EXPLANATION

28 The inclusion of this explanation does not constitute agreement with
29 the explanation's substance by the members of the general assembly.

30 This bill relates to the established season for hunting game
31 birds on a preserve.

32 Under current law, a person shall not take a game bird on a
33 hunting preserve except during the established hunting preserve
34 season, which begins on September 1 and ends on March 31. The
35 bill allows a game bird hunting preserve operator to apply for

1 a variance to extend the season beyond March 31 if the monthly
2 precipitation is above average for the county in which the
3 preserve is located for at least two months out of the months
4 of January, February, and March of that season. The bill
5 requires the state climatologist to provide official national
6 weather service and community collaborative rain, hail and
7 snow network data to the department of natural resources to
8 determine whether a variance to the established season shall
9 be granted. The bill prohibits the department from granting a
10 variance that extends the season beyond April 15 of the year
11 for which the variance is requested.

12 The bill also makes a change to the definition of "game bird"
13 to reflect a recent reorganization of bird classification.
