- 17 2. ACTUARIAL OPINION OF RESERVES. This subsection is
- 18 effective January 1, 1996.
- 19 a. GENERAL. A life insurance company doing business in
- 20 this state shall annually submit the written opinion of a
- 21 qualified actuary as to whether the reserves and related
- 22 actuarial items held in support of the policies and contracts
- 23 specified by the commissioner by regulation are computed
- 24 appropriately, are based on assumptions which satisfy
- 25 contractual provisions, are consistent with prior reported
- 26 amounts, and are in compliance with applicable laws of this
- 27 state. The commissioner shall define by rule the requirements
- 28 and content of this opinion and add any other items deemed to
- 29 be necessary.
- 30 b. ACTUARIAL ANALYSIS OF RESERVES AND ASSETS SUPPORTING
- 31 SUCH RESERVES.
- 32 (1) Unless exempted by rule, a life insurance company
- 33 shall also annually include in the opinion required by
- 34 paragraph "a", an opinion of the same qualified actuary as to
- 35 whether the reserves and related actuarial items held in

- 1 support of policies and contracts specified by the
- 2 commissioner by rule, when considered with respect to the
- 3 assets held by the company associated with the reserves and
- 4 related actuarial items, including, but not limited to, the

- 10 contracts.
- 11 (2) The commissioner may provide by rule for a transition

- 13 qualified actuary may deem necessary in order to render the
- 14 opinion required by this section.
- 15 c. REQUIREMENTS FOR ACTUARIAL ANALYSIS. An opinion
- 16 required by paragraph "b" shall be governed by the following
- 17 provisions:
- 18 (1) A memorandum, in form and substance acceptable to the
- 19 commissioner as specified by rule, shall be prepared to
- 20 support each actuarial opinion.
- 21 (2) If the insurance company fails to provide a supporting
- 22 memorandum at the request of the commissioner within a period
- 23 specified by rule or the commissioner determines that the
- 24 supporting memorandum provided by the insurance company fails
- 25 to meet the standards prescribed by the regulations or is
- 26 otherwise unacceptable to the commissioner, the commissioner
- 27 may engage a qualified actuary at the expense of the company
- 28 to review the opinion and the basis for the opinion and
- 29 prepare such supporting memorandum as is required by the
- 30 commissioner.
- 31 d. REQUIREMENT FOR ALL OPINIONS. An opinion required
- 32 under this section is governed by the following provisions:

- 9 (4) In the case of an opinion required to be submitted by 10 a foreign or alien company, the commissioner may accept the 11 opinion filed by that company with the insurance supervisory 12 official of another state if the commissioner determines that 13 the opinion reasonably meets the requirements applicable to a 14 company domiciled in this state.
- 15 (5) For the purposes of this section, "qualified actuary" 16 means a member in good standing of the American academy of 17 actuaries who meets the requirements of the commissioner as 18 specified by rule.
- 19 (6) Except in cases of fraud or willful misconduct, a 20 qualified actuary is not liable for damages to any person, 21 other than to the insurance company and the commissioner, for 22 any act, error, omission, decision, or conduct with respect to 23 the actuary's opinion.
- 24 (7) Disciplinary action which may be taken by the 25 commissioner against the company or the qualified actuary 26 shall be defined in rules adopted by the commissioner.

- 6 professional disciplinary proceedings and setting forth
- 7 procedures satisfactory to the commissioner for preserving the
- 8 confidentiality of the memorandum or other material. Once any
- 9 portion of the confidential memorandum is cited by the company
- 10 in its marketing, is cited before any governmental agency

- 35 5. COMPUTATION OF MINIMUM STANDARD BY CALENDAR YEAR OF

## 1 ISSUE.

- 2 a. APPLICABILITY OF THIS SUBSECTION. The calendar year
- 3 statutory valuation interest rates, as defined in this
- 4 subsection, shall be used in determining the minimum standard
- 5 for the valuation of all of the following:
- 6 (1) All life insurance policies issued in a particular
- 7 calendar year, on or after the operative date of section
- 8 508.37, subsection 5, paragraph "c".
- 9 (2) All individual annuity and pure endowment contracts
- 10 issued in a particular calendar year on or after January 1,
- 11 1995.
- 12 (3) All annuities and pure endowments purchased in a
- 13 particular calendar year on or after January 1, 1995, under
- 14 group annuity and pure endowment contracts.
- 15 (4) The net increase, if any, in a particular calendar
- 16 year on or after January 1, 1995, in amounts held under
- 17 guaranteed interest contracts.
- 18 b. CALENDAR YEAR STATUTORY VALUATION INTEREST RATES.
- 19 (1) The calendar year statutory valuation interest rates,
- 20 referred to in this paragraph as "I", shall be determined as
- 21 follows and the results rounded to the nearer one-quarter of
- 22 one percent:
- 23 (a) For life insurance,
- 24 W
- 25 I equals .03 + W(R1 .03) + W(R2 .09),
- 26 where Rl is the lesser of R and .09, R2 is the greater of R
- 27 and .09, R is the reference interest rate defined in paragraph
- 28 "d" of this subsection, and W is the weighting factor defined
- 29 in paragraph "c" of this subsection.
- 30 (b) For single premium immediate annuities and for annuity
- 31 benefits involving life contingencies arising from other
- 32 annuities with cash settlement options and from guaranteed
- 33 interest contracts with cash settlement options,
- 34 I equals .03 + W(R .03),
- 35 where R1 is the lesser of R and .09, R2 is the greater of R

- 1 and .09,  $\ensuremath{\text{R}}$  is the reference interest rate defined in paragraph
- 2 "d" of this subsection, and W is the weighting factor defined
- 3 in paragraph "c" of this subsection.
- 4 (c) For other annuities with cash settlement options and
- 5 guaranteed interest contracts with cash settlement options,
- 6 valued on an issue year basis, except as stated in
- 7 subparagraph subdivision (b), the formula for life insurance
- 8 stated in subparagraph subdivision (a) applies to annuities
- 9 and guaranteed interest contracts with guarantee durations in
- 10 excess of ten years, and the formula for single premium
- 11 immediate annuities stated in subparagraph subdivision (b)
- 12 applies to annuities and guaranteed interest contracts with
- 13 guarantee durations of ten years or less.
- 14 (d) For other annuities with no cash settlement options
- 15 and for quaranteed interest contracts with no cash settlement
- 16 options, the formula for single premium immediate annuities
- 17 stated in subparagraph subdivision (b) applies.
- 18 (e) For other annuities with cash settlement options and
- 19 quaranteed interest contracts with cash settlement options,
- 20 valued on a change in fund basis, the formula for single
- 21 premium immediate annuities stated in subparagraph subdivision
- 22 (b) applies.
- 23 (2) However, if the calendar year statutory valuation
- 24 interest rate for any life insurance policies issued in any
- 25 calendar year determined under subparagraph (1), subparagraph
- 26 subdivision (a) without reference to this sentence differs
- 27 from the corresponding actual rate for similar policies issued
- 28 in the immediately preceding calendar year by less than one-
- 29 half of one percent, the calendar year statutory valuation
- 30 interest rate for the life insurance policies is equal to the
- 31 corresponding actual rate for the immediately preceding
- 32 calendar year. For purposes of applying the immediately
- 33 preceding sentence, the calendar year statutory valuation
- 34 interest rate for life insurance policies issued in a calendar
- 35 year shall be determined for 1980, using the reference

34 5 or less

35 More than 5, but not more than 10

l interest rate defined in 1979, and shall be determined for 2 each subsequent calendar year regardless of the operative date 3 of section 508.37, subsection 5, paragraph "c". c. WEIGHTING FACTORS. (b) The weighting fac ors for single premium immediate 18 annuities and for annuity benefits involving life 19 contingencies arising from other annuities with cash 20 settlement options and guaranteed interest contracts with cash 21 settlement options is .80. 22 (c) Weighting factors for other annuities and for 23 guaranteed interest contracts, except as stated in 24 Subparagraph subdivision (b), shall be as specified in 25 Subparagraph subdivision parts (i), (ii) and (iii) of this 26 subparagraph subdivision, according to the rules and 27 definitions in subparagraph subdivision parts (iv), (v), and 28 (vi) of this subparagraph subdivision: (i) For annuities and guaranteed interest contracts valued 30 on an issue year basis: 31 Weighting Factor 32 for Plan Type 33 Guarantee Duration (Years) В С ۲,

For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guarantee duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence.

(v) "Plan type", as used in subparagraph subdivision parts

- 3 "Plan Type A": At any time, the policyholder may withdraw
- 4 funds only with an adjustment to reflect changes in interest
- 5 rates or asset values since receipt of the funds by the
- 6 insurance company, or may withdraw funds without that
- 7 adjustment but in installments over five years or more, or may
- 8 withdraw funds as in immediate life annuity; or no withdrawal
- 9 is permitted.
- 10 "Plan Type B": Before expiration of the interest rate
- Il guarantee, the policyholder may withdraw funds only with an
- 12 adjustment to reflect changes in interest rates or asset
- 13 values since receipt of the funds by the insurance company, or
- 14 may withdraw funds without that adjustment but in installments
- 15 over five years or more; or no withdrawal is permitted. At
- 16 the end of interest rate guarantee, funds may be withdrawn
- 17 without adjustment in a single sum or installments over less
- 18 than five years.
- 19 "Plan Type C": The policyholder may withdraw funds before
- 20 expiration of interest rate guarantee in a single sum or
- 21 installments over less than five years either without
- 22 adjustment to reflect changes in interest rates or asset
- 23 values since receipt of the funds by the insurance company, or
- 24 subject only to a fixed surrender charge stipulated in the
- 25 contract as a percentage of the fund.
- 26 (vi) A company may elect to value guaranteed interest
- 27 contracts with cash settlement options and annuities with cash
- 28 settlement options on either an issue-year basis or on a
- 29 change-in-fund basis. Guaranteed interest contracts with no
- 30 cash settlement options and other annuities with no cash
- 31 settlement options must be valued on an issue-year basis. As
- 32 used in this section, an issue-year basis of valuation refers
- 33 to a valuation basis under which the interest rate used to
- 34 determine the minimum valuation standard for the entire
- 35 duration of the annuity or guaranteed interest contract is the

- I calendar year valuation interest rate for the year of issue or
- 2 year of purchase of the annuity or guaranteed interest
- 3 contract, and the change-in-fund basis of valuation refers to
- 4 a valuation basis under which the interest rate used to
- 5 determine the minimum valuation standard applicable to each
- 6 change in the fund held under the annuity or guaranteed
- 7 interest contract is the calendar year valuation interest rate
- 8 for the year of the change in the fund.
- 9 d. REFERENCE INTEREST RATE. The reference interest rate
- 10 referred to in paragraph "b" is defined as follows:
- (1) For all life insurance, the lesser of the average over
- 12 a period of thirty-six months and the average over a period of
- 13 twelve months, ending on June 30 of the calendar year next
- 14 preceding the year of issue, of the monthly average of the
- 15 composite yield on seasoned corporate bonds, as published by
- 16 moody's investors service, inc.
- 17 (2) For single premium immediate annuities and for annuity
- 18 benefits involving life contingencies arising from other
- 19 annuities with cash settlement options and guaranteed interest
- 20 contracts with cash settlement options, the average over a
- 21 period of twelve months, ending on June 30 of the calendar
- 22 year of issue or year of purchase, of the monthly average of
- 23 the composite yield on seasoned corporate bonds, as published
- 24 by moody's investors service, inc.
- 25 (3) For other annuities with cash settlement options and
- 26 guaranteed interest contracts with cash settlement options,
- 27 valued on an issue-year basis, except as stated in
- 28 subparagraph (2), with guarantee duration in excess of ten
- 29 years, the lesser of the average over a period of thirty-six
- 30 months and the average over a period of twelve months, ending
- 31 on June 30 of the calendar year of issue or purchase, of the
- 32 monthly average of the composite yield on seasoned corporate
- 33 bonds, as published by moody's investors service, inc.
- 34 (4) For other annuities with cash settlement options and
- 35 guaranteed interest contracts with cash settlement options,

- I valued on an issue-year basis, except as stated in
- 2 subparagraph (2), with guarantee duration of ten years or
- 3 less, the average over a period of twelve months, ending on
- 4 June 30 of the calendar year of issue or purchase, of the
- 5 monthly average of the composite yield on seasoned corporate
- 6 bonds, as published by moody's investors service, inc.
- 7 (5) For other annuities with no cash settlement options
- 8 and for guaranteed interest contracts with no cash settlement
- 9 options, the average over a period of twelve months, ending on
- 10 June 30 of the calendar year of issue or purchase, of the
- 11 monthly average of the composite yield on seasoned corporate
- 12 bonds, as published by moody's investors service, inc.
- 13 (6) For other annuities with cash settlement options and
- 14 guaranteed interest contracts with cash settlement options,
- 15 valued on a change-in-fund basis, except as stated in
- 16 subparagraph (2), the average over a period of twelve months,
- 17 ending on June 30 of the calendar year of the change in the
- 18 fund, of the monthly average of the composite yield on
- 19 seasoned corporate bonds, as published by moody's investors
- 20 service, inc.
- 21 e. ALTERNATIVE METHOD FOR DETERMINING REFERENCE INTEREST
- 22 RATES. In the event that the monthly average of the composite
- 23 yield on seasoned corporate bonds is no longer published by
- 24 moody's investors service, inc., or in the event that the
- 25 national association of insurance commissioners determines
- 26 that the monthly average of the composite yield on seasoned
- 27 corporate bonds as published by moody's investors service,
- 28 inc. is no longer appropriate for the determination of the
- 29 reference interest rate, an alternative method for
- 30 determination of the reference interest rate, which is adopted
- 21 by the national association of insurance commissioners and
- 32 approved by rule adopted by the commissioner, may be
- 33 substituted.
- 34 6. RESERVE VALUATION METHOD -- LIFE INSURANCE AND
- 35 ENDOWMENT BENEFITS.

Except as otherwise provided in subsections 7, 10, and 2 12, reserves calculated according to the commissioner's 3 reserve valuation method, for the life insurance and endowment 4 benefits of policies providing for a uniform amount of 5 insurance and requiring the payment of uniform premiums, shall 6 be the excess, if any, of the present value, at the date of 7 valuation, of future guaranteed benefits provided for by such 8 policies, over the present value, at the date of valuation, of 9 any future modified net premiums for such policies. The 10 modified net premiums for such policy is the uniform 11 percentage of the respective contract premiums for the 12 benefits such that the present value, at the date of issue of 13 the policy, of all modified net premiums shall be equal to the 14 sum of the present value, at the date of valuation, of such 15 benefits provided for by the policy and the excess of the 16 amount determined in subparagraph (1) over the amount 17 determined in subparagraph (2), as follows:

- 18 (1) A net level annual premium equal to the present value
  19 at the date of issue, of the benefits provided for after the
  20 first policy year, divided by the present value at the date of
  21 issue, of an annuity of one per annum payable on the first,
  22 and each subsequent, anniversary of the policy on which a
  23 premium falls due. However, the net level annual premium
  24 shall not exceed the net level annual premium on the nineteen25 year premium whole life plan for insurance of the same amount
  26 at an age one year more than the age of the insured at issue
  27 of the policy.
- 28 (2) A net one-year term premium for the benefits provided 29 for in the first policy year.
- 30 b. However, for a life insurance policy issued on or after 31 January 1, 1998, for which the contract premium in the first 32 policy year exceeds that of the second year and for which no 33 comparable additional benefit is provided in the first year
- 34 for such additional premium and which provides an endowment
- 35 benefit or a cash surrender value or a combination of such

- 1 benefit or value in an amount greater than the additional
- 2 premium, the reserve according to the commissioner's reserve
- 3 valuation method as of any policy anniversary occurring on or
- 4 before the assumed ending date defined as the first policy
- 5 anniversary on which the sum of any endowment benefit and any
- 6 cash surrender value then available is greater than such
- 7 additional premium shall be, except as otherwise provided in
- 8 subsection 10, the greater of the reserve as of such policy
- 9 anniversary calculated as described in paragraph "a" and the
- 10 reserve as of such policy anniversary calculated as described
- ll in paragraph "a", but with the following modifications:
- 12 (i) The value defined in paragraph "a" being reduced by
- 13 fifteen percent of the amount of such excess first year
- 14 premium.
- 15 (ii) All present values of benefits and premiums being
- 16 determined without reference to premiums or benefits provided
- 17 for by the policy after the assumed ending date.
- 18 (iii) The policy being assumed to mature on such date as
- 19 an endowment.
- 20 (iv) The cash surrender value provided on such date being
- 21 considered as an endowment benefit.
- 22 In making the above comparison the mortality and interest
- 23 bases stated in subsections 4 and 5 shall be used.
- 24 c. Reserves according to the commissioner's reserve
- 25 valuation method shall be calculated pursuant to a method
- 26 consistent with this subsection for all of the following:
- 27 (1) Life insurance policies providing for a varying amount
- 28 of insurance or requiring the payment of varying premiums.
- 29 (2) Group annuity and pure endowment contracts purchased
- 30 under a retirement plan or plan of deferred compensation
- 31 established or maintained by an employer, including a
- 32 partnership or sole proprietorship, or by an employee
- 33 organization, or by both, other than a plan providing
- 34 individual retirement accounts or individual retirement
- 35 annuities under section 408 of the Internal Revenue Code.

- 1 (3) 0.sability and accidental death benefits in all
  2 policies and contracts.
- (4) All other benefits, except life insurance and
   4 endowment benefits in life insurance policies and benefits
   5 provided by all other annuity and pure endowment contracts.
- 7. RESERVE VALUATION METHOD -- ANNUITY AND PURE ENDOWMENT
  BENEFITS. This subsection applies to all annuity and pure
  endowment contracts other than group annuity and pure
  endowment contracts purchased under a retirement plan or plan
  of deferred compensation established or maintained by an
- 12 by an employee organization, or by both, other than a plan 13 providing individual retirement accounts or individual

11 employer, including a partnership or sole proprietorship, or

- 14 retirement annuities under section 408 of the Internal Revenue 15 Code.
- Reserves according to the commissioner's annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in such contracts, shall be the greatest of the respective excesses of the present values, at the date of valuation, of the future guaranteed benefits, including guaranteed nonforfeiture benefits, provided for by such contracts at the end of each
- 23 respective contract year, over the present value, at the date
- 24 of valuation, of any future valuation considerations derived
- 25 from future gross considerations, required by the terms of
- 26 such contract, that become payable prior to the end of such
- 27 respective contract year. The future guaranteed benefits
- 28 shall be determined by using the mortality table, if any, and
- 29 the interest rate or rates, specified in such contracts for
- 30 determining guaranteed benefits. The valuation considerations
- 31 are the portions of the respective gross considerations
- 32 applied under the terms of such contracts to determine
- 33 nonforfeiture values.
- 34 8. MINIMUM RESERVES.
- 35 a. A company's aggregate reserves for all life insurance

- 1 policies, excluding disability and accidental death benefits,
- 2 the operative date of section 508.37, shall not be less than
- 3 the aggregate reserves calculated in accordance with the
- 4 methods set forth in subsections 6, 7, 10, and 11, and the
- 5 mortality table or tables and rate or rates of interest used
- 6 in calculating nonforfeiture benefits for such policies.
- 7 b. A company's aggregate reserves for all policies,
- 8 contracts, and benefits shall not be less than the aggregate
- 9 reserves determined by the qualified actuary to be necessary
- 10 to render the opinion required by subsection 2.
- 11 9. OPTIONAL RESERVE CALCULATION. Reserves for all
- 12 policies and contracts issued prior to the operative date of
- 13 section 508.37, may be calculated, at the option of the
- 14 company, according to any standards which produce greater
- 15 aggregate reserves for all such policies and contracts than
- 16 the minimum reserves required prior to July 1, 1994.
- 17 Reserves for any category of policies, contracts, or
- 18 benefits, as established by the commissioner, issued on or
- 19 after the operative date of section 508.37, may be calculated,
- 20 at the option of the company, according to any standards which
- 21 produce greater aggregate reserves for such category than
- 22 those calculated according to the minimum standard as provided
- 23 in this section, but the rate or rates of interest used for
- 24 policies and contracts, other than annuity and pure endowment
- 25 contracts, shall not be higher than the corresponding rate or
- 26 rates of interest used in calculating any nonforfeiture
- 27 benefits as provided in this section.
- A company which at any time adopts a standard of valuation
- 29 producing greater aggregate reserves than those calculated
- 30 according to the minimum standard as provided in this section
- 31 may adopt, with the approval of the commissioner, any lower
- 32 standard of valuation, not to be lower than the minimum as
- 33 provided in this section, provided, however, that, for
- 34 purposes of this section, the holding of additional reserves
- 35 previously determined by a qualified actuary to be necessary

1 to render the opinion required by subsection 2 shall not be

2 deemed to be the adoption of a higher standard of valuation.

3 10. RESERVE CALCULATION -- VALUATION NET PREMIUM EXCEEDING

4 THE GROSS PREMIUM CHARGE.

a. If in any contract year the gross premium charged by a

6 life insurance company on a policy or contract is less than

7 the valuation net premium for the policy or contract, as

8 calculated by the method used in calculating the reserve for

9 such policy or contract but using the minimum valuation

10 standards of mortality and rate of interest, the minimum

Il reserve required for such policy or contract is the greater of

12 either the reserve calculated according to the mortality

13 table, rate of interest, and method actually used for such

14 policy or contract, or the reserve calculated by the method

15 actually used for such policy or contract but using the

16 minimum valuation standards of mortality and rate of interest

17 and replacing the valuation net premium by the actual gross

18 premium in each contract year for which the valuation net

19 premium exceeds the actual gross premium. The minimum

20 valuation standards of mortality and rate of interest referred

21 to in this section are those standards established in

22 subsections 4 and 5.

23 b. However, for any life insurance policy issued on or

24 after January 1, 1998, for which the gross premium in the

25 first policy year exceeds that of the second year and for

26 which no comparable additional benefit is provided in the

27 first year for such excess and which provides an endowment

28 benefit or a cash surrender value, or a combination of such

29 benefit and value, in an amount greater than the excess

30 premium, the provisions of paragraph "a" apply as if the

31 method actually used in calculating the reserve for such

32 policy is the method established in subsection 6, excluding

33 paragraph "b" of that subsection. The minimum reserve of the

34 policy at each policy anniversary shall be the greater of the

35 minimum reserve calculated pursuant to subsection 6 and the

- I minimum reserve calculated in accordance with this subsection.
- 2 11. RESERVE CALCULATION -- INDETERMINATE PREMIUM PLANS.
- 3 In the case of any plan of life insurance which provides for
- 4 future premium determination, the amounts of such premium
- 5 which are to be determined by the insurance company based on
- 6 estimates of future experience, or in the case of any plan of
- 7 life insurance or annuity, the minimum reserves of which
- 8 cannot be determined by the methods established in subsections
- 9 6, 7, and 10, the reserves which are held under the plan must
- 10 be appropriate in relation to the benefits and the pattern of
- Il premiums for that plan, and shall be computed by a method
- 12 which is consistent with this section, as determined by rules
- 13 adopted by the commissioner.
- 14 12. MINIMUM STANDARDS FOR HEALTH (DISABILITY, ACCIDENT,
- 15 AND SICKNESS) PLANS. The commissioner shall adopt rules
- 16 containing the minimum standards applicable to the valuation
- 17 of health, disability, and sickness and accident plans.
- 18 Sec. 4. Section 521C.2, subsection 8, paragraph c, Code
- 19 1993, is amended to read as follows:
- 20 c. An underwriting manager who, pursuant to contract,
- 21 manages all or part of the reinsurance operations of the
- 22 reinsurer, who is under common control with the reinsurer,
- 23 subject to chapter 521A relating to the regulation of
- 24 insurance holding company systems, and who is not compensated
- 25 based upon the volume of premiums written.
- Sec. 5. Section 521C.11, Code 1993, is amended to read as
- 27 follows:
- 28 521C.11 PENALTIES AND GIABILITIES.
- 29 1. A reinsurance intermediary-insurer-or-reinsurer or
- 30 other person found by the commissioner, after a hearing
- 31 conducted in accordance with chapter 17A, to be-in-violation
- 32 of have not materially complied with a provision of this
- 33 chapter is subject to one or more of the following:
- 34 a. For each separate violation, a civil penalty in an
- 35 amount not exceeding tem five thousand dollars.

- 1 b. Revocation or suspension of the license of the 2 reinsurance intermediary.

- 9 If the commissioner finds that such noncompliance has
- 10 resulted in a loss or damage to the insurer or reinsurer, the
- 11 commissioner may bring a civil action on behalf of the insurer
- 12 or reinsurer, and the policyholders and creditors of the
- 13 insurer or reinsurer, seeking the recovery of compensatory
- 14 damages for the benefit of the insurer or reinsurer, and the
- 15 policyholders and creditors of the insurer or reinsurer, or
- 16 seeking other relief as appropriate.
- 17 If an order of rehabilitation or liquidation has been
- 18 entered pursuant to chapter 507C, and the receiver appointed
- 19 under the order determines that the reinsurance intermediary
- 20 or any other person has not materially complied with a
- 21 provision of this chapter and such noncompliance has resulted
- 22 in a loss or damage to the insurer or reinsurer, the receiver
- 23 may bring a civil action on behalf of the insurer or reinsurer
- 24 seeking the recovery of damages for the benefit of the insurer
- 25 or reinsurer, or seeking other appropriate sanction or relief.
- 26 2. A decision, determination, or order of the commissioner
- 27 made or entered pursuant to subsection 1 is subject to
- 28 judicial review pursuant to chapter 17A.
- 29 3. This section does not affect the right of the
- 30 commissioner to impose any other penalties provided in this
- 31 subtitle.
- 32 4. This chapter shall not in any manner limit or restrict
- 33 the rights of policyholders, claimants, creditors, or other
- 34 third parties, or confer any rights to such persons.
- 35 Sec. 6. NEW SECTION. 521D.1 TITLE.

- This chapter shall be known and may be cited as the
- 2 "Disclosure of Material Transactions Act".
- 3 Sec. 7. NEW SECTION. 521D.2 REPORT.
- 4 l. An insurer domiciled in this state shall file a report
- 5 with the commissioner disclosing material acquisitions and
- 6 dispositions of assets, or material nonrenewals,
- 7 cancellations, or revisions of ceded reinsurance agreements
- 8 unless such acquisitions and dispositions of assets, or
- 9 material nonrenewals, cancellations, or revisions of ceded
- 10 reinsurance agreements have been submitted to the commissioner
- ll for review, approval, or information purposes pursuant to
- 12 other provisions of this subtitle or pursuant to other
- 13 requirements. The report shall be filed not later than
- 14 fifteen days after the end of the calendar year in which the
- 15 material acquisition or disposition of assets, or material
- 16 nonrenewal, cancellation, or revision of ceded reinsurance
- 17 agreements occurs.
- 18 2. The insurer shall also file a copy of the report
- 19 required to be filed with the commissioner pursuant to
- 20 subsection 1, including any exhibits or other attachments
- 21 filed as part of the report, with the national association of
- 22 insurance commissioners.
- 3. All reports obtained by or disclosed to the
- 24 commissioner and the national association of insurance
- 25 commissioners pursuant to this chapter are confidential and
- 26 shall not be subject to subpoena and shall not be made public
- 27 by the commissioner, the national association of insurance
- 28 commissioners, or any other person without the prior written
- 29 consent of the insurer to which it pertains, unless the
- 30 commissioner, after giving such insurer notice and providing
- 31 an opportunity to be heard, determines that the interest of
- 12 policyholders, shareholders, or the public will be served by
- 33 the publication or disclosure of the report, in which event
- 34 the commissioner may publish or disclose all or any part of
- 35 the report as deemed appropriate.

- Notwithstanding this subsection, the commissioner or the
- 2 national association of insurance commissioners may provide
- 3 the report to the insurance regulatory agencies of other
- 4 states.
- 5 Sec. 8. NEW SECTION. 521D.3 REPORT OF ACQUISITION AND
- 6 DISPOSITION OF ASSETS -- INFORMATION REQUIRED -- SCOPE.
- 7 l. An acquisition or disposition of assets need not be
- 8 reported pursuant to section 521D.2 if the acquisition or
- 9 disposition is not material. For purposes of this chapter, a
- 10 material acquisition, or the aggregate of any series of
- Il related acquisitions, or a disposition, or the aggregate of
- 12 any series of related dispositions, during any thirty-day
- 13 period, is one that is nonrecurring, is not in the ordinary
- 14 course of business, and involves more than five percent of the
- 15 reporting insurer's total admitted assets as reported in its
- 16 most recent statutory statement filed with the insurance
- 17 division of the insurer's state of domicile.
- 18 2. For purposes of this chapter, an asset acquisition
- 19 includes every purchase, lease, exchange, merger,
- 20 consolidation, succession, or other acquisition, other than
- 21 the construction or development of real property by or for the
- 22 reporting insurer or the acquisition of materials for such
- 23 purpose. For purposes of this chapter, an asset disposition
- 24 includes every sale, lease, exchange, merger, consolidation,
- 25 mortgage, hypothecation, assignment, whether for the benefit
- 26 of creditors of otherwise, abandonment, destruction, or other
- 27 disposition.
- 28 3. A report of a material acquisition or disposition of
- 29 assets shall include all of the following:
- 30 a. Date of the transaction.
- 31 b. Manner of the acquisition or disposition.
- 32 c. Description of the assets involved.
- 33 d. Nature and amount of the consideration given or
- 34 received.
- 35 e. Purpose of, or reason for, the transaction.

- f. Manner by which the amount of consideration was determined.
- 3 g. Gain or loss recognized or realized as a result of the 4 transaction.
- 5 h. Name or names of the person or persons from whom the 6 assets were acquired or to whom they were disposed.
- 7 4. An insurer is required to report material acquisitions
- 8 and dispositions on a nonconsolidated basis unless the insurer
- 9 is part of a consolidated group of insurers which utilizes a
- 10 pooling arrangement or one hundred percent reinsurance
- ll agreement that affects the solvency and integrity of the
- 12 insurer's reserves, and such insurer ceded substantially all
- 13 of its direct and assumed business to the pool. An insurer is
- 14 deemed to have ceded substantially all of its direct and
- 15 assumed business to a pool if the insurer has less than one
- 16 million dollars total direct plus assumed written premiums
- 17 during a calendar year that are not subject to a pooling
- 18 arrangement, and the net income of the business not subject to
- 19 the pooling arrangement represents less than five percent of
- 20 the insurer's capital and surplus.
- 21 Sec. 9. NEW SECTION. 521D.4 REPORT OF NONRENEWAL,
- 22 CANCELLATION, REVISION OF CEDED REINSURANCE AGREEMENTS --
- 23 INFORMATION REQUIRED -- SCOPE.
- 24 l. A nonrenewal, cancellation, or revision of a ceded
- 25 reinsurance agreement need not be reported pursuant to section
- 26 5210.2 if the nonrenewal, cancellation, or revision is not
- 27 material. For purposes of this chapter, a material
- 28 nonrenewal, cancellation, or revision of a ceded reinsurance
- 29 agreement is one that does the following:
- 30 a. For property and casualty business including accident
- 31 and health business when written as such, affects more than
- 32 fifty percent of an insurer's ceded written premium on an
- 33 annualized basis as indicated in the insurer's most recently
- 34 filed statutory statement.
- 35 b. For life, annuity, and accident and health business,

- I affects more than fifty percent of the total reserve credit
- 2 taken for business ceded on an annualized basis as indicated
- 3 in the insurer's most recently filed statutory statement.
- 4 2. Notwithstanding subsection 1, a filing is not required
- 5 if the insurer's ceded written premium represents, on an
- 6 annualized basis, less than ten percent of direct plus assumed
- 7 written premium, or the total reserve credit taken for
- 8 business ceded represents, on an annualized basis, less than
- 9 ten percent of the statutory reserve requirement prior to any 10 cession.
- 11 3. A report required to be filed pursuant to this chapter
- 12 is to be filed regardless of who has initiated the nonrenewal,
- 13 cancellation, or revision of the ceded reinsurance agreement
- 14 whenever one or more of the following conditions exist:
- 15 a. The entire cession has been canceled, nonrenewed, or
- 16 revised and ceded indemnity and loss adjustment expense
- 17 reserves, after any nonrenewal, cancellation, or revision,
- 18 represent less than fifty percent of the comparable reserves
- 19 that would have been ceded had the nonrenewal, cancellation,
- 20 or revision not occurred.
- 21 b. An authorized or accredited reinsurer has been replaced
- 22 on an existing cession by an unauthorized reinsurer.
- 23 c. Collateral requirements previously established for
- 24 unauthorized reinsurers have been reduced.
- 25 4. A report of a material nonrenewal, cancellation, or
- 26 revision of a ceded reinsurance agreement required to be filed
- 27 shall include all of the following:
- 28 a. The effective date of the nonrenewal, cancellation, or
- 29 revision.
- 30 b. The description of the transaction including the
- 31 identification of the initiator of the transaction.
- 32 c. The purpose of, or reason for, the transaction.
- 33 d. The identity of the replacement reinsurers, if
- 34 applicable.
- 35 5. Insurers are required to report all material

1 nonrenewals, cancellations, or revisions of ceded reinsurance
2 agreements on a nonconsolidated basis unless the insurer is
3 part of a consolidated group of insurers which utilizes an

4 intercompany pooling agreement or arrangement or a one hundred

5 percent reinsurance agreement under which the ceding company

6 has ceded substantially one hundred percent of its direct and

7 assumed business to a pool. An insurer is deemed to have

8 ceded substantially one hundred percent of its direct and

9 assumed business to a pool if the insurer has less than one

10 million dollars of total direct plus assumed written premiums

Il during a calendar year that are not subject to the pooling

12 agreement or arrangement and the net income of the business

13 not subject to the pooling agreement or arrangement represents

14 less than five percent of the insurer's capital and surplus.

15 If a group of insurers reports on a consolidated basis, the

16 report shall identify the individual insurers that are members

17 of the group.

## 18 EXPLANATION

19 This bill relates to insurance regulation and includes

20 provisions relating to the release of confidential

21 information, the standard valuation of certain insurance

22 policies and contracts and annuities and endowments, and the

23 disclosure of certain transactions of insurers domiciled in

24 this state.

New section 505.17 is created which provides that

26 disclosure of confidential information, administrative or

27 judicial orders which are closed, or other action of the

- 29 identified under subparagraph (1), or at the option of the
- 30 company, the class (3) disability table (1926).
- 31 (3) For policies issued prior to January 1, 1961, the
- 32 class (3) disability table (1926).
- 33 A table used under this paragraph "e" shall, for active
- 34 lives, be combined with a mortality table permitted for
- 35 calculating the reserves for life insurance policies.

- 1 f. For accidental death benefits in or supplementary to 2 policies, the following:
- 3 (1) For policies issued on or after January 1, 1966, the

- 10 (a) The 1971 individual annuity mortality table.
- 11 (b) An individual annuity mortality table, adopted after
- 12 1980 by the national association of insurance commissioners

- 33 subparagraph subdivisions (a) and (b) approved by the
- 34 commissioner.
- 35 (2) Five and one-half percent interest for single premium

- 1 deferred annuity and pure endowment contracts and four and
- 2 one-half percent interest for all other such individual
- 3 annuity and pure endowment contracts.
- 4 d. For all annuities and pure endowments purchased prior
- 5 to January 1, 1980, under group annuity and pure endowment
- 6 contracts, excluding any disability and accidental death

- 32 this section for such company, provided, if a company makes no
- 33 election, the effective date of this section for a company is
- 34 January 1, 1979.
- 35 S. COMPUTATION OF MINIMUM STANDARD BY CALENDAR YEAR OF

1 ISSUE.

- 2 a. APPLICABILITY OF THIS SUBSECTION. The calendar year
- 3 statutory valuation interest rates, as defined in this
- 4 subsection, shall be used in determining the minimum standard
- 5 for the valuation of all of the following:
- 6 (1) All life insurance policies issued in a particular
- 7 calendar year, on or after the operative date of section
- 8 508.37, subsection 5, paragraph "c".
- 9 (2) All individual annuity and pure endowment contracts
- 10 issued in a particular calendar year on or after January 1,
- 11 1995.
- 12 (3) All annuities and pure endowments purchased in a
- 13 particular calendar year on or after January 1, 1995, under
- 14 group annuity and pure endowment contracts.
- 15 (4) The net increase, if any, in a particular calendar
- 16 year on or after January 1, 1995, in amounts held under
- 17 guaranteed interest contracts.
- 18 b. CALENDAR YEAR STATUTORY VALUATION INTEREST RATES.
- 19 (1) The calendar year statutory valuation interest rates,
- 20 referred to in this paragraph as "I", shall be determined as
- 21 follows and the results rounded to the nearer one-quarter of
- 22 one percent:
- 23 (a) For life insurance,
- 24
- 25 I equals .03 + W(R1 .03) + W(R2 .09),
- 26 where R1 is the lesser of R and .09, R2 is the greater of R
- 27 and .09, R is the reference interest rate defined in paragraph
- 28 "d" of this subsection, and W is the weighting factor defined
- 29 in paragraph "c" of this subsection.
- 30 (b) For single premium immediate annuities and for annuity
- 31 benefits involving life contingencies arising from other
- 32 annuities with cash settlement options and from guaranteed
- 33 interest contracts with cash settlement options,
- 34 I equals .03 + W(R .03),
- 35 where Rl is the lesser of R and .09, R2 is the greater of R

1 and .09, R is the reference interest rate defined in paragraph
2 "d" of this subsection, and W is the weighting factor defined

- 4 (c) For other annuities with cash settlement options and 5 guaranteed interest contracts with cash settlement options,
- 6 valued on an issue year basis, except as stated in
- 7 subparagraph subdivision (b), the formula for life insurance
- 8 stated in subparagraph subdivision (a) applies to annuities
- 9 and guaranteed interest contracts with guarantee durations in
- 10 excess of ten years, and the formula for single premium
- 11 immediate annuities stated in subparagraph subdivision (b)
- 12 applies to annuities and guaranteed interest contracts with
- 13 guarantee durations of ten years or less.

3 in paragraph "c" of this subsection.

- 14 (d) For other annuities with no cash settlement options
- 15 and for guaranteed interest contracts with no cash settlement
- 16 options, the formula for single premium immediate annuities
- 17 stated in subparagraph subdivision (b) applies.
- 18 (e) For other annuities with cash settlement options and
- 19 guaranteed interest contracts with cash settlement options,
- 20 valued on a change in fund basis, the formula for single
- 21 premium immediate annuities stated in subparagraph subdivision
- 22 (b) applies.
- 23 (2) However, if the calendar year statutory valuation
- 24 interest rate for any life insurance policies issued in any
- 25 calendar year determined under subparagraph (1), subparagraph
- 26 subdivision (a) without reference to this sentence differs
- 27 from the corresponding actual rate for similar policies issued
- 28 in the immediately preceding calendar year by less than one-
- 29 half of one percent, the calendar year statutory valuation
- 30 interest rate for the life insurance policies is equal to the
- 31 corresponding actual rate for the immediately preceding
- 32 calendar year. For purposes of applying the immediately
- 33 preceding sentence, the calendar year statutory valuation
- 34 interest rate for life insurance policies issued in a calendar
- 35 year shall be determined for 1980, using the reference

- 1 interest rate defined in 1979, and shall be determined for
- 2 each subsequent calendar year regardless of the operative date
- 3 of section 508.37, subsection 5, paragraph "c".
- 4 c. WEIGHTING FACTORS.
- 5 (1) The weighting factors referred to in paragraph "b" are 6 given in the following tables:
- 7 (a) Weighting Factors for Life Insurance:

8	Guarantee Duration (Years)	Weighting Factors
9	10 or less	.50
10	More than 10, but not more than 20	.45

- 11 More than 20 .35
- 12 For life insurance, the guarantee duration is the maximum
- 13 number of years the life insurance can remain in force on a
- 14 basis guaranteed in the policy or under options to convert to
- 15 plans of life insurance with premium rates or nonforfeiture
- 16 values or both which are guaranteed in the original policy.
- 17 (b) The weighting factors for single premium immediate
- 18 annuities and for annuity benefits involving life
- 19 contingencies arising from other annuities with cash
- 20 settlement options and guaranteed interest contracts with cash
- 21 settlement options is .80.
- 22 (c) Weighting factors for other annuities and for
- 23 guaranteed interest contracts, except as stated in
- 24 subparagraph subdivision (b), shall be as specified in
- 25 subparagraph subdivision parts (i), (ii) and (iii) of this
- 26 subparagraph subdivision, according to the rules and
- 27 definitions in subparagraph subdivision parts (iv), (v), and
- 28 (vi) of this subparagraph subdivision:
- 29 (i) For annuities and guaranteed interest contracts valued
- 30 on an issue year basis:

31		Weig	nting	Factor
32		for	Plan	Type
33	Guarantee Duration (Years)	A	В	Ç
34	5 or less	80	.60	.50
35	More than 5, but not more than 10 .	75	.60	.50

S.F. H.F.

1 More than 10, but not more than 20 .65 .50 .45 2 More than 20 .45 .35 .35

3 (ii) For annuities and guaranteed interest contracts 4 valued on a change in fund basis, the factors shown in 5 subparagraph subdivision part (i) of this subparagraph 6 subdivision increased by:

7 Plan Type 8 A B C 9 .15 .25 .05

(iii) For annuities and guaranteed interest contracts 11 valued on an issue-year basis, other than those with no cash 12 settlement options, which do not guarantee interest on 13 considerations received more than one year after issue or 14 purchase and for annuities and guaranteed interest contracts 15 valued on a change in fund basis which do not guarantee 16 interest rates on considerations received more than twelve 17 months beyond the valuation date, the factors shown in 18 subparagraph subdivision part (i) of this subparagraph 19 subdivision or derived in subparagraph subdivision part (ii) 20 of this subparagraph subdivision increased by:

21 Plan Type 22 A B C 23 .05 .05 .05

(iv) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of twenty years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guarantee duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence.

35 (v) "Plan type", as used in subparagraph subdivision parts

- 1 (i), (ii), and (iii) of this subparagraph subdivision, is
  2 defined as follows:
- 3 "Plan Type A": At any time, the policyholder may withdraw
- 4 funds only with an adjustment to reflect changes in interest
- 5 rates or asset values since receipt of the funds by the
- 6 insurance company, or may withdraw funds without that
- 7 adjustment but in installments over five years or more, or may
- 8 withdraw funds as in immediate life annuity; or no withdrawal
- 9 is permitted.
- 10 "Plan Type B": Before expiration of the interest rate
- ll guarantee, the policyholder may withdraw funds only with an
- 12 adjustment to reflect changes in interest rates or asset
- 13 values since receipt of the funds by the insurance company, or
- 14 may withdraw funds without that adjustment but in installments
- 15 over five years or more; or no withdrawal is permitted. At
- 16 the end of interest rate guarantee, funds may be withdrawn
- 17 without adjustment in a single sum or installments over less
- 18 than five years.
- 19 "Plan Type C": The policyholder may withdraw funds before
- 20 expiration of interest rate guarantee in a single sum or
- 21 installments over less than five years either without
- 22 adjustment to reflect changes in interest rates or asset
- 23 values since receipt of the funds by the insurance company, or
- 24 subject only to a fixed surrender charge stipulated in the
- 25 contract as a percentage of the fund.
- 26 (vi) A company may elect to value guaranteed interest
- 27 contracts with cash settlement options and annuities with cash
- 28 settlement options on either an issue-year basis or on a
- 29 change-in-fund basis. Guaranteed interest contracts with no
- 30 cash settlement options and other annuities with no cash
- 31 settlement options must be valued on an issue-year basis. As
- 32 used in this section, an issue-year basis of valuation refers
- 33 to a valuation basis under which the interest rate used to
- 34 determine the minimum valuation standard for the entire
- 35 duration of the annuity or guaranteed interest contract is the

1 calendar year valuation interest rate for the year of issue or

2 year of purchase of the annuity or guaranteed interest

3 contract, and the change-in-fund basis of valuation refers to

4 a valuation basis under which the interest rate used to

5 determine the minimum valuation standard applicable to each

6 change in the fund held under the annuity or guaranteed

7 interest contract is the calendar year valuation interest rate

8 for the year of the change in the fund.

9 d. REFERENCE INTEREST RATE. The reference interest rate

10 referred to in paragraph "b" is defined as follows:

11 (1) For all life insurance, the lesser of the average over

12 a period of thirty-six months and the average over a period of

13 twelve months, ending on June 30 of the calendar year next

14 preceding the year of issue, of the monthly average of the

15 composite yield on seasoned corporate bonds, as published by

16 moody's investors service, inc.

17 (2) For single premium immediate annuities and for annuity

18 benefits involving life contingencies arising from other

19 annuities with cash settlement options and guaranteed interest

20 contracts with cash settlement options, the average over a

21 period of twelve months, ending on June 30 of the calendar

22 year of issue or year of purchase, of the monthly average of

23 the composite yield on seasoned corporate bonds, as published

24 by moody's investors service, inc.

25 (3) For other annuities with cash settlement options and

26 guaranteed interest contracts with cash settlement options,

27 valued on an issue-year basis, except as stated in

28 subparagraph (2), with guarantee duration in excess of ten

29 years, the lesser of the average over a period of thirty-six

30 months and the average over a period of twelve months, ending

31 on June 30 of the calendar year of issue or purchase, of the

32 monthly average of the composite yield on seasoned corporate

33 bonds, as published by moody's investors service, inc.

(4) For other annuities with cash settlement options and

35 guaranteed interest contracts with cash settlement options,

- 1 valued on an issue-year basis, except as stated in
- 2 subparagraph (2), with guarantee duration of ten years or
- 3 less, the average over a period of twelve months, ending on
- 4 June 30 of the calendar year of issue or purchase, of the
- 5 monthly average of the composite yield on seasoned corporate
- 6 bonds, as published by moody's investors service, inc.
- 7 (5) For other annuities with no cash settlement options
- 8 and for quaranteed interest contracts with no cash settlement
- 9 options, the average over a period of twelve months, ending on
- 10 June 30 of the calendar year of issue or purchase, of the
- 11 monthly average of the composite yield on seasoned corporate
- 12 bonds, as published by moody's investors service, inc.
- 13 (6) For other annuities with cash settlement options and
- 14 guaranteed interest contracts with cash settlement options,
- 15 valued on a change-in-fund basis, except as stated in
- 16 subparagraph (2), the average over a period of twelve months,
- 17 ending on June 30 of the calendar year of the change in the
- 18 fund, of the monthly average of the composite yield on
- 19 seasoned corporate bonds, as published by moody's investors
- 20 service, inc.
- 21 e. ALTERNATIVE METHOD FOR DETERMINING REFERENCE INTEREST
- 22 RATES. In the event that the monthly average of the composite
- 23 yield on seasoned corporate bonds is no longer published by
- 24 moody's investors service, inc., or in the event that the
- 25 national association of insurance commissioners determines
- 26 that the monthly average of the composite yield on seasoned
- 27 corporate bonds as published by moody's investors service,
- 28 inc. is no longer appropriate for the determination of the
- 29 reference interest rate, an alternative method for
- 30 determination of the reference interest rate, which is adopted
- 31 by the national association of insurance commissioners and
- 32 approved by rule adopted by the commissioner, may be
- 33 substituted.
- 34 6. RESERVE VALUATION METHOD -- LIFE INSURANCE AND
- 35 ENDOWMENT BENEFITS.

- a. Except as otherwise provided in subsections 7, 10, and
- 2 12, reserves calculated according to the commissioner's
- 3 reserve valuation method, for the life insurance and endowment
- 4 benefits of policies providing for a uniform amount of
- 5 insurance and requiring the payment of uniform premiums, shall
- 6 be the excess, if any, of the present value, at the date of
- 7 valuation, of future guaranteed benefits provided for by such
- 8 policies, over the present value, at the date of valuation, of
- 9 any future modified net premiums for such policies. The
- 10 modified net premiums for such policy is the uniform
- 11 percentage of the respective contract premiums for the
- 12 benefits such that the present value, at the date of issue of
- 13 the policy, of all modified net premiums shall be equal to the
- 14 sum of the present value, at the date of valuation, of such
- 15 benefits provided for by the policy and the excess of the
- 16 amount determined in subparagraph (1) over the amount
- 17 determined in subparagraph (2), as follows:
- 18 (1) A net level annual premium equal to the present value
- 19 at the date of issue, of the benefits provided for after the
- 20 first policy year, divided by the present value at the date of
- 21 issue, of an annuity of one per annum payable on the first,
- 22 and each subsequent, anniversary of the policy on which a
- 23 premium falls due. However, the net level annual premium
- 24 shall not exceed the net level annual premium on the nineteen-
- 25 year premium whole life plan for insurance of the same amount
- 26 at an age one year more than the age of the insured at issue
- 27 of the policy.
- 28 (2) A net one-year term premium for the benefits provided
- 29 for in the first policy year.
- 30 b. However, for a life insurance policy issued on or after
- 31 January 1, 1998, for which the contract premium in the first
- 32 policy year exceeds that of the second year and for which no
- 33 comparable additional benefit is provided in the first year
- 34 for such additional premium and which provides an endowment
- 35 benefit or a cash surrender value or a combination of such

- 1 benefit or value in an amount greater than the additional
- 2 premium, the reserve according to the commissioner's reserve
- 3 valuation method as of any policy anniversary occurring on or
- 4 before the assumed ending date defined as the first policy
- 5 anniversary on which the sum of any endowment benefit and any
- 6 cash surrender value then available is greater than such
- 7 additional premium shall be, except as otherwise provided in
- 8 subsection 10, the greater of the reserve as of such policy
- 9 anniversary calculated as described in paragraph "a" and the
- 10 reserve as of such policy anniversary calculated as described
- ll in paragraph "a", but with the following modifications:
- 12 (i) The value defined in paragraph "a" being reduced by
- 13 fifteen percent of the amount of such excess first year
- 14 premium.
- 15 (ii) All present values of benefits and premiums being
- 16 determined without reference to premiums or benefits provided
- 17 for by the policy after the assumed ending date.
- 18 (iii) The policy being assumed to mature on such date as
- 19 an endowment.
- 20 (iv) The cash surrender value provided on such date being
- 21 considered as an endowment benefit.
- 22 In making the above comparison the mortality and interest
- 23 bases stated in subsections 4 and 5 shall be used.
- 24 c. Reserves according to the commissioner's reserve
- 25 valuation method shall be calculated pursuant to a method
- 26 consistent with this subsection for all of the following:
- 27 (1) Life insurance policies providing for a varying amount
- 28 of insurance or requiring the payment of varying premiums.
- 29 (2) Group annuity and pure endowment contracts purchased
- 30 under a retirement plan or plan of deferred compensation
- 31 established or maintained by an employer, including a
- 32 partnership or sole proprietorship, or by an employee
- 33 organization, or by both, other than a plan providing
- 34 individual retirement accounts or individual retirement
- 35 annuities under section 408 of the Internal Revenue Code.

- 3 (4) All other benefits, except life insurance and 4 endowment benefits in life insurance policies and benefits 5 provided by all other annuity and pure endowment contracts.
- 5 provided by all other annuity and pure endowment contracts.
  6 7. RESERVE VALUATION METHOD -- ANNUITY AND PURE ENDOWMENT
  7 BENEFITS. This subsection applies to all annuity and pure
  8 endowment contracts other than group annuity and pure
  9 endowment contracts purchased under a retirement plan or plan
  10 of deferred compensation established or maintained by an
  11 employer, including a partnership or sole proprietorship, or
  12 by an employee organization, or by both, other than a plan
  13 providing individual retirement accounts or individual
  14 retirement annuities under section 408 of the Internal Revenue
  15 Code.
- Reserves according to the commissioner's annuity reserve 17 method for benefits under annuity or pure endowment contracts, 18 excluding any disability and accidental death benefits in such 19 contracts, shall be the greatest of the respective excesses of 20 the present values, at the date of valuation, of the future 21 guaranteed benefits, including guaranteed nonforfeiture 22 benefits, provided for by such contracts at the end of each 23 respective contract year, over the present value, at the date 24 of valuation, of any future valuation considerations derived 25 from future gross considerations, required by the terms of 26 such contract, that become payable prior to the end of such 27 respective contract year. The future guaranteed benefits 28 shall be determined by using the mortality table, if any, and 29 the interest rate or rates, specified in such contracts for 30 determining guaranteed benefits. The valuation considerations 31 are the portions of the respective gross considerations 32 applied under the terms of such contracts to determine 33 nonforfeiture values.
- 34 8. MINIMUM RESERVES.
- 35 a. A company's aggregate reserves for all life insurance

1 to render the opinion required by subsection 2 shall not be

2 deemed to be the adoption of a higher standard of valuation.

- 3 10. RESERVE CALCULATION -- VALUATION NET PREMIUM EXCEEDING 4 THE GROSS PREMIUM CHARGE.
- 5 a. If in any contract year the gross premium charged by a
- 6 life insurance company on a policy or contract is less than
- 7 the valuation net premium for the policy or contract, as
- 8 calculated by the method used in calculating the reserve for
- 9 such policy or contract but using the minimum valuation
- 10 standards of mortality and rate of interest, the minimum
- 11 reserve required for such policy or contract is the greater of
- 12 either the reserve calculated according to the mortality
- 13 table, rate of interest, and method actually used for such
- 14 policy or contract, or the reserve calculated by the method
- 15 actually used for such policy or contract but using the
- 16 minimum valuation standards of mortality and rate of interest
- 17 and replacing the valuation net premium by the actual gross
- 18 premium in each contract year for which the valuation net
- 19 premium exceeds the actual gross premium. The minimum
- 20 valuation standards of mortality and rate of interest referred
- 21 to in this section are those standards established in
- 22 subsections 4 and 5.
- 23 b. However, for any life insurance policy issued on or
- 24 after January 1, 1998, for which the gross premium in the
- 25 first policy year exceeds that of the second year and for
- 26 which no comparable additional benefit is provided in the
- 27 first year for such excess and which provides an endowment
- 28 benefit or a cash surrender value, or a combination of such
- 29 benefit and value, in an amount greater than the excess
- 30 premium, the provisions of paragraph "a" apply as if the
- 31 method actually used in calculating the reserve for such
- 32 policy is the method established in subsection 6, excluding
- 33 paragraph "b" of that subsection. The minimum reserve of the
- 34 policy at each policy anniversary shall be the greater of the
- 35 minimum reserve calculated pursuant to subsection 6 and the

20 provisions relating to the release of confidential

21 information, the standard valuation of certain insurance

22 policies and contracts and annuities and endowments, and the

23 disclosure of certain transactions of insurers domiciled in

24 this state.

New section 505.17 is created which provides that

26 disclosure of confidential information, administrative or

27 judicial orders which are closed, or other action of the

28 division which is not an open record, to other state

29 regulatory officials may be permitted by the commissioner if

30 those officials are subject to, or agree to comply with,

31 standards of confidentiality comparable to those imposed on

32 the commissioner.

33 Sections 2 and 3 amend the standard valuation provisions

34 related to life insurance policies and contracts, and annuity

35 and endowment contracts.

- 1 Sections 4 and 5 amend provisions relating to reinsurance
- 2 intermediaries. Section 521C.8 is amended to provide that an
- 3 underwriting manager who manages part of the reinsurance
- 4 operations of a reinsurer and who is under common control with
- 5 the reinsurer, is not a reinsurance intermediary-manager.
- 6 Currently, only an underwriting manager who manages all of the
- 7 reinsurance operations of the reinsurer and who is under
- 8 common control with the reinsurer is excluded from the
- 9 definition of a reinsurance intermediary-manager.
- 10 Sections 6 through 9 create a new chapter 521D which
- 11 requires the disclosure of certain material transactions.
- 12 Section 521D.1 establishes the title of the chapter.
- 13 Section 521D.2 requires an insurer domiciled in this state
- 14 to file a report with the commissioner and the national
- 15 association of insurance commissioners disclosing material
- 16 acquisitions and dispositions of assets, or material

- 18 agreements unless such acquisitions and dispositions of
- 19 assets, or material nonrenewals, cancellations, or revisions
- 20 of ceded reinsurance agreements have been submitted to the
- 21 commissioner for review, approval, or information purposes
- 22 pursuant to other provisions.
- 23 Section 521D.3 provides that a report of acquisition and
- 24 disposition of assets need not be filed if the acquisition or
- 25 disposition is not material. The section also sets forth the
- 26 information which must be included in such report.
- 27 Section 521D.4 provides that a report of a nonrenewal,
- 28 cancellation, or revision of a ceded reinsurance agreement
- 29 need not be filed if the nonrenewal, cancellation, or revision

I maintenance of the Iowa insurance division's accreditation

      Section 1 provides for the authority of the division to
 4 share with other states' insurance regulatory agencies con-
 5 fidential information concerning insurance companies. Such
 6 information might include data received during the course of
 7 an administrative investigation or during a financial
 8 examination. The intent is to insure that state regulators
 9 are kept adequately advised of issues or problems which may
10 affect the insurers they regulate.
11
      Sections 2 and 3 revise the standard valuation law.
12 section of the law specifies the method of calculation used by
13 life insurance companies in annually computing the amount of
14 reserves (amount representing actual and potential liabilities
15 to be incurred during the year) which must be maintained.
      Sections 4 and 5 contain amendments to the Reinsurance
17 Intermediaries Act. The Act regulates persons who act as
18 third parties in negotiating reinsurance agreements between a
19 ceding insurer and a reinsurer. The amendments proposed
20 pertain to the definition of a "reinsurance intermediary-
21 manager", and to the penalties assessed against violators of
22 the Act.
      Sections 6 through 9 establish a new chapter entitled
24 "Disclosure of Material Transactions Act". The Act clarifies
25 and expands upon the reporting requirements the division
26 imposes on insurers with regard to transactions between
27 subsidiaries. Such transactions include acquisition and
28 disposition of assets, and nonrenewal, cancellation, or
29 revision of reinsurance agreements.

- (a) The commissioner receives the written consent of the company with which the opinion is associated.
- (b) The American academy of actuaries requests that the memorandum or other material is required for the purpose of professional disciplinary proceedings and setting forth procedures satisfactory to the commissioner for preserving the confidentiality of the memorandum or other material.

Once any portion of the confidential memorandum is cited by the company in its marketing, is cited before any governmental agency other than a state insurance department, or is released by the company to the news media, all portions of the confidential memorandum are no longer confidential.

After July 1, 1973, a company may file with the commissioner a written notice of its election to comply with the provisions of this subsection after a specified date before January 1, 1979, which shall be the operative date of this section for such company, provided, if a company makes no election, the effective date of this section for a company is January 1, 1979.

- 5. COMPUTATION OF MINIMUM STANDARD BY CALENDAR YEAR OF ISSUE.
- a. APPLICABILITY OF THIS SUBSECTION. The calendar year statutory valuation interest rates, as defined in this subsection, shall be used in determining the minimum standard for the valuation of all of the following:

- (1) All life insurance policies issued in a particular calendar year, on or after the operative date of section 508.37, subsection 5, paragraph "c".
- (2) All individual annuity and pure endowment contracts issued in a particular calendar year on or after January 1, 1995.

- (4) The net increase, if any, in a particular calendar year on or after January 1, 1995, in amounts held under quaranteed interest contracts.
  - b. CALENDAR YEAR STATUTORY VALUATION INTEREST RATES.
- (1) The calendar year statutory valuation interest rates, referred to in this paragraph as "I", shall be determined as follows and the results rounded to the nearer one-quarter of one percent:
  - (a) For life insurance,

9

I equals .03 + W(R1 - .03) + 2 (R2 - .09), where R1 is the lesser of R and .09, R2 is the greater of R and .09, R is the reference interest rate defined in paragraph "d" of this subsection, and W is the weighting factor defined in paragraph "c" of this subsection.

(b) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options,

I equals .03 + W(R - .03), where R1 is the lesser of R and .09, R2 is the greater of R and .09, R is the reference interest rate defined in paragraph "d" of this subsection, and W is the weighting factor defined in paragraph "c" of this subsection.

(c) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in subparagraph subdivision (b), the formula for life insurance stated in subparagraph subdivision (a) applies to annuities and guaranteed interest contracts with guarantee durations in excess of ten years, and the formula for single premium immediate annuities stated in subparagraph subdivision (b) applies to annuities and guaranteed interest contracts with guarantee durations of ten years or less.

- (d) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in subparagraph subdivision (b) applies.
- (e) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in subparagraph subdivision (b) applies.
- (2) However, if the calendar year statutory valuation interest rate for any life insurance policies issued in any calendar year determined under subparagraph (1), subparagraph subdivision (a) without reference to this sentence differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than onehalf of one percent, the calendar year statutory valuation interest rate for the life insurance policies is equal to the corresponding actual rate for the immediately preceding calendar year. For purposes of applying the immediately preceding sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year shall be determined for 1980, using the reference interest rate defined in 1979, and shall be determined for each subsequent calendar year regardless of the operative date of section 508.37, subsection 5, paragraph "c".
  - c. WEIGHTING FACTORS.
- (1) The weighting factors referred to in paragraph "b" are given in the following tables:
  - (a) Weighting Pactors for Life Insurance:

Guarantee Duration (Years)	Weighting Factors
10 or less	.50
More than 10, but not more than 20	. 45
More than 20	. 35

Por life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy or under options to convert to plans of life insurance with premium rates or nonforfeiture values or both which are guaranteed in the original policy.

- (b) The weighting factors for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options is .80.
- (c) Weighting factors for other annuities and for guaranteed interest contracts, except as stated in subparagraph subdivision (b), shall be as specified in subparagraph subdivision parts (i), (ii) and (iii) of this subparagraph subdivision, according to the rules and definitions in subparagraph subdivision parts (iv), (v), and (vi) of this subparagraph subdivision:
- (i) For annuities and guaranteed interest contracts valued on an issue year basis:

	Weighting		Factor	
	fo	r Plan	Туре	
Guarantee Duration (Years)	A	19	c

More than 5, but not more than 10	.75	.60	. 50	
More than 10, but not more than 20	- 65	.50	.45	
More than 20	. 45	. 35	. 35	

(ii) For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in subparagraph subdivision part (i) of this subparagraph subdivision increased by:

(iii) For annuities and guaranteed interest contracts valued on an issue-year basis, other than those with no cash settlement options, which do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than twelve months beyond the valuation date, the factors shown in subparagraph subdivision part (i) of this subparagraph subdivision or derived in subparagraph subdivision part (ii) of this subparagraph subdivision increased by:

Plan Type

A B C .05 .05

- (iv) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee durations in excess of twenty years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guarantee duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence.
- (v) "Plan type", as used in subparagraph subdivision parts(i), (ii), and (iii) of this subparagraph subdivision, is defined as follows:

"Plan Type A": At any time, the policyholder may withdraw funds only with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company, or may withdraw funds without that adjustment but in installments over five years or more, or may withdraw funds as in immediate life annuity; or no withdrawal is permitted.

"Plan Type B": Before expiration of the interest rate guarantee, the policyholder may withdraw funds only with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company, or may withdraw funds without that adjustment but in installments over five years or more; or no withdrawal is permitted. At the end of interest rate guarantee, funds may be withdrawn without adjustment in a single sum or installments over less than five years.

"Plan Type C": The policyholder may withdraw funds before expiration of interest rate guarantee in a single sum or installments over less than five years either without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company, or subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

- (vi) A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue-year basis or on a change-in-fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options must be valued on an issue-year basis. As used in this section, an issue-year basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract, and the change-in-fund basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or quaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund.
- d. REFERENCE INTEREST RATE. The reference interest rate referred to in paragraph "b" is defined as follows:

- (1) For all life insurance, the lesser of the average over a period of thirty-six months and the average over a period of twelve months, ending on June 30 of the calendar year next preceding the year of issue, of the monthly average of the composite yield on seasoned corporate bonds, as published by moody's investors service, inc.
- (2) For single premium immediate annulties and for annulty benefits involving life contingencies arising from other annulties with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of twelve months, ending on June 30 of the calendar year of issue or year of purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by moody's investors service, inc.
- quaranteed interest contracts with cash settlement options and quaranteed interest contracts with cash settlement options, valued on an issue-year basis, except as stated in subparagraph (2), with guarantee duration in excess of ten years, the lesser of the average over a period of thirty-six months and the average over a period of twelve months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by moody's investors service, inc.
- (4) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue-year basis, except as stated in subparagraph (2), with guarantee duration of ten years or less, the average over a period of twelve months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by moody's investors service, inc.
- (5) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the average over a period of twelve months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by moody's investors service, inc.

- (6) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change-in-fund basis, except as stated in subparagraph (2), the average over a period of twelve months, ending on June 30 of the calendar year of the change in the fund, of the monthly average of the composite yield on seasoned corporate bonds, as published by moody's investors service, inc.
- e. ALTERNATIVE METHOD FOR DETERMINING REFERENCE INTEREST RATES. In the event that the monthly average of the composite yield on seasoned corporate bonds is no longer published by moody's investors service, inc., or in the event that the national association of insurance commissioners determines that the monthly average of the composite yield on seasoned corporate bonds as published by moody's investors service, inc. is no longer appropriate for the determination of the reference interest rate, an alternative method for determination of the reference interest rate, which is adopted by the national association of insurance commissioners and approved by rule adopted by the commissioner, may be substituted.
- 6. RESERVE VALUATION METHOD -- LIFE INSURANCE AND ENDOWMENT BENEFITS.
- a. Except as otherwise provided in subsections 7, 10, and 12, reserves calculated according to the commissioner's reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums, shall be the excess, if any, of the present value, at the date of valuation, of future guaranteed benefits provided for by such policies, over the present value, at the date of valuation, of any future modified net premiums for such policies. The modified net premiums for such policies the uniform percentage of the respective contract premiums for the benefits such that the present value, at the date of issue of the policy, of all modified net premiums shall be equal to the

sum of the present value, at the date of valuation, of such benefits provided for by the policy and the excess of the amount determined in subparagraph (1) over the amount determined in subparagraph (2), as follows:

- at the date of issue, of the benefits provided for after the first policy year, divided by the present value at the date of issue, of an annuity of one per annum payable on the first, and each subsequent, anniversary of the policy on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan for insurance of the same amount at an age one year more than the age of the insured at issue of the policy.
- (2) A net one-year term premium for the benefits provided for in the first policy year.
- b. However, for a life insurance policy issued on or after January 1, 1998, for which the contract premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for such additional premium and which provides an endowment benefit or a cash surrender value or a combination of such benefit or value in an amount greater than the additional premium, the reserve according to the commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such additional premium shall be, except as otherwise provided in subsection 10, the greater of the reserve as of such policy anniversary calculated as described in paragraph "a" and the reserve as of such policy anniversary calculated as described in paragraph "a", but with the following modifications:
- (i) The value defined in paragraph "a" being reduced by fifteen percent of the amount of such excess first year premium.

- (ii) All present values of benefits and premiums being determined without reference to premiums or benefits provided for by the policy after the assumed ending date.
- (iii) The policy being assumed to mature on such date as an endowment.
- (iv) The cash surrender value provided on such date being considered as an endowment benefit.

In making the above comparison the mortality and interest bases stated in subsections 4 and 5 shall be used.

- c. Reserves according to the commissioner's reserve valuation method shall be calculated pursuant to a method consistent with this subsection for all of the following:
- Life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums.
- (2) Group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the Internal Revenue Code.
- (3) Disability and accidental death benefits in all policies and contracts.
- (4) All other benefits, except life insurance and endowment benefits in life insurance policies and benefits provided by all other annuity and pure endowment contracts.
- 7. RESERVE VALUATION METHOD -- ANNUITY AND PURE ENDOWMENT BENEFITS. This subsection applies to all annuity and pure endowment contracts other than group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the Internal Revenue Code.

Reserves according to the commissioner's annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in such contracts, shall be the greatest of the respective excesses of the present values, at the date of valuation, of the future quaranteed benefits, including quaranteed nonforfeiture benefits, provided for by such contracts at the end of each respective contract year, over the present value, at the date of valuation, of any future valuation considerations derived from future gross considerations, required by the terms of such contract, that become payable prior to the end of such respective contract year. The future guaranteed benefits shall be determined by using the mortality table, if any, and the interest rate or rates, specified in such contracts for determining quaranteed benefits. The valuation considerations are the portions of the respective gross considerations applied under the terms of such contracts to determine nonforfeiture values.

- 8. MINIMUM RESERVES.
- a. A company's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, the operative date of section 508.37, shall not be less than the aggregate reserves calculated in accordance with the methods set forth in subsections 6, 7, 10, and 11, and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for such policies.
- b. A company's aggregate reserves for all policies, contracts, and benefits shall not be less than the aggregate reserves determined by the qualified actuary to be necessary to render the opinion required by subsection 2.
- 9. OPTIONAL RESERVE CALCULATION. Reserves for all policies and contracts issued prior to the operative date of section 508.37, may be calculated, at the option of the company, according to any standards which produce greater aggregate reserves for all such policies and contracts than the minimum reserves required prior to July 1, 1994.

Reserves for any category of policies, contracts, or benefits, as established by the commissioner, issued on or after the operative date of section 508.37, may be calculated, at the option of the company, according to any standards which produce greater aggregate reserves for such category than those calculated according to the minimum standard as provided in this section, but the rate or rates of interest used for policies and contracts, other than annuity and pure endowment contracts, shall not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits as provided in this section.

A company which at any time adopts a standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard as provided in this section may adopt, with the approval of the commissioner, any lower standard of valuation, not to be lower than the minimum as provided in this section, provided, however, that, for purposes of this section, the holding of additional reserves previously determined by a qualified actuary to be necessary to render the opinion required by subsection 2 shall not be deemed to be the adoption of a higher standard of valuation.

- 10. RESERVE CALCULATION -- VALUATION NET PREMIUM EXCEEDING THE GROSS PREMIUM CHARGE.
- a. If in any contract year the gross premium charged by a life insurance company on a policy or contract is less than the valuation net premium for the policy or contract, as calculated by the method used in calculating the reserve for such policy or contract but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for such policy or contract is the greater of either the reserve calculated according to the mortality table, rate of interest, and method actually used for such policy or contract, or the reserve calculated by the method actually used for such policy or contract but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross

premium in each contract year for which the valuation net premium exceeds the actual gross premium. The minimum valuation standards of mortality and rate of interest referred to in this section are those standards established in subsections 4 and 5.

- b. However, for any life insurance policy issued on or after January 1, 1998, for which the gross premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for such excess and which provides an endowment benefit or a cash surrender value, or a combination of such benefit and value, in an amount greater than the excess premium, the provisions of paragraph "a" apply as if the method actually used in calculating the reserve for such policy is the method established in subsection 6, excluding paragraph "b" of that subsection. The minimum reserve of the molicy at each policy anniversary shall be the greater of the minimum reserve calculated pursuant to subsection 6 and the minimum reserve calculated in accordance with this subsection.
- 11. RESERVE CALCULATION -- INDETERMINATE PREMIUM PLANS. In the case of any plan of life insurance which provides for future premium determination, the amounts of such premium which are to be determined by the insurance company based on estimates of future experience, or in the case of any plan of life insurance or annuity, the minimum reserves of which cannot be determined by the methods established in subsections 6, 7, and 10, the reserves which are held under the plan must be appropriate in relation to the benefits and the pattern of premiums for that plan, and shall be computed by a method which is consistent with this section, as determined by rules adopted by the commissioner.
- 12. MINIMUM STANDARDS FOR HEALTH (DISABILITY, ACCIDENT, AND SICKNESS) PLANS. The commissioner shall adopt rules containing the minimum standards applicable to the valuation of health, disability, and sickness and accident plans.

- Sec. 9. Section 5138.2, subsection 16, Code Supplement 1993, is amended to read as follows:
- 16. "Small employer" means a person actively engaged in business who, on at least fifty percent of the employer's working days during the preceding year, employed not less than two and not more than twenty-five fifty full-time equivalent eligible employees. In determining the number of eligible employees, companies which are affiliated companies or which are eligible to file a combined tax return for purposes of state taxation are considered one employer.
- Sec. 10. Section 513B.4. Code Supplement 1993, is amended by adding the following new subsection:

NEW SUBSECTION. 1A. Notwithstanding subsection 1, there shall be no variance in premium rates for a basic or standard benefit plan offered pursuant to this chapter for health status or claim experience.

Sec. 11. Section 513B.4, subsection 2, unnumbered paragraph 2, Code Supplement 1993, is amended by striking the paragraph and inserting in lieu thereof the following:

Sec. 12. Section 513B.4, Code Supplement 1993, is amended by adding the following new subsection:

NEW SUBSECTION. 5. Notwithstanding subsection 1, the commissioner, with the concurrence of the board of the Iowa small employer health reinsurance program established in section 513B.13, may by order reduce or eliminate the allowed rating bands provided under subsection 1, paragraphs "a", "b", and "c", or otherwise limit or eliminate the use of experience rating.

Sec. 13. Section 515A.13. Code 1993, is amended by adding the following new subsection:

NEW SUBSECTION. 5. PROHIBITED RELEASE. A person other than the commissioner or the commissioner's designee shall not

release to another person, other than to the servicing insurer of the policy or to the commissioner or the commissioner's designee, experience, payroll, loss data, expiration date of a policy, or classification information without the prior written approval of the policy holder. A violation of this section shall be considered an unfair trade practice pursuant to chapter 5078.

Sec. 14. Section 521C.2, subsection 8, paragraph c, Code 1993, is amended to read as follows:
