EXPLANATION OF AMENDMENT TO HOUSE FILE 736

1 The report of the Iowa Legislative Subdistricting Commis-
2 sion on subdistricting for Marshall County provided the
3 objectionable "hole in the donut" arrangement and arbitrarily
4 severed one precinct in the city for attachment to the rural
5 area, with a 1960 population of 18,210 for District 1 and
6 19,774 for District 2, with a difference in population of
7 1,564.

8 This arrangement is objected to by interested citizens in
9 Marshall County and the Marshalltown Chamber of Commerce for
10 two substantive reasons: 1) The "hole in the donut"
11 arrangement accentuates a difference between rural and
12 urban area which should be avoided; and 2) it would be
13 unfair to the citizens of the 6th precinct. The amendment
14 as submitted is fair, equitable, practical and workable.
15 The Bill is impractical and unworkable. The proposed
16 amendment provides for three urban precincts with rural
17 townships for District 1 and three urban precincts with
18 rural townships for District 2, and divides the county
19 one-half north and one-half south, with a difference in
20 population of 396. With annexation since 1960 on the east,
21 west and south of the city, the voting precincts were
22 changed in harmony. The County Board of Supervisors has
23 adjusted township lines in harmony with the changed
24 boundaries of precincts. The effective date of June 1,
25 1967 for precinct boundaries will eliminate the hopeless
26 confusion which would otherwise ensue on the date of
27 election. This amendment is in harmony with the alternate
28 computer plan submitted by S. U. I.
