EXPLANATION

1 17 Section 1 strikes the separate process by which out-of-
1 18 wedlock birth certificates are filed directly to the
1 19 department of public health. Additionally, the department
1 20 would be allowed to provide information from all births to
1 21 local public health officials to support immunization
1 22 activities.

1 23 Section 2 establishes the same requirements for an athletic
1 24 trainer license for in-state and out-of-state licensee
1 25 candidates.

1 26 BACKGROUND STATEMENT

1 27 SUBMITTED BY THE AGENCY

1 28 This bill completes the statutory changes initiated during
1 29 the 1994 session in H.F. 2410 to eliminate the disparate

1 30 process by which birth certificates are filed based on marital
1 31 status. Currently, county registrars are not allowed to
1 32 accept and file birth certificates when the mother is unwed.
1 33 This requires that out-of-wedlock birth certificates must be
1 34 filed directly with the state registrar. This legislation
1 35 eliminates that practice and the stigma of filing out-of-
2 1 wedlock births, removes unnecessary encumbrances on the county
2 2 registrar, and allows the state registrar to share information
2 3 on all births with the local boards of health for the purposes
2 4 of promoting increased immunization rates of infants and
2 5 children.
2 6 The athletic trainer advisory board recommends a technical
2 7 correction which inadvertently establishes a different
2 8 standard of licensing candidates from out-of-state. Both in-
2 9 state and out-of-state licensees would be required to complete
2 10 approved training and pass an examination.
