8 the explanation's substance by the members of the general assembly.

9 BILL. This bill provides that two out of five soil and water
10 conservation commissioners may reside in the same township.

11 BACKGROUND. The state contains 100 soil and water
12 conservation districts whose respective jurisdictions are
13 generally based on county lines. Each district is governed
14 by nonpartisan commissioners who are elected to serve
15 for four-year staggered terms. Under current law, only
16 one commissioner may reside in a single township and if
17 a commissioner moves to live in a township where another
18 commissioner resides, the moving commissioner's office becomes
19 vacant and a replacement is appointed for the unexpired term by
20 the state soil conservation committee.
