EXPLANATION

The inclusion of this explanation does not constitute agreement with
6 the explanation's substance by the members of the general assembly.

6

7 This bill authorizes certain liquor control licensees,
8 beer permittees, and wine permittees to allow patrons to
9 serve themselves wine, beer, or spirits through an automated
10 dispensing device.

11 Code section 123.3 (definitions) is amended to define an
12 "automated dispensing device" as any mechanized device capable
13 of dispensing beer, wine, or spirits directly or by remote
14 activation to a patron by the licensee or permittee.

15 New Code section 123.151 authorizes the administrator
16 of the alcoholic beverages division of the department of
17 commerce to grant the privilege of dispensing wine, beer,
18 or spirits through an automated dispensing device to liquor
19 control licensees, beer permittees, and wine permittees under
20 certain conditions. The privilege, which shall be noted on
21 the applicable liquor control license or permit, shall only
22 be granted to holders of a license or permit authorized to
23 sell beer, wine, or spirits for consumption on the licensed
24 premises. The bill directs the alcoholic beverages division to
25 adopt rules requiring the applicable liquor control licensee,
26 beer permittee, or wine permittee to activate the device and
27 any component designed to grant access to the device before
28 a patron independently dispenses beer, wine, or spirits, to
29 deactivate the device at the end of each business day, to
30 limit the amount of wine, beer, or spirits dispensed in a
31 single transaction, and to exercise care and employ sufficient
32 persons to ensure that only persons of legal age may obtain
33 beer, wine, or spirits from the device and that a patron served
34 beer, wine, or spirits through an automated dispensing device
35 is not intoxicated. The bill grants the alcoholic beverages

1 division the authority to rescind the automated dispensing
2 device privilege for failure to comply with the requirements of
3 this new section.

4 The bill includes a transition provision allowing a liquor
5 control licensee, beer permittee, or wine permittee granted a
6 waiver to dispense wine or beer through an automated dispensing
7 device as of the effective date of the bill to continue
8 to dispense wine or beer through an automated dispensing
9 device subject to the conditions provided in the waiver until
10 September 30, 2016.
