32 EXPLANATION

33 The inclusion of this explanation does not constitute agreement with
34 the explanation's substance by the members of the general assembly.

35 This bill relates to the practice of midwifery in Iowa.

1 The bill requires a person practicing midwifery in Iowa
2 to obtain a license to practice beginning July 1, 2023. The
3 bill exempts from regulation health care providers providing
4 services consistent with midwifery, members of Native American
5 tribes or Mennonite or Amish communities providing traditional
6 midwife services, persons who gratuitously engage in the
7 practice of the religious tenets of a church or a religious
8 act, student midwives, and persons rendering emergency aid.
9 Prior to obtaining a midwifery license, a person must be at
10 least 21 years of age, submit proof of a high school diploma or
11 equivalent, submit a fee, submit proof of having completed an
12 educational program or pathway, and hold a current certified
13 professional midwife certificate from the North American
14 registry of midwives. The bill prohibits any person other than
15 a licensed midwife from using the title "licensed midwife".
16 The bill provides an alternative means to completion of an
17 educational program or pathway for persons who received a
18 certified professional midwife certification prior to July 1,
19 2023, or who received a license from a state that does not
20 require completion of an educational program or pathway.

21 The bill creates the board of midwifery to regulate the
22 practice of midwifery in Iowa and makes conforming changes to
23 Code chapters 147 and 272C. The bill requires the board to
24 adopt certain rules for the practice of midwifery and prohibits
25 the board from adopting rules allowing a licensed midwife to
26 order or administer narcotics, limiting the locations where
27 a midwife may practice, or requiring a midwife to practice
28 under a collaborative practice agreement with another health
29 care provider. The bill provides certain requirements for
30 membership on the board of midwifery.

31 The bill limits the liability of a health care provider
32 accepting a transfer of clients from a licensed midwife with
33 respect to outcomes that are the result of actions of the
34 midwife. The bill also requires insurance providers that
35 provide maternity benefits to cover maternity services provided

H.F. 2547

1 by licensed midwives on the same terms as for similar benefits
2 provided by other providers.
