31 Sec. 20. This Act takes effect January 1 following
32 enactment.

33 EXPLANATION

34 Sections 1, 4, 7, 15, and 17 are coordinating amendments
35 required to delete references to sections of the Code being

1 repealed in section 18 of the bill.

2 Sections 2 and 3 define "commercial vehicle" and "hazardous
3 material" in lieu of the present definitions of "explosives"
4 and "flammable liquid" which are defined in the federal
5 hazardous materials regulations authorized for adoption by
6 this bill.

7 Section 5 limits the requirement to report hazardous
8 material incidents to the state highway safety patrol to
9 incidents in the highway mode, removes the conflicting
10 hazardous substance terminology, and recognizes the newer
11 hazardous substance spill reporting requirements of chapter
12 455B which cover both transportation and fixed facility
13 incidents.

14 Section 6 substitutes "emergency warning devices" for a
15 list of such devices for disabled commercial vehicles, for
16 which motorists are required to adjust their speed to a
17 reasonable and proper rate.

18 Sections 8 and 9 adjust the stopping point at a railroad
19 grade crossing to be consistent with federal regulations and
20 current warning device placement and pavement marking
21 standards.

22 Section 10 substitutes a section which includes a
23 prohibition of the transportation of food products in a
24 container or vehicle that previously transported hazardous
25 materials unless it has been cleaned or is packaged
26 sufficiently to prevent contamination for a section setting
27 requirements on where to drive and when to honk the horn on
28 various road alignments.

29 Section 11 updates the current law prohibiting coasting
30 down grades and makes the law consistent with federal regula-
31 tions.

32 Section 12 substitutes the authority to adopt federal motor
33 carrier safety regulations for the present section relating to
34 warning device equipment for trucks carrying explosives.

35 Section 13 substitutes the authority to adopt federal

1 hazardous material transportation regulations for the present
2 explosive transportation section.

3 Section 14 allows the filing of annual, rather than
4 quarterly, fuel usage reports.

5 Section 16 repeals the flammable liquid transport marking
6 requirements that are inconsistent with national standards and
7 with international emergency response procedures relating to
8 such vehicles.

9 Section 18 prescribes scheduled penalties for various truck
10 and bus law violations.

11 Section 19 repeals truck safety provisions in various Code
12 sections that now will be covered in a single Code section for
13 all classes of truck carriers under section 12 of this Act.

14 Section 20 establishes a January 1, 1988 effective date to
15 allow time for amendment and adoption of rules through a
16 normal rulemaking process and for affected persons to make any
17 necessary adjustments in their operations.

26 EXPLANATION

27 Sections 1, 4, 7, 14, and 16 are coordinating amendments
 28 required to delete references to sections of the Code being
 29 repealed in section 18 of the bill.

30 Sections 2 and 3 define "commercial vehicle" and "hazardous
 31 material" in lieu of the present definitions of "explosives"
 32 and "flammable liquid" which are defined in the federal
 33 hazardous materials regulations authorized for adoption by
 34 this bill.

35 Section 5 limits the requirement to report hazardous

1 material incidents to the state highway safety patrol to
2 incidents in the highway mode, removes the conflicting
3 hazardous substance terminology, and recognizes the newer
4 hazardous substance spill reporting requirements of chapter
5 455B which cover both transportation and fixed facility
6 incidents.

7 Section 6 substitutes "emergency warning devices" for a
8 list of such devices for disabled commercial vehicles, for
9 which motorists are required to adjust their speed to a
10 reasonable and proper rate.

11 Sections 8 and 9 adjust the stopping point at a railroad
12 grade crossing to be consistent with federal regulations and
13 current warning device placement and pavement marking
14 standards.

15 Section 10 substitutes a section which includes a
16 prohibition of the transportation of food products in a
17 container or vehicle that previously transported hazardous
18 materials unless it has been cleaned or is packaged
19 sufficiently to prevent contamination for a section setting
20 requirements on where to drive and when to honk the horn on
21 various road alignments.

22 Section 11 updates the current law prohibiting coasting
23 down grades and makes the law consistent with federal regula-
24 tions.

25 Section 12 substitutes the authority to adopt federal motor
26 carrier safety regulations for the present section relating to
27 warning device equipment for trucks carrying explosives.

28 Section 13 substitutes the authority to adopt federal
29 hazardous material transportation regulations for the present
30 explosive transportation section.

31 Section 15 repeals the flammable liquid transport marking
32 requirements that are inconsistent with national standards and
33 with international emergency response procedures relating to
34 such vehicles.

35 Section 17 prescribes scheduled penalties for various truck

1 and bus law violations.

2 Section 18 repeals truck safety provisions in various Code
3 sections that now will be covered in a single Code section for
4 all classes of truck carriers under section 9 of this Act.

5 Section 19 establishes a January 1, 1988 effective date to
6 allow time for amendment and adoption of rules through a
7 normal rulemaking process and for affected persons to make any
8 necessary adjustments in their operations.
