25 EXPLANATION

26 This bill provides for an Iowa foods policy, which is to
27 promote the production, handling, processing, and marketing of
28 Iowa's foods which are identity-preserved agricultural
29 products or organic agricultural products that are produced in
30 this state and intended for or marketed as foods or
31 agricultural products processed in this state and intended for
32 or marketed as foods.

33 The bill establishes an Iowa organics center in the
34 department of agriculture and land stewardship. The center is
35 headed by a coordinator. The center is responsible for

1 carrying out the state policy by implementing a comprehensive
2 strategy which must include: (1) monitoring the current
3 status of the production, handling, processing, and marketing
4 of identity-preserved agricultural products and organic
5 agricultural products; (2) serving as an information
6 clearinghouse to assist agricultural producers interested in
7 producing those products; (3) initiating or supporting
8 programs or projects which establish, improve, or expand
9 private and public efforts to develop markets for the
10 products; (4) providing for educational and promotional
11 campaigns designed to increase the public's awareness of the
12 products; and (5) assisting state and local governments when
13 considering legislative or administrative measures which may
14 have an impact upon the production, handling, processing, or
15 marketing of the products. The bill requires state and local
16 agencies to cooperate with the center in performing its
17 duties. The center is required to submit an annual report to
18 the secretary and legislative services agency regarding its
19 activities and goals.

20 The bill also establishes an Iowa organics council. The
21 council is to provide general oversight of the center and
22 assist the center in developing and carrying out its
23 comprehensive strategy. The council is composed of state
24 officials who have knowledge regarding identity-preserved
25 agricultural products and organic agricultural products, and
26 public members appointed by the secretary who are presently
27 actively engaged or have long been actively engaged in the
28 production, handling, processing, or marketing of identity-
29 preserved agricultural products and organic agricultural
30 products. The bill provides a number of procedures for the
31 appointment, voting, conduct of meetings, and reimbursement of
32 members, which is consistent with other statutes establishing
33 citizen appointed members of official bodies. The bill
34 requires the department to assist the council in performing
35 its duties.

1 Finally, the bill establishes an Iowa organics fund under
2 the control of the department. Moneys in the fund are
3 appropriated to the department exclusively to assist the
4 center in carrying out its duties associated with its
5 comprehensive strategy.
