25 EXPLANATION

26 This bill repeals Code chapter 103, providing for statewide
27 licensure of electricians and electrical contractors. The
28 effect of this repeal would be to return to the system of
29 administration and regulation of electricians and electrical
30 contractors, and electrical inspections, by political
31 subdivisions in place prior to the enactment of the Code
32 chapter. The bill directs the division of state fire marshal
33 of the department of public safety to adopt rules providing for
34 refunding license fees on a prorated basis corresponding to
35 the period remaining after the repeal and prior to a license's

1 expiration date. The bill makes conforming changes within
2 Code chapter 100C, which regulates the licensing of fire
3 extinguishing and alarm system contractors and installers.
4 Provisions of the bill regarding the adoption of rules for
5 prorating license fees take effect July 1, 2011. The remaining
6 provisions of the bill take effect December 31, 2011.
