A fiscal note for HOUSE FILE 140 is hereby submitted pursuant to Joint Rule 11. Data used in developing this fiscal note is available from the Legislative Fiscal Bureau to members of the Legislature upon request.

The Iowa Linked Deposit Act was established to provide lower cost financing for new and existing businesses in the area of horticultural or nontraditional crop production, processing, or marketing. Under this act the Treasurer places a certificate of deposit in an eligible lending institution at 2% below market rates. The lending institution then loans the funds to eligible borrowers at a rate not more than 4% above the rate paid to the Treasurer by the lending institution.

The Targeted Small Business Linked Deposit Program parallels the above program except that (a) the eligible businesses are small businesses operated by women or minorities, and (b) it does not contain a sunset provision.

House File 140 changes the Iowa Linked Deposit Act and the Targeted Small Business Linked Deposit Program in the following ways:

 The sunset for the horticultural and nontraditional crops businesses portion is repealed.

2. The amount below market rates at which the Treasurer places a certificate of deposit in an eligible institution is changed from a fixed amount of 2% to a variable amount up to 3%.

3. The maximum loan size for horticultural and nontraditional crops businesses is increased from \$100,000 to \$200,000 for a production loan and from \$250,000 to \$500,000 for a loan for processing or marketing facilities.

4. The certificates of deposit relating to horticultural and nontraditional crops businesses may be renewed for additional one- year maturities; this bill places a limit of five additional one-year periods.

5. The restriction preventing targeted small businesses from using the loan

to purchase inventory is removed.

6. The names are changed to "Linked Investments for Tomorrow Act" (for the horticultural and nontraditional crops program) and to "Targeted Small Business Linked Investments Program."

Assumptions:

1. Under current law the Linked Deposit Program for Horticulture and Alternative Crops will "sunset" on June 30, 1989. In calculating the effect of current law there will be no lost earnings or administrative costs for that program in FY 1990 or FY 1991.

2. The Targeted Small Business Linked Deposit Program does not sunset and will be the only program creating administrative costs and lost earnings in FY 1990 and FY 1991 under current law. (This program is by far the

smaller of the two.)

3. The total value of loans under both programs will be \$5,558,328 in FY 1990 and \$6,114,161 in FY 1991. This is based on the assumption that the volume of loans will grow 10% in each year and that half of the firms at

PAGE 2 , FISCAL NOTE, HOUSE FILE 140

the present maximum will move up to the new maximums.

Fiscal Effect:

The proposal, with the reduced interest rate, will encourage more borrowers to seek loans. This will result in an increase in lost revenues to the Ceneral Fund and other funds as the Treasurer invests more funds at less than the going market rates.
