### EXPLANATION

1 13 This bill eliminates provisions that direct the state board  
1 14 of education and the director of the department of education  
1 15 to take actions to establish, monitor, and ensure compliance  
1 16 with nutritional content standards for foods and beverages  
1 17 sold or provided on the school grounds during the school day  
1 18 in school districts and accredited nonpublic schools; and  
1 19 delays until July 1, 2010, provisions requiring certain  
1 20 amounts of physical activity by students in kindergarten  
1 21 through grade 12, and completion of a certification course for  
1 22 cardiopulmonary resuscitation by the end of grade 12.

1 23 As enacted in 2008, the provisions relating to physical  
1 24 activity and cardiopulmonary certification courses take effect  
1 25 July 1, 2009, and amend the educational standards to require  
1 26 all students in kindergarten through grade five who are  
1 27 physically able, unless a student's parent or guardian files  
1 28 for a religious exemption, to engage in physical activity for  
1 29 a minimum of 30 minutes per school day; and every student in  
1 30 grades six through 12 who is physically able, to engage in  
1 31 physical activity for a minimum of 120 minutes per week. The  
1 32 department is directed to collaborate with stakeholders when  
1 33 developing models that describe ways schools may incorporate  
1 34 the physical activity requirement into the educational  
1 35 program.

2 1 The bill also strikes a provision requiring the director to  
2 2 convene, every five years, a nutrition advisory panel to  
2 3 review research in pediatric nutrition and recommend  
2 4 nutritional standards to the state board of education.

2 5 The bill takes effect upon enactment.
