The election shall be effective for a minimum of one calendar year and may be changed if an election is made to become a reimbursable employer prior to December 1 for a minimum of the following calendar year.

(2) However, if on the effective date of the election the governmental entity has a negative balance in its contributory account, the governmental entity shall pay to the fund within a time period determined by the department the amount of the negative balance and shall immediately become liable to reimburse the unemployment compensation fund for benefits paid in lieu of contributions. Regular or extended benefits paid after the effective date of the election, including those based on wages paid while the governmental entity was a contributory employer, shall be billed to the governmental entity as a reimbursable employer.

b. (1) A governmental entity electing to make contributions as a contributory employer, with at least eight consecutive calendar quarters immediately preceding the computation date throughout which the employer's account has been chargeable with benefits, shall be assigned a contribution rate under this paragraph. Contribution rates shall be assigned by listing all governmental contributory employers by decreasing percentages of excess from the highest positive percentage of excess to the highest negative percentage of excess. The employers so listed

shall be grouped into seven separate percentage of excess ranks each containing as nearly as possible one-seventh of the total taxable wages of governmental entities eligible to be assigned a rate under this paragraph.

(2) As used in this ~~subsection~~ paragraph, "*percentage of excess*" means a number computed to six decimal places on July 1 of each year obtained by dividing the excess of all contributions attributable to an employer over the sum of all benefits charged to an employer by the employer's average annual payroll. An employer's percentage of excess is a positive number when the total of all contributions paid to an employer's account for all past periods to and including those for the quarter immediately preceding the rate computation date exceeds the total benefits charged to such account for the same period. An employer's percentage of excess is a negative number when the total of all contributions paid to an employer's account for all past periods to and including those for the quarter immediately preceding the rate computation date is less than the total benefits charged to such account for the same period.

(3) As used in this ~~subsection~~ section, "*average annual taxable payroll*" means the average of the total amount of taxable wages paid by an employer for insured work during the three periods of four consecutive calendar quarters immediately preceding the computation date. However, for an employer which qualifies on any computation date for a computed rate on the basis of less than twelve consecutive calendar quarters of chargeability immediately preceding the computation date, "*average annual taxable payroll*" means the average of the employer's total amount of taxable wages for the two periods of four consecutive calendar quarters immediately preceding the computation date.

(4) The department shall annually calculate a base rate for each calendar year. The base rate is equal to the sum of the benefits charged to governmental contributory employers in the calendar year immediately preceding the computation date plus or minus the difference between the total benefits and contributions paid by governmental contributory employers since January 1, 1980, which sum is divided by the total taxable

wages reported by governmental contributory employers during the calendar year immediately preceding the computation date, rounded to the next highest one-tenth of one percent. Excess contributions from the years 1978 and 1979 shall be used to offset benefits paid in any calendar year where total benefits exceed total contributions of governmental contributory employers. The contribution rate as a percentage of taxable wages of the employer shall be assigned as follows:

If the percentage of excess rank is:	The contribution rate shall be:	Approximate cumulative taxable payroll
---	------------------------------------	---

1	Base Rate - 0.9	14.3
2	Base Rate - 0.6	28.6
3	Base Rate - 0.3	42.9
4	Base Rate	57.2
5	Base Rate + 0.3	71.5
6	Base Rate + 0.6	85.8
7	Base Rate + 0.9	100.0

(5) If a governmental contributory employer is grouped into two separate percentage of excess ranks, the employer shall be assigned the lower contribution rate of the two percentage of excess ranks. Notwithstanding the provisions of this paragraph, a governmental contributory employer shall not be assigned a contribution rate less than one-tenth of one percent of taxable wages unless the employer has a positive percentage of excess greater than five percent.

(6) Governmental entities electing to be contributory employers which are not eligible to be assigned a contribution rate under this paragraph shall be assigned the base rate as a contribution rate for the calendar year.
