If the 16 unallocated pool is \$50,000 or more it shall be reallocated to 17 the counties in substantially the same manner as the original 18 allocations. The reallocated funds are available for use in 19 those counties during the period beginning January 1 and 20 ending June 30 of each fiscal year. The amount appropriated under this paragraph shall be 15 16 allocated for use in the counties of the state. Fifteen 17 percent of the amount shall be divided so that an equal amount 18 is available for use in each county in the state. The 19 following percentages of the remaining amount shall be 20 allocated to each county according to that county's proportion 21 of residents with the following demographic characteristics: 22 sixty percent according to the number of elderly persons 23 living in the county; twenty percent according to the number 24 of persons below the poverty level living in the county; and 25 twenty percent according to the number of substantiated cases 26 of child abuse in the county during the three most recent 27 fiscal years for which data is available.

The proposal may provide that a maximum of 4 fifteen percent of the allocated funds will be used to provide 5 chore services. The proposal shall include a statement 6 assuring that children and adults in need of protective 7 services are given priority for homemaker-home health aide 8 services and that the appropriate local agencies have 9 participated in the planning for the proposal. After approval 10 of the proposal by the department, the department shall enter 11 into a contract with the county board of supervisors or a 12 governmental body designated by the county board of 13 supervisors. The county board of supervisors or its designee 14 shall subcontract with a nonprofit nurses' association, an 15 independent nonprofit agency, the department of human 16 services, or a suitable local governmental body to use the 17 allocated funds to provide homemaker-home health aide services 18 and chore services providing that the subcontract requires any 19 service provided away from the home to be documented in a 20 report available for review by the department, and that each 21 homemaker-home health aide subcontracting agency shall 22 maintain the direct service workers' time assigned to direct 23 client service at seventy percent or more of the workers' paid 24 time and that no more than thirty-five percent of the total 25 cost of the service be in the combined costs for service 26 administration and agency administration. The subcontract 27 shall require that each homemaker-home health aide 28 subcontracting agency shall pay the employer's contribution of 29 Social Security and provide workers' compensation coverage for 30 persons providing direct homemaker-home health aide service 31 and meet any other applicable legal requirements of an 32 employer/employee relationship.

33 If by July 30 of each fiscal year, the department is unable 34 to conclude contracts for use of the allocated funds in a 35 county, the department shall consider the unused funds

-15-

1 appropriated under this paragraph an unallocated pool. The 2 department shall also identify any allocated funds which the 3 counties do not anticipate spending during each fiscal year. 4 If the anticipated excess funds to any county are substantial, 5 the department and the county may agree to return those excess 6 funds, if the funds are other than program revenues, to the 7 department, and if returned, the department shall consider the 8 returned funds a part of the unallocated pool. The department 9 shall prior to February 15 of each fiscal year, reallocate the 10 funds in the unallocated pool among the counties in which the 11 department has concluded contracts under this paragraph. The 12 department shall also review the first ten months' 13 expenditures for each county in May of each year, to determine 14 if any counties have contracted funds which they do not 15 anticipate spending. If such funds are identified and the 16 county agrees to release the funds, the released funds will be 17 considered a new reallocation pool. The department may, prior 18 to June 1 of each year, reallocate funds from this new 19 reallocation pool to those counties which have experienced a 20 high utilization of protective service hours for children and 21 dependent adults.

The department shall maintain rules governing the 22 23 expenditure of funds appropriated by this paragraph. The 24 rules require each local agency receiving funds to establish 25 and use a sliding fee scale for those persons able to pay for 26 all or a portion of the cost of the services and shall require 27 the payments to be applied to the cost of the services. The 28 department shall also maintain rules for standards regarding 29 training, supervision, recordkeeping, appeals, program 30 evaluation, cost analysis, and financial audits, and rules 31 specifying reporting requirements.

32 The department shall annually evaluate the success of the 33 homemaker-home health aide program. The evaluation shall 34 include a description of the program and its implementation, 35 the extent of local participation, the extent to which the

-16-

1 program reduced or prevented inappropriate institutionali-2 zation, the extent to which the program provided or increased 3 the availability of homemaker-home health aide services to 4 elderly and low-income persons and children and adults in need 5 of protective services, any problems and recommendations 6 concerning the program, and an analysis of the costs of 7 services across the state. The university of Iowa hospitals and clinics shall not receive indirect costs from the funds for each program.

The Iowa department of public health shall administer the statewide maternal and child health program and the crippled children's program by conducting mobile and regional child health specialty clinics and conducting other activities to improve the health of low-income women and children and to promote the welfare of children with actual or potential handicapping conditions and chronic illnesses in accordance with the requirements of Title V of the Social Security Act.

b. Sudden infant death syndrome autopsies.

For reimbursing counties for expenses resulting from autopsies of suspected victims of sudden infant death syndrome required under section 331.802, subsection 3, paragraph "j": .....\$ 13,000

c. For grants to local boards of health for the public health nursing program:

.....\$ 2,433,200

Funds appropriated under this paragraph shall be used to maintain and expand the existing public health nursing program for elderly and low-income persons with the objective of preventing or reducing inappropriate institutionalization. The funds shall not be used for any other purpose. As used in this paragraph, "elderly person" means a person who is sixty years of age or older and "low-income person" means a person whose income and resources are below the guidelines established by the department.

One-fourth of the total amount to be allocated shall be divided so that an equal amount is available for use in each county in the state. Three-fourths of the total amount to be allocated shall be divided so that the share available for use in each county is proportionate to the number of elderly and low-income persons living in that county in relation to the total number of elderly and low-income persons living in the state.

In order to receive allocations under this paragraph, the local board of health having jurisdiction shall prepare a proposal for the use of the allocated funds available for that jurisdiction that will provide the maximum benefits of expanded public health nursing care to elderly and low-income persons in the jurisdiction. After approval of the proposal by the department, the department shall enter into a contract with the local board of health. The local board of health shall subcontract with a nonprofit nurses' association, an independent nonprofit agency, or a suitable local governmental body to use the allocated funds to provide public health nursing care. Local boards of health shall make an effort to prevent duplication of services.

If by July 30 of each fiscal year, the department is unable to conclude contracts for use of the allocated funds in a county, the department shall consider the unused funds appropriated under this paragraph an unallocated pool. If the unallocated pool is \$50,000 or more it shall be reallocated to

House File 775, p. 12

the counties in substantially the same manner as the original allocations. The reallocated funds are available for use in those counties during the period beginning January 1 and ending June 30 of each fiscal year. If the unallocated pool is less than \$50,000, the department may allocate it to counties with demonstrated special needs for public health nursing.

The department shall maintain rules governing the expenditure of funds appropriated by paragraph "d". The rules require each local agency receiving funds to establish and use a sliding fee scale for those persons able to pay for all or a portion of the cost of the care.

The department shall annually evaluate the success of the public health nursing program. The evaluation shall include the extent to which the program reduced or prevented inappropriate institutionalization, the extent to which the program increased the availability of public health nursing care to elderly and low-income persons, and the extent of public health nursing care provided to elderly and low-income persons. The department shall submit a report of each annual evaluation to the governor and the general assembly.

d. For grants to county boards of supervisors for the homemaker-home health aide program:

Funds appropriated under this paragraph shall be used to provide homemaker-home health aide services with emphasis on services to elderly and persons below the poverty level and children and adults in need of protective services with the objective of preventing or reducing inappropriate institutionalization. In addition, up to fifteen percent of the funds appropriated under this paragraph may be used to provide chore services. The funds shall not be used for any other purposes. As used in this paragraph:

(1) "Chore services" means services provided to individuals or families, who, due to absence, incapacity, or

House File 775, p. 14

illness, are unable to perform certain home maintenance functions. The services include but are not limited to yard work such as mowing lawns, raking leaves, and shoveling walks; window and door maintenance such as hanging screen windows and doors, replacing window panes, and washing windows; and minor repairs to walls, floors, stairs, railings, and handles. It also includes heavy house cleaning which includes cleaning attics or basements to remove fire hazards, moving heavy furniture, extensive wall washing, floor care or painting, and trash removal.

(2) "Elderly person" means a person who is sixty years of age or older.

(3) "Homemaker-home health aide services" means services intended to enhance the capacity of household members to attain or maintain the independence of the household members and provided by trained and supervised workers to individuals or families, who, due to the absence, incapacity, or limitations of the usual homemaker, are experiencing stress or crisis. The services include but are not limited to essential shopping, housekeeping, meal preparation, child care, respite care, money management and consumer education, family management, personal services, transportation and providing information, assistance, and household management.

(4) "Low-income person" means a person whose income and resources are below the guidelines established by the department.

(5) "Protective services" means those homemaker-home health aide services intended to stabilize a child's or an adult's residential environment and relationships with relatives, caretakers, and other persons or household members in order to alleviate a situation involving abuse or neglect or to otherwise protect the child or adult from a threat of abuse or neglect.

The amount appropriated under this paragraph shall be allocated for use in the counties of the state. Fifteen

## House File 775, p. 15

percent of the amount shall be divided so that an equal amount is available for use in each county in the state. The following percentages of the remaining amount shall be allocated to each county according to that county's proportion of residents with the following demographic characteristics: sixty percent according to the number of elderly persons living in the county; twenty percent according to the number of persons below the poverty level living in the county; and twenty percent according to the number of substantiated cases of child abuse in the county during the three most recent fiscal years for which data is available.

In order to receive allocations under this paragraph, the county board of supervisors, after consultation with the local boards of health, county board of social welfare, area agency on aging advisory council, local office of the department of human services, and other in-home health care provider agencies in the jurisdiction, shall prepare a proposal for the use of the allocated funds available for that jurisdiction that will provide the maximum benefits of homemaker-home health aide services to elderly and low-income persons and children and adults in need of protective services in the jurisdiction. The proposal may provide that a maximum of fifteen percent of the allocated funds will be used to provide chore services. The proposal shall include a statement assuring that children and adults in need of protective services are given priority for homemaker-home health aide services and that the appropriate local agencies have participated in the planning for the proposal. After approval of the proposal by the department, the department shall enter into a contract with the county board of supervisors or a governmental body designated by the county board of supervisors. The county board of supervisors or its designee shall subcontract with a nonprofit nurses' association, an independent nonprofit agency, the department of human services, or a suitable local governmental body to use the

allocated funds to provide homemaker-home health aide services and chore services providing that the subcontract requires any service provided away from the home to be documented in a report available for review by the department, and that each homemaker-home health aide subcontracting agency shall maintain the direct service workers' time assigned to direct client service at seventy percent or more of the workers' paid time and that no more than thirty-five percent of the total cost of the service be in the combined costs for service administration and agency administration. The subcontract shall require that each homemaker-home health aide subcontracting agency shall pay the employer's contribution of Social Security and provide workers' compensation coverage for persons providing direct homemaker-home health aide service and meet any other applicable legal requirements of an employer/employee relationship.

If by July 30 of each fiscal year, the department is unable to conclude contracts for use of the allocated funds in a county, the department shall consider the unused funds appropriated under this paragraph an unallocated pool. The department shall also identify any allocated funds which the counties do not anticipate spending during each fiscal year. If the anticipated excess funds to any county are substantial, the department and the county may agree to return those excess funds, if the funds are other than program revenues, to the department, and if returned, the department shall consider the returned funds a part of the unallocated pool. The department shall prior to February 15 of each fiscal year, reallocate the funds in the unallocated pool among the counties in which the department has concluded contracts under this paragraph. The department shall also review the first ten months' expenditures for each county in May of each year, to determine if any counties have contracted funds which they do not anticipate spending. If such funds are identified and the county agrees to release the funds, the released funds will be

considered a new reallocation pool. The department may, prior to June 1 of each year, reallocate funds from this new reallocation pool to those counties which have experienced a high utilization of protective service hours for children and dependent adults.

The department shall maintain rules governing the expenditure of funds appropriated by this paragraph. The rules require each local agency receiving funds to establish and use a sliding fee scale for those persons able to pay for all or a portion of the cost of the services and shall require the payments to be applied to the cost of the services. The department shall also maintain rules for standards regarding training, supervision, recordkeeping, appeals, program evaluation, cost analysis, and financial audits, and rules specifying reporting requirements.

The department shall annually evaluate the success of the homemaker-home health aide program. The evaluation shall include a description of the program and its implementation, the extent of local participation, the extent to which the program reduced or prevented inappropriate institutionalization, the extent to which the program provided or increased the availability of homemaker-home health aide services to elderly and low-income persons and children and adults in need of protective services, any problems and recommendations concerning the program, and an analysis of the costs of services across the state. The department shall submit a report of the annual evaluation to the governor and the general assembly.

e. For the development and maintenance of well-elderly clinics in the state:

Appropriations made in this paragraph shall be provided to well-elderly clinics by a formula prioritizing clinics located in counties which provide funding on a matching basis for the

well-elderly clinics.

f. For the decentralized indigent obstetrical patient program for salaries, support, maintenance, miscellaneous purposes, and for not more than the following full-time equivalent positions:

It is the intent of the general assembly that a person certified under chapter 255A, who is not included in the patient quota for which care is provided at the university hospitals, but who gives birth or receives obstetrical care at the university hospitals, shall receive payment for care through the funds available under chapter 255 and the moneys not expended for the person certified under chapter 255A shall be available for use by the county of residence of the person certified.

It is also the intent of the general assembly that if delivery costs for persons certified under chapter 255A are less than \$2,100, the excess moneys shall revert to a fund for reallocation under chapter 255A in accordance with the allowable reimbursement level established and in accordance with the patient quota formula.

Appropriations made in this paragraph shall be provided in accordance with the county patient quota formula established. The costs of provision of services to indigent obstetrical patients not provided services locally that are provided services at the university hospital shall be paid from the appropriation for the support of the hospital.

The department shall determine the impact of any expansions in Medicaid eligibility provided under other Acts on the use of this program and the characteristics of persons using the program, and the need for modification of the quota system of the program.

Sec. 6. There is appropriated from the separate fund created under section 321J.17 to the family and community health division of the Iowa department of public health for

the fiscal year beginning July 1, 1989, and ending June 30, 1990, the amount of \$101,000, or so much thereof as is necessary, to pay the costs of medical examinations in crimes of sexual abuse and of treatments for prevention of venereal disease as required by section 709.10.

Sec. 7. The licensing boards for which general fund appropriations have been provided in section 5, subsections 4, 5, 6, 7, and 8 of this Act may expend additional funds, if those additional expenditures are directly the cause of actual examination expenses exceeding funds budgeted for examinations. Before a licensing board included in section 5, subsections 4, 5, 6, 7, and 8 of this Act expends or encumbers an amount in excess of the funds budgeted for examinations, the director of the department of management shall approve the expenditure or encumbrance. Before approval is given, the department of management shall determine that the examination expenses exceed the funds budgeted by the general assembly to the board and the board does not have other funds from which examination expenses can be paid. Upon approval of the department of management the licensing board may expend and encumber funds for excess examination expenses. The amounts necessary to fund the excess examination expenses shall be collected as fees from additional examination applicants and shall be treated as repayment receipts as defined in section 8.2, subsection 5.

Sec. 8. All federal grants to and federal receipts of the agencies appropriated funds under this division of this Act are appropriated for the purposes set forth in the federal grants or receipts unless otherwise provided by the general assembly. Full-time equivalent positions funded entirely with federal funds are exempt from the limits on the number of full-time equivalent positions provided in this division of this Act, but are approved only for the period of time for which the federal funds are available for the position. Sec. 9. 1988 Iowa Acts, chapter 1277, section 7, is amended to read as follows:

SEC. 7. There is appropriated from the separate fund created under section 601K.117 to the division of deaf services of the department of human rights for the fiscal year beginning July 1, 1988, and ending June 30, 1989, the amount of fifty thousand (50,000) dollars, or so much thereof as is necessary, to be used for the funding of interpretation services provided by the division. If the moneys generated for deposit in the separate fund created under section 601K.117 are less than fifty thousand (50,000) dollars, an amount which is the difference between fifty thousand dollars and the amount generated for deposit in the fund shall be appropriated from the general fund of the state to the division of deaf services of the department of human rights for the year beginning July 1, 1988, and ending June 30, 1989. Four thousand (4,000) dollars of the moneys appropriated under this section shall be used for the payment of interpretation services contracted by the division of deaf services for the fiscal period beginning July 1, 1988, and ending June 30, 1989. Any balance in the fund on June 30, 1989, or-June-30-of a-succeeding-fiscal-year shall remain in the fund.
