12 EXPLANATION

13 This bill requires the budget submissions of executive
14 branch departments and the judicial branch to utilize a zero-
15 base approach.

16 Under current law in Code section 8.23, the executive
17 branch departments' estimates of expenditure requirements are
18 based upon 75 percent of the funding provided for the current
19 fiscal year as adjusted by the historical employee vacancy
20 factor. The remaining expenditure requirements are
21 prioritized by program. Under the bill's zero-base approach,
22 the expenditure requirements must provide sufficient
23 supporting data and explanations to justify each expenditure
24 as though it were a new expenditure. The estimates shall
25 include a prioritization of each expenditure in relation to
26 the other expenditures transmitted.

27 Under current law in Code section 602.1301, similar to the
28 requirement of the executive branch, the supreme court must
29 submit an annual operating budget for the judicial branch that
30 is based upon 75 percent of the funding provided for the
31 previous fiscal year. As with the executive branch
32 departments, the bill replaces the 75 percent requirement with
33 a zero-base approach requiring data and explanations for each
34 expenditure and a prioritization of the expenditures.
