21 EXPLANATION

22 This bill appropriates funds for the development and use  
 23 of a data processing interactive decision evaluation action  
 24 system. Data contained in the system would relate to state  
 25 budgeting procedures, and also would include information which  
 26 will aid in analyzing proposals relating to property taxes  
 27 and other taxes and their effect upon state and local  
 28 government. Provisions are included for the administration  
 29 of the system. The daily administration of the system would  
 30 be the responsibility of the legislative fiscal bureau, however  
 31 the state comptroller must participate in the decision as  
 32 to the data which will be placed in the system and the  
 33 employment of a data base manager.
