31     Sec. 9. NEW SECTION. **16.205 Water quality project financial**  
32 **assistance program — committee created — rules — use of funds.**

33     1. The authority, in cooperation with the department of  
34 natural resources and the department of agriculture and land  
35 stewardship, shall establish and administer a water quality

1 project financial assistance program. The purpose of the  
2 program shall be to provide financial assistance to enhance  
3 the quality of surface water and groundwater, particularly  
4 by providing financial assistance for projects designed to  
5 improve water quality through collaboration between point  
6 and nonpoint sources. The authority may provide financial  
7 assistance in the form deemed most convenient for the efficient  
8 financing of projects, including loans, forgivable loans, and  
9 grants. However, the authority shall administer the fund and  
10 the program in such a manner as to provide a permanent source  
11 of water quality project financial assistance to eligible  
12 entities.

13 2. The program shall be administered by the authority  
14 in accordance with rules adopted by the authority pursuant  
15 to chapter 17A. In adopting such rules, the authority shall  
16 consult with the department of natural resources and the  
17 department of agriculture and land stewardship.

18 3. The authority shall process and review financial  
19 assistance applications and make recommendations to the  
20 committee.

21 4. *a.* A water quality project financing committee is  
22 created to consider applications for financial assistance from  
23 eligible entities and approve awards of financial assistance  
24 under the program. The committee shall consist of three  
25 members, one appointed by the executive director of the  
26 authority, one appointed by the director of the department  
27 of natural resources, and one appointed by the secretary of  
28 agriculture.

29 *b.* The committee shall review project plans submitted  
30 pursuant to section 16.206, negotiate project details with  
31 eligible entities, and make financial assistance awards. The  
32 provision of financial assistance under the program shall take  
33 into account the number of persons comprising an eligible  
34 entity and the eligible entity's financing capacity as well as  
35 the extent to which the proposed projects will improve water

1 quality.

2     *c.* The committee shall score applications for financial  
3 assistance according to rules adopted pursuant to this part.  
4 The committee shall only provide financial assistance to  
5 eligible entities that have sufficient financing capacity and  
6 that propose a plan likely to make progress toward achieving  
7 the goals for agricultural and nonpoint sources described in  
8 the Iowa nutrient reduction strategy.

9     5. The authority shall determine the interest rate  
10 and repayment terms for loans made under the program, in  
11 cooperation with the department of natural resources and  
12 the department of agriculture and land stewardship, and the  
13 authority shall enter into loan agreements with eligible  
14 entities in compliance with and subject to the terms and  
15 conditions of the program.

16     6. The authority shall adopt rules relating to the  
17 proportional liability, if any, of members of an eligible  
18 entity when such eligible entity enters into a loan agreement  
19 under the program.

20     7. The authority may charge loan recipients fees and assess  
21 costs against such recipients necessary for the continued  
22 operation of the program. Such fees and costs shall not exceed  
23 the costs directly associated with the administration of the  
24 program. Fees and costs collected pursuant to this subsection  
25 shall be deposited in the appropriate fund or account created  
26 in section 16.204.

27     8. Financial assistance under the program shall be used by  
28 eligible entities to fund projects designed to improve water  
29 quality.

30     Sec. 10. NEW SECTION. 16.206 Eligible entities — project  
31 plans — agreements required.

32     1. A financing entity may apply to the authority for  
33 financial assistance under the program. To be eligible, a  
34 financing entity shall meet the following requirements:

35     *a.* The financing entity shall include two or more entities

1 acting jointly to propose a project plan designed to improve  
2 water quality in a local area or watershed.

3     **b.** The plan shall include one or more projects that  
4 substantially improve water quality in the local area or  
5 watershed. Preference shall be given to projects that will  
6 have the greatest impact on achieving the goals of the Iowa  
7 nutrient reduction strategy, and plans designed to achieve  
8 those goals shall be presumed to substantially improve water  
9 quality in the local area or watershed.

10     **c.** The plan shall describe in detail the manner in which  
11 the projects will be financed and undertaken, including the  
12 sources of financing for the projects as well as the public or  
13 private entities that will be receiving the revenues and how  
14 such revenues will be spent on the projects. In describing the  
15 projects and financing, the plan should attempt to quantify  
16 the amount of nutrient reduction to be achieved under the  
17 plan and should provide a reasonable means for verification  
18 of the amount of nutrient reduction after the projects have  
19 been financed and completed. Preference shall be given to  
20 a financing entity that has had its plan evaluated by the  
21 Iowa nutrient research center established in section 466B.47.  
22 Preference shall also be given to a financing entity that has  
23 contracted with the Iowa nutrient research center to verify  
24 the amount of nutrient reduction achieved by the project upon  
25 project completion.

26     **d.** (1) The plan may include a nutrient reduction exchange  
27 between two or more members of the financing entity. A plan  
28 that includes a nutrient reduction exchange shall be presumed  
29 to substantially improve water quality in the local area or  
30 watershed.

31     (2) For purposes of this paragraph:

32     (a) "*Nutrient reduction*" means a reduction in nitrogen or  
33 phosphorus as measured against standards or goals established  
34 or adopted by the committee.

35     (b) "*Nutrient reduction credit*" means an amount of nutrient

1 reduction expressed as a unit of measurement that is calculated  
2 using research-based modeling or other methods established or  
3 adopted by the committee.

4 (c) *“Nutrient reduction exchange”* means an agreement between  
5 one or more point source or nonpoint source contributors  
6 and one or more other parties whereby nutrient reduction  
7 credits are purchased, sold, traded, or exchanged for legal  
8 consideration through a trading system approved by the  
9 department of natural resources.

10 2. Any eligible entity receiving financial assistance under  
11 the program shall enter into an agreement with the authority.  
12 The agreement shall include standard terms for the receipt of  
13 program funds and any other terms the authority deems necessary  
14 and convenient for the efficient administration of the program.

16 to read as follows:

17 1. **This chapter** provides a means for the joint financing

20 in a sanitary manner of liquid and solid waste, sewage, and  
21 industrial waste, facilities used for the conversion of solid  
22 waste to energy, facilities, improvements, or projects in a  
23 watershed useful for flood control, erosion control, or water  
24 quality restoration by a water utility, wastewater utility,  
25 or storm water utility, whether located within or without the  
26 corporate boundaries of a municipal corporation, and also  
27 electric power facilities constructed within the state of

1 and use tax agreement. The director shall provide appropriate  
2 forms, or provide on the regular state tax forms, for reporting  
3 state water service tax liability.

4 2. The director may require all persons who are engaged  
5 in the business of deriving any sales price or purchase  
6 price subject to tax under this chapter to register with  
7 the department. The director may also require a tax permit  
8 applicable only to this chapter for any retailer not  
9 collecting, or any user not paying, taxes under chapter 423.

10 3. Section 422.25, subsection 4, sections 422.30, 422.67,  
11 and 422.68, section 422.69, subsection 1, sections 422.70,  
12 422.71, 422.72, 422.74, and 422.75, section 423.14, subsection  
13 1, and sections 423.23, 423.24, 423.25, 423.31 through  
14 423.35, 423.37 through 423.42, and 423.47, consistent with the  
15 provisions of this chapter, shall apply with respect to the tax  
16 authorized under this chapter in the same manner and with the  
17 same effect as if the excise taxes on the sale or furnishing of  
18 a water service were retail sales taxes within the meaning of  
19 those statutes. Notwithstanding this subsection, the director  
20 shall provide for quarterly filing of returns and for other  
21 than quarterly filing of returns both as prescribed in section  
22 423.31. All taxes collected under this chapter by a retailer  
23 or any user are deemed to be held in trust for the state of  
24 Iowa.

25 Sec. 36. NEW SECTION. **423G.6 Deposit of revenues.**

26 1. All moneys received and all refunds shall be deposited in  
27 or withdrawn from the general fund of the state.

28 2. Subsequent to the deposit in the general fund of the  
29 state, the department shall transfer the following amounts of  
30 revenues collected to the water quality financial assistance  
31 fund created in section 16.198:

32 a. For revenues collected on or after July 1, 2017, but  
33 before August 1, 2018, one-sixth of the revenues.

34 b. For revenues collected on or after August 1, 2018, but  
35 before August 1, 2019, one-third of the revenues.

1 c. For revenues collected on or after August 1, 2019, but  
2 before August 1, 2020, one-half of the revenues.

3 d. For revenues collected on or after August 1, 2020, but  
4 before August 1, 2021, two-thirds of the revenues.

5 e. For revenues collected on or after August 1, 2021, but  
6 before August 1, 2022, five-sixths of the revenues.

7 f. For revenues collected on or after August 1, 2022, one  
8 hundred percent of the revenues.

9 Sec. 37. NEW SECTION. 423G.7 Future repeal.

10 This chapter is repealed on the date on which all bonds,  
11 notes, or other debt instruments issued on or before June  
12 30, 2042, pursuant to section 16.202, are fully paid. The  
13 executive director of the Iowa finance authority shall notify  
14 the Iowa Code editor upon the occurrence of this condition.

15 Sec. 38. Section 455B.171, subsection 19, Code 2017, is  
16 amended to read as follows:

17 19. "Point source" means any discernible, confined, and  
18 discrete conveyance, including but not limited to any pipe,  
19 ditch, channel, tunnel, conduit, well, discrete fissure,  
20 container, rolling stock, concentrated animal feeding  
21 operation, or vessel or other floating craft, from which  
22 pollutants are or may be discharged. "Point source" does not  
23 include agricultural storm water discharges and return flows  
24 from irrigated agriculture.

25 Sec. 39. Section 455B.176A, subsection 1, Code 2017, is  
26 amended by adding the following new paragraphs:

27 NEW PARAGRAPH. 0d. "Iowa nutrient reduction strategy" means  
28 the same as defined in section 16.201.

29 NEW PARAGRAPH. 00d. "Nutrient" means total nitrogen and  
30 total phosphorus.

31 Sec. 40. Section 455B.176A, subsection 5, Code 2017, is  
32 amended to read as follows:

33 5. a. The commission shall adopt rules designating water  
34 quality standards which shall be specific to each designated  
35 use adopted pursuant to subsection 4. The standards shall take

1 into account the different characteristics of each designated  
2 use and shall provide for only the appropriate level of  
3 protection based upon that particular use. The standards shall  
4 not be identical for each designated use unless required for  
5 the appropriate level of protection. The appropriate level of  
6 protection and standards shall be determined on a scientific  
7 basis.

8 b. In the development process for the water quality  
9 standards, input shall be received from a water quality  
10 standards advisory committee convened by the department. The  
11 water quality standards advisory committee shall be comprised  
12 of experts in the scientific fields relating to water quality,  
13 such as environmental engineering, aquatic toxicology,  
14 fisheries biology, and other life sciences and experts in  
15 the development of the appropriate levels of aquatic life  
16 protection and standards. The water quality standards shall be  
17 reviewed and revised by the department as new scientific data  
18 becomes available to support revision.

19 c. The department shall provide support to the department of  
20 agriculture and land stewardship in their efforts to implement  
21 their responsibilities under the Iowa nutrient reduction  
22 strategy.

23 Sec. 41. Section 466B.3, subsection 3, paragraph c, Code  
24 2017, is amended to read as follows:

25 c. Whether the funds, programs, and regulatory efforts  
26 coordinated by the council eventually result in a long-term  
27 improvement to the quality of surface water in Iowa. To  
28 evaluate the progress achieved over time toward the goals of  
29 the Iowa nutrient reduction strategy, as defined in section  
30 455B.176A, and the United States environmental protection  
31 agency gulf hypoxia action plan, the baseline condition shall  
32 be calculated for the time period from 1980 to 1996.

33 Sec. 42. Section 466B.42, Code 2017, is amended to read as  
34 follows:

35 **466B.42 Water quality initiative.**

1 The division shall establish a water quality initiative  
2 in order to assess and reduce nutrients in this state's  
3 watersheds, including subwatersheds, and regional watersheds,  
4 and for implementing its responsibilities under the Iowa  
5 nutrient reduction strategy as defined in section 455B.176A.  
6 The division shall establish and administer projects to  
7 reduce nutrients in surface waters from nonpoint sources in  
8 a scientific, reasonable, and cost-effective manner. The  
9 division shall utilize a pragmatic, strategic, and coordinated  
10 approach with the goal of accomplishing reductions over time.  
11 To evaluate the progress achieved over time toward the goals  
12 of the Iowa nutrient reduction strategy and the United States  
13 environmental protection agency gulf hypoxia action plan, the  
14 baseline condition shall be calculated for the time period from  
15 1980 to 1996.

16 Sec. 43. NEW SECTION. **466B.43 Water quality agriculture**  
17 **infrastructure programs.**

18 1. As part of the water quality initiative established  
19 pursuant to section 466B.42, the division shall administer  
20 water quality agriculture infrastructure programs created in  
21 this section.

22 2. a. The purpose of the programs is to support projects  
23 for the installation of infrastructure, including conservation  
24 structures, practices, or other measures that reduce  
25 contributing nutrient loads, associated sediment, or pollutants  
26 from point and nonpoint sources to surface waters. The  
27 programs shall be administered in a manner that is consistent  
28 with the Iowa nutrient reduction strategy, as defined in  
29 section 16.201.

30 b. In making awards of financial assistance under the  
31 programs, the division shall attempt to complement the purposes  
32 of the water quality project financial assistance program  
33 under sections 16.201 through 16.206 and the water quality  
34 protection and wastewater treatment grant program under section  
35 16.140. Preference shall be given to landowners that are

1 part of a financing entity participating in the water quality  
2 project financial assistance program and to landowners that are  
3 participating in the water quality protection and wastewater  
4 treatment grant program. The division, the Iowa finance  
5 authority, landowners, and financing entities shall, when  
6 possible, coordinate financing between the programs created in  
7 this section, the water quality project financial assistance  
8 program, and the water quality protection and wastewater  
9 treatment grant program, in order to promote the most effective  
10 use of resources.

11 3. An edge-of-field infrastructure program is created.  
12 The program shall support projects located on agricultural  
13 land, which may include demonstration projects, that capture  
14 or filter nutrients entering into a surface water. The  
15 program's projects shall be limited to infrastructure designed  
16 and installed for use over multiple years, including but not  
17 limited to wetlands, bioreactor systems, saturated buffers,  
18 edge-of-stream buffers, or land use changes. The program shall  
19 be financed on a cost-share basis.

20 4. An in-field infrastructure program is created. The  
21 program shall support projects located on agricultural land,  
22 which may include demonstration projects, that decrease erosion  
23 and precipitation-induced surface runoff, increase water  
24 infiltration rates, and increase soil sustainability. The  
25 program's projects shall be limited to infrastructure designed  
26 and installed for use over multiple years, including but not  
27 limited to structures, terraces, and waterways located on  
28 cropland or pastureland, and including but not limited to soil  
29 conservation or erosion control structures, managed drainage  
30 systems, or edge-of-stream buffers. The program shall be  
31 financed on a cost-share basis.

32 5. Any state moneys used to finance a project under  
33 a water quality agriculture infrastructure program shall  
34 be administered according to an agreement entered into by  
35 the division and either the owner of the land where the

1 infrastructure is to be installed or a financing entity  
2 participating in the water quality project financial assistance  
3 program under sections 16.201 through 16.206. The agreement  
4 shall include standard terms and conditions for the receipt of  
5 program moneys and any other terms and conditions the division  
6 deems necessary or convenient for the efficient administration  
7 of the project or program. The division may support multiple  
8 installations of infrastructure on a single parcel of land.  
9 The division may also combine programs if cost effective.  
10 The division may annually use an amount of not more than  
11 four percent of the moneys used to support each program for  
12 administrative purposes.

13 6. By October 1, 2018, and each October 1, thereafter, the  
14 division shall submit a report to the governor and the general  
15 assembly itemizing expenditures, by hydrologic unit code 8  
16 watershed, under the programs during the previous fiscal year.

17 7. Any information obtained by the division identifying  
18 a person holding a legal interest in agricultural land or  
19 specific agricultural land shall be a confidential record under  
20 section 22.7.

21 Sec. 44. LEGISLATIVE INTENT. It is the intent of the  
22 general assembly that the amendment in this Act to the  
23 definition of "point source" in section 455B.171, subsection  
24 19, is a conforming amendment consistent with current state  
25 and federal law, and that the amendment does not change the  
26 application of current law but instead reflects current law  
27 both before and after the enactment of this Act.

28 Sec. 45. RETROACTIVE APPLICABILITY. The following  
29 provision or provisions of this Act apply retroactively to  
30 January 1, 2017, for tax years beginning on or after that date:

31 1. The section of this Act enacting section 422.7,  
32 subsection 2, paragraph "0h".

33

EXPLANATION

34 The inclusion of this explanation does not constitute agreement with  
35 the explanation's substance by the members of the general assembly.

1 This bill relates to water quality by establishing new water  
2 quality programs, providing for appropriations from the rebuild  
3 Iowa infrastructure fund and making other appropriations and  
4 changes related to water quality, and creating a state water  
5 service excise tax and a related sales tax exemption.

6 REBUILD IOWA INFRASTRUCTURE FUND APPROPRIATIONS FOR WATER  
7 QUALITY AGRICULTURE INFRASTRUCTURE PROGRAMS.

8 RIIF appropriations — The bill provides for a total of  
9 \$232 million of appropriations over 13 fiscal years from the  
10 rebuild Iowa infrastructure fund in Code section 8.57 to a  
11 water quality infrastructure fund created in the bill (Code  
12 section 8.57B) to be used by the division of soil conservation  
13 and water quality of the department of agriculture and land  
14 stewardship (soil and water division) in administering two new  
15 water quality agriculture infrastructure programs, described  
16 below. The appropriations shall be as follows: \$5 million for  
17 fiscal year 2017-2018; \$6.5 million for fiscal year 2018-2019;  
18 \$11.5 million for fiscal year 2019-2020; \$16.5 million per  
19 fiscal year for the two-year fiscal period beginning July 1,  
20 2020, and ending June 30, 2022; and \$22 million per fiscal year  
21 for the eight-year fiscal period beginning July 1, 2022, and  
22 ending June 30, 2030. The water quality infrastructure fund  
23 is repealed on the date that all moneys transferred to the  
24 fund from the rebuild Iowa infrastructure fund as provided in  
25 the bill, including any interest or earnings on such moneys  
26 credited to the fund, are expended by the soil and water  
27 division, and the balance of the fund is zero.

28 Water quality agriculture infrastructure programs — As  
29 part of the existing water quality initiative of the soil and  
30 water division in Code section 466B.42, the bill establishes  
31 two water quality agriculture infrastructure programs (Code  
32 section 466B.43), consisting of an edge-of-field infrastructure  
33 program and an in-field infrastructure program, that will  
34 provide financing on a cost-share basis to certain agriculture  
35 infrastructure projects, including demonstration projects.

1 The edge-of-field program will support projects that capture  
2 or filter nutrients entering into surface water. The bill  
3 includes wetlands, bioreactor systems, saturated buffers,  
4 edge-of-field buffers, and land use changes as examples  
5 of projects that may qualify. The in-field infrastructure  
6 program will support projects that decrease erosion and  
7 precipitation-induced surface runoff, increase water  
8 infiltration rates, and increase soil sustainability. The bill  
9 includes structures, terraces, waterways located on cropland  
10 or pastureland, and soil conservation or erosion control  
11 structures or managed drainage systems, and edge-of-field  
12 buffers as examples of projects that may qualify.

13 The bill provides for the purpose of the programs and  
14 requires that the programs be administered in a manner that  
15 is consistent with the Iowa nutrient reduction strategy, as  
16 defined in the bill. Both programs are to be administered  
17 in a way that coordinates with, and attempts to complement  
18 the purposes of, the water quality project financial  
19 assistance program and the water quality protection and  
20 wastewater treatment grant program created in the bill  
21 and described below, and preference is to be given to  
22 landowners participating in those programs. Both water  
23 quality agriculture infrastructure programs require that  
24 projects be located on agricultural land and limit projects to  
25 infrastructure designed and installed for use over multiple  
26 years. The bill requires that the soil and water division  
27 and either landowners or financing entities participating in  
28 the water quality protection financial assistance program,  
29 described below, enter into agreements for financing projects  
30 under the programs, provides that the soil and water division  
31 may support multiple installations of infrastructure on a  
32 single parcel of land, and provides that the two programs  
33 may be combined by the soil and water division if it is cost  
34 effective to do so. The soil and water division is allowed  
35 to annually use up to 4 percent of the programs' moneys for

1 administrative purposes. Beginning in 2018, the soil and  
2 water division is required to submit a report by October 1 of  
3 each year to the general assembly and the governor detailing  
4 expenditures for the previous fiscal year under the programs  
5 by hydrologic unit code 8 watershed. The bill provides that  
6 certain information related to agricultural land and obtained  
7 by the soil and water division under the programs shall be  
8 considered a confidential record under Code section 22.7.

9 WATER SERVICE EXCISE TAX FOR CERTAIN WATER QUALITY PROGRAMS.

10 Water service excise tax and related sales tax exemption —  
11 The bill exempts from the state sales tax the sales price from  
12 the sale or furnishing by a water utility of a water service in  
13 the state to consumers or users. "Water service" and "water  
14 utility" are defined in the bill.

15 By operation of Code section 423.6, an item exempt from the  
16 imposition of the sales tax is also exempt from the use tax  
17 imposed in Code section 423.5.

18 The bill creates a state excise tax at the rate of 6 percent  
19 on the sales price from the sale or furnishing by a water  
20 utility of a water service in the state to consumers or users  
21 (Code chapter 423G). The director of revenue is required  
22 to administer the water service tax as nearly as possible  
23 in conjunction with the administration of the state sales  
24 and use tax laws, and, to that end, the bill incorporates by  
25 reference numerous Code sections that relate to general tax  
26 administration and the sales and use tax laws.

27 State water service tax revenues are deposited in the  
28 general fund of the state. The bill requires an increasing  
29 portion of the state water service tax revenues collected each  
30 year to be transferred to a water quality financial assistance  
31 fund created in the bill (Code section 16.198) to support  
32 various water quality programs, described below. Transfers to  
33 the water quality financial assistance fund equal one-sixth of  
34 the water service tax revenues collected on or after July 1,  
35 2017, but before August 1, 2018, and increases to one-third,

1 one-half, two-thirds, and five-sixths over the next four years.  
2 All water service tax revenues collected on or after August  
3 1, 2022, will be transferred to the water quality financial  
4 assistance fund.

5 The state and local water service tax is repealed on the date  
6 on which all bonds, notes, or other debt instruments issued by  
7 the Iowa finance authority (IFA) on or before June 30, 2042,  
8 under the water quality project financial assistance program,  
9 described below, are fully paid.

10 Water service tax revenues transferred to the water quality  
11 financial assistance fund are then appropriated from the  
12 fund as follows: one-sixth of the moneys in the fund is  
13 appropriated to IFA to support the water quality protection and  
14 wastewater treatment grant program created in the bill (Code  
15 section 16.140), and five-sixths of the moneys in the fund  
16 is appropriated to IFA to support the water quality project  
17 financial assistance program created in the bill (Code sections  
18 16.201 through 16.206).

19 Water quality protection and wastewater treatment grant  
20 program (Code section 16.140) — This program, administered by  
21 IFA, provides financial assistance in the form of grants to  
22 municipalities and eligible entities for projects or activities  
23 that enhance water quality, upgrade water and wastewater  
24 infrastructure, or implement the nutrient reduction strategy.  
25 "Municipality", "eligible entity", and other related terms are  
26 defined in the bill. The bill describes the types of projects  
27 or activities that qualify for grants under the program.  
28 The program gives priority in awarding grants to projects  
29 or activities that provide improvement to water quality in  
30 the relevant watershed, and that also have private financing  
31 or certain other state or federal financing as described in  
32 the bill. Grants shall not exceed \$500,000 per recipient.  
33 The program requires IFA to submit a report by October 1 of  
34 each year to the governor and the general assembly detailing  
35 expenditures for the previous year under the program, and

1 creates a program review committee consisting of eight members,  
2 as provided in the bill, to review the effectiveness of the  
3 program every 10 years, beginning in 2027.

4 Water quality project financial assistance program (Code  
5 sections 16.201 through 16.206) — This program provides  
6 financial assistance to eligible entities that engage in a  
7 project designed to improve water quality or water resource  
8 management for the purpose of enhancing the quality of surface  
9 water and groundwater. "Eligible entity", "project", and  
10 other related terms are defined in the bill. The program  
11 is administered by IFA in cooperation with the department of  
12 natural resources (DNR) and the department of agriculture  
13 and land stewardship (IDALS). The program allows IFA to  
14 provide financial assistance in the form it deems most  
15 convenient, including loans, forgivable loans, and grants,  
16 but requires that the program be a permanent source of water  
17 quality financial assistance. The program allows financing  
18 entities, as defined in the bill, to apply to IFA for financial  
19 assistance and submit project plans that substantially improve  
20 water quality in the local area or watershed, and provides  
21 certain application requirements. Preference under the program  
22 shall be given to projects that will have the greatest impact  
23 on achieving the goals set forth in the nutrient reduction  
24 strategy, and plans designed to achieve those goals shall be  
25 presumed to improve water quality. Also, plans that include a  
26 nutrient reduction exchange, as defined in the bill, between  
27 two or more members of the eligible entity will be presumed to  
28 substantially improve water quality.

29 Preference under the program is to be given to eligible  
30 entities that have project plans evaluated by the Iowa nutrient  
31 research center (Code section 466B.47), and to eligible  
32 entities that contract with the Iowa nutrient research center  
33 to verify the amount of nutrient reduction achieved by the  
34 project upon project completion.

35 The bill creates a three-member committee to review project

1 plans, review and score applications, and make financial  
2 assistance awards. The executive director of IFA, the director  
3 of DNR, and the secretary of agriculture each appoint one  
4 member to the committee. Eligible entities receiving financial  
5 assistance awards are required to enter into agreements with  
6 IFA, and IFA determines the terms of any loan and may charge  
7 fees and costs necessary for the continued operation of the  
8 program. The bill requires IFA to adopt rules relating to  
9 the proportional liability, if any, of members of an eligible  
10 entity that enter into a loan agreement under the program.

11 The bill creates a water quality project financial  
12 assistance fund administered by IFA to provide financial  
13 assistance under the program. The bill allows IFA to establish  
14 and maintain other funds and accounts necessary to carry out  
15 the purposes of the program.

16 The bill allows IFA to issue until June 30, 2042, bonds and  
17 notes for the purpose of funding the program, and the bill  
18 provides several requirements for the issuance of such bonds  
19 and notes, for loan or purchase agreements with bondholders  
20 or noteholders, for the pledging of certain funds toward the  
21 repayment of the bonds and notes, and for the establishment of  
22 reserve funds to secure the bonds and notes. The bill also  
23 includes other provisions related to the notes and bonds,  
24 including that such bonds and notes are exempt from taxation  
25 by the state.

26 MISCELLANEOUS PROVISIONS. The bill amends the powers of  
27 a soil and water conservation district under chapter 161A to  
28 include the completion of certain projects as described in the  
29 bill, and to allow a district to apply for financial assistance  
30 under the water quality project financial assistance program.

31 The bill amends provisions in Code chapter 161C governing  
32 the water protection projects and practices of a soil and water  
33 conservation district by adding to the types of projects the  
34 district may engage in and the type of entities the district  
35 may work with to complete such projects.

1 The bill amends various provisions of Code chapter 161E  
2 (flood and erosion control) to add to the types of projects a  
3 county may engage in or offer financial assistance for under  
4 that Code chapter, or to levy a property tax for under that  
5 Code chapter, and to add to the types of entities the county  
6 may work with to complete projects.

7 The bill amends provisions in Code chapter 161F (soil  
8 conservation and flood control districts) to add to the  
9 types of projects a soil conservation and flood control  
10 district established by a county may engage in under that Code  
11 chapter, and the types of entities a district may work with  
12 to complete such projects. The bill also specifies that a  
13 district established pursuant to Code chapter 161F shall not  
14 be considered a drainage district established pursuant to Code  
15 chapter 468.

16 The bill adds to the types of projects that a public agency  
17 may complete through joint financing with another public agency  
18 under Code chapter 28F (joint financing of public works and  
19 facilities), and further specifies that the powers enumerated  
20 in Code section 28F.1 shall not be construed or interpreted to  
21 create or expand the authority to acquire real property through  
22 the use of eminent domain.

23 The bill amends provisions governing certain projects  
24 completed and financed by a city under Code chapter 384 (city  
25 finance). The bill adds to the types of projects specified  
26 that meet the definition of a "water resource restoration  
27 project", which is a type of project a city may engage in  
28 and issue revenue bonds or pledge orders for. The bill also  
29 amends the definition of "qualified entity" to include entities  
30 created under Code chapter 28F (joint financing of public  
31 works and facilities). Under current law, a city may enter
