15 This bill strikes Code section 8D.5, which establishes
16 the education telecommunications council and regional
17 telecommunications councils under the Iowa communications
18 network (ICN). Code section 8D.5 provides that the 18-member
19 education telecommunications council is responsible for
20 scheduling and site usage policies for educational users of the
21 ICN, coordinating the activities of regional telecommunications
22 councils, developing proposed rules and changes to rules for
23 recommendation to the Iowa telecommunications and technology
24 commission, and recommending long-range plans for enhancements
25 needed for educational applications. Code section 8D.5 also
26 provides that regional telecommunications councils, established
27 in each merged area as provided in Code chapter 260C, are
28 responsible for advising the education telecommunications
29 council on the assessment of local educational needs and
30 the coordination of program activities. The bill removes
31 references to the education telecommunications council and
32 regional telecommunications councils from Code chapter 8D.
