9 EXPLANATION

10 This bill makes appropriations for the fiscal year  
11 beginning July 1, 1995, and ending June 30, 1996, to the state  
12 department of transportation from the general fund of the  
13 state, the road use tax fund, and the primary road fund.

14 This bill makes appropriations from the rebuild Iowa  
15 infrastructure account of the state created under section  
16 8.57, subsection 5, for the fiscal year beginning July 1,  
17 1995, and ending June 30, 1996, for capital projects for the  
18 board of regents, the department of corrections, the  
19 department of cultural affairs, the department of economic  
20 development, the department of education, the department of  
21 general services, the department of human services, the  
22 department of management, and the department of public  
23 defense. The bill also appropriates rebuild Iowa infra-  
24 structure moneys for county fairs, the Iowa state fair, and  
25 for the primary road fund. The bill appropriates moneys from  
26 the marine fuel tax receipts deposited in the general fund of  
27 the state to the department of natural resources for funding  
28 capitals traditionally funded from marine fuel tax receipts  
29 for the purposes specified in section 452A.79.

30 The bill requires reversion of living roadway moneys in  
31 excess of \$500,000 in the living roadway account to the  
32 resource enhancement and protection fund with the  
33 redistribution of excess living roadway moneys allocated to  
34 the open spaces account. It increases an appropriation to the  
35 university of northern Iowa from \$50,000 to \$75,000 for the

1 position of state roadside specialist and the integrated  
2 roadside vegetation management program and makes the program a  
3 permanent program with an annual appropriation. The  
4 legislative fiscal bureau is requested to evaluate the program  
5 and provide a written report to the joint appropriations  
6 subcommittee on transportation, infrastructure and capitals by  
7 January 15, 1996.

8 The bill provides for nonreversion during the fiscal year  
9 beginning July 1, 1995, for moneys appropriated in 1994 Iowa  
10 Acts from the primary road fund to the state department of  
11 transportation for the purchase of certain property and the  
12 renovation of the buildings located on the property.

13 The bill requests the state department of transportation to  
14 consider as a priority for inclusion in the state five-year  
15 transportation plan the preparation of planning studies for  
16 development of highway bypass projects that promote the safe  
17 flow of traffic and economic development in the project areas.

18 is amended by adding the following new unnumbered  
19 paragraph:

20 NEW UNNUMBERED PARAGRAPH. The provisions of

22 this section. Unencumbered or unobligated funds  
23 remaining on June 30, 1995, from funds appropriated  
24 for the fiscal year beginning July 1, 1994, shall not  
25 revert but shall remain available for expenditure  
26 during the fiscal year beginning July 1, 1995, for the  
27 purposes for which they were appropriated.

28 Sec. 21. 1993 Iowa Acts, chapter 169, section 14,  
29 subsection 2, paragraph a, is amended to read as

36 shall retain all supervisory authority over the  
37 issuance of commercial driver's licenses and the  
38 administration of written tests.

39 Sec. 22. 1993 Iowa Acts, chapter 169, section 14,

1 for the issuance of motor vehicle licenses,  
2 nonoperator's identification cards, and handicapped  
3 identification devices, the county treasurer in each  
4 of the counties chosen for the pilot project shall be  
5 granted the same authority as is given to the  
6 department in relation to the issuance of motor  
7 vehicle licenses, nonoperator's identification cards,  
8 and handicapped identification devices under chapters  
9 321 and 321L. However, a county shall only be  
10 authorized to issue commercial driver's licenses if  
11 certified to do so by the department. If a county  
12 fails to meet the standards for certification under  
13 this section, the department itself shall provide for  
14 the issuance of commercial driver's licenses in that  
15 county. The department shall certify the county  
16 treasurers to issue commercial driver's licenses if  
17 all of the following conditions are met:

18 a. The driving skills test is the same as that  
19 which would otherwise be administered by the state.  
20 b. The county examiner contractually agrees to

24 c. The department provides supervision over the

27 Sec. 24. DRIVER'S LICENSE PILOT PROJECT.  
28 1. The driver's license pilot project implemented  
29 in accordance with 1993 Iowa Acts, chapter 169,  
30 section 14, is extended until June 30, 1996.

31 2. The legislative council is requested to  
32 establish an interim study committee to evaluate  
33 expansion of the driver's license pilot program to  
34 include additional counties and to determine the  
35 feasibility of permanently transferring authority to  
36 the six pilot project counties to issue driver's  
37 licenses. The committee shall evaluate the benefits  
38 to the public from the issuance of driver's licenses  
39 by the counties and the cost effectiveness of doing  
40 so. The committee shall hear testimony from federal  
41 transportation officials regarding issuance of  
42 commercial driver's licenses and compliance with  
43 federal regulations. The committee shall provide  
44 recommendations regarding such expansion to the  
45 general assembly no later than December 15, 1995.

46 3. Notwithstanding any other provisions to the  
47 contrary, the county treasurers of Adams, Cass,

6 this subsection, a county treasurer shall document the  
7 actual quarterly expenditures associated with driver's

11 benefits for county employees performing driver's  
12 license-related activities, the total numbers of  
13 transactions conducted, and other costs related to the  
14 administration of driver's license-related activities.  
15 Each county treasurer shall provide the documentation  
16 of expenditures to the state department of trans-  
17 portation and legislative fiscal bureau. If the  
18 county treasurer's total expenses are less than the  
19 moneys retained under this subsection, the county  
20 treasurer shall submit the difference to the treasurer  
21 of state on a quarterly basis. The treasurer of state  
22 shall deposit that amount in the road use tax fund.

23 Sec. 25. The state department of transportation  
24 shall consider as a priority for inclusion into the  
25 state five-year transportation plan the preparation of

35 subsection 1, paragraph "a", but shall remain

37 Unencumbered or unobligated moneys remaining on June  
38 30, 1996, shall revert to the general fund of the  
39 state on August 31, 1996.

40 Sec. 27. Section 314.21, subsection 3, paragraph  
41 b, subparagraph (1), Code 1995, is amended to read as

EXPLANATION

17 This bill makes appropriations for the fiscal year  
18 beginning July 1, 1995, and ending June 30, 1996, to the state  
19 department of transportation from the general fund of the  
20 state, the road use tax fund, and the primary road fund.

21 This bill makes appropriations from the rebuild Iowa  
22 infrastructure account of the state created under section  
23 8.57, subsection 5, for the fiscal year beginning July 1,  
24 1995, and ending June 30, 1996, for capital projects for the  
25 board of regents, the department of corrections, the  
26 department of cultural affairs, the department of economic  
27 development, the department of education, the department of  
28 general services, the department of human services, the  
29 department of management, and the department of public  
30 defense. The bill also appropriates rebuild Iowa infra-  
31 structure moneys for county fairs, the Iowa state fair, and  
32 for the primary road fund. The bill appropriates moneys from  
33 the marine fuel tax receipts deposited in the general fund of  
34 the state to the department of natural resources for funding  
35 capitals traditionally funded from marine fuel tax receipts

1 for the purposes specified in section 452A.79.

2 The bill requires reversion of living roadway moneys in  
3 excess of \$500,000 in the living roadway account to the  
4 resource enhancement and protection fund with the  
5 redistribution of excess living roadway moneys allocated to  
6 the open spaces account. It increases an appropriation to the  
7 university of northern Iowa from \$50,000 to \$75,000 for the  
8 position of state roadside specialist and the integrated  
9 roadside vegetation management program and makes the program a  
10 permanent program with an annual appropriation. The  
11 legislative fiscal bureau is requested to evaluate the program  
12 and provide a written report to the joint appropriations  
13 subcommittee on transportation, infrastructure and capitals by  
14 January 15, 1996.

15 The bill provides for nonreversion during the fiscal year  
16 beginning July 1, 1995, for moneys appropriated in 1994 Iowa  
17 Acts from the primary road fund to the state department of  
18 transportation for the purchase of certain property and the  
19 renovation of the buildings located on the property.

20 The bill requests the state department of transportation to  
21 consider as a priority for inclusion in the state five-year  
22 transportation plan the preparation of planning studies for  
23 development of highway bypass projects that promote the safe  
24 flow of traffic and economic development in the project areas.

OFFICE OF THE GOVERNOR

STATE CAPITOL

DES MOINES, IOWA 50319

515 281-5211

TERRY E. BRANSTAD  
GOVERNOR

June 1, 1995

RECEIVED

JUN 02 1995

The Honorable Paul Pate  
Secretary of State  
State Capitol Building  
L O C A L

Dear Mr. Secretary:

I hereby transmit Senate File 481, an act relating to and making appropriations to the State Department of Transportation including allocation and use of moneys from the general fund, road use tax fund, and primary road fund, and making appropriations to various state agencies for capital projects, to the primary road fund, to county fairs and to the Iowa State Fair from the rebuild Iowa infrastructure account and the general fund, relating to the living roadway trust fund and the state roadside specialist, the primary road and state highway system, and other transportation-related statutory changes, requiring transportation-related studies, making technical changes, and providing an effective date.

Senate File 481 contains several significant milestones in state finances. For the first time in many years, substantial resources are directed to the repair and rebuilding of the state's infrastructure. I am especially pleased that the State Capitol building restoration work will proceed on an aggressive schedule, enabling completion to occur by the turn of the millennium on a pay-as-you-go basis.

The bill also changes the funding for the Iowa State Patrol so that it will no longer be funded from the road use tax fund. This will immediately make available an additional \$33.5 million for the road funding formula. Finally, the 20 percent of the sales tax on vehicles that had been directed to the GAAP deficit reduction account is redirected back into the road use tax and primary road funds over the next four years where it will likewise be dedicated to transportation purposes.

These changes, coupled with action already taken to make state budget practices consistent with generally accepted accounting principles and to immediately fill the cash reserve fund to five percent, will close the chapter on many long-standing issues in state finances and will allow Iowa to attain the goal of being one of the best managed states in the country.

Despite its many accomplishments, I am disappointed that the total level of capital spending in the bill exceeded my capital budget recommendations by more than \$27 million. Therefore, I have carefully reviewed each item in this bill, and through today's action am exercising my item veto authority on nearly \$14 million worth of spending. I have used specific criteria, consistently applied in making these decisions. These criteria include whether the appropriation is truly a capital spending item and not an ongoing operational expense, whether the item is consistent with purposes that are traditionally a state responsibility and does not create a precedent for a new area of state responsibility, and whether the necessary planning for the item has been completed so that it is ready to proceed.

Senate File 481 is, therefore, approved on this date with the following exceptions which I hereby disapprove.

I am unable to approve the designated portion of Section 1, subsection 1, paragraph a. This item allocates \$100,000 of the rail assistance appropriation for renovation of historical electric rail cars. This would be an inappropriate use of funds intended for rail projects that are essential to the state's economic well-being.

I am unable to approve the item designated as Section 6, in its entirety. This item provides funds to correct water seepage problems and to complete design specifications for the centennial building in Iowa City. The \$4 million appropriated in Section 10, subsection 4, of this bill to the Department of General Services for major maintenance may be used for correcting the water seepage problem.

I am unable to approve the designated portion of Section 7, subsection 3, in its entirety. This item provides funding for a welcome center that is not a part of the state's long-term welcome center plan. I am unaware of any compelling special circumstances that would warrant a change from the plan.

I am unable to approve the items designated as Section 8, subsections 2 through 15, in their entirety. These items would result in the allocation of \$1.5 million to community colleges for capital projects and equipment. This would create a

Page 3

precedent for state funding in an area that has traditionally been a local responsibility. As a result of these item vetoes, \$1.5 million of the \$2.5 million appropriated in this section will remain in the rebuild Iowa infrastructure account.

I am unable to approve the designated portion of Section 9, beginning with the second sentence of the first unnumbered and unlettered paragraph and continuing through the item designated as subsection 15. These items would result in the allocation of \$2.5 million to the community colleges for capital projects and equipment in the event that matching funds are not secured for the first item in Section 8. In the event this section becomes effective as a result of the matching funds not being secured as required in Section 8, these item vetoes will result in \$2.5 million remaining in the rebuild Iowa infrastructure account.

I am unable to approve the items designated as Section 10, subsections 5a, 5b and 5c, in their entirety. These items provide a total of \$10 million for renovation of the old historical building, construction of a tunnel under Grand Avenue and site preparation for a new parking ramp near the old historical building. I support the concept of renovating the old historical building. However, the state is not ready to proceed with this project because the necessary planning and analysis of options has not been completed. I am willing to facilitate a process to reach written agreement among the executive elected officials, the court and the legislative branch concerning which offices should be located in the old historical building.

I am unable to approve the item designated as Section 16, subsection 7, in its entirety. This item would provide \$225,000 for maintenance and improvements at the Gothic House visitors center. A project of this magnitude needs greater scrutiny as a part of the overall historic preservation planning process. As a result of this action, this \$225,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 10, in its entirety. This item would provide funds to study dredging at Crystal Lake. The Department of Natural Resources has the capability and expertise necessary to determine if dredging is appropriate at Crystal Lake. It is not necessary to spend \$25,000 to have a consultant make this determination. As a result of this action, this \$25,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

The Honorable Paul Pate  
June 1, 1995  
Page 4

I am unable to approve the item designated as Section 16, subsection 12, in its entirety. This item would provide \$20,000 for the operation of the Dows Welcome Center. The state should not be involved in funding the operating costs of welcome centers. As a result of this action, this \$20,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 13, in its entirety. This item would provide \$250,000 for repairs and replacement at Hickory Grove Lake, a county-owned lake. This would create a precedent for state funding in an area that has traditionally been a local responsibility. As a result of this action, this \$250,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 14, in its entirety. This item would provide \$75,000 for reconstructing and repairing dikes and levees. Last year I approved \$550,000 for dike and levee repair, of which nearly one-half remains unobligated. The need for additional funds has not been demonstrated. As a result of this action, this \$75,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 16, in its entirety. This item would provide a \$50,000 grant to establish a rural medical care center. The Department of Public Health has a program providing funds for this type of project. As a result of this action, this \$50,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 17, in its entirety. This item would provide a \$30,000 grant for a trail and park improvements. Funds for trail development and improvement are available through the Departments of Transportation and Natural Resources. As a result of this action, this \$30,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 18, in its entirety. This item would provide a \$5,000 grant for a walking trail. Funds for trail development and improvement are available through the Departments of

Transportation and Natural Resources. As a result of this action, this \$5,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 19, in its entirety. This item would provide \$25,000 to Iowa State University for a public leadership institute. I support the development of the institute, however it is inappropriate to finance ongoing operating costs with a one-time source of revenue. As a result of this action, this \$25,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 20, in its entirety. This item would provide \$45,000 for printing an under the golden dome publication. This is an informative publication about our State Capitol Building. However, it would make more sense to delay its publication so that information about the completion of restoration work can be included. As a result of this action, this \$45,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 21, in its entirety. This item would provide \$25,000 to the Department of Corrections for a grant to the amer-i-can program for training. The department's budget contains funds for training, and the department should review and prioritize its own training needs. Moreover, it is inappropriate to fund ongoing expenses from a one-time source of revenue. As a result of this action, this \$25,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 22, in its entirety. This item would provide \$125,000 for the Local Arts Comprehensive Educational Strategies (LACES) program. This is not a capital expense, and is inappropriately funded from a one-time source of revenue. I have approved a \$25,000 general fund appropriation for this program in another bill. As a result of this action, this \$125,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 23, in its entirety. This item would provide a \$75,000 grant for developing a child care program for non-traditional students at a community college. This would create a precedent

for state funding in an area that has traditionally been a local responsibility. As a result of this action, this \$75,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 24, in its entirety. This item would provide \$500,000 for the establishment of a child day care center for public employees at or near the Capitol Complex. Public employees already have access to a child day care center directly adjacent to the Capitol Complex. As a result of this action, this \$500,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 26, in its entirety. This item would provide \$100,000 for the operation of the Peace Institute. It is inappropriate to fund ongoing expenses from a one-time source of revenue. As a result of this action, this \$100,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 27, in its entirety. This item would provide \$50,000 for the purchase of cellular phones for force members in the Department of Public Safety. This is a significant ongoing expense and should not be funded from a one-time source of revenue. As a result of this action, this \$50,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 28, in its entirety. This item would provide \$50,000 for expansion of the microbusiness rural enterprise demonstration project. It is inappropriate to fund ongoing programs from a one-time funding source. As a result of this action, this \$50,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 29, in its entirety. This item would provide \$20,000 to the Department of Public Health for a conference. The state should not fund a conference as a capitals appropriation. As a result of this action, this \$20,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 30, in its entirety. This item would provide \$20,000 to the Department of Public Health for another conference. The state should not fund a conference as a capitals appropriation. As a result of this action, this \$20,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 31, in its entirety. This item would provide \$25,000 to the Department of Corrections for a study of the use of the telecommunications network for worker training. The department can conduct a study without a specific appropriation. As a result of this action, this \$25,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 32, in its entirety. This item would provide \$39,000 to Iowa State University for a study of alternative project delivery systems for publicly funded infrastructure projects. The university can conduct the study without a specific appropriation. As a result of this action, this \$39,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 34, in its entirety. This item would provide \$20,000 for the Older Iowans Legislature. This is a valuable program that has operated for many years without an appropriation, and should continue to do so. As a result of this action, this \$20,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 35, in its entirety. This item would provide \$50,000 to the Judicial Department for strategic planning. I support the development of a strategic plan, however it should not be funded as a capitals appropriation. As a result of this action, this \$50,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 36, in its entirety. This item would provide \$150,000 to a community college to renovate a building. This would create

a precedent for state funding in an area that has traditionally been a local responsibility. As a result of this action, this \$150,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 37, in its entirety. This item would provide \$25,000 for pilot projects for the placement of geriatric patients with mental illness. This is an important issue for the state, and the department is in the process of studying the needs of these patients. However, it is not a capital expense and is not appropriately funded from a one-time revenue source. As a result of this action, this \$25,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 38, in its entirety. This item would provide \$100,000 for the Iowa hope loan program. It is inappropriate to fund ongoing programs from a one-time funding source. As a result of this action, this \$100,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 16, subsection 39, in its entirety. This item would provide \$100,000 to construct a curb on a municipal street. This would create a precedent of state involvement in an area that has traditionally been a local responsibility. As a result of this action, this \$100,000 will remain in the lottery fund to be transferred and credited to the general fund in accordance with 1994 Iowa Acts, Chapter 1199, Section 12.

I am unable to approve the item designated as Section 25, in its entirety. This item would require the Department of Transportation to improve the primary highway system in a way that, as nearly as possible, equalizes the service levels in all sections of the state. For example, each section of the state would be required to have the same number of freeway-expressway miles. While I strongly support the addition of more miles of four-lane highway in Northwest Iowa, this should not jeopardize the construction of other highway projects elsewhere in the state. This language could adversely affect critical upgrades that are programmed, including projects for which federal funding has been secured.

I am unable to approve the item designated as Section 35, in its entirety. This item would repeal, on July 1, 1997, the authority of the county treasurers in the six pilot counties to issue

The Honorable Paul Pate

driver licenses on a permanent basis. This action presupposes the conclusion of an evaluation to be undertaken by a legislative interim committee. I have heard from many people in Southwest Iowa who feel strongly that the issuance of driver licenses by county treasurers has been a great convenience and would like to see it continue on a permanent basis.

As I complete action on this bill, I feel compelled to express my strong disapproval of what appears to be an attempt to coerce the Governor into approving items of spending which would not otherwise be approved. It has been suggested that by disapproving a number of the appropriations provided in Section 16 that those funds would then be available to expend for the purposes specified in subsection 40 of Section 16. Such a result would not only violate the principles of the separation of powers provided in Iowa's Constitution but also the separate and severable doctrine relating to items which are vetoable in appropriation bills. The people of Iowa granted the Governor item veto power to serve as a check on the legislative practice of logrolling. The numerous inappropriate items of expenditure in this bill are a classic example of why the item veto is necessary to protect taxpayers against unnecessary and excessive spending.

It has been clearly established by constitutional amendment and court decisions that the Governor cannot be denied the authority to veto separate and distinct items in an appropriation bill. To accept that the legislature could devise a way to evade the Governor's veto of individual items by reappropriating disapproved items and making them part of an expenditure of funds for another purpose in the same bill would ignore this basic principle of item veto law. Further, the legislature's attempt to construct such a device results in an unconstitutional invasion of the Governor's line item-veto authority.

I have always recognized and will continue to respect the awesome but not unlimited power of the legislature over the "purse strings" of state government. At the same time, as Governor I am obligated to protect the right of the chief executive to exercise the item veto authority on behalf of the citizens of Iowa to control excessive spending. Applying the principles of item veto law which I have enunciated above, the \$2,224,000 disapproved in Section 16 will remain in the lottery fund and will be transferred and credited to the general fund at the end of the current fiscal year pursuant to 1994 Iowa Acts, Chapter 1199, Section 12.
