24 sum of fifty thousand (50,000) dollars, or as much thereof
25 as may be necessary, to be used for the purpose of partially

27 of herbicide for controlling or eradicating the multiflora
28 rose which has severely infested their agricultural land.
29 Not more than five percent of the funds appropriated under
30 this subsection shall be used for administrative expenses.

31 2. A county board of supervisors desiring a share of the
32 appropriation shall, in conjunction with the county weed

35 of multiflora rose on privately-owned land within the county.

1 The plan shall be based upon partial reimbursement of
2 individual landowner's costs for the purchase of herbicide
3 from both state and county appropriations, however the share
4 of costs reimbursed by state funds shall not exceed one-fourth.
5 The plan shall be submitted to the secretary of agriculture
6 for approval or recommendations for modification.

29 rose on the agricultural land. The county weed commissioner
30 shall assist the soil conservation district commissioners

d. From the fertilizer fund to be transferred to the laboratory division	\$ 619,443

Sec. 2. MULTIFLORA ROSE ERADICATION COST REIMBURSEMENT.

1. There is appropriated from the general fund of the state to the state department of agriculture for the fiscal year beginning July 1, 1984 and ending June 30, 1985, the sum of fifty thousand (50,000) dollars, or as much thereof as may be necessary, to be used for the purpose of partially reimbursing agricultural landowners or tenants for the cost of herbicide for controlling or eradicating the multiflora rose which has severely infested their agricultural land. Not more than five percent of the funds appropriated under this subsection shall be used for administrative expenses.

2. A county board of supervisors desiring a share of the appropriation shall, in conjunction with the county weed commissioner and the county soil conservation district commissioners, develop a plan to combat severe infestations

of multiflora rose on privately-owned land within the county. The plan shall be based upon partial reimbursement of individual landowner's costs for the purchase of herbicide from both state and county appropriations, however the share of costs reimbursed by state funds shall not exceed one-fourth. The plan shall be submitted to the secretary of agriculture for approval or recommendations for modification.

3. The secretary of agriculture, in consultation with the Iowa multiflora rose technical committee, shall evaluate the severity of the infestation of the multiflora rose in the counties of the state and allocate the funds appropriated under this section to all counties where severe infestations of the multiflora rose are located on agricultural land. The size and number of severe infestations of the multiflora rose in a county or an area of the state shall not preclude other counties or areas of the state with fewer or smaller severe infestations from receiving a reasonable share of the funds appropriated under this section. However, a share of the funds shall not be allocated to a county that does not have an approved plan. The secretary of agriculture shall adopt, by rule, the form and information requirements to be submitted by an applicant for partial reimbursement. The secretary shall also designate, by rule, the counties and areas of the state where the infestation of the multiflora rose is severe. The rules shall be adopted in accordance with chapter 17A.

4. A landowner or tenant whose agricultural land is severely infested by multiflora roses may apply to the soil conservation district commissioners of the county for partial reimbursement, according to the approved plan, of the cost of herbicide for controlling or eradicating the multiflora rose on the agricultural land. The county weed commissioner shall assist the soil conservation district commissioners in investigating the application and determining if the infestation is severe. The soil conservation district commissioners shall review and approve each application for

partial cost reimbursement if the infestation is severe on the applicant's agricultural land. If the soil conservation district commissioners find the amount of reimbursement claimed to be excessive, the district commissioners may approve a lesser amount. The reasons for disapproval of an application or reduction of the amount of reimbursement shall be sent in writing to the applicant. The amount of reimbursement certified by the secretary shall be paid by warrant issued by the state comptroller.

5. Federal lands and federal land tenants are not eligible for reimbursement under this section.

There is appropriated from the general fund of the state and the funds indicated to the state conservation commission and its divisions for the fiscal year beginning July 1, 1984 and ending June 30, 1985 the following amounts, or so much thereof as may be necessary, to be used for the purposes designated:

A contingency shall not include any purpose or project which was presented to the general assembly by way of a bill or a proposed bill and which failed to be enacted into law. For the purpose of this subsection, a necessity of additional operating funds may be construed as a contingency. Before any of the funds authorized to be expended by this subsection are allocated

for contingencies, it shall be determined by the executive council, that a contingency exists and that the contingency was not existent while the general assembly was in session and that the proposed allocation shall be for the best interests of the state.
