20 EXPLANATION

21 This bill provides for the licensure, rather than
22 certification, of emergency medical care providers.

23 An emergency medical care provider is defined by the bill
24 as an individual trained to provide emergency and nonemergency
25 medical care as an emergency medical responder, emergency
26 medical technician, advanced emergency medical technician, or
27 paramedic. The bill eliminates definitions for and references
28 to "emergency medical services instructor", "emergency rescue
29 technician", and "first responder". The bill empowers the
30 department of public health to create other levels of licensure
31 by rule.

32 The bill adds a definition of a service program, as a
33 department-authorized medical care ambulance service or
34 nontransport service. The authorization is similar to a
35 license.

1 The bill adds two stakeholder groups to the current
2 EMS advisory council, representing emergency medicine and
3 pediatrics.

4 The bill establishes a civil penalty of up to \$1,000 for
5 licensees, service programs, and training programs, if the
6 department finds that the licensee or program has not been
7 or will not be operated in compliance with the licensing or
8 authorization requirements, or that there is insufficient
9 assurance of adequate protection for the public.

10 The bill establishes a procedure for the approval of
11 training programs for emergency medical care providers.
12 These programs must be approved by the department, and may
13 be provided by an Iowa college approved by the north central
14 association of colleges and schools or by an Iowa hospital.
