advisory Committee developed during 2003-04
2. Method of Internet access by district and building

We think these are the only two information items requested of the DE last Friday. If that is in error, let me know. Thanks.

**State Board of Education
Technology Advisory Committee
Guiding Principles
2003-04**

1. Leadership -- The impact of technology on student learning is dependent on educational leadership at all levels of the system.

2. Quality Teaching/Instruction – Quality teachers who can effectively use educational technology to improve teaching and engage the learner are essential for improving student achievement. A quality teacher uses educational technology in a manner that is appropriate for the age and developmental needs of the students.

3. Professional Development – It is critical that preservice training and professional development address the effective use of technology for instruction.

4. Curriculum/Assessment – Students' technology skills should be integrated into the curriculum and assessed through the demonstration of learning within content areas.

5. Equitable Access – All Iowa students should have equitable access to education opportunities offered via the use of technology/telecommunications.

6. Educational Technology Planning – Planning, budgeting and upgrade decisions about technology should be based on the appropriate and effective use of technology to improve instruction
