22 EXPLANATION

23 The inclusion of this explanation does not constitute agreement with  
24 the explanation's substance by the members of the general assembly.

25 This bill provides for the establishment of the safe  
26 and sound program within the department of public safety,  
27 for participation in or use of the program by schools and  
28 students, and for penalties for providing false identification  
29 information through the program.

30 The safe and sound program is established for purposes of  
31 developing and implementing a system for receiving anonymous  
32 reports and other information from the public in regard  
33 to potential self-harm and potential harm or criminal acts  
34 including threats of violence, sexual abuse, assault, or  
35 bullying directed at school students and school entities.

1 The bill defines "school entities" as school districts or  
2 accredited nonpublic schools offering instruction at any or all  
3 levels from the prekindergarten level through grade 12, and  
4 includes school boards, the authorities in charge of accredited  
5 nonpublic schools, and school personnel employed by a school  
6 district or accredited nonpublic school.

7 The program must establish a statewide toll-free hotline,  
8 internet site, and mobile application for receiving the  
9 anonymous reports.

10 The program must also establish methods and procedures  
11 to ensure that the identity of any reporting party remains  
12 anonymous to all unless the individual making the report  
13 voluntarily discloses the individual's identity and indicates a  
14 willingness to be identified, at which point that individual's  
15 identity may be shared with law enforcement officers and school  
16 entities.

17 The program must establish procedures for reviewing the  
18 information received and for reporting that information,  
19 including any analysis of the potential threat, to the  
20 appropriate law enforcement agency, or school entity, as  
21 determined by the department by rule. The program must work  
22 with local law enforcement agencies and school entities to  
23 identify each person to whom a report from the program shall  
24 be sent.

25 Once the program reports information to the appropriate  
26 law enforcement agency or school official, or entity, and the  
27 receiving entity confirms receipt of the report, the department  
28 shall not be held liable for investigation of the information  
29 reported. A person participating in good faith in the making  
30 of a report or participating in any judicial proceeding  
31 resulting from the report shall have immunity from any civil or  
32 criminal liability which would otherwise be imposed as a result  
33 of information shared under the program or learned as a result  
34 of information shared under the program.

35 The program must provide, in consultation with the

1 department of education, training and instruction to  
2 individuals, including but not limited to school entities and  
3 law enforcement agencies, on appropriate awareness and response  
4 to the program; must develop and implement program awareness  
5 initiatives and provide related educational materials to school  
6 entities; and must establish guidelines that school entities  
7 may utilize to respond to a report sent by the program.

8 In consultation with the departments of education, human  
9 services, and public health and the office of the attorney  
10 general, the program must create a threat assessment team to  
11 assist law enforcement agencies and school entities to respond  
12 appropriately to information reported. Each such department or  
13 office must designate one employee to serve on the team. The  
14 team may assist any school entity at the request of local law  
15 enforcement and school officials or administrators.

16 Information and reports provided through the program are  
17 confidential under Code section 22.7.

18 The bill creates a safe and sound revolving fund in the  
19 state treasury under the control of the department. Any moneys  
20 annually appropriated, granted, or credited to the fund,  
21 are appropriated to the department for the program. Moneys  
22 remaining in the revolving fund at the end of the fiscal year  
23 do not revert to the general fund but shall remain available  
24 for the safe and sound program. Interest and earnings on  
25 moneys in the revolving fund are credited to the revolving  
26 fund.

27 Currently, the department of education is responsible  
28 for developing a statewide violence prevention program and  
29 curricula. The bill requires that the department include in  
30 the curricula instruction on the safe and sound program and how  
31 students can use the program.

32 School boards and accredited nonpublic school authorities  
33 must display materials related to the safe and sound program  
34 in at least three locations within every school building;  
35 designate at least two members of the licensed instructional

1 staff to receive information that is reported to the safe and  
2 sound program; and submit the school's emergency operations  
3 plans and any updates to the plans to the department of  
4 education. The department may share such plans with law  
5 enforcement agencies.

6 Under the bill, a person who knowingly provides false  
7 identification information through the safe and sound toll-free  
8 hotline, internet site, or mobile application commits a simple  
9 misdemeanor. A simple misdemeanor is punishable by confinement  
10 for no more than 30 days and a fine of at least \$105 but not  
11 more than \$855.
