2 Sec. 20. Section two hundred eighty-five point two (285.2),

19 Sec. 22. All federal grants to and the federal receipts
20 of agencies appropriated funds under this Act are appropriated
21 for the purposes set forth in such federal grants or receipts.

22 Sec. 23. Moneys appropriated by this Act shall not be
23 used for capital improvements.

24 Sec. 24. When any laws of this state are in conflict with
25 this Act, the provisions of this Act shall govern for the
26 fiscal biennium 1979-1981.

27 EXPLANATION

28 This bill appropriates to agencies, institutions, commis-
29 sions, departments, and boards responsible for education
30 programs in this state at levels intended to maintain existing
31 programs with allowances for necessary increased costs.

32 Special increases in existing programs or the starting
33 of new programs are as follows:

34 Iowa Commission for the Blind. Section 1 provides for
35 eleven new employees who are included within a 90-10 federal

1 matching program, which addresses primarily older blind Iowans
2 who need assistance in independent living prior to any
3 rehabilitation preparing them for employment.

4 Iowa College Aid Commission. Section 2 provides for two
5 new positions, a deputy director and a field representative,
6 in the Iowa guaranteed student loan program. Sections 2 and
7 12 increase the Iowa tuition grant program from the present
8 \$12,180,000 to \$13,750,000 for 1979-80 and \$14,750,000 for
9 1980-81. Within these increases the standing limited
10 appropriation is raised from \$10,000,000 to \$12,000,000.

11 In section 11 the maximum tuition grant level is raised
12 from \$1,500 to \$1,600 for 1979-80 and to \$1,700 for 1980-81.

13 Subsection 3 of section 2 increases the vocational-technical
14 tuition grant program from the present \$350,000 to \$400,000
15 for 1979-80 and to \$450,000 for 1980-81. Within these
16 increases the standing limited appropriation is raised from
17 \$150,000 to \$350,000. (See Sec. 14)

18 In section 12 the vocational-technical tuition grant program
19 is expanded to include full-time college parallel-career
20 option program students, and section 20 makes the addition
21 of the college parallel-career option students effective July
22 1, 1980.

23 State Educational Radio and Television Facility. Section
24 6 provides funds to expand the current programming from 4:00
25 p.m. to 1:00 a.m. on Saturdays to include 7:00 a.m. to 4:00
26 p.m. in 1979-80. In 1980-81, this would continue plus Sunday
27 from 7:00 a.m. to noon would be added to the current schedule
28 which begins at noon. One new employee is included for these
29 new programming hours.

30 Iowa Industrial Start Up Program. Paragraph c of subsection
31 3 of section 7 allows the department of public instruction
32 to create an Iowa industry training board to establish an
33 industrial start-up training program to enable the state to
34 better compete in attracting and retaining industries. These
35 funds will enable the department of public instruction to

1 cooperatively work with the Iowa development commission to
2 provide the necessary training for employees of industries
3 that are either locating in Iowa or that are Iowa industries
4 that are expanding.

5 Vocational Rehabilitation--Independent Living. Subsection
6 4 of section 7 funds a program, created by the federal
7 government, which addresses severely handicapped persons who
8 are untrainable for the job market either due to age or
9 handicap. Because they are untrainable, these people are
10 not qualified for regular vocational rehabilitation funding.
11 Thirty-one new employees would be employed in this 90-10
12 federal matching program.

13 Merged Area XIII Radio Station. Subparagraph 7 of
14 subsection 11 of section 7 enables merged Area XIII to begin
15 operation of a 100,000 watt FM public radio station to serve
16 southwest Iowa. The funds required to obtain the basic
17 equipment required for operation of this station were
18 appropriated for fiscal year 1979. This station will provide
19 a primary production means of creating programs in southwest
20 Iowa to be shared with public radio stations in other parts
21 of the state.

22 Transportation--Nonpublic School Students. Section 20
23 creates a standing unlimited appropriation designed to avoid
24 prorating differences between actual charges and
25 appropriations. Estimated costs for 1979-80 are \$4,254,800
26 and for 1980-81 are \$4,567,100.

ROBERT D. RAY
GOVERNOR

Office of the Governor

STATE CAPITOL
DES MOINES, IOWA 50319

June 7, 1979

The Honorable Melvin D. Synhorst
Secretary of State
State Capitol Building
L O C A L

Dear Mr. Secretary:

I hereby transmit Senate File 485, an act relating to and making appropriations to agencies, institutions, commissions, departments, and boards responsible for education programs of this state.

Senate File 485 is approved June 7, 1979, with the following exception which I hereby disapprove.

I am unable to approve the item designated in the Act as Section 10 which reads as follows:

Sec. 10. Section twenty point three (20.3), subsection one (1), Code 1979, is amended by adding the following new unnumbered paragraph:

NEW UNNUMBERED PARAGRAPH. For purposes of implementing and administering the provisions of this chapter, the governor shall act as the exclusive representative of the state of Iowa with respect to all state employees, except for faculty, scientific, and other professional staff who are employed at institutions under the authority of the state board of regents, the state board of regents shall act as the exclusive representative of the state of Iowa with respect to its faculty, scientific, and other professional staff.

Simply put, Section 10 provides that the Board of Regents shall have the responsibility for bargaining with respect to faculty, scientific and other professional staff employed at Regents' institutions. The Governor would be responsible for bargaining for the remainder of state employees.

The Honorable Melvin D. Synhorst
Page 2
June 7, 1979

The issue as to who is the employer for purposes of implementing collective bargaining pursuant to Chapter 20 has been addressed by the Iowa Public Employment Relations Board (PERB) which ruled "that the State of Iowa is the public employer of all state employees for the purpose of collective bargaining under the act . . ." PERB concluded that an individual department, including the Board of Regents, did not constitute a separate employer for purposes of implementing Chapter 20. That decision was appealed and subsequently sustained by the Supreme Court of Iowa. Therefore, the contention that the State Board of Regents is the employer and not the Governor was reviewed and rejected by the Iowa Supreme Court.

Subsequent to the PERB decision in 1976, riders have been attached to the Board of Regents appropriation bills designating the Regents as the employer for their faculty, professional and scientific employees. Written as conditions to the Regents appropriations and, therefore not severable through an item veto, the riders have, nonetheless, been held by PERB not to overrule their earlier decision which was based on permanent, statutory language. Senate File 485 also contains such a rider.

All boards, departments, and agencies carry out the policies of the executive branch of state government through their employees. The Iowa Constitution establishes the Governor as the chief executive and provides our agencies, boards, and commissions to be accountable to the people through the Governor. The Governor has constitutional and statutory responsibilities for supervising the executive branch of state government including preparation of the state budget that is submitted to the legislature.

The concept of collective bargaining grants to employees the ability to negotiate certain terms and conditions of their employment with their employer, and by its very nature places additional restrictions and constraints upon the operation of state government. Inherent in the concept of bargaining is the potential for government to be whipsawed by the various employee bargaining units with the result being inconsistent treatment of employees and lack of uniformity in employee benefits.

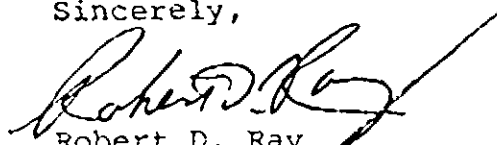

Obviously it would be almost impossible to conduct collective bargaining if every agency was considered a different bargaining employer. To single out one particular agency for that purpose alone is not wise.

The Honorable Melvin D. Synhorst
Page 3
June 7, 1979

Proponents of Section 10 have argued that it would prevent interference in academic freedom at our state universities. Academic freedom has been and remains an important concept to us. Academic freedom can be protected by the Governor as well as, if not better than, the legislature. As a matter of fact, I have heretofore delegated the responsibility of bargaining under Chapter 20 to the Board of Regents for its faculty and academically-related professionals. We think this method is proper, and it has and continues to work effectively.

Since Senate File 485 makes appropriations to our educational agencies for the next biennium, this bill is subject to the item veto. For the above reasons, I hereby disapprove this item in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of Senate File 485 are hereby approved this date.

Sincerely,

Robert D. Ray
Governor
