23 EXPLANATION

24 The inclusion of this explanation does not constitute agreement with
25 the explanation's substance by the members of the general assembly.

26 Federal law authorizes states to issue special permits
27 allowing the transportation of overweight, divisible loads
28 during emergencies if the president of the United States has
29 declared the emergency to be a major disaster, the permits are
30 issued in accordance with state law, and the permits are issued
31 exclusively for vehicles that are delivering relief supplies.
32 Under current law, the Iowa department of transportation (DOT)
33 does not have the authority to issue such special permits
34 pursuant to the federal authorization.

35 This bill authorizes the DOT to issue special permits

1 pursuant to the federal authorization allowing vehicles and
2 loads delivering relief supplies on the interstate highway
3 system during a declared major disaster to exceed the weight
4 limits under Code section 321.463. The bill allows the DOT
5 to issue special permits to commercial motor carriers that
6 cover all vehicles operated under a carrier's interstate
7 or intrastate motor carrier number, provided all vehicles
8 operating under the commercial motor carrier's permit are
9 delivering relief supplies.
