EXPLANATION

1 This bill amends Code section 535.3 to provide that the
2 rate of interest on judgments and decrees shall be equal to
3 the coupon issue rate of 52-week United States treasury bills
4 unless a different rate is set by the contract upon which the
5 judgment is issued, or unless a structured judgment is
6 established under Code section 668.3, subsection 7.

7 The bill also makes an editorial change by deleting
8 duplicative provisions contained in Code section 668.13,
9 incorporating nonduplicative provisions of Code section 668.13
10 into Code section 535.3, and then amending Code section 668.13
11 to provide that interest will be calculated on judgments
12 according to Code section 535.3. As a result, all rules
13 regarding calculation of interest on judgments would be
14 contained in one Code section.
