1 The bill provides that the agricultural development 2 authority may also assist agricultural processors by financing 3 the acquisition of land and improvements and depreciable 4 property by agricultural processors. Under the bill, a 5 processor is a person actively engaged in turning an 6 agricultural commodity into a product by physical, chemical, 7 or genetic modification. The bill establishes an agricultural 8 processors financing fund as a separate and distinct fund in 9 the state treasury. According to the bill the authority may 10 issue bonds which are to provide sufficient moneys to the fund 11 to support the program.

12 The fund is largely supported from moneys required to be 13 repaid to the department of economic development by an Iowa 14 agricultural industry finance corporation that receives an 15 agricultural industry finance loan.

BACKGROUND -- IOWA AGRICULTURAL INDUSTRY FINANCE 16 17 CORPORATIONS. Under Division XIX of Code chapter 15E, an Iowa 18 agricultural industry finance corporation is a private 19 business which is recognized by the state to provide financing 20 to eligible persons who are engaging in specific agricultural 21 industrial ventures (an agricultural products processor or an 22 agricultural biotechnology enterprise). There is one such 23 corporation currently organized that has received an Iowa 24 agricultural industry finance loan from the department of 25 economic development. The general assembly has appropriated 26 moneys to the department, subject to repayment, for purposes 27 of awarding such a loan to an eligible corporation in order to 28 finance these ventures (see 1998 Acts, chapter 1207). Under 29 current law, the repayment moneys are required to be deposited 30 in the road use tax fund.
