6 1. A retail establishment that provides an employee

9 have emergency access to the employee restroom facility during
10 normal business hours if the employee restroom facility is
11 maintained in a reasonably safe manner and all of the following
12 conditions are met:

13 a. The consumer requesting emergency access to the employee

10 employee of a retail establishment, in allowing a consumer who
11 claims to have an eligible medical condition to have emergency
12 access to the retail establishment's employee restroom facility
13 as required by this chapter, results in an injury to or death
14 of the consumer or an individual other than an employee of
15 the retail establishment who is accompanying the consumer
16 in an area not usually accessible to the public, the retail
17 establishment and the employee are immune from civil liability
18 if the act or omission is not grossly negligent.

19 2. An employee restroom facility provided to consumers
20 solely to comply with this section shall not be considered a
21 public restroom for the purposes of laws or regulations that
22 generally govern facilities available to the public, but shall
23 instead be governed by the laws and regulations that otherwise
24 govern the restroom facility if it were not made available to a

EXPLANATION

34 The inclusion of this explanation does not constitute agreement with
35 the explanation's substance by the members of the general assembly.

1 This bill provides for emergency access to an employee
2 restroom facility in retail establishments for individuals with
3 eligible medical conditions.

4 The bill creates a new Code chapter entitled the "Restroom
5 Emergency Access Act".

6 The bill provides definitions for the purposes of the
7 new Code chapter, including "eligible medical condition",
8 which includes Crohn's disease, ulcerative colitis, or any
9 other inflammatory bowel disease, irritable bowel syndrome,
10 any condition requiring the use of an ostomy device, and any
11 other medical condition that requires immediate access to a
12 restroom facility; "employee restroom facility", "health care
13 professional", and "retail establishment".

14 The bill requires a retail establishment that provides
15 an employee restroom facility for its employees and does
16 not normally make a restroom available to the public to
17 allow a consumer emergency access to the employee restroom
18 facility during normal business hours if the employee restroom
19 facility is maintained in a reasonably safe manner and certain
20 conditions are met. The conditions include that the consumer
21 requesting emergency access to the employee restroom facility
22 suffers from an eligible medical condition and provides written
23 documentation of the consumer's condition; a public restroom is
24 not immediately accessible to the consumer; a sufficient number
25 of employees are working at the time the consumer requests
26 emergency access to the employee restroom facility; and the
27 employee restroom facility is located in an area of the retail
28 establishment that does not present an obvious risk to the
29 health or safety of the consumer or an obvious security risk to
30 the retail establishment. The bill does not require a retail
31 establishment to make any physical changes or improvements to
32 an employee restroom facility. The bill provides that if an
33 act or omission of a retail establishment or an employee of a
34 retail establishment, in allowing a consumer who claims to have
35 an eligible medical condition emergency access to the retail

1 establishment's employee restroom facility as required by this
2 chapter, results in an injury to or death of the consumer or an
3 individual other than an employee of the retail establishment
4 who is accompanying the consumer in an area not usually
5 accessible to the public, the retail establishment and the
6 employee are immune from civil liability if the act or omission
7 is not grossly negligent.

8 An employee restroom facility provided to comply with the
9 bill is not to be considered a public restroom for the purposes
10 of laws or regulations that generally govern facilities
11 available to the public, but shall instead be governed by
12 the laws and regulations that otherwise govern the restroom
13 facility if it were not made available to a consumer under the
14 bill.

15 The bill provides for the types of written documentation
16 that are acceptable under the bill and directs the department
17 of public health (DPH) to develop a standard electronic form
18 that may be used by a health care professional to provide the
19 acceptable signed statement under the bill. The bill directs
20 DPH to adopt administrative rules to administer the bill.

21 Under the bill, a retail establishment or an employee of
22 a retail establishment that does not comply with the bill or
23 refuses to provide a consumer emergency access to an employee
24 restroom facility as required by the bill violates the Code
25 chapter. For a first violation, the city or county attorney
26 shall issue a warning letter to the retail establishment and
27 any employee of the retail establishment that denied emergency
28 access in violation of the Code chapter, informing the retail
29 establishment and the employee of the retail establishment
30 of the requirements of this Code chapter. For a second or
31 subsequent violation, the retail establishment or employee is
32 subject to a civil penalty of \$200. The bill also provides
33 that a person who forges, alters, improperly transfers, or
34 knowingly possesses and uses a forged or altered statement by a
35 health care professional or an identification card is subject

S.F. 250

1 to a civil penalty of \$200.
