13. If a reported victim does not want the victim's name recorded on the kit, the kit shall be deemed an anonymous kit and a case number or the number assigned to the kit by the kit tracking system shall be used in place of the name of the reported victim and entered into the kit tracking system by the health care provider within forty-eight hours of receipt of the kit. An anonymous kit shall not be submitted for analysis until a victim has provided law enforcement with a criminal report and has consented to an analysis of the evidence collected from the victim's forensic medical examination.
