25 EXPLANATION

26 The inclusion of this explanation does not constitute agreement with
27 the explanation's substance by the members of the general assembly.

28 Current law allows the department of transportation (DOT)
29 to authorize the renewal of certain valid driver's licenses
30 without a knowledge examination, including by electronic
31 renewal, so long as certain conditions are met. In order to be
32 eligible for license renewal without a knowledge examination,
33 the applicant must satisfactorily pass a vision test as
34 prescribed by the DOT, file a vision report in accordance
35 with Code section 321.186A which shows that the applicant's

1 visual acuity level meets or exceeds those required by the DOT,
2 or be eligible for license renewal electronically under the
3 DOT's administrative rules. An applicant is not eligible for
4 electronic renewal of a driver's license if the most recent
5 previous renewal of the applicant's driver's license occurred
6 electronically. However, commercial driver's licenses and
7 commercial learner's permits are specifically excluded from
8 being eligible for renewal without a knowledge examination,
9 including by electronic renewal.

10 This bill enables the DOT to authorize the renewal of certain
11 commercial driver's licenses and commercial learner's permits
12 without a knowledge examination, including by electronic
13 renewal, under the conditions set forth in current law.
14 However, applicants seeking renewal for a hazardous material
15 endorsement are still required to pass a knowledge examination
16 in order to obtain or retain the endorsement, pursuant to
17 federal law.

18 The bill takes effect upon enactment.
