20 Sec. 32. EFFECTIVE DATE. This division of this Act, being
 21 deemed of immediate importance, takes effect upon enactment.

22 EXPLANATION

23 This bill makes appropriations from the rebuild Iowa
 24 infrastructure fund for various capital and other projects.
 25 These appropriations include capital projects for the
 26 departments of corrections, cultural affairs, economic
 27 development, general services, public safety, and
 28 transportation, and for the department for the blind, state
 29 board of regents, the judicial branch, the office of treasurer
 30 of state, and the commission of veterans affairs.

31 The bill creates an environment first fund under the
 32 authority of the department of management. The fund is to be
 33 separate from the general fund of the state and is to consist
 34 of appropriations made to the fund and transfers of interest,
 earnings, and moneys from other funds as provided by law.

1 Moneys in the fund in a fiscal year are to be used as
 2 appropriated by the general assembly for the protection,
 3 conservation, enhancement, or improvement of natural resources
 4 or the environment. The bill also provides that a portion of
 5 the gambling revenues currently being deposited in the rebuild
 6 Iowa infrastructure fund are to be deposited into the
 7 environment first fund.

8 The bill also extends the restore the outdoors program,
 9 which provides a standing appropriation from the rebuild Iowa
 10 infrastructure fund for vertical infrastructure projects at
 11 state parks and other public facilities managed by the
 12 department of natural resources, through the fiscal year
 13 ending June 30, 2004. Currently, the standing appropriation
 14 is scheduled to cease in the fiscal year ending June 30, 2001.

15 The bill appropriates \$10.5 million from the environment
 16 first fund to the resources enhancement and protection fund in
 17 lieu of the \$20 million appropriated from the general fund of
 18 the state.

19 The bill amends a provision in Code section 18.3 to require
 20 the department of general services to notify a state agency of
 21 the department's intention to bill the state agency for
 22 certain architectural and construction-related services to be
 23 provided by the department, and of the cost of such services.
 24 The state agency may request that all or a portion of the
 25 service not be provided by the department if the same service
 26 will be provided by another person. The department or a state
 27 agency may file a complaint with the executive council
 28 regarding the provision of, billing for, or request to not
 29 perform the service.

30 The bill also creates new Code section 18A.6 providing
 31 procedural requirements applicable to capital projects on the
 32 capitol complex. The bill states that such projects shall be
 33 planned, approved, and funded only after considering the
 34 guiding principles set forth in any capitol complex master
 35 plan adopted by the capitol planning commission on or after

1 January 1, 2000. The bill then lists several of the
2 principles which shall be given priority consideration. The
3 provision is effective upon the bill's enactment.

4 The bill creates an aviation hangar revolving loan fund in
5 new Code section 330.2, to be used by the state department of
6 transportation for loans to provide assistance for the design,
7 construction, or improvement of hangars at general aviation
8 airports in the state.

9 Sec. 33. EFFECTIVE DATE. This division of this Act, being
10 deemed of immediate importance, takes effect upon enactment.

11 EXPLANATION

12 This bill makes appropriations from the rebuild Iowa
13 infrastructure fund for various capital and other projects.
14 These appropriations include capital projects for the
15 departments of corrections, cultural affairs, economic
16 development, general services, natural resources, public
17 safety, and transportation, and for the department for the
18 blind, state board of regents, the judicial branch, the office
19 of treasurer of state, and the commission of veterans affairs.

20 The bill creates an environment first fund under the
21 authority of the department of management. The fund is to be
22 separate from the general fund of the state and is to consist
23 of appropriations made to the fund and transfers of interest,
24 earnings, and moneys from other funds as provided by law.
25 Moneys in the fund in a fiscal year are to be used as
26 appropriated by the general assembly for the protection,
27 conservation, enhancement, or improvement of natural resources
28 or the environment. The bill also provides that a portion of
29 the gambling revenues deposited in the rebuild Iowa
30 infrastructure fund are appropriated to the environment first
31 fund. Interest and earnings on moneys in the environment
32 first fund are to be credited to the rebuild Iowa
33 infrastructure fund.

34 The bill also extends the restore the outdoors program,
35 which provides a standing appropriation from the rebuild Iowa

1 infrastructure fund for vertical infrastructure projects at
2 state parks and other public facilities managed by the
3 department of natural resources, through the fiscal year
4 ending June 30, 2004. Currently, the standing appropriation
5 is scheduled to cease in the fiscal year ending June 30, 2001.

6 The bill appropriates \$10.5 million from the environment
7 first fund to the resources enhancement and protection fund in
8 lieu of the \$20 million appropriated from the general fund of
9 the state. The bill also appropriates funds from the
10 environmental first fund to the departments of agriculture and
11 land stewardship, economic development, and natural resources.

12 The bill amends a provision in Code section 18.3 to require
13 the department of general services to notify a state agency of
14 the department's intention to bill the state agency for
15 certain architectural and construction-related services to be
16 provided by the department, and of the cost of such services.
17 The state agency may request that all or a portion of the
18 service not be provided by the department if the same service
19 will be provided by another person. The department or a state
20 agency may file a complaint with the executive council
21 regarding the provision of, billing for, or request to not
22 perform the service.

23 The bill also creates new Code section 18A.6 providing
24 procedural requirements applicable to capital projects on the
25 capitol complex. The bill states that such projects shall be
26 planned, approved, and funded only after considering the
27 guiding principles set forth in any capitol complex master
28 plan adopted by the capitol planning commission on or after
29 January 1, 2000. The bill then lists several of the
30 principles which shall be given priority consideration. The
31 provision is effective upon the bill's enactment.

32 The bill creates an aviation hangar revolving loan fund in
33 new Code section 330.2, to be used by the state department of
34 transportation for loans to provide assistance for the design,
35 construction, or improvement of hangars at general aviation

1 airports in the state.

2 The bill includes effective date and nonreversion
3 provisions.

10 the State of Iowa, Second Session, submitted to the
11 Seventy-eighth General Assembly, Second Session, for
12 approval the proposed five-year building program for
13 each institution of higher learning under the
14 jurisdiction of the board, containing a list of the
15 buildings and facilities which the board deems
16 necessary to further the educational objectives of the
17 institutions, together with an estimate of the cost of
18 each of the buildings and facilities and an estimate

SALLY J. PEDERSON
LT. GOVERNOR

May 11, 2000

The Honorable Chester Culver
Secretary of State
State Capitol
LOCAL

MAY 16 2000
LEGISLATIVE SERVICE
BUREAU

Dear Mr. Secretary:

I hereby transmit Senate File 2453, an Act relating to and making appropriations from the rebuild Iowa infrastructure fund to state departments and agencies, including the department of natural resources, the department of agriculture and land stewardship, department for the blind, the department of corrections, the department of cultural affairs, the department of economic development, the department of general services, the judicial branch, the department of public safety, the state board of regents, the state department of transportation, the office of treasurer of state, and the commission of veterans affairs, creating an environment first fund and making appropriations from that fund for environmental purposes, making related code language changes, providing for contingent effectiveness, and providing effective dates.

I appreciate the efforts of Republicans and Democrats in allocating approximately \$11.2 million toward the creation of the Clean Water Initiative. This investment will create a comprehensive set of initiatives aimed at improving Iowa's water resources. The package includes the establishment of buffer strips, efforts to restore and construct wetlands, and expansion of water quality monitoring and watershed programs.

These projects not only provide cleaner and safer water, but they will protect our natural resources, protect our public infrastructure - like roads and bridges - from flood damage, and protect our aquatic wildlife. Most importantly, we need to make sure that our commitment to clean, safe drinking water does not end this year.

For these reasons, Senate File 2453 is, therefore, approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portion of section 18. This item prohibits any of the community attraction and tourism funds from being expended for development and promotional purposes. The Legislature specifically authorized the use of these funds for these purposes in last year's infrastructure appropriations bill. I believe it is appropriate to allow the new Vision Iowa Board to determine if they want to continue that practice.

I am unable to approve the designated portion of section 22, subsection 2. This item would carry unused balances of the environment first fund appropriation to the subsequent fiscal year. Because the legislature has overspent from the infrastructure budget this year, it is necessary to develop a mechanism to balance it. The effect of this item veto, coupled with those below, will be to allow unspent resources in the environment first fund to return to the rebuild Iowa infrastructure fund at the end of the fiscal year. This will help correct the Legislature's infrastructure budget deficit.

I am unable to approve section 24 in its entirety. This item would extend the restore the outdoors program through fiscal year 2004. The restore the outdoors program is a statutory appropriation that is already funded in the coming fiscal year. It makes more sense to deal with extending the program next year, when all other FY 2002 budget issues are being discussed.

I am unable to approve section 25, subsection 6 in its entirety. This item appropriates \$1,300,000 for the agricultural drainage well system assistance program. This is an important program, and I regret that the Legislature's overspending requires me to make an item veto of these funds. However, there is currently \$5.5 million available from previous appropriations for this assistance which will sustain the fund for FY '01. If the Legislature will submit a properly balanced infrastructure budget next year, I would be willing to restore funding for this purpose.

I am unable to approve section 28 in its entirety. This item would carry unused balances of appropriations made from the environment first fund to the subsequent fiscal year. Once again, this is necessary to ensure that the infrastructure budget deficit presented to me by the legislature is eliminated.

I am unable to approve section 33 in its entirety. This item relates to the billing of services by the department of general services. This is an executive branch function that should not be legislatively imposed.

For the above reasons, I hereby respectfully approve Senate File 2453 with the exceptions noted above.

Sincerely,

Thomas J. Vilsack
