### EXPLANATION

2 7  
2 8 This bill relates to the allowable expenditures from  
2 9 medical assistance income trusts. The bill eliminates the  
2 10 limit on the amount of income that is available to individuals  
2 11 under medical assistance income trusts and special needs  
2 12 trusts while retaining their eligibility for medical  
2 13 assistance, if the individual's total monthly income is less  
2 14 than the average statewide charge for the type of care the  
2 15 individual requires. The levels of care to which the bill  
2 16 applies, including home and community-based services, are  
2 17 nursing facility care including specialized services, care  
2 18 provided through an intermediate care facility for persons  
2 19 with mental retardation, care provided through a psychiatric

2 20 medical institution for children, and care provided in a state  
2 21 mental health institute.  
2 22 Current law limits the disbursement to the individual as  
2 23 income to an amount sufficient to bring the individual's  
2 24 available income up to three hundred percent of the benefit  
2 25 for an individual under the federal supplemental security  
2 26 income program. Under the bill, the individual would have  
2 27 access to all of the individual's income for the purpose of  
2 28 allowable expenses, which are expenses that are allowed as  
2 29 deductions in determining client participation such as the  
2 30 personal needs allowance, spousal and dependent allowances,  
2 31 and unmet medical expenses. Any excess income above the  
2 32 allowable expenses would then be applied toward payment of  
2 33 providers of facility or home and community-based services,  
2 34 toward payment of other providers of medical care or services  
2 35 that would otherwise be covered by medical assistance, toward  
3 1 payment to the state for reimbursement for medical assistance  
3 2 paid on behalf of the individual, or would be retained by the  
3 3 trust.
