

R E P O R T

of the

CAPITOL SPACE ALLOCATION COMMITTEE

The Capitol Space Allocation Committee of the Legislative Council met on January 6, 1988 in the Speaker's Conference Room of the State House with representatives of the Department of General Services to discuss space allocation plans and following the meeting the members of the Committee toured the Old Historical Building.

The Capitol Space Allocation Committee directed the Department of General Services to provide information to the Committee relating to the amount of space currently occupied by the Legislative Service Bureau and the Legislative Fiscal Bureau and the amount of space presently available in the Old Historical Building. The Committee directed the Department to determine the amount of space available in the Old Historical Building with the state library remaining in the building and the amount of space available if the state library moves from the building. The Department of General Services shall also prepare an estimate of the costs of providing direct tunnel access between the Old Historical Building and the State House, including alternatives available as it relates to the tunnel access, and that any proposals prepared by the Department of General Services be submitted to the Capitol Planning Commission for its approval.

The Capitol Space Allocation Committee recommends to the Legislative Council that the Legislative Council enter into discussions with the Auditor of State concerning the possible vacation of the Auditor of State's offices located on the east side of the first floor of the State House to permit this area to be used for legislative committee rooms.

Respectfully submitted,

Senator Bill Hutchins
Co-Chairperson.

Speaker Donald D. Avenson
Co-Chairperson
