SENATE FILE 2234 FISCAL NOTE

Senate File 2234 would allow local school districts to carry up to 10% of their special education funds from one year to the next. Currently local school districts are required to revert any positive special education balances and these balances are used to reduce property taxes in the districts with positive special education balances and to offset negative balances in districts that have negative special education balances.

ASSUMPTIONS:

- 1. That this legislation would take effect for special education balances at the close of FY 1996.
- 2. That the special education positive balances at the close of FY 1996 will be approximately \$2.8 million.
- 3. That of the districts with a special education positive balance none will experience a positive balance greater than 10% for the year.
- 4. That of the districts with positive balances none will choose to use a portion of the positive special education balance to reduce property taxes.
- 5. That the special education negative balances will remain constant at an amount of approximately \$12.9 million.
- 6. That approximately \$2.2 million of the special education positive balances that had been used for offsetting special education negative balances will be eliminated.
- 7. That districts with special education negative balances will supplant the lost \$2.2 million offset from special education positive balances by increasing property taxes by \$2.2 million.

FISCAL IMPACT:

Senate File 2234 is estimated to increase local school districts property taxes by \$2.8 million starting in FY 1997. (LSB 3259sv, BDH)

- 2 insurance and is not subject to regulation under chapters 505
- 3 through 523C.
- 4 Sec. 18. Section 301.8, Code 1993, is repealed.
- 5 EXPLANATION
- 6 The bill deals with a number of educational administrative
- 7 and finance matters. The administrative matters include
- 8 allowing interfund transfers by a school district for cash
- 9 flow purposes only, permitting facsimile signatures on
- 10 warrants and drafts of the president of the school district or
- ll allowing a designee to sign for the president, providing
- 12 claims by districts for textbook services for nonpublic
- 13 schools to be paid once instead of twice a year, allowing
- 14 school districts to purchase technological equipment and
- 15 resell or lease to its officials or staff or resell to its
- 16 students, allowing districts to purchase equipment on a
- 17 contract basis, and providing that early childhood programs
- 18 provided in school buildings do not require special licensing
- 19 or greater standards than required of the school itself. The
- 20 financial matters include not requiring bids for the purchase
- 21 or sale of equipment by a school district if the unit price is
- 22 \$5,000 or less, allowing carryover of special education fund
- 23 balance of up to 10 percent, and allowing the payment for
- 24 liability insurance of a school district from the district
- 25 management levy fund or general fund if the district does not
- 26 have a management levy.
- 27 BACKGROUND STATEMENT
- 28 SUBMITTTED BY THE AGENCY
- 29 This bill deals with a variety of school finance and
- 30 administrative issues. Section 1 allows interfund loans in a
- 31 school district. This is a good business practice because the
- 32 district earns interest from itself and no money leaves the
- 33 district for this short-term borrowing. Section 7 authorizes
- 34 school corporations to purchase equipment over time.
- 35 Currently districts cannot purchase anything over time other

S.F. H.F.

1 than buses and buildings. This would provide another option 2 for districts to use to obtain expensive equipment, especially 3 technology. Section 8 allows districts to bulk purchase 4 technological equipment and lease or sell it to school 5 officers, staff and students. This is intended to facilitate 6 the acquisition and use of technology in schools. Sections 10 7 and 11 deal with signatures on warrants and drafts. 8 requires county treasurers to direct deposit into school dis-9 trict accounts which means that these warrants and drafts have 10 not been signed (endorsed) for several years. It is no longer 11 practical to have the president personally sign all of the 12 warrants in a school district. Because of this, many 13 secretaries sign the president's signature and also sign 14 themselves. This does not allow for any segregation of duties 15 to protect public assets because the secretary also prepared 16 the checks. By allowing the board to officially name a 17 designee other than the secretary, there will again be two 18 separate people required to handle check writing. Section 12 addresses the sale of individual property items 20 having a value of \$5,000 or less. The current requirement of 21 advertised bids when applied to used furniture and equipment 22 is not cost effective. Advertising for bids can cost more 23 than districts can get for these used items. Permitting other 24 procedures would allow districts to send such items to an 25 auction or hold their own "garage sale". Five thousand 26 dollars was selected because that is the threshold used to 27 determine when equipment is major enough to be purchased from 28 the physical plant and equipment levy. Section 13 is designed 29 to reduce confusion for districts regarding the acquisition of 30 library facilities. The addition of equipment makes this 31 section consistent with the new section in section 7 on 32 contracts and gives districts more options to acquire 33 expensive equipment. In past years, section 301.7 dealing 34 with bids was repealed, making sections 301.8 and 301.10 35 unclear. Sections 15 and 18 of the bill remove the references

1 to the bid language that was repealed.

Section 16 changes payment of claims for nonpublic school 3 pupil textbook services to once a year instead of twice a 4 year. This should relieve some of the data burden and reduce 5 paperwork. Section 17 allows use of the general fund to pay 6 insurance premium costs if a district does not have a 7 management fund. Many districts do not have the district 8 management levy fund and have always used the general 9 operating fund instead. It has now been determined that 10 section 670.7 does not give districts this choice. This Code 11 section conflicts with section 279.28 which states that the 12 board of directors may provide and pay a sum out of the 13 general fund to insure school property. This section is 14 intended to legalize current practice and make the Code 15 consistent. Section 5 deals with "eligible" electors. There 16 is no current census data of eligible electors available, nor 17 is it available from county commissioners of elections. 18 term "qualified" is clearly defined and their numbers are 19 available from county commissioners of elections. 20 allows school districts to carry special education positive 21 year-end balances into the next school year in an amount up to 22 10 percent of the additional funds generated for special 23 education. This was one of the recommendations made by the 24 state task force on special education finance. The department 25 believes this change will allow district superintendents and 26 business managers to more wisely manage the expenditure of 27 special education dollars. The long-term impact should be to 28 provide property tax relief to Iowans by reducing the annual 29 amount of cash reserve levies that are requested by school 30 districts to fund deficit special education balances. In order to facilitate partnerships and planned 32 collaboration among schools, families, and communities, the 33 department is proposing in section 14 to expand the uses for 34 the 13.5 cents public educational and recreational activities

35 levy. The department suggests that this funding mechanism be

```

```

```
1 used to stimulate the growth of community services learning,
 2 volunteerism, intergenerational learning, family resource
 3 centers, and school and community planning. It is more
4 important today than ever before that schools, families, and
5 communities work together.
      Sections 2, 3, 6, and 9 are designed to clarify the
7 licensing issues regarding school-based instructional and
8 early childhood programs. This language was worked out in
9 conjunction with the department of human services and
10 representatives of accredited nonpublic schools.

If the positive amount exceeding the ten percent amount exceeds the amount of state aid that remains to be paid to the district, not including any previous carryover, the school district shall pay the excess on a quarterly basis prior to June 10 of the

budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that exceeds the ten percent amount that came from local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 257.4 for the next following budget year by the amount necessary to compensate for the increased state aid.
