12 EXPLANATION

13 This bill relates to transactions involving contracts for
14 the sale of grain by producers of the grain to grain dealers
15 regulated by the department of agriculture and land
16 stewardship.

17 The bill requires that a contract executed between a
18 producer and a grain dealer contain a notice to the producer
19 if the contract allows for the delivery of grain and the
20 establishment of a price for the grain more than 12 months
21 from the date that the contract is executed. The notice must
22 warn the producer of the risks associated with the
23 transaction.

24 The bill requires that the office of attorney general
25 develop a model credit sale contract and a model hedge-to-
26 arrive contract intended for parties to such contracts who are
27 agricultural producers and grain dealers. The bill provides
28 that a model contract must be easily read and understood by
29 the parties, and contain terms and conditions which allow the
30 parties to effectively negotiate. The division is required to
31 consult with interested persons when drafting the model
32 contracts. The Iowa cooperative extension service in
33 agriculture and home economics at Iowa state university is
34 required to make the model contracts available for
35 distribution on a statewide basis.
