S.F. 298

1 Section 1. Section 321.1, subsection 32, paragraph f, Code
2 1995, is amended to read as follows:

3 f. Self-propelled machinery or machinery towed by a motor
4 vehicle or farm tractor operated at speeds of less than thirty
5 miles per hour. The machinery must be specifically designed
6 for, or especially adapted to be capable of, incidental over-
7 the-road and primary off-road usage. In addition, the
8 machinery must be used exclusively for the mixing and
9 dispensing of nutrients to bovine animals fed at a feedlot, or
10 the application of organic or inorganic plant food materials,
11 agricultural limestone, or agricultural chemicals. However,
12 the machinery shall not be specifically designed or intended
13 for the transportation of such nutrients, plant food
14 materials, agricultural limestone, or agricultural chemicals.
15 ~~The machinery shall be operated in compliance with section~~
16 ~~321.463.~~

17 EXPLANATION

18 This bill provides that machinery drawn by a motor vehicle
19 or farm tractor and used for mixing or dispensing feed or the
20 application of plant food materials is considered an implement
21 of husbandry. The bill further provides that the plant food
22 materials may be either organic or inorganic.

23 This bill also provides that certain self-propelled
24 machinery, as well as the machinery added by this bill,
25 defined as an implement of husbandry is not specifically
26 subject to the gross weight restrictions provided in section
27 321.463. Instead, the machinery is treated similarly to other
28 equipment deemed an implement of husbandry and subject to the
29 exceptions to size, weight, and load requirements as provided
30 in section 321.453.

1 Section 1. Section 321.1, subsection 32, paragraph f,
2 unnumbered paragraph 1, Code 1995, is amended to read as
3 follows:

4 Self-propelled machinery operated at speeds of less than
5 thirty miles per hour. The machinery must be specifically
6 designed for, or especially adapted to be capable of,
7 incidental over-the-road and primary off-road usage. In
8 addition, the machinery must be used exclusively for the
9 mixing and dispensing of nutrients to bovine animals fed at a
10 feedlot, or the application of plant food materials,
11 agricultural limestone, or agricultural chemicals. However,
12 the machinery shall not be specifically designed or intended
13 for the transportation of such nutrients, plant food
14 materials, agricultural limestone, or agricultural chemicals.
15 ~~The machinery shall be operated in compliance with section~~
16 ~~321.463.~~

17 EXPLANATION

18 This bill provides that certain self-propelled machinery
19 defined as an implement of husbandry is not specifically
20 subject to the gross weight restrictions provided in section
21 321.463. Instead, the machinery is treated similarly to other
22 equipment deemed an implement of husbandry and subject to the
23 exceptions to size, weight, and load requirements as provided
24 in section 321.453.
