32 EXPLANATION

33 This bill extends the designation of certain increases
34 in registration fees for watercraft for use by the natural
35 resource commission for an additional 10 years.

1 In 2005, registration fees for watercraft were raised, and
2 the increase in revenues received on or after July 1, 2007,
3 but on or before June 30, 2013, was designated for use by the
4 natural resource commission only for the administration and
5 enforcement of programs to control aquatic invasive species and
6 for the administration and enforcement of navigation laws and
7 water safety upon the inland waters of this state. These funds
8 were to be used in addition to funds already being expended by
9 the commission each year for those purposes and the commission
10 was prohibited from reducing the amount of other funds being
11 expended for those purposes as of July 1, 2005. The commission
12 was also required to submit an annual report to the general
13 assembly each year summarizing the activities of the department
14 of natural resources in carrying out those purposes.

15 The bill provides that this provision will sunset in 2023
16 instead of 2013.
