2 its subscribers served by the E911 system to the director of
3 the department of homeland security and emergency management
4 to use in the mass notification and emergency messaging
5 system. The bill adds the director of the department of
6 homeland security and emergency management and local emergency
7 management commissions to the list of persons and entities that
8 must use this information solely for the purposes of providing
9 E911 emergency telephone service or providing mass notification
10 and emergency messaging services. The bill eliminates language
11 limiting use of this subscriber information to information
12 about a subscriber that consents to the services. Current
13 law provides that this information is confidential and that a
14 violation of such provisions is a simple misdemeanor.
15 The bill replaces the term "911 call alert" with "mass
16 notification and emergency messaging services".
