16 Sec. 2. EFFECTIVE DATE. This Act, being deemed of 17 immediate importance, takes effect upon enactment. 18 EXPLANATION

19 This bill makes a number of changes to requirements for the 20 community grant fund awarded by the division of criminal and 21 juvenile justice planning of the department of human rights 22 for the purpose of juvenile crime prevention and youth 23 development.

The bill narrows applicant eligibility for grant moneys to child welfare decategorization governance boards in place of current law's authorization for cities, counties, and Code chapter 28E entities. Instead, moneys are to be distributed using a child population factor as determined by the division. A matching fund requirement and a restriction on the time geriod of grant eligibility are stricken.

31 The bill requires the grant plans to be consistent with 32 other plans required to be submitted to the state. The 33 division is directed to provide information to 34 decategorization governance boards describing comprehensive 35 community planning techniques.

MEMORANDUM

TO: Members of the Iowa General Assembly

FROM: Richard G. Moore

RE: Continuation of the Community Grant Fund

Iowa's Juvenile Crime Prevention Community Grant fund is currently in its 6th year of existence and has provided funding to over 40 local communities to plan and implement strategies to prevent juvenile crime. In many cases, as part of the juvenile crime prevention projects, the community grant fund represents some of the state's best efforts in positive youth development. The law that established the community grant fund had a sunset provision that would have ended the program on June 30, 1998. Iowa Code Section 232.190 was amended in 1998 to provide for continuation through the 2000 fiscal year with the sunset provision moved to June of 2000. The Division of Criminal and Juvenile Justice Planning (CJJP) now proposes a bill to amend Section 232.190 to remove the sunset provision.

In addition to the removal of the sunset provision, CJJP is proposing that changes be made for these funds to be awarded through an allocation formula (based on child population) rather than through a competitive grant process. Areas of the state not now receiving these funds would be more likely to participate in this program, and some level of participation by communities that have used all of their past eligibility for funding could be continued. Based on local decisions, funding could be used to pilot new programs or continue and enhance existing efforts that, in many cases, would include some of the same programs that are currently in place through Juvenile Crime Prevention Community Grant funding. All participating communities would likely benefit through this proposal's emphasis on performance monitoring and the opportunity for more stable, longterm planning.

This proposal is designed to achieve the goal of having a juvenile crime prevention strategy with positive youth development emphases in each community that is coordinated with local child welfare plans and other related community collaborations. It is intended to be consistent with other efforts to encourage community collaborative planning and support local decision-making. The proposed funding entity for this process would be the state decategorization areas in concert with the Iowa Empowerment Board.
