SENATE FILE 270

AN ACT

RELATING TO THE MILITARY CODE BY AMENDING THE POWERS OF THE
ADJUTANT GENERAL AND BY ALLOWING THE ARMORY BOARD TO ENTER
INTO DESIGN-BUILD CONTRACTS FOR THE CONSTRUCTION OF CERTAIN
NATIONAL GUARD FACILITIES.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF IOWA:

Section 1. Section 29A.12, subsection 1, Code 2007, is amended to read as follows:

1. The adjutant general shall have command and control of the military division, and perform such duties as pertain to the office of the adjutant general under law and regulations, pursuant to the authority vested in the adjutant general by the governor. The adjutant general shall superintend the preparation of all letters and reports required by the United States from the state, and perform all the duties prescribed by law. The adjutant general shall have charge of the state military reservations, and all other property of the state kept or used for military purposes. The adjutant general may accept and expend nonappropriated funds in accordance with law and regulations. The adjutant general shall cause an inventory to be taken at least once each year of all military stores, property, and funds under the adjutant general's jurisdiction. In each year preceding a regular session of the general assembly, the adjutant general shall prepare a detailed report of the transactions of that office, its expenses, and other matters required by the governor for the period since the last preceding report, and the governor may at any time require a similar report.

Sec. 2. Section 29A.57, subsection 3, Code 2007, is amended by adding the following new paragraph:

NEW PARAGRAPH. e. Enter into a design-build contract with a successful bidder identified as a result of a competitive bidding process for a facility to be funded entirely with federal funds and to be used solely by the national guard or jointly by the national guard and other armed forces of the United States. A design-build contract may provide that design and construction of the project may be in sequential or concurrent phases. As used in this paragraph, "design-build contract" means a single contract providing for both design services and construction services that may include maintenance, operations, preconstruction, and other related services.
