EXPLANATION

32

The inclusion of this explanation does not constitute agreement with  
33 the explanation's substance by the members of the general assembly.

34

This bill relates to pharmacy practice.

35

Division I of the bill eliminates the tech-check-tech

1 program. The board of pharmacy (board) adopted administrative  
2 rules to implement and establish a technician product  
3 verification program as authorized by 2018 Iowa Acts,  
4 chapter 1142, enacting Code section 155A.33A. Division I  
5 eliminates the one-year registration limitation for a person in  
6 training to become a pharmacy technician and makes conforming  
7 terminology changes. Division I also amends provisions  
8 relating to the delegation of technical functions between  
9 a pharmacist and a pharmacy technician or pharmacy support  
10 person.

11 Division II of the bill requires a drug compounding  
12 outsourcing facility seeking licensure in the state to  
13 have been inspected by the facility's home state regulatory  
14 authority or other entity approved by the board in the two-year  
15 period immediately preceding the application, which inspection  
16 demonstrates compliance with federal current good manufacturing  
17 practices. Division II also allows the board to recover from  
18 an outsourcing facility costs associated with conducting an  
19 inspection to satisfy the inspection requirement.

20 Division III of the bill authorizes the board of pharmacy to  
21 share information collected relating to compounded human drug  
22 products with the United States food and drug administration  
23 (FDA) pursuant to any memorandum of understanding between the  
24 board of pharmacy and the FDA.

25 Division IV of the bill codifies the provisions of 2011 Iowa  
26 Acts, chapter 63, section 36, relating to pharmacy pilot or  
27 demonstration research projects. The language in Division IV  
28 differs from these provisions by eliminating language limiting  
29 the projects to those based solely on prescription verification  
30 and by eliminating the requirement that the board report the  
31 approval or denial of projects to the chairpersons and ranking  
32 members of the joint appropriations subcommittee on health and  
33 human services.
