31 EXPLANATION

32 This bill provides for the modernization of vital records
33 and facilitates the transition of registrar duties from the
34 clerk of the district court to the county recorder.

35 The bill establishes procedures for the electronic submis-

1 sion of vital records regarding birth and death certificates
2 and related data. The bill also provides for changes in the
3 birth registration process, and disallows issuance of a
4 delayed birth certificate for a deceased person.

5 The bill provides for adjustments in the length of time
6 that birth, death, and marriage vital statistics records are
7 archived and made available for public inspection. The bill
8 also provides that the director of public health may issue
9 commemorative birth and marriage certificates.

10 The bill makes changes relating to funding the vital
11 records conversion process to an electronic format through
12 encumbering fund moneys obligated on or prior to June 30,
13 1997.

14 BACKGROUND STATEMENT

15 SUBMITTED BY THE AGENCY

16 This bill proposes additional statutory changes necessary
17 to complete the process of modernization of vital records
18 initiated by the 1992 Session of the General Assembly. The
19 bill also makes additional changes required to effect the
20 transition of registrar duties from the clerk of the district
21 court to the county recorder scheduled to be concluded by July
22 1, 1997.

23 The bill clarifies the definition of live birth to
24 distinguish between an actual live birth and various anomalies
25 and establishes the process which will allow the electronic
26 submission of vital records.

27 Changes are made to procedures for the filing of birth
28 certificates necessary to allow for the electronic
29 registration of births. The electronic birth certificate
30 process enables the electronic submission of birth data
31 directly to the state and will facilitate the availability of
32 birth certificates at all county registrar offices, regardless
33 of county of birth. The electronic registration also allows
34 for a more timely submission of birth data, reduced from 10
35 days to seven days.

1 The bill provides that the state registrar shall establish,
2 by rule, a process to determine the legitimacy of birth data
3 and codifies the current practice of determining when to enter
4 the father's name on the birth certificate. Nonsubstantive
5 changes are provided consistent with the other changes in the
6 birth registration process.

7 The bill disallows the issuance of a delayed birth
8 certificate for a deceased person. This language will
9 strengthen antifraud efforts to reduce the possibility of
10 delayed certificates being filed to establish false
11 identities.

12 The bill makes changes to the filing of death certificates
13 necessary to allow for the electronic submission directly to
14 the state and clarifies the determination of the county of
15 death. The availability of electronic death certificate
16 information in every county registrar's office eliminates the
17 need to send copies of death certificates to the counties.

18 The bill establishes a process of electronic signatures
19 necessary for the submission of death data from funeral
20 directors, attending physicians, and medical examiners.

21 The bill clarifies the definition of fetal death beyond
22 gestation to also include weight and makes nonsubstantive
23 changes similar and consistent with the electronic reporting
24 of death certificates.

25 The bill delineates what information shall be filed in sup-
26 port of an amended certificate.

27 The bill makes changes to the process in which vital
28 statistics records are archived and made available for public
29 inspection. The proposed language increases from 75 years to
30 95 years the length of time before birth records are made
31 public and reduces from 75 years to 50 years the length of
32 time before death and marriage records are made available.
33 These changes reflect the increasing life span of Iowans and
34 the increasing interest in death records by genealogists.

35 The bill provides that the director of public health may

1 issue commemorative birth and marriage certificates. A fee of
2 \$25 is established and funds generated are directed to be used
3 for child abuse prevention.

4 The bill makes changes in the fund established to finance
5 the modernization of vital statistics. Fees associated with
6 issuing copies of vital records prior to June 30, 1997, are
7 deposited in the fund. The proposed language retains the
8 reversion of unspent funds after the completion of the
9 modernization project, however, it does allow the department
10 to encumber fund moneys obligated prior to the June 30, 1997,
11 reversion date. Such a change is necessary to fund the
12 multiyear conversion process of existing vital records into an
13 electronic format.
