EXPLANATION

30 The inclusion of this explanation does not constitute agreement with
31 the explanation's substance by the members of the general assembly.

32 This bill relates to area education agencies, including
33 consolidating the area education agencies, modifying the
34 teacher salary supplement state cost per pupil calculation, and
35 modifying the employment terms of certain specified employees

1 of area education agencies.

2 Current law establishes a maximum of 15 area education
3 agencies throughout the state. There are currently nine area
4 education agencies in the state. Area education agencies
5 provide means of identifying and serving children who require
6 special education and provide for media services and other
7 programs for pupils in grades kindergarten through 12 and
8 children requiring special education. The bill provides
9 that the number of area education agencies shall not exceed
10 four on and after July 1, 2023. The bill requires area
11 education agencies to reorganize as necessary to implement
12 this requirement and specifies that area education agencies
13 engaging in such reorganization shall be contiguous. The bill
14 provides that Code sections 273.22 and 273.23, relating to the
15 terms of employment of area education agency employees and the
16 organization of initial area education agency boards, apply to
17 such reorganizations. The bill provides a timeline for the
18 implementation of reorganization of area education agencies by
19 July 1, 2023.

20 Under current law, the teacher salary supplement state cost
21 per pupil is the teacher salary supplement state cost per
22 pupil for the base year plus a supplemental state aid amount
23 that is equal to the categorical state percent of growth for
24 the budget year, multiplied by the teacher salary supplement
25 state cost per pupil for the base year. The bill modifies the
26 calculation of the teacher salary supplement state cost per
27 pupil for the budget year beginning July 1, 2023, by adding to
28 the existing amount the difference between the sum of the total
29 approved budgets for all area education agencies excluding
30 federal moneys for the fiscal year beginning July 1, 2022, and
31 such budget amount for the fiscal year beginning July 1, 2023,
32 divided by the statewide total budget enrollment for the budget
33 year.

34 The bill then, for budget years beginning on or after
35 July 1, 2024, resumes the calculation of the teacher salary

1 supplement state cost per pupil in the manner the amount was
2 calculated previously. The bill also adjusts the calculation
3 of the teacher salary supplement district cost per pupil in a
4 similar manner for the budget year beginning July 1, 2023, and
5 subsequent budget years.

6 The bill requires the boards of directors of area
7 education agencies to allow any person employed by the area
8 education agency who holds a license, certificate, statement
9 of recognition, or authorization other than a coaching
10 authorization, issued by the board of educational examiners
11 under Code chapter 272, to live outside the boundaries of the
12 area education agency and provide educational services and
13 programs meeting certain specified requirements to students
14 primarily over the internet, but only when such services and
15 programs can be provided effectively over the internet.
