### EXPLANATION

15 This bill modifies licensure requirements for physician 16 assistants.

The bill provides for an increase in the number of members 17 18 of the board of physician assistant examiners to add two 19 additional members licensed to practice as physician 20 assistants. This increase results in a total of nine members 21 serving on the board. The bill eliminates provisions relating 22 to registration as a physician assistant, and also eliminates 23 the physician assistant rules review group established in Code 24 section 148C.7, which functions to review and either approve 25 or disapprove proposed rules by the board of physician 26 assistant examiners. The bill further eliminates provisions 27 regarding the adoption of rules by December 31, 1988, relating 28 to the eligibility of a physician to serve as a supervising 29 physician, and regarding appeals to the board of medical 30 examiners of decisions of the board of physician assistant 31 examiners in a contested case involving discipline of a 32 licensed physician assistant.

33 The bill provides for several changes to the definitions 34 applicable to physician assistants pursuant to Code chapter 35 148C. The bill provides that an approved physician assistant

-5-

683

1 program refers to a program accredited by the committee on 2 accreditation of allied health educational programs, its 3 successor, the commission on accreditation of allied health 4 educational programs, or its successor, rather than pursuant 5 to rules as currently defined. The bill also provides that a 6 physician assistant refers to a person who has graduated from 7 an approved physician assistant or surgeon assistant program, 8 or a person who has passed the certifying examination 9 administered by the national commission on certification of 10 physician assistants or its successor, rather than the current 11 definition providing for passing or completing a board-12 approved examination or program. The bill provides that a 13 licensed physician assistant practices medicine with the 14 supervision of physicians, as opposed to the current 15 definition indicating a physician assistant practices under 16 the supervision of physicians specified on the license.

The bill provides for modifications regarding requirements for licensure as a physician assistant consistent with the prevised definitions and elimination of registration as a physician assistant. The bill provides that if the board determines that a person has sufficient knowledge and experience to qualify as a physician assistant, the board may approve an application for licensure submitted prior to July 1, 2001, without requiring the completion of an approved program or the passing of an examination, but that on or after July 1, 2001, a physician assistant who is not yet licensed will be required to have graduated from an approved program or have passed the previously explained examination.

The bill further requires that the board of physician 30 assistant examiners adopt new rules relating to administration 31 of Code chapter 148C on or before January 1, 2001. 32 The bill takes effect upon enactment.
