22 EXPLANATION

23 The inclusion of this explanation does not constitute agreement with  
24 the explanation's substance by the members of the general assembly.

25 This bill relates to price transparency for prescription  
26 drugs and cost-sharing calculations by carriers.

27 The bill requires a manufacturer to file an annual report  
28 with the commissioner of insurance (commissioner) that  
29 discloses the wholesale acquisition cost for all prescription  
30 drugs manufactured by the manufacturer that were sold to a  
31 person in this state in the immediately preceding calendar  
32 year. "Wholesale acquisition cost" or "cost" is defined in the  
33 bill as the manufacturer's list price for a prescription drug  
34 for wholesalers or direct purchasers in the United States, not  
35 including prompt pay or other discounts, rebates, or reductions

1 in price, for the most recent month for which the information  
2 is available, as reported in wholesale price guides or other  
3 publications of drug or biological pricing data. Within 30  
4 calendar days of receipt, the commissioner is required to  
5 publish this information from the annual reports on a publicly  
6 accessible internet site.

7 If a prescription drug sold to a person in this state  
8 has a cost of \$100 or more for a 30-day supply and the cost  
9 increases 40 percent or more over the three preceding calendar  
10 years, or increases 15 percent or more in the preceding  
11 calendar year, the manufacturer of the prescription drug must  
12 file a report with the commissioner within 30 calendar days  
13 of the date on which the 40 or 15 percent increase in cost  
14 occurs. This requirement is applicable to all manufacturers  
15 that manufactured prescription drugs that are sold to a  
16 person in this state on or after January 1, 2020. The report  
17 must include the information detailed in the bill. Certain  
18 information provided by a manufacturer, as detailed in the  
19 bill, is considered a confidential record and is required  
20 to be protected as a trade secret. Within 60 calendar days  
21 of receipt, the commissioner is required to publish the  
22 nonconfidential information on the same publicly accessible  
23 internet site on which the manufacturer's annual report  
24 information is published.

25 The bill requires each health carrier to submit an annual  
26 report by February 1 to the commissioner that contains  
27 information as detailed in the bill across all of the health  
28 carrier's health benefit plans. This requirement is applicable  
29 to all health benefit plans providing for third-party payment  
30 or prepayment of health or medical expenses that provide a  
31 prescription drug benefit that have been delivered, issued  
32 for delivery, continued, or renewed in this state on or after  
33 January 1, 2020. "Health carrier" is defined in the bill as an  
34 entity subject to the insurance laws and regulations of this  
35 state, or subject to the jurisdiction of the commissioner,

1 including an insurance company offering sickness and accident  
2 plans, a health maintenance organization, a nonprofit health  
3 service corporation, a plan established pursuant to Code  
4 chapter 509A for public employees, or any other entity  
5 providing a plan of health insurance, health care benefits,  
6 or health care services. Certain information provided by  
7 a health carrier, as detailed in the bill, is considered a  
8 confidential record and must be protected as a trade secret.  
9 Prior to May 1 of each year, the commissioner must publish the  
10 nonconfidential data received by the commissioner on the same  
11 publicly accessible internet site on which the manufacturers'  
12 information is published. The data must be aggregated from the  
13 annual reports submitted by all health carriers.

14 The bill directs the commissioner to adopt rules as  
15 necessary to administer the requirements outlined in the  
16 bill and allows the commissioner to take any action within  
17 the commissioner's authority to enforce compliance with the  
18 manufacturer and health carrier reporting requirements outlined  
19 in the bill.

20 The bill also requires a carrier to include all cost-sharing  
21 amounts paid by an enrollee of a health plan, or by another  
22 person on behalf of an enrollee, as part of the carrier's  
23 calculation of an enrollee's contribution to the enrollee's  
24 applicable cost-sharing requirement. "Cost-sharing  
25 requirement" is defined in the bill as any copayment,  
26 coinsurance, deductible, or other out-of-pocket expense  
27 obligation required of or on behalf of an enrollee in order  
28 for the enrollee to receive a specific health care service,  
29 including a prescription drug, covered by the enrollee's health  
30 plan. This requirement applies to all health plans delivered,  
31 issued for delivery, continued, or renewed in this state on  
32 or after January 1, 2021. The bill excludes state-regulated  
33 high-deductible health plans (HDHP) from the requirement if it  
34 will result in the plan not qualifying as an HDHP under section  
35 223 of the Internal Revenue Code. The bill also prohibits

H.F. 2551

1 application of the requirement to a carrier or a circumstance  
2 in a manner that will conflict with a federal law or a federal  
3 regulation.
