EXPLANATION OF HOUSE FILE 583

The purpose of this bill is to prohibit parking on any portion of the Interstate System. The interstate highways are to serve fast-moving traffic, and any parking on the shoulder or driving on or off the roadway interferes with the movement of traffic. People traveling on the interstate are educated not to expect any interference from off or on traffic except at interchanges and at established rest areas where signs will be erected to alert the driver of on and off traffic. Regulations of the Bureau of Public Roads also prohibit parking on any portion of the Interstate System.
