1. "Concurrent enrollment" means any course offered to students in grades nine through twelve during the regular school year approved by the board of directors of a school district through a contractual agreement between a community college and the school district that meets the provisions of [section 257.11, subsection 3](#). "Concurrent enrollment" also means any course offered to students in grades nine through twelve during the regular school year approved by the authorities in charge of an accredited nonpublic school through a contract with a community college in accordance with section

Sec. 8. Section 261E.8, subsection 2, Code 2019, is amended to read as follows:

2. a. Students from accredited nonpublic schools and students receiving competent private instruction or independent private instruction under [chapter 299A](#) may access the program through the school district in which the accredited nonpublic school or private institution is located.

b. However, the accredited nonpublic school need not meet requirements for career and technical education more stringent than the requirements of section 256.11B. A student who wishes to participate in the program must make application to the accredited nonpublic school and the community college in the manner established under subsection 3 and meet the requirements of this section.

(2) An accredited nonpublic school that provides units of mathematics, science, and career and technical education under an agreement that meets the requirements of subparagraph (1) shall be deemed to have met the education program requirement for the units of mathematics, science, and career and technical education provided, as applicable, under section 256.11, subsection 5, paragraphs "a", "d", or "e", or section 256.11B.

(3) A community college that enters into a contract as provided in this paragraph shall submit to the department, during the fall and spring semesters, or the equivalent, a list of the accredited nonpublic school students enrolled for the semester, or the equivalent, who are participating in the program. (4) Subject to an appropriation of funds by the general assembly for this purpose, the department shall calculate, using the state cost per pupil, and pay to a community college for each semester in which a student is concurrently enrolled in the community college in accordance with this paragraph "b" an amount equivalent to the amount a school district would receive if the student was assigned a weighting under section 257.11, subsection 3, paragraph "b". If the amount appropriated annually for purposes of this paragraph "b" is insufficient to pay to community colleges the full amount for students concurrently enrolled in a community college in accordance with this paragraph "b", the department shall annually prorate the amount for payments to community colleges for the concurrent enrollment of accredited nonpublic students under this paragraph "b". A community college shall decrease the amount billed to the accredited nonpublic school by the amount
